WATER FOR HUMAN CONSUMPTION

SUBCHAPTER 1

GENERAL PROVISIONS

§2601. Definitions

As used in this chapter, unless the context otherwise indicates, the following words shall have the following meanings. [PL 1975, c. 751, §4 (NEW).]

1. Contaminant. "Contaminant" means any physical, chemical, biological or radiological substance or matter in water.

[PL 1975, c. 751, §4 (NEW).]

1-A. Administrative compliance order. "Administrative compliance order" means an administrative order that is issued by the commissioner against a public water system in violation of state drinking water laws, regulations or rules.

[PL 1993, c. 678, §1 (NEW).]

1-B. Administrative consent order. "Administrative consent order" means an order issued by the commissioner pursuant to a bilateral agreement between the commissioner and a public water system in violation of state drinking water laws, regulations or rules.

[PL 1993, c. 678, §1 (NEW).]

1-C. Administrative penalty. "Administrative penalty" means a fine imposed by the commissioner against a public water system in violation of state drinking water laws, regulations or rules.

[PL 1993, c. 678, §1 (NEW).]

1-D. Administrative remedy. "Administrative remedy" means an administrative compliance order, an administrative consent order or an administrative penalty.

[PL 1993, c. 678, §1 (NEW).]

2. Feasible. "Feasible" means capable of being done within the current limitation of economics and technology, as determined by the commissioner.

[PL 1975, c. 751, §4 (NEW).]

3. Maximum contaminant level. "Maximum contaminant level" means the maximum concentration of a contaminant allowed under the State Primary Drinking Water Regulations in water supplied for human consumption.

[PL 1975, c. 751, §4 (NEW).]

4. National Drinking Water Regulations. "National Drinking Water Regulations" means the drinking water regulations promulgated by the Administrator of the U.S. Environmental Protection Agency under the authority of the Safe Drinking Water Act, P.L. 93-523.

[PL 1975, c. 751, §4 (NEW).]

4-A. Notice of noncompliance. "Notice of noncompliance" means a formal written complaint or a notice of violation of state drinking water laws, regulations or rules.

[PL 1993, c. 678, §1 (NEW).]

5. Operator. "Operator" means an individual either employed or retained by a public water system who, as part of the individual's job duties, is assigned the responsibilities for operational activities that will have a direct impact on the quality or quantity of water provided to consumers.

[PL 1999, c. 688, §1 (AMD).]

6. Person. "Person" means any individual, partnership, company, public or private corporation, political subdivision or agency of the State, department, agency or instrumentality of the United States or any other legal entity.

Any publicly or privately owned system that only stores and distributes water without treating or collecting it; obtains all its water from, but is not owned or operated by, a

public water system; and does not sell water or bottled water to any person is not a "public water system." The term "public water system" includes any collection, treatment, storage or distribution pipes or other constructed conveyances, structures or facilities under the control of the supplier of water and used primarily in connection with such a system, and any collection or pretreatment storage facilities not under that control that are used primarily in connection with such a system. The system does not include the portion of service pipe owned and maintained by a customer of the public water system.

For purposes of this subsection, a connection to a system that delivers water by a constructed conveyance other than a pipe is not considered a connection if:

A. The water is used exclusively for purposes other than residential uses. For the purposes of this subsection, the term "residential uses" includes drinking, bathing, cooking and other similar uses; and [PL 1997, c. 705, §1 (NEW).]

B. The commissioner determines that alternative water to achieve the equivalent level of public health protection provided by the applicable state primary drinking water regulation is provided for residential or similar uses; or [PL 1997, c. 705, §1 (NEW).]

C. The commissioner determines that the water provided for residential or similar uses is centrally treated or treated at the point of entry by the provider, a pass-through entity or the user to achieve the equivalent level of protection provided by the applicable state primary drinking water regulation. [PL 1997, c. 705, §1 (NEW).]

[PL 1997, c. 705, §1 (AMD).]

8-A. Roadside spring. "Roadside spring" means any spring, well or other water diverted by pipes for the use of the public to obtain water by using containers or other methods, including but not limited to water being diverted and collected by a landowner by tiles, pipes, catch basins, buildings or other appurtenances.

[PL 1997, c. 45, §1 (NEW).]

9. Supplier of water. "Supplier of water" means any person who controls, owns or generally manages a public water system.

[PL 1975, c. 751, §4 (NEW).]

9-A. Violation. "Violation" means noncompliance with state drinking water laws, regulations and rules regardless of whether that noncompliance is intentional, negligent or otherwise.

[PL 1993, c. 678, §1 (NEW).]

10. Water treatment plant. "Water treatment plant" means that portion of the public water system which is designed to alter the physical, chemical, biological or radiological quality of the water or to remove any contaminants.

[PL 1975, c. 751, §4 (NEW).]

§2601-A. Scope

This chapter establishes a system designed to help ensure public health; to allow the State, municipalities and public water systems to identify significant public water supplies and strive for a higher degree of protection around source water areas or areas that are used as public drinking water supplies; to allow the State, municipalities and water systems to pursue watershed or wellhead protection activities around significant public water supplies; and to improve testing for and treatment of contaminants or properties in residential private drinking water wells. §2602. Fees for testing

The department shall charge the average cost of the analysis for any examination, testing or analysis required under this chapter and performed in the departmental diagnostic laboratory. The fees must be recalculated and deposited according to section 565, subsection 3 and section 568. [PL 2001, c. 471, Pt. A, §26 (AMD).]

SECTION HISTORY

PL 1975, c. 751, §4 (NEW). PL 2001, c. 471, §A26 (AMD).

§2602-A. Fees for testing private water supplies

1. Purpose. The Legislature finds that there is a growing threat to the State's drinking water from a variety of contaminants or properties and that testing of private residential water supplies is necessary to protect the public health. The Legislature recognizes that certain testing may be prohibitively expensive and accordingly provides for state-funded testing as set forth in this section. [PL 2017, c. 230, §2 (AMD).]

2. Fees. Except as provided in subsection 3, the department shall charge the average cost of the analysis for an examination, testing or analysis of private residential water supplies requested under this chapter. These fees must be recalculated and deposited according to section 565, subsection 3 and section 568, except that the fee charged for testing a private residential water supply may not exceed \$150 when:

A. In the opinion of the department, initial testing or screening performed at the expense of the owner indicates the need for additional testing at a cost in excess of \$150 to determine whether that water supply contains contaminants potentially hazardous to human health and that additional testing is essential to the maintenance of public health; or [PL 1983, c. 837, §1 (NEW).]

B. In the opinion of the department, there is reason to suspect that a private residential water supply may be affected by contamination potentially hazardous to human health and that additional testing is essential to the maintenance of public health. In making such a determination, the department shall consider the following:

- (1) The proximity of the private residential water supply to a known or suspected source of contamination;
- (2) The proximity of the private residential water supply to another private well or water supply known to be contaminated;
- (3) Information provided in writing to the department by a physician who has seen or treated a person and who has identified contaminated drinking water as a possible cause of the person's condition or symptoms; or
- (4) Information provided by the owner or a user of the private residential water supply voluntarily or in response to questions asked by personnel of the department. [PL 1991, c. 499, §3 (AMD); PL 1991, c. 499, §26 (AFF).]

The department shall waive all fees incurred in connection with the testing of a private residential water supply upon a showing of indigency.

[PL 2021, c. 483, Pt. BB, §1 (AMD).]

3. Well water testing for low-income residents. The department shall establish and maintain a program through the Health and Environmental Testing Laboratory established in section 565 to provide free testing for arsenic of the private residential water supplies of low-income residents of the

State. The department may not charge any fee or recover any cost as otherwise permitted by this chapter for a test of a private residential water supply performed for a low-income resident of the State under the program established pursuant to this subsection. As used in this subsection, "low-income resident" means a person who receives assistance under the MaineCare program or the food supplement program under section 3104.

Such samples shall be analyzed by the department. If the water is found to violate the state primary drinking water regulations, the department shall issue an order prohibiting the use of the water for drinking or culinary purposes by the school, which order shall remain in force until the water conforms to the state primary drinking water regulations. [PL 2019, c. 158, §1 (NEW).]

2. Lead testing. To the extent the department provides the necessary resources to a school so that the school is not required to expand or modify its activities so as to necessitate additional expenditures from local revenue, a school shall test water used for drinking or culinary purposes for lead using water testing kits or by submitting samples of water used for drinking or culinary purposes to an approved laboratory under section 2607 for lead testing. If the water is found to violate the water lead levels established by the department, the department shall issue specific guidance to the school on reducing exposure to lead according to procedures established by the department pursuant to subsection 3.

[PL 2019, c. 158, §1 (NEW).]

3. Rules. The department shall adopt rules necessary to implement this section, including, but not limited to, establishing water lead levels; testing protocols, including the frequency of testing; abatement or mitigation methods; procedures for the issuance of guidance to reduce exposure to lead; and public notification procedures. In adopting rules to implement this section, the department shall consider the United States Environmental Protection Agency's recommendations for reducing lead in drinking water in schools.

§2610. Maine Drinking Water Fund

1. Establishment; administration. The Maine Drinking Water Fund, referred to in this section as "the fund," is established as provided in this section.

A. The fund is established as a nonlapsing fund to provide financial assistance, in accordance with subsection 2, for the acquisition, planning, design, construction, reconstruction, enlargement, repair, protection and improvement of public water systems, drinking water supplies and water treatment facilities. [PL 2009, c. 377, §1 (NEW).]

B. The department shall administer the fund. The fund must be invested in the same manner as permitted for investment of funds belonging to the State or held in the State Treasury. The fund must be established and held separate from any other funds and used and administered exclusively for the purpose of this section. The fund consists of the following:

(1) Sums that are appropriated by the Legislature or transferred to the fund from time to time from the State Water and Wastewater Infrastructure Fund, pursuant to Title 30-A, section 6006-H;

(2) Interest earned from the investment of fund balances; and

(3) Other funds from any public or private source received for use for any of the purposes for which the fund has been established. [PL 2009, c. 377, §1 (NEW).]

[PL 2009, c. 377, §1 (NEW).]

2. Uses. The fund may be used for one or more of the following purposes:

A. To make grants to public water systems, pursuant to this section, for the acquisition, planning, design, construction, reconstruction, enlargement, repair, protection or improvement of public

water systems, drinking water supplies or water treatment facilities; [PL 2009, c. 377, §1 (NEW).]

SUBCHAPTER 2

SAFE DRINKING WATER ACT

§2611. Drinking water regulations

1. State primary drinking water regulations. The commissioner shall promulgate and enforce primary drinking water regulations which are necessary to protect the public health and which shall apply to all public water systems. Such regulations shall include:

A. Identification of contaminants which may have an adverse effect on the health of persons; [PL 1975, c. 751, §4 (NEW).]

B. Specifies for each contaminant either:

(1) A maximum contaminant level that is acceptable in water for human consumption, if it is feasible to ascertain the level of such contaminant in water in public water systems; or

(2) One or more treatment techniques or methods which lead to a reduction of the level of such contaminant sufficient to protect the public health, if it is not feasible to ascertain the level of such contaminant in water in the public water system; and [PL 1975, c. 751, §4 (NEW).]

C. Criteria and procedures to assure compliance with the levels or methods determined under paragraph B, including quality control and testing procedures to insure compliance with such levels or methods and to insure proper operation and maintenance of the system, and requirements as to the minimum quality of water which may be taken into the system and the siting for new facilities. [PL 1975, c. 751, §4 (NEW).]

Such regulations shall be no less stringent than the most recent National Primary Drinking Water Regulations in effect, as issued or promulgated by the United States Environmental Protection Agency. Regulations under this subsection may be amended from time to time, as necessary.

[PL 1975, c. 751, §4 (NEW).]

2. State secondary drinking water regulations or guidelines. The commissioner shall adopt secondary drinking water regulations or guidelines which are necessary to protect the public welfare. Such regulations or guidelines may apply to any contaminant in drinking water which may adversely affect the color, odor or appearance of the water and consequently may cause a substantial number of persons to discontinue using a public water system, or which may otherwise adversely affect the public welfare. Such regulations or guidelines may vary according to geographic, economic, technical or other relevant circumstances. Such regulations or guidelines shall reasonably assure the protection of the public welfare and the supply of aesthetically adequate drinking water; and shall be based upon the National Secondary Drinking Water Regulations promulgated by the United States Environmental Protection Agency. Regulations or guidelines under this subsection may be amended from time to time, as necessary.

[PL 1975, c. 751, §4 (NEW).]

3. Procedure for adopting or amending regulations or guidelines.

[PL 1977, c. 694, §364 (RP).]

§2612. Approval of construction or alteration, training, inspection, regulations and records

1. Construction or alteration of public water systems. New construction, additions or alterations involving the source, treatment or storage of water in any public water system may not commence until the plans and specifications have been submitted to and approved by the department.

A. The commissioner may exempt the construction, addition or alteration from submission and approval if it will have no effect on public health or welfare. [PL 1999, c. 761, §2 (NEW).]

B. The department must consult with and advise persons planning or operating a public water system as to the most appropriate source of supply and the best methods of ensuring its purity. The department must consider any existing potential sources of contamination in the vicinity of the proposed source of supply when reviewing whether to approve a new source of supply and may deny approval based on those existing potential sources of contamination. [PL 1999, c. 761, §2 (NEW).]

C. In granting approval of plans and specifications, the department may require modifications, conditions or procedures to ensure, as far as feasible, the protection of the public health. The department may adopt and enforce rules governing the construction or alteration of public water systems to ensure the protection of the public health and may require the submission of water samples for analysis to determine the extent of treatment required. [PL 1999, c. 761, §2 (NEW).]

Records of construction, including, when feasible, plans and descriptions of existing public water systems, must be maintained by public water systems and made promptly available to the department upon request.

[PL 1999, c. 761, §2 (RPR).]

2. Operation and maintenance of public water systems. The department shall monitor the operation and maintenance of any public water system in the State. Such monitoring shall include all aspects of operation and maintenance which may affect the quality of the water supply. The department may adopt rules and regulations relating to operation and maintenance of public water systems to insure the purity of water and the protection of public health. Such rules and regulations may apply to all aspects of operation and maintenance which may affect the quality of water supplied to the public, including feasible purification methods, equipment and systems. The department may require, by rule or regulation, any public water system to submit water samples for analysis on a regular basis, as often

as necessary to insure the public health. Records of operation and maintenance of public water systems shall be kept on forms approved or specified by the department and this data shall be submitted to the department at the times and in the manner as the department directs. The supplier of water shall promptly comply with such department directions.

[PL 1975, c. 751, §4 (NEW).]

3. Inspection. Any officer or employee duly designated by the commissioner, upon presenting appropriate credentials and a written notice of the officer's or employee's authority to inspect, signed by the commissioner, is authorized to enter any part of a public water system in order to determine whether such supplier is complying with this chapter and any departmental rules or orders issued hereunder. The inspection may include any portion of a public water system, including the sources of supply, treatment facilities and materials, pumping facilities, distribution and storage facilities, records, files and reports on operation. The inspection may also include the testing of any portion of a public water system affecting water quality, including raw and processed water, and the taking of any samples necessary to insure compliance with this chapter and the rules or orders issued hereunder. Each inspection must take place at a reasonable time and be commenced and completed with reasonable promptness. The supplier must be promptly notified of the results of the inspection.

[RR 2021, c. 2, Pt. B, §129 (COR).]

4. Engineering studies. The commissioner may order a public water supplier to carry out an engineering study of the water works system or any portion thereof, if such study is required to identify potential threats to the public health and remedies that will remove such threats. The purpose of such study shall be to ascertain the best methods of complying with this chapter and departmental rules and regulations. The department may further order a public water system to implement the feasible recommendations of the study required to protect the public health. Prior to issuing any order under this subsection, this commissioner shall provide written notice to the public water system and public notice in a newspaper of general circulation in the area served by the public water system, and shall also provide the opportunity for a public hearing on the proposed order.

[PL 1975, c. 751, §4 (NEW).]

5. Cross connections. The department may adopt and enforce regulations governing the connection of any public water systems to any pipes, facilities or structures that carry, store or distribute water that has not been analyzed for compliance or cannot comply with the State Primary Drinking Water Standards, or any connection that may introduce contamination into the system, in order to protect the system from contamination.

[PL 1975, c. 751, §4 (NEW).]

6. Training. The department may provide training in operations and maintenance of public water systems, techniques and methods of testing and analysis of water, and the requirements of this chapter and departmental rules and regulations, for suppliers of water and operators and employees of public water systems.

§2612-A. Capacity development

1. Authority. The commissioner is authorized to ensure that all new community water systems and new nontransient, noncommunity systems commencing operation after October 1, 1999 demonstrate technical, managerial and financial capacity with respect to each state primary drinking water regulation in effect, or likely to be in effect, on the date of commencement of operations.

[PL 1997, c. 705, §2 (NEW).]

2. Rulemaking. The commissioner shall adopt rules to ensure that all new community water systems and new nontransient, noncommunity systems commencing operation after October 1, 1999 demonstrate technical, managerial and financial capacity with respect to each state primary drinking water regulation in effect, or likely to be in effect, on the date of commencement of operations. Rules adopted pursuant to this subsection are routine technical rules as defined in Title 5, chapter 375, subchapter II-A.

SECTION HISTORY

PL 1997, c. 705, §2 (NEW).

§2613. Variances and exemptions

1. Variances. The commissioner may grant one or more variances from an applicable state primary drinking water regulation to a public water system if the variance will not result in an unreasonable risk to the public health and if:

A. Because of the characteristics of the raw water sources reasonably available to the systems, the system can not meet the maximum contaminant levels of the drinking water regulation despite application of the best technology, treatment techniques or other means; or [PL 1995, c. 622, §1 (AMD).]

B. Where a specified treatment technique for a contaminant is required by the state primary drinking water regulation, the system demonstrates to the commissioner's satisfaction that the treatment technique is not required to protect the public health because of the nature of the raw water source. [PL 1995, c. 622, §1 (AMD).]

Prior to granting a variance, the commissioner shall provide an opportunity for public hearing pursuant to the Maine Administrative Procedure Act on the proposed variance. Variances may be conditioned on monitoring, testing, analyzing or other requirements to ensure the protection of the public health; and variances granted under paragraph A must include a compliance schedule under which the public water system will meet each contaminant level for which a variance is granted as expeditiously as is feasible.

A variance may be issued to a system on the condition that the system install the best technology, treatment techniques or other means that are available, taking costs into consideration, according to the United States Environmental Protection Agency and based upon an evaluation satisfactory to the commissioner that indicates that alternative sources of water are not reasonably available to the system. [PL 1997, c. 705, §3 (AMD).]

1-A. Small system variances. The commissioner may grant a variance for compliance with a requirement specifying a maximum contaminant level or treatment technique contained in a state primary drinking water regulation to public water systems serving 3,300 or fewer persons. With the approval of the Administrator of the United States Environmental Protection Agency, the commissioner may grant a variance under this subsection to a public water system serving more than 3,300 persons but fewer than 10,000 persons.

The commissioner shall adopt rules for variances to be granted under this subsection. Rules adopted pursuant to this subsection are routine technical rules as defined in Title 5, chapter 375, subchapter II-A.

[PL 1997, c. 705, §4 (NEW).]

2. Exemptions. The commissioner may grant one or more exemptions from an applicable state primary drinking water regulation to a public water system, if:

A. The exemption will not result in an unreasonable risk to the public health; [PL 1975, c. 751, §4 (NEW).]

B. The public water system is unable to comply with the regulation or to implement measures to develop an alternative source of water supply due to compelling factors, which may include economic factors such as qualification of the public water system serving a disadvantaged community. For purposes of this paragraph "disadvantaged community" means the service area of a public water system that meets affordability criteria established by the department after public review and comment; [PL 1997, c. 705, §5 (AMD).]

C. The public water system was in operation on the earliest effective date under present or prior law of the contaminant level or treatment technique requirement; and [PL 1997, c. 705, §5 (AMD).]

D. Management or restructuring changes can not reasonably be made that will result in compliance with this chapter or, if compliance can not be achieved, improve the quality of the drinking water. [PL 1997, c. 705, §5 (NEW).]

Prior to implementation of a schedule for compliance with contaminant level or treatment technique requirements and for implementation of control measures, the commissioner shall provide notice and opportunity for public hearing pursuant to the requirements of the Maine Administrative Procedure Act. Each exemption must also be conditioned on monitoring, testing, analyzing or other requirements to ensure the protection of the public health and must include a compliance schedule, including increments of progress or measures to develop an alternative source of water supply, under which the public water system will meet each contaminant level for which an exemption is granted as expeditiously as is feasible.

[PL 1997, c. 705, §5 (AMD).]

3. Exemption for water distillers in retail stores. A retail store that distills and bottles water from a public water system and sells the water on the premises is exempt from state water rules except:

A. The distiller must be inspected annually by the Department of Agriculture, Conservation and Forestry; and [PL 1991, c. 113 (NEW); PL 2011, c. 657, Pt. W, §5 (REV).]

B. A bacteriological sample of the distilled water must be submitted to the Department of Health and Human Services at least every 3 months. If the distiller has a one-year history of no coliform bacteria contamination, the Department of Health and Human Services may reduce the frequency of sampling to one sample per year. [PL 1991, c. 113 (NEW); PL 2003, c. 689, Pt. B, §6 (REV).]

[PL 1991, c. 113 (NEW); PL 2003, c. 689, Pt. B, §6 (REV); PL 2011, c. 657, Pt. W, §5 (REV).]

3-A. Exemption criteria. An exemption described in subsection 2 may not be granted unless:

A. The public water system can not meet the standards without capital improvements that can not be completed within the period of the exemption; [PL 1997, c. 705, §6 (NEW).]

B. In the case of a public water system that needs financial assistance for the necessary improvements, the system has entered into an agreement to obtain such financial assistance or assistance pursuant to the state revolving loan fund program or any other federal or state program that is reasonably likely to be available within the period of the exemption; or [PL 1997, c. 705, §6 (NEW).]

C. The public water system has entered into an enforceable agreement to become part of a regional public water system and the system is taking practicable steps to meet the standards. [PL 1997, c. 705, §6 (NEW).]

[PL 1997, c. 705, §6 (NEW).]

4. Exemption; extended. The exemption described in subsection 2 is effective for up to one year after the date of the issuance of the exemption.

A. The final date for compliance provided in any schedule in an exemption may be extended for a period not to exceed 3 years after the date of the issuance of the exemption. [PL 1997, c. 705, §7 (AMD).]

B. In the case of a system that does not serve more than 3,300 people and that needs financial assistance for the necessary improvements, an exemption granted may be renewed for one to 3 additional 2-year periods, but may not exceed a total of 6 additional years, if the system establishes that it is taking all practicable steps to meet the requirements established in the exemption. [PL 1997, c. 705, §7 (AMD).]

[PL 1997, c. 705, §7 (AMD).]

A public water system may not receive an exemption under this section if the system was granted a variance under subsection 1-A. [PL 1997, c. 705, §8 (NEW).]

§2614. Imminent hazards to public health

1. Determination of imminent hazard. An imminent hazard shall be considered to exist when there is a violation of the state primary drinking water regulations, or when, in the judgment of the commissioner, a condition exists in a public water system or water supply which will cause a violation and will result in a serious risk to public health.

[PL 1975, c. 751, §4 (NEW).]

2. Elimination of imminent hazard. In order to eliminate an imminent hazard, the commissioner may, without a prior hearing, issue an emergency order requiring the supplier of water to immediately take such action as is required under the circumstances to protect the public health. Actions required under the emergency order may include:

A. The prohibition of transportation, sale, distribution or supplying of water; [PL 1975, c. 751, §4 (NEW).]

B. The repair, installation or operation of feasible purification equipment or methods; [PL 1975, c. 751, §4 (NEW).]

C. The notification of all potential users of the system, including travelers, of the nature, extent and possible health effects of the imminent hazard and precautions to be taken by users; or [PL 1975, c. 751, §4 (NEW).]

D. The testing, sampling or other analytical operations required to determine the nature, extent, duration or termination of the imminent hazard. [PL 1975, c. 751, §4 (NEW).]

A copy of the emergency order shall be served in the same manner as the service of notice of the commencement of a civil action in Superior Court. An emergency order issued by the commissioner shall be effective immediately and shall be binding for no more than 90 days unless sooner revoked, reviewed by the department at a public hearing or modified or rescinded by a Superior Court. At the written request of the supplier of water, a public hearing shall be held on the emergency order within 15 days of receipt of such request.

[PL 1975, c. 751, §4 (NEW).]

3. Boil-water order. For the purposes of this section and section 2615, "boil-water order" means an order issued by the commissioner to protect the health of persons consuming water from a public water system that may be contaminated by pathogenic microorganisms.

The boil-water order may immediately require the supplier of water to complete public notification of the threat to public health pursuant to section 2615.

A boil-water order may be issued when, in the judgment of the commissioner, a threat to the public health may exist from the presence of pathogenic microorganisms in a public water system. A boil-water order may be issued without a prior public hearing and served on the supplier of water by personal service, certified mail or by any other method if receipt is acknowledged by the supplier of water. At the written request of a supplier of water, a public hearing must be held on the boil-water order within 15 days of the receipt of the request.

1. Due process generally. The commissioner shall comply with the Maine Administrative Procedure Act when imposing administrative penalties and issuing administrative compliance orders. If a request for a hearing is filed within the 30 days, the following provisions apply.

A. Violations or penalties do not accrue from the date that the public water system files the request for a hearing to the date the hearing officer renders a decision. [PL 1993, c. 678, §4 (NEW).]

B. Notwithstanding paragraph A, if the hearing officer finds that the appeal is frivolous, the violations or penalties accrue throughout the appeal period. [PL 1993, c. 678, §4 (NEW).]

C. If an administrative hearing is held and a penalty is assessed at the conclusion of that hearing, the penalty becomes final 30 days after the decision. [PL 1993, c. 678, §4 (NEW).]

The Board of Licensure of Water System Operators shall issue biennial licenses to individuals to act as operators. The license must indicate the classification level of the systems or parts of systems for the operation of which the individual is qualified to act as an operator. [PL 2003, c. 33, §6 (AMD).]

The board may suspend or revoke a license of a certified operator when it is determined that the operator has practiced fraud or deception; that the operator has been negligent in that reasonable care, judgment or the application of knowledge or ability was not used in the performance of the operator's duties; or that the operator is incompetent or unable to perform the operator's duties properly. [PL 1999, c. 688, §5 (AMD).]

This chapter may not be construed to affect or prevent the practices of any other legally recognized profession. [RR 2017, c. 1, §14 (COR).]

When the unexpired term of license of an applicant is or will be more than one year at the time of licensure, the commissioner may require the applicant to pay an additional fee not to exceed 1/2 the biennial license fee. [PL 1985, c. 748, §27 (AMD).]

As used in this subchapter, unless the context otherwise indicates, "public water source" means any natural or human-made impoundment, pond or lake or ground water aquifer whose waters are transported or delivered by a public water system, as defined in section 2601, subsection 8. Where the intake of a public water supply is on the outlet of any impoundment, pond or lake, the source of the public water supply is considered to be the impoundment, pond or lake itself. §2642. Municipal regulation authorized; penalty

1. Municipal regulations authorized. The municipal officers of each municipality, after notice and public hearing, may adopt regulations governing the surface uses of sources of public water supply, portions thereof or land overlying ground water aquifers and their recharge areas used as sources of public water supply that are located within that municipality in order to protect the quality of such sources of public water supply and the health, safety and welfare of persons dependent upon such supplies.

At least 15 days prior to public hearings held under this section, notice of the hearing must be published in a newspaper of general circulation in the county in which the municipality is located and mailed by certified mail to each owner of land bordering the source of public water supply within that municipality. Regulations adopted pursuant to this section become void upon the expiration of one year from the date of the adoption unless sooner ratified by vote of the legislative body of the municipality. §2647-A. Protection of public water source

Any water utility or municipality and the department are authorized to take reasonable steps to protect a public water source from pollution consistent with section 2642. [PL 1999, c. 761, Pt. 3 (AMD).]

1. Right of entry for water utility. Employees or agents of a water utility may enter upon land within 1,000 feet of a public water source or upon land used for commercial or industrial purposes having a facility, structure or system draining into or suspected of flowing or seeping into a public

water source and inspect the facility, structure or system, including any building or structure on that land. Entry onto property under this subsection is not a trespass. The power of entry and inspection may be exercised only after the water utility has made a reasonable effort to obtain permission from the landowner for the inspection.

[PL 1991, c. 467, §2 (NEW).]

2. Right of entry for department and consumer-owned water utility. Employees or agents of the department or of a consumer-owned water utility as defined in Title 35-A, section 6101 may enter any property at reasonable hours or enter any building with the consent of the owner, occupant or agent to inspect a wastewater disposal system draining into or suspected of flowing or seeping into a public water source. Entry onto property under this subsection is not a trespass. An employee or agent of the department or consumer-owned utility may seek an administrative inspection warrant pursuant to the Maine Rules of Civil Procedure, Rule 80E to carry out the purposes of this subsection.

[PL 1991, c. 467, §2 (NEW).]

3. Remedy. In addition to rights granted to municipal officers under Title 30-A, section 3428, any local or state health inspector or officer may order the owner of any facility, structure or system flowing or seeping into and contaminating a public water source, if the contamination may result in risk to the public health, to remedy the situation. The order must be served in writing and state a time in which the order must be complied with. An order made pursuant to this subsection is not considered an adjudicatory proceeding within the meaning of the Maine Administrative Procedure Act. Any person aggrieved by an order may appeal to the Superior Court within 30 days.

[PL 1991, c. 467, §2 (NEW).]

4. Court-ordered remedies. The water utility, municipality or department may petition the Superior Court upon failure of the person named in an order served under subsection 3 to comply with that order. The court, after hearing, may order that appropriate measures be taken.

[PL 1991, c. 467, §2 (NEW).]

5. Remedy ordered by water district or consumer-owned utility. If the municipal officers have failed to act on a malfunctioning wastewater disposal unit under Title 30-A, section 3428 and have notified a consumer-owned water utility as defined in Title 35-A, section 6101 in writing of their failure to do so, the consumer-owned water utility may assume the rights of municipal officers under Title 30-A, section 3428, except that it may not assess a special tax under Title 30-A, section 3428, subsection 4, paragraph B.

[PL 1991, c. 467, §2 (NEW).]

6. Effect on other law. Nothing in this section may be construed to limit in any way any private and special or other law granting a water utility or municipality greater controls for protecting its public water source than those set forth in this section.

The radius may not exceed 400 feet and within that area a person may not anchor or moor a boat or carry on ice fishing or carry on any other activity designated by the water utility or municipality when such restriction is necessary to comply with primary or secondary drinking water regulations applicable to public water systems. Any such buoys placed in the water must be plainly marked as

required by the Director of the Bureau of Parks and Lands under Title 12, section 1894. Any person violating this section must, on conviction, be penalized in accordance with Title 30-A, section 4452. [PL 1999, c. 127, Pt. A, §36 (AMD); PL 2011, c. 657, Pt. §2649. Protection of public water supplies over winter

1. Petition for rules. Any water utility, water district or municipality which relies on surface water for its water supply may petition the Commissioner of Inland Fisheries and Wildlife to promulgate rules to regulate the size and range of motor vehicles which may be permitted on the ice of any reservoir or surface water which is used as a public water supply. The petitioner must supply the technical information in support of the decision. The commissioner shall promulgate only such rules as are reasonable and necessary to protect the public water supply. These rules shall be promulgated in accordance with the Maine Administrative Procedure Act, Title 5, chapter 375, after a public hearing in the affected area.

[PL 1987, c. 353, §1 (NEW).]

2. Existing rules. Any rules that are adopted must be at least as strict as those already in existence for that body of water. Nothing in this section may be construed to limit in any way the authority of the municipal officers to enact ordinances under Title 30-A, section 3009, subsection 1, paragraph E, or any private and special law granting a water utility or municipality greater control for protecting its public water supply than those set forth in this section.

[PL 1991, c. 824, Pt. A, §43 (AMD).]

2. Multiple community water districts. In the case of a multiple community water district, authorization shall be by a majority vote of those voting at a multiple community water system district-wide election. A valid request for an election on whether or not to authorize the addition of fluoride may be made in either of the following ways.

The Secretary of State has 10 days in which to approve the forms. If the forms are found to be unsatisfactory, the Secretary of State shall

The certificate shall be sent by registered mail to the registered petitioners, who shall be responsible for transmitting them to the Secretary of State.

The Secretary of State shall total the number of valid signatures as certified by the municipal clerk. As soon as the total number of certified valid signatures is found to be equal to at least 10% of the total number of votes cast for Governor at the last gubernatorial election in all municipalities which are wholly or partially within the multiple community water district, the Secretary of State shall certify that fact to each municipality which is wholly or partially in the multiple community water district within 48 hours.

Those eligible to vote shall be all registered voters within affected single-service municipalities and all registered voters within the affected public water system zone of multiservice municipalities. The following provisions apply to all multiple community water system district-wide elections.

A. Each municipality shall be responsible for posting a warrant according to the following requirements.

(1) It shall specify the voting place and the time of opening and closing of polls.

(2) It shall specify that the purpose of the election is to determine the following question: "Shall fluoride be added to the public water supply for the intended purpose of reducing tooth decay?"

(3) It shall specify that a public hearing will be held by the municipal officers of each municipality at least 10 days before the election date.

(4) It must be signed by a majority of the municipal officers of the municipality and directed personally to a constable or any resident ordering the constable or resident to announce the election.

(5) The person to whom the warrant is directed shall post an attested copy of it in a conspicuous public place in each voting district of the municipality at least 7 days immediately before the date of the public hearing. The person shall make a return on the warrant stating the manner of announcement and the time it was given and return the warrant to the municipal officers.

(6) The municipal officers shall then deliver the warrant to the clerk who shall record it. [RR 2021, c. 2, Pt. B, §§132, 133 (COR).]

§2660-BB. Bottled water testing, reporting and sale requirements

A bottler shall comply with the provisions of this section. [PL 2023, c. 330, §1 (NEW).]

1. Initial testing. A bottler shall conduct initial testing for the level of PFAS applicable to a community water system detectable using standard laboratory methods established by the United States Environmental Protection Agency in effect at the time of sampling. A bottler shall conduct testing under this subsection for all regulated PFAS contaminants and additional PFAS included in the list of analytes

in the standard laboratory methods established by the United States Environmental Protection Agency applicable to community water systems in effect at the time of sampling.

[PL 2023, c. 330, §1 (NEW).]

2. Subsequent monitoring. After completion of initial testing as required by subsection 1, a bottler shall conduct continued monitoring for the presence of regulated PFAS contaminants in water bottled by the bottler according to this subsection.

A. If initial testing under subsection 1 or testing under this paragraph detects the presence of any regulated PFAS contaminants individually or in combination at or above the standard applicable to a community water system, the bottler shall conduct continued quarterly testing until regulated PFAS contaminants are mitigated to the standard applicable to a community water system. [PL 2023, c. 330, §1 (NEW).]

B. If initial testing under subsection 1 detects the presence of any regulated PFAS contaminants at or above each analyte's lowest concentration minimum reporting level as specified in the standard laboratory methods established by the United States Environmental Protection Agency applicable to community water systems in effect at the time of sampling, either individually or in combination with other detected regulated PFAS contaminants, the bottler shall conduct continued testing annually. [PL 2023, c. 330, §1 (NEW).]

[PL 2023, c. 330, §1 (NEW).]

4. Sale of bottled water. A bottler may not sell bottled water in this State that contains a regulated PFAS contaminant in an amount that exceeds the standard applicable to a community water system, either under a standard set by this State or a federal standard, whichever requires a lower level of the contaminant.

[PL 2023, c. 330, §1 (NEW).]

5. Enforcement. The department may enforce the requirements of this section in the same manner as for a violation of subchapter 2. A bottler may appeal the acts or decisions of the department under this section in the same manner as described in subchapter 2-A.

CHAPTER 603

PRESCRIPTION DRUG ACCESS

SUBCHAPTER 1

MAINE RX PLUS PROGRAM

§2681. Maine Rx Plus Program established

The Maine Rx Plus Program, referred to in this subchapter as the "program," is established to reduce prescription drug prices and to improve the quality of health care for residents of the State. The program is administered by the department and must utilize manufacturer rebates and pharmacy discounts to reduce prescription drug prices. [PL 2003, c. 494, §3 (AMD).]

1. Program goals. The Legislature finds that affordability is critical in providing access to prescription drugs for Maine residents. This subchapter is enacted by the Legislature to enable the State to take steps to make prescription drugs more affordable for qualified Maine residents, thereby increasing the overall health of Maine residents, promoting healthy communities and protecting the public health and welfare, and to integrate the program as part of any statewide program for the uninsured. It is not the intention of the State to discourage employers from offering or paying for prescription drug benefits for their employees or to replace employer-sponsored prescription drug benefit plans that provide benefits comparable to those made available to qualified Maine residents under this subchapter.

[PL 2003, c. 494, §4 (AMD).]

2. Definitions. As used in this subchapter, unless the context otherwise indicates, the following terms have the following meanings.

A. "Average wholesale price" means the wholesale price charged on a specific commodity that is assigned by the drug manufacturer and is listed in a nationally recognized drug pricing file. [PL 1999, c. 786, Pt. A, §3 (NEW).]

A-1. "Covered drugs" means drugs that are on the MaineCare preferred drug list established and revised from time to time by the department pursuant to its authority to operate the MaineCare program. [PL 2003, c. 494, §4 (NEW).]

[PL 1999, c. 786, Pt. A, §3 (NEW).]

D. "Participating retail pharmacy" or "retail pharmacy" means a retail pharmacy located in this State, or another business licensed to dispense prescription drugs in this State, that participates in the program. [PL 2003, c. 494, §4 (AMD).]

E. [PL 2003, c. 494, §4 (RP).]

F. "Qualified resident" means a resident of the State who has a family income equal to or less than 350% of the federal poverty level and who is enrolled in the program. "Qualified resident" also means a resident of the State whose family incurs unreimbursed expenses for prescription drugs that equal 5% or more of family income or whose total unreimbursed medical expenses equal 15% or more of family income. For purposes of this paragraph, the cost of drugs provided under this subchapter is considered an expense incurred by the family for eligibility determination purposes. [PL 2003, c. 494, §4 (AMD).]

G. "Secondary discounted price" means the initial discounted price minus any further discounts paid for out of the fund. [PL 2003, c. 494, §4 (AMD).]
[PL 2003, c. 513, Pt. G, §1 (AMD).]

[PL 1999, c. 786, Pt. A, §3 (NEW).]

3. Public health or welfare. The commissioner may take actions that the commissioner determines necessary if there is a severe limitation or shortage of or lack of access to prescription drugs in the State that could threaten or endanger the public health or welfare.

DISPOSAL OF UNUSED PHARMACEUTICALS

§2700. Unused Pharmaceutical Disposal Program

1. Establishment; purpose. There is established the Unused Pharmaceutical Disposal Program, referred to in this chapter as "the program." The purpose of the program is to ensure the safe, effective and proper disposal of unused pharmaceuticals. For purposes of compliance with federal law and regulation, the return of pharmaceuticals under this section is deemed to be for law enforcement purposes.

[PL 2003, c. 679, §1 (NEW); PL 2005, c. 297, §3 (AFF).]

2. Administration. The program is administered by the Maine Drug Enforcement Agency, referred to in this chapter as "the agency," established in Title 25, section 2955.

[PL 2003, c. 679, §1 (NEW); PL 2005, c. 297, §3 (AFF).]

3. Return of pharmaceuticals. The agency may create systems for the safe, effective and proper disposal of unused pharmaceuticals. The systems may include the use of prepaid mailing envelopes into which the unused pharmaceuticals are placed and returned to a single collection location. The prepaid mailing envelopes must be made available to the public at various locations, including, but not limited to, pharmacies, physicians' offices and post offices. The agency may randomly assess the toxicity of materials received under the program as long as the assessment results do not identify the patient, person who mailed the material, prescriber or pharmacy.

[PL 2013, c. 121, §1 (AMD).]

4. Disposal of pharmaceuticals. All unused pharmaceuticals received under the program must be disposed of in a manner that is designed to be effective, secure and in compliance with local, state and federal environmental requirements, including the federal Resource Conservation and Recovery Act of 1976, as amended.

[PL 2013, c. 121, §1 (AMD).]

5. Unused Pharmaceutical Disposal Program Fund; funding. The Unused Pharmaceutical Disposal Program Fund, referred to in this chapter as "the fund," is established within the agency to be used by the director of the agency to fund or assist in funding the safe, effective and proper disposal of unused pharmaceuticals. Any balance in the fund does not lapse but is carried forward to be expended for the same purposes in succeeding fiscal years. The fund must be deposited with and maintained and administered by the agency. The agency may accept funds into the fund from any non-General Fund source, including grants or contributions of money or other things of value, that it determines necessary to carry out the safe, effective and proper disposal of unused pharmaceuticals. Money accepted into the fund by the agency must be used for the expenses of safe, effective and proper disposal of unused pharmaceuticals.

[PL 2013, c. 121, §1 (AMD).]

6. Rulemaking. The agency shall adopt rules to carry out the purposes of this chapter. Rules adopted pursuant to this subsection are routine technical rules as defined in Title 5, chapter 375, subchapter 2-A.

[PL 2003, c. 679, §1 (NEW); PL 2005, c. 297, §3 (AFF).]

7. Disposal; funding. The program must operate with funding solely from the fund provided in subsection 5.

[PL 2013, c. 121, §1 (AMD).]

8. Drug take-back stewardship program participation. Nothing in this section prohibits a law enforcement agency from participating as an authorized collector in a drug take-back stewardship program implemented under Title 38, section 1612.

CHAPTER 703

BIRTH RECORDS

§2761. Registration of live births

A certificate of each live birth that occurs in this State must be filed with the clerk of the municipality in which the live birth occurred or with the state registrar within a reasonable period of time as specified by department rules and must be registered if the certificate has been completed and filed in accordance with this section. [PL 2009, c. 601, §16 (AMD).]

1. Certificate from hospital. When the live birth occurs in a hospital or an institution, or en route to the hospital or institution, the person in charge of the institution or the person's authorized designee shall obtain the personal data, prepare the certificate, certify by signature or by electronic process that the child was born alive at the place and time and on the date stated and file the certificate as directed in this section. The physician or other person in attendance shall provide the medical information required by the certificate in a timely fashion, as specified by department rule.

[PL 2009, c. 601, §17 (AMD).]

2. Date of birth.

[PL 1995, c. 260, §6 (RP).]

3. Birth outside an institution. When a birth occurs outside an institution, the certificate must be prepared and filed by one of the following in the indicated order of priority:

A. The physician or other person in attendance at or immediately after the birth; [PL 1995, c. 260, §6 (AMD).]

B. The father; [PL 1995, c. 260, §6 (AMD).]

C. The mother; or [PL 1995, c. 260, §6 (AMD).]

D. The person in charge of the premises where the live birth occurred.

[PL 1995, c. 260, §6 (AMD).]

3-A. Parentage. For the purposes of birth registration, the mother is deemed to be the woman who gives birth to the child, unless otherwise determined by a court of competent jurisdiction prior to the filing of the birth certificate or unless an attested copy of a gestational carrier agreement as defined in Title 19-A, section 1832, subsection 11 is presented that provides otherwise. If the mother was

married at the time of either conception or birth, or between conception and birth, the name of the spouse must be entered on the certificate as the parent of the child, unless parentage has been determined otherwise by a court of competent jurisdiction or unless an attested copy of a gestational carrier agreement is presented that provides otherwise.

[PL 2015, c. 296, Pt. C, §25 (AMD); PL 2015, c. 296, Pt. D, §1 (AFF).]

4. Child not born of marriage. Except as otherwise provided in this subsection, if the mother was not married at the time of either conception or birth, or between conception and birth, neither the name of the putative father nor any other information about the putative father may be entered on the certificate without the putative father's written consent and that of the mother. The signature of the putative father on the written consent must be acknowledged before an official authorized to take oaths. The signature of the mother on the mother's written consent must also be acknowledged before an official authorized to take oaths. If a determination of paternity has been made by a court of competent jurisdiction, then the name of the father as determined by the court must be entered on the birth certificate without the father's or the mother's consent. If the putative father executes an acknowledgement of paternity with the department and the putative father is either named in writing by the mother as the father or is presumed to be the father based on the results of blood or tissue-typing tests, the name of the father must be entered on the birth certificate without the father's or the mother's consent. All voluntary acknowledgments and adjudications of paternity in this State must be filed with the Office of Data, Research and Vital Statistics for comparison with information in the state registry of support orders as established in Title 19-A, section 2104.

[RR 2021, c. 2, Pt. B, §137 (COR).]

4-A. Information verified. Either of the parents of the child or an informant shall verify the accuracy of the personal data to be entered on the certificate.

[PL 1995, c. 260, §6 (NEW).]

5. Certificate signed by father and mother.

[PL 1995, c. 260, §6 (RP).]

6. Disclosure of social security number. In connection with the preparation and issuance of a birth certificate pursuant to this section, section 2764 or section 2765, each parent shall furnish the social security account number, or numbers if the parent has more than one number, issued to the parent unless the State Registrar of Vital Statistics, in accordance with regulations prescribed by the Secretary of the United States Department of Health and Human Services, finds good cause for not requiring the furnishing of those numbers. The state registrar shall make numbers furnished under this subsection available to the department in its capacity as the state agency administering the State's plan under the United States Social Security Act, Title IV, Part D. Except as required by federal law, those numbers may not be recorded on the birth certificate in such a manner that the numbers would appear on a certified copy of the certificate. Except as required by federal law, the department may not use any social security number, obtained with respect to the issuance of a birth certificate, for any purpose other than for the administration of the State's plan under the United States Social Security Act, Title IV, Part D. The department shall adopt rules to implement this subsection.

§2767-A. Amendment of birth certificate of adult

1. Addition of parent to birth certificate based on genetic testing. The State Registrar of Vital Statistics shall amend the birth certificate of a person 18 years of age or older born in this State for the purpose of identifying a genetic parent who was not known or listed at the time of birth when the state registrar has received the following:

- A. A signed, notarized request to amend the birth certificate from the adult subject of the birth certificate; [PL 2023, c. 323, §2 (AMD).]
- B. Either the written, notarized consent of the genetic parent to be named on the amended birth certificate or a certified copy of the death certificate of the genetic parent to be named on the amended birth certificate; and [PL 2017, c. 5, §3 (NEW).]
- C. Evidence of genetic parentage based on testing of deoxyribonucleic acid, DNA, that includes:
 - (1) A notarized report of the results of the DNA testing; and

This amendment does not affect the rights of inheritance or descent of the subject of the birth certificate."

- A. A signed, notarized request to amend the birth certificate from the adult subject of the birth certificate; [PL 2023, c. 323, §2 (NEW).]

B. A properly executed voluntary acknowledgment of parentage that complies with the requirements of Title 19-A, chapter 61, subchapter 3; and [PL 2023, c. 323, §2 (NEW).]

A certification need not be completed before the remains are ready for release.

Entries may be left "pending" if further study is needed; or, at the specific direction of the Attorney General relative to cases under investigation by the Attorney General's office, entries must be left "withheld" until such time as the Attorney General, in the Attorney General's sole discretion, determines that any criminal investigation and prosecution will not be harmed by public disclosure of such information. A person authorized by the Chief Medical Examiner may amend a certificate of death with respect to the time, date, place and circumstances of death. The medical examiner assigned shall submit the form or electronic amendment to the Office of Chief Medical Examiner for filing with the State Registrar of Vital Statistics. §2843. Permits for final disposition of dead human bodies

(CONFLICT)

Except as authorized by the department, a dead human body may not be buried, cremated, subjected to natural organic reduction or otherwise disposed of or removed from the State until a funeral director

or other authorized person in charge of the disposition of the dead human body or its removal from the State has obtained a permit from the State Registrar of Vital Statistics or the clerk of the municipality where death occurred or where the establishment of a funeral director having custody of the dead human body is located as specified by department rule. The permit is sufficient authority for final disposition in any place where dead human bodies are disposed of in this State, as long as the requirements of Title 32, sections 1405 and 2900-A are met in appropriate cases. The permit may not be issued to anyone other than a funeral director until the state registrar or the clerk of the municipality receives a medical certificate that has been signed by a physician or a medical examiner that indicates that the physician or medical examiner has personally examined the body after death. A permit must also be issued if a nurse practitioner or physician assistant has signed the medical certificate indicating that the nurse practitioner or physician assistant has knowledge of the deceased's recent medical condition or was in charge of the deceased's care and that the nurse practitioner or physician assistant has personally examined the body after death. The authorized person may transport a dead human body only upon receipt of this permit. [PL 2023, c. 676, §10 (AMD).]

The State Registrar of Vital Statistics or a municipal clerk may issue a permit for final disposition by cremation, burial at sea, use by medical science, natural organic reduction or removal from the State only upon receipt of a certificate by a duly appointed medicolegal death investigator or medical examiner as specified in Title 32, section 1405 or section 2900-A, subsection 8. [PL 2023, c. 676, §11 (AMD).]

1. Permit for transportation. Each dead human body transported into this State for final disposition must be accompanied by a permit issued by the duly constituted authority at the place of death. Such permit is sufficient authority for final disposition in any place where dead human bodies are disposed of in this State.
[PL 2009, c. 601, §27 (AMD).]

2. Permit for disinterment or removal. A dead human body may not be disinterred or removed from any vault or tomb until the person in charge of the disinterment or removal has obtained a permit from the State Registrar of Vital Statistics or from the clerk of the municipality where the dead human body is buried or entombed. The permit must be issued upon receipt of a notarized application signed by the next of kin of the deceased who verifies that the signer is the closest surviving known relative and, when any other family member of equal or greater legal or blood relationship or a domestic partner of the decedent also survives, that all such persons are aware of, and do not object to, the disinterment or removal. This subsection does not preclude a court of competent jurisdiction from ordering or enjoining disinterment or removal pursuant to section 3029 or in other appropriate circumstances.
[PL 2021, c. 567, §19 (AMD).]

3. Permit for burial. The person in charge of each burying ground, crematory or natural organic reduction facility in this State shall endorse, and provide the date the body was disposed of on, each such permit with which that person is presented and return it to the State Registrar of Vital Statistics or to the clerk of the municipality in which such burying ground, crematory or facility is located within 7 days after the date of disposition. If there is no person in charge of the burying ground, an official of the municipality in which the burying ground is located shall endorse, and provide the date the body was disposed of on, each such permit and present it to the State Registrar of Vital Statistics or the clerk of the municipality. The funeral director or authorized person shall present a copy of each permit, after endorsement, to the State Registrar of Vital Statistics or the clerk of the municipality where death occurred and to the clerk who issued the permit.
[PL 2023, c. 676, §12 (AMD).]

3-A. (CONFLICT: Text as repealed by PL 2023, c. 67, §4) Authorization for burial of cremated remains in public burying ground.
[PL 2023, c. 67, §4 (RP).]

3-A. (CONFLICT: Text as amended by PL 2023, c. 676, §13) Authorization for burial of cremated or other remains in public burying ground. The State Registrar of Vital Statistics shall provide an authorization to be used for the purposes of this subsection. If human remains that have been cremated or subjected to natural organic reduction are buried in a public burying ground in the State, the person in charge of the public burying ground shall endorse and record the date the remains were buried on an authorization for the remains and return the authorization to the State Registrar of Vital Statistics or to the clerk of the municipality in which the public burying ground is located within 7 days after the remains were buried. If there is no person in charge of the public burying ground, an official of the municipality in which the public burying ground is located shall endorse and record the date the remains were buried on the authorization and present the authorization to the State Registrar of Vital Statistics or the clerk of the municipality. If an authorization is not returned to the State Registrar of Vital Statistics within 7 days after remains were buried, the funeral director or authorized person may present a copy of the authorization, if the authorization has been endorsed, to the State Registrar of Vital Statistics or the clerk of the municipality where death occurred and to the clerk who issued the authorization.

For purposes of this subsection, unless the context otherwise indicates, the following terms have the following meanings.

A. "Authorization" means the form or electronic process prescribed and furnished by the State Registrar of Vital Statistics for the purpose of recording the consent of an authorized person for the burial or removal of human remains that have been cremated or subjected to natural organic reduction in a public burying ground as specified by department rule. [PL 2023, c. 676, §13 (AMD).]

B. "Burial" means all manner of dispersal or deposit in or on the ground or in a structure. [PL 2019, c. 257, §1 (NEW).]

C. "Public burying ground" has the same meaning as in Title 13, section 1101-A, subsection 4. [PL 2019, c. 257, §1 (NEW).]
[PL 2023, c. 676, §13 (AMD).]

4. Records. Each municipality shall maintain a record of any endorsed or electronically affirmed permit received pursuant to subsection 3 in the electronic death registration system described in section 2847. A copy of an endorsed or electronically affirmed permit must be made available to a member of the public upon a request made to the municipal clerk. The State Registrar of Vital Statistics may adopt routine technical rules pursuant to Title 5, chapter 375, subchapter 2-A to carry out the purposes of this subsection.

§2843-A. Custody of remains of deceased persons

1. Definitions. As used in this section, unless the context otherwise indicates, the following terms have the following meanings.

A. "At-need funeral arrangements" means funeral arrangements made after death. [PL 1993, c. 609, §1 (NEW).]

B. "Custody and control" means the right to make all decisions, consistent with applicable laws, regarding the handling of a dead body, including, but not limited to, possession, at-need funeral arrangements, final disposition and disinterment. [PL 1993, c. 609, §1 (NEW).]

B-1. "Dead body" or "dead human body" means a body or fetus for which it reasonably can be determined that death occurred. [PL 2009, c. 601, §28 (NEW).]

C. "Estranged" means living in separate residences and having a relationship characterized by hostility or indifference. [PL 1993, c. 609, §1 (NEW).]

D. "Next of kin" means a person having the following relationship to the subject, in the following order of priority:

(1) The spouse;

(1-A) A domestic partner. For purposes of this section, "domestic partner" means a registered domestic partner or one of 2 unmarried adults who had been domiciled together under long-term arrangements that evidenced a commitment to remain responsible indefinitely for each other's welfare, including evidence of an emotional, physical or financial relationship with the subject similar to that of a spouse;

(2) An adult child;

(3) A parent;

(4) An adult sibling;

(5) An adult grandchild;

(6) An adult child of a sibling;

(7) A maternal grandparent;

(8) A paternal grandparent;

(9) An adult sibling of the subject's parent or that sibling's spouse;

(10) An adult first cousin;

(11) Any other adult relative in descending order of blood relationship; or

(12) If the subject is a veteran and has no known living spouse or adult relative, the Adjutant General or the Adjutant General's designee. For purposes of this paragraph, "veteran" has the same meaning as in section 2900, subsection 1, paragraph B. [RR 2021, c. 2, Pt. B, §§141-144 (COR).]

E. "Subject" means the person whose remains are placed in the custody and control of another person pursuant to this section. [PL 1993, c. 609, §1 (NEW).]
[RR 2021, c. 2, Pt. B, §§141-144 (COR).]

2. Custody and control generally. The custody and control of the remains of deceased residents of this State, dead bodies or dead human bodies are governed by the following provisions in the following order of priority:

A. If the subject has designated another person to have custody and control in a written and signed document, custody and control belong to that designated person; [PL 2017, c. 475, Pt. A, §31 (RPR).]

B. If the subject has not left a written and signed document designating a person to have custody and control, or if the person designated by the subject refuses custody and control, custody and control belong to the next of kin; and [PL 2017, c. 475, Pt. A, §31 (RPR).]

C. If the next of kin is 2 or more persons with the same relationship to the subject, the majority of the next of kin have custody and control. If the next of kin cannot, by majority vote, make a decision regarding the subject's remains, the court shall make the decision upon petition under subsection 4, paragraph D. [PL 2017, c. 475, Pt. A, §31 (RPR).]

If a person who has the right of custody and control under this subsection does not exercise the rights and responsibilities of custody and control within 4 days after the death of the subject, custody and control belong to a person from the next lower level of priority as established in paragraphs A to C.

If a person who has custody and control under this subsection does not complete decision making regarding final disposition within 30 days after taking custody and control, a funeral director or practitioner of funeral service who has physical possession of the remains or dead body may bury the remains or dead body at the expense of the funeral director or practitioner.

A person who has been charged with murder, as described in Title 17-A, section 201, or manslaughter, as described in Title 17-A, section 203, subsection 1, paragraph B, forfeits the right of custody and control provided under this subsection; and a funeral director or practitioner of funeral service who is aware of the charges may not release the remains or a dead body to that person who has been charged with murder or manslaughter. If the charges against the person are dismissed or the person is acquitted of the charges before the final disposition takes place, the person regains the right of custody and control in the same position of priority established in this subsection.

The remains or a dead body is considered abandoned if no one takes custody and control of the remains or dead body for a period of 15 days. A funeral director or practitioner of funeral service who has physical possession of abandoned remains or an abandoned dead body may bury, cremate or subject to natural organic reduction the remains or dead body. The funeral director or practitioner of funeral service may embalm or refrigerate abandoned remains or an abandoned dead body without authorization. A certificate of abandonment that indicates the means of disposition must be filed in the municipality where the death occurred.

[PL 2023, c. 676, §14 (AMD).]

3. Estranged spouse or domestic partner. Notwithstanding subsection 2, if the surviving spouse or surviving domestic partner and the subject were estranged at the time of death, the spouse or domestic partner may not have custody and control of the subject's remains. In these cases, custody and control belong to the next of kin following the spouse or domestic partner.

[PL 2003, c. 672, §20 (AMD).]

4. Court determination. Notwithstanding other provisions of this section, the court of probate for the residence of the deceased may award custody and control to the person determined by the court most fit and appropriate to carry out the responsibilities of custody and control, and may make decisions regarding the subject's remains if those having custody and control can not agree. The following provisions apply to court determinations under this subsection.

A. Before the subject's death, the subject or the subject's legal representative may file a petition regarding custody and control of the subject's remains. [PL 1993, c. 609, §1 (NEW).]

B. A relative of the subject may file a petition. [PL 1993, c. 609, §1 (NEW).]

C. A person who claims and establishes through evidence that that person has or had a closer personal relationship to the subject than the next of kin may file a petition, if that person lived with the subject and was not in the employ of the subject or the subject's family. [PL 1993, c. 609, §1 (NEW).]

D. If the next of kin is 2 or more persons with the same relationship to the subject, and the next of kin can not, by majority vote, make a decision regarding the subject's remains, 2 or more persons who have custody or control or a funeral director may file a petition asking the court to make a determination in the matter. The court shall consider the following in making its determination:

- (1) The reasonableness and practicality of the proposed arrangements;
- (2) The degree of the personal relationship between the subject and each of the 2 or more persons with custody and control;
- (3) The desires of the person or persons who are ready, able and willing to pay the costs of the arrangements;
- (4) The convenience and needs of other family and friends wishing to pay respect;
- (5) The expressed written desires of the subject; and
- (6) The degree to which the arrangements will allow maximum participation by all wishing to pay respect. [PL 1993, c. 609, §1 (NEW).]

[PL 1993, c. 609, §1 (NEW).]

5. Wishes of subject. If the subject has left written and signed instructions regarding funeral arrangements and disposal of the subject's remains, the person having custody and control shall abide by those wishes to the extent that the subject paid for those arrangements in advance or left resources for the purpose of carrying out those wishes.

[PL 1993, c. 609, §1 (NEW).]

6. Effect of payment by others. Except to the degree it must be considered by the court under subsection 4, paragraph D, the fact that a person other than the subject has paid or agreed to pay for all or part of arrangements does not give that person a greater right to custody and control than that person would otherwise have.

[PL 1993, c. 609, §1 (NEW).]

7. Authority of personal representative. The personal representative of the estate of the subject does not, by virtue of being the personal representative, have a greater right to custody and control than the person would otherwise have.

[PL 1993, c. 609, §1 (NEW).]

8. Immunity. A party, including but not limited to a funeral director or practitioner of funeral service, who, in good faith, acts upon the instructions of the party having custody and control is not liable for having carried out those instructions, may not be held civilly or criminally liable and is not subject to disciplinary action for acting in accordance with those instructions.

[PL 2015, c. 188, §1 (AMD).]

9. Application. This section does not apply to the disposition of the remains of a deceased person under chapter 709. This section does not diminish or otherwise alter the authority of a medical examiner or other official authorized under chapter 711. This section does not alter the rights and obligations of the decedent's next of kin under Title 18-C.

[PL 2017, c. 402, Pt. C, §49 (AMD); PL 2019, c. 417, Pt. B, §14 (AFF).]

10. Funeral director or practitioner of funeral service. The following provisions apply to the actions and liability of a funeral director or practitioner of funeral service, cemeteries, crematories and natural organic reduction facilities and their employees.

A. If there is a dispute regarding custody and control, a funeral director or practitioner of funeral service may refuse to accept the remains or dead body, inter or otherwise dispose of the remains or dead body or complete funeral arrangements until the funeral director or practitioner of funeral service is provided with a court order under subsection 4 or a written agreement of the person who has custody and control. [PL 2011, c. 387, §3 (NEW).]

B. If there is a dispute regarding custody and control, pending a court determination under subsection 4 a funeral director or practitioner of funeral service who has physical possession of the remains or a dead body may embalm or refrigerate and shelter the remains or dead body and may

bill the estate of the subject for those costs, plus attorney's fees and court costs. [PL 2023, c. 676, §15 (AMD).]

C. A person who signs a statement of funeral goods and services or a cremation or natural organic reduction authorization form or other authorization for disposition of the remains or a dead body is deemed to warrant the truthfulness of the facts set forth in the document, including but not limited to the existence of custody and control and the identity of the subject. [PL 2023, c. 676, §15 (AMD).]

D. A funeral director or practitioner of funeral service, cemetery, natural organic reduction facility or crematory may rely on a statement of funeral goods and services or a cremation or natural organic reduction authorization form or other authorization signed by a person who has custody and control of the remains or a dead body and may carry out the instructions provided for in the statement of funeral goods and services or on the form or authorization unless the funeral director or practitioner of funeral service, cemetery, natural organic reduction facility or crematory knows of objections from another person. [PL 2023, c. 676, §15 (AMD).]

E. A funeral director or practitioner of funeral service, cemetery, natural organic reduction facility or crematory is not required to independently investigate custody and control of the remains or a dead body or who is next of kin. [PL 2023, c. 676, §15 (AMD).]

F. Upon cremation or natural organic reduction of the remains or dead body, the crematory or natural organic reduction facility shall prepare a certificate of cremation or natural organic reduction signed and dated by the person in charge of the cremation or natural organic reduction indicating the date of cremation or natural organic reduction and the identity of the remains or dead body as identified by the funeral director or practitioner of funeral service or the cremation or natural organic reduction authorization form, including the deceased person's full name, date and place of death, gender and veteran status. The crematory or natural organic reduction facility shall provide the certificate of cremation or natural organic reduction to the funeral director or practitioner of funeral service or the person who has custody and control of the remains or dead body. [PL 2007, c. 601, §2 (NEW).]

SECTION HISTORY

PL 2007, c. 601, §2 (NEW).

§2948. Preclusive effect of anatomical gift, amendment or revocation

1. Person other than donor barred. Except as otherwise provided in subsection 7, in the absence of an express, contrary indication by the donor, a person other than the donor is barred from making, amending or revoking an anatomical gift of a donor's body or a part if the donor made an anatomical gift of the donor's body or the part under section 2945 or an amendment to an anatomical gift of the donor's body or the part under section 2946.

[PL 2007, c. 601, §2 (NEW).]

2. Revocation not refusal. A donor's revocation of an anatomical gift of the donor's body or a part under section 2946 is not a refusal and does not bar another person specified in section 2944 or 2949 from making an anatomical gift of the donor's body or a part under section 2945 or 2950.

[PL 2007, c. 601, §2 (NEW).]

3. Effect of gift or amendment by person other than donor. If a person other than the donor makes an unrevoked anatomical gift of the donor's body or a part under section 2945 or an amendment to an anatomical gift of the donor's body or a part under section 2946, another person may not make, amend or revoke the gift of the donor's body or part under section 2950.

[PL 2007, c. 601, §2 (NEW).]

4. Effect of revocation by person other than donor. A revocation of an anatomical gift of the donor's body or a part under section 2946 by a person other than the donor does not bar another person from making an anatomical gift of the body or a part under section 2945 or 2950.

[PL 2007, c. 601, §2 (NEW).]

5. Effect of gift of a part or for a purpose. In the absence of an express, contrary indication by the donor or other person authorized to make an anatomical gift under section 2944:

A. An anatomical gift of a part is neither a refusal to give another part nor a limitation on the making of an anatomical gift of another part at a later time by the donor or another person under section 2945 or 2950; and [PL 2007, c. 601, §2 (NEW).]

B. An anatomical gift of a part for one or more of the purposes set forth in section 2944 is not a limitation on the making of an anatomical gift of the part for any of the other purposes by the donor or any other person under section 2945 or 2950. [PL 2007, c. 601, §2 (NEW).]

[PL 2007, c. 601, §2 (NEW).]

If there is more than one member of a class listed in subsection 1, paragraph A, D, E, F, G, H or J entitled to make an anatomical gift, an anatomical gift may be made by a member of the class unless that member or a person to which the gift can pass under section 2951 knows of an objection by another member of the class. [PL 2007, c. 601, §2 (NEW).]

3. Member of prior class reasonably available. No person may make an anatomical gift if, at the time of the decedent's death, a person in a prior class under subsection 1 is reasonably available to make or to object to the making of an anatomical gift.

[PL 2007, c. 601, §2 (NEW).]

3. Revocation effective if known. A revocation under subsection 2 is effective only if the procurement organization or transplant hospital or the physician or technician knows of the revocation before an incision has been made to remove a part from the donor's body or before invasive procedures have begun to prepare the recipient.

[PL 2007, c. 601, §2 (NEW).]

4. Requesting consent. Consent for an anatomical gift by a recovery agency under section 2949 must be documented in writing or, if secured in a telephone conversation, in a suitable recording, must disclose in plain language the specific tissue, organ or body part being donated and the purpose for which the anatomical gift will be used and must comply in all respects with rules regarding consent requirements for anatomical gifting adopted by the department pursuant to subsection 5.

[PL 2007, c. 601, §2 (NEW).]

[PL 2007, c. 601, §2 (NEW).]

3. Priority of purposes. For the purpose of subsection 2, if there is more than one purpose of an anatomical gift set forth in the document of gift but the purposes are not set forth in any priority, the gift must be used for transplantation or therapy if suitable for those purposes and, if the gift cannot be used for transplantation or therapy, the gift may be used for research or education.
[PL 2007, c. 601, §2 (NEW).]

4. No named recipient or purpose. If an anatomical gift of one or more specific parts is made in a document of gift that does not name a person described in subsection 1 and does not identify the purpose of the gift, the gift passes in accordance with subsection 6 and the decedent's parts must be used for transplantation or therapy, if suitable, and, if not suitable, the gift may be used for research or education.
[PL 2007, c. 601, §2 (NEW).]

5. General intent. If a document of gift specifies only a general intent to make an anatomical gift by words such as "donor," "organ donor" or "body donor" or by a symbol or statement of similar import, the gift passes in accordance with subsection 6 and the decedent's parts must be used for transplantation or therapy, if suitable, and, if not suitable, the gift may be used for research or education.

[PL 2007, c. 601, §2 (NEW).]

7. Passing of organ for transplantation or therapy. An anatomical gift of an organ for transplantation or therapy, other than an anatomical gift under subsection 1, paragraph B, passes to the organ procurement organization as custodian of the organ.
[PL 2007, c. 601, §2 (NEW).]

8. Custody of body or part if not passed or used. If an anatomical gift does not pass pursuant to subsections 1 to 7 or the decedent's body or part is not used for transplantation, therapy, research or education, custody of the body or part passes to the person under obligation to dispose of the body or part.
[PL 2007, c. 601, §2 (NEW).]

9. Acceptance of gift prohibited. A person may not accept an anatomical gift if the person knows that the gift was not effectively made under section 2945 or 2950 or if the person knows that the decedent made a refusal under section 2947 that was not revoked. For purposes of this subsection, if a person knows that an anatomical gift was made on a document of gift, the person is deemed to know of any amendment or revocation of the gift or any refusal to make an anatomical gift on the same document of gift.
[PL 2007, c. 601, §2 (NEW).]

1. Reasonable search of registry and records. When a hospital refers an individual at or near death to a procurement organization, the organization shall make a reasonable search of any donor registry and records of the Secretary of State that it knows exist for the geographical area in which the individual resides to ascertain whether the individual has made an anatomical gift.

[PL 2007, c. 601, §2 (NEW).]

2. Reasonable access to records of donor registry. A procurement organization must be allowed reasonable access to information in the records of the donor registry to ascertain whether an individual at or near death is a donor.

[PL 2007, c. 601, §2 (NEW).]

3. Reasonable examination to determine medical suitability. When a hospital refers an individual at or near death to a procurement organization, the organization may conduct any reasonable examination necessary to assess the medical suitability of a part that is or could be the subject of an anatomical gift for transplantation, therapy, research or education from a donor or a prospective donor. During the examination period, measures necessary to maintain the potential medical suitability of the part may not be withdrawn unless the hospital or procurement organization knows that the individual expressed a contrary intent.

[PL 2007, c. 601, §2 (NEW).]

4. Reasonable examination after death. Unless prohibited by law other than this chapter, at any time after a donor's death, the person to which a part passes under section 2951 may conduct any reasonable examination necessary to assess the medical suitability of the body or part for its intended purpose.

[PL 2007, c. 601, §2 (NEW).]

7. Reasonable search for person to make gift on behalf of donor. A procurement organization shall make a reasonable search for any person listed in section 2949 having priority to make an anatomical gift on behalf of a prospective donor.

9. Superior rights. Subject to section 2951, subsection 8 and section 2961, the rights of the person to which a part passes under section 2951 are superior to rights of all others with respect to the part. The person may accept or reject an anatomical gift in whole or in part. Subject to the terms of the document of gift and this chapter, a person that accepts an anatomical gift of an entire body may allow embalming, cremation or natural organic reduction and use of remains in a funeral service. If the gift is of a part, the person to which the part passes under section 2951, upon the death of the donor and before embalming, cremation or natural organic reduction shall cause the part to be removed without unnecessary mutilation. [PL 2007, c. 601, §2 (NEW).]

2. Nondisclosure of personally identifiable information. Personally identifiable information on a donor registry about a donor or prospective donor may not be used or disclosed without the express consent of the donor, prospective donor or the person that made the anatomical gift for any purpose other than to determine, at or near death of the donor or prospective donor, whether the donor or prospective donor has made an anatomical gift.

[PL 2007, c. 601, §2 (NEW).]

3. Other registries. This section does not prohibit any person from creating or maintaining a donor registry that is not established by or under contract with the State. A registry under this subsection must comply with this chapter.

[PL 2007, c. 601, §2 (NEW).]

4. Certification of donor registries. Prior to the establishment of a nongovernmental donor registry, the donor registry must be certified by the department to ensure the registry operates in accordance with the standards and requirements of this chapter except that a donor registry established by an organ procurement organization designated by and in good standing with the United States Department of Health and Human Services is exempt from the certification requirement.

opportunity to recover anatomical gifts for the purpose of transplantation, therapy, research or education.

[PL 2007, c. 601, §2 (NEW).]

2. Examination within compatible time period. If the Chief Medical Examiner receives notice from a procurement organization that an anatomical gift might be available or was made with respect to a decedent whose body is under the jurisdiction of the Chief Medical Examiner and a postmortem examination may be performed, unless the Chief Medical Examiner denies recovery in accordance with section 2961, the Chief Medical Examiner or designee shall undertake reasonable efforts to conduct a postmortem examination of the body or the part in a manner and within a time period compatible with its preservation for the purposes of the gift.

[PL 2007, c. 601, §2 (NEW).]

3. Subject of an anatomical gift. A part may not be removed from the body of a decedent under the jurisdiction of the Chief Medical Examiner for transplantation, therapy, research or education unless the part is the subject of an anatomical gift. The body of a decedent under the jurisdiction of the Chief Medical Examiner may not be delivered to a person for research or education unless the body is the subject of an anatomical gift. If the decedent's body or part is medically suitable for transplantation, therapy, research or education, the Chief Medical Examiner shall release postmortem examination results to the procurement organization. The procurement organization may make a subsequent disclosure of the postmortem examination results or other information received from the Chief Medical Examiner only if relevant to transplantation, therapy or with the express authorization of the Chief Medical Examiner, if relevant to research.

[PL 2007, c. 601, §2 (NEW).]

2. Medicolegal examination. The Chief Medical Examiner may conduct a medicolegal examination by reviewing all medical records, laboratory test results, x-rays, other diagnostic results and other information that any person possesses about a prospective donor or a donor whose body is under the jurisdiction of the Chief Medical Examiner that the Chief Medical Examiner determines may be relevant to the investigation.

3. Provision of information. A person that has any information requested by the Chief Medical Examiner pursuant to subsection 2 shall provide that information as expeditiously as possible to allow the Chief Medical Examiner to conduct the medicolegal investigation within a period compatible with the preservation of parts for purposes of transplantation, therapy, research or education.

[PL 2007, c. 601, §2 (NEW).]

4. Removal not interfering with examination. If an anatomical gift has been or might be made of a part of a decedent whose body is under the jurisdiction of the Chief Medical Examiner and a postmortem examination is not required, or the Chief Medical Examiner determines that a postmortem examination is required but that the recovery of the part that is the subject of an anatomical gift will not

interfere with the examination, the Chief Medical Examiner and procurement organization shall cooperate in the timely removal of the part from the decedent for purposes of transplantation, therapy, research or education.

[PL 2007, c. 601, §2 (NEW).]

5. Removal may interfere with examination. If an anatomical gift of a part from a decedent under the jurisdiction of the Chief Medical Examiner has been or might be made, but the Chief Medical Examiner believes that the recovery of the part may interfere with the postmortem investigation as required by chapter 711, the Chief Medical Examiner shall make a reasonable effort to consult with the procurement organization or physician or technician designated by the procurement organization about the proposed recovery in an effort to facilitate recovery consistent with discharge of the obligations of the Chief Medical Examiner.

[PL 2007, c. 601, §2 (NEW).]

6. If recovery denied. If the Chief Medical Examiner or designee denies recovery, the Chief Medical Examiner or designee shall provide the specific reasons for not allowing recovery of the part to the procurement organization.

[PL 2007, c. 601, §2 (NEW).]

7. Record provided to Chief Medical Examiner. If the Chief Medical Examiner or designee allows recovery of a part under subsection 4 or 5, upon request the procurement organization shall cause the physician or technician who removes the part to provide the Chief Medical Examiner with a record describing the condition of the part, a biopsy, a photograph and any other information and observations that would assist in the postmortem examination.

Expertise in the specialty of forensic pathology may be established either by certification in forensic pathology by the American Board of Pathology or the American Osteopathic Board of Pathology or by successful completion of an examination to test expertise in forensic pathology designed for the State by acknowledged experts in the field selected by the Governor. Any vacancy in the Office of Chief Medical Examiner must be filled by appointment by the Governor for a full term of 7 years. The Chief Medical Examiner may hire, subject to the Civil Service Law, necessary office and laboratory personnel to carry out the proper functioning of the Chief Medical Examiner's office.

[PL 2001, c. 222, §1 (AMD).]

The salary of the Deputy Chief Medical Examiner must be set in accordance with Title 5, section 196. In the event of the Deputy Chief Medical Examiner's temporary absence, the Chief Medical Examiner or, if the Chief Medical Examiner is unavailable, the Attorney General may

[PL 2017, c. 284, Pt. DDD, §2 (AMD).]

[PL 2023, c. 412, Pt. FF, §1 (AMD).]

3. Certification and completion of reports of deaths. The Office of Chief Medical Examiner is responsible for certification and completion of reports of deaths identified as medical examiner cases by section 3025. This must be accomplished by examination of bodies and useful objects and by investigation and inquiry into the circumstances surrounding the deaths. The Office of Chief Medical Examiner may compile and preserve records and data relating to criminal prosecution, public health, public safety and vital statistics, as these relate to the Chief Medical Examiner's responsibilities.

A facsimile of the signature of the Chief Medical Examiner imprinted on any certificate described in this subsection has the same validity as the Chief Medical Examiner's written signature and is admissible in court.

[RR 2021, c. 2, Pt. B, §150 (COR).]

7. Medical records provided. In any medical examiner case, upon oral or written request of the medical examiner, any individual, partnership, association, corporation, institution or governmental entity that has rendered treatment pertaining to the medical examiner case shall as soon as practicable provide the medical examiner with all medical records pertaining to the person and the treatment provided. No individual, partnership, association, corporation, institution, governmental entity or employee or agent of a governmental entity may be criminally or civilly responsible for furnishing any medical records in compliance with this subsection.

13. Access to certain information by certain persons. Unless a medical examiner case is under investigation by the Department of the Attorney General or the office of a district attorney and the Attorney General or the district attorney determines that there is a reasonable possibility that release or inspection interferes with a criminal investigation or prosecution by the disclosure:

A. Items identified in subsection 8, paragraphs F and G may be inspected and copies obtained, upon payment of any required fee under section 3035, by:

Release and inspection are also contingent upon the person's request specifying a specific decedent or decedents and the payment of any required fee under section 3035.

[PL 2017, c. 475, Pt. A, §34 (AMD).]

15. Testing for HIV. Notwithstanding Title 5, chapter 501, the Chief Medical Examiner in a medical examiner case may test for the human immunodeficiency virus and may disclose the test result as authorized under subsection 12.

§3025. Medical examiner case

1. Circumstances of death that must be reported. A medical examiner case may exist and must be reported as provided in section 3026 when remains are found that may be human and raise suspicion that death has occurred under any of the following circumstances:

- A. Death is suspected of having been caused by any type of physical injury, including poisoning, regardless of whether the suspected manner of death is homicide, suicide or accident. This circumstance must be reported irrespective of whether the deceased had been attended by a physician, was a patient in a hospital, survived for a considerable time following the physical injury or died from terminal natural causes consequent to and following the physical injury; [PL 2003, c. 433, §1 (AMD).]
- B. Suddenly when the person is in apparent good health and has no specific natural disease sufficient to explain death; [PL 1985, c. 611, §6 (RPR).]
- C. During diagnostic or therapeutic procedures under circumstances indicating gross negligence or when clearly due to trauma or poisoning unrelated to the ordinary risks of those procedures; [PL 1985, c. 611, §6 (RPR).]
- D. Death when the person is in custody pursuant to an arrest, confined in a state correctional or detention facility, county jail, other county correctional or detention facility or local lockup or is on the way to or from a courthouse or any of these places while in the custody of a law enforcement officer or county or state corrections official; [PL 2011, c. 420, Pt. D, §2 (AMD); PL 2011, c. 420, Pt. D, §6 (AFF).]

E. Death while the person is a patient or resident of a facility of the Department of Health and Human Services or residential care facility maintained or licensed by the Department of Health and Human Services, unless clearly certifiable by an attending physician as due to specific natural causes; [PL 1985, c. 611, §6 (RPR); PL 1995, c. 560, Pt. K, §82 (AMD); PL 1995, c. 560, Pt. K, §83 (AFF); PL 2001, c. 354, §3 (AMD); PL 2003, c. 689, Pt. B, §6 (REV).]

F. Death suspected of being due to a threat to the public health when the authority of the medical examiner is needed to adequately study the case for the protection of the public health; [PL 1985, c. 611, §6 (RPR).]

G. Death suspected of not having been certified, including, but not limited to, bodies brought into the State and any buried remains uncovered other than by legal exhumation; [PL 1985, c. 611, §6 (RPR).]

H. Deaths suspected of being medical examiner cases which may have been improperly certified or inadequately examined, including, but not limited to, bodies brought into the State under those circumstances; [PL 1991, c. 339, §3 (AMD).]

I. Sudden infant death syndrome deaths and all other deaths of children under the age of 18 unless clearly certifiable by an attending physician as due to specific natural causes unrelated to abuse or neglect; [PL 1985, c. 611, §6 (RPR).]

J. Whenever human or possibly human remains are discovered not properly interred or disposed of, for which the responsibility to do so cannot be readily determined; or [PL 1985, c. 611, §6 (RPR).]

K. Any cause when there is no attending physician capable of certifying the death as due to natural causes. When a person dies who is under the care of a religious practitioner who uses prayer and spiritual means of healing, the fact that the deceased has been under such religious care does not warrant suspicion of foul play or investigation beyond that warranted by the other facts of the case. [PL 1985, c. 611, §6 (RPR).]

In the absence of any of the circumstances outlined in this subsection, the fact that a patient dies within 24 hours of admission to a hospital or other health care facility need not be reported to the Office of Chief Medical Examiner.

In any case in which the necessity of a report is questionable, a report must be made. [PL 2019, c. 87, §1 (AMD).]

1-A. Medical examiner case determination. Notwithstanding that a case must be reported under subsection 1, the acceptance of any reported death as a medical examiner case is to be determined by the Chief Medical Examiner unless acceptance is specifically ordered by the Attorney General or district attorney having jurisdiction.

The following deaths that must be reported need not be accepted by the Chief Medical Examiner as a medical examiner case:

A. Deaths due to the consequences of long-term exposure to environmental or occupational toxins or long-term exposure to carcinogens; [PL 2019, c. 87, §2 (AMD).]

B. Deaths in the elderly who have sustained limb or axial fractures, excluding the head, for which they are or have been hospitalized; or [PL 2003, c. 433, §4 (NEW).]

C. Sudden natural deaths in the elderly who have not had previous specific symptoms or who were not under treatment by a physician for the specific natural cause that is considered to be the cause of death. [PL 2003, c. 433, §4 (NEW).]

These reportable deaths may be referred back to the attending physician by the Chief Medical Examiner for certification of the death, even though the attending physician has not treated the patient for the specific natural disease that the attending physician will enter as the physician's diagnosis.

[PL 2019, c. 87, §2 (AMD).]

2. Attendance by physician.

[PL 2003, c. 433, §5 (RP).]

3. Transplant operations. An operation for the transplant of an organ or a portion of an organ may not take place, when the donor's death occurs under circumstances indicating a medical examiner case, without approval of the medical examiner. A doctor performing a transplant operation when the donor has died under these circumstances shall note the condition of the vital organs in the region of surgery and shall include this notation in a written report of the operation and manner in which death was pronounced, with the report to be given to the medical examiner upon the medical examiner's request. The medical examiner may choose to be present during the removal of the donated organ.

[RR 2021, c. 2, Pt. B, §151 (COR).]

4. Questionable cases and cases that may constitute exceptions.

[PL 2003, c. 433, §6 (RP).]

5. Delayed reports. When a death has occurred that falls under this law as a medical examiner case and the body has already been released for final disposition, the case may be accepted and the body ordered held for examination by a medical examiner, but no exhumation may take place when the body has been finally interred, except pursuant to section 3029.

In any medical examiner case in which physical injury attributable to criminal conduct other than vehicular manslaughter is suspected, a person may not move or alter the body or any objects at the scene of death prior to the arrival, or without the express authorization, of the Attorney General or the Attorney General's authorized representative. [PL 2001, c. 222, §8 (AMD).]

[PL 2001, c. 222, §8 (AMD).]

2. Preservation or removal of body. In any medical examiner case in which the body is in danger of being destroyed or lost or the location of the body renders it a serious threat to the safety or health of others, a person may take whatever steps are reasonably necessary for the retention or preservation of the body prior to the arrival or authorization of the medical examiner or the Office of Chief Medical Examiner. The person shall first, if practicable, exactly mark the location and position of the body.

In any medical examiner case in which physical injury attributable to criminal conduct other than vehicular manslaughter is not suspected and the presence of the body is likely to cause hardship or outrage, and a medical examiner or the Office of Chief Medical Examiner can not be reached in a reasonable period of time, the district attorney for the district in which the body is located or the district attorney's authorized representative may authorize removal of the body by the law enforcement officer in charge of the scene. The officer shall first, if practicable, exactly mark the location and position of the body.

A. When death occurs in a medical facility such as a hospital or an ambulance, the body may be removed to a mortuary under the following conditions:

(1) The incident causing the death did not occur in the medical facility;

(2) The body is transported to a secure place in the same condition as when death occurred; and

(3) The only alterations are the disconnecting of fixed medical equipment. [PL 1979, c. 538, §7 (NEW).]

[PL 2001, c. 222, §8 (AMD).]

When the death is suspected of involving physical injury attributable to criminal conduct other than vehicular manslaughter, the procedure in this subsection must be undertaken with the supervision of an authorized representative of the Attorney General.

In all medical examiner cases in which physical injury attributable to criminal conduct other than vehicular manslaughter is suspected, the procedure in this subsection may be waived concurrently by the Chief Medical Examiner and the Attorney General or the Attorney General's authorized representative.

In all other medical examiner cases the procedure in this subsection may be waived concurrently by the medical examiner and the district attorney for the district in which the body is located or the district attorney's authorized representative.

§3028. Investigation; autopsy

1. Authority to conduct investigation. The medical examiner or medicolegal death investigator has authority to conduct an investigation and inquiry into the cause, manner and circumstances of death in a medical examiner case. The medical examiner or medicolegal death investigator shall, if it is determined necessary, immediately proceed to the scene and, subject to the authority of the Attorney General, assume custody of the body for the purposes of the investigation, and shall retain custody until the investigation has been completed or until the Chief Medical Examiner has assumed charge of the case.

[PL 2013, c. 113, §4 (AMD).]

2. Investigation by law enforcement officer. When death is not suspected to be the result of physical injury attributable to criminal conduct, the medical examiner may elect not to proceed to the scene, or the Chief Medical Examiner may elect not to dispatch a medical examiner or medicolegal death investigator to the scene. If the medical examiner elects not to proceed to the scene, or the Chief Medical Examiner elects not to dispatch a medical examiner or medicolegal death investigator to the scene, the law enforcement officer in charge of the scene shall:

A. Investigate, take photographs and take possession of useful objects as directed by the medical examiner, medicolegal death investigator or the Office of Chief Medical Examiner pursuant to subsection 4; [PL 2013, c. 113, §5 (AMD).]

B. [PL 2001, c. 291, §2 (RP).]

C. Remove the body in accordance with the instructions of the medical examiner, medicolegal death investigator or the Office of Chief Medical Examiner; and [PL 2013, c. 113, §5 (AMD).]

D. Make a report of the investigation available to the medical examiner, medicolegal death investigator or the Office of Chief Medical Examiner. [PL 2013, c. 113, §5 (AMD).]

[PL 2013, c. 113, §5 (AMD).]

3. Assistance of law enforcement agency. The medical examiner, the medicolegal death investigator or the pathologist as described in subsection 8 may request the assistance and use of the facilities of the law enforcement agency having jurisdiction over the case for the purposes of photographing, fingerprinting or otherwise identifying the body. That agency shall provide the medical examiner, medicolegal death investigator or pathologist with a written report of the steps taken in providing the assistance.

[PL 2013, c. 113, §6 (AMD).]

4. Possession of useful objects. Except as otherwise directed by the Attorney General, the Attorney General's deputies or assistants, the medical examiner, the medicolegal death investigator or the Office of Chief Medical Examiner may direct that a law enforcement officer at the scene make measurements, take photographs and take possession of all objects that in the opinion of the medical examiner, medicolegal death investigator or the Office of Chief Medical Examiner may be useful in establishing the cause, manner and circumstances of death. For these same purposes, the medical examiner, medicolegal death investigator or the Office of Chief Medical Examiner may direct that a law enforcement officer take possession of any objects or specimens that have been removed from the victim at the scene or elsewhere while under medical care.

[PL 2013, c. 113, §7 (AMD).]

5. Requests for objects. Any person having possession of any object or objects, as described in subsection 4, shall at the request of the medical examiner or medicolegal death investigator give that object or objects to a law enforcement officer, to the medical examiner, to the medicolegal death investigator or to the Office of Chief Medical Examiner. Medical personnel and institutions turning over any objects or specimens that have been removed from the victim while under medical care are immune from civil or criminal liability when complying with this subsection. Original written or recorded material that might express suicidal intent must be sent to the Office of Chief Medical Examiner. The Chief Medical Examiner may elect to accept copies in place of originals.

[PL 2017, c. 475, Pt. A, §36 (AMD).]

6. Examination of body. In all cases, the medical examiner or medicolegal death investigator shall conduct a thorough examination of the body except in those cases when the body has already been disposed of and is not being exhumed or when the Chief Medical Examiner or Deputy Chief Medical Examiner determines, after review of available records and known circumstances, that the report of the death of the decedent may be certified and completed without examining the body.

[PL 2013, c. 113, §9 (AMD).]

7. Written report. Upon completing an investigation, the medical examiner or medicolegal death investigator shall submit a written report of the investigator's findings to the Chief Medical Examiner on forms provided for that purpose. The investigator shall retain one copy of the report.

If an investigator reports suspected abuse, neglect or exploitation to the Chief Medical Examiner, the Chief Medical Examiner, by reporting that information to the department on behalf of the investigator, fulfills the medical examiner's mandatory reporting requirement under section 3477 or 4011-A.

[PL 2013, c. 113, §10 (AMD).]

8. Autopsy. If, in any medical examiner case, in the opinion of the medical examiner, the Chief Medical Examiner, the district attorney for the district in which the death has occurred or the Attorney General, it is advisable and in the public interest that an autopsy be made, the autopsy must be conducted by the Chief Medical Examiner or by a physician that the medical examiner, with the approval of the Chief Medical Examiner, may designate. The medical examiner, with the approval of the Chief Medical Examiner, may elect to perform the autopsy. The person who performs the autopsy shall make a complete report of the findings of the autopsy and shall transmit the report to the medical examiner and the Office of Chief Medical Examiner, retaining one copy of the report.

[PL 1991, c. 339, §4 (AMD).]

9. Autopsy of child. In the case of a child under the age of 3 years, when death occurs without medical attendance or, if attended, without a specific natural cause, the medical examiner shall order an autopsy. The autopsy may be waived by the Chief Medical Examiner, as long as the Chief Medical Examiner includes the reason for the waiver in the record.

[PL 2001, c. 222, §9 (AMD).]

10. Chief Medical Examiner; jurisdiction. The Chief Medical Examiner may assume jurisdiction over a medical examiner case and may recertify the death when the Chief Medical Examiner finds that it is in the public interest to do so. The Chief Medical Examiner shall include the reasons for so doing in the record.

[PL 2001, c. 222, §9 (AMD).]

11. Final release of body. In any medical examiner case the body shall not be finally released for embalming or burial except by order of the medical examiner in charge of the case, or by the Chief Medical Examiner. No medical examiner may release a body without first ensuring that the case has been reported to the Office of Chief Medical Examiner.

[PL 1985, c. 611, §7 (AMD).]

12. Report to domestic abuse panel. If the Chief Medical Examiner determines that a death resulted from criminal conduct and that the victim was pregnant at the time of death, the Chief Medical Examiner shall send a copy of any report prepared under this section to the Domestic Abuse Homicide Review Panel created pursuant to Title 19-A, section 4115.

§3102. Transfer of paupers and public assistance recipients between states

The department shall have authority to enter into reciprocal agreements with corresponding agencies of other states, and to arrange with their local or county boards for the acceptance, transfer and support of persons going from one state to another and becoming public charges and to continue payments of public assistance until eligibility to receive assistance under a similar program has been established in the other state and the first payment from the other state has been received by such recipient. Such reciprocal agreements shall in no way commit the State to support persons who are not, in the opinion of the department, entitled to support under the laws of this State.

§3103. Information upon request

The commissioner shall give to the Governor or to the Legislature or any committee thereof at any time upon their request information and advice with reference to any charitable or correctional institution about which the commissioner has information. The officers in charge of any institution of a charitable or correctional nature under the inspection of the department and local boards or committees having any powers or duties relative to the management of the institution, and those who are in any way responsible for the administration of public funds used for the relief or maintenance of the poor, shall furnish to the department such information and statistics as may be demanded on such forms as the department may consider necessary to secure uniformity and accuracy in the statements. A. Administer a statewide program, referred to in this chapter as "the Supplemental Nutrition Assistance Program," or "SNAP," in accordance with the related requirements and regulations of the United States Department of Agriculture, the United States Department of Health and Human Services and the United States Department of Education; and [PL 2021, c. 398, Pt. OO, §6 (AMD).]

B. Cooperate with and participate in the administration of food distribution programs in conformity with regulations promulgated by the United States Department of Agriculture. [PL 1977, c. 462 (NEW).]

[PL 2021, c. 398, Pt. OO, §6 (AMD).]

[PL 1981, c. 703, Pt. A, §21 (RP).]

3. Authorization of emergency food stamp benefits prior to full verification.

[PL 2009, c. 291, §2 (RP).]

3-A. Authorization of emergency SNAP benefits prior to full verification. Whenever an applicant for benefits under the Supplemental Nutrition Assistance Program states to the department that the applicant is in need of immediate food assistance, the department shall, pending verification, issue and mail an electronic benefits transfer card authorizing the applicant to purchase food at the time of the department's initial interview with the applicant or within one working day of the interview, as long as all of the following conditions are met.

A. As a result of the initial interview with the applicant, the department must have determined that the household of the applicant will probably be eligible for SNAP benefits after full verification is completed. [PL 2021, c. 398, Pt. OO, §7 (AMD).]

B. When possible, the applicant shall submit to the department, at the time of the initial interview, adequate documentation to verify that the applicant is in need of immediate food assistance. [PL 2009, c. 291, §2 (NEW).]

C. When adequate documentation is not available at the time of the initial interview, the department shall contact at least one other person for the purpose of obtaining information to confirm the applicant's statements about the applicant's need for immediate food assistance. [PL 2009, c. 291, §2 (NEW).]

The authorization to receive SNAP benefits under this section may not exceed 30 days from the date that the applicant receives the authorizing card. Additional SNAP benefits may not be issued to the applicant's household until full verification has been obtained that confirms the eligibility of the household.

[PL 2021, c. 398, Pt. OO, §7 (AMD).]

4. Mail issuance of coupons.

[PL 2009, c. 291, §2 (RP).]

Whenever a household receiving benefits through the Supplemental Nutrition Assistance Program informs the department of a change in circumstances that will result in an increase in its SNAP benefit, the department shall issue a supplemental allotment to that household for the month in which the change is reported. The supplemental allotment must represent the difference between the amount for which the household was originally certified in that month and the amount for which it is actually eligible as a result of its reported change in circumstances.

The department shall issue that supplemental allotment within 5 working days of the date that the change in circumstances was reported.

[PL 2021, c. 398, Pt. OO, §8 (AMD).]

11. Supplemental Nutrition Assistance Program overpayment recovery. The Food Supplement Administration account is established as a nonlapsing Other Special Revenue Funds account in the Department of Health and Human Services, Food Supplement Administration program. Any allowable portion of money, as determined pursuant to federal law, recovered by the department as a result of the overpayment of SNAP benefits must be deposited into the Other Special Revenue Funds, Food Supplement Administration account.

A person who is otherwise eligible to receive food assistance under the federal Food Stamp Act of 1977, 7 United States Code, Sections 2011 to 2036 and under the federal Food and Nutrition Act of 2008 may not be denied assistance because the person has been convicted of a drug-related felony as described in the federal

Personal Responsibility and Work Opportunity Reconciliation Act of 1996, Public Law 104-193, Section 115, 110 Stat. 2105.

[PL 2009, c. 291, §2 (AMD).]

After providing an opportunity for a hearing in accordance with Title 5, chapter 375, subchapter 4, 7 Code of Federal Regulations, Section 246.9 (2011), 7 Code of Federal Regulations, Section 246.18 (2011) and any other federal law that applies to adjudicatory proceedings for vendors, providers and participants and making a determination that the affected party has violated a provision of the program, including rules that apply to the program, the department may: [PL 2011, c. 512, §2 (RPR).]

§3108. Standard utility allowance

When the department becomes aware of any decisions made by a public entity or an entity operating a publicly subsidized assistance program that adversely impacts eligibility for, or the amount of assistance to, households receiving assistance under the Supplemental Nutrition Assistance Program pursuant to section 3104, the department shall work in cooperation with that entity to achieve a resolution that minimizes the adverse impact on households receiving SNAP benefits. [PL 2021, c. 398, Pt. OO, §15 (AMD).]

1. Examination of options. When federal law governing either the Supplemental Nutrition Assistance Program or the Low-Income Home Energy Assistance Program is amended to eliminate the eligibility link whereby the SNAP standard utility allowance is automatically available to households receiving low-income home energy assistance benefits, the department shall immediately:

A. Examine and, if feasible, seek a waiver or grant of demonstration authority from the federal Department of Agriculture to continue to use the SNAP standard utility allowance in determining the amount of SNAP benefits available to households that previously qualified for that allowance solely by reason of receipt of low-income home energy assistance benefits; [PL 2021, c. 398, Pt. OO, §15 (AMD).]

B. Determine, in cooperation with all appropriate entities operating publicly subsidized housing programs, a method of providing individualized bills or appropriate documentation for tenants in

subsidized housing that would identify the tenants' shares of incurred heating costs, if doing so would qualify these tenants for the SNAP standard utility allowance; [PL 2021, c. 398, Pt. OO, §15 (AMD).]

C. Determine if federal law would permit the use of the standard utility allowance by households that previously qualified for that allowance solely on the basis of receipt of low-income home energy assistance benefits and implement that section of law if doing so would not result in any increase in the households' rent and energy costs or any reduction in SNAP allotments to either those households or any other households receiving SNAP benefits; and [PL 2021, c. 398, Pt. OO, §15 (AMD).]

D. If none of the alternatives listed in paragraphs A to C result in making the SNAP standard utility allowance available to households that had received it before the change in federal law, immediately estimate the General Fund cost of providing allotments to affected households in an amount equal to the amount they would have received had the federal law not been amended, and promptly provide that information to the joint standing committee of the Legislature having jurisdiction over human resources matters. [PL 2021, c. 398, Pt. OO, §15 (AMD).]
[PL 2021, c. 398, Pt. OO, §15 (AMD).]

2. Notice. The department shall provide prompt written notice to households affected by any change in federal law related to the eligibility link between the Supplemental Nutrition Assistance Program and the Low-Income Energy Assistance Program, or by any waiver received pursuant to this section, of the steps that households may take to gain eligibility for the SNAP standard utility allowance.
[PL 2021, c. 398, Pt. OO, §15 (AMD).]

3. Waiver. The department shall immediately seek a waiver or demonstration authority to operate a demonstration project from the federal Department of Agriculture that would make the SNAP standard utility allowance available to households that incur a heating or cooling cost separate from their rent or mortgage, even if those bills are not based on actual usage as determined by individualized metering.
[PL 2021, c. 398, Pt. OO, §15 (AMD).]

4. Revised waiver application. When federal approval for the waiver or demonstration authority described in this section is not granted, the department may submit a revised waiver request to accomplish the objectives of this section as fully as possible.
[PL 1995, c. 629, §1 (NEW).]

5. Limitation. This section must be implemented within the limits of the department's existing General Fund resources.

§3173. Powers and duties of department

The department is authorized to administer programs of aid, medical or remedial care and services for medically indigent persons. It is empowered to employ, subject to the Civil Service Law, such assistants as may be necessary to carry out this program and to coordinate their work with that of the other work of the department. [PL 1985, c. 785, Pt. B, §91 (AMD).]

The department is authorized and empowered to make all necessary rules and regulations consistent with the laws of the State for the administration of these programs including, but not limited to, establishing conditions of eligibility and types and amounts of aid to be provided, and defining the term "medically indigent," and the type of medical care to be provided. In administering programs of aid, the department shall, among other services, emphasize developing and providing financial support for preventive health care and home health care in order to assure that a comprehensive range of health care services is available to Maine citizens. Preventive health services shall include, but need not be limited to, programs such as early periodic screening, diagnosis and treatment; public school nursing services; child and maternal health services; and dental health education services. To meet the expenses of emphasizing preventive health care and home health care, the department is authorized to expend for each type of care no less than 1.5% of the total sum of all funds available to administer medical or remedial care and services eligible for participation under the United States Social Security Act, Title XIX and amendments and successors to it. [PL 1979, c. 127, §144 (RPR).]

The department shall provide all applicants for aid under this chapter with information in written form, and verbally as appropriate or if requested, about coverage, conditions of eligibility, scope of programs, existence of related services and the rights and responsibilities of applicants for and recipients of assistance under this chapter. [PL 1979, c. 127, §144 (RPR).]

An application for aid under this chapter must be acted upon and a decision made as soon as possible, but the department may not fail to notify the applicant of its decision within 45 days after receipt of the applicant's application. Failure of the department to meet the requirements of this 45-day time standard, except when there is documented noncooperation by the applicant or the source of the applicant's medical information, must lead to the immediate and automatic issuance of a temporary medical card that is valid only until such time as the applicant receives actual notice of a departmental denial of the applicant's application or the applicant receives a replacement medical card. Notwithstanding an applicant's appeal of a denial of the applicant's application, the validity of the temporary medical card ceases immediately upon receipt of the notice of denial. Any benefits received by the applicant during the interim period when the applicant has actual use of a valid, temporary medical card is not recoverable by the department in any legal or administrative proceeding against the applicant. [RR 2021, c. 2, Pt. B, §155 (COR).]

Whenever an applicant is determined by the department to be ineligible for a program for which the applicant has applied, the applicant must be immediately so notified in writing. Any notification of denial must contain a statement of the denial action, the reasons for denial, the specific rules or regulations supporting the denial, an explanation of the applicant's right to request a hearing and a recommendation to the applicant of any other program administered by the department for which the applicant may be eligible. Whenever an individual's application for Temporary Assistance for Needy Families is denied by the department, the notice of this denial must also include, in a clear and conspicuous manner, a statement that the applicant is likely to be eligible for medical assistance and must include information about the availability of applications for the program upon request to the

department either in writing or through a toll-free telephone number. [RR 2021, c. 2, Pt. B, §156 (COR).]

Any applicant for benefits under the medically needy program whose countable income exceeds the applicable state protected income level maximum is eligible for the program when the applicant's incurred medical expenses are found to exceed the difference between the applicant's countable income and the applicable state maximum. Whenever the applicant incurs sufficient medical expenses to be eligible for the medically needy program and provides reasonable proof thereof to the department, a medical card must be issued within 10 days of the presentation of proof that eligibility has been met. Failure of the department to meet the requirements of this 10-day time standard, except when there is documented noncooperation by the applicant or the source of the applicant's medical information, results in the immediate and automatic issuance of a temporary medical card that is valid only until such time as the applicant receives actual notice of a departmental denial of the applicant's application or the applicant receives a replacement medical card. Any benefits received by the applicant during the interim period when the applicant has actual use of a valid temporary medical card are not recoverable by the department in any legal or administrative proceeding against the applicant. [RR 2021, c. 2, Pt. B, §157 (COR).]

In all situations where prior authorization of the department is required before a particular medical service can be provided, the department shall authorize or deny the request for treatment within 30 days of the completion and presentation of the request to the department. The department's response to the request must be supplied to both the provider and the recipient. Whenever the provider is unable or unwilling to provide the service requested within a reasonable time after approval of the request by the department, the recipient has the right to locate another approved provider whose sole duty is to notify the department of the provider's intention to provide the service subject to the original approval. The department shall vigorously assist any recipient in the recipient's search for an approved provider of a necessary medical service when, through reasonable effort, the recipient has been unable to locate a provider on the recipient's own. [RR 2021, c. 2, Pt. B, §158 (COR).]

No time standard established by this section shall be used as a waiting period before granting aid, or as a basis for denial of an application or for terminating assistance. [PL 1979, c. 127, §144 (RPR).]

The department shall make and enforce reasonable rules and regulations governing the custody, use and preservation of the records, papers, files and communications of the department. The use of those records, papers, files and communications by any other agency or department of government to which they may be furnished shall be limited to the purposes for which they are furnished and by the law under which they may be furnished. [PL 1979, c. 127, §144 (RPR).]

The department shall initiate and monitor ongoing efforts performed cooperatively with other public and private agencies, religious, business and civic groups, pharmacists and other medical providers, professional associations, community organizations, unions, news media and other groups, organizations and associations to inform low-income households eligible for programs under this chapter of the availability and benefits of these programs and to insure the participation of eligible households which wish to participate by providing those households with reasonable and convenient access to the programs. [PL 1979, c. 127, §144 (RPR).]

All moneys made available to fund programs authorized by this chapter shall be expended under the direction of the department, and the department is empowered to direct the expenditures therefrom of those sums which may be necessary for purposes of administration. [PL 1979, c. 127, §144 (RPR).]

Relating to the determination of eligibility for medical care to be provided to a beneficiary of state or federal supplemental income for the blind, disabled and elderly, the department may enter into an agreement with the Secretary of the United States Department of Health and Human Services, whereby

the secretary shall determine eligibility on behalf of the department. [PL 1991, c. 528, Pt. E, §23 (AMD); PL 1991, c. 528, Pt. RRR (AFF); PL 1991, c. 591, Pt. E, §23 (AMD).]

The Department of Health and Human Services may establish fee schedules governing reimbursement for services provided under this chapter. In establishing the fee schedules, the department shall consult with individual providers and their representative associations. The fee schedules are subject to department review on a regular schedule set by the department. [PL 2021, c. 398, Pt. OOO, §1 (AMD).]

During the department's review of fee schedules required by this section, the department shall consult with individual providers participating in the Medical Assistance Program and their representative associations to consider, among other factors, the cost of providing specific services, the effect of inflation or other economic factors on the adequacy of the existing fee schedule and its obligation under the federal Medicaid program to ensure sufficient provider participation in the program and member access to services. Except as otherwise provided, the department may apply annual cost-of-living increases, as appropriate, to MaineCare reimbursement rates. The department shall post any change to fee schedules from cost-of-living increases on the department's publicly accessible website at the time the change goes into effect. [PL 2021, c. 398, Pt. OOO, §2 (AMD).]

The department may enter into contracts with health care servicing entities for the provision, financing, management and oversight of the delivery of health care services in order to carry out these programs. For the purposes of this section, "health care servicing entity" means a partnership, association, corporation, limited liability company or other legal entity that enters into a contract to provide or arrange for the provision of a defined set of health care services; to assume responsibility for some aspects of quality assurance, utilization review, provider credentialing and provider relations or other related network management functions; and to assume financial risk for provision of such services to recipients through capitation reimbursement or other risk-sharing arrangements. "Health care servicing entity" does not include insurers or health maintenance organizations. In all contracts with health care servicing entities, the department shall include standards, developed in consultation with the Superintendent of Insurance, to be met by the contracting entity in the areas of financial solvency, quality assurance, utilization review, network sufficiency, access to services, network performance, complaint and grievance procedures and records maintenance. Prior to contracting with any health care servicing entity, the department must have in place a memorandum of understanding with the Superintendent of Insurance for the provision of technical assistance, which must provide for the sharing of information between the department and the superintendent and the analysis of that information by the superintendent as it relates to the fiscal integrity of the contracting entity. The department may require periodic reporting by the health care servicing entity as to activities and operations of the entity, including the entity's activities undertaken pursuant to commercial contracts with licensed insurers and health maintenance organizations. The department may share with the Superintendent of Insurance all documents filed by the health care servicing entity, including documents subject to confidential treatment if that information is treated with the same degree of confidentiality as is required of the department. [PL 1997, c. 676, §1 (NEW).]

The department shall use the multipayor provider database established in section 8719 as its primary source of information to update the department's own data and publicly available information regarding health care provider and service directory information when the information required by the department is already available through the multipayor provider database. [PL 2021, c. 423, Pt. B, §1 (NEW).]

[PL 1977, c. 646 (NEW).]

In developing regulations to administer this section, the Department of Health and Human Services shall consult with the Maine Chapter of American Physical Therapists Association, the Maine Occupational Therapists Association and other groups as appropriate. §3173-J. Rate-setting system for development and maintenance of sustainable, efficient and value-oriented MaineCare payment models and rates

This section establishes a rate-setting system for the development and maintenance of MaineCare payment models and rates that comply with the requirement in 42 United States Code, Section 1396a that rates be consistent with efficiency, economy and quality of care; that are adequate to support MaineCare member access to services; and that are equitable and data-driven. [PL 2021, c. 639, §2 (NEW).]

1. Definitions. As used in this section, unless the context otherwise indicates, the following terms have the following meanings.

A. "Alternative payment model" means a health care payment model that uses financial incentives to promote or leverage greater value for patients, purchasers, payers or providers and that connects at least a portion of reimbursement to performance on defined quality measures. [PL 2021, c. 639, §2 (NEW).]

B. "MaineCare section of policy" means a set of MaineCare-covered services, as categorized by the department through the adoption of rules that specify the parameters for coverage. [PL 2021, c. 639, §2 (NEW).]

C. "Rate determination" means a process conducted by the department to establish the reimbursement rate methodology, base rate amount or payment model for a MaineCare section of policy or for a specific covered service, whether through adoption or adaptation of a benchmark rate from another payer or development through a rate study. [PL 2021, c. 639, §2 (NEW).]

D. "Rate study" means an analysis conducted by the department or its contracted vendor to develop a recommended rate methodology and resulting base rate amount and payment model based on the service model and cost components for the service. [PL 2021, c. 639, §2 (NEW).]

[PL 2021, c. 639, §2 (NEW).]

2. Rate-setting system principles and processes. The department shall establish MaineCare provider reimbursement rates, including those paid through fee-for-service and alternative payment models. The rates must be established in accordance with the following principles and processes and adopted through rulemaking as described in subsection 3. The department shall:

A. Develop annually a schedule of rate determination by MaineCare section of policy in consultation with the MaineCare Rate Reform Expert Technical Advisory Panel established under subsection 5 as follows:

(1) Post the rate determination schedule on its publicly accessible website;

(2) Provide an opportunity for the public to review and comment on the rate determination schedule and make available a summary of these comments on its publicly accessible website; and

(3) Conduct off-schedule rate determinations as the department finds appropriate; [PL 2021, c. 639, §2 (NEW).]

B. Conduct or contract for, every 4 years, a comprehensive benchmarking report to compare MaineCare rates for all services to those paid by Medicare, at least 5 comparison Medicaid states and any appropriate Maine commercial payers. The department shall provide public notice of the initiation of the comprehensive benchmarking process, provide an opportunity for the public to review and comment on the draft report and make available a summary of these comments alongside the final report; [PL 2021, c. 639, §2 (NEW).]

C. No less frequently than once every 5 years, conduct a rate determination process for each MaineCare section of policy or for a specific covered service, in accordance with the following procedures:

(1) Provide public notice of initiation of the rate determination for a MaineCare section of policy or for a specific covered service;

- (2) Consider and, when appropriate, adopt alternative payment models that use financial incentives to promote or leverage greater value for the MaineCare program. This consideration must include a review of research on any available national models or best practices regarding payment models for the service;
- (3) Determine whether a Medicare rate is available for the service and whether the Medicare rate represents the most appropriate benchmark and payment model;
- (4) In the absence of a Medicare rate, determine whether a rate from a non-Medicare payer source, including, but not limited to, commercial health care rates in the State or other states' Medicaid rates, is available for the service and whether this alternate payer rate represents the most appropriate benchmark and payment model. The department shall determine an appropriate percentage of the benchmark rate for the service, taking into consideration the findings of the benchmarking report conducted in accordance with paragraph B;
- (5) Conduct a rate study for every service for which a benchmark rate or payment model in accordance with subparagraph (3) or (4) either is unavailable or is inconsistent with the goals of efficiency, economy and quality of care to support member access. Each rate study must include the following:
- (a) A review of data, which must include:
 - (i) An assessment as to whether the delivery of service and associated requirements have changed since the previous rate study, if available, to determine if the rate methodology needs to be revised;
 - (ii) The collection of data on provider costs and cost-related aspects of the delivery of service and associated requirements through existing cost reports, provider surveys and other available data sources; and
 - (iii) Research on any available national models or best practices regarding cost-related aspects of the delivery of service and associated requirements; and
 - (b) Developing or updating rates by considering the following:
 - (i) The appropriateness of adoption of a change in payment model consistent with the purposes of this section;
 - (ii) The current rate assumptions and their appropriateness given current provider costs, best practices or changes in the delivery of service and associated requirements;
 - (iii) The findings for related services of any comprehensive benchmarking report under paragraph B; and
 - (iv) The degree to which services are dependent on MaineCare reimbursement, including, but not limited to, cost factors, such as average wage, that may be reflective of restraints of MaineCare reimbursement versus costs of the broader marketplace; and
- (6) Upon completion of the rate determination process, present the department's rationale and recommendations for rate methodology, resulting base rate amount and payment model for public comment prior to the rule-making process; convene a meeting of interested providers and other interested members of the public to discuss the recommendations and hear comments; and respond in writing to comments with an explanation of whether and how feedback was incorporated into the final rate determination; and [PL 2023, c. 238, §1 (AMD).]
- D. Ensure that base rate amounts developed under paragraph C are updated to keep pace with changes in the costs of delivering the service by:
- (1) For rates benchmarked to Medicare rates according to paragraph C, subparagraph (3), referencing Medicare rates for the most current year available, updated at least annually, and

reviewing the current established percentage benchmark, as appropriate, taking into consideration the findings of the most recent benchmarking report conducted in accordance with paragraph B;

(2) For rates benchmarked to an alternate payer source in accordance with paragraph C, subparagraph (4), updating rates to the most current year of data for that payer source at least once every 2 years and reviewing the current established percentage benchmark, as appropriate, taking into consideration the findings of the benchmarking report conducted in accordance with paragraph B; and

(3) For base rates determined through a rate study in accordance with paragraph C, subparagraph (5), providing an annual cost-of-living adjustment effective on a consistent date to be established by the department for each service that has not received a rate adjustment within the 12 months prior to the effective date of the cost-of-living adjustment and for which the department determines benchmarking in accordance with paragraph C, subparagraph (3) or (4) is not appropriate or advisable. In establishing cost-of-living adjustments, the department shall:

(a) Use inflation indices determined through rulemaking to reflect a reasonable cost of providing services for different categories of services; and

(b) Maximize use of a single, consistent and general cost-of-living adjustment index, consistent with the cost-of-living adjustment applied to minimum wage laws, in order to ensure that the cost-of-living adjustment reflects increases to provider costs for delivering the service rather than other factors, such as private sector price increases or cost-shifting from different payers. [PL 2021, c. 639, §2 (NEW).]

[PL 2023, c. 238, §1 (AMD).]

3. Rulemaking for establishment of rate methodology. In addition to the requirements of Title 5, chapter 375, rulemaking for MaineCare provider reimbursement rate methodologies must comply with the following.

A. Establishment of a rate methodology for a new MaineCare section of policy or specific new service or changes to an existing rate methodology must be adopted through rulemaking in accordance with the Maine Administrative Procedure Act. Rulemaking is not required for the addition of new billing codes or to specify rates for specific billing codes if there is no change in the overall methodology and rates are posted in accordance with this section. [PL 2021, c. 639, §2 (NEW).]

B. For services the department benchmarks to Medicare or other available payer rates for reimbursement, the department shall adopt a rule specifying the percentage, frequency of benchmark updates for alternate payer sources and other aspects of the benchmark methodology. Additional rulemaking is not required for rate changes tied to the adopted benchmark methodology, or for the addition of new billing codes, unless the department changes the benchmarking percentage or methodology. [PL 2021, c. 639, §2 (NEW).]

C. No later than July 1, 2023, the department shall adopt a rule specifying the appropriate cost-of-living adjustment methodology for different types of services in accordance with subsection 2, paragraph D, subparagraph (3). Additional rulemaking is not required for rate increases tied to annual cost-of-living adjustment increases unless the department changes the cost-of-living adjustment methodology. [PL 2021, c. 639, §2 (NEW).]

Rules adopted pursuant to this subsection are routine technical rules as defined in Title 5, chapter 375, subchapter 2-A unless rules to adopt MaineCare reimbursement rates are designated as major substantive rules in another section of law.

[PL 2021, c. 639, §2 (NEW).]

4. Funding. The department may use funds from the MaineCare Stabilization Fund established in section 3174-KK in order to fund the rate adjustments made in accordance with this section when funding may be needed in addition to appropriations associated with separate initiatives. [PL 2021, c. 639, §2 (NEW).]

5. MaineCare Rate Reform Expert Technical Advisory Panel. The MaineCare Rate Reform Expert Technical Advisory Panel, referred to in this subsection as "the panel," is established for the purpose of advising the commissioner by providing technical, nonpartisan, 3rd-party expertise to inform the department's planned schedule and actions on rate assumptions, payment models and other related technical matters. C. The panel shall meet at least twice per year and as otherwise convened by the commissioner. Meetings of the panel are public, and the panel shall provide public notice of each meeting and an opportunity for public comment. [PL 2021, c. 639, §2 (NEW).]

[PL 2021, c. 639, §2 (NEW).]

6. MaineCare Advisory Committee. The MaineCare Advisory Committee, required by 42 Code of Federal Regulations, Section 431.12 and further described in department rules, and referred to in this subsection as "the committee," shall participate in the department's rate-setting system in accordance with this subsection.

A. The committee must include a permanent rate system subcommittee that allows broad participation by the full spectrum of types of MaineCare providers. Participation in the rate system subcommittee may not be limited by number or type of stakeholder in order to allow for participation by any stakeholder affected by MaineCare reimbursement policy and interested in participating in the work of the subcommittee. [PL 2021, c. 639, §2 (NEW).]

B. At each meeting of the committee or rate system subcommittee, if requested by the chair of the committee or rate system subcommittee, the department shall provide updates on the department's

planned and completed activities under this section for discussion and advisement, including, but not limited to, the following:

[PL 2021, c. 639, §2 (NEW).]

(2) If the commissioner reasonably anticipates the cost of the program to exceed the budget of the population described in this paragraph, the commissioner shall lower the maximum eligibility level to the extent necessary to provide coverage to as many persons as possible within the program budget.

(3) The commissioner shall give at least 30 days' notice of the proposed change in maximum eligibility level to the joint standing committee of the Legislature having jurisdiction over

H. No later than 180 days after the effective date of this paragraph, a person under 65 years of age who is not otherwise eligible for assistance under this chapter and who qualifies for medical assistance pursuant to 42 United States Code, Section 1396a(a)(10)(A)(i)(VIII) when the person's income is at or below 133% plus 5% of the nonfarm income official poverty line for the applicable family size. The department shall provide such a person, at a minimum, the same scope of medical assistance as is provided to a person described in paragraph E.

Cost sharing, including copayments, for coverage established under this paragraph may not exceed the maximum allowable amounts authorized under section 3173-C, subsection 7.

No later than 90 days after the effective date of this paragraph, the department shall submit a state plan amendment to the United States Department of Health and Human Services, Centers for Medicare and Medicaid Services ensuring MaineCare eligibility for people under 65 years of age who qualify for medical assistance pursuant to 42 United States Code, Section 1396a(a)(10)(A)(i)(VIII).

The department shall adopt rules, including emergency rules pursuant to Title 5, section 8054 if necessary, to implement this paragraph in a timely manner to ensure that the persons described in this paragraph are enrolled for and eligible to receive services no later than 180 days after the effective date of this paragraph. Rules adopted pursuant to this paragraph are routine technical rules as defined by Title 5, chapter 375, subchapter 2-A. [IB 2017, c. 1, Pt. A, §3 (NEW).]

For the purposes of this subsection, the "nonfarm income official poverty line" is that applicable to a family of the size involved, as defined by the federal Department of Health and Human Services and updated annually in the Federal Register under authority of 42 United States Code, Section 9902(2). For purposes of this subsection, "program budget" means the amounts available from both federal and state sources to provide federally approved Medicaid services.

[PL 2023, c. 597, §§5-8 (AMD).]

1-A. Elderly prescription drug program.

[PL 2001, c. 650, §1 (RP).]

1-B. Funding. State funds necessary to implement subsection 1-C must include General Fund appropriations and Other Special Revenue allocations from the Fund for a Healthy Maine to the elderly low-cost drug program operated pursuant to section 254-D, including rebates received in that program from pharmaceutical manufacturers, that are no longer needed in that program as a result of the Medicaid waiver obtained pursuant to subsection 1-C.

[PL 2005, c. 401, Pt. C, §5 (AMD).]

1-C. Prescription drug waiver program. Except as provided in paragraph G, the department shall apply to the federal Centers for Medicare and Medicaid Services for a waiver or amend a pending or current waiver under the Medicaid program authorizing the department to use federal matching dollars to enhance the prescription drug benefits available to persons who qualify for the elderly low-cost drug program established under section 254-D. The program created pursuant to the waiver is the prescription drug waiver program, referred to in this subsection as the "program."

A. As funds permit, the department has the authority to establish income eligibility levels for the program up to and including 200% of the federal nonfarm income official poverty level, except that for individuals in households that spend at least 40% of income on unreimbursed direct medical expenses for prescription medications, the income eligibility level is increased by 25%. [PL 2001, c. 650, §3 (NEW).]

B. To the extent reasonably achievable under the federal waiver process, the program must include the full range of prescription drugs provided under the Medicaid program on the effective date of this subsection and must limit copayments and cost sharing for participants. If cost sharing above the nominal cost sharing for the Medicaid program is determined to be necessary, the department may use a sliding scale to minimize the financial burden on lower-income participants. [PL 2001, c. 650, §3 (NEW).]

C. Coverage under the program may not be less beneficial to persons who meet the qualifications of former section 254 than the coverage available under that section on September 30, 2001. [PL 2005, c. 401, Pt. C, §6 (AMD).]

D. In determining enrollee benefits under the program, to the extent possible, the department shall give equitable treatment to coverage of prescription medications for cancer, Alzheimer's disease and behavioral health. [PL 2001, c. 650, §3 (NEW).]

E. The department is authorized to provide funding for the program by using funds appropriated or allocated to provide prescription drugs under sections 254-D and 258. [PL 2005, c. 401, Pt. C, §6 (AMD).]

F. The department is authorized to amend the waiver or adjust program requirements as necessary to take advantage of enhanced federal matching funds that may become available. [PL 2001, c. 650, §3 (NEW).]

G. If, upon thorough analysis, the department determines that a waiver under this subsection is not feasible or would not significantly benefit participants in the elderly low-cost drug program, the department may decide not to pursue the waiver. Within 30 days of a decision not to proceed with a waiver and before taking action on that decision, the department shall report to the joint standing committee of the Legislature having jurisdiction over health and human services matters and shall provide a detailed analysis of the reasons for reaching that decision. [PL 2001, c. 650, §3 (NEW).]

[PL 2005, c. 401, Pt. C, §6 (AMD).]

1-D. Enrollment fee. The department may assess an annual enrollment fee of \$25 for participation in the MaineCare program for a family including a parent or caretaker relative of a child described in subsection 1, paragraph B when the family's income exceeds 150% of the nonfarm income official poverty line.

[PL 2023, c. 597, §9 (AMD).]

2. Resource test. The department may not apply a resource test to those children and pregnant women who are made eligible under this section, unless these persons also receive Temporary Assistance for Needy Families or United States Supplemental Security Income benefits.

[PL 1989, c. 502, Pt. A, §72 (NEW); PL 1997, c. 530, Pt. A, §34 (AMD).]

3. Benefits authorized. The scope of medical assistance to be provided within this section must be that authorized by the Federal Sixth Omnibus Budget Reconciliation Act, Public Law 99-509. [PL 2019, c. 485, §2 (AMD).]

4. Transitional Medicaid. The department shall administer a program of transitional Medicaid to families receiving benefits under Section 1931 of the federal Social Security Act in accordance with 42 United States Code, Section 1396r-6 and this subsection. The amount, duration and scope of services provided under this subsection must be the same as that provided to a parent or caretaker relative of a child described in subsection 1, paragraph B.

A. The department shall provide transitional Medicaid for a 12-month extension period in accordance with 42 United States Code, Section 1396r-6, Subsection (a), Paragraph (5) to families whose eligibility for Medicaid assistance terminated due to an increase in earned income, an increase in hours of employment or a loss of a time-limited earnings disregard. [PL 2019, c. 485, §2 (NEW).]

B. The department shall provide transitional Medicaid for 4 months to families whose eligibility for Medicaid assistance terminated due to an increase in the amount of child support received by the family. [PL 2019, c. 485, §2 (NEW).]

§3174-H. Availability of income between married couples in determination of eligibility

Notwithstanding this chapter, for the purpose of determining medical indigency and eligibility for assistance for an individual residing or about to reside in an institution eligible for Medicaid participation under this section, there shall be a presumption, rebuttable by either spouse, that each spouse has a marital property interest in 1/2 of the total monthly income of both spouses at the time of application for medical assistance. Only the 1/2 interest of the applicant spouse shall be considered available to the spouse in determining eligibility for medical indigency and eligibility for assistance. [PL 1989, c. 502, Pt. A, §72 (NEW).]

The marital property interest of the applicant spouse in the income of both spouses may be rebutted upon a showing of one of the following: [PL 1989, c. 502, Pt. A, §72 (NEW).]

1. Court order. A court order allocating marital income pursuant to alimony, spousal support, equitable division of marital property or disposition of marital property; [PL 1989, c. 502, Pt. A, §72 (NEW).]

2. Individual ownership. The establishing of sole individual ownership of income from current active employment; or [PL 1989, c. 502, Pt. A, §72 (NEW).]

3. Supplementary allocation of spousal income. By applying to the Department of Health and Human Services for a supplementary allocation of spousal income pursuant to this section. [PL 1989, c. 502, Pt. A, §72 (NEW); PL 2003, c. 689, Pt. B, §6 (REV).]

The Department of Health and Human Services shall establish standards for the reasonable and adequate support of the community spouse and the community residence of the couple. The standards shall consider the cost of housing payments, property taxes, property insurance, utilities, food, medical expenses, transportation, other personal necessities and the presence of other dependent persons in the home. [PL 1989, c. 502, Pt. A, §72 (NEW); PL 2003, c. 689, Pt. B, §6 (REV).]

The community spouse may apply to the Department of Health and Human Services for a determination pursuant to the standards that the community spouse requires a larger portion of the marital income. Therefore, a smaller portion of the marital income will be available to the applicant spouse in determining medical indigency and eligibility for assistance. [PL 1989, c. 502, Pt. A, §72 (NEW); PL 2003, c. 689, Pt. B, §6 (REV).]

As soon as authorized by federal law, the department shall implement this section. [PL 1989, c. 502, Pt. A, §72 (NEW).]

§3174-I. Medicaid eligibility determinations for applicants to nursing homes

1. Needs assessment. In order to determine the most cost-effective and clinically appropriate level of long-term care services, the department or its designee shall assess the medical and social needs of each applicant to a nursing facility. If the department chooses a designee to carry out assessments under this section, it shall ensure that the assessments are comprehensive and objective.

A. The assessment must be completed prior to admission or, if necessary for reasons of the person's health or safety, as soon after admission as possible. [PL 1993, c. 410, Pt. FF, §10 (AMD); PL 1993, c. 410, Pt. FF, §19 (AFF).]

B. The department shall determine whether the services provided by the facility are medically and socially necessary and appropriate for the applicant and, if not, what other services, such as home and community-based services, would be more clinically appropriate and cost effective. [PL 1993, c. 410, Pt. FF, §10 (AMD); PL 1993, c. 410, Pt. FF, §19 (AFF).]

B-1. For persons with severe cognitive impairments who have been assessed and found ineligible for nursing facility level care, the department, through its community options unit, shall review the assessment and provide case management to assist consumers and caregivers to receive appropriate services. [PL 2011, c. 657, Pt. BB, §2 (AMD).]

B-2. The department shall establish additional assessment practices and related policies for persons with Alzheimer's disease and other dementias as follows.

(1) For persons who have been assessed using the department's primary assessment instrument and found to have cognitive or behavioral difficulties but who do not require nursing intervention with the frequency necessary to qualify for nursing facility level of care, the department shall administer a supplemental dementia assessment for those persons with cognitive and behavioral impairments. By May 1, 1996, the criteria reflected in this supplemental dementia assessment and the scoring mechanism must be incorporated into rules adopted by the department in consultation with consumers, providers and other interested parties. The assessment criteria proposed in the rulemaking must consider, but are not limited to, the following: orientation, memory, receptive communication, expressive communication, wandering, behavioral demands on others, danger to self or others and awareness of needs.

- (2) The department shall reimburse a nursing facility for individuals who are eligible for care based on the supplemental dementia assessment only if the nursing facility demonstrates a program of training in the care of persons with Alzheimer's disease and other dementias for all staff responsible for the care of persons with these conditions. The department, in consultation with consumers, providers and interested parties, shall develop the requirements for training and adopt rules containing those requirements. By July 1, 1997, the department, in consultation with consumers, providers and interested parties, shall adopt rules establishing the standards for treatments, services and settings to meet the needs of individuals who have Alzheimer's disease and other dementias. These standards must apply to all levels of care available to such individuals.
- (3) No later than January 15, 1997, the department shall report to the joint standing committee of the Legislature having jurisdiction over health and human service matters on the extent to which the use of the supplemental dementia assessment has expanded medical eligibility for nursing facility care to include persons with Alzheimer's disease or other dementias.
- (4) Rules adopted pursuant to this subsection are major substantive rules as defined by Title 5, chapter 375, subchapter II-A. [PL 1995, c. 687, §1 (NEW).]
- C. The department shall inform both the applicant and the administrator of the nursing facility of the department's determination of the services needed by the applicant and shall provide information and assistance to the applicant in accordance with subsection 1-A. [PL 1993, c. 410, Pt. FF, §10 (AMD); PL 1993, c. 410, Pt. FF, §19 (AFF).]
- D. [PL 1995, c. 170, §2 (RP).]
- E. The department shall perform a reassessment of the individual's medical needs when the individual becomes financially eligible for Medicaid benefits.
- (1) If the individual, at both the admission assessment and any reassessment, is determined not to be medically eligible for the services provided by the nursing facility, and is determined not to be medically eligible at the time of the determination of financial eligibility, the nursing facility is responsible for providing services at no cost to the individual until such time as a placement at the appropriate level of care becomes available. After a placement becomes available at an appropriate level of care, the nursing facility may resume billing the individual for the cost of services.
- (2) If the individual is initially assessed as needing the nursing facility's services under the assessment criteria and process in effect at the time of admission or is admitted as covered by Medicare for nursing facility services, but is reassessed as not needing those services at the time the individual is found financially eligible, then the department shall reimburse the nursing facility for services it provides to the individual in accordance with the principles of reimbursement for residential care facilities adopted by the department pursuant to section 3173. In calculating the fixed-cost component of per diem rates for nursing facility services, the department shall exclude days of service for which reimbursement is provided under this subparagraph. [PL 1995, c. 696, Pt. B, §1 (AMD).]
- F. Prior to performing assessments under this section, the department shall develop and disseminate to all nursing facilities and the public the specific standards the department will use to determine the medical eligibility of an applicant for admission to the nursing facility. A copy of the standards must be provided to each person for whom an assessment is conducted. In designing and phasing in the preadmission assessment under this section, the department shall collaborate with interested parties, including but not limited to consumers, nursing facility operators, hospital operators and home and community-based care providers. [PL 1995, c. 170, §2 (AMD).]

G. A determination of medical eligibility under this section is final agency action for purposes of the Maine Administrative Procedure Act, Title 5, chapter 375. [PL 1989, c. 498 (NEW).] [PL 2011, c. 657, Pt. BB, §2 (AMD).]

1-A. Information and assistance. If the assessment performed pursuant to subsection 1 finds the level of nursing facility care clinically appropriate, the department shall determine whether the applicant also could live appropriately and cost-effectively at home or in some other community-based setting if home-based or community-based services were available to the applicant. If the department determines that a home or other community-based setting is clinically appropriate and cost-effective, the department shall:

A. Advise the applicant that a home or other community-based setting is appropriate; [PL 1993, c. 410, Pt. FF, §11 (NEW); PL 1993, c. 410, Pt. FF, §19 (AFF).]

B. Provide a proposed care plan and inform the applicant regarding the degree to which the services in the care plan are available at home or in some other community-based setting and explain the relative cost to the applicant of choosing community-based care rather than nursing facility care; and [PL 1993, c. 410, Pt. FF, §11 (NEW); PL 1993, c. 410, Pt. FF, §19 (AFF).]

C. Offer a care plan and case management services to the applicant on a sliding scale basis if the applicant chooses a home-based or community-based alternative to nursing facility care. [PL 1993, c. 410, Pt. FF, §11 (NEW); PL 1993, c. 410, Pt. FF, §19 (AFF).]

The department may provide the services described in this subsection directly or through private agencies.

[PL 1995, c. 170, §3 (AMD).]

1-B. Notification by hospitals. Whenever a hospital determines that a patient will require long-term care services upon discharge from the hospital, the hospital shall notify the department prior to discharge that long-term care services are indicated and that a preadmission assessment must be performed under this section.

[PL 1995, c. 170, §3 (AMD).]

2. Assessment for mental illness, intellectual disability, autism or related conditions. The department shall assess every applicant to a nursing facility to screen for mental illness, intellectual disability, autism or other related conditions in accordance with the federal Nursing Home Reform Act, Public Law 100-203, Section 4211, 42 United States Code, Section 1396r. Such assessments are intended to increase the probability that any individual who has an intellectual disability, autism or other related condition or a mental illness will receive active treatment for that individual's condition. [PL 2011, c. 542, Pt. A, §33 (AMD).]

3. Rules. The Department of Health and Human Services shall adopt rules in accordance with the Maine Administrative Procedure Act, Title 5, chapter 375, to implement this section.

2-A. Drug formulary committee. As authorized by Section 1927 (d) (4) (A) of the federal Social Security Act, 42 United States Code, Section 1396r-8, the department may develop a formulary using the department's MaineCare drug utilization review committee, except that the membership of the formulary committee must include pharmacists who are expert in pharmacotherapy for pediatric, geriatric and psychiatric populations.

A. A vote of 2/3 of the members of the department's MaineCare drug utilization review committee present is required to add or delete a drug from the list of drugs that are subject to reimbursement and coverage under the MaineCare program. [PL 2005, c. 386, Pt. X, §3 (NEW).]

B. A determination under rules adopted pursuant to subsection 3 that a drug or category of drug is not covered by the MaineCare program is a final agency action subject to review under the Maine Administrative Procedure Act. [PL 2005, c. 386, Pt. X, §3 (NEW).]

[PL 2005, c. 519, Pt. DDDD, §1 (AMD); PL 2005, c. 519, Pt. DDDD, §3 (AFF).]

3. Emergency supply. The department shall adopt routine technical rules as necessary that provide for a pharmacy to dispense, in accordance with applicable licensing standards and professional judgment, a one-time supply for 10 days of the prescribed drug. The rules must allow the department to authorize refills of the drug on a case-by-case basis at the end of the 10-day period if the prescribing provider has not submitted the required information at that time or the department determines that an additional refill is necessary.

The rules must provide that receipt of a 10-day supply under this subsection does not relieve the prescribing provider of the duty to submit all required information. The provision of the 10-day supply does not entitle the MaineCare member to receive benefits pending appeal in the event that a request for prior authorization is ultimately denied, except when the member was receiving the drug for which the 10-day supply was provided immediately prior to the provision of that supply.

Any drug provided under this emergency procedure is considered a Medicaid-covered service pending departmental actions.

[PL 2005, c. 386, Pt. X, §4 (RPR).]

4. Rulemaking. Rules adopted pursuant to section 3174-J prior to its repeal are effective as of the effective date of this chapter without the taking of any action pursuant to the Maine Administrative Procedure Act.

[PL 1993, c. 410, Pt. I, §10 (NEW).]

5. Expedited review process. The department shall provide an independent review process whenever a MaineCare member has written certification from the member's physician that:

A. Delay in the provision of the requested drug may severely jeopardize the life or health of the MaineCare member or cause a severe functional decline in the member; or [PL 2005, c. 386, Pt. X, §5 (NEW).]

B. A preferred drug, if provided, would impose a serious risk to the life or health of the MaineCare member. [PL 2005, c. 386, Pt. X, §5 (NEW).]

The independent review process must ensure a decision within 72 hours of the time that the request is filed, unless the parties otherwise agree that the 72-hour period may be extended. The independent review process must ensure that coverage decisions based upon lack of medical necessity are conducted by a physician or pharmacist. The physician need not in all cases be of the same specialty or subspecialty as the prescribing physician.

A. Implementing changes in eligibility for the Medicaid program that are reasonably likely to cause a decrease in excess of 10% in the percentages of enrollment in any covered group during any year or over any 5-year period unless individuals losing eligibility in a covered group are eligible in any other covered group with substantially similar or greater coverage; [PL 2019, c. 266, §1 (NEW).]

(REALLOCATED FROM TITLE 22, SECTION 3174-R)

The department shall increase access to comprehensive dental care for children under the Medicaid program so that services are received on a timely basis in the regions of the State in which they live, in accordance with this section. [RR 1997, c. 2, §45 (RAL).]

1. Telephone referral service. By April 1, 1998, the department shall establish a toll-free telephone referral service to provide individuals with information on dental services and assistance in accessing dental services. The telephone service must provide persons calling about dental services with oral notice of the availability of assistance in arranging for appointments for dental screening and

[RR 1997, c. 2, §45 (RAL).]

2. Increasing providers. The department shall work with a statewide dental association and dentists in the State to increase the number of providers of dental care and the number participating in the Medicaid program.

The action plan must consider the following strategies to increase access: nonprofit clinics; purchase of practice clinics; enhanced reimbursement for dentists serving a large number of children under the Medicaid program; and contracts with dental clinics and health centers to provide dental care. After February 15, 2023, the report must be submitted by December 31st annually and must also include the status of preventive oral health services provided in schools pursuant to subsection 2-A and methods for maximizing Medicaid funding as permitted by federal law for oral health staff positions within the department and school-based preventive oral health services.

§3174-T. Children's Health Insurance Program

(CONTAINS TEXT WITH VARYING EFFECTIVE DATES)

(REALLOCATED FROM TITLE 22, SECTION 3174-R)

1. Program established. The Children's Health Insurance Program is established to provide health coverage for low-income children who are ineligible for benefits under the Medicaid program and who meet the requirements of subsection 2. The purpose of the Children's Health Insurance Program is to provide health coverage to as many children as possible within the fiscal constraints of the program budget and without forfeiting any federal funding that is available to the State for the State Children's Health Insurance Program through the federal Balanced Budget Act of 1997, Public Law 105-33, 111 Stat. 251, referred to in this section as the Balanced Budget Act of 1997.

[PL 2023, c. 597, §11 (AMD).]

2. Eligibility; enrollment. Health coverage under the Children's Health Insurance Program is available to children under 19 years of age who meet the requirements set forth in paragraph C.

A. The department may adopt rules regarding federal funding of the program within federal guidelines up to the maximum eligibility levels described under section 3174-G. [PL 2023, c. 597, §11 (AMD).]

B. If the commissioner has determined the fiscal status of the Children's Health Insurance Program under subsection 8 and has determined that an adjustment in the maximum eligibility level is required under this paragraph, the commissioner shall adjust the maximum eligibility level in accordance with the requirements of this paragraph.

(1) The adjustment must accomplish the purposes of the Children's Health Insurance Program set forth in subsection 1.

(3) If Children's Health Insurance Program expenditures are reasonably anticipated to fall below the program budget, the commissioner shall raise the maximum eligibility level set in paragraph A to the extent necessary to provide coverage to as many children as possible within the fiscal constraints of the program budget. If Children's Health Insurance Program expenditures are reasonably anticipated to exceed the program budget after raising the maximum eligibility level pursuant to this subparagraph, the commissioner may lower the maximum eligibility level.

(4) The commissioner shall give at least 30 days' notice of the proposed change in maximum eligibility level to the joint standing committee of the Legislature having jurisdiction over appropriations and financial affairs and the joint standing committee of the Legislature having jurisdiction over health and human services matters. [PL 2023, c. 597, §11 (AMD).]

C. All children resident in the State are eligible except a child who:

(1) Is eligible for coverage under the Medicaid program;

(2) Is covered under a group health insurance plan or under health insurance, as defined in Section 2791 of the federal Public Health Service Act, 42 United States Code, Section 300gg(c) (Supp. 1997); or

(4) Is a resident in a public institution or a patient in an institution for mental diseases.

(5) **(TEXT EFFECTIVE UNTIL CONTINGENCY: See PL 2021, c. 635, Pt. CCC, §7)**
(TEXT REPEALED ON CONTINGENCY: See PL 2021, c. 635, Pt. CCC, §7) Within the 3 months prior to application for coverage under the Children's Health Insurance Program, was insured or otherwise provided coverage under an employer-based health plan for which the employer paid 50% or more of the cost for the child's coverage, except that this subparagraph does not apply if:

(a) The cost to the employee of coverage for the family exceeds 10% of the family's income;

(b) The parent lost coverage for the child because of a change in employment, termination of coverage under the Consolidated Omnibus Budget Reconciliation Act of 1985, COBRA, of the Employee Retirement Income Security Act of 1974, as amended, 29 United States Code, Sections 1161 to 1168 (Supp. 1997) or termination for a reason not in the control of the employee; or

(c) The department has determined that grounds exist for a good-cause exception. [PL 2023, c. 597, §11 (AMD).]

D. Notwithstanding changes in the maximum eligibility level determined under paragraph B, the following requirements apply to enrollment and eligibility:

(1) Children must be enrolled for 12-month enrollment periods. Prior to the end of each 12-month enrollment period the department shall redetermine eligibility for continuing coverage; and

(2) Children of higher family income may not be covered unless children of lower family income are also covered. This subparagraph may not be applied to disqualify a child during

the 12-month enrollment period. Children of higher family income may be disqualified at the end of the 12-month enrollment period if the commissioner has lowered the maximum eligibility level under paragraph B. [PL 2023, c. 597, §11 (AMD).]

E. Coverage under the Health Insurance Purchase Option of the Children's Health Insurance Program may be purchased for children under 19 years of age described in subparagraphs (1) and (2) for a period of up to 18 months as provided in this paragraph at a premium level that is revenue neutral and that covers the cost of the benefit and a contribution toward administrative costs no greater than the maximum level allowable under the Consolidated Omnibus Budget Reconciliation Act of 1985, COBRA, of the Employee Retirement Income Security Act of 1974, as amended, 29 United States Code, Sections 1161 to 1168 (Supp. 1997). The department shall adopt rules to implement this paragraph. The following children are eligible to enroll under this paragraph:

(1) A child who is enrolled under paragraph A or B and whose family income at the end of the child's 12-month enrollment term exceeds the maximum allowable income set in that paragraph; and

(2) A child who is enrolled in the Medicaid program and whose family income exceeds the limits of that program. The department shall terminate Medicaid coverage for a child who enrolls in the Children's Health Insurance Program under this subparagraph. [PL 2023, c. 597, §11 (AMD).]

F. The department may not apply an asset test to a child or child's family when the child is otherwise eligible for the Children's Health Insurance Program under this section. [PL 2023, c. 597, §11 (AMD).]

[PL 2023, c. 597, §11 (AMD).]

2-A. Persons 19 and 20 years of age.

[PL 2023, c. 597, §11 (RP).]

3. Program administration; benefit design. With the exception of any requirements imposed under this section, the Children's Health Insurance Program must be integrated with the Medicaid program and administered with it in one administrative structure within the department, with the same enrollment and eligibility processes, benefit package and outreach and in compliance with the same laws and policies as the Medicaid program, except when those laws and policies are inconsistent with this section and the Balanced Budget Act of 1997. The department shall adopt and promote a simplified eligibility form and eligibility process.

[PL 2023, c. 597, §11 (AMD).]

4. Benefit delivery. The Children's Health Insurance Program must use, but is not limited to, the same benefit delivery system as the Medicaid program, providing benefits through the same health plans, contracting process and providers. Copayments and deductibles may not be charged for benefits provided under the program.

[PL 2023, c. 597, §11 (AMD).]

5. (TEXT EFFECTIVE UNTIL CONTINGENCY: See PL 2021, c. 635, Pt. CCC, §7) Premium payments. Premiums must be paid in accordance with this subsection.

A. Premiums must be paid at the beginning of each month for coverage for that month according to the following scale:

(1) Families with incomes between 150% and 160% of the federal nonfarm income official poverty line pay premiums of 5% of the benefit cost per child, but not more than 5% of the cost for 2 children;

(2) Families with incomes between 160% and 170% of the federal nonfarm income official poverty line pay premiums of 10% of the benefit cost per child, but not more than 10% of the cost for 2 children;

(3) Families with incomes between 170% and 185% of the federal nonfarm income official poverty line must pay premiums of 15% of the benefit cost per child, but not more than 15% of the cost for 2 children; and

(4) Families with incomes between 185% and 200% of the federal nonfarm income official poverty line must pay premiums of 20% of the benefit cost per child, but not more than 20% of the cost for 2 children. [PL 2003, c. 673, Pt. TTT, §1 (RPR); PL 2003, c. 673, Pt. TTT, §§3, 5 (AFF).]

B. When a premium is not paid at the beginning of a month, the department shall give notice of nonpayment at that time and again at the beginning of the 6th month of the 6-month enrollment period if the premium is still unpaid, and the department shall provide an opportunity for a hearing and a grace period in which the premium may be paid and no penalty will apply for the late payment. If a premium is not paid by the end of the grace period, coverage must be terminated unless the department has determined that waiver of premium is appropriate under paragraph D. The grace period is determined according to this paragraph.

(1) If nonpayment is for the first, 2nd, 3rd, 4th or 5th month of the 6-month enrollment period, the grace period is equal to the remainder of the 6-month enrollment period.

(2) If nonpayment is for the 6th month of the 6-month enrollment period, the grace period is equal to 6 weeks. [RR 1997, c. 2, §46 (RAL).]

C. A child whose coverage under the Children's Health Insurance Program has been terminated for nonpayment of premium and who has received coverage for a month or longer without premium payment may not reenroll until after a waiting period that equals the number of months of coverage under the Children's Health Insurance Program without premium payment, not to exceed 3 months. [PL 2023, c. 597, §11 (AMD).]

D. The department shall adopt rules allowing waiver of premiums for good cause. [RR 1997, c. 2, §46 (RAL).]

[PL 2023, c. 597, §11 (AMD).]

[PL 2023, c. 597, §11 (AMD).]

7. Administrative costs. The department shall budget 2% of the costs of the Children's Health Insurance Program for outreach activities. After the first 6 months of the program and to the extent that the program budget allows, the department may expend up to 3% of the program budget on activities to increase access to health care. In addition, the department shall apply for additional federal funds available for Medicaid outreach activities. The goal of outreach activities under this subsection is to enroll 100% of children eligible for the Children's Health Insurance Program or the MaineCare program.

[PL 2023, c. 597, §11 (AMD).]

8. Quarterly determination of fiscal status; reports. On a quarterly basis, the commissioner shall determine the fiscal status of the Children's Health Insurance Program, determine whether an

adjustment in maximum eligibility level is required under subsection 2, paragraph B and report to the joint standing committee of the Legislature having jurisdiction over appropriations and financial affairs and the joint standing committee of the Legislature having jurisdiction over health and human services matters on the following matters:

A. Enrollment approvals, denials, terminations, reenrollments, levels and projections. With regard to denials, the department shall gather data from a statistically significant sample and provide information on the income levels of children who are denied eligibility due to family income level; [RR 1997, c. 2, §46 (RAL).]

B. Children's Health Insurance Program expenditures, expenditure projections and fiscal status; [PL 2023, c. 597, §11 (AMD).]

C. Proposals for increasing or decreasing enrollment consistent with subsection 2, paragraph B; [RR 1997, c. 2, §46 (RAL).]

[PL 2023, c. 597, §11 (AMD).]

9. Provisions applicable to federally recognized Indian tribes. After consultation with federally recognized Indian nations, tribes or bands of Indians in the State, the commissioner shall adopt rules regarding eligibility and participation of children who are members of a nation, tribe or band, consistent with Title 30, section 6211, in order to best achieve the goal of providing access to health care for all qualifying children within program requirements, while using all available federal funds. [RR 1997, c. 2, §46 (RAL).]

10. Rulemaking. The department shall adopt rules in accordance with Title 5, chapter 375 as required to implement this section. Rules adopted pursuant to this subsection are routine technical rules as defined by Title 5, chapter 375, subchapter 2-A. [PL 2021, c. 635, Pt. CCC, §3 (AMD).]

11. Children's Health Insurance Program drug rebate agreement. 12. (TEXT EFFECTIVE UNTIL CONTINGENCY: See PL 2021, c. 635, Pt. CCC, §7) Premium rate review; adjustment. Effective July 1, 2004, the department shall periodically evaluate the amount of premiums charged under this section to ensure that the premiums charged reflect the most current benefit cost per child. The commissioner shall adjust the premiums by rule. Rules adopted pursuant to this subsection are routine technical rules as defined in Title 5, chapter 375, subchapter 2-A. [PL 2003, c. 673, Pt. 1. Services furnished by center. The department shall reimburse a federally qualified health center no less than 100% of reasonable costs, reduced by the total copayments for which members are responsible, for services furnished by the center within the scope of service approved by the federal Health Resources and Services Administration or the commissioner if that center:

A. Is receiving a grant under Section 330 of the federal Public Health Services Act; or [PL 1999, c. 401, Pt. T, §1 (NEW).]

B. [PL 2005, c. 400, Pt. C, §1 (AMD).]

3. Updated base year option. No later than March 1, 2023, the department shall provide an alternative, updated prospective payment method for each federally qualified health center that is the same as the prospective payment system set forth in 42 United States Code, Section 1396a(bb)(3), except that the base year for determining the costs of providing services must be the average of the reasonable costs incurred in the center's fiscal years ending in 2018 and 2019, adjusted for any change in scope adjustments approved since the base year and for inflation measured by the federally qualified health center market basket percentage published by the United States Department of Health and Human Services, Centers for Medicare and Medicaid Services. Each federally qualified health center must be given the option to be reimbursed under the method provided by this subsection or under the method provided by federal law. After December 31, 2023, the department may update the base year described in this subsection to a more recent base year.

[RR 2023, c. 1, Pt. A, §14 (COR).]

4. Change in scope adjustments. The department's method for adjusting for changes in the scope of services provided by a federally qualified health center under the payment model provided under subsection 3 or 42 United States Code, Section 1396a(bb)(3) must adjust the center's reimbursement rate to reflect changes in its costs of providing services whenever the center establishes that it has experienced a material change in either:

- A. The type, intensity, duration or quantity of services provided; or [PL 2021, c. 747, §3 (NEW).]
- B. The characteristics of the population receiving a service that affect the cost of the service. [PL 2021, c. 747, §3 (NEW).]

An adjustment under this subsection must reflect costs incurred retroactive to the date that the department received the federally qualified health center request for the adjustment, unless the department determines that the change in scope was due to conditions or events that were beyond the control of the federally qualified health center, in which case the adjustment must be retroactive to the more recent of the date that the federally qualified health center incurred the cost increases requiring an adjustment and the date that is one year prior to the date the department received the federally qualified health center change in scope request.

[PL 2021, c. 747, §3 (NEW).]

5. Alternative payment model. The following requirements apply to any alternative payment model developed by the department for payments to federally qualified health centers.

- A. The alternative payment model must be consistent with the requirements of 42 United States Code, Section 1396a(bb). [PL 2021, c. 747, §4 (NEW).]
- B. As long as federal law continues to require that the department allow a federally qualified health center to elect to use the prospective payment system set forth in 42 United States Code, Section 1396a(bb)(3), the alternative payment model developed under this subsection must be an additional option and not a replacement of the updated base year option provided in subsection 3. [PL 2021, c. 747, §4 (NEW).]
- C. In developing the alternative payment model, the department shall consult with federally qualified health centers and provide a reasonable opportunity for dialogue and exchange of data before any rule implementing such a model is proposed. [PL 2021, c. 747, §4 (NEW).]

[PL 2021, c. 747, §4 (NEW).]

6. Rulemaking. The department may adopt rules to implement subsections 3 to 5. Rules adopted pursuant to this subsection are routine technical rules as defined in Title 5, chapter 375, subchapter 2-A. [PL 2021, c. 747, §5 (NEW).]

H. A member who is eligible for benefits under section 3174-G, subsection 1, paragraph F is eligible for benefits under this section subject to the provisions of paragraphs A to G and to additional rules limiting benefits as specified in this paragraph.

- (1) Benefits for inpatient hospital admissions are limited to 2 per year, except that more admissions may be approved through prior authorization by the department. This subparagraph does not limit inpatient hospital benefits for laboratory services, x-ray services, prenatal care and mental health diagnoses.

§3174-GG. Long-term Care Partnership Program

There is established within the department the Long-term Care Partnership Program pursuant to Section 6021 of the federal Deficit Reduction Act of 2005, Public Law 109-171, 120 Stat. 4 (2006), referred to in this section as "the program," to provide incentives for persons to insure the costs of their own long-term care and to alleviate some of the costs of long-term care being paid by MaineCare. The department shall administer the program as a part of MaineCare. [PL 2009, c. 101, §1 (AMD).]

1. Eligibility. A person is eligible for the program if that person is insured under a policy of long-term care insurance qualified pursuant to the federal Deficit Reduction Act of 2005 and approved for the purpose of the program and has used the policy alone or in combination with private resources to pay for long-term care costs without resort to MaineCare coverage. In order to qualify for benefits under the program, a person must be eligible under this subsection and meet the other criteria required for long-term care benefits under the MaineCare program as provided in this chapter and in rules adopted by the department.

[PL 2009, c. 101, §2 (AMD).]

[PL 2009, c. 101, §3 (AMD).]

3. Disregard. In addition to assets disregarded or exempt under MaineCare program rules, in determining eligibility for MaineCare and the amount of MaineCare benefits and in estate recovery pursuant to section 14, subsection 2-I, the program must disregard assets of an eligible person that are disclosed to the department in the application or posteligibility process in an amount equal to the benefits paid by the approved long-term care insurance policy.

[PL 2009, c. 101, §4 (AMD).]

4. Information. In cooperation with the Department of Professional and Financial Regulation, Bureau of Insurance, the department shall provide information to the public regarding the program and approved long-term care insurance policies.

[PL 2005, c. 12, Pt. DDD, §10 (NEW).]

6. Other laws. Eligibility for the program does not preclude enforcement of laws regarding recovery of MaineCare benefits incorrectly paid or 3rd-party liability claims by the department. The provisions of this section do not enlarge or otherwise modify medical assistance benefits under the MaineCare program. The provisions of section 14, subsection 2-I, paragraph A, subparagraph (3) do not apply to assets disregarded under the program.

[PL 2005, c. 12, Pt. DDD, §10 (NEW).]

7. Rulemaking. The department, after consultation with the Superintendent of Insurance within the Department of Professional and Financial Regulation, shall adopt rules to implement this section. §3201. Declaration of objectives and purpose

1. Objective. In keeping with the American heritage that each person in our society has an inherent human dignity, it is declared that persons of the State of Maine who are visually impaired, disabled or elderly are entitled to sufficient income to attain a reasonable standard of living, which will encourage the pursuit of a meaningful life of greatest value to the nation, the State of Maine and fellow human beings. It is the mutual and shared duty of first, the individual and the individual's family, second, the community and private agencies of the community and ultimately the governments of the political subdivisions of this State, the State of Maine and the United States of America to enable persons who are visually impaired, disabled or elderly to secure income. The objective of this Part is to reduce income barriers to personal and economic independence by encouraging persons who are visually impaired, disabled or elderly to secure and maintain maximum dignity, independence and self-care in a home environment and, if needed, with an appropriate state supplemental income.

[RR 2021, c. 2, Pt. B, §166 (COR).]

2. Purpose. It is further declared that many blind, disabled and elderly people in the State of Maine do not have income sufficient to meet the minimum cost of living budget relating to Maine as determined by the United States Department of Labor, Bureau of Labor Statistics. It is therefore the purpose of this Act, in support of the above objective, to make available to blind, disabled and elderly people a program of state supplemental income.

CHAPTER 855-C

BENEFITS

§3271. Program

1. A program of regular monthly state supplemental income for blind, disabled and elderly people shall be provided for residents of the State of Maine. Benefits under the state supplemental income program shall be based on need and provided in supplementation of benefits provided by the United States Government to aged, blind and disabled individuals pursuant to Title XVI of the United States Social Security Act, as amended. Benefits shall be provided to any person who, on account of blindness, disability or age, qualifies for supplemental security income provided pursuant to Title XVI of the United States Social Security Act, as amended, and may, based on need, be provided to individuals who would, but for their income, be eligible for such supplemental security income benefits. [RR 2015, c. 2, §12 (COR).]

2. The department, to the extent allowed by Title XVI of the United States Social Security Act, as amended, and regulations promulgated thereunder, shall establish standard levels of state supplemental income benefits for blind, disabled and elderly people. The benefits must be provided under a modified flat benefit system, and may vary by marital status, and by living arrangements to the extent allowed by Title XVI of the United States Social Security Act, as amended, and regulations promulgated thereunder. The benefits may not be based on individual budgeted need and may not vary by category or geographical area. Benefits for a couple, except as provided under section 3273, subsection 1, paragraph B, must be equal to the sum of the amount of benefit for an individual and 50% of the benefit for an individual. [PL 2023, c. 405, Pt. A, §65 (AMD).]

3. The department may also require, as a condition of eligibility, that any applicant for benefits or beneficiary under this Part must apply for any income supplementation that may be available under any other federal or state programs operated pursuant to the provisions of the Social Security Act, if it reasonably appears that such applicant or beneficiary is likely to be eligible for income supplementation under such other programs. §3272. Standard

1. Standard. The standard utilized to determine need shall be the current annual budget at the lower level of living for a retired couple as most recently determined by the United States Department of Labor, Bureau of Labor Statistics, for Portland, Maine, or budgets which are consistent with such a budget at the lower level of living, taking into account budget variances by marital status and living arrangements permitted pursuant to Title XVI and regulations promulgated thereunder.

[PL 1973, c. 790, §3 (NEW).]

SECTION HISTORY

PL 1973, c. 790, §3 (NEW).

§3273. Types of benefits

1. Combined benefits. The department shall take action, as necessary, to assure that, within the limits of available funds, a state supplemental income benefit, when combined with a federal supplemental security income benefit, shall consist of such amounts that the sum shall:

A. Increase the minimum monthly federal payment standard, in addition to that established pursuant to federal law, by an amount of at least \$8 per month for an individual and \$12 per month for a couple; [PL 1973, c. 790, §3 (NEW).]

B. For an individual who resides in an adult foster home or boarding home, having a contract with the department for the provision of services to eligible residents, or nursing home, as defined in section 1812-A, in addition to the benefits provided herein under paragraphs A and C, provide sufficient income to allow the individual for personal needs an amount equal to at least \$30 a month, plus an amount sufficient to meet the monthly per resident payment rate as established by the department of the adult foster home or boarding home in which the individual resides; and [PL 1985, c. 770, §3 (AMD).]

C. For a beneficiary who resides in a living arrangement which meets a living arrangement classification established by the department, but who does not reside in an adult foster home or boarding home, in addition to the minimum federal payment level as adjusted pursuant to paragraph A, provide, based on such living arrangement classification, an amount not to exceed \$42 per month for an individual and \$63 per month for a couple. [PL 1973, c. 790, §3 (NEW).]

[PL 1985, c. 770, §3 (AMD).]

2. Participation limited.

A. The limitation on eligibility of certain individuals established in subsections (e)(i)(A) and (e)(i)(B) of section 1611 of Title XVI of the United States Social Security Act, as amended, shall apply to benefits provided pursuant to this section. [PL 1979, c. 563, §2 (AMD).]

B. [P&SL 1975, c. 90, §S, §1 (RP).]

[PL 1979, c. 563, §2 (AMD).]

3. Payments for boarding home care.

A. If an agreement cannot include payment levels and variations thereof to provide the individual sufficient income to meet the monthly per resident payment rate for boarding home care, the department shall take any and all reasonable action necessary to the goal of achieving, within a reasonable time, a payment structure for each boarding home that will permit execution of an agreement with the secretary for administration of all state supplemental income benefits. [PL 1973, c. 790, §3 (NEW).]

B. In the unfortunate and unlikely event that such an agreement cannot be effected to provide the individual sufficient income as specified in subsection 1, paragraph B, the department may provide

a special grant whenever the benefit pursuant to subsection 1, paragraph B, is insufficient to meet the rate set for a boarding home. The department shall make such special grant preferably via a vendor payment system or via payment to a payee designated by the individual, or if necessary, via payment to the individual. Noting the intent of Title XVI of the United States Social Security Act, as amended, the administrative efficiencies, and the substantial cost savings to Maine taxpayers, it is the intent of the Legislature that the department shall take any and all reasonable action to obtain the approval of the secretary for a system of vendor payments for such special grants. [RR 1991, c. 1, §30 (COR).]

[RR 1991, c. 1, §30 (COR).]

4. Appropriations available for benefits provided in subsection 1 shall be budgeted and authorized for expenditure by the department in a priority sequence. First, the available appropriation shall be budgeted and expended to increase the minimum monthly federal payment, as specified in subsection 1, paragraph A. Second, any balance of the appropriation remaining after such budgeting, shall be budgeted and expended to provide an individual sufficient income for personal needs, in accordance with subsection 1, paragraph B, and to meet the monthly per resident payment rate for adult foster and boarding home care as provided in subsection 1, paragraph B and subsection 3. Finally, any balance of the appropriations remaining after such budgeting shall be budgeted and expended to provide benefits related to variations by living arrangements as provided in subsection 1, paragraph C.

[PL 1979, c. 563, §3 (AMD).]

5. Retroactive payments relating to benefits provided in subsection 1, paragraph B, and subsection 3 shall not be made for any care provided prior to April 1, 1974. Retroactive payments relating to benefits provided in subsection 1, paragraphs A and C, shall not be provided for any period of time prior to July 1, 1974.

[PL 1973, c. 790, §3 (NEW).]

6. Future changes in types of benefits.

A. It is the declared intent of this Act that, if it is proposed that benefits provided pursuant to subsection 1 are to be increased on any future date, that such proposal shall recommend, and implementation of such increases shall provide, that the benefits pursuant to subsection 1, paragraph A, shall be increased, and the benefits pursuant to subsection 1, paragraph B, shall be increased, rather than increasing benefits pursuant to subsection 1, paragraph C. [PL 1973, c. 790, §3 (NEW).]

B. [PL 1991, c. 528, Pt. E, §24 (AMD); PL 1991, c. 528, Pt. RRR (AFF); PL 1991, c. 591, Pt. E, §24 (AMD); MRSA T. 22 §3273, sub-§6, ¶ B (RP).]

B-1. On July 1st of every year, the sum of the monthly amount of any state supplemental income benefit authorized by subsection 1, paragraphs A and C, plus the amount of the minimum monthly federal supplemental security income in effect at that time must be increased by a percentage amount equal to the percentage rise in the United States Consumer Price Index for April 1st of that year over the level of the Index for April 1st of the previous year plus any additional percentage amount as is recommended annually by the department. Such an increase may be made only insofar as appropriations are available. In determining the additional percentage amount, consideration must be given to the goal of reaching, within a reasonable time, a benefit level equal to or consistent with the current budget at the lower level of living for a retired couple established by the United States Department of Labor, Bureau of Labor Statistics, for Portland, Maine.

If, on April 1st of any year, the sum of the monthly amount of any state supplemental payment authorized by subsection 1, paragraphs A and C, plus the amount of the minimum monthly federal supplemental security income in effect at that time, is equal to or exceeds the amount resulting from 12 divided into the current annual budget at the lower level of living for a retired couple as most recently established by the United States Department of Labor, Bureau of Labor Statistics, for

Portland, Maine, or taking into account variances by marital status and living arrangements as established by the department, a budget that is not inconsistent with that annual budget divided by 12, the increase provided on July 1st next following is limited to the percentage rise in the Consumer Price Index.

This paragraph takes effect July 1, 1993. [PL 1991, c. 528, Pt. E, §25 (NEW); PL 1991, c. 528, Pt. RRR (AFF); PL 1991, c. 591, Pt. E, §25 (NEW).]

7. Balances of funds not to lapse.

[PL 2009, c. 462, Pt. I, §1 (RP).]

7-A. Transfer of funds prohibited. Funds appropriated to support benefits authorized under sections 3271 and 3274 may not be transferred by financial order unless the funds are transferred to the Department of Health and Human Services, Departmentwide program. These amounts may be transferred by financial order upon the recommendation of the State Budget Officer and approval of the Governor. These transfers are not considered adjustments to appropriations.

[PL 2015, c. 267, Pt. XX, §1 (AMD).]

8. Rulemaking. In addition to any other rule-making authority granted under this chapter, the department may adopt emergency rules. The need to reduce benefits to eligible recipients and payments to boarding homes via vendor payments in accordance with the appropriations made available for this purpose is considered an emergency for the purpose of emergency rulemaking.

[PL 1991, c. 622, Pt. M, §12 (NEW).]

9. Supplemental security income for legal immigrants. Supplemental security income for legal immigrants is governed by the following.

A. The department shall provide assistance to all aliens lawfully residing in the United States who would be eligible for assistance under the federal supplemental security income program, 42 United States Code, Section 1381, et seq. except for the provisions of Sections 401, 402 and 403 of the Personal Responsibility and Work Opportunity Reconciliation Act of 1996. [PL 1997, c. 643, Pt. WW, §1 (NEW).]

B. The total amount of monthly assistance provided under this section must equal the amount that the individual would be eligible to receive under the federal supplemental security income program, 42 United States Code, Section 1382, or its successor, if the individual were eligible for that program, and the state supplemental income payment provided to eligible individuals under section 3274. [PL 1997, c. 643, Pt. WW, §1 (NEW).]

[PL 1997, c. 643, Pt. WW, §1 (NEW).]

10. Balances of funds not to lapse. Any balances of funds appropriated for the program of state supplemental income benefits authorized under sections 3271 and 3274 may not lapse but must be carried forward from year to year to be expended for the same purpose.

§3274. Mandatory payments

1. Amount of payment. The department shall provide so-called "mandatory" state supplemental income payments to beneficiaries of the supplemental security income program who receive payments under the state's former aid to the aged, blind and disabled program based on eligibility established for the month of December, 1973.

A so-called "mandatory" state supplemental income benefit, when combined with a federal supplemental security income benefit, shall, to the extent required by federal law to qualify the State of Maine to receive federal matching funds for medical care pursuant to Title XIX of the United States Social Security Act, as amended, and in so far as funds are available, be at least equal to and in no event less than the level of payment to such a recipient effective for December, 1973, under the former state aid to the aged, blind and disabled program, based on eligibility for December, 1973, in accordance with standards of payment applicable to such aid.

[PL 1973, c. 790, §3 (NEW).]

2. Administration. Insofar as an agreement made pursuant to section 3261 pertains to so-called "mandatory" payments, it shall provide that the department enter into an agreement with the secretary under which the secretary, through the Social Security Administration, on behalf of the State of Maine, shall administer, effective with payments issued on January 1, 1974 and thereafter the program of so-called "mandatory" state supplemental income benefits authorized in subsection 1.

[PL 1973, c. 790, §3 (NEW).]

3. Applying for benefits. Persons who receive payments under the state's former aid to aged, blind and disabled Program based on eligibility established for the month of December, 1973, shall, if eligible, receive benefits provided pursuant to this Part and for medical care benefits provided by the State of Maine pursuant to Title XIX of the United States Social Security Act, as amended, without filing an application for supplemental security income with the Social Security Administration.

4. Inconsistent provisions. The provisions of sections 3271, 3272 and 3273, except for section 3273, subsection 7-A, do not apply to so-called "mandatory" payments. If any provision of these sections is inconsistent with this section, this section, as it relates to mandatory payments, prevails.

ADULT PROTECTIVE SERVICES ACT

SUBCHAPTER 1

GENERAL PROVISIONS

§3470. Title

This Act may be cited as the Adult Protective Services Act. [PL 1981, c. 527, §2 (NEW).]

SECTION HISTORY

PL 1981, c. 527, §2 (NEW).

§3471. Declaration of policy and legislative intent

The Legislature recognizes that many adult citizens of the State, because of incapacitation or dependency, are unable to manage their own affairs or to protect themselves from abuse, neglect or exploitation. Often these persons can not find others able or willing to render assistance. The Legislature intends, through this Act, to establish a program of protective services designed to fill this

need and to ensure its availability to all incapacitated and dependent adults who are faced with abuse, neglect, exploitation or the substantial risk of abuse, neglect or exploitation. It is also the intent of the Legislature to authorize only the least possible restriction on the exercise of personal and civil rights consistent with the person's need for services and to require that due process be followed in imposing those restrictions. Any requirements for disclosure of information contained in this chapter do not supersede federal law if federal law prohibits the disclosure of such information in the manner as set forth in this chapter. [PL 2003, c. 653, §1 (AMD).]

1. Prevention of developmental disabilities; Department of Health and Human Services. The Department of Health and Human Services shall serve as the principal agency for the primary prevention of developmental disabilities in the State and shall provide services for pregnant women and new mothers to minimize the likelihood of their having a developmentally disabled child. In particular, the department shall conduct professional education to assure that the best available prevention techniques are utilized by health care professionals in the State and shall assure that access to prenatal services exists for all women of childbearing age in the State.

§3732. Principles of child care system

The department shall allocate resources available under this chapter in a manner that promotes the following principles. [PL 1993, c. 158, §2 (NEW).]

1. Family self-sufficiency. A stable source of child care is a critical ingredient to economic self-sufficiency. Child care policies and programs must facilitate a smooth transition into the work force for parents and a rich and stable environment for children.

[PL 1993, c. 158, §2 (NEW).]

2. Investment in children. Child care is a critical investment that affects a child's readiness to learn. High-quality child care programs recognize and implement good, early childhood practices, as articulated by Head Start, the National Association for the Education of Young Children and other early childhood organizations.

[PL 1993, c. 158, §2 (NEW).]

3. Consumer orientation and education. Child care policies and programs must be responsive to the changing needs of families and educate families about available options, identifying quality programs and selecting appropriate care.

[PL 1993, c. 158, §2 (NEW).]

4. Accessibility. High-quality child care must be available to any family seeking care regardless of where the family lives or the special needs of the child. A centralized system in local communities must be available to facilitate parents' access to child care.

[PL 2011, c. 388, §6 (AMD).]

5. Affordability. High-quality child care must be available to families who receive child care subsidies available in the State on a sliding scale fee basis, with families contributing based on ability to pay.

[PL 2011, c. 388, §7 (AMD).]

6. Diversity. It is the goal of the State to strive wherever possible to provide child care in an integrated setting, where children with various needs and of various income levels and cultures are cared for together.

[PL 1993, c. 158, §2 (NEW).]

7. Efficient, coordinated administration. Child care programs must be coordinated to ensure the most effective use of federal and state funds.

[PL 1993, c. 158, §2 (NEW).]

8. Support for infrastructure. State child care agencies and policies must support the orderly development of a high-quality child care system.

[PL 1993, c. 158, §2 (NEW).]

[PL 1993, c. 158, §2 (NEW).]

The following additional provisions apply to certain federal child care funds, as indicated. [PL 1993, c. 158, §2 (NEW).]

1. Used to supplement state funds. Federal child care funds must be used to supplement and may not replace existing state and local child care funds.

[PL 1993, c. 158, §2 (NEW).]

2. Block grant funds encumbered. Within 6 months of receiving any payment under the federal Child Care and Development Fund, the department shall expend or encumber 100% of the payment.

CHAPTER 1053-A

EMERGENCY ASSISTANCE PROGRAM FOR NEEDY FAMILIES WITH CHILDREN

§3761. Emergency assistance

The department, at the discretion of the commissioner, may establish and operate a program of emergency assistance to needy families with children within the United States Social Security Act, Title IV-A, Section 406(e), and any amendments and additions. [PL 1993, c. 707, Pt. I, §3 (RPR).]

This program must provide: [PL 1993, c. 707, Pt. I, §3 (RPR).]

1. Benefits; emergency situation. Benefits to needy families with children in emergency situations in which the family is deprived of the basic necessities essential to their support, including, but not limited to, utility terminations, lack of adequate shelter, fire and other natural disasters. In determining what constitutes an emergency with respect to utility terminations, the department shall grant assistance when an otherwise qualified family has received a disconnection notice and has exhausted their ability to negotiate and pay the terms of a reasonable payment arrangement. The program may not be used to supplant local responsibility for operating or funding a general assistance program. The department shall not expend more than \$750,000 of state general assistance funds for the purposes of covering the cost of services set out in this subsection; and [PL 1993, c. 707, Pt. I, §3 (RPR).]

2. Additional emergency services. Additional emergency services to children who are at risk of removal from the home because of their specified relative's inability to provide care and children in emergency situations where continued presence in the home is not in the best interest of the children.

Additional emergency services are defined as those that cover emergency situations resulting from child abuse, neglect, abandonment or domestic abuse. The department may expend other general funds for the additional emergency services described in this subsection.

[PL 1993, c. 707, Pt. I, §3 (RPR).]

The department may establish eligibility guidelines and limits on services covered under this program. [PL 1993, c. 707, Pt. I, §3 (RPR).]

A. The department shall adopt rules as necessary to implement and administer the program. The rules must include eligibility criteria, budgeting process, benefit calculation and confidentiality. For the purpose of determining eligibility for TANF, the department shall impose an asset limit of \$10,000 per family and must exempt from the asset limit one vehicle for each licensed driver in the family. The confidentiality rules must ensure that confidentiality is maintained for TANF recipients at least to the same extent that confidentiality was maintained for families in the Aid to Families with Dependent Children program unless otherwise required by federal law or regulation. [PL 2023, c. 366, §1 (AMD).]

B. The department may use funds, insofar as resources permit, provided under and in accordance with the United States Social Security Act or state funds appropriated for this purpose or a

combination of state and federal funds to provide assistance to families under this chapter. In addition to assistance for families described in this subsection, funds must be expended for the following purposes:

- (1) To continue the pass-through of the first \$50 per month of current child support collections and the exclusion of the \$50 pass-through from the budget tests and benefit calculations;
- (2) To provide financial assistance to noncitizens legally admitted to the United States who are receiving assistance under this subsection as of July 1, 2011. Recipients of assistance under this subparagraph are limited to the categories of noncitizens who would be eligible for the TANF programs but for their status as aliens under PRWORA. Eligibility for the TANF program for these categories of noncitizens must be determined using the criteria applicable to other recipients of assistance from the TANF program. Any household receiving assistance as of July 1, 2011 may continue to receive assistance, as long as that household remains eligible, without regard to interruptions in coverage or gaps in eligibility for service. A noncitizen legally admitted to the United States who is neither receiving assistance on July 1, 2011 nor has an application pending for assistance on July 1, 2011 that is later approved is not eligible for financial assistance through a state-funded program unless that noncitizen is:
 - (a) Elderly or disabled, as described under the laws governing supplemental security income in 42 United States Code, Sections 1381 to 1383f (2010);
 - (b) A victim of domestic violence;
 - (c) Experiencing other hardship, such as time necessary to obtain proper work documentation, as defined by the department by rule. Rules adopted by the department under this division are routine technical rules as defined by Title 5, chapter 375, subchapter 2-A; or
 - (d) Unemployed but has obtained proper work documentation, as defined by the department by rule. Rules adopted by the department under this division are routine technical rules as defined by Title 5, chapter 375, subchapter 2-A;
- (3) To provide benefits to 2-parent families with children using the same eligibility requirements as apply to families headed by a single custodial parent or caretaker relative;
- (4) To provide an assistance program for needy children, 19 to 21 years of age, who are in full-time attendance in secondary school. The program is operated for those individuals who qualify for TANF under the United States Social Security Act, except that they fail to meet the age requirement, and is also operated for the parent or caretaker relative of those individuals. Except for the age requirement, all provisions of TANF, including the standard of need and the amount of assistance, apply to the program established pursuant to this subparagraph;
- (5) To provide assistance for a pregnant woman who is otherwise eligible for assistance under this chapter, except that the individual has no dependents under 19 years of age. An individual is eligible for the monthly benefit for one eligible person if the medically substantiated expected date of the birth of the individual's child is not more than 90 days following the date the benefit is received;
- (6) To provide a special housing allowance for TANF families whose shelter expenses for rent, mortgage or similar payments, homeowners insurance and property taxes equal or exceed 50% of their monthly income excluding any income disregarded pursuant to subparagraph (7-D), divisions (a) and (b). The special housing allowance is limited to \$300 per month for each family. For purposes of this subparagraph, "monthly income" means the total of the TANF monthly benefit and all income countable under the TANF program, plus child support received by the family, excluding the \$50 pass-through payment;

(7-C) In determining financial eligibility for applicants who have earnings from employment, the department shall disregard from monthly earnings the following:

- (a) One hundred and eight dollars;
- (b) Fifty percent of the remaining earnings that are less than the federal poverty level; and
- (c) All actual child care costs necessary for work, except that the department may limit the child care disregard to \$175 per month per child or \$200 per month per child under 2 years of age or with special needs;

REVISOR'S NOTE: Subparagraph (7-C) as enacted by PL 2019, c. 485, §3 is REALLOCATED TO TITLE 22, SECTION 3762, SUBSECTION 3, PARAGRAPH B, SUBPARAGRAPH (7-F)

(7-D) In determining benefit levels, the department shall disregard the following amounts from the monthly earnings of recipients:

- (a) One hundred percent of:
 - (i) All earned income received for the first 3 months of employment that began while participating in TANF; or
 - (ii) The first 3 months of any increase in earned income received while participating in TANF.

Any month in which the disregard under this division does not increase the recipient's benefit above that which the benefit would be if the disregard in division (c) is applied does not count as a month in which earned income is disregarded under this division;

- (b) Seventy-five percent of:
 - (i) All earned income received for the 4th to 6th months of employment that began while participating in TANF; or
 - (ii) The 4th to 6th months of any increase in earned income received while participating in TANF.

Any month in which the disregard under this division does not increase the recipient's benefit above that which the benefit would be if the disregard in division (c) is applied does not count as a month in which earned income is disregarded under this division;

- (c) One hundred and eight dollars and 50% of the remaining earnings that are less than the federal poverty level for any month of employment in which a disregard in division (a) or (b) is not applied; and
- (d) All actual child care costs necessary for work, except that the department may limit the child care disregard to \$175 per month per child or \$200 per month per child under 2 years of age or with special needs;

(7-E) For any period during which a household's SNAP benefit is reduced as a result of earnings and receipt of the earned income disregard applied under subparagraph (7-D), division (a) or (b), the household must receive additional SNAP benefits in an amount that will, in addition to the SNAP benefits for which the household remains eligible, provide the household with a minimum of \$50 in SNAP benefits. Additional SNAP benefits under this subparagraph are a noncash benefit and may be used to purchase only those food items permitted under the Supplemental Nutrition Assistance Program;

(7-F) **(REALLOCATED FROM T. 22, §3762, sub-§3, ¶B, sub-¶(7-C))** In determining financial eligibility and benefit levels for TANF applicants and TANF recipients, the

department shall deduct the income less any applicable income disregards from the standard of need and may not apply any other income test;

(8) In cases when the TANF recipient has no child care cost, the monthly TANF benefit is the maximum payment level or the difference between the countable earnings and the standard of need established by rule adopted by the department, whichever is lower;

(9) In cases when the TANF recipient has child care costs, the department shall determine a total benefit package, including TANF cash assistance, determined in accordance with subparagraph (7-D) and additional child care assistance, as provided by rule, necessary to cover the TANF recipient's actual child care costs up to the maximum amount specified in section 3782-A, subsection 5, paragraph B. The benefit amount must be paid as provided in this subparagraph.

(a) Before the first month in which child care assistance is available to an ASPIRE-TANF recipient under this paragraph and periodically thereafter, the department shall notify the recipient of the total benefit package and the following options of the recipient: to receive the total benefit package directly; or to have the department pay the recipient's child care assistance directly to the designated child care provider for the recipient and pay the balance of the total benefit package to the recipient.

(b) If an ASPIRE-TANF recipient notifies the department that the recipient chooses to receive the child care assistance directly, the department shall pay the total benefit package to the recipient.

(c) If an ASPIRE-TANF recipient does not respond or notifies the department of the choice to have the child care assistance paid directly to the child care provider from the total benefit package, the department shall pay the child care assistance directly to the designated child care provider for the recipient. The department shall pay the balance of the total benefit package to the recipient;

(10) Child care assistance under this paragraph must be paid by the department in a prompt manner that permits an ASPIRE-TANF recipient to access child care necessary for work; and

(11) The department shall adopt rules pursuant to Title 5, chapter 375 to implement this subsection. Rules adopted pursuant to this subparagraph are routine technical rules as defined in Title 5, chapter 375, subchapter 2-A. [PL 2023, c. 29, §§1, 2 (AMD).]

[PL 2023, c. 29, §§1, 2 (AMD); PL 2023, c. 366, §1 (AMD).]

4. Promoting support by both parents. The department shall enforce laws and establish policies to ensure that both parents contribute to the economic support of their child or children and to promote every child's right to economic support from both parents. Applicants for and recipients of assistance may refuse to cooperate in the establishment of paternity or child support enforcement for good cause related to domestic violence, including situations when cooperation may result in harm to the parent or child, or when the child was conceived as a result of incest or rape. Evidence supporting a good cause determination includes, but is not limited to, the evidence specified in section 3785, subsection 13. The department shall notify all applicants and recipients orally and in writing of the availability of this determination. When a determination of good cause is made by the department, the department may not impose sanctions or penalties against the applicant or recipient or engage in any other activity that could subject any member of the family to harm.

[PL 1997, c. 530, Pt. A, §16 (NEW).]

5. Move to sustainable employment. The department shall assist parents who receive TANF assistance to move as quickly as possible into employment that will sustain the family.

[PL 1997, c. 530, Pt. A, §16 (NEW).]

6. Training; partnerships. The department shall increase the employability of parents who receive TANF assistance through on-the-job training and strengthening the public and private workforce partnership by developing training sites and jobs for those parents. [PL 1997, c. 530, Pt. A, §16 (NEW).]

7. Teenage pregnancies; minimization. The department shall provide education and services to minimize teenage pregnancies with special attention paid to the role of the male. [PL 1997, c. 530, Pt. A, §16 (NEW).]

8. Transitional support services. The department shall administer a program of transitional support services in accordance with PRWORA, DRA and this subsection.

A. [PL 2019, c. 485, §4 (RP).]

B. The department shall provide limited transitional transportation benefits to meet employment-related costs to ASPIRE-TANF program participants who lose eligibility for TANF assistance due to employment and to employed families with children with income less than 200% of the federal poverty level. The department may also make transitional transportation benefits available to families in which one or both adults are working and who, although they remain financially eligible for TANF benefits, request that their benefits be terminated. Benefits may be provided for up to 18 months. The department may adopt rules that impose a weekly limit on available transitional transportation benefits and that require a contribution from each participant toward the cost of transportation. For the purposes of employed families whose household income is less than 200% of the federal poverty level and who do not qualify based on the loss of TANF eligibility due to earnings or are a 2-parent household who request termination of TANF benefits when at least one adult is working, the department may use up to \$1,400,000 annually from the federal TANF block grant for expenditures under this program. [PL 2021, c. 1, Pt. N, §1 (AMD).]

C. The department shall make available transitional child care services to families who lose eligibility for TANF as a result of increased earnings or an increase in the number of hours worked. The department shall make available transitional child care services to families who lose eligibility for TANF as a result of increased earnings or an increase in the number of hours worked and whose gross income is equal to or less than 250% of the federal poverty guidelines. The department may also make transitional child care services available to families in which one or both adults are working and who, although they remain financially eligible for TANF benefits, request that their benefits be terminated. The family shall pay a premium, which may be waived but may not exceed 10% of gross income, based on the family's gross income compared to the federal poverty level in accordance with rules adopted by the department. Parents must have a choice of child care within the rate established by the department. [PL 2021, c. 534, §1 (AMD).]

D. [PL 2011, c. 655, Pt. S, §1 (RP).]

E. The department shall establish payment rates for child care services that are up to the 75th percentile of local market rates for the various categories of child care services. The payment rates for child care services for children with special needs may be higher than the 75th percentile of local market rates. [PL 2017, c. 412, §3 (RPR).]

F. The department may provide limited transitional food benefits to meet the needs of SNAP benefit recipients living with one or more dependent children under 18 years of age who are working at least 30 hours per week or who are working at least 20 hours per week if one or more dependent child is under 6 years of age. The benefit may not exceed \$100 per month per family. [PL 2021, c. 398, Pt. OO, §22 (AMD).]

[PL 2021, c. 534, §1 (AMD).]

9. Procedures. The following procedural requirements apply to the program:

A. The department shall make information on the program available to the public in written form understandable at the 6th-grade reading level and orally, as needed. [PL 1997, c. 530, Pt. A, §16 (NEW).]

B. The department shall take written applications for assistance, which must be available on request. The department shall provide the applicant written notice of the granting or denial of assistance within 30 days of application. If the family is granted assistance, the notice must state the amount of the benefit. Assistance must be provided promptly to an eligible family without any delay attributable to the administrative process and must be continued regularly to all eligible individuals until they are found to be ineligible. Applicants and recipients must be provided with timely and adequate notice of any intended action to discontinue, terminate, suspend or reduce assistance or to change the manner of paying cash assistance to a protective payee, vendor or through a 2-party payment. Notices under this paragraph must inform the applicant of the right to a fair hearing before an impartial hearing officer and also inform the applicant how to request a hearing. Hearing requests may be made orally or in writing. Hearings must be conducted pursuant to the Maine Administrative Procedure Act. [PL 1997, c. 530, Pt. A, §16 (NEW).]

C. The department shall establish uniform statewide eligibility criteria and benefit levels under the TANF program except as provided in this chapter or chapter 1054-A. Eligibility criteria and benefit levels may not result in cash assistance levels below those in effect on June 1, 1997. [PL 1997, c. 530, Pt. A, §16 (NEW).]

[PL 1997, c. 530, Pt. A, §16 (NEW).]

10. Domestic violence. The following provisions apply with regard to victims of domestic violence.

A. The department shall provide all applicants for assistance under this chapter with information both orally and in writing of the availability of services for victims of domestic violence and of the good cause determination for victims of domestic violence under section 3785, subsection 13. If an applicant requests a good cause determination under section 3785, subsection 13, the department shall promptly determine whether the applicant qualifies for good cause. An individual may not be required to participate in any TANF activity including orientation until the good cause determination is made. [PL 1997, c. 530, Pt. A, §16 (NEW).]

B. When a determination of good cause is made under section 3785, subsection 13, the ASPIRE-TANF program may contact the individual and offer domestic violence victim services or other appropriate services on a voluntary basis. [PL 1997, c. 530, Pt. A, §16 (NEW).]

[PL 1997, c. 530, Pt. A, §16 (NEW).]

11. Treatment of lump sum income. For the purpose of determining eligibility for assistance under TANF, the department shall treat any nonrecurring lump sum income received by a family as an asset, and not as income, in the month the lump sum payment is received. To the extent that any nonrecurring lump sum income remains after the month it was received, the department shall continue to consider the income as an asset in accordance with this section.

A. Nonrecurring lump sum income includes, but is not limited to, personal injury awards, lottery winnings, inheritances and similar nonrecurring forms of income. It does not include income earmarked by the payor for particular expenses such as awards or insurance proceeds earmarked for medical expenses, attorney's fees or the replacement of lost property. Proceeds from the conversion of a nonliquid asset to a liquid asset must be treated as an asset and not as nonrecurring lump sum income. [PL 1997, c. 530, Pt. A, §16 (NEW).]

12. Information about and application for Parents as Scholars. When there are fewer than 2000 enrollees in the Parents as Scholars Program under chapter 1054-B, the department shall inform all persons applying for TANF assistance and all recipients reviewing or requesting to amend their participation in the program of the Parents as Scholars Program and shall offer them the opportunity to apply for the program.

[PL 1997, c. 530, Pt. A, §16 (NEW).]

13. Reports to Legislature. The department shall provide information annually to the joint standing committee of the Legislature having jurisdiction over health and human services matters in order to allow the Legislature to evaluate the TANF program. Such information must include but is not limited to the number of TANF households and family members, a comparison of TANF eligibility levels with the federal poverty level, the number of TANF participants in training, education and work activity components and the rates at which individuals who have found employment through ASPIRE-TANF return to the TANF program. The information must include a summary of any federal laws enacted in the previous fiscal year that may require changes in the ASPIRE-TANF program. The information of the federal law changes must include a summary of any potential positive or negative impact on the TANF program and the ASPIRE-TANF program.

[PL 2007, c. 282, §1 (AMD).]

14. Notification to Legislature. The department shall notify the joint standing committee of the Legislature having jurisdiction over health and human services matters of any request for waivers from the United States Department of Health and Human Services or any other federal agency concerning the implementation of chapters 1053-A, 1054, 1054-A and 1054-B.

[PL 1997, c. 530, Pt. A, §16 (NEW).]

15. Conditions of continued assistance.

[PL 2011, c. 380, Pt. PP, §1 (RP).]

16. Authorization of fund transfer. Notwithstanding any provision of law to the contrary, the department is authorized to transfer to the TANF account any funds available in the ASPIRE-TANF account necessary to meet the purposes of TANF, including the purposes established in subsection 3, paragraph B.

[PL 2001, c. 338, §4 (NEW).]

17. Prohibition against denial of assistance based on drug conviction. A person who is otherwise eligible to receive TANF may not be denied assistance because the person has been convicted of a drug-related felony as described in Section 115 of PRWORA.

[PL 2001, c. 598, §2 (NEW).]

18. Lifetime limit on assistance. Beginning January 1, 2012, a family may not receive TANF assistance for longer than 60 months except in those cases in which the department has determined that the family qualifies for an exemption or extension under rules adopted by the department. When an adult has received TANF assistance for 60 months, unless the adult has been exempted or granted an extension by the department, the family unit in which the adult is a member is ineligible for assistance. The department shall consider conditions or situations beyond the control of the adult recipient, including but not limited to a physical or mental condition that prevents the adult from obtaining or retaining gainful employment, being a victim of domestic violence, participating in good standing in an approved education program or a program that is expected to lead to gainful employment, being the caretaker relative in the household who is not the parent of the child or children in the assistance unit and who is required to remain at home to care for a dependent in the assistance unit and loss of employment by the adult following termination of TANF under this subsection. The department shall grant an extension to a household for each month in which a family received TANF assistance and an earnings disregard under subsection 3, paragraph B, subparagraph (7-D), division (a) or (b). This

extension does not apply to a TANF recipient who has reached the 60-month time limit prior to October 1, 2019.

The department shall adopt rules to implement this subsection. Rules adopted pursuant to this subsection are routine technical rules pursuant to Title 5, chapter 375, subchapter 2-A. [PL 2019, c. 484, §3 (AMD).]

REVISOR'S NOTE: Subsection 18 as enacted by PL 2011, c. 380, Pt. LL, §1 is REALLOCATED TO TITLE 22, SECTION 3762, SUBSECTION 20

19. Pretermination notice process. No later than 120 days prior to the end of a family's 60th month of receiving assistance, the department shall offer the adult recipient an opportunity to hold a meeting to review the family's case and:

- A. Explain the exemption and extension criteria established in subsection 18 to the family and determine if those criteria apply to the family; and [PL 2011, c. 380, Pt. PP, §2 (NEW).]
- B. Explain that any determination made pursuant to this subsection may be appealed in accordance with the hearing process established in subsection 9, paragraph B. [PL 2011, c. 380, Pt. PP, §2 (NEW).]

For a family whose assistance is to be terminated, a supervisory review by the department is required. The review must include but is not limited to an evaluation of the need for additional information to determine if cause for an exemption or extension exists. If the conclusion of the evaluation determines additional vocational, health, mental health or other information is necessary, the department shall work in collaboration with the adult recipient in the development of the information prior to the determination of status or termination.

For a family whose assistance is to be terminated pursuant to this subsection, the department shall provide information to the family regarding any other resources that may be available to help meet that family's basic needs.

[PL 2011, c. 380, Pt. PP, §2 (NEW).]

20. (REALLOCATED FROM T. 22, §3762, sub-§18) Denial of assistance based on positive drug test.

[PL 2019, c. 343, Pt. CCC, §1 (RP).]

21. Duty to provide culturally and linguistically appropriate and trauma-informed services. The department shall work with all TANF and ASPIRE-TANF participants to provide culturally and linguistically appropriate services and trauma-informed services to assist each family in obtaining the services and skills necessary to sustain economic stability and opportunity after leaving TANF. Each TANF and ASPIRE-TANF participant must be screened to identify any need for culturally or linguistically appropriate or trauma-informed services. If such a need is identified, the department shall use appropriate methods and techniques to work with the participant to develop goals that reflect, to the greatest extent possible, the preferences of the participant and individualized plans that address the participant's situation and barriers to sustained economic stability. The department shall work with TANF and ASPIRE-TANF participants to connect them with appropriate programs and services available to help the families attain and sustain economic stability and to ensure the well-being of the children.

§3763. Program requirements

1. Family contract. During the TANF orientation process, a representative of the department and the TANF recipient shall enter into a family contract. The family contract must state the responsibilities of the parties to the agreement including, but not limited to, cooperation in child support enforcement and determination of paternity, the requirements of the ASPIRE-TANF program and referral to parenting activities and health care services. Except as provided in section 3762, subsection 4, refusal to sign the family contract or to abide by the provisions of the contract, except for referral to parenting activities and health care services, will result in termination of benefits under subsection 1-A. Failure to comply with referrals to parenting activities or health care services without good cause will result in a review and evaluation of the reason for noncompliance by the representative of the department and may result in sanctions. Written copies of the family contract and a notice of the right to a fair hearing must be given to the individual. The family contract must be amended in accordance with section 3788 when a participant enters the ASPIRE-TANF program and when participation review occurs.

Benefits that have been terminated under subsection 1-A must be restored once the noncomplying adult recipient signs a new family contract and complies with its provisions.

[PL 2021, c. 97, §1 (AMD).]

1-A. Partial termination of benefits. Benefits under this chapter must be terminated by the department under the provisions of subsection 1 and sections 3785 and 3785-A in accordance with this subsection. A. [PL 2021, c. 97, §2 (RP).]

B. [PL 2021, c. 97, §2 (RP).]

C. Prior to the implementation of a sanction, the department shall offer the adult recipient an opportunity to claim good cause for noncompliance as described in section 3785. [PL 2021, c. 97, §2 (AMD).]

Benefits that have been terminated under this subsection must be restored once the noncomplying adult recipient signs a new contract under subsection 1 and complies with the provisions of the family contract.

- (2) A living parent or legal guardian of the minor parent does not allow the minor parent to live in the parent's or guardian's home;
- (3) The minor parent lived apart from the minor's own parent or legal guardian for a period of at least one year before the birth of the dependent child or the minor parent's application for TANF;
- (4) The physical or emotional health or safety of the minor parent or dependent child would be jeopardized if that minor parent or dependent child resided in the same residence with the minor parent's parent or legal guardian; or

An eligible applicant may receive alternative aid no more than once during any 12-month period. If the family reapplies for TANF within 3 months of receiving alternative aid, the family shall repay any alternative aid received in excess of the amount that the family would have received on TANF. The participant may supplement this assessment with medical records or any other credible

information related to the participant's ability to participate in program activities. An assessment under this subsection may also be initiated at the choice of the participant at any time. The individual performing this assessment shall recommend to the case manager any services, supports and programs needed to improve the economic self-sufficiency and well-being of the participant and the participant's family based on the assessment.

In coordination with the participant, the case manager shall establish a plan for the participant and the participant's family based on the assessment that includes appropriate services, supports and programs consistent with the findings and recommendations of the assessment that may include:

- A. Referral to a community agency qualified to assist the participant with services, supports, education, training and accommodations needed to reduce or overcome any barriers to achieving self-sufficiency and to fulfill the participant's personal and family responsibilities; and [PL 2013, c. 376, §2 (NEW).]
- B. Assistance needed by the participant to obtain federal social security disability insurance benefits or federal supplemental security income benefits. [PL 2013, c. 376, §2 (NEW).]

This subsection does not preclude a determination that the participant is temporarily unable to participate, including participation in any assessment pursuant to this subsection, due to good cause as described in section 3785. Any determination made under this subsection may be appealed in accordance with section 3762, subsection 9.

A participant who chooses to participate in a comprehensive assessment under this subsection and fails to participate without good cause may be sanctioned in accordance with section 3763, subsection 1-A, paragraph A regardless of any previous sanctions that the participant may have incurred.

The department shall provide training for case managers regarding their job responsibilities and their obligation to comply with the requirements of the federal Americans with Disabilities Act of 1990; the federal Rehabilitation Act of 1973; and the Maine Human Rights Act when interviewing and providing information to participants, when referring participants for alternative services or when considering whether the participant requires reasonable accommodations in order to participate in the ASPIRE-TANF program.

[PL 2013, c. 376, §2 (NEW).]

4. Employability plan.

[PL 1997, c. 530, Pt. A, §26 (RP).]

4-A. Family contract amendment. To the extent that sufficient funds, training sites and employment opportunities are reasonably available, the department and a participant in the program shall enter into an amended family contract that must include both the department's and the participant's activities and the support services necessary for the individual to participate in accordance with the assessment, the federal Personal Responsibility and Work Opportunity Reconciliation Act of 1996, Public Law 104-193, 110 Stat. 2105 and the federal Deficit Reduction Act of 2005, Public Law 109-171, 120 Stat. 4.

[PL 2009, c. 291, §8 (AMD).]

5. Provision of support services. Payment for support services must be furnished promptly in accordance with rules adopted by the department to, or on behalf of, eligible individuals as agreed to in the family contract. The rules must provide for an expedited procedure for payment for support services when those services are immediately necessary to enable the participant to participate in an approved education, training or employment plan.

The support services required to participate in ASPIRE-TANF must be specified in the family contract and each participant must receive the support services prescribed in that contract, which may include respite care.

[PL 1997, c. 530, Pt. A, §26 (AMD).]

6. Education, training and employment services. The ASPIRE-TANF program must make available a broad range of education, training and employment services in accordance with section 3781-A, subsection 3 and the federal Personal Responsibility and Work Opportunity Reconciliation Act of 1996, Public Law 104-193, 110 Stat. 2105 and the federal Deficit Reduction Act of 2005, Public Law 109-171, 120 Stat. 4. These services and activities must include all of those services and activities offered by the Additional Support for People in Retraining and Employment Program on October 1, 1989, except in 2-year and 4-year postsecondary education and except as provided in chapter 1054-B. This section does not prohibit the department from purchasing equivalent services from providers other than those from whom those services were purchased on October 1, 1989. When a particular approved education or training service is available at comparable quality and cost, including the cost of support services, and the implementation of the family contract would not be unreasonably delayed, the program participant may choose to enroll for that service with the provider of that person's preference. If this decision is not mutually agreed to by the participant and the case manager, the decision must be reviewed by the case manager's supervisor. These services must include reimbursement for the cost of tuition, mandatory fees and the cost of transcripts or transferring credits for postsecondary education when the participant has exhausted any available educational funding to complete the participant's family contract, in accordance with department rules.

- A. [PL 2021, c. 648, §9 (RP).]
- B. [PL 2021, c. 648, §9 (RP).]
- C. [PL 2021, c. 648, §9 (RP).]

When a substantially similar postsecondary education or training program of comparable quality is available at both a public and private institution, within a reasonable commuting distance for the participant, the department may choose to approve the program offered at the public institution if the participant's program can be completed at less cost at the institution.
[PL 2021, c. 648, §9 (AMD).]

6-A. Parents as Scholars Program prematriculation services. The department shall assist ASPIRE-TANF participants interested in applying for the Parents as Scholars Program under chapter 1054-B to prepare to matriculate, including enrolling participants or preparing participants for enrollment in a program providing remedial services necessary for matriculation; identifying the strengths, needs and barriers faced by participants; and making referrals to programs qualified to assist participants with the services, supports, education, training and accommodations needed to reduce or overcome barriers to enrollment in the Parents as Scholars Program. The department shall cover the cost of support services in accordance with this section needed for any activity under this subsection included in the family contract. Any hours spent preparing for matriculation under this subsection, including, but not limited to, exploring educational opportunities and financial aid options and applying for educational programs or financial aid, must be considered hours of participation in ASPIRE-TANF for the purposes of participation under chapter 1053-B. These hours may also be counted for federal participation as allowable by federal law.
[PL 2021, c. 648, §10 (NEW).]

7. Readability.

[PL 1995, c. 418, Pt. A, §32 (RP).]

7-A. Basic skills education. The department shall make available to individuals participating in the ASPIRE-TANF program basic skills education, including programs that assist individuals in obtaining a high school diploma or its equivalent or comparable credential. The time spent by an ASPIRE-TANF participant in basic skills education must be counted toward the first 20 hours of the participant's required weekly work participation, except that this subsection is suspended for any period for which it would cause the State to fail to meet the work participation rate requirements pursuant to 42 United States Code, Section 607, subsection (a). The department shall ensure that the State's work

verification plan required under federal law for validating work participation activities of ASPIRE-TANF participants includes basic skills education in the definition of vocational educational training when it is a necessary part of a participant's vocational educational training plan. [PL 2019, c. 484, §5 (NEW).]

8. Annual report.

[PL 1995, c. 418, Pt. A, §32 (RP).]

9. Rules. The department shall adopt rules in accordance with the Maine Administrative Procedure Act to implement this section.

[PL 1997, c. 530, Pt. A, §26 (AMD).]

10. Program design. The department shall operate the ASPIRE-TANF program in accordance with the requirements of the federal Deficit Reduction Act of 2005, Public Law 109-171, 120 Stat. 4.

A. Individuals who are ready for jobs may participate in job search at any time. Up-front job search must focus on new recipients who are ready for jobs who are eligible for TANF based on underemployment of the primary wage earner and new single-parent recipients who are ready for jobs and whose children are 5 years of age or older. [PL 1997, c. 530, Pt. A, §26 (AMD).]

B. Work evaluation consists of all activities related to orientation, assessment and initial family contract formulation. Work evaluation is limited to a maximum of 90 days, unless extended by the commissioner or the designee of the commissioner. If an ASPIRE-TANF participant is determined by the department to be job ready, the participant may access the workforce-MaineServe component directly from work evaluation. [PL 1997, c. 530, Pt. A, §26 (AMD).]

C. Except for participants who are accepted into the Parents as Scholars Program established under section 3790, education, training and treatment is limited to a maximum of 24 months, starting with the first day of participation in any allowable and approved job skills or occupational skills training activity. The 24-month period may be extended by the commissioner or the designee of the commissioner for good cause shown.

The department may approve a job skills or occupational training activity longer than 24 months provided the participant agrees to perform a minimum of 20 hours a week of work site experience by no later than the end of the 24-month period. Qualifying work site experience may include, but is not limited to, paid employment, workforce-MaineServe, ASPIRE-Plus, work study, training-related practicums or any other such work site approved by the department. The 24-month period does not include periods of nonactivity in which good cause has been determined.

For individuals who are satisfactorily participating in an education or training program prior to the work evaluation, the department must determine the acceptability of the activity for purposes of meeting the participation requirements of this chapter using the same criteria as is used for any individual in the ASPIRE-TANF program. [PL 2005, c. 480, §1 (AMD).]

D. Workforce-MaineServe consists of paid employment, subsidized employment, apprenticeships or other mandatory work activities, which may continue until the participant is ineligible for TANF benefits. [PL 1997, c. 530, Pt. A, §26 (AMD).]

[PL 2009, c. 291, §10 (AMD).]

11. Individual participation requirements. Participation in the program components is governed by subsection 10 and this subsection.

A. For recipients whose eligibility for TANF is based on unemployment or underemployment of the primary wage earner, participation in the workforce-MaineServe component is required and any participation in the education, training and treatment component is contingent on satisfactory participation in workforce-MaineServe. [PL 1997, c. 530, Pt. A, §26 (AMD).]

B. ASPIRE-TANF participants who are attending school or are involved in an equivalent educational program recognized by the Department of Education or a local school board are considered to be in the education, training or treatment component and their participation is not limited to 24 months. The department shall encourage recipients younger than 20 years of age who have not completed high school to attend traditional high school. [PL 1997, c. 530, Pt. A, §26 (AMD).]

C. Subject to the requirements of the Americans with Disabilities Act, if a recipient of TANF is hindered from obtaining employment or successfully completing any portion of the ASPIRE-TANF program by reason of substance use, the recipient must enter into a substance use disorder treatment program. This treatment activity may occur at any time during the ASPIRE-TANF program. [PL 2017, c. 407, Pt. A, §81 (AMD).]

D. If a claim of disability or other good cause is made by a participant, the department shall assess the circumstances of the claim. If good cause is found to exist, the department shall offer reasonable alternative participation requirements and document them in the participant's family contract and case record. [PL 2001, c. 335, §3 (NEW).]

[PL 2017, c. 407, Pt. A, §81 (AMD).]

12. Developing resources. To assist the department in its efforts to encourage job placement opportunities and provide the services necessary to ensure self-support to recipients of TANF assistance, the department may contract with public and private agencies to establish job placement opportunities.

In order to assist in the development of job placement opportunities, the department in cooperation with the Department of Labor and other state agencies shall explore the feasibility of developing a shared approach to technology to support access to information talent banks, national job banks, Maine's job listings and any other job opportunity listings, to facilitate linking program resources listings and to coordinate case service providers.

In addition, all public and private agencies are subject to the following requirements.

A. All agencies that receive funds from any state department or division must provide at least one workforce-MaineServe opportunity for an ASPIRE-TANF participant. [PL 1997, c. 530, Pt. A, §26 (AMD).]

B. All state agencies that provide funding for child care or transportation services must require that recipients of TANF be given priority for those services. [PL 1997, c. 530, Pt. A, §26 (AMD).]

C. All agencies that receive funds from any state agency for the treatment of substance use disorder must require that recipients of TANF be given priority for those services. [PL 2017, c. 407, Pt. A, §82 (AMD).]

[PL 2017, c. 407, Pt. A, §82 (AMD).]

13. Determination of types of opportunities.

[PL 1997, c. 530, Pt. A, §26 (RP).]

14. Family planning services.

E. To provide parents who are eligible for TANF the opportunities to serve their communities and the State in a manner that assists them in developing and renewing their skills in ways that may lead to employment that is sufficient to sustain their families. [PL 1997, c. 530, Pt. A, §27 (AMD).]

[PL 1997, c. 530, Pt. A, §27 (AMD).]

2. Eligibility. [PL 1997, c. 530, Pt. A, §27 (AMD).]

3. Duration of service. MaineServe volunteers may serve for up to 9 months. At the end of the service period, the MaineServe volunteer and the ASPIRE-TANF case manager shall evaluate the MaineServe placement. If it is determined to be appropriate, the MaineServe volunteer may renew the placement within MaineServe.

[PL 1997, c. 530, Pt. A, §27 (AMD).]

CHAPTER 1054-B

PARENTS AS SCHOLARS

§3790. Parents as Scholars Program

1. Established. The department shall establish a student financial aid program based on need for up to 2000 participants known as the Parents as Scholars Program, referred to in this section as the

"program," to aid needy students who have dependent children and who are matriculating in postsecondary undergraduate 2-year and 4-year degree-granting education programs. Enrollees in the program must be provided with a package of student aid that includes aid for living expenses equivalent to that provided pursuant to chapter 1053-B, medical assistance pursuant to chapter 855 and services and benefits at least equivalent to those provided pursuant to chapter 1054-A and to participants in the Higher Opportunity for Pathways to Employment Program pursuant to chapter 1054-C. A family that ceases to receive aid under this chapter as a result of increased child support or increased hours of, or increased income from, employment is eligible to receive transitional support services in accordance with section 3762, subsection 8. The program must be supported with funds other than federal block grant funds provided under the United States Social Security Act, Title IV-A, except that federal funds may be used in accordance with federal law if their use does not result in the imposition of conditions of participation or program requirements other than those established by this chapter.

[PL 2021, c. 648, §11 (AMD).]

2. Eligibility criteria. Families that qualify for TANF assistance under chapter 1053-B may apply to participate in the program instead of TANF. Individuals with marketable bachelor's degrees are ineligible for enrollment. Eligibility for and the amount of assistance must be determined in accordance with criteria and procedures used in the TANF program, this chapter and the rules adopted pursuant to this chapter and chapter 1053-B. Individuals applying to the program must be assessed in accordance with the provisions of section 3788. To the extent that program resources and space permit, enrollment in the program must be granted if the assessment results in findings as follows:

A. That the individual does not possess the necessary skills to obtain employment that will enable that individual to support a family at 85% of the median family income in the State for a family of the same size; [PL 1997, c. 530, Pt. B, §1 (NEW).]

B. That, considering potential employment opportunities and local labor market conditions, the postsecondary education sought by the individual will significantly improve the ability of the family to be self-supporting; [PL 2017, c. 284, Pt. NNNNNNN, §15 (AMD).]

C. That the individual has the aptitude to successfully complete the proposed postsecondary program; and [PL 2017, c. 284, Pt. NNNNNNN, §15 (AMD).]

D. That enrollment is for the pursuit of any degree or certification if the occupation has at least an average job outlook as identified by the Center for Workforce Research and Information within the Department of Labor. For occupations with a lower than average job outlook, educational plans require approval of the commissioner or the commissioner's designee. [PL 2017, c. 284, Pt. NNNNNNN, §16 (NEW).]

[PL 2017, c. 284, Pt. NNNNNNN, §§15, 16 (AMD).]

3. Program requirements. An enrollee must participate in a combination of education, training, study or work-site experience for an average of 20 hours per week in the first 24 months of the program. Aid under this chapter may continue beyond 24 months if the enrollee remains in an educational program and agrees to participate in either of the following options:

A. Fifteen hours per week of work-site experience in addition to other education, training or study; or [PL 1999, c. 407, §1 (NEW).]

B. A total of 40 hours of education, training, study or work-site experience. [PL 1999, c. 407, §1 (NEW).]

The department shall present both options to enrollees and permit them to choose either option. For the purpose of this subsection, work-site experience includes, but is not limited to, paid employment, work study, practicums, internships, clinical placements, laboratory or field work directly related to the enrollee's employment goal or any other work activities that, as determined by the department, will enhance the enrollee's employability in the enrollee's field. In the last semester of the enrollee's

educational program, work-site experience may also include resume preparation, employment research, interviews and other activities related to job placement.

For the purposes of this subsection, study hours are counted as 3 times the number of hours of classroom instruction, which may include virtual instruction. These study hours are not required to be scheduled or supervised. A participant is deemed to meet the participation requirements of this subsection if the participant, in order to improve the participant's academic performance or to improve the participant's attendance or to more appropriately meet the needs of the participant's family, has chosen to matriculate less than full-time but at least half-time, as defined by acceptance to and official registration of at least a half-time study by the training or educational institution.

The department shall make reasonable adjustments in the participation requirements in this subsection for good cause. For the purpose of this subsection, "good cause" means circumstances in which the required participation would cause the enrollee to seriously compromise academic performance. "Good cause" includes, but is not limited to, a verifiable need to take care of a family member with special needs, a physical or mental health problem, illness, accident, death or a serious personal or family problem that necessitates reduced participation or time off from education, training or work. An enrollee receiving aid under this chapter must make satisfactory progress in the enrollee's educational program. The department shall adopt rules defining satisfactory academic progress. The department may not disapprove an educational plan based solely on the length of the educational program.

[PL 2021, c. 648, §12 (AMD).]

3-A. Coordination with state educational institutions and programs. The department shall deem a referral from an educational institution or program that is part of the University of Maine System; the Maine Community College System; Jobs for Maine's Graduates, established in Title 20-A, chapter 226; an adult education program established in Title 20-A, chapter 315; or the career centers established by the Department of Labor as an application for the Parents as Scholars Program as long as, in accordance with department rules, it is submitted by a qualified person at the institution or program on a form provided by the department for this purpose and signed by the prospective student expressing a desire to enroll in the Parents as Scholars Program. The department shall notify these institutions and programs of the opportunity to refer prospective students in accordance with this subsection and make available to prospective students and these institutions and programs referral forms to serve as an application for purposes of this subsection.

[PL 2019, c. 485, §6 (NEW).]

3-B. Campus-based student support and navigation; working group. The commissioner or the commissioner's designee shall convene a working group to make recommendations to the department regarding the most effective means to establish or supplement personalized professional guidance, support and navigation services for participants in the Parents as Scholars Program in order to promote program completion and student success. [PL 1997, c. 530, Pt. B, §1 (NEW).]

5. Protection from loss of income. Aid received under this chapter must be treated in the same manner as assistance received under the TANF program under chapters 1053-B and 1054-A for all tax purposes.

[PL 1997, c. 530, Pt. B, §1 (NEW).]

CHAPTER 1054-C

HIGHER OPPORTUNITY FOR PATHWAYS TO EMPLOYMENT PROGRAM

§3790-A. Higher Opportunity for Pathways to Employment Program

1. Program established. The department shall establish a student financial aid program based on need to be known as the Higher Opportunity for Pathways to Employment Program, referred to in this chapter as "the program," for a parent or caretaker relative of a minor child who is qualified to receive federal Temporary Assistance for Needy Families funds but does not receive Temporary Assistance for Needy Families cash assistance pursuant to chapter 1053-B and is matriculating in an education or training program, or is enrolled in a program providing remedial services necessary for the parent or caretaker relative to matriculate, that results in a high-value, industry-recognized certificate or similar credential, a postsecondary undergraduate 2-year degree or a postsecondary undergraduate 4-year degree in a health care, technology or engineering field. The department shall specify the health care, technology and engineering fields for the postsecondary undergraduate 4-year degree in department rules.

Enrollment in the program may not exceed 800 participants. To administer the program, the department may not divert funding from assistance and support services to families under the Temporary Assistance

for Needy Families program pursuant to chapter 1053-B or from the operation of the Additional Support for People in Retraining and Employment - Temporary Assistance for Needy Families program pursuant to chapter 1054-A. If the commissioner reasonably anticipates that available funds will not support continued operation of the program, the commissioner shall limit or suspend enrollment or program services to the extent necessary to avoid negative effects to services provided under chapters 1053-B and 1054-A.

The program must be supported with funds provided under the Temporary Assistance for Needy Families block grant that are available under Title IV-A of the United States Social Security Act or funds transferred from that block grant to the social services block grant authorized under Title XX of the United States Social Security Act or the child care and development block grant authorized under the federal Child Care and Development Block Grant Act of 1990 and Section 418 of the United States Social Security Act. The department may not expend federal Temporary Assistance for Needy Families funds for services that meet the definition of "assistance" under regulations promulgated pursuant to the United States Social Security Act. To the extent allowable under federal law and subject to federal approval procedures associated with such funds, the program may also be supported with other federal funds, including, but not limited to, employment and training funds from the Supplemental Nutrition Assistance Program.

[PL 2021, c. 398, Pt. BBB, §1 (AMD).]

2. Eligibility criteria. To the extent that enrollment limits under subsection 1 permit, enrollment or continued participation in the program must be granted if the applicant or participant:

B. Has the aptitude to successfully complete the proposed education or training program; [PL 2017, c. 387, §1 (NEW).]

C. Is pursuing a postsecondary undergraduate degree, industry-recognized certificate or similar credential in a field or occupation that is identified by the Center for Workforce Research and Information within the Department of Labor as having an annual job opening rate of at least 10% or as providing opportunity for employment in high-wage, in-demand jobs in the State at the time of enrollment. For fields or occupations not so identified, the commissioner or the commissioner's designee must approve the applicant's or participant's education plan if the plan will result in a postsecondary degree, certificate or similar credential that is universally recognized and accepted by the trade or industry in which the applicant or participant intends to seek employment or is part of a career pathway plan that will lead to a similarly accepted degree or credential and is likely to provide an opportunity for employment in a job that will lead to substantial improvement in the applicant's or participant's earnings and benefits; [PL 2021, c. 149, §1 (AMD).]

D. Is making satisfactory progress in the education or training program; [PL 2017, c. 387, §1 (NEW).]

E. F. Has countable assets as described in department rules in the Temporary Assistance for Needy Families program pursuant to chapter 1053-B that are equal to or below \$10,000. [PL 2017, c. 387, §1 (NEW).]

[PL 2023, c. 21, §1 (AMD).]

2-A. Coordination with state educational institutions and programs. The department shall consider a referral from an educational institution or program that is part of the University of Maine System; the Maine Community College System; Jobs for Maine's Graduates, established in Title 20-A,

chapter 226; an adult education program established pursuant to Title 20-A, chapter 315; or the career centers established by the Department of Labor as an application for the Higher Opportunity for Pathways to Employment Program as long as, in accordance with department rules, the referral is submitted by a qualified person at the institution or program on a form provided by the department for this purpose and signed by the prospective student expressing a desire to enroll in the Higher Opportunity for Pathways to Employment Program. The department shall notify these institutions and programs of the opportunity to refer prospective students in accordance with this subsection and make available to prospective students and these institutions and programs referral forms to serve as applications for purposes of this subsection.

[PL 2021, c. 648, §13 (NEW).]

3. Program assistance. A program participant must be provided with a package of student aid that includes all support services necessary for participation in the program that are at least equivalent to those provided under chapter 1054-A.

[PL 2017, c. 387, §1 (NEW).]

This Act may be known and cited as "the Maine Indian Child Welfare Act." [PL 2023, c. 359, §5 (NEW).]

SECTION HISTORY

PL 2023, c. 359, §5 (NEW).

§3942. Legislative finding and declaration of policy

1. Finding. The Legislature finds and declares that membership or citizenship in an Indian tribe, as well as eligibility for membership or citizenship in an Indian tribe, as determined by each Indian tribe is a political classification.

[PL 2023, c. 359, §5 (NEW).]

2. Declaration of policy. The purpose of the Maine Indian Child Welfare Act is recognition by the State that Indian tribes have a continuing and compelling governmental interest in an Indian child whether or not the Indian child is in the physical or legal custody of an Indian parent, an Indian custodian or an Indian extended family member at the commencement of an Indian child custody proceeding or the Indian child has resided or is domiciled on an Indian reservation. The State is committed to protecting the essential tribal relations and best interests of an Indian child by promoting practices in accordance with all laws designed to prevent the Indian child's voluntary or involuntary out-of-home placement and, whenever such placement is necessary or ordered, by placing the Indian child, whenever possible, in a placement that reflects the unique values of the Indian child's tribal culture and that is best able to assist the Indian child in establishing, developing and maintaining a political, cultural and social relationship with the Indian child's tribe and tribal community. It is the policy of the State to cooperate fully with Indian tribes and tribal members and citizens in this State and elsewhere in order to ensure that the intent and provisions of this Act are enforced.

- (2) Whether there have been prior proceedings involving the Indian child for which no petition to transfer was filed;

§3946. Parental rights; voluntary termination

1. Consent; record; certification matters; invalid consents. When a parent or Indian custodian voluntarily consents to a foster care placement or to termination of parental rights, this consent is not valid unless executed in writing and recorded before a judge of the District Court or Probate Court. The court shall certify in writing that the terms and consequences of the consent were fully explained in detail and were fully understood by the parent or Indian custodian. The court shall also certify that either the parent or Indian custodian fully understood the explanation in English or that it was interpreted into a language that the parent or Indian custodian understood. Consent given prior to, or within 10 days after, birth of an Indian child is not valid.
[PL 2023, c. 359, §5 (NEW).]

2. Foster care placement; withdrawal of consent; return of custody. Any parent or Indian custodian may withdraw consent to a voluntary foster care placement under the laws of this State at any time and, upon such withdrawal, the Indian child must be returned to the parent or Indian custodian.

4. Collateral attack; vacation of decree and return of custody; limitations. After the entry of a final decree of adoption of an Indian child in the District Court or Probate Court in a voluntary proceeding, the parent or Indian custodian may withdraw consent to the adoption upon the grounds that consent was obtained through fraud or duress and may petition the court to vacate the decree. [PL 2023, c. 359, §5 (NEW).]

SECTION HISTORY

PL 2023, c. 359, §5 (NEW).

§3948. Placement of Indian children

1. Adoptive placements; preferences. In an adoptive placement of an Indian child under the laws of this State, placement preference must be given, in the absence of good cause to the contrary, in descending order, as listed below:

- A. An extended family member of the Indian child; [PL 2023, c. 359, §5 (NEW).]
- B. Another member or citizen of the Indian child's tribe; [PL 2023, c. 359, §5 (NEW).]

C. A member or citizen of an Indian tribe in which the Indian child is eligible for membership or citizenship, but that is not the Indian child's tribe; [PL 2023, c. 359, §5 (NEW).]

D. Another Indian with whom the Indian child has a relationship; or [PL 2023, c. 359, §5 (NEW).]

E. Another Indian from a tribe that is culturally similar to or linguistically connected to the Indian child's tribe. [PL 2023, c. 359, §5 (NEW).]

[PL 2023, c. 359, §5 (NEW).]

2. Foster care or preadoptive placements; criteria; preferences. An Indian child accepted for foster care placement or preadoptive placement must be placed in the least restrictive setting that most approximates a family and in which that Indian child's special needs, if any, may be met. The Indian child must also be placed within reasonable proximity to that Indian child's home, taking into account any special needs of the child. In any foster care placement or preadoptive placement, placement preference must be given, in the absence of good cause to the contrary, in descending order, as listed below:

A. An extended family member of the Indian child; [PL 2023, c. 359, §5 (NEW).]

B. A foster home licensed, approved or specified by the Indian child's tribe; [PL 2023, c. 359, §5 (NEW).]

C. An Indian foster home licensed or approved by an authorized non-Indian licensing authority; or [PL 2023, c. 359, §5 (NEW).]

D. An institution for children approved by an Indian tribe or operated by an Indian organization that has a program suitable to meet the Indian child's needs. [PL 2023, c. 359, §5 (NEW).]

[PL 2023, c. 359, §5 (NEW).]

3. Good cause to deviate from placement preferences. The party seeking departure from the placement preferences under this section bears the burden of proving by clear and convincing evidence that there is good cause to depart from the placement preferences. A court's determination of good cause to depart from the placement preferences must be made on the record or in writing and may be based on one or more of the following considerations:

A. The request of one or both of the Indian child's parents, if they attest that they have reviewed the placement options, if any, that comply with the order of preference; [PL 2023, c. 359, §5 (NEW).]

B. The request of the Indian child, if the Indian child is of sufficient age and capacity to understand the decision that is being made; [PL 2023, c. 359, §5 (NEW).]

C. The presence of a sibling attachment that can be maintained only through a particular placement; [PL 2023, c. 359, §5 (NEW).]

D. The extraordinary physical, mental or emotional needs of the Indian child, such as specialized treatment services that may be unavailable in the community where families who meet the placement preferences live; or [PL 2023, c. 359, §5 (NEW).]

E. The unavailability of a suitable placement after a determination by the court that a diligent search was conducted to find suitable placements meeting the preference criteria, but none has been located. For purposes of a determination under this paragraph, the standards for determining whether a placement is unavailable must conform to the prevailing social and cultural standards of the Indian community in which the Indian child's parent or extended family resides or with which the Indian child's parent or extended family members maintain social and cultural ties. [PL 2023, c. 359, §5 (NEW).]

A placement may not depart from the preferences under this section based on the socioeconomic status of any placement relative to another placement. A placement may not depart from the preferences based solely on ordinary bonding or attachment that developed from time spent in a nonpreferred placement that was made in violation of this Act.

[PL 2023, c. 359, §5 (NEW).]

4. Tribal resolution for different order of preference; personal preference considered; anonymity in application of preferences. In the case of a placement under subsection 1 or 2, if the Indian child's tribe establishes a different order of preference by resolution, the agency or court effecting the placement shall follow that order as long as the placement is the least restrictive setting appropriate to the particular needs of the Indian child, as provided in subsection 2. When appropriate, the preference of the Indian child or parent must be considered. When a consenting parent evidences a desire for anonymity, the court or agency must give weight to such desire in applying the preferences.

[PL 2023, c. 359, §5 (NEW).]

5. Social and cultural standards applicable. The standards to be applied in meeting the preference requirements of this section must be the prevailing social and cultural standards of the Indian community in which the parent or extended family resides or with which the parent or extended family members maintain social and cultural ties.

[PL 2023, c. 359, §5 (NEW).]

6. Record of placement; availability. A record of each placement under this section of an Indian child must be maintained by the State, including evidence of the efforts made to comply with the order of preference specified in this section. 2. Removal from foster care placement; procedure. §4003. Purposes

Recognizing that the health and safety of children must be of paramount concern and that the right to family integrity is limited by the right of children to be protected from abuse and neglect and recognizing also that uncertainty and instability are possible in extended foster home or institutional living, it is the intent of the Legislature that this chapter: [PL 1997, c. 715, Pt. B, §4 (AMD).]

1. Authorization. Authorize the department to protect and assist abused and neglected children, children in circumstances which present a substantial risk of abuse and neglect, and their families; [PL 1979, c. 733, §18 (NEW).]

2. Removal from parental custody. Provide that children will be removed from the custody of their parents only where failure to do so would jeopardize their health or welfare; [PL 2017, c. 411, §5 (AMD).]

3. Rehabilitation and reunification. Require that reasonable efforts be made to rehabilitate and reunify families as a means for protecting the welfare of children, but prevent needless delay for permanent plans for children when rehabilitation and reunification is not possible; [PL 2017, c. 470, §1 (AMD).]

3-A. Kinship placement. Consistent with sections 4005-G and 4005-H, place children who are removed from the custody of their parents with an adult relative when possible; [PL 2017, c. 411, §6 (AMD).]

3-B. Sibling placement. Consistent with sections 4005-G and 4005-H, place children who are removed from the custody of their parents with as many of those children's siblings as possible; [PL 2017, c. 411, §7 (NEW).]

4. Permanent plans for care and custody. Promote the early establishment of permanent plans for the care and custody of children who cannot be returned to their family. It is the intent of the Legislature that the department reduce the number of children receiving assistance under the United States Social Security Act, Title IV-E, who have been in foster care more than 24 months, by 10% each year beginning with the federal fiscal year that starts on October 1, 1983; and [PL 1999, c. 731, Pt. AA, §4 (AMD).]

5. Report on children in department's custody and children of incarcerated parents. Require the department to report monthly to the joint standing committees of the Legislature having jurisdiction over appropriations and financial affairs and health and human services matters on the status of children served by the Office of Child and Family Services. The report must include, at a minimum, information on the department's case load, the location of the children in the department's custody and the number of cases of abuse and neglect that were not opened for assessment. This information must be identified by program and funding source. The report must also include information on the number of children in the department's custody known to have one or more incarcerated parents and information on the number of those children for whom the case goal is reunification. The purpose of the panel is to recommend to state and local agencies methods of improving the child protection system, including modifications of statutes, rules, policies and procedures. Beginning January 1, 2023 and every 2 years thereafter, the department shall submit a report to the joint standing committee of the Legislature having jurisdiction over health and human services matters.

The panel shall submit a report to the joint standing committee of the Legislature having jurisdiction over health and human services matters at least every 3 months. The panel may submit a combined report with the child welfare advisory panel established in section 4010-D or any judicial branch task force or panel with a focus on the child welfare system or child protective proceedings. Each allegation must be considered separately and may result in a combination of findings.

The department shall adopt rules that define "unsubstantiated," "indicated" and "substantiated" findings for the purposes of this paragraph and that specify an individual's rights to appeal the department's findings. (1) Provide information about rehabilitation and other services that may be available to assist the family; and

(2) Develop with the family a written child and family plan.

The guardian ad litem's reasonable costs and expenses must be paid by the District Court. The appointment must be made as soon as possible after the proceeding is initiated. Guardians ad litem appointed on or after March 1, 2000 must meet the qualifications established by the Supreme Judicial Court. [PL 1999, c. 251, §2 (AMD).]

B. The guardian ad litem shall act in pursuit of the best interests of the child. The guardian ad litem must be given access to all reports and records relevant to the case and investigate to ascertain the facts. The investigation must include, when possible and appropriate, the following:

The guardian ad litem shall report to the court and all parties in writing at 6-month intervals, or as is otherwise ordered by the court, regarding the guardian ad litem's activities on behalf of the child and recommendations concerning the manner in which the court should proceed in the best interest of the child. The court may provide an opportunity for the child to address the court personally if the child requests to do so or if the guardian ad litem believes it is in the child's best interest. [PL 1997, c. 715, Pt. A, §1 (AMD).]

C. The guardian ad litem may subpoena, examine and cross-examine witnesses and shall make a recommendation to the court. [PL 1983, c. 183 (NEW).]

D. The guardian ad litem shall make a written report of the investigation, findings and recommendations and shall provide a copy of the report to each of the parties reasonably in advance of the hearing and to the court, except that the guardian ad litem need not provide a written report prior to a hearing on a preliminary protection order. The court may admit the written report into evidence. [PL 2001, c. 696, §12 (AMD).]

[PL 2023, c. 638, §23 (AMD).]

3. Wishes of child. The District Court shall consider the wishes of the child, in a manner appropriate to the age of the child, including, but not limited to, whether the child wishes to participate or be heard in court. In addition, when a child's expressed views are inconsistent with those of the guardian ad litem, the court shall consider whether to consult with the child directly, when the child's age is appropriate.

[PL 2001, c. 696, §16 (NEW).]

3-A. Maine Commission on Public Defense Services; access to proceedings. The executive director of the Maine Commission on Public Defense Services established by Title 5, section 12004-G, subsection 25-A, or the executive director's designee, is authorized to attend and observe all court proceedings under this chapter for any purpose related to assigning, evaluating or supervising counsel, unless the court makes written findings that specific factors unique to the particular proceeding make it inappropriate for the executive director or the executive director's designee to attend all or a part of the proceeding. If the court denies the executive director or the executive director's designee access to the proceeding as provided in this subsection, the court shall order that a copy of a recording of the proceeding or of a transcript of the proceeding be provided to the executive director of the commission at no charge. The court may not grant the commission, the executive director or the executive director's designee intervenor status or the right to be heard solely on the basis of attendance by the executive director or the executive director's designee at a court proceeding under the authority granted in this subsection.
[PL 2023, c. 638, §24 (NEW).]

4. Right to be heard. A participant or an intervenor has the right to be heard in any court proceeding under this chapter. The right to be heard does not include the right to present or cross-examine witnesses, present evidence or have access to pleadings or records.
[PL 2001, c. 696, §16 (NEW).]

5. Intervention. An intervenor may participate in any court proceeding under this chapter as a party as provided by the court when granting intervenor status under Maine Rules of Civil Procedure, Rule 24. An intervenor has the rights of a party as ordered by the court in granting intervenor status, including the right to present or cross-examine witnesses, present evidence and have access to pleadings and records.

[PL 2001, c. 696, §16 (NEW).]

6. Foster parents, preadoptive parents and relatives providing care. The foster parent of a child, if any, and any preadoptive parent or relative providing care for the child must be provided notice of and the right to be heard in any proceeding to be held with respect to the child. The right to be heard includes the right to testify but does not include the right to present other witnesses or evidence, to attend any other portion of the proceeding or to have access to pleadings or records. This subsection may not be construed to require that any foster parent, preadoptive parent or relative providing care for the child be made a party to the proceeding solely on the basis of the notice and right to be heard.

The foster parent of a child, if any, and any preadoptive parent or relative providing care for the child may attend a proceeding in its entirety under this subsection unless specifically excluded by decision of the presiding judge.

[PL 2007, c. 255, §3 (AMD).]

7. Confidentiality and disclosure limitations. Interested persons, participants and intervenors are subject to the confidentiality and disclosure limitations of section 4008.

As part of a child protection proceeding, the District Court may determine parentage of the child. Title 19-A, chapter 61 applies to determinations of parentage in a child protection proceeding. [PL 2015, c. 296, Pt. C, §27 (AMD); PL 2015, c. 296, Pt. D, §1 (AFF).]

This section may not be construed to limit the right of a person to file an action pursuant to Title 19-A, chapter 53, subchapter 1 to enforce a father's obligations pursuant to that subchapter. [PL 2007, c. 257, §1 (NEW).]

§4005-G. Department responsibilities regarding kinship and sibling placement

1. Kinship preference. Except as provided in subsections 3, 5 and 6, in the residential placement of a child, the department shall give preference to an adult relative over a nonrelated caregiver when determining placement for a child, as long as the adult relative meets all relevant state child protection standards.

[PL 2017, c. 411, §11 (NEW).]

2. Sibling preference. Except as provided in subsection 3, in the residential placement of a child, the department shall make reasonable efforts to place a child with all of the child's siblings at the earliest possible time unless the placement is contrary to the safety or well-being of the child or one or more of the siblings. If placing a child with all of the child's siblings is impossible or contrary to the safety or well-being of the child or one or more of the siblings, the department shall place the child with as many of the child's siblings as is possible and consistent with the safety and well-being of the child and the siblings.

[PL 2017, c. 411, §11 (NEW).]

3. Exception; reunification. The department is not required to apply the placement preferences in subsections 1 and 2 if documented facts support the conclusion that the placement will interfere with active reunification under section 4041. If the court orders the department not to commence reunification or to cease reunification or if the court terminates parental rights pursuant to section 4055, the department must apply the placement preferences in subsections 1 and 2.

[PL 2017, c. 411, §11 (NEW).]

4. Identification of adult relatives. Prior to filing a child protection petition under section 4032, the department shall exercise due diligence to ask each individual that the department has identified as a parent of a child that is the subject of the petition to provide the names and contact information of the following:

A. Relatives who have provided care for the child on a temporary basis in the past; [PL 2017, c. 411, §11 (NEW).]

B. Relatives who the parent believes would be safe caregivers during family reunification under section 4041; and [PL 2017, c. 411, §11 (NEW).]

C. Relatives who the parent believes would be able to serve as a safe resource to support family reunification under section 4041, including by safely supervising visits between the parent and the child. [PL 2017, c. 411, §11 (NEW).]

The department shall include the names and contact information of relatives identified by a parent in the petition pursuant to section 4032, subsection 2, paragraphs J and K. When the department identifies or locates a parent after filing the petition, the department shall exercise due diligence to ask that parent to provide the names and contact information of relatives as required by this subsection as soon as possible.

[PL 2017, c. 411, §11 (NEW).]

5. Background check. Within 14 days of receiving information about a relative pursuant to subsection 4, the department shall conduct a background check on that relative unless the relative has informed the department that the relative does not want to provide a residential placement for the child or to serve as a safe resource under subsection 4, paragraph C for the child. The background check must include, at a minimum, obtaining public criminal history record information as defined in Title 16, section 703, subsection 8 from the Maine Criminal Justice Information System and determining whether the relative has been the subject of a child abuse and neglect finding in this or another state.

Notwithstanding any other provision of this chapter, the department is not required to consider residential placement of the child with a relative or use a relative as a safe resource under subsection 4, paragraph C if:

A. The department has substantiated any report of child abuse or neglect regarding that relative or a substantially equivalent determination regarding that relative has been made in another state; or [PL 2017, c. 411, §11 (NEW).]

B. The relative has been convicted of a criminal offense relevant to the relative's ability to provide a safe placement for the child or serve as a safe resource under subsection 4, paragraph C. [PL 2017, c. 411, §11 (NEW).]
[PL 2017, c. 411, §11 (NEW).]

6. License as a family foster home. The department is not required to consider residential placement of a child with a relative who does not exercise due diligence to obtain a license as a family foster home, including by applying for a license, attending all required trainings, cooperating with a home study and promptly addressing any problems identified by the department that prevent the department from granting the license. The department is also not required to consider or to continue residential placement of a child with a relative who has exercised due diligence to obtain a license as a family foster home but whose application for a license has been denied. As used in this subsection, "family foster home" has the same meaning as in section 8101, subsection 3.

SECTION HISTORY

PL 2017, c. 411, §11 (NEW).

§4005-H. Relatives; visitation or access; placement by court

1. Grandparent visitation or access. A grandparent who is designated as an interested person or a participant under section 4005-D or who has been granted intervenor status under the Maine Rules of Civil Procedure, Rule 24 may request the court to grant reasonable rights of visitation or access. When a child is placed in a prospective adoptive home and the prospective adoptive parents have signed an adoptive placement agreement, a grandparent's rights of visitation or access that were granted pursuant to this chapter are suspended unless a court determines that it is in the best interest of the child to continue the grandparent's rights of visitation or access. A grandparent's rights of visitation or access terminate when the adoption is finalized pursuant to Title 18-A, section 9-308. Nothing in this section prohibits prospective adoptive parents from independently facilitating or permitting contact between a child and a grandparent, especially when a court has previously ordered rights of visitation or access.

For the purposes of this subsection, "grandparent" includes a parent of a child's parent whose parental rights have been terminated, but only until the child is adopted.

[PL 2017, c. 411, §11 (NEW).]

2. Placement by court. A relative may request that the court order that the department place a child with that relative in accordance with this subsection.

A. A relative who is designated as an interested person or a participant under section 4005-D or who has been granted intervenor status under the Maine Rules of Civil Procedure, Rule 24 may request either orally or in writing that the court order that the child be placed with that relative. A relative who has not been designated as an interested person, a participant or an intervenor may request in writing that the child be placed with that relative. [PL 2017, c. 411, §11 (NEW).]

B. If one or more relatives request placement under paragraph A, the court may by order refer the relatives to mediation with the foster parents, if the child has been placed with foster parents, and the guardian ad litem. The court may order the department to attend the mediation. The order must designate the mediator and specify responsibility for the costs of mediation. An agreement reached by the parties through mediation involving placement or visitation must be reduced to writing, signed by all parties and presented to the court. The court shall consider but is not bound by an agreement under this paragraph. [PL 2017, c. 411, §11 (NEW).]

C. In making a decision on a request under paragraph A, the court shall, consistent with section 4003, place the child with a relative who made a request if that placement is in the best interest of the child. [PL 2017, c. 411, §11 (NEW).]

D. If a court order placing a child with a relative under paragraph C is made part of a permanency planning order entered pursuant to section 4038-B, subsection 3, placement with that relative is the preferred placement in all future proceedings on the child protection petition with respect to the child unless evidence is presented that remaining in that placement will negatively affect the child's emotional or physical health, safety, stability or well-being. [PL 2017, c. 411, §11 (NEW).]
[PL 2017, c. 411, §11 (NEW).]

3. Conviction or adjudication for certain sex offenses; presumption. There is a rebuttable presumption that the relative would create a situation of jeopardy for the child if any contact were to be permitted and that contact is not in the best interest of the child if the court finds that the relative:

A. Has been convicted of an offense listed in Title 19-A, section 1653, subsection 6-A, paragraph A in which the victim was a minor at the time of the offense and the relative was at least 5 years older than the minor at the time of the offense except that, if the offense was gross sexual assault under Title 17-A, section 253, subsection 1, paragraph B or C, or an offense in another jurisdiction that involves conduct that is substantially similar to that contained in Title 17-A, section 253, subsection 1, paragraph B or C, and the minor victim submitted as a result of compulsion, the presumption applies regardless of the ages of the relative and the minor victim at the time of the offense; or [PL 2017, c. 411, §11 (NEW).]

B. Has been adjudicated in an action under this chapter of sexually abusing a person who was a minor at the time of the abuse. [PL 2017, c. 411, §11 (NEW).]

The relative seeking visitation with or access to the child may produce evidence to rebut the presumption.

[PL 2017, c. 411, §11 (NEW).]

§4006. Appeals

A party aggrieved by an order of a court entered pursuant to section 4035, 4054 or 4071 may appeal directly to the Supreme Judicial Court sitting as the Law Court, and such appeals are governed by the Maine Rules of Appellate Procedure. [PL 2023, c. 638, §25 (AMD).]

Appeals from any order under section 4035, 4054 or 4071 must be expedited. Any attorney appointed to represent a party in a District Court proceeding under this chapter shall continue to represent that client in any appeal unless otherwise ordered by the court. [PL 1997, c. 715, Pt. A, §3 (RPR).]

Orders entered under this chapter under sections other than section 4035, 4054 or 4071 are interlocutory and are not appealable. [PL 1997, c. 715, Pt. A, §3 (RPR).]

§4007. Conducting proceedings

1. Procedures. All child protection proceedings shall be conducted according to the rules of civil procedure and the rules of evidence, except as provided otherwise in this chapter. All the proceedings shall be recorded. All proceedings and records shall be closed to the public, unless the court orders otherwise.

[PL 1985, c. 495, §17 (AMD).]

1-A. Nondisclosure of certain identifying information. This subsection governs the disclosure of certain identifying information.

A. At each proceeding, the court shall inquire whether there are any court orders in effect at the time of the proceeding that prohibit contact between the parties and participants. If such an order is in effect at the time of the proceeding, the court shall keep records that pertain to the protected person's current or intended address or location confidential, subject to disclosure only as authorized in this section. Any records in the file that contain such information must be sealed by the clerk and not disclosed to other parties or their attorneys or authorized agents unless the court orders the disclosure to be made after a hearing in which the court takes into consideration the health, safety or liberty of the protected person and determines that the disclosure is in the interests of justice. [PL 2007, c. 351, §2 (NEW).]

B. If, at any stage of the proceedings, a party or a participant alleges in an affidavit or a pleading under oath that the health, safety or liberty of the person would be jeopardized by disclosure of information pertaining to the person's current or intended address or location, the court shall keep records that contain the information confidential, subject to disclosure only as authorized in this section. Upon receipt of the affidavit or pleading, the records in the file that contain such information must be sealed by the clerk and not disclosed to other parties or participants or their attorneys or authorized agents unless the court orders the disclosure to be made after a hearing in which the court takes into consideration the health, safety or liberty of the person seeking protection and determines that the disclosure is in the interests of justice. [PL 2007, c. 351, §2 (NEW).]

C. If the current or intended address or location of a party or participant is required to be kept confidential under paragraph A or B, and the current or intended address or location of that person is a material fact necessary to the proceeding, the court shall hear the evidence outside of the presence of the person and the person's attorney from whom the information is being kept confidential unless the court determines after a hearing that takes into consideration the health, safety or liberty of the protected person that the exclusion of the party or participant is not in the interests of justice. If such evidence is taken outside the presence of a party or participant, the court shall take measures to prevent the excluded person and the person's attorney from accessing the recorded information and the information must be redacted in printed transcripts. [PL 2007, c. 351, §2 (NEW).]

D. Records that are required to be maintained by the court as confidential under this subsection may be disclosed to:

- (1) A state agency if necessary to carry out the statutory function of that agency;
- (2) A guardian ad litem appointed to the case; or
- (3) A criminal justice agency, as defined by Title 16, section 703, subsection 4, if necessary to carry out the administration of criminal justice or the administration of juvenile justice, and such disclosure is otherwise permitted pursuant to section 4008.

In making such disclosure, the court shall order the party receiving the information to maintain the information as confidential. [PL 2013, c. 267, Pt. B, §18 (AMD).]

E. The court shall disclose records that are confidential under this subsection to the Maine Commission on Public Defense Services established by Title 5, section 12004-G, subsection 25-A for the purpose of assigning, evaluating or supervising counsel. [PL 2023, c. 638, §26 (NEW).]
[PL 2023, c. 638, §26 (AMD).]

2. Interviewing children. The court may interview a child witness in chambers, with only the guardian ad litem and counsel present, provided that the statements made are a matter of record. The court may admit and consider oral or written evidence of out-of-court statements made by a child, and may rely on that evidence to the extent of its probative value.
[PL 1979, c. 733, §18 (NEW).]

3. Motion for examination. At any time during the proceeding, the court may order that a child, parent, alleged parent, person frequenting the household or having custody at the time of the alleged abuse or neglect, any other party to the action or person seeking care or custody of the child be examined pursuant to the Maine Rules of Civil Procedure, Rule 35.

[PL 1989, c. 270, §1 (AMD).]

3-A. Report of licensed mental health professional. In any hearing held in connection with a child protection proceeding under this chapter, the written report of a licensed mental health professional who has treated or evaluated the child shall be admitted as evidence, provided that the party seeking admission of the written report has furnished a copy of the report to all parties at least 21 days prior to the hearing. The report shall not be admitted as evidence without the testimony of the mental health professional if a party objects at least 7 days prior to the hearing. This subsection does not apply to the caseworker assigned to the child.

[PL 1989, c. 226 (NEW).]

4. Interstate compact. The provisions of the Interstate Compact for the Placement of Children, sections 4251 to 4269, if in effect and ratified by the other state involved, apply to proceedings under this chapter; otherwise, the provisions of the Interstate Compact on Placement of Children, sections 4191 to 4247, apply to proceedings under this chapter. Any report submitted pursuant to the compact is admissible in evidence for purposes of indicating compliance with the compact and the court may rely on evidence to the extent of its probative value.

[PL 2007, c. 255, §4 (AMD).]

5. Records.

[PL 2005, c. 300, §1 (RP).]

6. Benefits and support for children in custody of department. When a child has been ordered into the custody of the department under this chapter, Title 15, chapter 507 or Title 19-A, chapter 55, within 30 days of the order, each parent shall provide the department with information necessary for the department to make a determination regarding the eligibility of the child for state, federal or other 3rd-party benefits and shall provide any necessary authorization for the department to apply for these benefits for the child.

Prior to a hearing under section 4034, subsection 4, section 4035 or section 4038, each parent shall file income affidavits as required by Title 19-A, sections 2002 and 2004 unless current information is already on file with the court. If a child is placed in the custody of the department, the court shall order child support from each parent according to the guidelines pursuant to Title 19-A, chapter 63, designate each parent as a nonprimary care provider and apportion the obligation accordingly.

Income affidavits and instructions must be provided to each parent by the department at the time of service of the petition or motion. The court may order a deviation pursuant to Title 19-A, section 2007. Support ordered pursuant to this section must be paid directly to the department pursuant to Title 19-A, chapter 65, subchapter IV. The failure of a parent to file an affidavit does not prevent the entry of a protection order. A parent may be subject to Title 19-A, section 2004, subsection 1, paragraph D for failure to complete and file income affidavits.

(1) The department may apply to the District Court to enforce a subpoena.

B. Obtain confidential criminal history record information and other criminal history record information under Title 16, chapter 7 that the commissioner, the commissioner's delegate or the legal counsel for the department considers relevant to an abuse or neglect case or the investigation of a suspicious child death. 2. Confidentiality. Information or records obtained by subpoena shall be treated in accordance with section 4008.

[PL 1979, c. 733, §18 (NEW).]

3. Interviewing the child without prior notification. The department may interview a child without prior notification under the following provisions.

A. The department may interview a child without prior notification to the parent or custodian when the department has reasonable grounds to believe that prior notice would increase the threat of serious harm to the child or another person. The department may conduct one initial interview with a child without prior notification to the parent or custodian of the child when the child contacts the department or a person providing services puts the child into contact with the department. [PL 1989, c. 270, §7 (AMD).]

B. The interview may take place at a school, hospital, police station or other place where the child is present. [PL 1981, c. 369, §10 (NEW).]

C. Upon the request of a department employee, school officials shall permit the department to meet with and interview the child when the child is present at the school.

(1) School officials may require that the department employee requesting to interview the child provide a written certification that in the department's judgment the interview is necessary to carry out the department's duties under this chapter.

(2) The department caseworker shall discuss the circumstances of the interview and any relevant information regarding the alleged abuse or neglect with the child's teacher or guidance counselor or the school's nurse, social worker or principal, as the caseworker determines is necessary for the provision of any needed emotional support to the child prior to and following the interview.

(3) In order for the department to be able to conduct interviews in a manner consistent with good forensic practice, except as provided in subparagraph (1), school officials may not place any conditions on the department's ability to conduct the interview. Without limiting the generality of this subparagraph, school officials are specifically prohibited from:

- (a) Requiring that certain persons be present during the interview;
- (b) Prohibiting certain persons from being present during the interview; and
- (c) Requiring notice to or consent from a parent or guardian.

(4) School officials shall provide an appropriate, quiet and private place for the interview to occur.

(5) That the department intends to interview the child is confidential information and may not be disclosed to any person except those school officials, including an attorney for the school, who need the information to comply with the provisions of this paragraph.

(6) School personnel who assist the department in making the child available for the interview or who otherwise comply with this paragraph are "participating in a related child protection investigation or proceeding" for purposes of section 4014.

Violation of this paragraph subjects any person involved in the violation, including individual school personnel, to the penalty provided in section 4009. This section does not apply to out-of-home abuse and neglect allegations as covered under subchapter 18. [PL 2023, c. 248, §3 (AMD).]

Rules adopted pursuant to this subsection are major substantive rules as defined in Title 5, chapter 375, subchapter II-A and must be reviewed before final approval by the joint standing committee of the Legislature having jurisdiction over judiciary matters.

Information collected in an interview that was not audio recorded may not be excluded from use in court proceedings solely because the interview was not audio recorded.

[PL 2001, c. 696, §23 (NEW).]

5. Right to record. A person being questioned or interviewed under this chapter or the parent of a child who is the subject of a proceeding under this chapter may not be prohibited from audio recording the questioning or interview.

If custody or parentage is an issue in another pending proceeding, the proceedings may be consolidated in the District Court with respect to the issue of custody, parentage or both. In any event, the court shall make an order on the child protection petition in accordance with this chapter. That order takes precedence over any other order regarding the child's care and custody. Nothing in this subsection may be construed to limit the authority of the District Court to determine parentage pursuant to section 4005-F during the pendency of a child protection proceeding; to consolidate a child protection proceeding with another matter; or to resolve a child protection proceeding through the entry of a parental rights and responsibilities order, guardianship order or adoption order.

- C-1. The phone number and e-mail address, if known, of each parent and custodian, unless the petitioner has reason to believe that disclosing the phone number or e-mail address of the parent and custodian to another parent and custodian in the proceeding would create a safety risk or the petitioner has reason to believe that a parent and custodian has taken steps to avoid disclosing that parent's and custodian's phone number or e-mail address to another parent and custodian in the proceeding. [PL 2023, c. 151, §10 (NEW).]
- D. A summary statement of the facts that the petitioner believes constitute the basis for the petition; [PL 2001, c. 696, §24 (AMD).]

§4033. Service and notice

1. Petition service. A child protection petition shall be served as follows:

- A. The petition and a notice of hearing must be served on the parents, legal guardian and custodians, the guardian ad litem for the child and any other party at least 10 days prior to the hearing date. A party may waive this time requirement if the waiver is written and voluntarily and knowingly executed in court before a judge. Service must be made in accordance with the Maine Rules of Civil Procedure. [PL 2015, c. 501, §3 (AMD).]

B. If the department is not the petitioner, the petitioner shall serve a copy of the petition and notice of hearing on the State. [PL 1979, c. 733, §18 (NEW).]
[PL 2015, c. 501, §3 (AMD).]

2. Notice of preliminary protection order. If there is to be a request for a preliminary protection order, the petitioner shall, by any reasonable means, notify the parents, legal guardian and custodians of the intent to request that order and of the court in which counsel for the parents, legal guardian or custodians may file motions, including motions to modify or vacate any preliminary protection order issued. This notice is not required if the petitioner includes in the petition a sworn statement detailing a sufficient factual basis that:

A. The child would suffer serious harm during the time needed to notify the parents, legal guardian or custodians; or [PL 2015, c. 501, §4 (AMD).]

B. Prior notice to the parents, legal guardian or custodians would increase the risk of serious harm to the child or petitioner. [PL 2015, c. 501, §4 (AMD).]

Failure to provide the notice required by this section, after a good faith attempt to do so, does not constitute grounds for denial of a preliminary protection order.
[PL 2015, c. 501, §4 (AMD).]

3. Service of preliminary protection order. If the court makes a preliminary protection order, a copy of the order must be served on the parents, legal guardian and custodians by:

A. In-hand delivery by the judge or court clerk to any parent, legal guardian, custodian or their counsel who is present when the order is made; [PL 2015, c. 501, §5 (AMD).]

B. Service in accordance with the Maine Rules of Civil Procedure. Notwithstanding the Maine Rules of Civil Procedure, the court may waive service by publication of a preliminary protection order for a party whose whereabouts are unknown if the department shows by affidavit that diligent efforts have been made to locate the party; or [PL 1989, c. 819, §5 (AMD).]

C. Another manner ordered by the court. [PL 1979, c. 733, §18 (NEW).]
[PL 2015, c. 501, §5 (AMD).]

3-A. Information provided to parents. When the court makes a preliminary protection order on a child who is physically removed from the child's parents, legal guardian or custodians, the following information must be provided to the parents, legal guardian or custodians in written form by the petitioner at the time of removal of the child:

A. The assigned caseworker's name and work telephone number; [PL 1987, c. 395, Pt. A, §90 (NEW).]

B. The placement with a relative or other location where the child will be taken; and [PL 2015, c. 501, §6 (AMD).]

C. A copy of the complete preliminary protection order. [PL 1987, c. 395, Pt. A, §90 (NEW).]

This information is not required if the petitioner includes in the petition a sworn statement of the petitioner's belief that providing the information would cause the threat of serious harm to the child, the substitute care giver, the petitioner or any other person.
[PL 2015, c. 501, §6 (AMD).]

4. Service of final protection order. The court shall deliver in-hand at the court, or send by ordinary mail promptly after it is entered, a copy of the final protection order to the parent's, legal guardian's or custodian's counsel or, if no counsel, to the parents, legal guardian or custodians. The copy of the order must include a notice to them of their rights under section 4038. Lack of compliance with this subsection does not affect the validity of the order.
[PL 2015, c. 501, §7 (AMD).]

5. Notice to foster parents, preadoptive parents and relatives providing care. The department shall provide written notice of all proceedings in advance of the proceeding to foster parents, preadoptive parents and relatives providing care. The notice must be dated and signed, must include a statement that foster parents, preadoptive parents and relatives providing care are entitled to notice of and a right to be heard in any proceeding held with respect to the child and must contain the following language:

"The right to be heard includes only the right to testify and does not include the right to present other witnesses or evidence, to attend any other portion of the proceeding or to have access to pleadings or records."

A copy of the notice must be filed with the court prior to the proceeding.

[PL 2007, c. 255, §5 (AMD).]

6. Notice to legal guardians. When notice is required to be given to the legal guardian of a child, the department shall provide notice to all of the child's legal guardians that are known to the department.

§4034. Request for a preliminary protection order

1. Request. A petitioner may add to a child protection petition a request for a preliminary protection order or may request a preliminary protection order separately from the child protection petition. A request for a preliminary protection order must include a sworn summary of facts to support the request and identify the specific services offered and provided under section 4036-B, subsection 3 to prevent the removal of the child from the home.

[PL 2015, c. 501, §9 (AMD).]

2. Order. If the court finds by a preponderance of the evidence presented in the sworn summary or otherwise that there is an immediate risk of serious harm to the child, it may order any disposition under section 4036. A preliminary protection order automatically expires at the time of the issuing of a final protection order under section 4035 or a judicial review order under section 4038.

[PL 2001, c. 696, §25 (AMD).]

3. Custodial consent. If the custodian consents in writing and the consent is voluntarily and knowingly executed in court before a judge, or the custodian does not appear after proper notice has been given, then the hearing on the preliminary protection order need not be held, except as provided in subsection 4.

[PL 1983, c. 184, §3 (AMD).]

4. Summary preliminary hearing. The court shall schedule a summary preliminary hearing on a preliminary protection order within 14 days but not less than 7 days after issuance of the preliminary protection order, except that counsel for a parent may request that the hearing take place sooner. Upon request of counsel, the court may conduct the summary preliminary hearing as expeditiously as the court determines the interests of justice require. If a parent, custodian or legal guardian appears for the summary preliminary hearing and does not consent to the preliminary protection order, the court shall conduct a hearing at which the petitioner bears the burden of proof. At a summary preliminary hearing, the court may limit testimony to the testimony of the caseworker, parent, custodian, legal guardian, guardian ad litem, foster parent, preadoptive parent or relative providing care and may admit evidence, including reports and records, that would otherwise be inadmissible as hearsay evidence. If after the hearing the court finds by a preponderance of the evidence that returning the child to the child's custodian would place the child in immediate risk of serious harm, it shall continue the order or make another disposition under section 4036. If the court's preliminary protection order includes a finding

of an aggravating factor, the court may order the department not to commence reunification or to cease reunification, in which case the court shall conduct a hearing on jeopardy and conduct a permanency planning hearing. The hearings must commence within 30 days of entry of the preliminary protection order.

If the petitioner has not been able to serve a parent, custodian or legal guardian before the scheduled summary preliminary hearing, the parent, custodian or legal guardian may request a subsequent summary preliminary hearing within 10 days after receipt of the petition.
[PL 2015, c. 501, §10 (AMD).]

5. Contents of order. The preliminary protection order must include a notice to the parents and custodians of their right to counsel, as required under section 4032, subsection 2, paragraph G and, if the order was made without consent, notice of the date and time of the summary preliminary hearing. The order must include a notice to the parent or custodian that if a parent or custodian is not served with the petition before the summary preliminary hearing, the parent or custodian is entitled to request a subsequent preliminary hearing within 10 days after receipt of the petition. The order must include a notice that visitation must be scheduled within 7 days of the issuance of the order unless there is a compelling reason not to schedule visitation.
[PL 2001, c. 696, §27 (AMD).]

6. Visitation. When the court issues a preliminary protection order, the court shall order the department to schedule visitation with the child's parents and siblings within 7 days of the issuance of the order, unless there is a compelling reason not to schedule such visitation.

§4034-A. Evidence and findings inadmissible

1. Evidence. The exception under section 4034, subsection 4 for the admission of evidence that would otherwise be inadmissible hearsay applies to only the preliminary protection hearing under section 4034, subsection 4. Evidence admitted under that exception is not admissible in any other proceeding unless the evidence is admitted pursuant to the laws and rules of evidence applicable to that other proceeding.
[PL 2001, c. 696, §29 (NEW).]

2. Findings. A finding made at the conclusion of a preliminary protection hearing based on evidence that would otherwise be inadmissible hearsay admitted under section 4034, subsection 4 is not admissible in any other proceeding.

§4035. Hearing on jeopardy order petition

1. Hearing required. The court shall hold a hearing prior to making a jeopardy order.
[PL 1997, c. 715, Pt. A, §7 (AMD).]

2. Adjudication. After hearing evidence, the court shall make a finding, by a preponderance of the evidence, as to whether the child is in circumstances of jeopardy to the child's health or welfare.

A. The court shall make a fresh determination of the question of jeopardy and may not give preclusive effect to the findings of fact made at the conclusion of the hearing under section 4034, subsection 4. [PL 2001, c. 696, §30 (NEW).]

B. The court shall make findings of fact on the record upon which the jeopardy determination is made. [PL 2001, c. 696, §30 (NEW).]

C. The court shall make a jeopardy determination with regard to each parent who has been properly served. [PL 2001, c. 696, §30 (NEW).]
[PL 2001, c. 696, §30 (AMD).]

2-A. Conviction or adjudication for certain sex offenses; presumption. There is a rebuttable presumption:

A. That the person seeking custody or contact with the child would create a situation of jeopardy for the child if any contact were to be permitted and that contact is not in the best interest of the child if the court finds that the person:

(1) Has been convicted of an offense listed in Title 19-A, section 1653, subsection 6-A, paragraph A in which the victim was a minor at the time of the offense and the person was at least 5 years older than the minor at the time of the offense except that, if the offense was gross sexual assault under Title 17-A, section 253, subsection 1, paragraph B or C, or an offense in another jurisdiction that involves conduct that is substantially similar to that contained in Title 17-A, section 253, subsection 1, paragraph B or C, and the minor victim submitted as a result of compulsion, the presumption applies regardless of the ages of the person and the minor victim at the time of the offense; or

(2) Has been adjudicated in an action under Title 22, chapter 1071 of sexually abusing a person who was a minor at the time of the abuse.

The person seeking custody or contact with the child may produce evidence to rebut the presumption; and [PL 2007, c. 513, §6 (AMD).]

B. That the parent or person responsible for the child would create a situation of jeopardy for the child if the parent or person allows, encourages or fails to prevent contact between the child and a person who:

(1) Has been convicted of an offense listed in Title 19-A, section 1653, subsection 6-A, paragraph A in which the victim was a minor at the time of the offense and the person was at least 5 years older than the minor at the time of the offense except that, if the offense was gross sexual assault under Title 17-A, section 253, subsection 1, paragraph B or C and the minor victim submitted as a result of compulsion, the presumption applies regardless of the ages of the person and the minor victim at the time of the offense; or

(2) Has been adjudicated in an action under Title 22, chapter 1071 of sexually abusing a person who was a minor at the time of the abuse.

The parent or person responsible for the child may produce evidence to rebut the presumption. [PL 2005, c. 366, §7 (NEW).]
[PL 2007, c. 513, §6 (AMD).]

3. Grounds for disposition. If the court determines that the child is in circumstances of jeopardy to the child's health or welfare, the court shall hear any relevant evidence regarding proposed dispositions, including written or oral reports, recommendations or case plans. The court shall then make a written order of any disposition under section 4036. If, after reasonable effort, the department has been unable to serve a parent by the time of the hearing under subsection 1, the court may order any disposition under section 4036 until such time as the parent is served and a jeopardy determination is made with regard to that parent. If possible, this dispositional phase must be conducted immediately after the adjudicatory phase. Written materials to be offered as evidence must be made available to each party's counsel and the guardian ad litem reasonably in advance of the dispositional phase.
[PL 2001, c. 696, §31 (AMD).]

4. Final protection order.

[PL 1997, c. 715, Pt. A, §8 (RP).]

4-A. Jeopardy order. The court shall issue a jeopardy order within 120 days of the filing of the child protection petition.

This time period does not apply if good cause is shown. Good cause does not include a scheduling problem.

A. No change in custody; [PL 1979, c. 733, §18 (NEW).]

B. Departmental supervision of the child and family in the child's home; [PL 1979, c. 733, §18 (NEW).]

G-2. If the court's jeopardy order includes a finding of an aggravating factor, the court may order the department to cease reunification, in which case a permanency planning hearing must commence within 30 days of the order to cease reunification. [PL 1997, c. 715, Pt. A, §11 (NEW).]

H. Other specific conditions governing custody; or [PL 1995, c. 405, §22 (AMD).]

I. The court may not order and the State may not pay for the defendant to attend a domestic violence intervention program unless the program is certified under Title 19-A, section 4116. [PL 2021, c. 647, Pt. B, §51 (AMD); PL 2021, c. 647, Pt. B, §65 (AFF).]

[RR 2021, c. 2, Pt. B, §189 (COR).]

1-A. Parental rights and responsibilities orders. Upon request of a parent, the court may enter an order awarding parental rights and responsibilities pursuant to Title 19-A, section 1653 if the court determines that the order will protect the child from jeopardy and is in the child's best interest as defined in Title 19-A, section 1653, subsection 3. The court shall ensure that proper notice was given that the child protective case may be disposed of through an order awarding parental rights and responsibilities upon request of a parent. If the court enters an order pursuant to this subsection:

A. The court shall direct the clerk to open a family matters case on behalf of the parties and require the case to be appropriately docketed without a separate initial filing by the parties. The court shall require the parties to complete the income affidavits, child support worksheets and supporting documentation as required in Title 19-A, chapter 63. The court shall enter the order awarding parental rights and responsibilities pursuant to Title 19-A, section 1653; [PL 2013, c. 294, §1 (AMD).]

A-1. The order awarding parental rights and responsibilities may not include reference to or discussion of the child protective case, although the court may identify any jeopardy that remains as a finding of fact. Child protective case documents are confidential, and the court shall seal and keep confidential any documents from the child protective case that are made a part of the record of the family matters case opened under paragraph A; [PL 2013, c. 294, §1 (NEW).]

B. The order awarding parental rights and responsibilities is subject to modification or termination in the same manner as other orders entered pursuant to Title 19-A, section 1653; [PL 2013, c. 294, §1 (AMD).]

C. Any person who requests a modification or termination of the order awarding parental rights and responsibilities must serve the department with the motion or petition; [PL 2013, c. 294, §1 (AMD).]

D. The department is not a party to proceedings to modify or terminate the order awarding parental rights and responsibilities unless otherwise ordered by the court; [PL 2013, c. 294, §1 (AMD).]

D-1. The court may either:

(1) Immediately dismiss the child protection action; or

(2) Enter a provisional order awarding parental rights and responsibilities and, after the passage of a period set by the court not to exceed 6 months, the child protection action must be dismissed, with the order awarding parental rights and responsibilities becoming permanent, unless there is good cause shown in writing to continue the child protection action; and [PL 2013, c. 294, §1 (NEW).]

E. [PL 2013, c. 294, §1 (RP).]

F. When a provisional order awarding parental rights and responsibilities is entered under paragraph D-1, subparagraph (2), the court may terminate the appointments of the guardian ad litem and attorneys for parents and guardians. When the child protection action is dismissed under paragraph D-1, subparagraph (1) or (2), the court shall terminate the appointments of the guardian ad litem and attorneys for parents and guardians. After the appointments are terminated, the attorneys and guardian ad litem have no further responsibilities to their clients or the court. [PL 2013, c. 294, §1 (AMD).]

[PL 2013, c. 294, §1 (AMD).]

2. Principles. In determining the disposition, the court shall apply the following principles in this priority:

A. Protect the child from jeopardy to the child's health or welfare; [RR 2021, c. 2, Pt. B, §190 (COR).]

B. Give custody to a parent if appropriate conditions can be applied; [PL 1979, c. 733, §18 (NEW).]

C. Make disposition in the best interests of the child; and [PL 1979, c. 733, §18 (NEW).]

D. Terminate department custody at the earliest possible time. [PL 1979, c. 733, §18 (NEW).]
[RR 2021, c. 2, Pt. B, §190 (COR).]

2-A. Determination of parentage. In a protection order or in a judicial review order, the court may determine the parentage of the child. The court's determination of the child's parentage must be made pursuant to Title 19-A, chapter 61 and has the same legal effect as a determination of parentage made pursuant to that chapter.

[PL 2015, c. 296, Pt. C, §29 (NEW); PL 2015, c. 296, Pt. D, §1 (AFF).]

3. Time of order. The order may be for a specified period, with a review at the end of that period, or it may be for an indeterminate period, not beyond age 18.

[PL 1979, c. 733, §18 (NEW).]

4. Disposition of child in custody of department. The court may not order that a child who has been ordered into the custody of the department be placed with a parent. Nothing in this subsection prevents the department from placing a child in its custody in the home of a parent for a trial period.

[PL 1985, c. 739, §10 (NEW).]

5. Notice of criminal penalties. If an order is issued under this section that contains a provision subject to criminal penalties under section 4036-A, the order must indicate in a clear and conspicuous manner the potential consequences of violating the order.

§4036-A. Criminal penalty

1. Definition. For purposes of this section, "order" means an order entered in a case filed pursuant to this chapter.

[PL 1993, c. 443, §2 (NEW).]

2. Crime committed. When disposition under section 4036 includes a provision that a party named in a petition not have contact with a child or children named in the petition or a provision that a party named in the petition not enter the residence of a child or children named in the petition, and the party has prior actual notice of the order containing those provisions, violation of that provision is a Class D crime. The criminal sanctions in this subsection are in addition to and not in lieu of contempt powers of the court.

[PL 1993, c. 443, §2 (NEW).]

3. Warrantless arrest. Notwithstanding any statutory provision to the contrary, an arrest for criminal violation of an order may be without warrant upon probable cause whether or not the violation is committed in the presence of the law enforcement officer. The law enforcement officer may verify, if necessary, the existence of an order by telephone or radio communication with an agency with knowledge of the order.

§4036-B. Removal of child from home

1. Application. The provisions of this section apply in any case in which the court orders, or has ordered, the removal of a child from home.

[PL 2003, c. 408, §1 (NEW).]

2. Welfare of child. Before a court may order removal of a child from home, the court must specifically find that remaining in the home is contrary to the welfare of the child.

[PL 2003, c. 408, §1 (NEW).]

3. Reasonable efforts to prevent removal. The department shall make reasonable efforts to prevent removal of the child from home, unless the court finds the presence of an aggravating factor. In an order providing for removal of the child from home, or within 60 days of the date of removal of the child from home, the court shall make a finding:

A. Whether or not the department has made reasonable efforts to prevent the removal of the child from home; and [PL 2003, c. 408, §1 (NEW).]

B. If the court finds that the department did not make reasonable efforts to prevent the removal of the child from home, whether or not there is an aggravating factor. [PL 2003, c. 408, §1 (NEW).]
[PL 2003, c. 408, §1 (NEW).]

3-A. Notification to relatives. Except as required by family or domestic violence safety precautions, the department shall exercise due diligence to identify and provide notice, within 30 days after the removal of a child from the custody of a parent or custodian, to the following relatives: all grandparents; all parents of a sibling of the child who have legal custody of the sibling; and other adult relatives of the child, including any other adult relatives suggested by the parents. For the purposes of this subsection, "sibling" includes an individual who would have been considered a sibling of the child but for a termination or other disruption of parental rights, such as the death of a parent. Failure to comply with this provision does not affect service on a parent or custodian.

[PL 2015, c. 381, §4 (AMD).]

4. Reasonable efforts to reunify. The department shall make reasonable efforts to rehabilitate and reunify the family as provided in section 4041, subsection 1-A unless the court has ordered that the department need not commence or may cease reunification pursuant to section 4041, subsection 2. In the jeopardy order pursuant to section 4035 and in each judicial review order pursuant to section 4038, the court shall make a finding whether or not the department has made reasonable efforts to rehabilitate and reunify the family.

[PL 2003, c. 408, §1 (NEW).]

5. Reasonable efforts to finalize permanency plan. The department shall make reasonable efforts to finalize the permanency plan. In each order determining a permanency plan pursuant to section 4038-B, the court shall make a finding whether or not the department has made reasonable efforts to finalize the permanency plan.

6. Requirements for findings. A court order making any finding required by this section must:

A. Be in writing; [PL 2003, c. 408, §1 (NEW).]

B. State that the finding was based on the specific facts and circumstances relating to the child; and [PL 2003, c. 408, §1 (NEW).]

C. Explicitly document the basis for the finding. [PL 2003, c. 408, §1 (NEW).]

§4037. Authority of custodian

When custody of the child is ordered to the department or other custodian under a preliminary or final protection order, the custodian has full custody of the child subject to the terms of the order and other applicable law. [PL 2015, c. 187, §1 (NEW).]

1. Adoption. Custody does not include the right to initiate adoption proceedings without parental consent, except as provided under Title 18-C, section 9-302. [PL 2017, c. 402, Pt. C, §63 (AMD); PL 2019, c. 417, Pt. B, §14 (AFF).]

2. Withhold or withdraw life-sustaining medical treatment. Except as provided in paragraphs A and B, the custodian may not withhold or withdraw life-sustaining medical treatment.

A. The custodian may withhold or withdraw life-sustaining medical treatment if the parental rights of the parents of the child have been terminated pursuant to section 4055 and the custodian determines that withholding or withdrawing life-sustaining medical treatment is in the best interests of the child after considering the factors in paragraph C and the opinions of the child's treating physicians. [PL 2015, c. 187, §1 (NEW).]

B. If the parental rights of one or more parent of the child have not been terminated, the custodian under a preliminary or final child protection order may withhold or withdraw life-sustaining medical treatment:

(1) If the parent or parents whose parental rights have not been terminated consent to the custodian having that authority and the custodian determines that withholding or withdrawing life-sustaining medical treatment is in the best interests of the child after considering the factors in paragraph C and the opinions of the child's treating physicians; or

(2) If any parent whose parental rights have not been terminated does not consent, after notice and hearing, the District Court finds by clear and convincing evidence that:

(a) All of the nonconsenting parents are unfit under one or more of the grounds for termination in section 4055, subsection 1, paragraph B, subparagraph (2), division (b); and

(b) Withholding or withdrawing life-sustaining medical treatment is in the best interests of the child. [PL 2015, c. 187, §1 (NEW).]

C. Withholding or withdrawing life-sustaining medical treatment is in the best interests of the child if the child is in a persistent vegetative state or suffers from another irreversible medical condition that severely impairs mental and physical functioning, with poor long-term medical prognosis, and the child would experience additional pain and suffering if life-sustaining medical treatment were administered. 3. Judicial review. The District Court shall hold a judicial review for each person who qualifies for care and support under this section at least once every 12 months. The court shall hear evidence and shall consider the original reason for the extended care and support of the person and the agreement of extended care and support between the department and the person. The court shall, after hearing or by agreement, make written findings, based on a preponderance of the evidence, that determine:

A. The safety of the person in the person's placement; [PL 2011, c. 402, §5 (NEW).]

B. The services needed to transition the person from extended care and support to independent living; and [PL 2011, c. 402, §5 (NEW).]

In a judicial review order, the court may order either the department or the person or both to comply with the agreement of extended care and support but may not order the department to pay for a specific placement.

[PL 2011, c. 402, §5 (NEW).]

4. Termination; notice. A person receiving care and support under this section or the department may terminate the agreement of extended care and support without approval by the court. The department shall provide written notice of all reviews and hearings in advance of the proceeding to the foster parent, preadoptive parent and relative providing care. The notice must be dated and signed, must include a statement that the foster parent, preadoptive parent and relative providing care are entitled to notice of and an opportunity to be heard in any review or hearing held with respect to the child and must contain the following language:

A. At the hearing under this subsection, the court shall:

(1) Review a needs assessment of the child conducted by a qualified individual;

(2) Consider whether the needs of the child can be met through an alternative placement in a family foster home as defined in section 8101, subsection 3;

(3) Consider whether the placement of the child in a qualified residential treatment program provides effective and appropriate care for the child in the least restrictive environment; and

(4) Consider whether placement of the child in a qualified residential treatment program is consistent with the short-term and long-term goals for the child as specified in the permanency plan of the child protection case pursuant to section 4038-B. [PL 2021, c. 210, §3 (NEW).]

B. The court shall state, in writing, the reasons for its decision to approve or disapprove under this subsection the continued placement of the child in the qualified residential treatment program. [PL 2021, c. 210, §3 (NEW).]

9. Continued placement in qualified residential treatment program; judicial review. A. The court shall:

(1) Determine whether an ongoing needs assessment of the child, as prepared by qualified individuals, supports continued placement of the child in the qualified residential treatment program;

(2) Determine whether the documentation about the child regarding the child's placement in the qualified residential treatment program supports the conclusion that it is effective and appropriate care for the child in the least restrictive environment; and

(3) Determine whether the documentation about the child supports the conclusion that continued placement in the qualified residential treatment program is consistent with the short-term and long-term goals for the child as specified in the permanency plan of the child protection case pursuant to section 4038-B. [PL 2021, c. 210, §4 (NEW).]

B. The court shall state, in writing, the reasons for its decision to approve or disapprove under this subsection the continued placement of the child in the qualified residential treatment program. [PL 2021, c. 210, §4 (NEW).]

§4038-B. Permanency plans

1. Mandated permanency planning hearing. Unless subsequent judicial reviews are not required pursuant to section 4038, subsection 1-A, the District Court shall conduct a permanency planning hearing and shall determine a permanency plan within the earlier of:

A. Thirty days after a court order to cease reunification; and [PL 2005, c. 372, §6 (NEW).]

B. Twelve months after the time a child is considered to have entered foster care. A child is considered to have entered foster care on the date of the first judicial finding that the child has been subjected to child abuse or neglect or on the 60th day after removal of the child from home, whichever occurs first. [PL 2005, c. 372, §6 (NEW).]

[PL 2005, c. 372, §6 (NEW).]

2. Subsequent permanency planning hearings. Unless subsequent judicial reviews are not required pursuant to section 4038, subsection 1-A, the District Court shall conduct a permanency planning hearing within 12 months of the date of any prior permanency planning order.

[PL 2005, c. 372, §6 (NEW).]

3. Permanency planning orders. After each permanency planning hearing, the District Court shall adopt a permanency plan for a child that complies with subsection 4. The court shall enter the order within the time limitations contained in subsection 1 or 2, whichever is applicable to the permanency planning hearing.

[PL 2005, c. 372, §6 (NEW).]

4. Contents of permanency plan. A permanency plan for a child under this section must contain determinations on the following issues.

A. The permanency plan must determine whether and when, if applicable, the child will be:

(1) Returned to a parent. Before the court may enter an order returning the custody of the child to a parent, the parent must show that the parent has carried out the responsibilities set forth in section 4041, subsection 1-A, paragraph B; that to the court's satisfaction the parent has rectified and resolved the problems that caused the removal of the child from home and any subsequent problems that would interfere with the parent's ability to care for the child and protect the child from jeopardy; and that the parent can protect the child from jeopardy;

(2) Placed for adoption, in which case the department shall file a petition for termination of parental rights;

(3) Cared for by a permanency guardian, as provided in section 4038-C, or a guardian appointed by the Probate Court pursuant to Title 18-C, sections 5-204 to 5-206;

(4) Placed with a fit and willing relative; or

(5) Placed in another planned permanent living arrangement. The District Court may adopt another planned permanent living arrangement as the permanency plan for the child only after the department has documented to the court a compelling reason for determining that it would not be in the best interests of the child to be returned home, be referred for termination of parental rights or be placed for adoption, be cared for by a permanency guardian or be placed with a fit and willing relative. [PL 2017, c. 402, Pt. C, §65 (AMD); PL 2019, c. 417, Pt. B, §14 (AFF).]

B. In the case of a child placed outside the state in which the parents of the child live, the permanency plan must determine whether the out-of-state placement continues to be appropriate and in the best interests of the child. [PL 2005, c. 372, §6 (NEW).]

C. In the case of a child who is 14 years of age or older, the permanency plan must determine the services needed to assist the child to make the transition from foster care to independent living. [PL 2015, c. 381, §5 (AMD).]

D. The permanency plan must ensure that all in-state and out-of-state placements are considered to provide the child with all possible permanency options. [PL 2009, c. 557, §2 (NEW).]

[PL 2017, c. 402, Pt. C, §65 (AMD); PL 2019, c. 417, Pt. B, §14 (AFF).]

5. Wishes of child. The District Court shall consider the wishes of a child, in a manner appropriate to the age of the child, in making a determination under this section.

§4038-C. Permanency guardian

As part of the permanency plan, the District Court may appoint a person or persons as guardian of a minor, to be known as a permanency guardian. "Permanency guardian," when used in this section and in section 4038-D and Title 20-A, section 12572, means the person or persons appointed as the permanency guardian. [PL 2005, c. 471, §3 (AMD).]

1. Criteria. The District Court may appoint a person to be a permanency guardian only if the court finds that the prospective permanency guardian:

- A. Has the ability to provide a safe home for the child; [PL 2005, c. 372, §6 (NEW).]
- B. Has a close emotional bond with the child and that the child has a close emotional bond with the prospective permanency guardian; [PL 2005, c. 372, §6 (NEW).]
- C. Is willing and able to make an informed, long-term commitment to the child; [PL 2011, c. 402, §6 (AMD).]
- D. Has the skills to care for the child; and [PL 2011, c. 402, §7 (AMD).]
- E. Has submitted to having fingerprints taken for the purposes of a national criminal history record check. [PL 2011, c. 402, §8 (NEW).]

[PL 2011, c. 402, §§6-8 (AMD).]

2. Powers and duties of permanency guardian. A permanency guardian has all of the powers and duties of a guardian of a minor pursuant to Title 18-C, sections 5-207 and 5-208. A permanency guardianship terminates upon the minor's death, adoption or attainment of majority or as ordered by the court pursuant to this section.

[PL 2019, c. 664, Pt. C, §1 (AMD).]

3. Parental and relative contact. A parent, grandparent or sibling of a child subject to a permanency guardianship or to a proceeding to establish a permanency guardianship may petition the court to determine rights of contact as provided in subsection 6. If the District Court determines that it is in the best interest of the child, it may order that the parent, grandparent or sibling of the child has a reasonable right of contact with the child and may specify the type, frequency, duration and conditions of that contact.

[PL 2005, c. 372, §6 (NEW).]

4. Child support. The parents shall pay the permanency guardian child support. Title 19-A, section 1652 and Title 19-A, chapter 63 govern the award of child support to the permanency guardian. The child support obligation may be enforced pursuant to Title 19-A, chapter 65 or 67.

If there is an existing child support order or obligation regarding the child, and if the District Court fails to make a child support order at the time of appointing a permanency guardian, the permanency guardian becomes the obligee under the existing support order or obligation. A copy of the order appointing the permanency guardian is sufficient proof of the permanency guardian's status as obligee. [PL 2005, c. 372, §6 (NEW).]

5. Jurisdiction over permanency guardian. The District Court has exclusive jurisdiction to appoint or remove a permanency guardian and to establish any rights of contact between a child and a parent, grandparent or sibling.
[PL 2005, c. 372, §6 (NEW).]

6. Proceedings to terminate permanency guardianship or to determine rights of contact. Proceedings to terminate permanency guardianship or to determine rights of contact are governed by the following.

A. Any party to the child protective proceeding may petition to terminate a permanency guardianship and any parent, grandparent or sibling of the child may petition the court to establish rights of contact with the child, except that a person having once petitioned unsuccessfully to terminate a permanency guardianship or to establish rights of contact may not bring a new petition to terminate the permanency guardianship or to establish rights of contact within 12 months after the end of the previous proceeding, and then only if the petitioner alleges and proves that there has been a substantial change of circumstances regarding the child's welfare. [PL 2005, c. 372, §6 (NEW).]

B. Notice of a petition under paragraph A must be given in the manner provided for by Rule 4 of the Maine Rules of Civil Procedure to all parties to the child protective case and to the permanency guardian. [PL 2005, c. 372, §6 (NEW).]

C. The permanency guardianship may be terminated only if the petitioner proves by a preponderance of the evidence that the termination is in the best interest of the child. [PL 2005, c. 372, §6 (NEW).]

[PL 2005, c. 372, §6 (NEW).]

7. Effect on inheritance rights and public benefits. The appointment of a permanency guardian does not affect the inheritance rights between a child and the child's parent or parents.

The appointment of a permanency guardian may not affect the child's entitlement to benefits due that child from any 3rd person, agency or state or the United States. Except as required by federal law or regulation, the permanency guardian's resources and income are not counted in determining eligibility for any public benefit to which the child may be entitled.

The permanency guardianship does not affect the rights and benefits that a Native American derives from descent from a member of a federally recognized Indian tribe.

[PL 2005, c. 521, §1 (AMD).]

8. Resignation, death or incapacity of permanency guardian. Resignation of a permanency guardian does not terminate the guardianship until it has been approved by the court. If a permanency guardian resigns, dies or becomes incapacitated, the District Court shall hold a judicial review and a permanency planning hearing at the earliest practicable time.
[PL 2005, c. 372, §6 (NEW).]

9. Preference. The District Court shall give preference for placement and permanency guardianship to a person nominated by a deceased permanency guardian in a valid will or by an incapacitated permanency guardian in a valid power of attorney, unless the District Court finds that the placement or permanency guardianship is not in the child's best interest.
[PL 2005, c. 372, §6 (NEW).]

10. Limitation. The District Court does not have authority to provide a guardianship subsidy for permanency guardianship under section 4038-D.
[PL 2005, c. 683, Pt. A, §36 (AMD).]

11. Application to pending cases. The District Court may appoint a permanency guardian in a proceeding pending on September 17, 2005 or in a proceeding commenced on or after September 17, 2005.

[PL 2005, c. 521, §2 (NEW).]

12. Appointments terminate; later appointments. Unless the District Court has scheduled a judicial review or orders otherwise, the court's appointments of the guardian ad litem and attorneys for parents and guardians terminate, and the attorneys and guardian ad litem have no further responsibilities to their clients or the court upon appointment of a permanency guardian pursuant to this section. If a party files a motion for judicial review when no judicial review is required pursuant to section 4038, subsection 1-A, or if a party files a petition pursuant to subsection 6 to terminate a permanency guardianship or determine rights of contact, the court shall appoint a guardian ad litem and attorneys for indigent parents and custodians, including permanency guardians, as required by section 4005.

[PL 2007, c. 284, §7 (NEW).]

§4038-D. Guardianship subsidy

1. Establishment of program; use of federal funds. There is established in the department the Guardianship Subsidy Program, referred to in this section as "the program." For the purposes of this section, the department is authorized to use funds that are appropriated for child welfare services and funds provided under the United States Social Security Act, Titles IV-B and IV-E, or under any waiver that the department receives pursuant to those Titles.

[PL 2005, c. 372, §6 (NEW).]

2. Eligibility for guardianship subsidy payments. Subject to rules adopted to implement this section, the department may provide subsidies for a child who is placed in a permanency guardianship or in a similar status by a Native American tribe, when reasonable but unsuccessful efforts have been made to place the child without guardianship subsidies and if the child would not be placed in a permanency guardianship without the assistance of the program.

[PL 2011, c. 402, §10 (AMD).]

3. Definition of "special needs child."

[PL 2011, c. 402, §11 (RP).]

4. Amount of guardianship subsidy. The amount of a guardianship subsidy is determined according to this subsection.

A. The amount may vary depending upon the resources of the permanency guardian, the needs of the child and the availability of other resources. [PL 2011, c. 402, §12 (AMD).]

B. The amount may not exceed the total cost of caring for the child if the child were to remain in the care or custody of the department, without regard to the source of the funds. [PL 2005, c. 372, §6 (NEW).]

C. [PL 2011, c. 402, §12 (RP).]

D. Subject to rules adopted by the department, expenses of up to \$2,000 per child may be reimbursed. This reimbursement is for legal expenses required to complete the permanency guardianship, including attorney's fees and travel expenses. [PL 2011, c. 402, §12 (AMD).]
[PL 2011, c. 402, §12 (AMD).]

5. Duration of guardianship subsidy. A guardianship subsidy may be provided for a period of time based on the needs of a child. The subsidy may continue until the termination of the permanency guardianship or until the permanency guardian is no longer caring for the child, at which time the guardianship subsidy ceases. If the child has need of educational benefits or has a physical, mental or emotional disability, the guardianship subsidy may continue until the child has attained 21 years of age if the child, the parents and the department agree that the need for care and support exists.
[PL 2021, c. 348, §31 (AMD).]

6. Administration of program. Applications for the program may be submitted by a prospective permanency guardian. A written agreement between the permanency guardian entering into the program and the department must precede the order creating the permanency guardianship, except that an application may be filed subsequent to the creation of the permanency guardianship if there were facts relevant to the child's eligibility that were not presented at the time of placement or if the child was eligible for participation in the program at the time of placement and the permanency guardian was not apprised of the program.
[PL 2005, c. 372, §6 (NEW).]

7. Annual review required. If the subsidy continues for more than one year, the need for the subsidy must be reviewed annually. The subsidy continues regardless of the state in which the permanency guardian resides, or the state to which the permanency guardian moves, if the permanency guardian continues to be responsible for the child.
[PL 2005, c. 372, §6 (NEW).]

8. Death of permanency guardian.
[PL 2011, c. 402, §14 (RP).]

9. Adoption of rules. The department shall adopt rules for the program consistent with this section. Rules adopted pursuant to this subsection are routine technical rules pursuant to Title 5, chapter 375, subchapter 2-A.
[PL 2005, c. 372, §6 (NEW).]

10. Permanency guardian's eligibility for public benefits. Except as required by federal law or regulation, the guardianship subsidy may not be counted as resources or income in the determination of the permanency guardian's eligibility for any public benefit.
[PL 2005, c. 521, §3 (AMD).]

11. Application to pending cases. The department may provide a guardianship subsidy pursuant to this section to a child who is the subject of a child protection proceeding pending on September 17, 2005 or to a child who is the subject of a child protection proceeding commenced on or after September 17, 2005.

§4038-E. Adoption from permanency guardianship

A permanency guardian may petition the District Court to adopt the child in the permanency guardian's care and to change the child's name upon the issuance of the adoption decree. The petition must be filed and adjudicated in accordance with Title 18-C, Article 9, except that the adoption may

not be granted unless each living parent identified in the child protection action whose rights have not been terminated has executed a consent to the adoption pursuant to Title 18-C, section 9-202 or the court finds that such consent is not required pursuant to Title 18-C, section 9-302, subsection 2. SUBCHAPTER 5

FAMILY REUNIFICATION

§4041. Departmental responsibilities

1. Rehabilitation and reunification.

[PL 2001, c. 559, Pt. CC, §4 (RP).]

1-A. Rehabilitation and reunification. A child is considered to have entered foster care on the date of the first judicial finding that the child has been subjected to child abuse or neglect or on the 60th day after the child is removed from the home, whichever occurs first. When a child is considered to have entered foster care, the responsibility for reunification and rehabilitation of the family must be shared as follows.

A. The department shall:

- (1) Develop a rehabilitation and reunification plan as provided in this subparagraph.
 - (a) In developing the rehabilitation and reunification plan, the department shall make good faith efforts to seek the participation of the parent. Information that must be included in developing the plan includes the problems that present a risk of harm to the child, the services needed to address those problems, provisions to ensure the safety of the child while the parent engages in services, a means to measure the extent to which progress has been made, and visitation that protects the child's physical and emotional well-being. With this information, the department shall prepare a written rehabilitation and reunification plan.
 - (b) The department shall circulate the plan to the parties at least 10 days before a scheduled court hearing and shall present the plan to the court for filing at that hearing.
 - (c) The rehabilitation and reunification plan must include the following:
 - (i) The reasons for the removal of the child from home;
 - (ii) The changes that are necessary to eliminate jeopardy to the child while in the care of a parent;
 - (iii) Rehabilitation services that will be provided and must be completed satisfactorily prior to the child's returning home;
 - (iv) Services that must be provided or made available to assist the parent in rehabilitating and reunifying with the child, as appropriate to the child and family, including, but not limited to, reasonable transportation for the parent for visits and services, child care, housing assistance, assistance with transportation to and from required services and other services that support reunification;
 - (v) A schedule of and conditions for visits between the child and the parent designed to provide the parent and child time together in settings that provide as positive a parent-child interaction as can practicably be achieved while ensuring the emotional and physical well-being of the child when visits are not detrimental to the child's best interests;
 - (vi) Any use of kinship support, including, but not limited to, placement, supervision of visitation, in-home support or respite care;
 - (vii) A reasonable time schedule for proposed reunification, reasonably calculated to meet the child's needs; and

- (viii) A statement of the financial responsibilities of the parent and the department during the reunification process;
- (2) Provide the parent with prompt written notice of the following, unless that notice would be detrimental to the best interests of the child:
- (a) The child's residence and, when practicable, at least 7 days' advance written notice of a planned change of residence; and
 - (b) Any serious injuries, major medical care received or hospitalization of the child;
- (3) Make good faith efforts to cooperate with the parent in the pursuit of the plan;
- (4) Periodically review with the parent the progress of the plan and make any appropriate changes in that plan. If the parties disagree about the proposed changes in the plan, any party may seek an informal conference with all other parties in an effort to resolve the disagreement, prior to initiating court action. If the parties are unable to agree after an informal conference, the parties may have access to the court's case management system. This subparagraph may not be construed to limit the court's authority to manage and control any cases within the court;
- (5) Petition for judicial review and return of custody of the child to the parent at the earliest appropriate time; and
- (6) Petition for termination of parental rights at the earliest possible time that it is determined that family reunification efforts will be discontinued pursuant to subsection 2 and that termination is in the best interests of the child. [PL 2001, c. 559, Pt. CC, §5 (NEW).]
- B. The responsibilities of the parent include, as appropriate to the child and family, that the parent:
- (1) Rectify and resolve problems that prevent the return of the child to the home;
 - (2) Cooperate with the department in the development of the plan, as described in paragraph A;
 - (3) Take part in a reasonable rehabilitation and reunification plan. Use of rehabilitation and other services by a parent may not be used to constitute an admission by the parent;
 - (4) Maintain meaningful contact with the child pursuant to the plan. When a parent has moved from the area where the child has been placed, the parent shall make arrangements to visit the child at or near the child's placement. If a significant practical barrier to parental contact with the child arises, any party aware of the barrier shall notify the other parties and all parties shall make efforts to overcome the barrier to contact;
 - (5) Seek and utilize appropriate services to assist in rehabilitating and reunifying with the child;
 - (6) Pay reasonable sums toward the support of the child within the limits of the parent's ability to pay;
 - (7) Maintain contact with the department, including prompt written notification to the department of any change of address; and
 - (8) Make good faith efforts to cooperate with the department in developing and pursuing the plan. [PL 2001, c. 559, Pt. CC, §5 (NEW).]
- C. Unless excused for good cause shown, at any hearing held under section 4034, subsection 4 or within 10 days of the filing of the petition if a hearing under section 4034, subsection 4 is not held, the department shall present to the court for review a preliminary rehabilitation and reunification plan, a plan to avoid removal of the child from home or decision not to commence reunification.
- (1) A preliminary plan must be developed with the custodial parent and the department caseworker if the parent is willing to engage in the development of the plan.

(2) The preliminary plan must include the following: a statement of the problems causing risk to the child identified by the department and by the parent; preliminary identification by the parent and by the department of services needed; a description of the visitation plan or explanation of why visits are not scheduled; the names, addresses and telephone numbers of any relatives or family friends known to the department and parent to be available as resources for rehabilitation and reunification; and the department's preliminary assessment of any kinship placements.

(3) Prior to review by the court, the department shall provide a copy of the preliminary plan to counsel for the parents, or to the parents if they do not have counsel, and to the guardian ad litem.

(4) The court may review the preliminary plan in a hearing that does not allow testimonial evidence with all parties and counsel present or may hold a summary hearing at which the court may limit testimony to the testimony of the caseworker, parent, guardian ad litem, person to whom trial placement was given, foster parents, preadoptive parents or relatives providing care and may admit evidence, including reports and records, that would otherwise be inadmissible as hearsay evidence.

(5) The preliminary plan remains in effect until the court enters a jeopardy order under section 4035. A party may file an amended plan at any time before the jeopardy order is entered with the written agreement of all parties. [PL 2001, c. 559, Pt. CC, §5 (NEW).]

D. The department may make reasonable efforts to place a child for adoption or with a legal guardian concurrently with reunification efforts if potential adoptive parents have expressed a willingness to support the rehabilitation and reunification plan. [PL 2001, c. 559, Pt. CC, §5 (NEW).]

[PL 2001, c. 559, Pt. CC, §5 (NEW).]

2. Determination of need to commence or discontinue rehabilitation and reunification efforts.

The following provisions determine when rehabilitation and reunification efforts are not necessary or may be discontinued.

A. [PL 1997, c. 715, Pt. B, §11 (RP).]

A-1. [PL 2001, c. 696, §33 (RP).]

A-2. The court may order that the department need not commence or may cease reunification efforts only if the court finds at least one of the following:

(1) The existence of an aggravating factor; or

(2) That continuation of reunification efforts is inconsistent with the permanency plan for the child.

(a) When 2 placements with the same parent have failed and the child is returned to the custody of the department, the court shall make a finding that continuation of reunification efforts is inconsistent with the permanency plan for the child and order the department to cease reunification unless the parent demonstrates that reunification should be continued and the court determines reunification efforts to be in the best interests of the child.

(b) If the permanency plan provides for a relative or other person to have custody of the child and the court has ordered custody of the child to that relative or other person, the court shall make a finding that continuation of reunification efforts is inconsistent with the permanency plan for the child and order the department to cease reunification unless the parent demonstrates that reunification should be continued and the court determines reunification efforts to be in the best interests of the child. [PL 2001, c. 696, §34 (NEW).]

B. [PL 1997, c. 715, Pt. B, §11 (RP).]

B-1. When the department discontinues efforts to return the child to a parent, it shall give written notice of this decision to that parent at the parent's last known address. This notice must include the specific reasons for the department's decision, the specific efforts the department has made in working with the parent and child and a statement of the parent's rights under section 4038. The department shall seek an order authorizing it to discontinue reunification efforts. Within 10 days of sending written notice of the decision to discontinue reunification efforts, the department shall file a motion for approval of discontinuance of reunification efforts with supporting affidavits. If the parents file a responsive pleading within 21 days, the court shall conduct a summary proceeding in accordance with the provisions of section 4034, subsection 4. If no responsive pleading is filed, the court may hold a summary hearing in accordance with the provisions of section 4034, subsection 4 or may decide the matter without a hearing. [PL 1997, c. 715, Pt. B, §11 (NEW).]

C. If the department discontinues efforts to return the child to a parent but does not seek termination of parental rights, then subsection 1-A, paragraph A, subparagraph (1), division (c), subdivision (v) and subsection 1-A, paragraph A, subparagraph (2) still apply. [PL 2005, c. 397, Pt. B, §5 (AMD).]

[PL 2005, c. 397, Pt. B, §5 (AMD).]

3. Notice to guardian ad litem. The department shall notify the guardian ad litem, as described in section 4005, of any substantial change in circumstances that may have an impact on the best interests of the child. A substantial change in circumstances includes but is not limited to any change in the child's residence.

SUBCHAPTER 6

TERMINATION OF PARENTAL RIGHTS

§4050. Purpose

Recognizing that instability and impermanency are contrary to the welfare of children, it is the intent of the Legislature that this subchapter:

1. Termination of parental rights. Allow for the termination of parental rights at the earliest possible time after rehabilitation and reunification efforts have been discontinued and termination is in the best interest of the child;

[PL 1983, c. 772, §7 (NEW).]

2. Return to family. Eliminate the need for children to wait unreasonable periods of time for their parents to correct the conditions which prevent their return to the family;

[PL 1983, c. 772, §7 (NEW).]

3. Adoption. Promote the adoption of children into stable families rather than allowing children to remain in the impermanency of foster care; and

[PL 1983, c. 772, §7 (NEW).]

4. Protect interests of child. Be liberally construed to serve and protect the best interests of the child.

[PL 1983, c. 772, §7 (NEW).]

SECTION HISTORY

PL 1983, c. 772, §7 (NEW).

§4051. Venue

A petition for termination of parental rights must be brought in the court that issued the final protection order. The court, for the convenience of the parties or other good cause, may transfer the petition to another district or division. A petition for termination of parental rights may also be brought in a Probate Court as part of an adoption proceeding as provided in Title 18-C, Article 9, when a child protective proceeding has not been initiated. §4052. Termination petition; petitioners; time filed; contents

1. Petitioner. A termination petition may be brought by the custodial parent of the child, by the parent or guardian of another parent of the child if that parent is a minor, by a person who has filed a petition to adopt the child pursuant to Title 18-C, Article 9 or by the department. If the petitioner is a parent of the child or a parent or guardian of another parent of the child if that parent is a minor, the court shall follow the requirements of Title 19-A, section 1658. If the petitioner is also petitioning to adopt the child, the court shall follow the requirements of Title 18-C, section 9-204. [PL 2021, c. 340, §3 (AMD).]

2. Time filed.

[PL 1997, c. 715, Pt. B, §13 (RP).]

2-A. Department as petitioner or as party. The department shall file a termination petition or seek to be joined as a party to any pending petition:

A. When a child has been in foster care for 15 of the most recent 22 months. The department must file the petition before the end of the child's 15th month in foster care. In calculating when to file a termination petition:

- (1) The time the child has been in foster care begins when the child is considered to have entered foster care as specified in section 4038-B, subsection 1, paragraph B;
- (2) When a child experiences multiple exits from and entries into foster care during the 22-month period, all periods in foster care must be accumulated; and
- (3) The time in foster care does not include trial home visits or times during which the child is a runaway.

This paragraph does not apply if the department is required to undertake reunification efforts and the department has not provided to the family of the child such services as the court determines to be necessary for the safe return of the child to the child's home consistent with the time period in the case plan; [PL 2005, c. 372, §7 (AMD).]

B. Within 60 days of a court order that includes a finding of an aggravating factor and an order to cease reunification; or [PL 2003, c. 408, §7 (AMD).]

C. Within 60 days of a court finding that the child has been abandoned. [PL 2003, c. 408, §7 (NEW).]

The department is not required to file a termination petition if the department has chosen to have the child cared for by a relative or the department has documented to the court a compelling reason for determining that filing such a petition would not be in the best interests of the child.
[PL 2005, c. 372, §7 (AMD).]

3. Contents of petition. A termination petition must be sworn and must include at least the following:

A. The name, date and place of birth and municipal residence, if known, of the child; [PL 1979, c. 733, §18 (NEW).]

B. The name and address of the petitioner and the nature of the petitioner's relationship to the child; [PL 2021, c. 340, §4 (AMD).]

C. The name and municipal residence, if known, of each of the child's parents; [PL 1979, c. 733, §18 (NEW).]

D. The names and address of the guardian ad litem of the child in any related child protection proceeding, parental rights and responsibilities proceeding or adoption proceeding; [PL 2021, c. 340, §4 (AMD).]

E. A summary statement of the facts that the petitioner believes constitute the basis for the request for termination; [PL 2021, c. 340, §4 (AMD).]

F. An allegation that is sufficient for termination; [PL 2021, c. 340, §4 (AMD).]

G. A statement of the effects of a termination order; and [PL 1979, c. 733, §18 (NEW).]

H. A statement that the parents are entitled to legal counsel in the termination proceedings and that, if they want an attorney and are unable to afford one, they should contact the court as soon as possible to request appointed counsel. [PL 1979, c. 733, §18 (NEW).]

[PL 2021, c. 340, §4 (AMD).]

4. Hearing date. On the filing of a petition, the court shall set a time and date for a hearing.

Service must be made in accordance with the District Court Civil Rules. The department shall provide written notice of all reviews and hearings in advance of the proceeding to foster parents, preadoptive parents and relatives providing care. "The right to be heard includes only the right to testify and does not include the right to present other witnesses or evidence, to attend any other portion of the review or hearing or to have access to pleadings or records." [PL 1997, c. 715, Pt. B, §15 (AMD).]

A copy of the notice must be filed with the court prior to the review or hearing. The department shall mail a copy of the petition to all attorneys of record when the petition is filed in court. [PL 1997, c. 715, Pt. B, §15 (NEW).]

§4054. Hearing on termination petition

The court shall hold a hearing prior to making a termination order. [PL 1979, c. 733, §18 (NEW).]

SECTION HISTORY

PL 1979, c. 733, §18 (NEW).

§4055. Grounds for termination

1. Grounds. The court may order termination of parental rights if:

A. One of the following conditions has been met:

(1) Custody has been removed from the parent under:

- (a) Section 4035 or 4038;
- (b) Title 19-A, section 1502 or 1653;
- (c) Section 3792 prior to the effective date of this chapter; or
- (d) Title 15, section 3314, subsection 1, paragraph C-1; or

(2) The petition has been filed as part of an adoption proceeding in Title 18-C, Article 9 or by a parent of the child or a parent or guardian of another parent of the child if that parent is a minor pursuant to Title 19-A, section 1658; and [PL 2021, c. 340, §5 (AMD).]

B. Either:

(1) The parent consents to the termination after a judge has fully explained the effects of a termination order and such consent is written and voluntarily and knowingly executed in court before a judge;

(2) The court finds, based on clear and convincing evidence, that:

- (a) Termination is in the best interest of the child; and
- (b) Either:

(i) The parent is unwilling or unable to protect the child from jeopardy and these circumstances are unlikely to change within a time which is reasonably calculated to meet the child's needs;

(ii) The parent has been unwilling or unable to take responsibility for the child within a time which is reasonably calculated to meet the child's needs;

(iii) The child has been abandoned; or

(iv) The parent has failed to make a good faith effort to rehabilitate and reunify with the child pursuant to section 4041; or

(3) In the case of a petition brought as part of an adoption proceeding pursuant to Title 18-C, Article 9 or by a parent of the child or a parent or guardian of another parent of the child if that parent is a minor pursuant to Title 19-A, section 1658, the court finds that the applicable standards for termination of parental rights have been proven. [PL 2021, c. 340, §5 (AMD).]

[PL 2021, c. 340, §5 (AMD).]

1-A. Rebuttable presumption. The court may presume that the parent is unwilling or unable to protect the child from jeopardy and these circumstances are unlikely to change within a time which is reasonably calculated to meet the child's needs if:

A. The parent has acted toward a child in a manner that is heinous or abhorrent to society or has failed to protect a child in a manner that is heinous or abhorrent to society, without regard to the intent of the parent; [PL 1995, c. 481, §3 (AMD).]

B. The victim of any of the following crimes was a child for whom the parent was responsible or the victim was a child who was a member of a household lived in or frequented by the parent and the parent has been convicted of:

- (1) Murder;
- (2) Felony murder;
- (3) Manslaughter;
- (4) Aiding or soliciting suicide;
- (5) Aggravated assault;
- (6) Rape;
- (7) Gross sexual misconduct or gross sexual assault;
- (8) Sexual abuse of minors;
- (9) Incest;
- (10) Kidnapping;
- (11) Promotion of prostitution, sexual exploitation of a minor, sex trafficking or aggravated sex trafficking; or
- (12) A comparable crime in another jurisdiction; [PL 2015, c. 360, §4 (AMD).]

C. The child has been placed in the legal custody or care of the department, the parent has a chronic substance use disorder, and the parent's prognosis indicates that the child will not be able to return to the custody of the parent within a reasonable period of time, considering the child's age and the need for a permanent home. The fact that a parent has been unable to provide safe care of a child for a period of 9 months due to substance use constitutes a chronic substance use disorder; [PL 2017, c. 407, Pt. A, §85 (AMD).]

D. The child has been placed in the legal custody or care of the department, the court has previously terminated parental rights to another child who is a member of the same family and the parent continues to lack the ability or willingness to show the court that the parent has sought services that would rehabilitate the parent or the parent can not show evidence that an additional period of services would result in reunification in a time reasonably calculated to meet the needs of the child and the child's need for a permanent home; or [PL 1995, c. 481, §4 (NEW).]

E. The child has been placed in the legal custody or care of the department for at least 9 months, and the parents have been offered or received services to correct the situation but have refused or have made no significant effort to correct the situation. [PL 1997, c. 475, §9 (AMD).]
[PL 2017, c. 407, Pt. A, §85 (AMD).]

1-B. Conception by sexual assault as grounds for termination. The court may order termination of parental rights if the court finds, based on clear and convincing evidence, that the child was conceived as a result of an act by the parent of sexual assault or a comparable crime in another jurisdiction. For purposes of this subsection, "sexual assault" has the same meaning as in Title 17-A, section 253, 254 or 556. A guilty plea or conviction for sexual assault is considered clear and convincing evidence for purposes of this subsection.

[PL 2015, c. 427, §2 (NEW).]

2. Primary considerations. In deciding to terminate parental rights, the court shall consider the best interest of the child, the needs of the child, including the child's age, the child's attachments to relevant persons, periods of attachments and separation, the child's ability to integrate into a substitute placement or back into the parent's home and the child's physical and emotional needs.

[PL 1997, c. 475, §10 (AMD).]

3. Wishes of child. The court shall consider the wishes of a child, in a manner appropriate to the age of the child, in making an order under this section.

§4056. Effects of termination order

1. Parent and child divested of rights. An order terminating parental rights divests the parent and child of all legal rights, powers, privileges, immunities, duties and obligations to each other as parent and child, except the child inherits from the child's former parents if so provided in the order.

[PL 2017, c. 402, Pt. D, §2 (AMD); PL 2019, c. 417, Pt. B, §14 (AFF).]

2. Only one parent affected. The termination of one parent's rights shall not affect the rights of the other parent.

[PL 1979, c. 733, §18 (NEW).]

3. Parent not entitled to participate in adoption proceedings. A parent whose rights have been terminated is not entitled to notice of the child's adoption proceedings, nor does that parent have any right to object to the adoption or participate in the proceedings.

[RR 2021, c. 2, Pt. B, §191 (COR).]

4. Child not disentitled to benefit. An order terminating parental rights may not disentitle a child to benefits due to the child from any 3rd person, agency, state or the United States; nor may it affect the rights and benefits that a Native American derives from the child's descent from a member of a federally recognized Indian tribe.

[RR 2021, c. 2, Pt. B, §192 (COR).]

5. Financial support. If, prior to the termination of parental rights, the parent was convicted of a crime against the child, the court may include in the termination order the requirement that the parent whose rights are terminated make a lump sum payment to assist in the future financial support of the child.

(5) Reinstatement of parental rights is in the best interest of the child. [PL 2011, c. 402, §16 (NEW).]

D. 2. Program established. The ombudsman program is established as an independent program within the Executive Department to provide ombudsman services to the children and families of the State regarding child welfare services provided by the Department of Health and Human Services. The program shall consider and promote the best interests of the child involved, answer inquiries and investigate, advise and work toward resolution of complaints of infringement of the rights of the child and family involved. The program must be staffed, under contract, by a full-time director who is an attorney or a master's level social worker with experience in child welfare, development and advocacy. [PL 2021, c. 550, §3 (AMD).]

3. Contracted services; terms. The program shall operate by contract with a nonprofit organization that the Executive Department determines to be free of potential conflict of interest and best able to provide the services on a statewide basis. The ombudsman may not be actively involved in state-level political party activities or publicly endorse, solicit funds for or make contributions to political parties on the state level or candidates for statewide elective office. The ombudsman may not be a candidate for or hold any statewide elective or appointive public office. The contract must include funds for the nonprofit organization to provide health insurance benefits to the staff of the ombudsman program. Any work on systems improvements or lobbying must be adjunctive to case-specific activities. The program may:

The department or designee of the department shall notify the ombudsman of any statewide policy changes affecting the State's child welfare system before the changes take effect.
[PL 2021, c. 550, §5 (AMD).]

4-A. Information for parents in child protective cases. The program, in consultation with appropriate interested parties, shall provide information about child protection laws and procedures to parents whose children are the subject of child protective investigations and cases under this chapter. The providing of the information under this subsection does not constitute representation of parents. Parents may seek and receive information regardless of whether they are represented by legal counsel. The information must be provided free of charge to parents.

The program shall report annually to the joint standing committee of the Legislature having jurisdiction over judiciary matters, starting February 1, 2003, on the provision of information required by this subsection.

SUBCHAPTER 17

AT-RISK NONCITIZEN CHILDREN

§4099-I. At-risk noncitizen children

1. Definitions. As used in this subchapter, unless the context otherwise indicates, the following terms have the following meanings.

A. "At-risk" means there is reasonable cause to suspect that a child's health, safety and welfare is in jeopardy due to abuse, neglect, abandonment or similar circumstances and that return to the child's or the child's parent's country of origin or country of last habitual residence would not be in the best interest of the child. [PL 2019, c. 366, §5 (NEW).]

B. Notwithstanding section 4002, subsection 2, "child" means an unmarried person who has not attained 21 years of age. [PL 2019, c. 366, §5 (NEW).]

C. "Court" includes, but is not limited to, the Probate Court and District Court, or any other state court with juvenile jurisdiction. [PL 2019, c. 366, §5 (NEW).]

D. "Dependent on the court" means subject to the jurisdiction of a court competent to make decisions concerning the protection, well-being, care and custody of a child for findings, orders or referrals to support the health, safety and welfare of a child or to remedy the effects on a child of abuse, neglect, abandonment or similar circumstances. [PL 2019, c. 366, §5 (NEW).]

E. "Noncitizen" means any person who is not a United States citizen. [PL 2019, c. 366, §5 (NEW).]

F. "Similar circumstances" means conditions that have an effect on a child comparable to abuse, neglect or abandonment, including, but not limited to, the death of a parent. [PL 2019, c. 366, §5 (NEW).]

[PL 2019, c. 366, §5 (NEW).]

2. Petition for special findings and rulings for certain at-risk noncitizen children. An at-risk noncitizen child may petition the court for special findings. Upon reviewing the petition or complaint seeking special findings, any supporting affidavits and other evidence presented, the court shall issue findings of fact and rulings of law that must determine whether the child who is the subject of the proceeding:

A. Is dependent on the court; [PL 2019, c. 366, §5 (NEW).]

B. Has suffered from abuse, neglect, abandonment or similar circumstances; [PL 2019, c. 366, §5 (NEW).]

C. May not be viably reunified with one or both parents due to abuse, neglect, abandonment or similar circumstances; and [PL 2019, c. 366, §5 (NEW).]

D. May not be returned to the child's or the child's parent's country of origin or country of last habitual residence because it is not in the best interest of the child. [PL 2019, c. 366, §5 (NEW).]

A court making a decision under this subsection is acting as a juvenile court in that it has jurisdiction over a child.

The health and safety of the child must be of paramount concern. When considering the child's health and safety, the court shall consider whether present or past living conditions will adversely affect the child's physical, mental or emotional health.

[PL 2019, c. 366, §5 (NEW).]

3. Notice. If the identity or location of the child's parents is unknown or if the parents reside outside of the United States, the court may serve notice using any alternative method of service the court determines is appropriate or waive service when the child is described in 8 United States Code, Section 1101(a)(27)(J)(2019) and 8 United States Code, Section 1357(h)(2019).

[PL 2019, c. 366, §5 (NEW).]

4. Expeditious adjudication. A court shall hear, adjudicate and issue findings of fact and rulings of law on any petition or complaint for special findings under this section as soon as it is administratively feasible and prior to the child reaching 21 years of age to serve the best interest of the child.

[PL 2019, c. 366, §5 (NEW).]

5. Availability of special findings. Special findings are available under subsection 2 for the protection, well-being, care and custody of an at-risk noncitizen child for whom a remedy is not otherwise available or appropriate under Title 18-C, Title 19-A or this Title.

[PL 2019, c. 366, §5 (NEW).]

6. Referral for services or protection. A child who is the subject of a petition for special findings under subsection 2 may be referred for psychiatric, psychological, educational, occupational, medical, dental or social services or for protection against human trafficking or domestic violence. Participation in any referred services is voluntary.

[PL 2019, c. 366, §5 (NEW).]

7. Additional available remedies; similar findings of fact and rulings of law. Nothing in this section prevents a petitioner from filing a complaint under Title 18-C, Title 19-A or this Title or for any other remedy available under the laws of this State to protect the at-risk noncitizen child from further abuse or other harm, or to provide support. Nothing in this section prevents the court from issuing similar findings of fact and rulings of law to those in subsection 2 in any other proceeding concerning a noncitizen child.

[PL 2019, c. 366, §5 (NEW).]

8. Construction. This section must be liberally construed to promote the best interest of the child.

CHAPTER 1153

INTERSTATE COMPACT ON PLACEMENT OF CHILDREN

SUBCHAPTER 1**COMPACT****§4191. Purpose and policy -- Article I**

It is the purpose and policy of the party states to cooperate with each other in the interstate placement of children to the end that each child requiring placement shall receive the maximum opportunity to be placed in a suitable environment and with persons or institutions having appropriate qualifications and facilities to provide a necessary and desirable degree and type of care.

The appropriate authorities in a state where a child is to be placed may have full opportunity to ascertain the circumstances of the proposed placement, thereby promoting full compliance with applicable requirements for the protection of the child.

The proper authorities of the state from which the placement is made may obtain the most complete information on the basis of which to evaluate a projected placement before it is made.

Appropriate jurisdictional arrangements for the care of children will be promoted.

§4192. Definitions -- Article II

As used in this compact:

1. Child. "Child" means a person who, by reason of minority being under 18 years of age, is legally subject to parental, guardianship or similar control.

[PL 1971, c. 598, §39 (AMD).]

2. Placement. "Placement" means the arrangement for the care of a child in a family free or boarding home or in a child-caring agency or institution but does not include any institution caring for the mentally ill, mentally defective or epileptic or any institution primarily educational in character, and any hospital or other medical facility.

3. Receiving state. "Receiving state" means the state to which a child is sent, brought or caused to be sent or brought, whether by public authorities or private persons or agencies, and whether for placement with state or local public authorities or for placement with private agencies or persons.

4. Sending agency. "Sending agency" means a party state, officer or employee thereof; a subdivision of a party state, or officer or employee thereof; a court of a party state; a person, corporation, association, charitable agency or other entity which sends, brings or causes to be sent or brought any child to another party state.

SECTION HISTORY

PL 1969, c. 433, §49 (AMD). PL 1971, c. 598, §39 (AMD).

§4193. Conditions for placement -- Article III

No sending agency shall send, bring or cause to be sent or brought into any other party state any child for placement in foster care or as a preliminary to a possible adoption unless the sending agency shall comply with each and every requirement set forth in this article and with the applicable laws of the receiving state governing the placement of children therein.

Prior to sending, bringing or causing any child to be sent or brought into a receiving state for placement in foster care or as a preliminary to a possible adoption, the sending agency shall furnish the appropriate public authorities in the receiving state written notice of the intention to send, bring or place the child in the receiving state. The notice shall contain the name, date and place of birth of the child, the identity and address or addresses of the parents or legal guardian, the name and address of the person, agency or institution to or with which the sending agency proposes to send, bring or place the

child and a full statement of the reasons for such proposed action and evidence of the authority pursuant to which the placement is proposed to be made.

Any public officer or agency in a receiving state which is in receipt of a notice pursuant to this article may request of the sending agency, or any other appropriate officer or agency of or in the sending agency's state, and shall be entitled to receive therefrom, such supporting or additional information as it may deem necessary under the circumstances to carry out the purpose and policy of this compact.

The child shall not be sent, brought or caused to be sent or brought into the receiving state until the appropriate public authorities in the receiving state shall notify the sending agency, in writing, to the effect that the proposed placement does not appear to be contrary to the interests of the child.

§4194. Penalty for illegal placement -- Article IV

The sending, bringing or causing to be sent or brought into any receiving state of a child in violation of the terms of this compact shall constitute a violation of the laws respecting the placement of children of both the state in which the sending agency is located or from which it sends or brings the child and of the receiving state. Such violation may be punished or subject to penalty in either jurisdiction in accordance with its laws. In addition to liability for any such punishment or penalty, any such violation shall constitute full and sufficient grounds for the suspension or revocation of any license, permit or other legal authorization held by the sending agency which empowers or allows it to place or care for children.

§4195. Retention of jurisdiction -- Article V

The sending agency shall retain jurisdiction over the child sufficient to determine all matters in relation to the custody, supervision, care, treatment and disposition of the child which it would have had if the child had remained in the sending agency's state, until the child is adopted, reaches majority, becomes self-supporting or is discharged with the concurrence of the appropriate authority in the receiving state. Such jurisdiction shall include the power to effect or cause the return of the child or its transfer to another location and custody pursuant to law. The sending agency shall continue to have financial responsibility for support and maintenance of the child during the period of the placement. Nothing contained herein shall defeat a claim of jurisdiction by a receiving state sufficient to deal with an act of delinquency or crime committed therein.

When the sending agency is a public agency, it may enter into an agreement with an authorized public or private agency in the receiving state providing for the performance of one or more services in respect of such case by the latter as agent for the sending agency.

Nothing in this compact shall be construed to prevent a private charitable agency authorized to place children in the receiving state from performing services or acting as agent in that state for a private charitable agency of the sending state; nor to prevent the agency in the receiving state from discharging financial responsibility for the support and maintenance of a child who has been placed on behalf of the sending agency without relieving the responsibility set forth in the first paragraph.

§4196. Institutional care of delinquent children -- Article VI

A child adjudicated delinquent may be placed in an institution in another party jurisdiction pursuant to this compact but such a placement may not be made unless the child is given a court hearing on notice to the parent or guardian with opportunity to be heard prior to the child's being sent to the other party jurisdiction for institutional care and the court finds that: [RR 2021, c. 2, Pt. 1. Oversight. The interstate commission shall oversee the administration and operation of the compact.

A. The executive, legislative and judicial branches of state government in each member state shall enforce this compact and the rules of the interstate commission and shall take all actions necessary and appropriate to effectuate the compact's purposes and intent. The compact and its rules supersede state law, rules or regulations to the extent of any conflict. [PL 2007, c. 255, §6 (NEW).]

B. All courts shall take judicial notice of the compact and the rules in any judicial or administrative proceeding in a member state pertaining to the subject matter of this compact. [PL 2007, c. 255, §6 (NEW).]

C. The interstate commission is entitled to receive service of process in any action in which the validity of a compact provision or rule is the issue for which a judicial determination has been sought and has standing to intervene in any proceedings. Failure to provide service of process to the interstate commission renders any judgment, order or other determination, however so captioned or classified, void as to the interstate commission, this chapter and bylaws or rules of the interstate commission. [PL 2007, c. 255, §6 (NEW).]

[PL 2007, c. 255, §6 (NEW).]

2. Dispute resolution. The interstate commission has the authority to resolve disputes.

A. The interstate commission shall attempt, upon the request of a member state, to resolve disputes that are subject to the compact and that may arise among member states and between member and nonmember states. [PL 2007, c. 255, §6 (NEW).]

B. The interstate commission shall adopt a rule providing for both mediation and binding dispute resolution for disputes among compacting states. The costs of the mediation or dispute resolution are the responsibility of the parties to the dispute. [PL 2007, c. 255, §6 (NEW).]
[PL 2007, c. 255, §6 (NEW).]

3. Enforcement. If the interstate commission determines that a member state has defaulted in the performance of its obligations or responsibilities under this compact or the interstate commission's bylaws or rules, the interstate commission may:

A. Provide remedial training and specific technical assistance; [PL 2007, c. 255, §6 (NEW).]

B. Provide written notice to the defaulting state and other member states of the nature of the default and the means of curing the default. The interstate commission shall specify the conditions by which the defaulting state must cure its default; [PL 2007, c. 255, §6 (NEW).]

C. By majority vote of the members, initiate against a defaulting member state legal action in the United States District Court for the District of Columbia or, at the discretion of the interstate commission, in the federal district court where the interstate commission has its principal office, to enforce compliance with the provisions of the compact or the interstate commission's bylaws or rules. The relief sought may include both injunctive relief and damages. In the event judicial enforcement is necessary, the prevailing party must be awarded all costs of the litigation including reasonable attorney's fees; or [PL 2007, c. 255, §6 (NEW).]

D. Avail itself of any other remedies available under state law or the regulation of official or professional conduct. [PL 2007, c. 255, §6 (NEW).]

PART 5

MUNICIPAL SUPPORT OF THE POOR

CHAPTER 1161

MUNICIPAL GENERAL ASSISTANCE

§4301. Definitions

As used in this chapter, unless the context indicates otherwise, the following terms have the following meanings. [PL 1983, c. 577, §1 (NEW).]

1. Basic necessities. "Basic necessities" means food, potable water, clothing, shelter, fuel, electricity, nonelective medical services as recommended by a physician, nonprescription drugs, telephone where it is necessary for medical reasons and any other commodity or service determined essential by the overseer in accordance with the municipality's ordinance and this chapter. "Basic necessities" do not include security deposits for rental property, except for emergency purposes. For the purposes of this subsection, "emergency purposes" means any situation in which no other permanent lodging is available unless a security deposit is paid.

[PL 2019, c. 126, §2 (AMD).]

1-A. Direct costs. "Direct costs" means the total value of general assistance benefits paid out by a municipality that is in compliance with this chapter and the municipality's general assistance ordinance.

[PL 1991, c. 9, Pt. U, §2 (NEW).]

2. Dwelling unit. "Dwelling unit" means a building or part thereof used for separate living quarters for one or more persons living as a single housekeeping unit.

[PL 1983, c. 577, §1 (NEW).]

3. Eligible person. "Eligible person" means a person who is qualified to receive general assistance from a municipality according to standards of eligibility determined by the municipal officers whether or not that person has applied for general assistance. "Eligible person" does not include a person who is a fugitive from justice as defined in Title 15, section 201, subsection 4. Beginning July 1, 2015, in accordance with 8 United States Code, Section 1621(d), "eligible person" means a person who is lawfully present in the United States or who is pursuing a lawful process to apply for immigration relief, except that assistance for such a person may not exceed 24 months.

[PL 2015, c. 324, §1 (AMD).]

4. Emergency. "Emergency" means any life threatening situation or a situation beyond the control of the individual which, if not alleviated immediately, could reasonably be expected to pose a threat to the health or safety of a person.

[PL 1983, c. 577, §1 (NEW).]

5. General assistance program. "General assistance program" means a service administered by a municipality for the immediate aid of persons who are unable to provide the basic necessities essential to maintain themselves or their families. A general assistance program provides a specific amount and type of aid for defined needs during a limited period of time and is not intended to be a continuing "grant-in-aid" or "categorical" welfare program. This definition shall not in any way lessen the responsibility of each municipality to provide general assistance to a person each time that the person has need and is found to be otherwise eligible to receive general assistance.

[PL 1983, c. 577, §1 (NEW).]

5-A. Homelessness. "Homelessness" means a situation in which a person or household is:

A. Living in a place that is not fit for human habitation; [PL 2019, c. 515, §1 (NEW).]

B. Living in an emergency shelter; [PL 2019, c. 515, §1 (NEW).]

C. Living in temporary housing, including but not limited to a hotel, motel, campground, unlicensed campsite or rehabilitation facility; [PL 2019, c. 515, §1 (NEW).]

D. Exiting a hospital or institution licensed under chapter 405 or a correctional facility where the person or household resided for up to 90 days if the person or household was in an emergency

shelter or a place not fit for human habitation before entering the hospital, institution or correctional facility; [PL 2019, c. 515, §1 (NEW).]

E. Losing the person's or household's primary nighttime residence and lacking the resources or support networks to remain in that residence; or [PL 2019, c. 515, §1 (NEW).]

F. Fleeing or attempting to flee violence and has no other residence. [PL 2019, c. 515, §1 (NEW).]

[PL 2019, c. 515, §1 (NEW).]

6. Household. "Household" means an individual or a group of individuals who share a dwelling unit. When an applicant shares a dwelling unit with one or more individuals, even when a landlord-tenant relationship may exist between individuals residing in the dwelling unit, eligible applicants may receive assistance for no more than their pro rata share of the actual costs of the shared basic needs of that household according to the maximum levels of assistance established in the municipal ordinance. The pro rata share is calculated by dividing the maximum level of assistance available to the entire household by the total number of household members. The income of household members not legally liable for supporting the household is considered available to the applicant only when there is a pooling of income.

[PL 2013, c. 368, Pt. OO, §5 (AMD).]

7. Income. "Income" means any form of income in cash or in kind received by the household, including net remuneration for services performed, cash received on either secured or unsecured credit, any payments received as an annuity, retirement or disability benefits, veterans' pensions, workers' compensation, unemployment benefits, benefits under any state or federal categorical assistance program, supplemental security income, social security and any other payments from governmental sources, unless specifically prohibited by any law or regulation, court ordered support payments, income from pension or trust funds, household income from any other source, including relatives or unrelated household members and any benefit received pursuant to Title 36, chapter 907, Title 36, section 5219-II and Title 36, section 5219-KK, unless used for basic necessities as defined in section 4301, subsection 1.

The following items are not available within the meaning of this subsection and subsection 10:

A. Real or personal income-producing property, tools of trade, governmental entitlement specifically treated as exempt assets by state or federal law; [PL 1991, c. 9, Pt. U, §3 (AMD).]

B. Actual work-related expenses, whether itemized or by standard deduction, such as taxes, retirement fund contributions, union dues, transportation costs to and from work, special equipment costs and child care expenses; or [PL 1983, c. 577, §1 (NEW).]

C. Earned income of children below the age of 18 years who are full-time students and who are not working full time. [PL 1991, c. 9, Pt. U, §3 (AMD).]

In determining need, the period of time used as a basis for the calculation is the 30-day period commencing on the date of the application. This prospective calculation does not disqualify an applicant who has exhausted income to purchase basic necessities if that income does not exceed the income standards established by the municipality. Notwithstanding this prospective calculation, if any applicant or recipient receives a lump sum payment prior or subsequent to applying for assistance, that payment must be prorated over future months. The period of proration is determined by disregarding any portion of the lump sum payment that the applicant or recipient has spent to purchase basic necessities, including but not limited to: all basic necessities provided by general assistance; reasonable payment of funeral or burial expenses for a family member; reasonable travel costs related to the illness or death of a family member; repair or replacement of essentials lost due to fire, flood or other natural disaster; repair or purchase of a motor vehicle essential for employment, education, training or other day-to-day living necessities; repayments of loans or credit, the proceeds of which can be verified as

having been spent on basic necessities; and payment of bills earmarked for the purpose for which the lump sum is paid. All income received by the household between the receipt of the lump sum payment and the application for assistance is added to the remainder of the lump sum. The period of proration is then determined by dividing the remainder of the lump sum payment by the verified actual monthly amounts for all of the household's basic necessities. That dividend represents the period of proration determined by the administrator to commence on the date of receipt of the lump sum payment. The prorated sum for each month must be considered available to the household for 12 months from the date of application or during the period of proration, whichever is less.
[PL 2013, c. 551, §1 (AMD).]

8. Just cause. "Just cause" means a valid, verifiable reason that hinders an individual in complying with one or more conditions of eligibility.
[PL 1983, c. 577, §1 (NEW).]

8-A. Lump sum payment. "Lump sum payment" means a one-time or typically nonrecurring sum of money issued to an applicant or recipient. Lump sum payment includes, but is not limited to, retroactive or settlement portions of social security benefits, workers' compensation payments, unemployment benefits, disability income, veterans' benefits, severance pay benefits, or money received from inheritances, lottery winnings, personal injury awards, property damage claims or divorce settlements. A lump sum payment includes only the amount of money available to the applicant after payment of required deductions has been made from the gross lump sum payment. A lump sum payment does not include conversion of a nonliquid resource to a liquid resource if the liquid resource has been used or is intended to be used to replace the converted resource or for other necessary expenses.
[PL 2001, c. 571, §2 (AMD).]

8-B. Landlord. "Landlord" means a person who owns a property and allows another person to use that property in return for payment.
[PL 2023, c. 133, §1 (NEW).]

9. Municipality of responsibility. "Municipality of responsibility" means the municipality which is liable for the support of any eligible person at the time of application.
[PL 1983, c. 577, §1 (NEW).]

10. Need. "Need" means the condition whereby a person's income, money, property, credit, assets or other resources available to provide basic necessities for the individual and the individual's family are less than the maximum levels of assistance established by the municipality.
[PL 1985, c. 489, §§2, 14 (AMD).]

11. Net general assistance costs. "Net general assistance costs" means those direct costs incurred by a municipality in providing assistance to eligible persons according to standards established by the municipal officers and does not include the administrative expenses of the general assistance program.
[PL 1983, c. 577, §1 (NEW).]

11-A. Operator. "Operator" means the lawful owner of a recovery residence or an individual or company designated by the lawful owner to have primary responsibility for the day-to-day operations of the recovery residence and for acquiring and maintaining certification pursuant to Title 5, section 20005, subsection 22 of the recovery residence in order to receive housing assistance payments through the general assistance program.
[PL 2023, c. 133, §2 (NEW).]

12. Overseer. "Overseer" means an official designated by a municipality to administer a general assistance program. The municipal officers shall serve as a board of overseers if no other persons are appointed or elected.
[PL 1983, c. 577, §1 (NEW).]

12-A. Pooling of income. "Pooling of income" means the financial relationship among household members who are not legally liable for mutual support in which there occurs any comingling of funds or sharing of income or expenses. Municipalities may by ordinance establish as a rebuttable presumption that persons sharing the same dwelling unit are pooling their income. Applicants who are requesting that the determination of eligibility be calculated as though one or more household members are not pooling their income have the burden of rebutting the presumption of pooling income. [PL 1991, c. 622, Pt. M, §22 (NEW).]

13. Real estate. "Real estate" means any land, buildings, homes, mobile homes and any other things affixed to that land. [PL 1983, c. 577, §1 (NEW).]

14. Recovery residence. "Recovery residence" has the same meaning as in Title 5, section 20003, subsection 19-D. [PL 2021, c. 472, §2 (NEW).]

[PL 1991, c. 209, §2 (AMD).]

3. Standards of eligibility. Municipalities may establish standards of eligibility, in addition to need, as provided in this chapter. Each ordinance shall establish standards which shall:

A. Govern the determination of eligibility of persons applying for relief and the amount of assistance to be provided to eligible persons; [PL 1983, c. 577, §1 (NEW).]

3-A. Maximum levels of assistance. Municipalities may establish maximum levels of assistance by ordinance. The maximum levels of assistance must set reasonable and adequate standards sufficient to maintain health and decency. A maximum level of assistance established by municipal ordinance is subject to a review by the department, upon complaint, to ensure compliance with this chapter.

[PL 1993, c. 410, Pt. AAA, §2 (AMD).]

3-B. Temporary maximum levels. Notwithstanding subsection 3-A, municipalities shall establish an aggregate maximum level of assistance that is 110% of the applicable existing housing fair market rents as established by the United States Department of Housing and Urban Development pursuant to 24 Code of Federal Regulations, Section 888.115, applying the zero-bedroom level for one person, the one-bedroom level for 2 persons, the 2-bedroom level for 3 persons, the 3-bedroom level for 4 persons and the 4-bedroom level for 5 persons. For each additional person, the aggregate maximum level increases by \$75. For the purposes of this subsection, municipalities with populations greater than 10,000 are deemed Standard Metropolitan Statistical Areas in those counties for which there are 2 fair market rent values and the aggregate maximum level of assistance for all Standard Metropolitan Statistical Areas is the average of the fair market rental values for the Standard Metropolitan Statistical Areas and areas that are not Standard Metropolitan Statistical Areas for each county in which there are 2 fair market rental values.

Beginning October 2005 and annually thereafter, the aggregate maximum level of assistance must be established at the greater of 110% of the fair market rents as determined in this subsection and the amount achieved by annually increasing the most recent aggregate maximum level of assistance by the percentage increase in the federal poverty level of the current year over the federal poverty level of the prior year.

For the purposes of this subsection, "federal poverty level" means that measure defined by the federal Department of Health and Human Services and updated annually in the Federal Register under authority of 42 United States Code, Section 9902(2).

[PL 2005, c. 231, §1 (AMD).]

3-C. Maximum level of assistance from July 1, 2012 to June 30, 2013. Notwithstanding subsection 3-A or 3-B, for the period from July 1, 2012 to June 30, 2013, the maximum level of assistance is 90% of the maximum level of assistance in effect on April 1, 2012.

[PL 2011, c. 655, Pt. R, §1 (NEW).]

3-D. Maximum level of assistance for fiscal years 2013-14 and 2014-15. Notwithstanding subsection 3-A or 3-B, the aggregate maximum level of assistance for fiscal years 2013-14 and 2014-15 must be set as follows:

A. The aggregate maximum level of assistance for fiscal year 2013-14 must be the amount that is the greater of:

- (1) Ninety percent of 110% of the United States Department of Housing and Urban Development fair market rent for federal fiscal year 2013; and

(2) The amount achieved by increasing the maximum level of assistance for fiscal year 2012-13 by 90% of the increase in the federal poverty level from 2012 to 2013. [PL 2013, c. 368, Pt. OO, §7 (NEW).]

B. The aggregate maximum level of assistance for fiscal year 2014-15 must be the amount that is the greater of:

(1) Ninety percent of 110% of the United States Department of Housing and Urban Development fair market rent for federal fiscal year 2014; and

(2) The amount achieved by increasing the maximum level of assistance for fiscal year 2013-14 by 90% of the increase in the federal poverty level from 2013 to 2014. [PL 2013, c. 368, Pt. OO, §7 (NEW).]

For the purposes of this subsection, "federal poverty level" means that measure defined by the federal Department of Health and Human Services and updated annually in the Federal Register under authority of 42 United States Code, Section 9902(2). For the purposes of this subsection, fair market rent is calculated in the same manner as in subsection 3-B.

[PL 2013, c. 368, Pt. OO, §7 (NEW).]

4. Ordinance filed. Each municipality shall present a copy of the ordinance establishing eligibility standards, maximum levels of assistance, administration and appeal procedures to the Department of Health and Human Services. The ordinance filed must include all forms and notices, including the application form, notice of decision and appeal rights. Any amendment or modification of the municipal ordinance must be submitted to the department.

[PL 1991, c. 209, §3 (NEW); PL 1991, c. 209, §4 (AFF).]

7. Appropriate services. A municipality, in administering a general assistance program, shall provide trauma-informed services and culturally and linguistically appropriate services to all applicants. For purposes of this subsection, "trauma-informed services" means services that acknowledge and are informed by the widespread effects of trauma and recognize the potential paths for recovery; recognize the unique signs and symptoms of trauma in applicants, clients, families and staff; respond by fully integrating knowledge about trauma into policies, procedures and practices; and seek to actively avoid retraumatization. For purposes of this subsection, "culturally and linguistically appropriate services" means services that are designed to serve culturally diverse populations in a person's preferred language; function effectively within the context of cultural beliefs, behaviors and needs presented by a person who applies to or is a recipient of assistance from a general assistance program and the person's community; contribute to a work environment that supports diversity; promote community engagement; build trust and relationships with applicants and recipients; actively support and enable recipients to make informed choices; and value and facilitate the exchange of information with recipients.

The overseer shall keep complete and accurate records pertaining to general assistance, including the names of eligible persons assisted and the amounts paid for their assistance. §4307. Municipality of responsibility; residency

1. General assistance required. Municipalities shall provide general assistance to all eligible persons at the expense of that municipality, except as provided in section 4311.

A municipality may not move or transport a person into another municipality to avoid responsibility for general assistance support for that person. A municipality that illegally moves or transports a person, or illegally denies assistance to a person that results in that person's relocation, in addition to the other penalties provided in this chapter, shall reimburse twice the amount of assistance to the municipality that provided the assistance to that person. That reimbursement must be made in accordance with subsection 5.

A. [PL 1987, c. 349, Pt. H, §15 (RP).]

B. [PL 1987, c. 349, Pt. H, §15 (RP).]
[RR 2021, c. 2, Pt. B, §198 (COR).]

2. Municipality of responsibility. Except as provided in subsection 4, a municipality is responsible for the general assistance support of the following individuals:

A. A resident of the municipality. For the purposes of this section, a "resident" means a person who is physically present in a municipality with the intention of remaining in that municipality to maintain or establish a home and who has no other residence; and [PL 1987, c. 349, Pt. H, §15 (NEW).]

B. Eligible persons who apply to the municipality for assistance and who are not residents of that or any other municipality. If a person is not a resident of any municipality, the municipality where that person first applies shall be responsible for support until a new residence is established. [PL 1987, c. 349, Pt. H, §15 (NEW).]
[PL 1987, c. 349, Pt. H, §15 (RPR).]

3. Durational residency requirement prohibited. No municipality may establish a durational residency requirement for general assistance.
[PL 1987, c. 349, Pt. H, §15 (RPR).]

4. Special circumstances. Overseers of a municipality may not move or transport an applicant or recipient into another municipality to relieve their municipality of responsibility for that applicant's or recipient's support. The municipality of responsibility for relocations and institutional settings is as follows.

A. When an applicant or recipient requests relocation to another municipality and the overseers of a municipality assist that person to relocate to another municipality, the municipality from which that person is moving continues to be responsible for the support of the recipient, including processing applications and determining eligibility for assistance, unless otherwise agreed upon by

the affected municipalities, for 6 months after relocation. As used in this paragraph, "assist" includes:

- (1) Granting financial assistance to relocate; and
- (2) Making arrangements for a person to relocate. [PL 2023, c. 575, §4 (AMD).]

B. If an applicant is in a group home, shelter, rehabilitation center, nursing home, hospital or other institution at the time of application and has either been in that institution for 12 months or less or had a residence immediately prior to entering the institution that the applicant had maintained and to which the applicant intends to return, the municipality of responsibility is the municipality where the applicant was a resident immediately prior to entering the institution and that municipality continues to be responsible for the support of the recipient, including processing applications and determining eligibility for assistance, unless otherwise agreed upon by the affected municipalities. For the purpose of this paragraph, a hotel, motel or similar place of temporary lodging is considered an institution when a municipality:

- (1) Grants financial assistance for a person to move to or stay in temporary lodging;
- (2) Makes arrangements for a person to stay in temporary lodging;
- (3) Advises or encourages a person to stay in temporary lodging; or
- (4) Illegally denies housing assistance and, as a result of that denial, the person stays in temporary lodging. [PL 2023, c. 575, §4 (AMD).]

C. [PL 2017, c. 130, §1 (RP).]
[PL 2023, c. 575, §4 (AMD).]

5. Disputes between municipalities. Nothing in this section may permit a municipality to deny assistance to an otherwise eligible applicant when there is any dispute regarding residency. In cases of dispute regarding which municipality is the municipality of responsibility, the municipality where the application has been filed shall provide support until responsibility has been determined by the department. The department shall make a written determination within 30 working days of a complaint or notification of a dispute. The department's decision must include the sources of information relied upon, findings of fact and conclusions of law regarding which municipality is responsible and the reimbursement due, if any, from the responsible municipality to the municipality providing assistance. If after 30 days the reimbursement has not been paid, the municipality to which reimbursement is due shall notify the department, the department shall credit the municipality owed the reimbursement and either deduct that amount from the debtor municipality or refer the bill to the Treasurer of State for payment from any taxes, revenue, fines or fees due from the State to the municipality. [RR 2009, c. 2, §59 (COR).]

6. Appeals. Any municipality or person who is aggrieved by any decision or action made by the department pursuant to this section shall have the right to appeal pursuant to the Maine Administrative Procedure Act, Title 5, chapter 375. A request for that appeal shall be in writing and shall be made within 30 days of the written department decision. The appeal shall be held within 30 days of receipt of that request and shall be conducted by one or more fair hearing officers. In no event may an appeal be held before a person or body responsible for the decision or action. Review of any decision under this subsection shall be pursuant to the Maine Rules of Civil Procedure, Rule 80C. [PL 1987, c. 349, Pt. H, §15 (NEW).]

§4308. Applications

In order to receive assistance from any municipality, the applicant or a duly authorized representative must file a written application with the overseer, except as provided in section 4304, subsection 3. [PL 1993, c. 410, Pt. AAA, §6 (AMD).]

1. Initial and subsequent applications. Except as provided in section 4316-A, subsection 1-A, a person who makes an application for assistance, who has not applied for assistance in that or any other municipality must have that person's eligibility determined solely on the basis of need. All applications for general assistance that are not initial applications are repeat applications. The eligibility of repeat applicants must be determined on the basis of need and all other conditions of eligibility established by this chapter and municipal ordinance.

[PL 1993, c. 410, Pt. AAA, §6 (AMD).]

1-A. Limit on housing assistance. Except as provided in subsections 1-B and 2, housing assistance provided pursuant to this chapter is limited to a maximum of 9 months during the period from July 1, 2012 to June 30, 2013.

[PL 2011, c. 655, Pt. R, §2 (NEW).]

1-B. Extension of housing assistance due to hardship. An applicant is eligible for housing assistance under this chapter beyond the limit established in subsection 1-A if the applicant has a severe and persistent mental or physical condition warranting such an extension or has an application for assistance pending with the federal Social Security Administration.

[PL 2011, c. 655, Pt. R, §2 (NEW).]

2. Emergencies. A person, including a person experiencing or facing homelessness, who does not have sufficient resources to provide one or more basic necessities in an emergency is eligible for emergency general assistance, even when that applicant has been found ineligible for nonemergency general assistance, except as provided in this subsection.

A. A person who is currently disqualified from general assistance for a violation of section 4315, 4316-A or 4317 is ineligible for emergency assistance under this subsection. [PL 1985, c. 489, §§5, 14 (NEW).]

B. Municipalities may by standards adopted in municipal ordinances restrict the disbursement of emergency assistance to alleviate emergency situations to the extent that those situations could not have been averted by the applicant's use of income and resources for basic necessities. The person requesting assistance shall provide evidence of income and resources for the applicable time period. [PL 1991, c. 528, Pt. OOO, §1 (AMD); PL 1991, c. 528, Pt. RRR (AFF); PL 1991, c. 591, Pt. OOO, §1 (AMD).]

A municipality may provide emergency assistance when the municipality determines that an emergency is imminent and that failure to provide assistance may result in undue hardship and unnecessary costs.

A municipality may not exceed maximum levels of assistance established pursuant to section 4305 for an applicant household for more than 30 days in a 12-month period when assistance is granted for housing in a hotel, motel, inn or other lodging place as defined in section 2491, subsection 7-F.

[PL 2023, c. 643, Pt. II, §1 (AMD).]

3. Initial applicant. Notwithstanding section 4301, subsection 7, the household of an initial applicant that is otherwise eligible for emergency assistance may not be denied emergency assistance to meet an immediate need solely on the basis of the proration of a lump sum payment. Upon subsequent applications, that household's eligibility is subject to all the standards established by this chapter.

§4309. Eligibility

1. Eligibility of applicant; duration of eligibility. The overseer shall determine eligibility each time a person applies or reapplies for general assistance pursuant to this chapter and the ordinance adopted by the municipality in accordance with section 4305. The period of eligibility must not exceed one month. At the expiration of that period the person may reapply for assistance and the person's eligibility may be redetermined.

[PL 1989, c. 840, §4 (AMD).]

1-A. Determination of eligibility; applicant's responsibilities. Applicants for general assistance are responsible for providing to the overseer all information necessary to determine eligibility. If further information or documentation is necessary to demonstrate eligibility, the applicant must have the first opportunity to provide the specific information or documentation required by the overseer. When information required by the overseer is unavailable, the overseer must accept alternative available information, which is subject to verification.

[PL 1989, c. 840, §5 (NEW).]

1-B. Determination of eligibility; overseer's responsibilities. In order to determine an applicant's eligibility for general assistance, the overseer first must seek information and documentation from the applicant. Once the applicant has presented the necessary information, the overseer is responsible for determining eligibility. The overseer may seek verification necessary to determine eligibility. In order to determine eligibility, the overseer may contact sources other than the applicant for verification only with the specific knowledge and consent of the applicant, except that the overseer may examine public records without the applicant's knowledge and consent. Assistance may be denied or terminated if the applicant is unwilling to supply the overseer with necessary information, documentation, or permission to make collateral contacts, or if the overseer can not determine that eligibility exists based on information supplied by the applicant or others.

[PL 1989, c. 840, §5 (NEW).]

2. Redetermination of eligibility. The overseer may redetermine a person's eligibility at any time during the period that person is receiving assistance if the overseer is notified of any change in the recipient's circumstances that may affect the amount of assistance to which the recipient is entitled or that may make the recipient ineligible, provided that once a determination of eligibility has been made for a specific time period, a reduction in assistance for that time period may not be made without prior written notice to the recipient with the reasons for the action and an opportunity for the recipient to receive a fair hearing upon the proposed change.

[PL 1989, c. 840, §6 (AMD).]

3. Eligibility of members of person's household. Failure of an otherwise eligible person to comply with this chapter shall not affect the general assistance eligibility of any member of the person's household who is not capable of working, including at least:

A. A dependent minor child; [PL 1983, c. 577, §1 (NEW).]

B. An elderly, ill or disabled person; and [PL 1983, c. 577, §1 (NEW).]

C. A person whose presence is required in order to provide care for any child under the age of 6 years or for any ill or disabled member of the household. [PL 1983, c. 577, §1 (NEW).]

[PL 1983, c. 577, §1 (NEW).]

4. Eligibility of minors who are parents. An otherwise eligible person under the age of 18 who has never married and who has a dependent child or is pregnant is eligible only if that person and child reside in a dwelling maintained by a parent or other adult relative as that parent's or relative's own home or in a foster home or other adult-supervised supportive living arrangement unless:

- A. The person has no living parent or the whereabouts of both parents are unknown; [PL 1991, c. 528, Pt. RRR (AFF); PL 1991, c. 528, Pt. SS, §3 (NEW); PL 1991, c. 591, Pt. SS, §3 (NEW).]
- B. No parent will permit the person to live in the parent's home; [PL 1991, c. 528, Pt. RRR (AFF); PL 1991, c. 528, Pt. SS, §3 (NEW); PL 1991, c. 591, Pt. SS, §3 (NEW).]
- C. The department determines that the physical or emotional health or safety of the person or dependent child would be jeopardized if that person and dependent child lived with a parent; [PL 1991, c. 528, Pt. RRR (AFF); PL 1991, c. 528, Pt. SS, §3 (NEW); PL 1991, c. 591, Pt. SS, §3 (NEW).]
- D. The individual has lived apart from both parents for a period of at least one year before the birth of any dependent child; or [PL 1991, c. 528, Pt. RRR (AFF); PL 1991, c. 528, Pt. SS, §3 (NEW); PL 1991, c. 591, Pt. SS, §3 (NEW).]
- E. The department determines, in accordance with rules adopted pursuant to this section, which must be in accordance with federal regulations, that there is good cause to waive this requirement. [PL 1991, c. 528, Pt. RRR (AFF); PL 1991, c. 528, Pt. SS, §3 (NEW); PL 1991, c. 591, Pt. SS, §3 (NEW).]

For the purposes of this subsection, "parent" includes legal guardian.
[PL 2023, c. 405, Pt. A, §67 (AMD).]

5. Presumptive eligibility. The overseer in a municipality shall presume eligibility to receive general assistance of a person who is provided shelter in an emergency shelter for the homeless located in that municipality. After 30 days, that person's eligibility must be redetermined. When presumptive eligibility is determined under this subsection, no other municipality may be determined to be the municipality of responsibility during that 30-day period.
[PL 2019, c. 515, §3 (NEW).]

6. Eligibility; recovery residence; exception. The overseer in a municipality may not deny general assistance to a person for the sole reason that the person is residing in a recovery residence. Beginning July 1, 2022, a municipality may not provide housing assistance to a person residing in a recovery residence that has not been certified in accordance with Title 5, section 20005, subsection 22, except that the person may receive housing assistance while residing in an uncertified recovery residence for one 30-day period only and the overseer shall inform the person of the requirements of this subsection. A person who is ineligible for housing assistance under this subsection may remain eligible to receive general assistance for other basic necessities. Upon request by a person residing in a certified recovery residence who has been determined eligible for housing assistance, a municipality shall issue a housing assistance payment to the operator of the certified recovery residence instead of to a landlord.

[PL 2015, c. 494, Pt. A, §24 (AMD).]

1. Probability of eligibility for assistance after full verification. As a result of the initial interview with the applicant, the overseer shall have determined that the applicant will probably be eligible for assistance after full verification is completed. [PL 1983, c. 577, §1 (NEW).]

2. Documentation. Where possible, the applicant shall submit to the overseer at the time of the initial interview, adequate documentation to verify that there is a need for immediate assistance. [PL 1983, c. 577, §1 (NEW).]

1. Departmental reimbursement. When a municipality incurs net general assistance costs in any fiscal year prior to July 1, 2015 in excess of .0003 of that municipality's most recent state valuation relative to the state fiscal year for which reimbursement is being issued, as determined by the State Tax Assessor in the statement filed as provided in Title 36, section 381, the Department of Health and Human Services shall reimburse the municipality for 90% of the amount in excess of these expenditures when the department finds that the municipality has been in compliance with all requirements of this chapter. If a municipality elects to determine need without consideration of funds distributed from any municipally-controlled trust fund that must otherwise be considered for purposes of this chapter, the department shall reimburse the municipality for 66 2/3% of the amount in excess of such expenditures when the department finds that the municipality has otherwise been in compliance with all requirements of this chapter.

The department shall reimburse each municipality and each Indian tribe 70% of the direct costs incurred by that municipality or tribe on or after July 1, 2015 for the general assistance program granted by that municipality or tribe. For the purposes of this subsection, "Indian tribe" has the same meaning as in section 411, subsection 8-A.

[PL 2015, c. 267, Pt. SSSS, §1 (AMD).]

1-A. Municipalities reimbursed. When a municipality pays for expenses approved pursuant to section 4313 for hospital inpatient or outpatient care at any hospital on behalf of any person who is otherwise eligible and who would have been entitled to receive payments for hospital care if that care had been rendered prior to May 1, 1984, for services under the Catastrophic Illness Program, section 3185, the department shall reimburse the municipality for 100% of those payments.

[PL 1995, c. 696, Pt. A, §39 (AMD).]

1-B. Reimbursement for administrative expenses. The department shall reimburse each municipality for the costs of a portion of the direct costs of paying benefits incurred prior to July 1, 2015 through its general assistance program if the department finds that the municipality was in compliance with all requirements of this chapter during the fiscal year for which reimbursement is sought. The amount of reimbursement to each municipality must be an amount equal to:

A. Fifty percent of all general assistance granted by that municipality below the .0003% of all state valuation amount; or [PL 1991, c. 9, Pt. U, §8 (AMD).]

B. Ten percent of all general assistance granted. [PL 1991, c. 9, Pt. U, §8 (AMD).]

Each municipality shall elect to be reimbursed under paragraph A or B at the beginning of the fiscal year for which reimbursement is sought.

Notwithstanding any other provision of law, this subsection takes effect on July 1, 1989.

[PL 2015, c. 267, Pt. SSSS, §1 (AMD).]

1-C. Indian tribe reimbursement. The department shall reimburse each Indian tribe for the costs of a portion of the direct costs of paying benefits through its general assistance program if the department finds that the Indian tribe was in compliance with all requirements of this chapter during the fiscal year for which those benefits are sought.

The amount of reimbursement must be calculated for each fiscal year by adding 10% of all general assistance granted up to the threshold amount to 100% of all general assistance granted above the threshold amount.

For the purposes of this subsection, "Indian tribe" has the same meaning as in section 411, subsection 8-A. For purposes of this subsection, "threshold amount" means 0.0003 of the Indian tribe's most recent state valuation, as determined by the State Tax Assessor in the statement filed as provided in Title 36, section 381, relative to the year for which reimbursement is being issued.

[PL 2013, c. 368, Pt. OO, §10 (NEW).]

2. Submission of reports. Each municipality shall report on a schedule determined by the department through rulemaking the direct cost of paying benefits through the general assistance program on forms for reimbursement provided by the department.

A. [PL 2015, c. 267, Pt. SSSS, §1 (RP).]

B. [PL 2015, c. 267, Pt. SSSS, §1 (RP).]

Rules adopted pursuant to this subsection are routine technical rules as defined in Title 5, chapter 375, subchapter 2-A.

[PL 2015, c. 267, Pt. SSSS, §1 (AMD).]

3. Claims. The Department of Health and Human Services may refuse to accept and pay any claim for reimbursement that is not submitted by a municipality to the department within 90 days of the payment on which that claim is based or at the end of the reporting period for which reimbursement is sought unless just cause exists for failure to file a timely claim.

The parent, grandparent, children or grandchildren, by consanguinity, or the spouse or domestic partner are responsible for the burial or cremation costs of the eligible person in proportion to their respective abilities. When no legally liable relative possesses a financial capacity to pay either in lump sum or on an installment basis for the direct costs of a burial or cremation, the contribution of a municipality under this subsection is limited to a reasonable calculation of the funeral director's direct costs, less any and all contributions from any other source.

In no case may a municipality or the State be authorized to recover through a civil action, the full or part of, the amount expended for the support of a previously eligible person, if, as a result of the repayment of that amount, this person would, in all probability, again become eligible for general assistance. [PL 1985, c. 489, §§8, 14 (RPR).]

[PL 1991, c. 9, Pt. U, §15 (AMD).]

Nothing in this section may be construed as limiting or affecting in any way the right of any individual to file an action under the Maine Tort Claims Act, Title 14, chapter 741, except that a municipality that provides general assistance to a minor is absolutely immune from suit on any tort claims seeking recovery or damages by or on behalf of the minor recipient in connection with the provision of general assistance. §4319. Liability of relatives for support

1. Relatives liable. A parent of a child under 25 years of age and a spouse living in or owning property in the State shall support their children or husband or wife in proportion to their respective ability. Liability for burial expenses is governed by section 4313. [PL 1993, c. 410, Pt. AAA, §12 (AMD).]

2. Rental payments to relatives. A municipality or the State may decide not to make payments for rental assistance on behalf of an otherwise eligible individual when the rental payments would be made to a parent, grandparent, child, grandchild, sibling, parent's sibling or any of their children, unless the municipality finds that the rental arrangement has existed for 3 months prior to the application for assistance and is necessary to provide the relative with basic necessities. [PL 1993, c. 410, Pt. AAA, §12 (AMD).]

3. Recovery of assistance provided. A municipality or the State, after providing general assistance to a dependent of a legally responsible parent or to a person's spouse who is financially capable of providing support, may then seek reimbursement or relief for that support by initiating a complaint to the Superior Court or District Court, including by small claims action, located in the division or county where the legally responsible parent or spouse resides. The court may cause the legally responsible parent or spouse to be summoned and upon hearing or default may assess and apportion a reasonable sum upon those who are found to be of sufficient ability for the support of the eligible person and shall issue a writ of execution. The assessment may not be made to pay any expense for relief provided more than 12 months before the complaint was filed. Any action brought under this section is governed by the Maine Rules of Civil Procedure. The court may, from time to time, make any further order on complaint of an interested party and, after notice is given, alter the assessment or apportionment. [PL 1993, c. 410, Pt. AAA, §12 (AMD).]

§4320. Liens on real estate

A municipality or the State may claim a lien against the owner of real estate for the amount of money spent by it to provide mortgage payments on behalf of an eligible person under this chapter on any real estate that is the subject of a mortgage, whether land or buildings or a combination thereof. In addition, a municipality may claim a lien against the owner of real estate for the amount of money spent by it to make capital improvements to the real estate, whether land or buildings or a combination of land and buildings, on behalf of an eligible person under this chapter. [PL 1991, c. 528, Pt. OOO, §5 (AMD); PL 1991, c. 528, Pt. RRR (AFF); PL 1991, c. 591, Pt. OOO, §5 (AMD).]

The municipal officers, their designee or the State shall file a notice of the lien with the register of deeds of the county wherein the property is located within 30 days of making a mortgage payment or, if applicable, payment for capital improvements. That filing secures the municipality or State's lien interest for an amount equal to the sum of that mortgage or capital improvement payment and all subsequent mortgage or capital improvement payments made on behalf of the same eligible person. Not less than 10 days prior to the filing, the municipal officers, their designee or the State shall send notification of the proposed action by certified mail, return receipt requested, to the owner of the real estate and any record holder of the mortgage. The lien notification must clearly inform the recipient of the limitations upon enforcement contained in this section; it shall also contain the title, address and telephone number of the municipal official who granted the assistance. A new written notice including these provisions must be given to the recipient each time the amount secured by the lien is increased. The lien is effective until enforced by an action for equitable relief or until discharged. [PL 1991, c. 528, Pt. OOO, §6 (AMD); PL 1991, c. 528, Pt. RRR (AFF); PL 1991, c. 591, Pt. OOO, §6 (AMD).]

Interest on the amount of money secured by the lien may be charged by the State or a municipality, but in no event may the rate exceed the maximum rate of interest allowed by the Treasurer of State, pursuant to Title 36, section 186. For the State, the rate of interest shall be established by the department. For a municipality, the rate of interest shall be established by the municipal officers. Interest shall accrue from and including the date the lien is filed. [PL 1983, c. 697, §3 (RPR).]

The costs of securing and enforcing the lien may be recoverable upon enforcement. [PL 1983, c. 697, §3 (RPR).]

No lien may be enforced under this section while the person named in the lien is either currently receiving any form of public assistance or, as a result of enforcement, would become eligible for general assistance. [PL 1983, c. 697, §3 (RPR).]

In no event may the lien be enforced prior to the death of the recipient of general assistance or the transfer of the property. [PL 1983, c. 697, §3 (NEW).]

§4321. Grant, denial, reduction or termination to be communicated in writing; right to a hearing

Any action relative to the grant, denial, reduction, suspension or termination of relief provided under this chapter must be communicated to the applicant in writing. The decision must include the specific reason or reasons for that action and must inform the person affected of the person's right to a hearing, the procedure for requesting the hearing, the right to notify the department and the available means for notifying the department, if the person believes that the municipality has acted in violation of this chapter. Proceedings relating to the grant, denial, reduction, suspension or termination of relief provided under this chapter are not public proceedings under Title 1, chapter 13, unless otherwise requested by the applicant or recipient. SECTION HISTORY

PL 1983, c. 577, §1 (NEW). RR 2021, c. 2, Pt. B, §201 (COR).

§4322. Right to a fair hearing

A person aggrieved by a decision, act, failure to act or delay in action concerning that person's application for general assistance under this chapter has the right to an appeal. If a person's application has been approved, general assistance may not be revoked during the period of entitlement until that person has been provided notice and an opportunity for hearing as provided in this section. Within 5 working days of receiving a written decision or notice of denial, reduction or termination of assistance, in accordance with the provisions of section 4321, or within 10 working days after any other act or failure to act by the municipality with regard to an application for assistance, the person may request an appeal. A hearing must be held by the fair hearing authority within 5 working days following the receipt of a written request by the applicant for an appeal. The hearing may be conducted by the municipal officers, a board of appeals created under Title 30-A, section 2691, or one or more persons appointed by the municipal officers to act as a fair hearing authority. An appeal may not be held before a person or body responsible for the decision, act, failure to act or delay in action relating to the applicant. [PL 1993, c. 410, Pt. AAA, §13 (AMD).]

The person requesting the appeal and the municipal administrator responsible for the decision being appealed must be afforded the right to confront and cross-examine any witnesses presented at the hearing, present witnesses in their behalf and be represented by counsel or other spokesperson. A claimant must be advised of these rights in writing. The decision of such an appeal must be based solely on evidence adduced at the hearing. The Maine Rules of Evidence do not apply to information

presented to the fair hearing authority. The standard of evidence is the standard set in Title 5, section 9057, subsection 2. The person requesting the appeal must, within 5 working days after the appeal, be furnished with a written decision detailing the reasons for that decision. When any decision by a fair hearing authority or court authorizing assistance is made, that assistance must be provided within 24 hours. Review of any action or failure to act under this chapter must be conducted pursuant to the Maine Rules of Civil Procedure, Rule 80-B. The municipality shall make a record of the fair hearing. The municipality's obligation is limited to keeping a taped record of the proceedings. The applicant shall pay costs for preparing any transcripts required to pursue an appeal of a fair hearing authority's decision. [RR 2009, c. 2, §60 (COR).]

§4323. Department of Health and Human Services; responsibilities

The Department of Health and Human Services shall, in accordance with this section, share responsibility with municipalities for the proper administration of general assistance. [PL 1993, c. 410, Pt. AAA, §13 (AMD); PL 2003, c. 689, Pt. B, §6 (REV).]

1. Review. The department shall review the administration of general assistance in each municipality for compliance with this chapter. This review shall be made on a regular basis and may be made in response to a complaint from any person as necessary.

The department shall inspect the municipality's records and discuss the administration of the program with the overseer. The overseer or the overseer's designee shall be available during the department's review and shall cooperate in providing all necessary information.

The department shall report the results of its review in writing to the municipality and, when applicable, to the complainant. The written notice shall set forth the department's findings of whether the municipality is in compliance with this chapter.

The department is responsible for ensuring that each municipality complies with its duty to provide trauma-informed services and culturally and linguistically appropriate services as defined in section 4305, subsection 7. The department shall provide mandatory training to municipalities to ensure that a municipality is able to comply with the requirements of this chapter. [PL 2023, c. 575, §5 (AMD).]

2. Violation; penalty. If the department finds any violation of this chapter after review, it shall notify the municipality that it has 30 days in which to correct that violation and specify what action shall be taken in order to achieve compliance. The municipality shall file a plan with the department setting forth how it will attain compliance. The department shall notify the municipality if the plan is acceptable and that it will review the municipality for compliance within 60 days of accepting the plan. Any municipality which fails to file an acceptable plan with the department or which is in violation of this chapter at the expiration of the 60-day period shall be subject to a civil penalty of not less than \$500. The Department of Health and Human Services shall enforce this section in any court of competent jurisdiction. Every 30-day period that a municipality is in violation of this chapter after review and notification shall constitute a separate offense. In addition to the civil penalty, the department shall withhold reimbursement to any municipality which is in violation of this chapter until it reaches compliance.

[PL 1983, c. 577, §1 (NEW); PL 2003, c. 689, Pt. B, §6 (REV).]

3. Departmental assistance. Whenever the department finds that a person in immediate need of general assistance has not received that assistance as a result of a municipality's failure to comply with the requirements of this chapter, the department shall, within 24 hours of receiving a request to

intervene and after notifying the municipality, grant this assistance in accordance with regulations adopted by it. The expense of that assistance granted, including a reasonable proportion of the State's administrative cost that can be attributed to that assistance, shall be billed by the department to the municipality. Should that bill remain unpaid 30 days after presentation to the municipality, the department shall refer the bill to the Treasurer of State for payment from any taxes, revenue, fines or fees due from the State to the municipality.

A municipality may not be held responsible for reimbursing the department for assistance granted under this subsection if the department failed to intervene within 24 hours of receiving the request to intervene or if the department failed to make a good faith effort, prior to the intervention, to notify the municipality of the department's intention to intervene.

[PL 1989, c. 840, §7 (AMD).]

4. Appeal. Any municipality or person who is aggrieved by any decision or action made by the department pursuant to this section shall have the right to appeal pursuant to the Maine Administrative Procedure Act, Title 5, chapter 375, subchapter IV. A request for that appeal shall be in writing and shall be made within 30 days of receiving notification. The appeal shall be held within 30 days of receipt of that request and shall be conducted by one or more fair hearing officers. In no event may an appeal be held before a person or body responsible for the decision or action. Review of any decision under this section shall be pursuant to the Maine Rules of Civil Procedure, Rule 80 C.

[PL 1985, c. 489, §§11, 14 (AMD).]

5. Emergency contact information. The department shall collect from each municipality emergency contact information for use by municipal residents in applying for assistance under this section. The department shall forward the municipal emergency contact information periodically to the statewide 2-1-1 telephone number designated pursuant to Title 35-A, section 7108.

[PL 2007, c. 600, §1 (NEW).]

6. Database. Beginning on July 1, 2025, the department shall provide overseers access to an Internet-based, real-time database containing the information necessary to properly determine an applicant's eligibility.

The department shall use municipal reports, data from the statewide online database required under section 4323, subsection 6 and other metrics to generate a general assistance report to be submitted to the joint standing committee of the Legislature having jurisdiction over general assistance matters no later than January 30, 2026 and no later than January 30th of each odd-numbered calendar year thereafter. The initial report must include recommendations regarding a potential extension of the general assistance eligibility period beyond the 30-day limit established in section 4310, subsection 4. All reports must include metrics for: the number of individuals and families who received funds; the basic necessities for which those funds were provided; the length of time those funds were received; which municipalities accessed technical assistance and the number of times that technical assistance was requested, including instances outside of normal business hours; the type of technical assistance municipalities required; the number of calls to the department's general assistance hotline; and the number and content of complaints received and additional metrics as determined necessary by the department. The report must also include data illustrating municipal poverty levels, or regional or county poverty data when municipal-level poverty data is unavailable, and data regarding the use of other public benefit programs such as the Supplemental Nutrition Assistance Program and the Temporary Assistance for Needy Families program in each municipality. §5102. Declaration of a people

This declaration of a people shall serve as a credo of the elderly offering a philosophy that serves as a general state of policy and basic tenets to guide the administration and implementation of this Act. The declaration of a people: [PL 1973, c. 630, §1 (NEW).]

We older Americans place great emphasis on leading a life of value to our nation, states, communities, friends, families and to ourselves. America's elderly want to and are able to contribute to the good of our fellow human beings, even if such contribution lies outside the traditional realms of employment and productivity. We want to help improve the quality of life of each citizen of the United States regardless of the citizen's age. Our personal experiences, knowledge and skills are our qualifications. We are a strong, vital segment of society. We possess the power of a people. [RR 2021, c. 2, Pt. B, §203 (COR).]

We older Americans believe that attaining the status of senior citizen is merely beginning another stage in the life of each person and is not a signal to withdraw from life. Each person ages from birth to death. We are all aging. [RR 2021, c. 2, Pt. B, §204 (COR).]

While our particular page in the history of humankind is the choice of our Creator, it is our place in history which surrounds us with the consequences of American society. Aging people have been transformed by the events of American society. America's elderly now gain sustenance and meet social needs outside our homes, and have no family under our roof. Once we were dependent on our family, now we are dependent on impersonal organizations, systems and our society as a whole. America's exiling of us as the unwanted generation is its loss -- its economic, its human, its moral, its spiritual loss. [RR 2021, c. 2, Pt. B, §205 (COR).]

We do not want to be taken from the mainstream of life, away from the everyday activities of society, and put on the shelf. We do not want a dole, but rather help in our times of crisis. We wish to live with minimum dependence on other people and government. [PL 1973, c. 630, §1 (NEW).]

To achieve this credo, we older Americans believe the United States must provide us a full and equal opportunity for meeting sustenance and social needs -- the same opportunity that is enjoyed by our fellow citizens. To continue fulfilling our role in history, to continue helping our fellow human beings and to enrich our society; the elderly must be provided an opportunity to attain the basic essentials of life. [PL 1973, c. 630, §1 (NEW).]

To achieve this credo, we believe older Americans must plan, establish, direct and operate our own programs and services. We also believe we must participate in the administration and operation of programs conducted by others for our benefit. Through our programs, we intend to bring benefits not just to ourselves, but to all generations in fulfillment of our personal responsibility to help improve the quality of life of all human beings. [PL 1973, c. 630, §1 (NEW).]

To assist us, our families -- children, siblings, children of siblings -- must care about us. Is it too much to seek, that the people to whom we devoted ourselves, devote themselves to us? [RR 2021, c. 2, Pt. B, §206 (COR).]

To assist us, the government of the United States of America and each State of the Union must conduct programs which are mutually acceptable to us. The programs must be fostered by units on aging located at the highest echelons of government and charged with ultimate line authority and responsibility for any government program serving the elderly. [PL 1973, c. 630, §1 (NEW).]

Government should not do all for the elderly, but rather challenge and help citizens to grasp their personal responsibilities. Government should not be the sole keeper of America's elderly, but rather a help in times of crisis. Programs must help us care for ourselves. They must encourage all people, especially our families to care about us. Programs must provide a strong advocacy of America's elderly, unencumbered by the restrictions of partisan politics and the pressures of special interests, except those interests inherent to this credo of the elderly. [PL 1973, c. 630, §1 (NEW).]

Programs we operate must be distinct and clearly identified as intended to benefit older people, or be identified as the elderly's way of helping humankind. Government programs benefiting America's elderly must be distinct and visibly separate from other government services. This distinctness must be maintained in legislation, sources of funds and generally in operation of programs and services. We believe our policy provides that programs serving older people may be integrated with programs serving broader populations in those instances where gross duplication of identical programs would otherwise result. We also believe that programs with features specifically needed by older people must not be integrated with programs serving broader populations -- even though the programs may be similar -- except where it is conclusively demonstrated that such specific features will be retained or that greater benefits will accrue to the elderly from the integration of programs. [RR 2021, c. 2, Pt. B, §207 (COR).]

First, older people must receive income adequate to obtain the basic essentials of life from the market place, like our fellow Americans; rather than be given income supplement programs, such as food stamps, Old Age Assistance, subsidized housing and property tax relief. Secondly, the elderly with a time of crisis because of age, physical condition or social status must be assisted by appropriations providing services directly to them, such as homemakers, meals on wheels, home health care and nursing homes. [PL 1973, c. 630, §1 (NEW).]

AMERICA MUST CONSIDER AND DECIDE HOW TO ACHIEVE PURPOSEFUL, PRIMARY GOALS TO GIVE PEOPLE WHO ARE AGING THE OPPORTUNITY OF RETURNING TO A FULLER EXISTENCE OR AMERICA SHALL CONTINUE TO RELEGATE PEOPLE WHO ARE AGING TO THE BACK DOOR STOOP OF HISTORY WHERE WE WILL SLIDE INVISIBLY AND UNNOTICED INTO EXTINCTION. THE LAST CHOICE IS NOT ACCEPTABLE. [RR 2021, c. 2, Pt. B, §208 (COR).]

Responsibility for achieving this credo rests on the shoulders of all Americans, but especially our own. We shall attain a life of greater value if each American accepts personal responsibility for our

fellow human beings. We shall reestablish our role in society by operating services to help all generations. We shall resurrect our independence by redirecting the country's resources. [RR 2021, c. 2, Pt. B, §209 (COR).]

We shall express the status of our survival to all Americans. We shall carry our call to all the sources of help, to all the seats of power. We shall wield our power as a people. Through our own groups, we shall shatter the bondage of our geriatric shackles. [PL 1973, c. 630, §1 (NEW).]

As older Americans, we grasp the gauntlet of this credo. We pledge ourselves to it. We shall achieve it. We accept the credo's challenge, not with the intent of personal gain, but rather remembering that, what we achieve today will benefit those who follow, for we will soon be gone. [PL 1973, c. 630, §1 (NEW).]

B. Give full and special consideration to older citizens with special needs in planning such programs and, pending the availability of such programs for all older citizens, give priority to the elderly with the greatest economic and social need; [PL 1973, c. 630, §1 (NEW).]

C. Provide programs which will assure the coordinated and effective delivery of a full range of essential services to our older citizens and, where applicable, also furnish meaningful employment opportunities for many individuals, including older persons, young persons and volunteers from the community; and [PL 1973, c. 630, §1 (NEW).]

D. Insure that the planning and operation of such programs will be undertaken as a partnership of older citizens, families, community leaders, private agencies and community, state and local governments, with appropriate assistance as available from the Federal Government. §5107-A. Long-term care ombudsman program

In accordance with the program established pursuant to section 5106, subsection 11-C, the ombudsman may enter onto the premises of any residential care facility, as defined in section 7852, subsection 14, licensed according to section 7801, any assisted living facility licensed pursuant to chapter 1663 or 1664 and any nursing facility licensed according to section 1817 to investigate complaints concerning those facilities or to perform any other functions authorized by this section or other applicable law or rules. The ombudsman shall investigate complaints received on behalf of individuals receiving long-term care services provided by home-based care programs, the Medicaid

waiver program, licensed home health agencies, assisted living services providers, certified homemaker agencies and licensed adult day care agencies. To carry out this function, any staff member or volunteer authorized by the ombudsman may enter onto the premises of any residential care facility, assisted living facility or nursing facility during the course of an investigation, speak privately with any individual in the facility who consents to the conversation and inspect and copy all records pertaining to a resident as long as the resident or the legal representative of the resident consents in writing to that inspection. The consent, when required and not obtainable in writing, may be conveyed orally or otherwise to the staff of the facility. When a resident is not competent to grant consent and has no legal representative, the ombudsman may inspect the resident's records and may make copies without the written consent of a duly appointed legal representative. The ombudsman may authorize as many individuals as necessary, in addition to staff, to carry out this function except that these individuals may not make copies of confidential client information. Appropriate identification must be issued to all such persons. In accordance with the federal 1987 Older Americans Act, 42 United States Code, as amended, a person may not serve as an ombudsman without training as to the rights and responsibilities of an ombudsman or without a specific plan of action under direction of the ombudsman. The ombudsman shall renew the authorization and issue identification annually. The findings of the ombudsman must be available to the public upon request. [PL 2001, c. 596, Pt. B, §9 (AMD); PL 2001, c. 596, Pt. B, §25 (AFF).]

The ombudsman and volunteers shall visit, talk with and make personal, social and legal services available to residents; inform residents of their rights, entitlements and obligations under federal and state laws by distributing education materials and meeting with groups or individuals; assist residents in asserting their legal rights regarding claims for public assistance, medical care and social security benefits or in actions against agencies responsible for those programs, as well as in all other matters in which residents are aggrieved, including, but not limited to, advising residents to litigate; investigate complaints received from residents or concerned parties regarding care or other matters concerning residents; and participate as observer and resource in any on-site survey or other regulatory review performed by state agencies pursuant to state or federal law. [PL 1993, c. 284, §1 (AMD).]

The ombudsman may provide advocacy during the hospital discharge process to assist patients with complex medical needs who experience significant barriers in accessing long-term services and supports. If the ombudsman provides advocacy, the ombudsman shall ensure that the patient has information regarding available options including, but not limited to: home and community-based services provided under MaineCare or funded by the State; admission to a residential care facility as defined in section 7852, subsection 14 and licensed according to section 7801; admission to a nursing facility licensed according to section 1817; and admission to an assisted living facility or program licensed pursuant to chapter 1663 or 1664. The ombudsman also may provide assistance to the patient after discharge from the hospital. [PL 2015, c. 506, §1 (NEW).]

Information or records maintained by the ombudsman concerning complaints may not be disclosed unless the ombudsman authorizes the disclosure. The ombudsman may not disclose the identity of any complainant or resident unless the complainant, the resident or a legal representative of either consents in writing to the disclosure or a court orders the disclosure. [PL 1991, c. 622, Pt. QQ, §2 (NEW).]

A complainant, a resident or a legal representative of either, in providing the consent, may specify to whom such identity may be disclosed and for what purposes, in which event no other disclosure is authorized. [PL 1991, c. 622, Pt. QQ, §2 (NEW).]

Any person, official or institution that in good faith participates in the registering of a complaint pursuant to this section or in good faith investigates that complaint or provides access to those persons carrying out the investigation about an act or practice in any residential care facility licensed according to section 7801, any assisted living facility or program or any nursing facility licensed according to section 1817 or that participates in a judicial proceeding resulting from that complaint is immune from any civil or criminal liability that otherwise might result from these actions. For the purpose of any civil

or criminal proceedings, there is a rebuttable presumption that any person acting pursuant to this section did so in good faith. [PL 1995, c. 670, Pt. B, §4 (AMD); PL 1995, c. 670, Pt. D, §5 (AFF).]

CHAPTER 1505

ADULT DAY CARE

§6201. Legislative intent

1. Findings. The Legislature finds that:

A. Many adults with long-term care needs who are at risk of institutionalization are in need of the range of health and related services that can be provided more efficiently in an adult day care program within a long-term health care facility or at another community site; [PL 1989, c. 347, §1 (AMD).]

B. Many spouses and families, who are caring for adults with long-term care needs who are at risk of placement in an institutional setting, are in need of assistance for extended hours on a regular or respite basis; [PL 1989, c. 347, §1 (AMD).]

C. For many adults with long-term care needs, it may be less costly for the State to provide adult day care to supplement the care provided by the family than to provide 24-hour long-term care in institutional settings; and [PL 1989, c. 347, §1 (AMD).]

D. [PL 1989, c. 347, §1 (RP).]

E. Long-term health related care facilities and other community-based programs located throughout the State could respond to the adult day care needs of individuals and their families. [PL 1989, c. 347, §1 (AMD).]

[PL 1989, c. 347, §1 (AMD).]

2. Policy. The Legislature declares that it is the policy of this State:

A. [PL 1989, c. 347, §1 (AMD).]

B. To enhance the systems of in-home services by utilizing the resources available through long-term care facilities and community-based programs; [PL 1989, c. 347, §1 (AMD).]

C. To assure that the recipients of adult day care services from long-term care facilities and other community-based programs, pursuant to this chapter, are the elderly and disabled adults who are at the greatest risk of being placed in a long-term care institutional setting; [PL 1989, c. 347, §1 (AMD).]

D. [PL 1989, c. 347, §1 (RP).]

E. To develop payment policies for long-term care facilities and community-based programs that will allow fair and equitable payments for services provided pursuant to this chapter; and [PL 1989, c. 347, §1 (AMD).]

F. To establish a permanent program of adult day care, to be provided through both long-term care facilities and in community-based programs. [PL 1989, c. 347, §1 (NEW).]

[PL 1989, c. 347, §1 (AMD).]

2. Default, technical assistance, suspension and termination. If the interstate commission determines that a member state has defaulted in the performance of its obligations or responsibilities under this compact or the bylaws or promulgated rules, the interstate commission shall provide written notice to the defaulting state and other member states of the nature of the default, the means of curing the default and any action taken by the interstate commission. The interstate commission shall specify the conditions by which the defaulting state must cure its default. The interstate commission shall provide remedial training and specific technical assistance regarding the default.

A. If the defaulting state fails to cure the default, the defaulting state must be terminated from the compact upon an affirmative vote of a majority of the member states and all rights, privileges and benefits conferred by this compact are terminated from the effective date of termination. A cure of the default does not relieve the defaulting state of obligations or liabilities incurred during the period of the default. [PL 2011, c. 217, §1 (NEW).]

B. Suspension or termination of membership in the compact may be imposed only after all other means of securing compliance have been exhausted. Notice of intent to suspend or terminate must be given by the interstate commission to the governor of the defaulting state, the majority and minority leaders of the defaulting state's legislature and each of the member states. [PL 2011, c. 217, §1 (NEW).]

C. A defaulting state that has been suspended or terminated is responsible for all dues, obligations and liabilities incurred through the effective date of suspension or termination, including obligations the performance of which extends beyond the effective date of suspension or termination. [PL 2011, c. 217, §1 (NEW).]

D. The interstate commission may not bear costs relating to any state that has been found to be in default or that has been suspended or terminated from the compact, unless otherwise mutually agreed upon in writing between the interstate commission and the defaulting state. [PL 2011, c. 217, §1 (NEW).]

E. The defaulting state may appeal the action of the interstate commission by petitioning the United States District Court for the District of Columbia or the federal district where the interstate commission has its principal offices. The prevailing party must be awarded all costs of such litigation including reasonable attorney's fees. [PL 2011, c. 217, §1 (NEW).]

[PL 2011, c. 217, §1 (NEW).]

3. Dispute resolution. The following provisions govern dispute resolution.

A. The interstate commission shall attempt, upon the request of a member state, to resolve disputes that are subject to the compact and that may arise among member states. [PL 2011, c. 217, §1 (NEW).]

B. The interstate commission shall promulgate rules providing for both mediation and binding dispute resolution as appropriate. [PL 2011, c. 217, §1 (NEW).]

[PL 2011, c. 217, §1 (NEW).]

4. Enforcement. The following provisions govern enforcement of the compact.

A. The interstate commission, in the reasonable exercise of its discretion, shall enforce the provisions and rules of this compact. [PL 2011, c. 217, §1 (NEW).]

B. The interstate commission may, by majority vote of the members, initiate legal action in the United States District Court for the District of Columbia or, at the discretion of the interstate commission, in the federal district where the interstate commission has its principal offices, to enforce compliance with the provisions of the compact and its promulgated rules and bylaws against a member state in default. The relief sought may include both injunctive relief and damages. In the event judicial enforcement is necessary the prevailing party must be awarded all costs of such litigation including reasonable attorney's fees. [PL 2011, c. 217, §1 (NEW).]

C. The remedies in this subsection are not the exclusive remedies of the interstate commission. The interstate commission may avail itself of any other remedies available under state law or the regulation of a profession. [PL 2011, c. 217, §1 (NEW).]

[PL 2011, c. 217, §1 (NEW).]

C. The withdrawing state shall immediately notify the chair of the interstate commission in writing upon the introduction of legislation repealing this compact in the withdrawing state. SUBTITLE 5**IN-HOME AND COMMUNITY SUPPORT SERVICES FOR ADULTS WITH LONG-TERM CARE NEEDS****CHAPTER 1621****GENERAL PROVISIONS****§7301. Legislative intent**

1. Findings. The Legislature finds that:

A. In-home and community support services have not been sufficiently available to many adults with long-term care needs; [PL 1981, c. 511, §1 (NEW).]

B. Many adults with long-term care needs are at risk of being or already have been placed in institutional settings, because in-home and community support services or funds to pay for these services have not been available to them; [PL 1981, c. 511, §1 (NEW).]

C. In some instances placement of adults with long-term care needs in institutional settings can result in emotional and social problems for these adults and their families; [PL 2009, c. 279, §2 (AMD).]

D. For many adults with long-term care needs, it is less costly for the State to provide in-home and community support services than it is to provide care in institutional settings; [PL 2009, c. 279, §2 (AMD).]

E. The majority of adults with long-term care needs have indicated a preference to remain in their own homes and in community settings rather than having their needs met in institutional settings; [PL 2009, c. 279, §2 (NEW).]

F. For many adults with long-term care needs and their families, the process to identify and secure appropriate services may be confusing and difficult to navigate; and [PL 2009, c. 279, §2 (NEW).]

G. A sustainable system of long-term care to meet the needs of citizens must emphasize in-home and community support services that capitalize upon personal and family responsibility. [PL 2009, c. 279, §2 (NEW).]

[PL 2009, c. 279, §2 (AMD).]

2. Policy. The Legislature declares that it is the policy of this State, with regard to in-home and community support services:

A. To increase the availability of long-term care services that are consumer-driven, optimize individual choice and autonomy and maximize physical health, mental health, functional well-being and independence for adults with long-term care needs through high-quality services and supports in settings that reflect the needs and choices of consumers and that are delivered in the most flexible, innovative and cost-effective manner; [PL 2009, c. 279, §2 (AMD); PL 2009, c. 420, §1 (AMD).]

B. That the priority recipients of in-home and community support services, pursuant to this subtitle, must be adults with long-term care needs who are at the greatest risk without needed in-home and community support services; [PL 2009, c. 279, §2 (AMD); PL 2009, c. 420, §1 (AMD).]

C. That a variety of agencies, facilities and individuals must be encouraged to provide in-home and community support services and to increase the percentages of adults with long-term care needs receiving in-home and community support services provided by persons who are employed as personal care assistants or direct support aides or by other providers. For the purposes of this paragraph, "direct support aide" means a personal care worker or direct support worker who provides a range of services, including personal daily living supports, health supports and community supports, to adults with long-term care needs; [PL 2009, c. 546, §1 (AMD).]

D. To promote and encourage public and private partnerships among a variety of agencies, facilities and individuals; [PL 2009, c. 279, §2 (NEW); PL 2009, c. 420, §1 (NEW).]

E. To support the roles of family caregivers and a qualified workforce in the effort to streamline and facilitate access to high-quality services in the least restrictive and most integrated settings; and [PL 2009, c. 279, §2 (NEW); PL 2009, c. 420, §1 (NEW).]

F. To establish the most efficient and cost-effective system for delivering a broad array of long-term care services. [PL 2009, c. 546, §2 (RPR).]

[PL 2009, c. 546, §§1, 2 (AMD).]

COORDINATED IN-HOME AND COMMUNITY SUPPORT SERVICES FOR THE ELDERLY AND ADULTS WITH DISABILITIES

§7311. Program established

By July 1, 2010, the department shall establish a coordinated program, referred to in this chapter as "the program," of in-home and community support services that are available under state-funded and MaineCare-funded programs for adults with long-term care needs who are eligible for services from qualified providers pursuant to this subtitle. The program must have a unified system for intake and

eligibility determination for all consumers, regardless of diagnosis, type of disability or demographic factors, including age, using the multidisciplinary teams pursuant to section 7323, consumer assessment and the development of plans of care that take into consideration the consumer's living arrangement, informal supports and services provided by other public or private funding sources to ensure nonduplication of services for consumers. CHAPTER 1622-A

CONSOLIDATION OF LONG-TERM CARE SERVICES

§7316. Consolidation of long-term care services

Beginning July 1, 2012, all long-term care services provided directly or indirectly under the MaineCare program or other state-funded programs by the department under this Title must be combined into one program, referred to in this chapter as "the program," with a single set of rules, coordinated criteria for assessment and qualifications and a single budget. [PL 2011, c. 422, §1 (NEW).]

SECTION HISTORY

PL 2011, c. 422, §1 (NEW).

§7317. In-home and community support services; nursing facility services

In-home and community support services and nursing facility services must be provided under the program, giving priority to expenditures that serve first those consumers with the greatest needs and the lowest service costs in accordance with the provisions of this section. [PL 2011, c. 422, §1 (NEW).]

1. Intake and eligibility assessment. The department shall develop for the program a single system for intake and eligibility determination for all consumers, regardless of diagnosis, type of disability or age or other demographic factors, using the multidisciplinary teams designated by the commissioner pursuant to section 7323. The intake process, application and forms must be standardized despite differences in the criteria for eligibility for services under different provisions of the MaineCare program state plan or federally approved waiver under Medicaid or under state-funded services.

[PL 2011, c. 422, §1 (NEW).]

2. Needs assessment. The department shall assess a consumer for benefits determination periodically, as appropriate to the consumer, based on assessments of functional, health care and financial needs performed by an agency that is available to the consumer for case management services but that does not directly or indirectly provide in-home and community support services or nursing

facility services. The assessment of the consumer's functional, health care and financial needs for in-home and community support services and nursing facility services must include a medical evaluation conducted by the consumer's primary care provider or health care specialist, as appropriate, and an evaluation by the department of the requirements for personal care assistant services and the hours of service necessary to maintain the consumer in a home-based or community-based setting.

[PL 2011, c. 422, §1 (NEW).]

3. Benefits determination; service delivery model selection. Once the needs assessment under subsection 2 has been completed for a consumer, the department shall determine the benefits that are available for the consumer and the consumer may choose which services to purchase. The consumer may select service delivery through the following models: the model in which the consumer directs the consumer's care and employs the persons who provide care, with or without a surrogate or unpaid representative to assist the consumer; the agency model in which an agency directs the consumer's care and employs the persons who provide care; and the residential care model or nursing facility care model. If a consumer does not indicate a preference of service delivery model, the department shall assign the consumer to a self-directed model of in-home and community support services unless self-direction is determined to be inappropriate for the consumer.

[PL 2011, c. 422, §1 (NEW).]

4. Plan of care. The department shall develop and authorize a plan of care for each consumer determined to be eligible under this chapter or Title 34-B, chapter 5, subchapter 3, article 2. §7862. Contracts for assisted living services

Except as provided by subsection 2-A, all contracts or agreements executed by providers of assisted living services under this chapter and a consumer or the legal representative of the consumer are subject to the requirements of this section. [PL 2023, c. 89, §4 (AMD).]

1. Required contract provisions. Each contract or agreement for assisted living services must contain the provisions designated as required in the standardized contract adopted by the department by rule pursuant to Public Law 1999, chapter 731, Part BBBB, section 5 and may contain additional provisions as allowed under subsection 2.
[PL 2003, c. 546, §1 (NEW).]

2. Other contract provisions. In addition to the provisions required under subsection 1, each contract or agreement for assisted living services may contain provisions that do not violate a state law or rule or federal law or regulation. A contract or agreement must be consistent with the rules adopted by the department applicable to the type of assisted living services provided.

[PL 2003, c. 546, §1 (NEW).]

2-A. Exception. This section does not apply to a contract for the provision of services in a setting for an adult with an acquired brain injury, an intellectual disability, autism spectrum disorder, as defined in Title 34-B, section 6002, subsection 1, or a related condition, as defined in Title 34-B, section 5001, subsection 5-A.

[RR 2023, c. 1, Pt. A, §18 (COR).]

3. Rulemaking. The commissioner shall adopt rules to implement this section. The rules must be developed in consultation with the long-term care ombudsman program established under section 5107-A, consumer representatives and providers of assisted living services. Rules adopted pursuant to this section are routine technical rules as defined by Title 5, chapter 375, subchapter 2-A.

§7863. Reimbursement for residential care facilities; room and board costs

1. New construction, acquisitions and renovations. Notwithstanding any other law to the contrary, the department shall permit a capital expenditure by a residential care facility for new construction, an acquisition or a renovation that is less than \$500,000 and shall provide reimbursement to the facility for the capital expenditure without prior approval. The department shall permit a residential care facility to seek and obtain approval for a capital expenditure that exceeds \$500,000. The department shall require that capital expenditures for energy efficiency improvements, for replacement equipment, for information systems, for communications systems and for parking lots and garages be permitted without prior approval and not be counted toward the determination of the \$500,000 threshold.

[PL 2017, c. 304, §1 (NEW).]

2. Extraordinary circumstance allowance. A residential care facility that experiences an unforeseen and uncontrollable event during a year that results in unforeseen or uncontrollable increases in expenses may request an adjustment to a prospective rate in the form of an extraordinary circumstance allowance. As used in this subsection, "extraordinary circumstance" includes, but is not limited to, an event of a catastrophic nature, an increase in minimum wage or social security expenses or employee retirement contribution expenses in lieu of social security expenses, a change in the number of licensed beds and a change in licensure or accreditation requirements. If the department concludes that an extraordinary circumstance existed, the department shall make an adjustment in the form of a supplemental allowance. The department shall determine from the nature of the extraordinary circumstance whether the extraordinary circumstance will have a continuing impact and whether the allowance should be included in the computation of the base rate for the succeeding year. Reimbursement to a residential care facility for additional costs arising from an extraordinary circumstance must be paid via a supplemental payment that is added to the per diem reimbursement rate until the department adjusts the direct care price, the routine limit and the personal care services limit, as applicable, to fairly and properly reimburse a facility for these costs.

[PL 2017, c. 304, §1 (NEW).]

3. Regulatory compliance costs. Costs incurred by a residential care facility to comply with changes in federal or state laws, regulations and rules or local ordinances and not otherwise specified in rules adopted by the department are considered reasonable and necessary costs. Reimbursement for these additional regulatory costs must be paid via a supplemental payment that is added to the per diem

rate until the department adjusts the direct care price, the routine limit and the personal care services limit, as applicable, to fairly and properly reimburse facilities for these costs.

[PL 2017, c. 304, §1 (NEW).]

4. Rulemaking. The department shall adopt rules to implement this section. Rules adopted pursuant to this subsection are routine technical rules as defined in Title 5, chapter 375, subchapter 2-A. [PL 2017, c. 304, §1 (NEW).]

SECTION HISTORY

PL 1981, c. 445 (NEW).

§7922. Definitions

§7923. Residents' council

1. Establishment; composition. Each long-term care facility shall inform residents of their right to establish a council. This information must be given to all residents and a family member or designated representative for those residents on admission and must be posted prominently in the facility.

The administrator shall assist residents in establishing a residents' council, if the residents choose to establish one. If there is no council, at least once each year residents must be given the choice to establish one. A majority vote prevails.

The council shall draw up bylaws. The council may meet as often as specified in the bylaws, but at least quarterly. No employee or representative of the facility may be a member of the council. Family members may sit on the council, but may not be members.

[PL 1991, c. 69, §5 (AMD).]

2. Responsibilities. The council has, but is not limited to, the following responsibilities:

A. To review and make recommendations to strengthen the facility's policies and procedures relating to residents' rights; [PL 1981, c. 445 (NEW).]

B. To establish procedures for informing all residents about their rights; [PL 1981, c. 445 (NEW).]

Records of council meetings and decisions shall be prepared and disseminated by the council, which may request the assistance of the designated staff member and shall be kept on file in the facility, available at all times to residents and family members or designated representatives.

[PL 1999, c. 384, §3 (AMD); PL 2003, c. 689, Pt. B, §6 (REV).]

3. Assistance. Except as provided in this subsection, the administrator shall designate a staff member, not related to the administrator, to assist the residents' council. In small long-term care facilities in which no staff members are unrelated to the administrator or owner of the facility, the administrator may designate a staff member who is related to the administrator.

[PL 2011, c. 657, Pt. EE, §1 (AMD).]

2. Professionals to report. Any professional who provides health care, social services or mental health services or who administers a long-term care facility or program and who knows of or has reasonable cause to suspect that there has been a violation of any of those rules adopted by the department governing the licensure of long-term care facilities pertaining to residents' rights or conduct of resident care shall immediately report or cause a report to be made to an agency or person referred to in subsection 1.

[PL 2005, c. 397, Pt. A, §25 (AMD).]

3. Written report of findings. Any agency or person investigating a situation pursuant to subsection 1 or 2 shall submit a written report of the findings and results of the investigation to the administrator of the long-term care facility in which the residents' rights allegedly have been violated and to the commissioner.

[PL 2005, c. 397, Pt. A, §26 (AMD).]

In order to meet this primary purpose, a facility must at least administer anesthetic agents, maintain a sterile environment in a surgical suite and share a facility fee separate from the professional license. "Ambulatory surgical facility" does not include:

A. A facility that is licensed as part of a hospital; [PL 1999, c. 384, §13 (NEW).]

§7933. Appointment of receiver

1. Grounds for appointment. The following circumstances are grounds for the appointment of a receiver to operate a long-term care facility, home health care provider, personal care agency, general and specialty hospitals, critical access hospitals, ambulatory surgical centers, hospice agencies and end-stage renal disease units:

- A. A long-term care facility, home health care provider, personal care agency, general hospital, specialty hospital, critical access hospital, ambulatory surgical center, hospice agency or end-stage renal disease unit intends to close but has not arranged at least 30 days prior to closure for the orderly transfer of its residents or clients; [PL 2023, c. 309, §38 (AMD).]
- B. An emergency exists in a long-term care facility, home health care provider, personal care agency, general hospital, specialty hospital, critical access hospital, ambulatory surgical center, hospice agency or end-stage renal disease unit that threatens the health, security or welfare of residents or clients; or [PL 2023, c. 309, §38 (AMD).]
- C. A long-term care facility, home health care provider, personal care agency, general hospital, specialty hospital, critical access hospital, ambulatory surgical center, hospice agency or end-stage renal disease unit is in substantial or habitual violation of the standards of health, safety or resident care established under state or federal regulations to the detriment of the welfare of the residents or clients. [PL 2023, c. 309, §38 (AMD).]

This remedy is in addition to, and not in lieu of, the power of the department to revoke, suspend or refuse to renew a license under the Maine Administrative Procedure Act. [PL 2023, c. 309, §38 (AMD).]

2. Who may bring action. The commissioner or acting commissioner may bring an action in Superior Court requesting the appointment of a receiver. [PL 2005, c. 397, Pt. A, §27 (AMD).]

3. Procedure for hearing. The procedure for a hearing shall be as follows.

- A. The court shall hold a hearing not later than 10 days after the action is filed, unless all parties agree to a later date. Notice of the hearing shall be served on both the owner and the licensee not less than 5 days before the hearing. If either the owner or the licensee cannot be served, the court shall specify the alternative notice to be provided. The department shall post notice, in a form approved by the court, in a conspicuous place in the facility, for not less than 3 days before the hearing. After the hearing, the court may appoint a receiver if it finds that any one of the grounds for appointment set forth is satisfied. [PL 1983, c. 454 (NEW).]
- B. A temporary receiver may be appointed with or without notice to the owner or licensee if it appears by verified complaint or affidavit that an emergency exists in the facility that must be remedied immediately to insure the health, safety and welfare of the residents. The temporary appointment of a receiver without notice to the owner or licensee may be made only if the court is satisfied that the petitioner has made a diligent attempt to provide reasonable notice under the circumstances. Upon appointment of a temporary receiver, the department shall proceed forthwith to make service as provided in paragraph A, and a hearing must be held within 10 days, unless all parties agree to a later date. If the department does not proceed with the petition, the court shall dissolve the temporary receivership. On 2 days' notice to the receiver, all parties and the department, or on such shorter notice as the court may prescribe, the owner or licensee may appear and move the dissolution or modification of an order appointing a receiver that has been entered without notice, and in that event the motion may be advanced on the docket and receive priority

over other cases when the court determines that the interests of justice so require. [PL 2011, c. 559, Pt. A, §25 (AMD).]

[PL 2011, c. 559, Pt. A, §25 (AMD).]

4. Who may be appointed receiver. The court may appoint any person deemed appropriate by the court to act as receiver, except any state employee. The court may remove a receiver for good cause. [PL 1983, c. 454 (NEW).]

5. Compensation of receiver. The court shall set a reasonable compensation for the receiver and may require the receiver to furnish a bond with such surety as the court may require. Any expenditures shall be paid from the revenues of the facility.

§7934. Powers and duties of the receiver

1. Powers and duties. A receiver appointed pursuant to this chapter has such powers as the court may direct to operate the long-term care facility, home health care provider, personal care agency, general hospital, specialty hospital, critical access hospital, ambulatory surgical center, hospice agency or end-stage renal disease unit and to remedy the conditions that constituted grounds for the receivership, to protect the health, safety and welfare of the residents or clients and to preserve the assets and property of the residents or clients, the owner and the licensee. On notice and hearing, the court may issue a writ of possession in behalf of the receiver, for specified facility property.

The receiver shall make reasonable efforts to notify residents or clients and family that the long-term care facility, home health care provider, personal care agency, general hospital, specialty hospital, critical access hospital, ambulatory surgical center, hospice agency or end-stage renal disease unit is placed in receivership. The owner and licensee are divested of possession and control of the long-term care facility, home health care provider, personal care agency, general hospital, specialty hospital, critical access hospital, ambulatory surgical center, hospice agency or end-stage renal disease unit during the period of receivership under such conditions as the court specifies. With the court's approval, the receiver has specific authority to:

A. Remedy violations of federal and state regulations governing the operation of the long-term care facility, home health care provider, personal care agency, general hospital, specialty hospital, critical access hospital, ambulatory surgical center, hospice agency or end-stage renal disease unit; [PL 2023, c. 309, §39 (AMD).]

B. Hire, direct, manage and discharge any employees, including the administrator of the long-term care facility, home health care provider, personal care agency, general hospital, specialty hospital, critical access hospital, ambulatory surgical center, hospice agency or end-stage renal disease unit; [PL 2023, c. 309, §39 (AMD).]

C. Receive and expend in a reasonable and prudent manner the revenues of the long-term care facility, home health care provider, personal care agency, general hospital, specialty hospital, critical access hospital, ambulatory surgical center, hospice agency or end-stage renal disease unit due during the 30-day period preceding the date of appointment and becoming due thereafter; [PL 2023, c. 309, §39 (AMD).]

D. Continue the business of the long-term care facility, home health care provider, personal care agency, general hospital, specialty hospital, critical access hospital, ambulatory surgical center,

hospice agency or end-stage renal disease unit and the care of residents or clients; [PL 2023, c. 309, §39 (AMD).]

E. Correct or eliminate any deficiency of the long-term care facility, home health care provider, personal care agency, general hospital, specialty hospital, critical access hospital, ambulatory surgical center, hospice agency or end-stage renal disease unit that endangers the safety or health of the residents or clients, if the total cost of the correction does not exceed \$3,000. The court may order expenditures for this purpose in excess of \$3,000 on application from the receiver; and [PL 2023, c. 309, §39 (AMD).]

F. Exercise such additional powers and perform such additional duties, including regular accountings, as the court considers appropriate. [PL 1995, c. 620, §7 (AMD).]
[PL 2023, c. 309, §39 (AMD).]

2. Revenues of the facility. Revenues of the facility must be handled as follows.

A. The receiver shall apply the revenues of the long-term care facility, home health care provider, personal care agency, general hospital, specialty hospital, critical access hospital, ambulatory surgical center, hospice agency or end-stage renal disease unit to current operating expenses and, subject to the following provisions, to debts incurred by the licensee prior to the appointment of the receiver. The receiver shall ask the court for direction in the treatment of debts incurred prior to appointment when the debts appear extraordinary, of questionable validity, or unrelated to the normal and expected maintenance and operation of the long-term care facility, home health care provider, personal care agency, general hospital, specialty hospital, critical access hospital, ambulatory surgical center, hospice agency or end-stage renal disease unit, or when payment of the debts will interfere with the purposes of the receivership. Priority must be given by the receiver to expenditures for current direct resident or client care. Revenues held by or owing to the receiver in connection with the operation of the long-term care facility, home health care provider, personal care agency, general hospital, specialty hospital, critical access hospital, ambulatory surgical center, hospice agency or end-stage renal disease unit are exempt from attachment and trustee process, including process served prior to the institution of receivership proceedings. [PL 2023, c. 309, §39 (AMD).]

B. The receiver may correct or eliminate any deficiency of the long-term care facility, home health care provider, personal care agency, general hospital, specialty hospital, critical access hospital, ambulatory surgical center, hospice agency or end-stage renal disease unit that endangers the safety or health of the resident or client, if the total cost of the correction does not exceed \$3,000. On application by the receiver, the court may order expenditures for this purpose in excess of \$3,000. The licensee or owner may apply to the court to determine the reasonableness of any expenditure over \$3,000 by the receiver. [PL 2023, c. 309, §39 (AMD).]

C. In the event that the receiver does not have sufficient funds to cover expenses needed to prevent or remove jeopardy to the residents or clients, the receiver may petition the court for permission to borrow for these purposes. Notice of the receiver's petition to the court for permission to borrow must be given to the owner, the licensee and the department. The court may, after hearing, authorize the receiver to borrow money upon specified terms of repayment and to pledge security, if necessary, if the court determines that the long-term care facility, home health care provider, personal care agency, general hospital, specialty hospital, critical access hospital, ambulatory surgical center, hospice agency or end-stage renal disease unit should not be closed and that the loan is reasonably necessary to prevent or remove jeopardy or if it determines that the long-term care facility, home health care provider, personal care agency, general hospital, specialty hospital, critical access hospital, ambulatory surgical center, hospice agency or end-stage renal disease unit should be closed and that the expenditure is necessary to prevent or remove jeopardy to residents or clients for the limited period of time that they are awaiting transfer. The purpose of this provision

is to protect residents or clients and to prevent the closure of long-term care facilities, home health care providers, personal care agencies, general hospitals, specialty hospitals, critical access hospitals, ambulatory surgical centers, hospice agencies or end-stage renal disease units that, under proper management, are likely to be viable operations. This section may not be construed as a method of financing major repair or capital improvements to facilities that have been allowed to deteriorate because the owner or licensee has been unable or unwilling to secure financing by conventional means. [PL 2023, c. 309, §39 (AMD).]

[PL 2023, c. 309, §39 (AMD).]

3. Avoidance of preexisting leases, mortgages and contracts. A receiver may not be required to honor a lease, mortgage, secured transaction or other contract entered into by the owner or licensee of the long-term care facility, home health care provider, personal care agency, general hospital, specialty hospital, critical access hospital, ambulatory surgical center, hospice agency or end-stage renal disease unit if the court finds that:

A. The person seeking payment under the agreement has an ownership interest in the long-term care facility, home health care provider, personal care agency, general hospital, specialty hospital, critical access hospital, ambulatory surgical center, hospice agency or end-stage renal disease unit or was related to the licensee, the long-term care facility, home health care provider, personal care agency, general hospital, specialty hospital, critical access hospital, ambulatory surgical center, hospice agency or end-stage renal disease unit by a significant degree of common ownership or control at the time the agreement was made; or [PL 2023, c. 309, §39 (AMD).]

B. The rental, price or rate of interest required to be paid under the agreement is in excess of a reasonable rental, price or rate of interest. [PL 1983, c. 454 (NEW).]

If the receiver is in possession of real estate or goods subject to a lease, mortgage or security interest that the receiver is permitted to avoid and if the real estate or goods are necessary for the continued operation of the long-term care facility, home health care provider, personal care agency, general hospital, specialty hospital, critical access hospital, ambulatory surgical center, hospice agency or end-stage renal disease unit, the receiver may apply to the court to set a reasonable rental, price or rate of interest to be paid by the receiver during the term of the receivership. The court shall hold a hearing on the application within 15 days, and the receiver shall send notice of the application to any known owners and mortgagees of the property at least 10 days before the hearing. Payment by the receiver of the amount determined by the court to be reasonable is a defense to an action against the receiver for payment or for the possession of the subject goods or real estate by a person who received such notice.

Notwithstanding this subsection, there may not be a foreclosure or eviction during the receivership by any person if the foreclosure or eviction would, in view of the court, serve to defeat the purpose of the receivership.

[PL 2023, c. 309, §39 (AMD).]

4. Closing of long-term care facility, home health care provider, personal care agency, general hospital, specialty hospital, critical access hospital, ambulatory surgical center, hospice agency or end-stage renal disease unit. The receiver may not close the long-term care facility, home health care provider, personal care agency, general hospital, specialty hospital, critical access hospital, ambulatory surgical center, hospice agency or end-stage renal disease unit without leave of the court. In ruling on the issue of closure, the court shall consider:

A. The rights and best interests of the residents or clients; [PL 1995, c. 620, §7 (AMD).]

B. The availability of suitable alternative placements; [PL 1983, c. 454 (NEW).]

C. The rights, interest and obligations of the owner and licensee; [PL 1983, c. 454 (NEW).]

D. The licensure status of the long-term care facility, home health care provider, personal care agency, general hospital, specialty hospital, critical access hospital, ambulatory surgical center, hospice agency or end-stage renal disease unit; and [PL 2023, c. 309, §39 (AMD).]

E. Any other factors that the court considers relevant. [PL 1995, c. 620, §7 (AMD).]

When a long-term care facility, home health care provider, personal care agency, general hospital, specialty hospital, critical access hospital, ambulatory surgical center, hospice agency or end-stage renal disease unit is closed, the receiver shall provide for the orderly transfer of residents or clients to mitigate transfer trauma.

The receivership terminates when the court certifies that the conditions that prompted the appointment have been corrected or, in the case of a discontinuance of operation, when the residents or clients are safely relocated. The court shall review the necessity of the receivership at least semiannually. [PL 1995, c. 620, §8 (AMD).]

CHAPTER 1666-B

INTERMEDIATE SANCTIONS AND INCENTIVES FOR IMPROVING THE QUALITY OF CARE IN LONG-TERM CARE FACILITIES

§7941. Policy

It is the purpose of this chapter to authorize the Department of Health and Human Services to impose intermediate sanctions in order to improve the quality of care in long-term care facilities and to establish programs to reward long-term care facilities that provide the highest quality care. These intermediate sanctions will also provide an alternative to taking action to close facilities, which may cause great distress to the residents of those facilities. [PL 1987, c. 774, §4 (NEW); PL 2003, c. 689, Pt. B, §6 (REV).]

B. The occurrence of a repeated deficiency that poses a substantial risk to residents' health or safety or infringes upon residents' rights. For purposes of this section, a repeated deficiency is one that is found to exist in a long-term care facility during a current survey or investigation that has also been cited in a statement of deficiencies of that facility within the past 2 years. A. The long-term care facility may be directed to stop all new admissions regardless of payment source or to admit only those residents the department approves until such time as it is determined that corrective action has been taken. [PL 1987, c. 774, §4 (NEW).]

B. The department may direct a long-term care facility to correct any deficiencies in a manner and within a time frame that the department determines are appropriate to ensure compliance with state licensing rules or to protect the residents of the long-term care facility. [PL 2007, c. 324, §11 (AMD).]

C. The department may impose a penalty upon a long-term care facility for a violation of this chapter. Each day of violation constitutes a separate offense. The minimum penalty for operating without a license is \$500 per day. A penalty or a combination of penalties imposed on a facility may not be greater than a sum equal to \$10 times the total number of residents residing in the facility per violation, up to a maximum of \$10,000 for each instance in which the department issues a statement of deficiency to a long-term care facility. [PL 2007, c. 324, §11 (AMD).]

D. The department may direct a long-term care facility to transfer residents in that facility to other locations in an emergency that threatens the health, safety or welfare of the residents of the facility and shall assist the facility in making arrangements for transfers. [PL 1989, c. 747, §1 (NEW).]

The department may adopt rules as necessary for the implementation of this subsection. Rules adopted pursuant to this subsection are routine technical rules as defined in Title 5, chapter 375, subchapter 2-A. [PL 2007, c. 324, §11 (AMD).]

2. Schedule of penalties. The department shall establish a schedule of penalties according to the nature of the violation. In establishing the schedule, the department shall consider, among other factors, the immediacy and probability of physical or mental harm to residents caused by a particular type of violation and whether the facility in question has repeated deficiencies or a substantial number of deficiencies.

[PL 1987, c. 774, §4 (NEW).]

3. Reimbursement. Nothing in this chapter may limit the authority of the department to adjust the reimbursement due facilities for residents as stated in the departmental regulations governing reimbursement.

§7945. Incentives for high quality care

By January 1, 1989, the department shall establish programs to reward long-term care facilities that provide the highest quality care to residents, including, but not limited to, programs of public recognition. [PL 1987, c. 774, §4 (NEW).]

SECTION HISTORY

PL 1987, c. 774, §4 (NEW).

§7946. Enforcement and appeal

1. Procedure. The department may impose any sanction in conformity with the Maine Administrative Procedure Act, Title 5, chapter 375, subchapter IV, providing the long-term care facility the opportunity for an administrative hearing, or file a complaint with the Superior Court requesting the imposition of any sanction authorized by this chapter.

[PL 1987, c. 774, §4 (NEW).]

2. Collection of penalties; interest. Long-term care facilities that are fined pursuant to this chapter are required to pay the department the amount of the penalties. Penalties may be collected by the department by the offset of any reimbursement due the facility, or by any other method authorized by law. An appeal of the department's decision to penalize a long-term care facility stays the collection of any penalties. All penalties are to be assessed for each day that the facility is or was out of compliance and are to be collected with interest accruing at the rate set by Title 14, section 1602-C. An appeal of the department's decision to penalize a long-term care facility does not stay the assessment of any penalties or interest as long as the long-term care facility continues to be in violation of any requirement of section 7943.

[PL 2003, c. 460, §12 (AMD).]

3. Reduction or delay of penalties. The department may reduce the amount or delay the payment of a penalty when a facility is able to show that payment of the total amount due would result in inadequate funds to provide necessary services to residents. In making this determination, the department may consider, among other factors, the amount of any savings as calculated pursuant to the principles of reimbursement, overall profits or cash reserves and any extraordinary expenses experienced by the facility, as well as the necessity of providing an incentive to correct violations of this chapter.

[PL 1987, c. 774, §4 (NEW).]

4. Income from penalties. Any income from penalties must be placed in a special revenue account and be used by the department for purposes related to improving the quality of care for residents of long-term care facilities.

5. No limitation on right of action.

§7948. Right of action

1. Generally. Any resident whose rights have been violated as described in this section may commence a civil action in the Superior Court on that resident's own behalf for injunctive and declaratory relief against any long-term care facility or provider of assisted living programs and services that is alleged to be in violation of any rule described in section 7853 or 7924 or in violation of the

rights enumerated in 42 United States Code, Section 1396r, Subsection (c). In order to grant a preliminary or permanent injunction under this section, the Superior Court must find that:

- A. The plaintiff will suffer irreparable injury if the injunction is not granted; [PL 1991, c. 637, §2 (NEW).]
- B. The irreparable injury outweighs any harm that granting the injunctive relief would inflict on the defendant; [PL 1991, c. 637, §2 (NEW).]
- C. The plaintiff has exhibited a likelihood of success on the merits of the case; and [PL 1991, c. 637, §2 (NEW).]
- D. The public interest will not be adversely affected by granting the injunction. [PL 1991, c. 637, §2 (NEW).]

[PL 2001, c. 596, Pt. B, §17 (AMD); PL 2001, c. 596, Pt. B, §25 (AFF).]

2. Right of action limited. An action may not be commenced under this section until 15 days after the resident has given notice of the violation and an intention to bring suit under this chapter to the commissioner, the Attorney General and each party alleged to be violating the law or rule. The court may waive the 15-day notice requirement and issue a temporary restraining order when the plaintiff shows that the alleged violation presents an immediate threat to the plaintiff's health or safety. [PL 1991, c. 637, §2 (NEW).]

3. Parties may intervene. In any action brought by the Attorney General or the commissioner under this chapter, any resident who has a right of action under this section may intervene if that resident has a direct interest that is or may be adversely affected by the action and the disposition of the action may impair or impede the resident's ability to protect that interest. The Attorney General and the commissioner may intervene in any action brought by a resident under this section. This subsection does not affect the ability of any party to take action under Title 5, section 9054. [PL 1991, c. 637, §2 (NEW).]

4. Service. A copy of the complaint and other pleadings must be delivered to the commissioner and the Attorney General at the time of service on the defendant. Copies of all answers and other documents accompanying the answers must be delivered to the commissioner and the Attorney General at the time of service on the plaintiff. [PL 1991, c. 637, §2 (NEW).]

5. Dismissal of action. The court may, on the motion of any party or on its own motion, dismiss any action brought under this section that alleges a de minimis violation of section 7924 or of 42 United States Code, Section 1396r, Subsection (c). [PL 1991, c. 637, §2 (NEW).]

§7949. No limitation on right of action

The remedies provided under section 7948 are in addition to those otherwise available under state or federal law and may not be construed as limiting any other remedies including any remedy available to an individual at common law. Exhaustion of any available administrative remedy is not required prior to commencement of an action under this section. [PL 1991, c. 637, §2 (NEW).]

CHAPTER 1669

CHILDREN'S HOMES

§8101. Definitions

As used in this subtitle, unless the context otherwise indicates, the following terms have the following meanings. [PL 1981, c. 260, §4 (RPR).]

1. Children's home. "Children's home" means any residence maintained exclusively or in part for the board and care of one or more children under the age of 18. "Children's home" does not include:

A. A facility established primarily to provide medical care; [PL 1981, c. 260, §4 (NEW).]

B. A youth camp licensed under section 2495; or [PL 2009, c. 211, Pt. B, §19 (AMD).]

C. A school established solely for educational purposes except as provided in subsection 4. [PL 1981, c. 260, §4 (NEW).]

[PL 2009, c. 557, §5 (AMD).]

2. Emergency children's shelter. "Emergency children's shelter" means a facility that operates to receive children 24 hours a day and that limits placement to 90 consecutive days or less. For purposes of this section, the definition of "children" includes a person under 21 years of age. "Emergency children's shelter" does not mean a family foster home or specialized children's home. If emergency

shelter is a service provided by a children's residential care facility, the service is restricted to a designated physical area of the facility.

[PL 2021, c. 98, §1 (AMD).]

3. Family foster home. "Family foster home" means a children's home, other than an Indian foster family home, that is a private dwelling where substitute parental care is provided within a family on a regular, 24-hour a day, residential basis. The total number of children in care may not exceed 6, including the family's legal children under 16 years of age, with no more than 2 of these children under the age of 2. "Family foster home" includes the home of a resource family whether the family provides foster care, kinship care, adoption or permanency guardianship services, as long as the home meets the requirements and standards for adoption of children in foster care. Family foster homes licensed by the Department of Health and Human Services or relatives' homes approved by the Department of Health and Human Services as meeting licensing standards are eligible for insurance pursuant to Title 5, section 1728-A. In any action for damages against a family foster home provider insured pursuant to Title 5, section 1728-A, for damages covered under that policy, the claim for and award of those damages, including costs and interest, may not exceed \$300,000 for any and all claims arising out of a single occurrence. When the amount awarded to or settled for multiple claimants exceeds the limit imposed by this section, any party may apply to the Superior Court for the county in which the governmental entity is located to allocate to each claimant that claimant's equitable share of the total, limited as required by this section. Any award by the court in excess of the maximum liability limit must be automatically abated by operation of this section to the maximum limit of liability. Nothing in this subsection may be deemed to make the operation of a family foster home a state activity nor may it expand in any way the liability of the State or foster parent.

[PL 2011, c. 187, §1 (AMD).]

3-A. Indian foster family home. "Indian foster family home" means a foster home licensed, approved or specified by the Indian child's tribe where substitute parental care is provided for an Indian child as defined in the federal Indian Child Welfare Act of 1978, 25 United States Code, Section 1901, et seq. or the Maine Indian Child Welfare Act, section 3943, subsection 8.

[PL 2023, c. 359, §9 (AMD).]

4. Children's residential care facility. "Children's residential care facility" means a children's facility that provides board and care for one or more children on a regular, 24-hour a day, residential basis. For purposes of this section, the definition of "children" includes a person under 21 years of age. A children's residential care facility does not mean a family foster home, a specialized children's home or an emergency children's shelter. The term includes, but is not limited to:

A. [PL 2007, c. 324, §13 (RP).]

B. An approved treatment facility under Title 5, section 20003, subsection 3; [PL 2007, c. 324, §13 (AMD).]

C. A drug treatment center under section 8001; [PL 2013, c. 179, §7 (AMD).]

D. [PL 2007, c. 324, §13 (RP).]

E. A residential facility under Title 34-B, section 1431; and [PL 2013, c. 179, §7 (AMD).]

F. A children's residential treatment facility with secure capacity. [PL 2013, c. 179, §7 (NEW).]

[PL 2013, c. 179, §7 (AMD).]

4-A. Shelter for homeless children. "Shelter for homeless children" means a facility designed to provide for the overnight lodging and supervision of children 10 years of age or older for no more than 90 consecutive overnights. For purposes of this section, the definition of "children" includes a person under 21 years of age.

[PL 2021, c. 98, §2 (AMD).]

4-B. Children's residential treatment facility with secure capacity. "Children's residential treatment facility with secure capacity" means a children's residential care facility that provides a mental health intensive treatment program to a child whose diagnostic assessment indicates that the persistent pattern of the child's mental health presents a likely threat of harm to self or others and requires treatment in a setting that prevents the child from leaving the program. For purposes of this section, the definition of "children" includes a person under 21 years of age.

[PL 2013, c. 179, §7 (AMD).]

5. Specialized children's home. "Specialized children's home" means a children's home where care is provided to no more than 4 children who are moderately to severely disabled by a caretaker who is specifically educated and trained to provide for the particular needs of each child placed. The total number of children in a specialized children's home may not exceed 4, including the caretaker's legal children under 16 years of age, with no more than 2 children under the age of 2.

[PL 2021, c. 348, §32 (AMD).]

6. Transitional living program. "Transitional living program" means a children's home that provides board and care for up to 10 children and may provide one or more services described in section 4099-E. For the purposes of this subsection, "children" means persons under 21 years of age.

[PL 2003, c. 599, §10 (RP).]

1-A. Inspection required. Except as provided in subsection 2-A, the department may not issue a license to operate to a children's home until the department has received from the Commissioner of Public Safety a written statement signed by one of the officials designated under Title 25, section 2360, 2391 or 2392 to make fire safety inspections. 1. Interagency licensing method. The Commissioner of Education and the Commissioner of Health and Human Services, or their designees, shall jointly establish a method for interagency licensing of residential child care facilities subject wholly or partly to licensing by both of the departments. If the department finds less than full compliance with the conditions of licensure, it may issue a conditional license.

The department may issue a conditional license if the applicant fails to comply with applicable laws and rules but the best interest of the public would be served by issuing a conditional license. The conditional license must specify when and what corrections must be made during the term of the conditional license.

When an applicant fails to comply with applicable laws and rules, the department may refuse to issue or renew the license.

These employees may inspect relevant documents of the hospice provider to determine whether the provider is in compliance with this chapter and rules adopted pursuant to this chapter. The right of entry and inspection extends to any premises and documents of providers whom the department has reason to believe are providing hospice services without a license. These entries or inspections must be made with the permission of the owner or person in charge unless a warrant is first obtained from the District Court authorizing that entry or inspection under section 2148.

(2) Medical information about any patient identified by name is not obtained without the consent of that patient except when the information sought pertains only to verification or comparison of health data and the board finds that confidentiality can be adequately protected without patient consent;

(3) Those persons conducting the research or investigation do not disclose medical information about any patient identified by name to any other person without that patient's consent;

(4) Those persons gaining access to medical information about an identified patient use that information to the minimum extent necessary to accomplish the purposes of the research for which approval was granted; and

(5) The protocol for any research is designed to preserve the confidentiality of all health care information that can be associated with identified patients, to specify the manner in which contact is made with patients and to maintain public confidence in the protection of confidential information. [PL 2001, c. 457, §15 (AMD).]

C. The board may not grant approval under this subsection if the board finds that the proposed identification of or contact with patients would violate any state or federal law or diminish the confidentiality of health care information or the public's confidence in the protection of that information in a manner that outweighs the expected benefit to the public of the proposed investigation. [PL 2001, c. 457, §15 (AMD).]
[PL 2001, c. 457, §15 (AMD).]

4. Certain confidential information. The board may determine financial data submitted to the organization under section 8709 to be confidential information if the public disclosure of the data will directly result in the provider of the data being placed in a competitive economic disadvantage. This section may not be construed to relieve the provider of the data of the requirement to disclose such information to the organization in accordance with this chapter and rules adopted by the board. [PL 2011, c. 524, §4 (AMD).]

5. Rules for release, publication and use of data. The rules must govern the release, publication and use of analyses, reports or compilations derived from the health data made available by the organization. [PL 1995, c. 653, Pt. A, §2 (NEW); PL 1995, c. 653, Pt. A, §7 (AFF).]

Data filed by payors must be provided in a format that does not directly identify the patient.

[PL 2007, c. 136, §6 (AMD).]

7. Authority to obtain information. Nothing in this section may be construed to limit the board's authority to obtain information that it considers necessary to carry out its duties. B. A major permanent loss of function unrelated to the natural course of the patient's illness or underlying condition or proper treatment of that illness or underlying condition in a health care facility that is present at the time of the discharge of the patient. - H. A thorough and credible root cause analysis. A root cause analysis is thorough and credible only in accordance with the following.

(1) A thorough root cause analysis must include: a determination of the human and other factors most directly associated with the sentinel event and the processes and systems related to its occurrence; an analysis of the underlying systems and processes to determine where redesign might reduce risk; an inquiry into all areas appropriate to the specific type of event; an identification of risk points and their potential contributions to the event; a determination of potential improvement in processes or systems that would tend to decrease the likelihood of such an event in the future or a determination, after analysis, that no such improvement opportunities exist; an action plan that identifies changes that can be implemented to reduce risks or formulates a rationale for not undertaking such changes; and, where improvement actions are planned, an identification of who is responsible for implementation, when the action will be implemented and how the effectiveness of the action will be evaluated.

(2) A credible root cause analysis must include participation by the leadership of the health care facility and by the individuals most closely involved in the processes and systems under review, is internally consistent without contradictions or unanswered questions, provides an explanation for all findings, including those identified as "not applicable" or "no problem," and includes the consideration of any relevant literature.

"Good faith" does not include instances when a false report is made and the person reporting knows the report is false. This subsection may not be construed to bar civil or criminal action regarding perjury or regarding the sentinel event that led to the report.

[PL 2009, c. 358, §2 (AMD).]

5. Near miss notification. A health care facility may notify the division of the occurrence of a near miss. Should a facility report a near miss, the notification must include the date and time of notification, the name of the health care facility and the type of event or situation pursuant to section 8752, subsection 4-A that is related to the near miss.

CHAPTER 1686**NEWBORN HEARING PROGRAM****§8821. Newborn Hearing Program established**

There is established within the department the Newborn Hearing Program, referred to in this chapter as the "program," to enable children and their families and caregivers to obtain information regarding hearing screening and evaluation and to learn about treatment and intervention services at the earliest opportunity in order to prevent or mitigate developmental delays and academic failures associated with undetected hearing loss. The obligations of the department regarding this program begin when funding is available to the department to implement the program. [PL 1999, c. 647, §2 (NEW).]

SECTION HISTORY

PL 1999, c. 647, §2 (NEW).

§8822. Program requirements

1. Definitions. As used in this chapter, unless the context indicates otherwise, the following terms have the following meanings.

A. "Birth admission" means the time after birth that the newborn remains in the hospital nursery prior to discharge. [PL 1999, c. 647, §2 (NEW).]

B. "Board" means the Newborn Hearing Screening Advisory Board. [PL 1999, c. 647, §2 (NEW).]

C. "Hearing loss" means a hearing loss of 30 decibels or more in the frequency region important for speech recognition and comprehension in one or both ears. The department may adopt rules to decrease the amount of decibels of hearing loss as technology allows for detection of hearing loss of 15 to 25 decibels in one or both ears. [PL 1999, c. 647, §2 (NEW).]

D. "Intervention" or "treatment" means the early intervention services described in the federal Individuals with Disabilities Education Act, 20 United States Code, Chapter 33, Subchapter III, Sections 1431 to 1445, as amended. "Intervention" or "treatment" includes, but is not limited to, audiological, medical or early educational services that provide a choice of methods of communication in a variety of sensory modalities. [PL 1999, c. 647, §2 (NEW).]

E. "Parent" means a natural parent, stepparent, adoptive parent, legal guardian or other legal custodian of a child. [PL 1999, c. 647, §2 (NEW).]

F. "Person who is culturally deaf" means a person with permanent hearing loss who identifies as a member of the deaf community and who utilizes American Sign Language as the primary mode of communication. [PL 1999, c. 647, §2 (NEW).]

G. "Person who is hard-of-hearing" or "person who is deaf" means a person with permanent hearing loss who communicates using aural or oral skills for accessing spoken language. [PL 1999, c. 647, §2 (NEW).]

[PL 1999, c. 647, §2 (NEW).]

2. Information to parents of children born in hospitals. Beginning November 1, 2000, a hospital shall provide information to the parents of children born in the hospital regarding the importance of screening the hearing of newborns and of receiving follow-up care. The information must explain the process of hearing screening, the likelihood of a child having a hearing loss, follow-up procedures and community resources and must include a description of the normal auditory, speech and language development process in children. The hospital must provide information about hearing screening that may be provided at the hospital or coordinated, scheduled or arranged for by the hospital. The program must provide this information prior to discharge from the birth admission to the hospital or within 3 months of discharge.

[PL 1999, c. 647, §2 (NEW).]

3. Information to parents of children born outside of hospitals. By November 1, 2002, when a newborn is delivered in a facility other than a hospital, the department shall provide information to the parents on the merits of having the hearing screening performed and on the availability of the hearing screening within 3 months of the date of birth.

[PL 1999, c. 647, §2 (NEW).]

4. Guidelines for services for children with hearing loss and at-risk children. The department, after consultation with the board, shall establish guidelines for the provision of follow-up services for newborn children in the State who are identified as having or being at risk of developing hearing loss. These services must include, but are not limited to, diagnostic audiologic assessment, counseling and educational services for the parents and an explanation of the potential effects of the identified hearing loss on the development of the newborn's speech, language and cognitive skills as well as the potential benefits of early identification and use of spoken or sign language.

[PL 1999, c. 647, §2 (NEW).]

4-A. Follow-up appointment with an audiologist. Upon the approval of a parent or legal guardian of a newborn who is screened and receives a screening result of "refer," the birthing hospital,

birthing center, hospital or other medical facility in which the child was screened must schedule the newborn for a follow-up appointment with an audiologist. That follow-up appointment must be scheduled prior to discharge, when possible. The hospital, center or facility must notify the newborn's primary care provider in writing of the screening result and audiologist appointment. This notice must be prepared prior to discharge, when possible.

[PL 2007, c. 646, §1 (NEW).]

5. Reporting. Beginning January 1, 2003, every hospital and other location providing birthing services shall report annually to the department concerning the following:

A. The number of newborns born in the hospital or location, the number screened at birth admission and the number of newborns who passed and did not pass the screening; [PL 1999, c. 647, §2 (NEW).]

B. The number of newborns and infants who participated in follow-up rescreening at that hospital or location and the number who passed the rescreening; [PL 1999, c. 647, §2 (NEW).]

C. The number of newborns recommended for monitoring, intervention and follow-up care; [PL 1999, c. 647, §2 (NEW).]

D. The number of newborns and infants recommended for diagnostic audiologic evaluation; and [PL 1999, c. 647, §2 (NEW).]

E. The number of newborns whose parents declined screening. [PL 1999, c. 647, §2 (NEW).]
[PL 1999, c. 647, §2 (NEW).]

6. Application. The requirements of this section apply to all hospitals licensed under this Title and to other locations providing birthing services.

[PL 1999, c. 647, §2 (NEW).]

12. Appeal by individual. The department shall establish procedures in accordance with the provisions of the Maine Administrative Procedure Act to ensure that each individual submitted for a background check in compliance with this chapter has the opportunity to challenge and correct errors in records created and generated by the Background Check Center.

[PL 2015, c. 299, §25 (NEW).]

13. Waiver; disqualifying offense. In the event that no other federal or state law mandates an employment prohibition by an employer subject to this chapter, an individual who is banned from employment because of a disqualifying criminal offense may initiate a request for a waiver under subsection 8, paragraph H in accordance with a process established by rules adopted pursuant to this chapter under the following circumstances:

- A. The individual is seeking to be employed or is currently employed by an employer subject to the requirements of this chapter; [PL 2015, c. 299, §25 (NEW).]

 - (2) The time that has passed since the disqualifying offense or offenses;
 - (3) The nature of the employment held or sought;

[PL 2023, c. 241, §69 (AMD).]

14. Approval of waiver. The department shall specify in rule the criteria for issuing a waiver for a disqualifying offense. The waiver determination is based on a consideration of the facts and circumstances of the specific individual's conviction that include the passage of time, extenuating circumstances, a demonstration of rehabilitation and the relevancy of the particular disqualifying offense with respect to the current or prospective employment with a sponsoring employer. All waivers are contingent on a final determination by the department that the employer has reasonably determined that the health and safety of a protected individual is not in jeopardy and a denial of a waiver request is not otherwise warranted in accordance with federal or state law.

[PL 2015, c. 299, §25 (NEW).]

15. Waivers; factors. The department shall specify in rule the minimum factors that an employer must consider when sponsoring a waiver under subsection 13. Objectively reasonable factors include:

- A. The age of the individual applying for a waiver at the time of the disqualifying offense; [PL 2015, c. 299, §25 (NEW).]

- F. The relevance of the circumstances pertaining to the disqualifying offense with respect to the nature of the proposed employment; [PL 2015, c. 299, §25 (NEW).]

G. The length and consistency of similar employment post-conviction if applicable; [PL 2015, c. 299, §25 (NEW).]

[PL 2015, c. 299, §25 (NEW).]

16. Denial or revocation of waiver. The department shall establish by rule informal and formal review procedures for denial or revocation of a waiver. Denial or revocation of waiver procedures must comply with the Maine Administrative Procedures Act and final determinations may be appealed pursuant to the Maine Administrative Procedures Act in Title 5, Part 18, Chapter 375, subchapter 4. Rules concerning the denial or revocation of waiver procedures include, but are not limited to, the following:

Rules adopted pursuant to this subsection are routine technical rules as defined in Title 5, chapter 375, subchapter 2-A.

[PL 2015, c. 299, §25 (NEW).]

17. Immunity. A provider that denies employment for an individual selected for hire or continued employment as a direct access worker, including during any period of conditional employment, and that reasonably relies upon information obtained through a final background check report regarding the individual is not liable in an action brought by the individual based on an employment determination resulting from the information.

[PL 2015, c. 299, §25 (NEW).]

18. Presumption of good faith. In a proceeding regarding immunity from liability, there is a rebuttable presumption of good faith.
