§13. Human Services Fraud Investigation Unit

1. Establishment; composition. The Commissioner of Health and Human Services is authorized to create within the department a Human Services Fraud Investigation Unit, referred to in this section as the "unit." The commissioner is authorized to employ and assign to the unit such employees as the commissioner considers appropriate.

[RR 2021, c. 2, Pt. B, §79 (COR).]

2. Purpose. The purpose of the unit shall be to investigate reported acts of fraud or attempted fraud or incidents of commingling or misapplication of funds in connection with, but not limited to, the requesting, obtaining, receiving, withholding, recording, reporting, expending or handling of funds administered by the department. The unit shall investigate such reported acts or incidents involving, but not limited to, recipients, providers and vendors receiving or applying for services or funds administered by the department.

[PL 1975, c. 715, §3 (NEW).]

3. Cooperation; information. All agencies of the State and municipal governments shall cooperate fully with the unit, rendering any assistance requested by the unit. Every head of a department, bureau, division, commission or any other unit of State Government shall report in writing to the unit all information concerning any suspected incident of fraud or attempted fraud or violation of any law in connection with funds administered by the department.

[PL 1975, c. 715, §3 (NEW).]

4. Violation of law; action. Whenever the unit determines that a fraud, an attempted fraud or a violation of law in connection with funds administered by the department may have occurred, it shall report in writing all information concerning the fraud or violation to the Attorney General or the Attorney General's delegate for such action as the Attorney General considers appropriate, including civil action for recovery of funds and criminal prosecution by the Department of the Attorney General. The unit shall, upon request of the Attorney General and in such a manner as the Attorney General considers appropriate, assist in the recovery of funds.

[RR 2021, c. 2, Pt. B, §80 (COR).]

5. Audit methods. When conducting audits pursuant to this section, the department may not engage a private vendor to conduct the audit or base any auditor's compensation on a percentage of the alleged overpayment amount, except that the department may engage a private vendor to conduct audits of providers located outside this State and may base that vendor's compensation on a percentage of the amount of overpayment received by the department. The department shall disclose to the public any mathematical algorithm used in performance of an audit.

[PL 2005, c. 12, Pt. QQ, §1 (AMD).]

6. Limitation on actions to recover overpayments. The department may impose a sanction or withhold payment from a MaineCare provider in order to recover or impose penalties for an overpayment for services rendered or goods delivered under the MaineCare program as provided in this subsection.

A. The department may impose a sanction or withhold payment when the department has obtained an order from Superior Court allowing interim sanctions upon showing a substantial likelihood that overpayment or fraud has occurred and that substantial harm to the department will result from further delay or when the department has taken final agency action and the provider has waived or exhausted its right to judicial review. [PL 2003, c. 688, Pt. C, §6 (AMD).]

B. Notwithstanding paragraph A, the department may terminate or suspend the participation of a provider in the MaineCare program pursuant to federal regulation and state rule. This authority includes, but is not limited to, provider payment suspensions required under section 1714-E. [RR 2011, c. 2, §22 (COR).]

C. For the purposes of this subsection, "overpayment" does not include an overestimate made as part of a prospective interim payment, a 3rd-party liability recovery, a departmental administrative error or receivership fees or debt. In addition, this subsection does not apply to routine adjustments of \$2,500 or less that result from claims editing or processing. [PL 2003, c. 613, §1 (NEW).]

§13-A. MaineCare program integrity recovery audit contractor agreement

Notwithstanding any other provision of law to the contrary, the provisions of this section apply to MaineCare program integrity recovery audit contracting. The department may enter into an agreement with a recovery audit contractor for the purpose of ensuring MaineCare program integrity, specifically to identify and reimburse to correct underpayments and to identify and recoup overpayments under the Medicaid state plan and under any waiver of the state plan. An agreement entered into under this section must provide that payment to the contractor may be made only from amounts recovered and that payments for identifying underpayments and collecting overpayments must be made on a contingent fee basis. After payments to correct underpayments and payment of any contingent fees due to the contractor, the proceeds of collections from overpayments must be deposited into the Medical Care - Payments to Providers program, Other Special Revenue Funds account in the Department of Health and Human Services for the purpose of providing state match under the federal Medicaid program. [PL 2011, c. 593, §1 (NEW).]

SECTION HISTORY

PL 2011, c. 593, §1 (NEW).

§14. Action against parties liable for medical care rendered to assistance recipients; assignment of claims

1. Recovery procedures. When benefits are provided or will be provided to a member under the MaineCare program administered by the department pursuant to the United States Social Security Act, Title XIX, including any prescription drug programs administered under the auspices of MaineCare, referred to collectively in this section as MaineCare, for the medical costs of injury, disease, disability or similar occurrence for which a 3rd party is, or may be, liable, the commissioner may recover from that party the cost of the benefits provided. This right of recovery is separate and independent from any rights or causes of action belonging to a member under the MaineCare program. For MaineCare recipients who participated in the MaineCare managed care program, "cost" means the total value of coverable medical services provided measured by the amount that MaineCare would have paid to providers directly for such services, were it not for the managed care system. The MaineCare program is the payor of last resort and shall provide medical coverage only when there are no other available resources. The Attorney General, or counsel appointed by the Attorney General, may, to enforce this right, institute and prosecute legal proceedings directly against the 3rd party in the appropriate court in the name of the commissioner.

In addition to the right of recovery set forth in this subsection, the commissioner must also be subrogated, to the extent of any benefits provided under the MaineCare program, to any cause of action or claim that a member has against a 3rd party who is or may be liable for medical costs incurred by or on behalf of the member. The Attorney General, or counsel appointed by the Attorney General, to enforce this right may institute and prosecute legal proceedings in the name of the injured person, member, guardian, personal representative, estate or survivor. If necessary to enforce the commissioner's right of recovery, the Attorney General, or counsel appointed by the Attorney General, may institute legal proceedings against any member, including the agent, representative or attorney of that member, who has received a settlement or award from a 3rd party.

The commissioner's right to recover the cost of benefits provided constitutes a statutory lien on the proceeds of an award or settlement from a 3rd party if recovery for MaineCare costs was or could have been included in the recipient's claim for damages from the 3rd party to the extent of the recovery for medical expenses. The commissioner is entitled to recover the cost of the benefits actually paid out

when the commissioner has determined that collection will be cost-effective to the extent that there are proceeds available for such recovery after the deduction of reasonable attorney's fees and litigation costs from the gross award or settlement. In determining whether collection will be cost-effective, the commissioner shall consider all factors that diminish potential recovery by the department, including but not limited to questions of liability and comparative negligence or other legal defenses, exigencies of trial that reduce a settlement or award in order to resolve the recipient's claim and limits on the amount of applicable insurance coverage that reduce the claim to the amount recoverable by the recipient. The department's statutory lien may not be reduced to reflect an assessment of a pro rata share of the recipient's attorney's fees or litigation costs. The commissioner may, at the commissioner's discretion, compromise, or otherwise settle and execute a release of, any claim or waive any claim, in whole or in part, if the commissioner determines the collection will not be cost-effective or that the best possible outcome requires compromise, release or settlement.

[PL 2007, c. 381, §1 (AMD).]

2. Condition for eligibility.

[PL 1981, c. 24, §1 (RP).]

2-A. Assignment of rights of recovery. The receipt of benefits under the MaineCare program constitutes an assignment by the recipient or any legally liable relative to the department of the right to recover from 3rd parties for the medical cost of injury, disease, disability or similar occurrence for which the recipient receives medical benefits. The department's assigned right to recover is limited to the amount of medical benefits received by the recipient and does not operate as a waiver by the recipient of any other right of recovery against a 3rd party that a recipient may have.

The recipient is also deemed to have appointed the commissioner as the recipient's attorney in fact to perform the specific act of submitting claims, making inquiries, requesting information, verifying other previous, current or potential coverage for the recipient or the recipient's spouse or dependents or endorsing over to the department any and all drafts, checks, money orders or any other negotiable instruments connected with the payment of 3rd-party medical claims to 3rd parties, liable parties or potentially liable 3rd parties. The appointment includes complete access to medical expense records and data, insurance policies and coverage and all other information relating to MaineCare's duty to cost-avoid and seek other coverage or payment response.

[PL 2007, c. 240, Pt. JJJ, §1 (AMD); PL 2007, c. 448, §7 (AMD); PL 2007, c. 448, §14 (AFF).]

2-B. Direct reimbursement to health care provider. When an insured is eligible under the MaineCare program for the medical costs of injury, disease, disability or similar occurrence for which an insurer is liable, and the insured's claim is payable to a health care provider as provided or permitted by the terms of a health insurance policy or pursuant to an assignment of rights by an insured, the insurer shall directly reimburse the health care provider to the extent that the claim is honored.

[PL 2003, c. 20, Pt. K, §2 (AMD).]

2-C. Direct reimbursement to department. When an insured is eligible under the MaineCare program for the medical costs of injury, disease, disability or similar occurrence for which an insurer is liable, and the claim is not payable to a health care provider under the terms of the insurance policy, the insurer shall directly reimburse the Department of Health and Human Services for any medical services paid by the department on behalf of a recipient under the MaineCare program to the extent that those medical services are payable under the terms of the insurance policy. If the insurer knows or has information upon which to reasonably conclude that the insured is a recipient of MaineCare services, the insurer shall advise the department in writing as to the existence of the claim prior to any other payment.

[PL 2003, c. 20, Pt. K, §2 (AMD); PL 2003, c. 689, Pt. B, §6 (REV).]

2-D. Notification of claim. A recipient under the MaineCare program, or any agent, representative or attorney representing a recipient under the MaineCare program, who makes a claim to recover the

medical cost of injury, disease, disability or similar occurrence for which the party received medical benefits under the MaineCare program shall notify the department in writing prior to settlement negotiations and provide information required by the department of the existence of the claim. If the notice is not given and the department's ability to recover for benefits paid is compromised, the department may institute legal proceedings against a recipient, including the agent, representative or attorney of that recipient, who has received a settlement or award from a 3rd party. The department may accept a letter of MaineCare claim protection in lieu of this section.

[PL 2007, c. 381, §2 (AMD).]

2-E. Notification of pleading. In an action to recover the medical cost of injury, disease, disability or similar occurrence for which the party received medical benefits under the MaineCare program, the party bringing the action shall notify the department of that action at least 10 days prior to filing the pleadings. The notification must provide timely opportunity for the department, at its discretion, to intervene in all actions as an interested party. If adequate opportunity to intervene is not given and the department's ability to recover for benefits paid is compromised, the department may institute legal proceedings against a recipient, including the agent, representative or attorney of that recipient, who has received a settlement or award from a 3rd party. The department may accept a letter of MaineCare claim protection in lieu of intervention. Department records indicating medical benefits paid by the department on behalf of the recipient are prima facie evidence of the medical expenses incurred by the recipient for the related medical services.

[PL 2007, c. 381, §3 (AMD).]

2-F. Disbursement. Except as otherwise provided in this subsection, a disbursement of any award, judgment or settlement may not be made to a recipient without the recipient or the recipient's attorney first paying to the department that amount of the award, judgment or settlement that constitutes reimbursement for medical payments made or obtaining from the department a release of any obligation owed to it for medical benefits provided to the recipient. If a dispute arises between the recipient and the commissioner as to the settlement of any claim that the commissioner may have under this section, the 3rd party or the recipient's attorney shall withhold from disbursement to the recipient an amount equal to the commissioner's claim. Either party may apply to the Superior Court or the District Court in which an action based upon the recipient's claim could have been commenced for an order to determine a reasonable amount in satisfaction of the statutory lien, consistent with federal law.

[PL 2007, c. 381, §4 (AMD).]

2-G. Claims against estates of certain Medicaid recipients.

[PL 1993, c. 410, Pt. I, §2 (RP).]

2-H. Honoring of assignments. The following provisions apply to claims for payment submitted by the department or a health care provider.

A. Whenever the department submits claims to a health insurer, as included in 42 United States Code, Section 1396a(a)(25)(I), including self-insured plans, group health plans as defined in the federal Employee Retirement Income Security Act of 1974, Section 607(1), service benefit plans, managed care organizations, pharmacy benefit managers or other parties that are, by statute, contract or agreement, legally responsible for payment of a claim for a health care item or service, on behalf of a current or former recipient under the MaineCare program for whom an assignment of rights has been received, or whose rights have been assigned by the operation of law, the health insurer doing business in the State or providing coverage to a resident of this State must respond to the department within 60 days and:

- (1) Provide information, with respect to individuals who are eligible for or are provided medical assistance under the MaineCare program, upon the request of the State, to determine during what period the individual or the individual's spouse or dependents may be or may have been covered by a health insurer and the nature of the coverage that is or was provided by the

health insurer, including the name, address and identifying number of the plan, in a manner prescribed by the United States Secretary of Health and Human Services;

(2) Accept the State's right of recovery and the assignment to the State of any right of an individual or other entity to payment from the party for an item or service for which payment has been made under the state plan and, in the case of a responsible 3rd party that requires prior authorization for an item or service furnished to an individual eligible to receive medical assistance under the MaineCare program, accept authorization provided by the State that the item or service is covered under the MaineCare program for that individual, as if the authorization were the prior authorization made by the 3rd party for the item or service;

(3) Respond to any inquiry by the State regarding a claim for payment for any health care item or service that is submitted not later than 3 years after the date of the provision of such health care item or service; and

(4) Agree not to deny a claim submitted by the State solely on the basis of the date of submission of the claim, the type or format of the claim form, a failure to present proper documentation at the point-of-sale that is the basis of the claim or, in the case of a responsible 3rd party, a failure to obtain a prior authorization for the item or service for which the claim is being submitted, if:

(a) The claim is submitted by the State within the 3-year period beginning on the date on which the item or service was furnished; and

(b) Any action by the State to enforce its rights with respect to such claim is commenced within 6 years of the State's submission of such claim. [PL 2023, c. 162, §1 (AMD).]

B. [PL 2007, c. 240, Pt. JJJ, §3 (RP).]

C. A payment made as part of an assignment by a 3rd party to the MaineCare program or a contractor acting on behalf of the MaineCare program is considered final 2 years after the date of the payment and when final the payment is not subject to adjustment. [PL 2023, c. 162, §1 (NEW).]

[PL 2023, c. 162, §1 (AMD).]

2-I. Claims against estates of MaineCare recipients. Claims against the estates of MaineCare recipients are governed by this subsection.

A. The department has a claim against the estate of a MaineCare recipient when, after the death of the recipient:

(1) Property or other assets are discovered that existed and were owned by the recipient during the period when MaineCare benefits were paid for the recipient and disclosure of the property or assets at the time benefits were being paid would have rendered the recipient ineligible to receive the benefits;

(2) It is determined that the recipient was 55 years of age or older when that person received MaineCare assistance; or

(3) It is determined that the recipient has received or is entitled to receive benefits under a long-term care insurance policy in connection with which assets or resources are disregarded and medical assistance was paid on behalf of the recipient for nursing facility or other long-term care services. [PL 2003, c. 20, Pt. K, §2 (AMD).]

B. The amount of MaineCare benefits paid and recoverable under this subsection is a claim against the estate of the deceased recipient.

(1) As to assets of the recipient included in the probated estate, this claim may be enforced pursuant to Title 18-C, Article 3, Part 8.

(2) As to assets of the recipient not included in the probated estate, this claim may be enforced by filing a claim in any court of competent jurisdiction. [PL 2017, c. 402, Pt. C, §41 (AMD); PL 2019, c. 417, Pt. B, §14 (AFF).]

A waiver may be granted in full or in part. A waiver may not be granted if the recipient or waiver applicant acted to lose, diminish, divest, encumber or otherwise transfer any value of or title to an asset for the purpose of preventing recovery under this subsection. 4. Family enrollment in employer plan. The department shall require, as a condition of being or remaining eligible for medical assistance, an individual who is a parent, is eligible for medical assistance under this Title and is eligible for family health coverage through an employer, to apply for enrollment for each eligible child. The employer shall enroll children in the employer plan without regard to any enrollment season restrictions.

[PL 1997, c. 795, §5 (NEW).]

5. Cost-effective enrollment. If some members of a family are not eligible for medical assistance under this Title and enrollment of the family members who are eligible for medical assistance is not possible without also enrolling the members who are not eligible for medical assistance, the department shall provide for payment of enrollment premiums for all family members if, taking into account payment of all such premiums, the enrollment is cost-effective.

1. Program established. The Housing First Program, referred to in this section as "the program," is established in the department to facilitate the delivery of support and stabilization services to residents of properties established or developed to provide permanent housing to address chronic homelessness in the State. Except as otherwise provided in this section, services facilitated under the program must be available on site, 24 hours per day and be designed to build independent living skills and connect individuals with community-based services. The department shall ensure that reimbursement under the MaineCare program is available to providers under the Housing First Program to the maximum extent possible. For the purposes of this section, "chronic homelessness" means a situation in which a person is living in a place not meant for human habitation, including emergency shelters, for at least 12 months and for whom homelessness is correlated with a condition that makes accessing services and maintaining housing a significant challenge such as substance use disorder or a behavioral health condition. "Chronic homelessness" includes a situation in which a person has been living intermittently in an institutional care facility, including but not limited to jail or a health treatment facility, but is otherwise living in a place not meant for human habitation. [PL 2023, c. 412, Pt. AAAA, §1 (NEW).]

2. Fund established. The Housing First Fund, referred to in this section as "the fund," is established as a separate and distinct fund for accounting and budgetary reporting purposes in order to support the program. Funds distributed in accordance with this section must be used to supplement, not supplant, existing or future federal funding designed to provide services associated with services provided by the program under subsections 1 and 5, including but not limited to the MaineCare program and the housing outreach and member engagement provider program administered by the department. [PL 2023, c. 412, Pt. AAAA, §1 (NEW).]

3. Sources of fund. The Treasurer of State shall credit to the fund:

A. Annually, the department shall deposit \$1,000,000 from the fund to an account established for the purpose of providing funding for housing stability services described in subsection 5. [PL 2023, c. 412, Pt. AAAA, §1 (NEW).]

B. The department shall establish payment models as appropriate for the purpose of providing 24-hour, on-site supportive services to residents at Housing First Program properties established or developed to provide permanent housing to persons experiencing chronic homelessness. Supportive services must include coordination with a MaineCare provider. [PL 2023, c. 412, Pt. AAAA, §1 (NEW).]

C. The department shall establish 2 permanent, full-time positions in the department to assist providers with providing 24-hour, on-site supportive services and navigating reimbursement under the MaineCare program for those services. [PL 2023, c. 412, Pt. AAAA, §1 (NEW).]

D. The department shall annually determine the amount necessary to support the established payment models at each property for services provided under the program in the current fiscal year and the anticipated amount needed to pay for 24-hour, on-site services expected to be provided at

each property in the next fiscal year. Funds in excess of those amounts must be transferred to the Maine State Housing Authority for the purposes of:

(1) Providing technical assistance to housing developers to help with capital and planning issues associated with developing properties consistent with the housing model established by the program and as described in subsection 5; and

(2) Developing affordable housing projects with a housing model established by the program and as described in subsection 5. [PL 2023, c. 412, Pt. AAAA, §1 (NEW).]

[PL 2023, c. 412, Pt. AAAA, §1 (NEW).]

5. Housing stability services. The department shall establish a payment model to provide funds to pay for the costs of housing stability services provided to residents at properties under the program where supportive services are not necessarily provided on site or 24 hours per day. Services funded under this subsection must be available to residents no less than 20 hours per week and must adequately meet the needs of the residents to build independent living skills, to maintain housing and to access necessary community-based services. Housing stability services funded under this subsection may also include outreach to persons who are experiencing chronic homelessness for the purposes of establishing connections and providing support that may result in securing stable housing at a property under the program.

The initial report submitted to the committee must provide an assessment of the number of housing units and the scope of services needed to serve persons who are experiencing chronic homelessness to serve as a baseline against which the effectiveness of the program and other services will be measured. Subsequent reports must provide updates to that assessment in addition to the following:

A. An accounting of the services facilitated using money from the fund at properties that provide 24-hour, on-site services and properties that provide housing stability services described under subsection 5; [PL 2023, c. 412, Pt. AAAA, §1 (NEW).]

§41-A. Biennial funding comparison report

By January 31, 2003, and every 2 years thereafter, the commissioner shall report to the joint standing committee of the Legislature having jurisdiction over health and human services matters and the joint standing committee of the Legislature having jurisdiction over appropriations and financial affairs the amounts of appropriations and allocations that would be required to fully fund all reimbursable costs for nursing facilities and medical and remedial private nonmedical institutions covered by the department, determined pursuant to the department's principles of reimbursement and the amounts of appropriations and allocations that would be necessary to raise the reimbursement rates for all providers of services reimbursed under the Medicaid program on a fee-for-service basis who are reimbursed below 70% of usual and customary rates to a level equal to 70% of usual customary rates, as long as the rate does not exceed the rate allowed by federal law or regulation. The information in the report regarding nursing facilities and private nonmedical institutions must be presented in a manner that compares the amounts that would be required to fully fund the 2 types of facilities, the amounts that are requested in the Governor's budget bill and the amounts that were appropriated and allocated for each of the 2 years of the biennium in which the report is made. §41-B. Auditing and adjusting of health care and community service provider costs

This section governs the rules of the department and the practices of its auditors in interpreting and applying those rules with respect to payments for providers under the MaineCare program and payments by the department under grants and agreements audited pursuant to the Maine Uniform Accounting and Auditing Practices Act for Community Agencies. [PL 2005, c. 588, §2 (NEW).]

1. Revised audit interpretations to be applied prospectively. Whenever the department's auditors revise an interpretation of a rule, agreement, circular or guideline in a manner that would result in a negative adjustment of a provider's or agency's allowable costs, the revised interpretation may be applied only to provider or agency fiscal years beginning after the date of the examination report, audit report or other written notification in which the provider or agency receives direct notice of the revised interpretation. For the fiscal year to which the report containing the revised interpretation applies, and any subsequent fiscal year ending prior to the issuance of the revised interpretation, the cost that is the subject of the revised interpretation must be considered allowable to the extent that it was allowable under the interpretation previously applied by the Office of Audit for MaineCare and Social Services,

referred to in this section as "the office of audit." This subsection does not prohibit the office of audit from applying an adjustment to a fiscal year solely because that cost was not disallowed in a prior year. [PL 2005, c. 588, §2 (NEW).]

2. Determination of "ordinary," "necessary" and "reasonable" costs. In making findings concerning whether a cost is "ordinary," "necessary" and "reasonable," the office of audit shall consider the following criteria in conjunction with applicable state and federal rules, regulations, guidelines and agreements:

A. Whether a substantial number of providers of health care or community services in the State incur costs of similar magnitude, frequency, quantity or price level to the costs under review; [PL 2005, c. 588, §2 (NEW).]

B. Whether the expenditure is reasonably incurred to produce, accomplish, facilitate or compensate persons for providing an item or service related to the purpose of a program or activity for which the State has contracted or for which the State otherwise provides payment; [PL 2005, c. 588, §2 (NEW).]

C. Whether the expenditure is comparable to an expenditure made by a department or agency of the State responsible for services or programs similar to those to which the finding applies; and [PL 2005, c. 588, §2 (NEW).]

D. Whether the expenditure is consistent with meeting special needs of the population served through innovative or specialized services offered by a particular provider. [PL 2005, c. 588, §2 (NEW).]

[PL 2005, c. 588, §2 (NEW).]

3. Employee compensation and benefit costs. In evaluating whether employee wages, salaries and benefits are reasonable and allowable, the department may not disallow the costs of any employee benefits, wages or salaries if the total of those costs is reasonable under the criteria set forth in subsection 2.

[PL 2005, c. 588, §2 (NEW).]

4. Other expenses. The department shall modify its rules governing MaineCare reimbursement and other reimbursements pursuant to grants, contracts or agreements for health care providers and other agencies providing community services to allow, to the extent permitted by applicable federal law, the costs of employee information publications, health or first-aid clinics or infirmaries, recreational activities, employee counseling services and any other expenses incurred in accordance with the health care provider or other agency's established practice or custom for the improvement of working conditions, employer-employee relations, employee morale and employee performance.

SECTION HISTORY

PL 2005, c. 588, §2 (NEW).

§42. Rules and regulations

1. General. The department shall issue rules and regulations considered necessary and proper for the protection of life, health and welfare, and the successful operation of the health and welfare laws. The rules and regulations shall be adopted pursuant to the requirements of the Maine Administrative Procedure Act.

[PL 1977, c. 694, §331 (AMD).]

1-A. Administration of medication. The administration of medication in boarding care facilities, drug treatment centers, day care facilities, children's homes and nursery schools and group home intermediate care facilities for persons with intellectual disabilities must be in accordance with rules established by the department. In other facilities licensed or approved by the department, excluding

those facilities licensed under section 1811, other than group home intermediate care facilities for persons with intellectual disabilities, the department may establish rules for the administration of medication as it considers necessary. In establishing rules for each type of facility, the department shall consider, among other factors, the general health of the persons likely to receive medication, the number of persons served by the facility and the number of persons employed at the facility who might be involved in the administration of medication. Any rules for the administration of medication must be established in accordance with Title 5, chapter 375.

[PL 2011, c. 542, Pt. A, §24 (AMD).]

2. Department records. The department shall make and enforce reasonable rules and regulations governing the custody, use and preservation of the records, papers, files and communications of the department, and especially those which pertain to the granting of public assistance. The use of such records, papers, files and communications by any other agency or department of government to which they may be furnished shall be limited to the purposes for which they are furnished and by the law under which they may be furnished. It shall be unlawful for any person, except for purposes directly connected with the administration of the public assistance and in accordance with the rules and regulations of the department, to solicit, disclose, receive, make use of or authorize, knowingly permit, participate in or acquiesce in the use of, any list of or names of, or any information concerning, persons applying for or receiving such assistance, directly or indirectly, derived from the records, papers, files or communications of the State or subdivisions or agencies thereof, or acquired in the course of the performance of official duties. Any person violating any provision of this subsection shall be punished by a fine of not more than \$500 or by imprisonment for not more than 11 months, or by both.

[PL 1973, c. 521, §1 (RPR).]

3. Subsurface sewage disposal. The department shall adopt minimum rules relating to subsurface sewage disposal systems. All rules, including installation and inspection rules, must be consistent with Title 30-A, chapter 185, subchapter III and Title 32, chapter 49, but this does not preempt the authority of municipalities under Title 30-A, section 3001 to adopt more restrictive ordinances. These rules may regulate the location of water supply wells to provide minimum separation distances from subsurface sewage disposal systems. The department may require a deed covenant or deed restriction when determined necessary.

Any person who violates the rules adopted under this subsection, or who violates a municipal ordinance adopted pursuant to Title 30-A, sections 4201 and 4211 or uses a subsurface waste water disposal system not in compliance with rules applicable at the time of installation or modification must be penalized in accordance with Title 30-A, section 4452. Enforcement of the rules is the responsibility of the municipalities rather than the department. The department or a municipality may seek to enjoin violations of the rules or municipal ordinances. In the prosecution of a violation by a municipality, the court shall award reasonable attorney's fees to a municipality if that municipality is the prevailing party, unless the court finds that special circumstances make the award of these fees unjust.

[PL 1997, c. 727, Pt. C, §4 (AMD).]

3-A. Licensing of persons to evaluate soils for subsurface wastewater disposal systems. The department shall adopt rules providing for professional qualification and competence, ethical standards, licensing and relicensing and revocation of licenses of persons to evaluate soils for the purpose of designing subsurface wastewater disposal systems. The hearings provided for in subsection 3 must include consideration of the adoption or change of those rules.

The department shall investigate or cause to be investigated all cases or complaints of noncompliance with or violations of this section and the rules adopted pursuant to this section. The department has the authority to grant or amend, modify or refuse to issue or renew a license in accordance with the Maine Administrative Procedure Act, Title 5, chapter 375, subchapter 5. The District Court has the exclusive jurisdiction to suspend or revoke the license of any person who is found guilty of noncompliance with or violation of the rules adopted pursuant to this subsection or subsection 3.

The department may charge applicants no more than \$100 for examination to become a licensed site evaluator. The department shall by rule charge a biennial site evaluator license fee of not more than \$150. A licensed site evaluator who is employed by the department to administer this section and does not practice for the public is exempt from the license fee requirement. Appropriate rules must be adopted by the department defining the appropriate financial procedure. The fees are paid to the Treasurer of State to be maintained as a permanent fund and used by the department for carrying out its plumbing and subsurface wastewater disposal rules and site evaluation program.

[PL 2015, c. 494, Pt. A, §14 (AMD).]

3-B. Inspection of plumbing and subsurface wastewater disposal systems and temporary portable toilets. The department shall adopt rules providing for the inspection of plumbing and subsurface wastewater disposal systems. The department may adopt routine technical rules pursuant to Title 5, chapter 375, subchapter 2-A providing for the inspection of temporary portable toilets, except for temporary portable toilets allowed pursuant to Title 30-A, section 4211, subsection 3-A. In municipalities, the municipal officers shall provide for the appointment of one or more plumbing inspectors. In plantations, the assessors shall appoint plumbing inspectors in accordance with Title 30-A, section 4221. In the unorganized areas of the State, the department shall appoint plumbing inspectors or act in the capacity of a plumbing inspector until a person is appointed. For purposes of this subsection, "temporary portable toilet" means a prefabricated toilet designed for temporary use.

[PL 2023, c. 614, §1 (AMD).]

4. Industrial employees.

[PL 1977, c. 83, §2 (RP).]

5. Confidentiality of records containing certain medical information. Department records that contain personally identifying medical information that are created or obtained in connection with the department's public health activities or programs are confidential. These records include, but are not limited to, information on genetic, communicable, occupational or environmental disease entities, and information gathered from public health nurse activities, or any program for which the department collects personally identifying medical information.

The department's confidential records may not be open to public inspection, are not public records for purposes of Title 1, chapter 13, subchapter 1 and may not be examined in any judicial, executive, legislative or other proceeding as to the existence or content of any individual's records obtained by the department.

Exceptions to this subsection include release of medical and epidemiologic information in such a manner that an individual cannot be identified; disclosures that are necessary to carry out the provisions of chapter 250; disclosures made upon written authorization by the subject of the record, except as otherwise provided in this section; disclosures that are specifically required for purposes of reporting data to the Maine Health Data Organization as provided for by statute or by rules adopted by the Maine Health Data Organization; and disclosures that are specifically provided for by statute or by departmental rule. The department may participate in a regional or national tracking system as provided in sections 1533 and 8824.

Nothing in this subsection precludes the department, during the data collection phase of an epidemiologic investigation, from refusing to allow the inspection or copying of any record or survey instrument, including any redacted record or survey instrument, containing information pertaining to an identifiable individual that has been collected in the course of that investigation. The department's refusal is not reviewable.

[PL 2021, c. 423, Pt. A, §2 (AMD).]

6. Preadministrative hearing settlement process. The department may adopt rules to establish a preadministrative hearing settlement process. Rules adopted pursuant to this subsection are routine technical rules as defined by Title 5, chapter 375, subchapter II-A.

[PL 1997, c. 218, §1 (NEW).]

7. Appeal process. The department shall amend the rules governing appeals of informal review decisions of MaineCare payment and cost report audit and review issues filed by MaineCare providers of goods and services or initiated by the department and any other informal review decisions that seek to impose repayment, recovery or recoupment obligations or sanctions or fines on providers as provided in this subsection.

A. The department shall allow a provider 60 days after the provider's receipt of an audit report, examination report or other audit determination to seek informal review of that determination. The department shall give to the provider involved in an informal review decision written notice of the informal review decision and of the appeal process and the time period for filing a notice of appeal. The department shall allow an additional 60 days for a provider to request an appeal hearing for review of the department's informal review decision. [PL 2005, c. 588, §3 (AMD).]

B. [PL 2003, c. 419, §2 (RP).]

C. Compensation under any contract into which the department enters for hearing officer services may reflect the number of appeals on which recommendations are made by the hearing officer and may not reflect the substance of the recommendations made by the hearing officer. [PL 2003, c. 419, §2 (AMD).]

D. The hearing officer shall conduct a hearing de novo on issues raised in the notice of appeal filed by the provider and shall in a timely manner render a written recommendation based on the record and in accordance with applicable state and federal law, rule and regulation. The hearing officer shall provide a copy of the recommendation to the department and to the provider along with notice of the opportunity to submit written comments to the commissioner. [PL 2001, c. 666, Pt. C, §1 (NEW).]

E. The recommendation of the hearing officer must be forwarded to the commissioner for a final decision, based on the record, which must include any written comment submitted in a timely manner by the provider and the department. The commissioner may adopt, adopt with modification or reject the recommendation of the hearing officer. The commissioner shall issue a final decision in writing, which must include the reasons for any departure from the recommendation of the hearing officer and notice of the process for appeal pursuant to Title 5, chapter 375, subchapter 7. If the commissioner deviates from a prior decision cited in the course of a proceeding, the final decision must include an explanation of the reason that the prior decision was not followed. [PL 2003, c. 419, §2 (AMD).]

F. By July 1, 2004 the department shall make available on its publicly accessible website the decisions in all MaineCare provider appeals beginning January 1, 2004, including the recommendations of the hearing officer and the decision of the commissioner. By October 1, 2006 the department shall make available on the same website all decisions issued by the department regarding audit findings, audit reports or examination reports, including final informal review decisions issued as well as decisions on appeal pursuant to the Maine Uniform Accounting and Auditing Practices Act for Community Agencies. The Office of Audit for MaineCare and Social Services also shall include on the website a summary of key interpretations and findings in recent audits that, in the opinion of the office, are to be considered generally by providers in their operations and cost reporting.

(1) The website must include a search feature allowing users to obtain information on specific issues of interest.

(2) The website must protect information that is personal or confidential. [PL 2005, c. 588, §4 (AMD).]

G. In lieu of the appeal procedure provided in this subsection, the parties may choose arbitration by a qualified arbitrator or panel of arbitrators as provided in this paragraph. By January 1, 2004, the department shall adopt rules to implement this paragraph that are consistent with federal law and regulation. Rules adopted pursuant to this paragraph are routine technical rules as defined in Title 5, chapter 375, subchapter 2-A.

(1) The arbitrator or panel of arbitrators must be selected and compensated as agreed by the parties.

(2) Arbitration under this paragraph is available only when the amount in controversy is \$10,000 or less and the subject matter in controversy is assessments, recovery or recoupment orders, sanctions or administrative fines.

(3) A provider choosing arbitration under this paragraph may waive any right of appeal. [PL 2003, c. 419, §2 (NEW).]

H. In an administrative appeal of an informal review decision under this subsection, the department bears the burden of proving a violation of law or rule by a preponderance of the evidence. If the department proves that existing and available records of goods or services are defective, the department may impose a penalty or sanction, including total recoupment. Total recoupment for defective records is warranted only when the provider has failed to demonstrate by a preponderance of the evidence that the disputed goods or services were medically necessary, MaineCare-covered goods or services and were actually provided to eligible MaineCare members. [PL 2003, c. 688, Pt. C, §7 (AMD).]

The department shall provide funding for contractual services under this subsection from within existing resources.

[PL 2005, c. 588, §§3, 4 (AMD).]

8. Adoption of rules with retroactive application. The department is authorized to adopt rules that have a retroactive application for a period not to exceed 8 calendar quarters prior to the date of issuance of the rule in accordance with the provisions of this subsection.

A. The Office of MaineCare Services is authorized to adopt rules that have retroactive application when necessary to maximize available federal revenue sources, specifically regarding the federal Medicaid program, or to conform to the state Medicaid plan as filed with the Federal Government. The Bureau of Family Independence is authorized to adopt rules in the MaineCare program, Temporary Assistance for Needy Families program and Supplemental Nutrition Assistance Program that have retroactive application to comply with federal requirements or to conform to the state Medicaid plan as filed with the Federal Government. [PL 2023, c. 405, Pt. C, §9 (AMD).]

B. With respect to any services that MaineCare providers have rendered prior to the date of adoption of retroactive rules adopted pursuant to this subsection, such rules may not reduce or otherwise negatively affect the reimbursement or other payments that those providers are entitled to receive under the previously applicable rules. The reimbursement or other payments under the amended rules must be equal to or greater than the reimbursement under the rules previously in effect. The rules may retroactively increase provider reimbursement on an emergency basis if needed to ensure that MaineCare members have access to covered medically necessary services. [PL 2005, c. 648, §1 (AMD).]

C. For any benefits or services in the MaineCare program, Temporary Assistance for Needy Families program or Supplemental Nutrition Assistance Program that beneficiaries have received prior to the date of adoption of retroactive rules adopted pursuant to this subsection, such rules may not reduce or otherwise negatively affect the reimbursement or other payments, benefits or services that those beneficiaries are entitled to have covered or paid under the previously applicable rules.

The reimbursement or other payments, benefits or services under the amended rules must be equal to or greater than under the rules previously in effect. [PL 2023, c. 405, Pt. C, §10 (AMD).]

D. This subsection does not give the department the authority to adopt retroactively any rule that has an adverse financial impact on any MaineCare provider or member, Temporary Assistance for Needy Families program or Supplemental Nutrition Assistance Program recipient or the beneficiary or recipient of any other program administered by the department. Specific statutory authority is required for adoption of a retroactive rule that has an adverse financial impact on any MaineCare provider or member, Temporary Assistance for Needy Families program or Supplemental Nutrition Assistance Program recipient or the beneficiary or recipient of any other program administered by the department. [PL 2023, c. 405, Pt. C, §11 (AMD).]

E. Rules adopted pursuant to this subsection are routine technical rules as defined in Title 5, chapter 375, subchapter 2-A; except that, if the underlying statutory rule-making authority for a rule or set of rules specifies that rules adopted pursuant to that authority are major substantive rules, then the related rule or rules adopted under this subsection are major substantive rules. [PL 2003, c. 612, §1 (NEW).]

F. [PL 2005, c. 648, §2 (RP).]
[PL 2023, c. 405, Pt. C, §§9-11 (AMD).]

9. Effective date of newly adopted rules. Notwithstanding any other provision of law, when the department adopts a rule affecting a process or procedural change for licensed health care providers, the rule may not take effect for at least 30 days unless the department determines that an emergency rule is necessary pursuant to Title 5, section 8054 or unless the rule affects reimbursement rates applicable to those licensed health care providers. For the purposes of this subsection, "licensed health care provider" means a physician, clinic, hospital, health maintenance organization, home health agency, private clinical laboratory or other person who provides primary health care services and is registered or licensed by the State.

[PL 2005, c. 401, Pt. A, §2 (NEW).]
- D. Income eligibility of individuals must be determined by this paragraph and by reference to the federal poverty guidelines for the 48 contiguous states and the District of Columbia, as defined by the federal Office of Management and Budget and revised annually in accordance with the United States Omnibus Budget Reconciliation Act of 1981, Section 673, Subsection 2, Public Law 97-35, reauthorized by Public Law 105-285, Section 201 (1998). If the household income is not more than 185% of the federal poverty guideline applicable to the household, the individual is eligible for the basic program and the supplemental program. Individuals are also eligible for the basic and the supplemental program if the household spends at least 40% of its income on unreimbursed direct medical expenses for prescription drugs and medications and the household income is not more than 25% higher than the levels specified in this paragraph. For the purposes of this paragraph, the cost of drugs provided to a household under this section is considered a cost incurred by the household for eligibility determination purposes. [PL 2019, c. 343, Pt. ZZ, §1 (AMD).]
- E. Specifications for the administration and management of the program may include, but are not limited to, program objectives, accounting and handling practices, supervisory authority and evaluation methodology. [PL 2005, c. 401, Pt. A, §2 (NEW).]
- F. The method of prescribing or ordering the drugs under paragraph A may include, but is not limited to, the use of standard or larger prescription refill sizes so as to minimize operational costs and to maximize economy. Unless the prescribing physician indicates otherwise or the department determines that it would not be cost-effective, the use of generic or chemically equivalent drugs is

required, as long as these drugs are of the same quality and have the same mode of delivery as is provided to the general public, consistent with good pharmaceutical practice. [PL 2005, c. 401, Pt. A, §2 (NEW).]

G. The commissioner may establish the amount of payment to be made by the program and by enrollees toward the cost of drugs and medications furnished under the program, including covered prescription and nonprescription drugs, medications and medical supplies, under the following terms.

(1) For the basic component of the program, the total cost to an enrollee for the purchase of any covered drug or medication may not exceed the sum of \$2 plus 20% of the price allowed for that drug or medication under program rules.

(2) For the supplemental component of the program, the total cost to an enrollee for the purchase of any covered drug or medication may not exceed:

(a) For a brand name drug or medication, the cost to the program for that drug or medication minus the \$2 paid by the program; and

(b) For a generic drug or medication, the sum of \$2 plus 20% of the price allowed for that drug or medication under program rules.

(3) For the catastrophic component of the program, the commissioner shall establish annual limits on the costs incurred by enrollees for drugs and medications covered under the program on or prior to May 31, 2001. After the limit is reached, the program must pay 80% of the cost of each drug and medication covered by the supplemental component of the program on May 31, 2001 minus \$2. Any remaining amount is paid by the enrollee. The limits must be set by the commissioner by rule as necessary to operate the program within the program budget. [PL 2005, c. 401, Pt. A, §2 (NEW).]

H. Payment must be denied for drugs from manufacturers that do not enter into a rebate agreement with the department.

(1) Each agreement must provide that the manufacturer make rebate payments for both the basic and supplemental components of the program to the department according to the following schedule.

(a) From October 1, 1992 to October 1, 1998, the rebate percentage is equal to the percentage recommended by the federal Center for Medicare and Medicaid Services of the manufacturer's wholesale price for the total number of dosage units of each form and strength of a prescription drug that the department reports as reimbursed to providers of prescription drugs, provided payments are not due until 30 days following the manufacturer's receipt of utilization data supplied by the department, including the number of dosage units reimbursed to providers of prescription drugs during the period for which payments are due.

(b) Beginning October 1, 1998, the department shall seek to achieve an aggregate rebate amount from all rebate agreements that is 6 percentage points higher than that required by division (a), provided such rebates result in a net increase in the rebate revenue available to the elderly low-cost drug program.

(2) Upon receipt of data from the department, the manufacturer shall calculate the quarterly payment.

(a) If a discrepancy is discovered, the department may, at its expense, hire a mutually agreed-upon independent auditor to verify the manufacturer's calculation.

(b) If a discrepancy is still found, the manufacturer shall justify its calculation or make payment to the department for any additional amount due.

(c) The manufacturer may, at its expense, hire a mutually agreed-upon independent auditor to verify the accuracy of the utilization data provided by the department. If a discrepancy is discovered, the department shall justify its data or refund any excess payment to the manufacturer.

(d) If the dispute over the rebate amount is not resolved, a request for a hearing with supporting documentation must be submitted to the department's division of administrative hearings. Failure to resolve the dispute may be cause for terminating the drug rebate agreement and denying payment to the manufacturer for any drugs.

(3) A prescription drug of a manufacturer that does not enter into an agreement pursuant to this paragraph is reimbursable only if the department determines the prescription drug is essential.

(4) All prescription drugs of a manufacturer that enters into an agreement pursuant to this paragraph that appear on the list of approved drugs under the program must be immediately available and the cost of the drugs must be reimbursed except as provided in this paragraph. The commissioner may impose prior authorization requirements on drugs under the program. If the commissioner establishes maximum retail prices for prescription drugs pursuant to section 2693, the department shall adopt rules for the program requiring the use of a drug formulary and prior authorization for the dispensing of certain drugs to be listed on a formulary.

(5) The names of manufacturers who do and do not enter into rebate agreements pursuant to this paragraph are public information. The department shall release this information to health care providers and the public on a regular basis and shall publicize participation by manufacturers that is of particular benefit to the public. [RR 2015, c. 1, §16 (COR).]

I. The eligibility determination made by the department is final, subject to appeal in accordance with the appeal process established in the MaineCare program. [PL 2005, c. 401, Pt. A, §2 (NEW).]

[PL 2023, c. 412, Pt. EEEEE, §§1-3 (AMD).]

5. Relationship to federal Medicare program. To the extent permitted by federal law and to the extent that funds are available, the department may:

(1) Provide coverage of drugs to the same extent that coverage is available to enrollees who are not eligible for Medicare Part D; and

(2) Provide assistance with premiums and other cost-sharing requirements of Medicare Part D; and [PL 2005, c. 401, Pt. A, §2 (NEW).]

H. For enrollees who are MaineCare members and who are also beneficiaries under or eligible for Medicare Part D:

(1) Provide coverage of drugs to the same extent that coverage is available to enrollees who are MaineCare members who are not eligible for Medicare Part D; and

(2) Provide assistance with the cost of prescription drugs and premiums and other cost-sharing requirements of Medicare Part D. [PL 2005, c. 401, Pt. A, §2 (NEW).]

[PL 2005, c. 401, Pt. A, §2 (NEW).]

6. Education, outreach and materials to increase access. The department shall provide education and outreach services to applicants and enrollees in the program, MaineCare members and beneficiaries under Medicare Part D to increase access to needed prescription and nonprescription drugs and fully use other private, state and federal programs. The department shall provide materials, which must cover the availability of benefits and the application process and must include brochures, posters for pharmacies and flyers for pharmacists to distribute with prescription drug purchases.

[RR 2005, c. 1, §4 (COR).]

8. Emergency drug coverage. The department shall provide emergency drug coverage to an enrollee when:

A. A medically necessary drug prescribed for the enrollee is not on the enrollee's Medicare Part D prescription drug plan formulary, is not provided for in the dosage or amount necessary or is on the formulary as a nonpreferred drug; [PL 2005, c. 519, Pt. AAA, §1 (NEW).]

§255. Coordination of health services funded through the state and federal funds

1. Findings and declaration of legislative intent. The Legislature finds that the costs of health care and services provided by health care facilities are matters of vital concern to the people of this State and have a direct relationship to the ability of the people to obtain necessary health care.

The Legislature further finds that the coordination of health services in a geographic area within an existing health facility, where practicable, increases both access and quantity of services provided and increases the likelihood costs for these services will be reasonable.

It is the intent of the Legislature to define a policy for the Department of Health and Human Services in order that health services paid for by state and federal funds be coordinated through existing health facilities whenever possible.

2. Coordination of health services. To assure equal access to and to avoid the unnecessary duplication of administrative systems, of health services and of health care facilities, the Department of Health and Human Services shall, to the extent practicable, assure that health services funded or provided under the United States Social Security Act, Title V, ESPDT of Title XIX and Title XX, as amended, the United States Public Health Services Act, Section 314 D of Title III, as amended, the Women, Infants and Children (WIC) Special Supplemental Food Program of the United States Child Nutrition Act of 1966, or its successor, the United States Older Americans Act, ASPDT of Title III, as amended, shall be provided through agreements with an existing health facility as long as quality of care is maintained.

In any subsequent review, the commissioner may hold a public hearing and may consider any material or significant changes in factors or circumstances relied upon by the commissioner in approving the application and significant and relevant information that either is new or was withheld by the applicant at the time of the process under section 335. If, upon review, the commissioner determines that any terms or conditions of the approval have not been met, the commissioner may take enforcement action consistent with subsection 3 and other applicable provisions of this Act.

3. Enforcement actions. When the commissioner determines, following the procedures set forth in subsections 1 and 2, that the holder of a certificate of need when properly required has failed to meet the conditions set forth in the certificate of need approval or that a person covered by this Act has improperly obtained a nonapplicability ruling, the commissioner may take one or more of the following actions.

A. The commissioner may, pursuant to section 347, condition the person's license to prohibit the unauthorized activity and determine the ongoing conduct of that activity to be in violation of the respective chapter under which the person is licensed. A person that is subject to a ruling under this paragraph may request, and the commissioner shall grant pursuant to the Maine Administrative Procedure Act, a stay of the effect of any such determination to condition the person's license to prohibit the particular activity pending final agency action. §333. Procedures after voluntary nursing facility reductions

1. Procedures. A nursing facility that voluntarily reduces the number of its licensed beds at any time prior to July 1, 2007, for any reason except to create private rooms may convert the beds back and thereby increase the number of nursing facility beds to no more than the previously licensed number of nursing facility beds, after obtaining a certificate of need in accordance with this section, as long as the nursing facility has been in continuous operation without material change of ownership. For purposes of this section and sections 333-A and 334-A, beds voluntarily removed from service prior to July 1, 2007 and available to be reinstated under this section are referred to as "reserved beds." Reserved beds remain facility property until they lapse as provided for in this section or are transferred. To reinstate reserved beds under this subsection, the nursing facility must:

A. Give notice of the number of beds it is reserving no later than 30 days after the effective date of the license reduction; [PL 2007, c. 440, §8 (AMD).]

A-1. Annually provide notice to the department no later than July 1st of each year of the nursing facility's intent to retain these reserved beds, subject to the limitations set forth in subsection 2, paragraph B. Notice provided under this paragraph preserves the reserved beds through June 30th of the following year. The annual notice on reserved beds may be filed by an individual nursing

facility or by multiple nursing facilities through a membership organization approved by the department by a single filing; and [PL 2011, c. 648, §2 (AMD).]

B. Obtain a certificate of need to convert beds back under section 335, except that, if no construction is required for the conversion of beds back, the application must be processed in accordance with subsection 2. The department in its review shall evaluate the impact that the nursing facility beds to be converted back would have on those existing nursing facility beds and facilities within 30 miles of the applicant's facility and shall determine whether to approve the request based on current certificate of need criteria and methodology. [PL 2011, c. 424, Pt. B, §3 (AMD); PL 2011, c. 424, Pt. E, §1 (AFF).]

[PL 2011, c. 648, §2 (AMD).]

2. Expedited review. Except as provided in subsection 1, paragraph B, an application for a certificate of need to reopen beds reserved in accordance with this section must be processed on an expedited basis in accordance with rules adopted by the department providing for shortened review time and for a public hearing if requested by a person directly affected by a review. The department shall consider and decide upon these applications as follows:

A. Review of applications that meet the requirements of this section must be based on the requirements of section 335, subsection 7, except that the determinations required by section 335, subsection 7, paragraph B must be based on the historical costs of operating the beds and must consider whether the projected costs are consistent with the costs of the beds prior to closure, adjusted for inflation; and [PL 2001, c. 664, §2 (NEW).]

B. If the nursing facility fails to provide the annual notices required by subsection 1, paragraph B, the nursing facility's ability to convert beds back under this section lapses, and the beds must be treated as lapsed beds for purposes of this section and sections 333-A and 334-A. 3. Effect on other review proceedings. Lapsed beds may not be treated as available nursing facility beds for the purpose of evaluating need under section 335. Reserved beds must be counted as available nursing facility beds for the purpose of evaluating need under section 335 only if:

A. The nursing facility retains the ability to convert the reserved beds back to nursing facility use under the terms of this section; [PL 2007, c. 440, §10 (NEW).]

B. The nursing facility having the reserved beds is located within a reasonable distance of the population projected to be served by the project under review; and [PL 2007, c. 440, §10 (NEW).]

C. The nursing facility having the reserved beds is willing to convert them to meet a need identified in that project review. The department shall inquire of facilities having reserved beds in the area of the State to be served by a proposed project before determining whether reserved beds will be counted as available. [PL 2007, c. 440, §10 (NEW).]

[PL 2007, c. 440, §10 (RPR).]

4. Rulemaking. Rules adopted pursuant to this section are routine technical rules as defined by Title 5, chapter 375, subchapter 2-A.

[PL 2009, c. 383, §7 (AMD).]

SECTION HISTORY

PL 2001, c. 664, §2 (NEW). PL 2007, c. 440, §§8-10 (AMD). PL 2009, c. 383, §7 (AMD). PL 2011, c. 424, Pt. B, §§2-4 (AMD). PL 2011, c. 424, Pt. E, §1 (AFF). PL 2011, c. 648, §§2, 3 (AMD).

§333-A. Procedures for allowing reallocation of nursing facility capacity

1. Nursing facility MaineCare funding pool. Except as set forth in subsection 3-A and section 334-A, savings to the MaineCare program as a result of delicensing of nursing facility beds on or after July 1, 2005, including savings from lapsed beds but excluding savings from reserved beds, must be credited to the nursing facility MaineCare funding pool, which must be maintained by the department to provide for the development of new beds or other improvements requiring a certificate of need. For those nursing facility projects that propose to add new nursing facility beds to the inventory of beds within the State, the balance of the nursing facility MaineCare funding pool, as adjusted to reflect current costs consistent with the rules and statutes governing reimbursement of nursing facilities, serves as a limit on the MaineCare share of all incremental 3rd-year operating costs of such projects unless such projects are approved under applicable provisions of section 334-A. Nursing facility projects that do not add new nursing facility beds to the inventory of beds within the State are not subject to the nursing facility MaineCare funding pool.

[PL 2011, c. 424, Pt. B, §5 (AMD); PL 2011, c. 424, Pt. E, §1 (AFF).]

2. Procedure. The balance of the nursing facility MaineCare funding pool must be used for development of additional nursing facility beds in areas of the State where additional beds are needed to meet the community need. The department must assess needs throughout the State and issue requests for proposals for the development of additional beds in areas where need has been identified by the department, except in the event of an emergency, when the department may use a sole source process. Proposals must be evaluated based on consideration of quality of care and cost, and preference must be given to existing nursing facilities in the identified need area that may increase licensed capacity by adding on to or renovating the existing facility.

[PL 2011, c. 424, Pt. B, §6 (AMD); PL 2011, c. 424, Pt. E, §1 (AFF).]

3. Emergencies and necessary renovations.

[PL 2011, c. 424, Pt. B, §7 (RP); PL 2011, c. 424, Pt. E, §1 (AFF).]

3-A. Transfers between nursing facility and residential care facility. A nursing facility may delicense and sell or transfer beds to a residential care facility for the purpose of permitting the residential care facility to add MaineCare-funded beds to meet identified needs for such beds. Such a transfer does not require a certificate of need but is subject to prior approval of the department on an expedited basis. The divisions within the department that are responsible for licensing and MaineCare reimbursement for nursing facilities and residential care facilities shall work cooperatively to review and consider whether to approve such transfers on an expedited basis. When the average then current occupancy rate for existing state-funded residential care beds within 30 miles of the applicant facility is 80% or less, the department in its review under section 335 shall evaluate the impact that the proposed additional state-funded residential care beds would have on these existing state-funded residential care beds and facilities. Beds and MaineCare resources transferred pursuant to this subsection are not subject to the nursing facility MaineCare funding pool. In order for the department to approve delicensing, selling or transferring under this subsection, the department must determine that any increased MaineCare residential care costs associated with the converted beds are fully offset by reductions in the MaineCare costs from the reduction in MaineCare nursing facility costs associated with the converted beds.

[PL 2011, c. 648, §4 (AMD).]

4. Rulemaking. The department may establish rules to implement this section. Rules adopted pursuant to this subsection are routine technical rules as defined in Title 5, chapter 375, subchapter 2-A.

§334. Nursing facility projects**(REPEALED)**

SECTION HISTORY

PL 2001, c. 664, §2 (NEW). PL 2003, c. 416, §1 (AMD). PL 2007, c. 440, §12 (RP).

§334-A. Nursing facility projects**1. Projects that expand current bed capacity.**

[PL 2011, c. 424, Pt. B, §9 (RP); PL 2011, c. 424, Pt. E, §1 (AFF).]

1-A. Projects that expand current bed capacity. Nursing facility projects that propose to add new nursing facility beds to the inventory of nursing facility beds within the State may be considered under either of the following 2 options:

A. These projects may be grouped for competitive review purposes consistent with funds available from the nursing facility MaineCare funding pool and may be approved if sufficient funds are available from the nursing facility MaineCare funding pool or are added to the pool by an act of the Legislature, except that the department may approve, without available funds from the pool, projects to reopen beds previously reserved by a nursing facility through a voluntary reduction pursuant to section 333 if the annual total of reopened beds approved does not exceed 100; or [PL 2011, c. 424, Pt. B, §10 (NEW); PL 2011, c. 424, Pt. E, §1 (AFF).]

B. Petitioners proposing such projects may elect not to participate in a competitive review under paragraph A and the projects may be approved if:

(1) The petitioner, or one or more nursing facilities or residential care facilities or combinations thereof under common ownership or control, has agreed to delicense a sufficient number of beds from the total number of currently licensed or reserved beds, or is otherwise reconfiguring the operations of such facilities, so that the MaineCare savings associated with such actions are sufficient to fully offset any incremental MaineCare costs that would otherwise arise from implementation of the certificate of need project and, as a result, there are no net incremental MaineCare costs arising from implementation of the certificate of need project; or

(2) The petitioner, or one or more nursing facilities or residential care facilities or combinations thereof under common ownership or control, has acquired bed rights from another nursing facility or facilities or residential care facility or facilities or combinations thereof that agree to delicense beds or that are ceasing operations or otherwise reconfiguring their operations, and the MaineCare revenues associated with these acquired bed rights and related actions are sufficient to cover the additional requested MaineCare costs associated with the project. The divisions within the department that are responsible for licensing and MaineCare reimbursement for nursing facilities and residential care facilities shall work cooperatively to review and consider whether to approve such projects.

With respect to the option described in this paragraph, when the average then current occupancy rate for existing nursing facility beds at facilities within 30 miles of the applicant facility exceeds 85%, the department in its review under section 335 shall evaluate the impact that the proposed additional nursing facility beds would have on those existing nursing facility beds and facilities and shall determine whether to approve the request based on current certificate of need criteria and methodology.

Certificate of need projects described in this paragraph are not subject to or limited by the nursing facility MaineCare funding pool. [PL 2011, c. 648, §5 (AMD).]
[PL 2011, c. 648, §5 (AMD).]

2. Projects to relocate beds. Nursing facility projects that do not add new nursing facility beds to the inventory of nursing facility beds within the State, but instead propose to relocate beds from one or more nursing facilities to one or more existing or new nursing facilities:

- A. May also propose renovation, replacement or other actions requiring certificate of need review; and [PL 2007, c. 440, §13 (NEW).]
- B. May be approved by the department upon a showing by the petitioner that the project fulfills all pertinent requirements and the review criteria set forth in section 335. [PL 2011, c. 424, Pt. B, §11 (AMD); PL 2011, c. 424, Pt. E, §1 (AFF).]

Certificate of need projects described in this subsection are not subject to or limited by the nursing facility MaineCare funding pool.

[PL 2011, c. 424, Pt. B, §11 (AMD); PL 2011, c. 424, Pt. E, §1 (AFF).]

2-A. Other types of certificate of need projects. Other types of nursing facility projects that do not add new nursing facility beds to the inventory of nursing facility beds within the State and do not propose to relocate beds from one facility to another existing or new facility and that propose any renovation, replacement, transfer of ownership or other actions requiring certificate of need review, such as capital expenditures for equipment and renovations that are above applicable thresholds, may be approved by the department upon a showing that the project fulfills all pertinent requirements and the review criteria set forth in section 335.

- A. [PL 2011, c. 424, Pt. B, §12 (RP); PL 2011, c. 424, Pt. E, §1 (AFF).]
- B. [PL 2011, c. 424, Pt. B, §12 (RP); PL 2011, c. 424, Pt. E, §1 (AFF).]

Certificate of need projects described in this subsection are not subject to or limited by the nursing facility MaineCare funding pool.

[PL 2011, c. 424, Pt. B, §12 (AMD); PL 2011, c. 424, Pt. E, §1 (AFF).]

2-B. Emergencies and necessary nursing facility projects. If the department determines that an emergency exists, it may approve a necessary nursing facility certificate of need application on an expedited basis when the applicant proposes capital expenditures for renovations and improvements that are necessary:

- A. To achieve compliance with code and related regulatory requirements; [PL 2011, c. 424, Pt. B, §13 (NEW); PL 2011, c. 424, Pt. E, §1 (AFF).]
- B. To comply with the federal Health Insurance Portability and Accountability Act of 1996 and related patient privacy standards; [PL 2011, c. 424, Pt. B, §13 (NEW); PL 2011, c. 424, Pt. E, §1 (AFF).]
- C. To address other patient safety requirements and standards; or [PL 2011, c. 424, Pt. B, §13 (NEW); PL 2011, c. 424, Pt. E, §1 (AFF).]
- D. To address other necessary and time-sensitive patient safety or compliance issues. [PL 2011, c. 424, Pt. B, §13 (NEW); PL 2011, c. 424, Pt. E, §1 (AFF).]

Certificate of need projects described in this subsection are not subject to or limited by the nursing facility MaineCare funding pool.

[PL 2011, c. 424, Pt. B, §13 (NEW); PL 2011, c. 424, Pt. E, §1 (AFF).]

3. Evaluating costs. Beginning with all applications pending on February 15, 2012, in evaluating whether a project will increase MaineCare expenditures for a nursing facility for the purposes of this section, the department shall:

- A. Allow gross square footage per licensed bed of not less than 500 square feet unless the applicant specifies a smaller allowance for the project. [PL 2011, c. 424, Pt. B, §14 (AMD); PL 2011, c. 424, Pt. E, §1 (AFF).]

B. [PL 2011, c. 424, Pt. B, §14 (RP); PL 2011, c. 424, Pt. E, §1 (AFF).]

C. [PL 2011, c. 424, Pt. B, §14 (RP); PL 2011, c. 424, Pt. E, §1 (AFF).]
[PL 2011, c. 424, Pt. B, §14 (AMD); PL 2011, c. 424, Pt. E, §1 (AFF).]

4. Cost associated with energy-efficient improvements. The cost associated with energy-efficient improvements in nursing facilities, as set forth in rules governing special reimbursement provisions for energy-efficient improvements adopted by the department, must be excluded from the cost of a project in determining whether the project is subject to review.
[PL 2009, c. 430, §5 (NEW).]

§335. Approval; record

This section applies to determinations by the commissioner under this chapter. [PL 2001, c. 664, §2 (NEW).]

1. Basis for decision. Based solely on a review of the record maintained under subsection 6, the commissioner shall approve an application for a certificate of need if the commissioner determines that the project:

A. Meets the conditions set forth in subsection 7; [PL 2003, c. 469, Pt. C, §8 (NEW).]

B. [PL 2011, c. 90, Pt. J, §5 (RP).]

C. Ensures high-quality outcomes and does not negatively affect the quality of care delivered by existing service providers; [PL 2003, c. 469, Pt. C, §8 (NEW).]

D. Does not result in inappropriate increases in service utilization, according to the principles of evidence-based medicine adopted by the Maine Quality Forum, as established in Title 24-A, section 6951, when the principles adopted by the Maine Quality Forum are directly applicable to the application; [PL 2023, c. 343, §2 (AMD).]

E. [PL 2013, c. 424, Pt. A, §10 (RP).]

F. In the case of a nursing facility project that proposes to add new nursing facility beds to the inventory of nursing facility beds within the State, is consistent with the nursing facility MaineCare funding pool and other applicable provisions of sections 333-A and 334-A; and [PL 2023, c. 343, §3 (AMD).]

G. In the case of a project requiring a certificate of need pursuant to section 329, subsection 1 or section 329, subsection 4-A, paragraph B, will not cause a reduction in access to, geographic proximity of, timeliness of or quality of any family planning services, as defined in section 1902, subsection 4, or any abortion services, except that the commissioner may approve a project that will cause such a reduction if the commissioner finds:

(1) That the project is economically and financially feasible only if an obstetrical care service is closed or reduced in capacity; and

(2) After considering all reasonable alternatives, that access to other health care services will be substantially reduced if the project is not approved. [PL 2023, c. 343, §4 (NEW).]

[PL 2023, c. 343, §§2-4 (AMD).]

1-A. Competitive review. The commissioner may review applications on a competitive basis if the applications propose the same or similar services.

[PL 2011, c. 648, §6 (AMD).]

2. Communications. Staff of the department with responsibility for the certificate of need program may meet with, or otherwise communicate with, any person who is not a department employee and who wants to provide information to be considered in connection with an application for a certificate of need.

[PL 2011, c. 648, §7 (AMD).]

3. Limited communications. All communications regarding any letter of intent or application with the commissioner or with department staff responsible for the certificate of need program from any person who is not a department employee that the department staff reasonably believes is intended to influence the analyses relating to or the decision regarding an application for certificate of need must be made part of the record described in subsection 5-A. If such communications are not in written form or part of public meetings, these communications must be noted in writing by the commissioner or by department staff and that notation must be made part of the application record.

[PL 2011, c. 648, §8 (AMD).]

4. Decision. The commissioner's decision must be in writing and must contain appropriate references to the record. If the application is denied, the decision must specifically address comments received and made part of the record that favor granting the application. If the application is approved, the decision must specifically address comments received and made part of the record that favor denial of the application.

[PL 2001, c. 664, §2 (NEW).]

5. Record.

[PL 2007, c. 440, §17 (RP).]

5-A. Record. The record created by the department in the course of its review of an application must contain the following:

A. The letter of intent described in section 337, subsection 1, all other materials submitted by the applicant relating to the letter of intent and any written materials relating to the letter of intent; [PL 2007, c. 440, §18 (NEW).]

B. The application and all other materials submitted by the applicant for the purpose of making those documents part of the record; [PL 2007, c. 440, §18 (NEW).]

C. All information generated by or for the department in the course of gathering material to assist the commissioner in determining whether the conditions for granting an application for a certificate of need have or have not been met. This information may include, without limitation, the report of consultants, including reports by panels of experts assembled by the department to advise it on the application, memoranda of meetings or conversations with any person interested in commenting on the application, letters, memoranda and documents from other interested agencies of State Government and memoranda describing officially noticed facts; [PL 2007, c. 440, §18 (NEW).]

D. Stenographic or electronic recordings of any public hearing held by the commissioner or the staff of the department at the direction of the commissioner regarding the application; [PL 2007, c. 440, §18 (NEW).]

E. Stenographic or electronic recording of any public informational meeting held by the department pursuant to section 337, subsection 5; [PL 2007, c. 440, §18 (NEW).]

F. Any documents submitted by any person for the purpose of making those documents part of the record regarding any application for a certificate of need or for the purpose of influencing the outcome of any analyses or decisions regarding an application for certificate of need, except documents that have been submitted anonymously. Such source-identified documents automatically become part of the record upon receipt by the department; [PL 2007, c. 440, §18 (NEW).]

G. Preliminary and final analyses of the record prepared by the staff; [PL 2007, c. 440, §18 (NEW).]

H. Except with regard to a project related to nursing facility services, a written assessment by the Director of the Maine Center for Disease Control and Prevention of the impact of the project on the health of persons living in the State, including without limitation an assessment of the impact of the project on access to, geographic proximity of, timeliness of and quality of any family planning services, as defined in section 1902, subsection 4, and any abortion services; and [PL 2023, c. 343, §5 (AMD).]

I. Except with regard to a project related to nursing facility services, or a project that qualifies for a simplified review process under section 336, a written assessment by the Superintendent of Insurance of the impact of the project on the cost of insurance in the region and the State when required by the commissioner. The superintendent may request additional information from the applicant for the purpose of reviewing the application. Any such request must be transmitted through the department and becomes part of the official record. The applicant shall respond to the request within 30 days. Any such response must be transmitted through the department and becomes part of the official record. The inability of the superintendent to complete the review of the application due to the failure of the applicant to respond timely must be noted in the superintendent's assessment filed with the department and may be cause for the commissioner to deny approval of the project. [PL 2013, c. 424, Pt. B, §9 (AMD).]
[PL 2023, c. 343, §5 (AMD).]

6. Maintenance of the record. The record created pursuant to subsection 5-A first opens on the day the department receives a certificate of need application. From that day, all of the record is a public record. The letter of intent becomes a public record upon the receipt of the letter and is available for review from the date of receipt. Any person may examine all or part of the public record and purchase copies of any or all of that record during the normal business hours of the department.

A. The department shall accept public comments and additional information from the applicant for a period of 30 days after the public informational meeting held under section 337, subsection 5 or the public hearing held under section 339, subsection 2, whichever is later. The record will then close until public notice that the preliminary staff analysis has been made part of the record. [PL 2011, c. 648, §10 (NEW).]

B. A technical assistance meeting with the department must be scheduled at least 10 days before the department publishes the preliminary analysis of a certificate of need application. At the technical assistance meeting the department shall:

- (1) Give applicants an opportunity to hear whether the certificate of need application is likely to be approved or denied;
- (2) Give applicants an opportunity to address issues and concerns expressed by the department regarding compliance with this chapter; and
- (3) Give applicants an opportunity to offer additional information to the department.

Any additional information submitted by the applicant becomes part of the public record. The department shall complete its review after the technical assistance meeting and before the department publishes the preliminary analysis. [PL 2011, c. 648, §10 (NEW).]

C. The department shall give notice that the preliminary analysis is complete and part of the public record by publication in a newspaper of general circulation in Kennebec County, in a newspaper published within the service area of the project and on the department's publicly accessible website. [PL 2011, c. 648, §10 (NEW).]

D. The public and the applicant may submit comments on the preliminary analysis for 15 business days after the notice is published under paragraph C. [PL 2011, c. 648, §10 (NEW).]

E. The department may determine to reopen the record in circumstances that it determines to be appropriate for a limited time to permit submission of additional information, as long as the department gives public notice consistent with the provisions of this subsection. [PL 2011, c. 648, §10 (NEW).]

[PL 2011, c. 648, §10 (RPR).]

7. Expanded review process; approval. Except as provided in section 334-A, subsection 2-B with respect to emergency nursing facility projects, section 336 with respect to the simplified review process and subsection 9 of this section with respect to emergency certificates of need, the commissioner, or the commissioner's designee in the case of a simplified review under section 336 or an emergency review, shall issue a certificate of need if the commissioner or the commissioner's designee determines and makes specific written findings regarding that determination that:

A. The applicant is fit, willing and able to provide the proposed services at the proper standard of care as demonstrated by, among other factors, whether the quality of any health care provided in the past by the applicant or a related party under the applicant's control meets industry standards. If the applicant is a provider of health care services that are substantially similar to those services being reviewed and is licensed in the State, the requirements of this paragraph are deemed to have been met if the services previously provided in the State by the applicant are consistent with applicable licensing and certification standards; [PL 2011, c. 648, §11 (AMD).]

B. The economic feasibility of the proposed services is demonstrated in terms of the:

(1) Capacity of the applicant to support the project financially over its useful life, in light of the rates the applicant expects to be able to charge for the services to be provided by the project; and

(2) Applicant's ability to establish and operate the project in accordance with existing and reasonably anticipated future changes in federal, state and local licensure and other applicable or potentially applicable rules. If the applicant is a provider of health care services that are substantially similar to those services being reviewed and is licensed in the State, the applicant is deemed to have fulfilled the requirements of this subparagraph if the services provided in the State by the applicant during the most recent 3-year period are of similar size and scope and are consistent with applicable licensing and certification standards; [PL 2011, c. 648, §11 (AMD).]

C. There is a public need for the proposed services as demonstrated by certain factors, including, but not limited to:

(1) Whether, and the extent to which, the project will substantially address specific health problems as measured by health needs in the area to be served by the project;

(2) Whether the project will have a positive impact on the health status indicators of the population to be served;

(3) Whether the services affected by the project will be accessible to all residents of the area proposed to be served; and

(4) Whether the project will provide demonstrable improvements in quality and outcome measures applicable to the services proposed in the project; [PL 2003, c. 469, Pt. C, §11 (AMD).]

D. The proposed services are consistent with the orderly and economic development of health facilities and health resources for the State as demonstrated by:

- (1) The impact of the project on total health care expenditures after taking into account, to the extent practical, both the costs and benefits of the project and the competing demands in the local service area and statewide for available resources for health care;
- (2) The availability of state funds to cover any increase in state costs associated with utilization of the project's services; and
- (3) The likelihood that more effective, more accessible or less costly alternative technologies or methods of service delivery may become available; and [PL 2003, c. 469, Pt. C, §11 (AMD).]

E. The project meets the criteria set forth in subsection 1. [PL 2003, c. 469, Pt. C, §12 (NEW).]

In making a determination under this subsection, the commissioner may use data from the Maine Health Data Organization established in chapter 1683 and other information available to the commissioner to the extent such data and information is applicable to the determination being made. The commissioner may give appropriate weight to information that indicates that the proposed health services are innovations in high-quality health care delivery, that the proposed health services are not reasonably available in the proposed area and that the facility proposing the new health services is designed to provide excellent quality health care.

[PL 2011, c. 648, §11 (AMD).]

8. Conditional approvals. The commissioner may grant an application subject to conditions that relate to the criteria for approval of the application.

[PL 2001, c. 664, §2 (NEW).]

9. Emergency certificate of need. Upon the written or oral request of an applicant asserting that an emergency situation exists, the department shall immediately determine whether an emergency situation exists and upon finding that an emergency situation does exist shall issue a certificate of need for a project necessary on account of the emergency situation. The scope of the certificate of need may not exceed that which is necessary to remedy or otherwise effectively address the emergency situation. The certificate of need may be subject to conditions consistent with the purpose of this Act that do not interfere with the applicant's ability to respond effectively to the emergency.

The commissioner shall find an emergency situation exists whenever the commissioner finds that an applicant has demonstrated:

- A. The necessity for immediate or temporary relief due to a natural disaster, a fire, an unforeseen safety consideration, a major accident, equipment failure, foreclosure, receivership or an action of the department or other circumstances determined appropriate by the department; [PL 2001, c. 664, §2 (NEW).]
- B. The serious adverse effect of delay on the applicant and the community that would be occasioned by compliance with the regular requirements of this chapter and the rules adopted by the department; and [PL 2001, c. 664, §2 (NEW).]
- C. The lack of substantial change in the facility or services that existed before the emergency situation. [PL 2001, c. 664, §2 (NEW).]

[PL 2001, c. 664, §2 (NEW).]

§336. Simplified review and approval process

Notwithstanding the requirements set forth in section 335, the department shall conduct a simplified review and approval process in accordance with this section unless a public hearing has been requested pursuant to section 339, subsection 2, paragraph D, in which case the project is subject to the expanded review in section 335. The department shall by rule set forth this simplified review and approval process. To the extent practicable, a simplified review must be completed and the commissioner shall make a decision within 60 days after the application has been certified as complete by the applicant pursuant to section 337, subsection 4, unless a hearing is requested by a person directly affected by a review or the commissioner determines to hold a hearing. The following projects may qualify for a simplified review process: [PL 2011, c. 648, §12 (AMD).]

1. Maintenance projects. The commissioner shall issue a certificate of need for a project that primarily involves the maintenance of a health facility if the commissioner determines that the project:

- A. Will result in no or a minimal additional expense to the public or to the health care facility's clients; [PL 2001, c. 664, §2 (NEW).]
- B. Will be in compliance with other applicable state and local laws and regulations; and [PL 2001, c. 664, §2 (NEW).]
- C. Will significantly improve or, in the alternative, not significantly adversely affect the health and welfare of any person currently being served by the health care facility. [PL 2001, c. 664, §2 (NEW).]

[PL 2001, c. 664, §2 (NEW).]

2. Life safety codes; previous certificate of need. The commissioner shall issue a certificate of need for a project that is required to meet federal, state or local life safety codes.

[PL 2011, c. 648, §12 (AMD).]

3. Acquisition of control. The commissioner shall issue a certificate of need for a project that involves the acquisition of control of a health facility when the acquisition consists of a management agreement or similar arrangement and primarily involves the day-to-day operation of the facility in its current form, or transfers ownership of a nursing facility to an existing provider of nursing facility services licensed in this State if the commissioner determines that the project meets the requirements of section 335, subsection 7, paragraph B and that the project is economically feasible in light of its impact on:

- A. The operating budget of the facility and the applicant; and [PL 2001, c. 664, §2 (NEW).]
- B. The applicant's ability to operate the facility without increases in the facility's rates beyond those that would otherwise occur absent the acquisition. [PL 2001, c. 664, §2 (NEW).]

The commissioner may not find that a project primarily involves day-to-day operation of the facility in its current form if the commissioner finds that the project would result in a reduction of access to, geographic proximity of, timeliness of or quality of any family planning services, as defined in section 1902, subsection 4, or any abortion services unless the commissioner determines that the exceptions described in section 335, subsection 1, paragraph G are met.

[PL 2023, c. 343, §6 (AMD).]

4. Capital expenditures for compliance or quality improvement. The commissioner shall issue a certificate of need for a proposed capital expenditure upon determining that:

- A. The capital expenditure is required to eliminate or prevent imminent safety hazards, as defined by applicable fire, building or life safety codes and regulations; to comply with state licensure standards; to provide demonstrable improvements in patient safety or quality of care; or to comply with accreditation or certification standards that must be met to receive reimbursement under the United States Social Security Act, Title XVIII or payments under a state plan for medical assistance approved under Title XIX of that Act; [PL 2011, c. 648, §12 (AMD).]

B. The economic feasibility of the project is demonstrated in terms of its effects on the operating budget of the applicant, including its existing rate structure; [PL 2001, c. 664, §2 (NEW).]

C. There remains a public need for the service to be provided; and [PL 2001, c. 664, §2 (NEW).]

D. The corrective action proposed by the applicant is a cost-effective alternative available under the circumstances. [PL 2011, c. 648, §12 (AMD).]

[PL 2011, c. 648, §12 (AMD).]

5. Major medical equipment. The commissioner shall issue a certificate of need for replacement of major medical equipment that is not otherwise exempt from review pursuant to section 329, subsection 2-A, paragraph B, subparagraph (1) upon determining that a project meets the requirements of section 335, subsection 7.

[PL 2009, c. 383, §9 (NEW).]

6. Other projects. The commissioner may by rule identify other categories of projects that qualify for simplified review under this section that are consistent with the purposes of this section and will foster timely review and approval for qualifying projects.

[PL 2011, c. 648, §12 (NEW).]

§337. Application process for certificate of need

1. Letter of intent. Prior to filing an application for a certificate of need, an applicant shall file a letter of intent with the department. The letter of intent forms the basis for determining the applicability of this chapter to the proposed expenditure or action. A letter of intent is deemed withdrawn one year after receipt by the department, unless sooner superseded by an application, except that the applicant is not precluded from resubmitting the same letter of intent.

[PL 2001, c. 664, §2 (NEW).]

2. Application filed. Paragraphs A to C apply in the given order to the application process for certificate of need.

A. After receiving the letter of intent, the department shall issue a letter or checklist, or both, to an applicant that stipulates and clarifies what will be required in the application. [PL 2001, c. 664, §2 (NEW).]

B. Within 15 days of filing the letter of intent, the applicant shall schedule a meeting with the department staff in order to assist the department in understanding the application and to receive technical assistance concerning the nature, extent and format of the documentary evidence, statistical data and financial data required for the department to evaluate the proposal. The applicant may waive the technical assistance meeting requirement under this paragraph. [PL 2011, c. 648, §13 (AMD).]

C. After receiving notice from the department that a certificate of need is required for a proposed expenditure or action, if the applicant wishes to proceed with the project, the applicant must file an application for a certificate of need. [PL 2001, c. 664, §2 (NEW).]

[PL 2011, c. 648, §13 (AMD).]

3. Application content; department-approved forms. An application for a certificate of need must describe with specificity how the proposed project meets each of the standards for granting a certificate of need that are applicable to the project. A statement or statements that the project will meet the standards without supporting facts backed by relevant documentation and analysis constitute sufficient cause to deny the application. An application subject to an expanded review must contain, if

available and relevant to the particular service or technology, information on health status, public health need for the service or technology, quality assurance processes and prevention programs.

A. The department shall make available on the department's publicly accessible website multiple project-specific, department-approved certificate of need forms for at least the following certificate of need categories:

- (1) Nursing facility projects;
- (2) Hospital projects; and
- (3) Other projects subject to review. [PL 2011, c. 648, §14 (NEW).]

B. The department-approved forms must set forth application elements that are relevant to each category and must elicit the information and data reasonably necessary to permit the department to carry out the review and approval process in a timely and cost-effective manner, with consideration for the costs and responsibilities imposed on applicants. [PL 2011, c. 648, §14 (NEW).]

C. Submission of the completed applicable department-approved forms and required information, together with other information that is appropriate to the application, and the applicant's certification that the application is complete pursuant to subsection 4 constitutes a sufficient record for the department to make a determination regarding the application for a certificate of need, unless a hearing is requested either by the department or by a person directly affected by a review. [PL 2011, c. 648, §14 (NEW).]

D. If an application is contested by another provider of services or a person directly affected by a review or the department determines that a public hearing must be held pursuant to section 339, subsection 2, additional information may be required by the department. [PL 2011, c. 648, §14 (NEW).]

[PL 2011, c. 648, §14 (AMD).]

4. Application complete. An application is certified as complete when the applicant delivers to the department a certification in writing that states that the application should be considered complete by the department. Subsequent to the applicant's certification under this subsection, the applicant may submit information that is responsive to any concern, issue, question or allegation of facts contrary to those in the application made by the department or any other person.

[PL 2001, c. 664, §2 (NEW).]

5. Public notice; public informational meeting. Within 5 business days of the filing of a certificate by an applicant that a complete certificate of need application is on file with the department, public notice that the application has been filed must be given by publication in a newspaper of general circulation in Kennebec County and in a newspaper published within the service area in which the proposed expenditure will occur. If an existing health care facility may close or lose bed capacity as a result of a proposal for which a certificate of need application has been filed, the department shall notify the municipal officers of the municipality in which that health care facility is located and the members of the State House of Representatives and the State Senate representing any part of that municipality. The notice must also be provided to all persons who have requested notification by means of asking that their names be placed on a mailing list maintained by the department for this purpose. The notice must also be published on the department's publicly accessible website. This notice must include:

A. A brief description of the proposed expenditure or other action, including the name and location of any existing health care facility that may close or lose bed capacity as a result of a proposal for which a certificate of need application has been filed; [PL 2013, c. 424, Pt. A, §11 (RPR).]

B. A description of the review process and schedule; [PL 2013, c. 424, Pt. A, §11 (RPR).]

C. A statement that any person may examine the application, submit comments in writing to the department regarding the application and examine the entire record assembled by the department

at any time from the date of publication of the notice until the application process is closed for comment; [PL 2013, c. 424, Pt. A, §11 (RPR).]

D. If a public informational meeting is being held, the time and location of the public informational meeting, a statement that any person may appear at the meeting to question the applicant regarding the project or the department regarding the conditions the applicant must satisfy in order to receive a certificate of need for the project, and a statement that a public hearing may be requested by any person directly affected by a review if the request is received by the commissioner within 15 days following the public informational meeting pursuant to the provisions of section 339, subsection 2; and [PL 2013, c. 424, Pt. A, §11 (RPR).]

E. If a public informational meeting is not being held, a statement that a public hearing may be requested by any person directly affected by a review if the request is received by the commissioner within 15 days following the publication of the notice that an application has been filed. [PL 2013, c. 424, Pt. A, §11 (RPR).]

The department shall make an electronic or stenographic record of the public informational meeting.

A public informational meeting is not required for the simplified review and approval process in section 336 unless requested by the applicant, the department or a person directly affected by a review. [PL 2013, c. 424, Pt. A, §11 (RPR).]

6. Voluntary withdrawal of application. During the review period, prior to the date that department staff submits a final report to the commissioner, an applicant may withdraw an application without prejudice by filing written notice of the withdrawal with the department. A withdrawn application may be resubmitted and will be processed as an entirely new application under this chapter. [PL 2001, c. 664, §2 (NEW).]

7. Fees. The department shall adopt rules setting minimum and maximum filing fees under this chapter. A nonrefundable filing fee must be paid at the time an application is filed. If the approved capital expenditure or operating cost upon which a fee is based is higher than the initially proposed capital expenditure, then the filing fee must be recalculated and the difference, if any, must be paid before the certificate of need may be issued. In addition to filing fees, the department shall adopt rules to establish reasonable and necessary fees to carry out the provisions of this chapter. All fees received by the department under this subsection must be placed in a separate, nonlapsing account to be used in accordance with this chapter. Rules adopted pursuant to this subsection are routine technical rules as defined in Title 5, chapter 375, subchapter 2-A.

[PL 2011, c. 648, §16 (AMD).]

8. Suspension of review. An applicant may request and be granted a suspension of the review process prior to the date on which the department staff submits its final analysis to the commissioner.

A. A request for suspension of the review process must be for specific periods of no less than 10 days and not greater than 12 months. [PL 2011, c. 648, §17 (NEW).]

B. If there are no competing applicants, a request under this subsection must be granted. [PL 2011, c. 648, §17 (NEW).]

C. If there are competing applicants, the request under this subsection must be reviewed and approved or disapproved within 3 business days, taking into account the interests of the public and of competing applicants. [PL 2011, c. 648, §17 (NEW).]

D. If a request to suspend the review is granted, the department shall determine:

(1) If the suspension will suspend review of all competing applications; or

(2) If the suspension will not affect competing applications, which will continue to be reviewed without interruption. [PL 2011, c. 648, §17 (NEW).]

E. Failure to reactivate an application within the time period approved by the department results in automatic withdrawal of the suspended application. [PL 2011, c. 648, §17 (NEW).]

The department shall establish criteria for determining when it is not practicable to complete a review within these time frames. Whenever it is not practicable to complete a review within these time frames, the department may extend the review period for up to an additional 30 days.

[PL 2011, c. 648, §21 (AMD).]

Reimbursement, payment or other financial assistance, either directly or indirectly, from a state agency or other 3rd-party payor may be subject to an enforcement action by the commissioner to withhold or deny reimbursement, in whole or in part, with respect to a project granted a certificate of need when the commissioner determines that the applicant fails to meet any of the conditions set forth in the certificate of need approval in accordance with the procedures set forth in section 332. HEALTH AND ENVIRONMENTAL TESTING LABORATORY

§565. Health and Environmental Testing Laboratory

The Health and Environmental Testing Laboratory is established within the department for the chemical and microbiological testing and examination of water supplies, food products, drinking water, environmental and forensic samples and the testing and examination of cases and suspected cases of infectious and communicable diseases. [PL 1991, c. 499, §2 (NEW); PL 1991, c. 499, §26 (AFF).]

1. Coordination with the Department of Environmental Protection. In coordination with the Department of Environmental Protection, the department shall also provide laboratory services for environmental testing and analysis as necessary to implement the programs and duties of the Department of Environmental Protection, pursuant to Title 38, section 342, subsection 4. The commissioner and the Commissioner of Environmental Protection shall enter into joint agreements and establish joint policies as necessary to ensure the provision of appropriate laboratory services. [PL 1991, c. 499, §2 (NEW); PL 1991, c. 499, §26 (AFF).]

2. Director; duties. The Director of the Bureau of Health shall appoint a Director of the Health and Environmental Testing Laboratory, subject to the Civil Service Law and in this chapter known as the "laboratory director." The laboratory director or a designated chief of laboratory operations shall administer the laboratory to safeguard the public health and environment. [PL 1999, c. 62, §1 (AMD).]

3. Fees for services. The department shall establish by rule a schedule of charges for services rendered by the Health and Environmental Testing Laboratory based on the average costs for those services. The department shall establish services essential to the public health. These services must be provided free to residents of the State. [PL 1991, c. 499, §2 (NEW); PL 1991, c. 499, §26 (AFF).]

§567. Certification or accreditation program

The Director of the Bureau of Health shall establish a laboratory certification or accreditation program to ensure that all generated data of laboratories subject to the program is of known and

appropriate quality of precision and accuracy when utilized for departmental programs and programs administered by the Department of Environmental Protection. The Director of the Bureau of Health shall designate a laboratory certification officer to administer this program. [PL 1999, c. 62, §3 (AMD).]

1. Acceptable data. Except as provided in this subsection, 6 months after the adoption of rules specified in subsection 2, certification is required of any commercial, industrial, municipal, state or federal laboratory that analyzes water, soil, air, solid or hazardous waste, or radiological samples for the use of programs of the department or the Department of Environmental Protection, except as provided under chapter 411, the Maine Medical Laboratory Act; Title 26, chapter 7, subchapter 3-A, Substance Use Testing; and Title 29-A, section 2524, administration of tests to determine an alcohol level or drug concentration.

A laboratory operated by a waste discharge facility licensed pursuant to Title 38, section 413 may analyze waste discharges for total suspended solids, settleable solids, biological or biochemical oxygen demand, chemical oxygen demand, pH, chlorine residual, fecal coliform, E. coli, enterococcus, conductivity, color, temperature and dissolved oxygen without being certified under this section. The exception provided under this paragraph applies to a laboratory testing its own samples for pollutants listed in its permit or license; pretreatment samples; and samples from other wastewater treatment plants for up to 60 days per year. The time period provided in this paragraph, which is a maximum period for each treatment plant for which analysis is provided, may be extended by memorandum of agreement between the Department of Environmental Protection and the Health and Environmental Testing Laboratory.

[PL 2019, c. 580, §1 (AMD).]

2. Certification or accreditation program requirements. The department and the Department of Environmental Protection shall establish by rule program requirements, standards and criteria for the evaluation and certification or accreditation of laboratories.

[PL 1999, c. 62, §3 (AMD).]

3. Certificate issued. A laboratory must be issued a certificate when the laboratory certification officer determines that the laboratory has the capability to analyze samples with known and appropriate quality of precision and accuracy and is in compliance with other certification or accreditation requirements. Certificates are effective for 2 years from date of issuance provided the laboratory continues to be in compliance with certification or accreditation requirements.

[PL 1999, c. 62, §3 (AMD).]

4. Certification or accreditation fees. A certification or accreditation fee schedule based on the cost of certifying or accrediting laboratories must be established by rule. Certification or accreditation fees are payable upon application for certification or accreditation and must be deposited in the Health and Environmental Testing Laboratory Special Revenue Account.

CHAPTER 159-A**STATE NUCLEAR SAFETY PROGRAM****§661. Public policy**

In the interests of the public health and welfare of the people of this State, it is the declared public policy of this State that a facility licensed by the United States Nuclear Regulatory Commission and situated in the State must be accomplished in a manner consistent with protection of the public health and safety and in compliance with the environmental protection policies of this State. It is the purpose of this chapter, in conjunction with sections 671 to 690; Title 25, section 51; and Title 35-A, sections 4351 to 4393, to exercise the jurisdiction of the State to the maximum extent permitted by the United States Constitution and federal law and to establish in cooperation with the Federal Government a state nuclear safety inspector program for the on-site monitoring, regulatory review and oversight of a facility within the State that holds a license issued by the United States Nuclear Regulatory

Commission. Nothing in this chapter may be construed as an attempt by the State to regulate radiological health and safety reserved to the Federal Government by reason of the United States Atomic Energy Act of 1954, as amended. [PL 2007, c. 539, Pt. KK, §1 (AMD).]

As used in this chapter, unless the context otherwise indicates, the following terms have the following meanings. [PL 1987, c. 519, §1 (NEW).]

1. Facility. A "facility" means a production or utilization facility situated in this State that holds an operating permit or license issued by the United States Nuclear Regulatory Commission. It also means a power reactor licensee situated in the State, whether decommissioned or not, with a possession-only license issued by the United States Nuclear Regulatory Commission for special nuclear material, by-product material and source material. It also includes spent fuel or high-level waste storage facilities.

§663-A. State Nuclear Safety Inspector

There is established within the department the State Nuclear Safety Inspector Office administered by the State Nuclear Safety Inspector. The State Nuclear Safety Inspector is a classified employee, subject to the Civil Service Law. [PL 2007, c. 539, Pt. KK, §2 (NEW).]

1. Qualifications. The State Nuclear Safety Inspector must be an individual knowledgeable in the field of commercial nuclear power production and possess, at a minimum, a bachelor's degree with major work in nuclear, mechanical, electrical or chemical engineering and have at least 4 years' experience in nuclear operations.

[PL 2019, c. 589, §1 (AMD).]

2. Duties. The State Nuclear Safety Inspector shall serve as an on-site nuclear safety inspector of a facility and of the on-site storage and transportation of high-level and low-level nuclear waste.

[PL 2007, c. 539, Pt. KK, §2 (NEW).]

3. Staff. The State Nuclear Safety Inspector may employ other personnel as necessary to carry out the purposes of this chapter.

§664. Responsibility of facility licensees

The responsibility of facility licensees is as follows. [PL 1997, c. 686, §5 (AMD).]

1. Records. Each facility licensee shall permit the inspection and copying, for the purposes of this chapter, of its books and records, maintained in any form, except that books and records that are privileged as a matter of law, proprietary, security-related or restricted by federal law, are not open to inspection. Subject to the approval of the United States Nuclear Regulatory Commission and of the facility licensee, access to books and records that are proprietary, security-related or restricted by federal law may be granted if the State Nuclear Safety Inspector, on behalf of the State, enters into a nondisclosure agreement. For purposes of this section, proprietary information includes personnel records, manufacturers' proprietary information, licensee proprietary information and trade secrets. For purposes of this subsection, "trade secrets" means any confidential formula, pattern, process, device, information or compilation of information, including chemical name, that is used in any employer's business that gives the employer an opportunity to obtain any advantage over competitors who do not know or use it.

[PL 2007, c. 539, Pt. KK, §3 (AMD).]

2. Monitoring. Each facility licensee shall permit monitoring, for the purposes of this chapter, of the premises, equipment and materials, including source, special nuclear and by-product materials, in its possession or use, or subject to its control and any vehicle or means of transportation used to remove materials or equipment from the site, including, but not limited to, by rail, water, roadway or air. Monitoring of vehicles or other means of transportation used to remove materials or equipment from the site must be undertaken in a manner that is safe, that employs properly calibrated instruments and that does not result in unreasonable delays in the removal of materials or equipment from the site.

For the purposes of this subsection, "monitoring" means any one or combination of the following:

A. Observing the conduct of operations, including maintenance, quality assurance activities, the preparation, transportation and handling of radioactive waste, emissions monitoring, radiation protection and the observation of emergency preparedness tests and drills; [PL 1999, c. 739, §1 (NEW).]

B. Taking analytical radiological measurements using properly calibrated instruments to confirm:

- (1) The results of quality assurance activities undertaken by or on behalf of the facility licensee;
- (2) That the preparation, transportation and handling of radioactive waste is undertaken in accordance with applicable standards;
- (3) The results of emissions monitoring undertaken by or on behalf of the facility licensee; or
- (4) That adequate radiation protection measures are in place; and [PL 2005, c. 254, Pt. B, §4 (AMD).]

C. Taking radiological measurements for the purpose of verifying compliance with applicable state laws, including, but not limited to, Title 38, section 1455, and confirming and verifying compliance with the standards of the United States Nuclear Regulatory Commission for unrestricted license termination, provided that the taking of such measurements employs techniques, protocols, instruments and quality assurance practices in accordance with generally accepted scientific or industry practices, including, but not limited to, those described in the federal Multi-Agency Radiation Survey and Site Investigation Manual. [PL 1999, c. 739, §1 (NEW).]

The licensee shall, upon request, provide split samples to the State Nuclear Safety Inspector. All analytical measurements taken pursuant to this subsection must be shared with the licensee. The licensee may provide data to explain any conflicts between measurements taken by the licensee and measurements taken pursuant to this subsection.

The responsibilities of the State Nuclear Safety Inspector are as follows. [PL 2007, c. 539, Pt. KK, §5 (REEN).]

1. Damages to public health and safety. If the State Nuclear Safety Inspector has reason to believe that any activity poses a danger to public health and safety, and after notifying the facility licensee and the United States Nuclear Regulatory Commission, the inspector shall immediately notify the Governor and the Commissioner of Health and Human Services. This subsection may not be construed as precluding the State Nuclear Safety Inspector from discussing the safety inspector's concerns with the United States Nuclear Regulatory Commission or others before making a determination that any activity poses a danger to public health and safety.

[PL 2011, c. 655, Pt. MM, §12 (AMD); PL 2011, c. 655, Pt. MM, §26 (AFF).]

2. Reports. The State Nuclear Safety Inspector, with the cooperation of the Director of Health Engineering, shall prepare a report of the safety inspector's activities under this chapter to be submitted July 1st of each year to the Governor's Energy Office and the Legislature. The State Nuclear Safety Inspector shall prepare monthly reports for the Governor's Energy Office, the President of the Senate and the Speaker of the House, with copies to the United States Nuclear Regulatory Commission and the facility licensee.

[PL 2011, c. 655, Pt. MM, §12 (AMD); PL 2011, c. 655, Pt. MM, §26 (AFF).]

3. Confidential and privileged information. The State Nuclear Safety Inspector shall keep confidential and privileged the identity of any person providing communications that, in the opinion of the State Nuclear Safety Inspector, support a presumption of unsafe activities, conduct or operation of a facility or that indicate any violation of the facility licensee's license issued by the United States Nuclear Regulatory Commission, unless the request for confidentiality is waived or withdrawn by such person. The safety inspector shall make all prudent efforts to investigate the basis for any related allegation of unsafe or improper activities and shall cooperate to the extent feasible with the United States Nuclear Regulatory Commission personnel in this effort. Any information brought to the attention of the safety inspector that involves the safety of the plant or a possible violation of United States Nuclear Regulatory Commission regulations must be immediately brought to the attention of the United States Nuclear Regulatory Commission and the facility licensee.

The Interim Spent Fuel Storage Facility Oversight Fund, referred to in this section as "the fund," is established as a nonlapsing fund within the radiation control program in the department. All fees paid under this subchapter are collected by the department for deposit in the fund. Money allocated from this fund must be administered by the commissioner in accordance with established budgetary procedures and this section. The commissioner may accept state, federal and private funds to be used as appropriate to ensure safe and effective low-level radioactive waste management and to monitor and evaluate plans for storage and disposal of high-level radioactive waste.

[PL 1993, c. 664, §10 (NEW).]

2. Service fee; ceiling. Except for waste that is exempt in accordance with subsection 4, the department shall assess annually by September 1st each low-level radioactive waste generator a service fee on all low-level radioactive waste generated in this State that is shipped to a low-level radioactive waste disposal facility, stored awaiting disposal at such a facility or stored for any other purpose. The service fee must be based 50% on the volume and 50% on the radioactivity of the waste disposed in a disposal facility in the previous calendar year or placed in storage in the previous calendar year if the State did not have access to a disposal facility for that year, but each generator must be assessed a minimum of \$100 annually. Each generator must pay this service fee within 30 days, except that any generator may choose to make quarterly payments instead. Any radioactive waste for which a service fee was assessed and collected under this section can not be reassessed for the purposes of this section.

An ex parte order must be served on the subject of the petition immediately upon apprehension.

[PL 1989, c. 487, §11 (NEW).]

2. Hearing within time certain. Unless waived in writing by the individual, after opportunity to consult with an attorney, a hearing shall be held within 72 hours of apprehension, exclusive of

§812. Public health measures

1. Court order. If, based upon clear and convincing evidence, the court finds that a public health threat exists, the court shall issue the requested order for treatment or such other order as may direct the least restrictive measures necessary to effectively protect the public health. These measures include, but are not limited to:

A. Participation in an education program designated or developed in accordance with rules adopted pursuant to section 802 or 807; [PL 1989, c. 487, §11 (NEW).]

D. Appearance before designated health officials for purposes of monitoring measures set out in paragraph A, B or C; [PL 1989, c. 487, §11 (NEW).]

E. Part or full-time supervision or monitoring for a period and under conditions set by the court; [PL 1989, c. 487, §11 (NEW).]

F. Commitment to a facility that will provide appropriate diagnosis, care, treatment or isolation of the individual without undue risk to the public health, for a period not to exceed 30 days and under conditions set by the court; [PL 1989, c. 487, §11 (NEW).]

G. Undergoing a comprehensive medical assessment by the State Forensic Service. The court, in selecting the examination site, shall consider proximity to the court, availability of an examiner and the need to protect the public health. No person may be presented for examination under this

subsection without arrangements for examination having first been made by the court, clerk of the court or the petitioner with the State Forensic Service. The opinion of the State Forensic Service must be reported to the court forthwith following the examination.

The court shall order the individual to be further examined by a psychiatrist, neurologist and any additional expert if, based on the report of the State Forensic Service, it appears that:

- (1) The individual suffers from a mental disease or defect that causes the individual to act in such a manner as to endanger others with risk of infection with a communicable disease; or
- (2) Further observation or examination is required.

If, based on the examinations, the department determines that admission to an appropriate institution for persons with mental illness or a residential program for persons with intellectual disabilities is necessary, it shall petition for involuntary hospitalization pursuant to Title 34-B, chapter 3. If the District Court orders the involuntary hospitalization of the individual pursuant to Title 34-B, chapter 3, the petition brought pursuant to section 811 must be dismissed without prejudice. If it is determined that admission to an appropriate institution for persons with mental illness or a residential program for persons with intellectual disabilities is not necessary, the head of the institution where the examinations have taken place shall notify the commissioner or the commissioner's designee, prior to discharging the respondent.

In no event may the period of examination pursuant to this subsection exceed 60 days without further order by the court, which may extend commitment for further observation or examination for an additional 60 days, provided that the court finds facts sufficient to show that the individual suffers from a mental disease or defect that causes the individual to act in such a manner as to endanger others with risk of infection with a communicable disease; and [PL 2011, c. 542, Pt. A, §26 (AMD).]

The court shall hold a hearing in

[PL 1989, c. 487, §11 (NEW).]

The committed patient may request the appointment of a medical review board. Upon motion of the patient, the committing court shall appoint a medical review board to determine whether the patient's medical status permits termination of the commitment. The medical review board shall consist of 3 physicians appointed by the court who shall have training and experience in the treatment of the communicable disease. Upon the request of the patient, the court shall appoint as one member of the board a physician who has training and experience in the treatment of communicable diseases who is selected by the patient. Upon receipt of the findings of the medical review board and any other evidence, the court, after a hearing pursuant to this subsection, may continue or terminate the commitment.

A report of the hearing proceedings may not be released to the public, except by permission of the person whose blood or body fluid is the source of the exposure or that person's counsel and with the approval of the court. [PL 1997, c. 368, §1 (NEW).]

D. The court may order a public hearing at the request of the person whose blood or body fluid is the source of the exposure or that person's counsel. [PL 1997, c. 368, §1 (NEW).]
[PL 1997, c. 368, §1 (NEW).]

4. Determination. The court shall require the person whose blood or body fluid is the source of the exposure to obtain a blood-borne pathogen test and shall require that the results of the test be provided to the petitioner only if the petitioner proves by a preponderance of the evidence that:

A. The exposure to blood or body fluids of the person created a significant risk of infection with a blood-borne pathogen as defined by the Bureau of Health through the adoption of rules; [PL 1997, c. 368, §1 (NEW).]

B. An authorized representative of the employer of the person exposed has informed the patient of the occupational exposure and has sought to obtain written informed consent from the person whose blood or body fluid is the source of the exposure; and [PL 1997, c. 368, §1 (NEW).]

C. Written informed consent was not given by the person whose blood or body fluid is the source of the exposure and that person has refused to be tested. [PL 1997, c. 368, §1 (NEW).]
[PL 1997, c. 368, §1 (NEW).]

5. Consent. The court may not order a person whose blood or body fluid is the source of the exposure to obtain a blood-borne pathogen test unless the employee exposed to the blood or body fluids of that person has consented to and obtained a blood-borne pathogen test immediately following that documented exposure.
[PL 1997, c. 368, §1 (NEW).]

6. Costs. The employer of the person exposed is responsible for the petitioner's reasonable costs related to obtaining the results of a blood-borne pathogen test pursuant to this section, including the payment of the petitioner's attorney's fees. [PL 1997, c. 368, §1 (NEW).]

7. Appeals. A person required to undergo a blood-borne pathogen test may appeal the order to Superior Court. The appeal is limited to questions of law. Any findings of fact of the District Court may not be set aside unless clearly erroneous. [PL 1997, c. 368, §1 (NEW).]

8. Subsequent testing. Subsequent testing arising out of the same incident of occupational exposure must be conducted in accordance with this section. [PL 1997, c. 368, §1 (NEW).]

1. Definitions. As used in this section, unless the context otherwise indicates, the following terms have the following meanings.

A. "Aggressive blood-borne pathogen" means a blood-borne pathogen whose pathology is such that a person who has been exposed to the pathogen must receive medical treatment to have a chance to effectively neutralize the pathogen. [PL 2017, c. 292, §1 (NEW).]

B. "Body fluids" means body fluids that are excreted or secreted from the body, including, but not limited to, urine, feces, blood or saliva. [PL 2017, c. 292, §1 (NEW).]

C. "Emergency medical care provider" includes hospital personnel assisting in an emergency and emergency medical services persons, defined in Title 32, section 83, subsection 12, but does not include a firefighter. [PL 2023, c. 455, §4 (AMD).]

D. "Firefighter" has the same meaning as in Title 17-A, section 752-E, subsection 2. [PL 2017, c. 292, §1 (NEW).]

[PL 2023, c. 455, §4 (AMD).]

2. Testing; expedited hearing. When a first responder has been exposed to a person's body fluids in the course of the first responder's official duties, the first responder or the first responder's designee may ask the person whose body fluids were the source of exposure to the first responder to submit to a blood test. If the person refuses, the first responder may petition the court and, if there is reasonable cause to suspect that the person's body fluids might contain an aggressive blood-borne pathogen, the court may order that a hearing be held in accordance with the procedures set forth in section 832, except that:

A. Upon receipt by the District Court of the petition, the court shall schedule a hearing to be held within 72 hours of the filing of the petition; [PL 2017, c. 292, §1 (NEW).]

All members, with the exception of the representative of the pharmaceutical manufacturing industry, may serve successive terms. A member whose term has expired may serve until the appointment of the member's successor. [PL 2009, c. 595, §2 (NEW).]

C. The board shall elect a chair from among its members to serve a 2-year term or for the duration of that person's term. The chair may serve successive terms. Five voting members constitute a quorum. Decisions of the board require the affirmative vote of 5 members. [PL 2009, c. 595, §2 (NEW).]

D. The board shall meet 4 times per year and when a meeting is called by the chair and shall oversee the fund and program and adopt policies and procedures to administer the program and the fund. [PL 2009, c. 595, §2 (NEW).]

E. By January 1, 2011 and annually thereafter, the board shall determine the list of vaccines to be made available by the program during the succeeding program year beginning July 1st. In making its determination, the board shall consider:

(1) Vaccines recommended by the advisory committee that are available under contract with the United States Department of Health and Human Services, Centers for Disease Control and Prevention;

(2) Recommendations of the department, based on the department's review of the advisory committee recommendations; and

(3) Clinical and cost-benefit analyses.

F. The board shall contract for staff, administrative support services and, if necessary, legal representation; review financial, cost and other information about the program annually or more often as determined by the chair; and pay the costs of the service agent under subsection 9, legal representation and contracted services from the fund. [PL 2009, c. 595, §2 (NEW).]

[PL 2017, c. 7, §1 (AMD).]

4. Program requirements. The program shall make available to providers vaccines as determined by the board pursuant to subsection 3, paragraph E.

[PL 2009, c. 595, §2 (NEW).]

5. Assessments. By January 1, 2011 and annually thereafter, the board shall determine an assessment for each assessed entity in accordance with this subsection. The board shall provide a mechanism to protect against duplicate counting of children. The board may conduct an audit of the number of covered life months for children as reported by an assessed entity. An assessment determination made pursuant to this subsection is an adjudicatory proceeding within the meaning of Title 5, chapter 375, subchapter 4.

A. In determining the amount of the assessment, the board shall:

(1) Determine the total costs of the fund for the succeeding program year;

(2) Add a reserve of up to 10% of the total costs of the fund under subparagraph (1) for unanticipated costs associated with providing vaccines to children covered by the assessed entity;

(3) Subtract the amount of any unexpended assessments collected in the preceding year and any unexpended interest accrued to the fund during the preceding year; and

(4) Calculate the assessment on a monthly basis per child to be paid by an assessed entity by dividing the amount determined in accordance with subparagraphs (1), (2) and (3) by the number of children projected to be covered by the assessed entity during the succeeding program year divided by 12. [PL 2009, c. 595, §2 (NEW).]

B. The board shall provide the assessed entity with notice of the assessment amount for the succeeding program year no later than January 1, 2011 and annually thereafter. [PL 2009, c. 595, §2 (NEW).]

C. Beginning July 1, 2011, the assessment must be paid on a quarterly basis as follows:

(1) An assessed entity shall pay a quarterly assessment equal to the monthly assessment rate per child as described under paragraph A, subparagraph (4) multiplied by the number of child member months covered by the assessed entity in the preceding calendar quarter; and

(2) The assessment must be paid within 45 days following the close of the calendar quarter. [PL 2009, c. 595, §2 (NEW).]

D. After the close of a program year, the board shall reconcile the total assessments paid by assessed entities, including interim assessments determined under paragraph E, with the actual costs of vaccines provided under the program to children covered by assessed entities during that program year and the annual operating expenses of the program during that program year. Any unexpended assessments must be used to reduce the assessment in the succeeding program year as required under paragraph A, subparagraph (3). [PL 2009, c. 595, §2 (NEW).]

E. The board may determine an interim assessment for new vaccines that the board has made available through the program pursuant to subsection 3, paragraph E. The board shall calculate the interim assessment in accordance with paragraph A, and the interim assessment is payable the calendar quarter that begins no less than 30 days following the establishment of the federal contract price. The board may not impose more than one interim assessment per year, except in the case of

a public health emergency declared in accordance with state or federal law. [PL 2009, c. 595, §2 (NEW).]

If the combination of funding available from the United States Department of Health and Human Services, Centers for Disease Control and Prevention, Vaccines for Children Program and the immunization grant program under the federal Public Health Service Act, Section 1928 of the Social Security Act, 42 United States Code, Section 1396s is insufficient to provide coverage for vaccines for the children who qualify for vaccines under the Vaccines for Children Program, money from the fund may not be used to cover the cost of vaccines for children who would otherwise be provided vaccines under the Vaccines for Children Program. [PL 2009, c. 595, §2 (NEW).]

G. If the assessments under this subsection are insufficient to cover the cost of vaccines to be provided to children covered by assessed entities, the State is not required to cover the cost of vaccines for those children. [PL 2009, c. 595, §2 (NEW).]

[PL 2009, c. 595, §2 (NEW).]

6. Failure to pay assessment. If an assessment under subsection 5 is not paid on the due date established by the board, the provisions of this subsection apply.

A. The board shall submit a report to the superintendent listing each assessed entity that has failed to pay an assessment under subsection 5. [PL 2009, c. 595, §2 (NEW).]

B. If an assessed entity has not paid an assessment under subsection 5 within 45 days following the close of the calendar quarter, interest accrues at 12% per annum on or after the due date. Interest paid under this paragraph must be deposited into the fund. Upon application, the board may waive such interest payments for good cause shown. [PL 2009, c. 595, §2 (NEW).]

The superintendent may take any action authorized under Title 24-A to enforce collection of any unpaid assessment or fine and may impose any penalty authorized under Title 24-A for noncompliance with this section if the assessed entity has engaged in a pattern of conduct that demonstrates a lack of good faith in complying with the requirements of this subsection.

[PL 2009, c. 595, §2 (NEW).]

7. Fund. The Childhood Immunization Fund is established for the sole purpose of funding the program, including any costs of vaccines provided under the program to children and any costs the board may incur for staff, a service agent, administrative support services, legal representation and contracted services. The fund is administered by the board or the service agent, which shall act as a fiduciary and manage and invest the fund in conformance with prudent investor standards and maintain complete records of all assets, investments, deposits, disbursements and other transactions of the fund. All money and securities in the fund must be held in trust by the Treasurer of State for the purpose of making payments under this section and are not money or property for the general use of the State. The Treasurer of State is the custodian of the fund and may make disbursements only upon written direction from the board or the service agent. All assessments collected pursuant to this section, all interest on the balance in the fund and all income from any other source must be deposited into the fund. The fund does not lapse. No portion of the fund may be used to subsidize other programs or budgets.

[PL 2009, c. 595, §2 (NEW).]

8. Reporting. By January 15th of each year the board shall report to the joint standing committee of the Legislature having jurisdiction over health and human services matters regarding the operation of the program, the progress of the program in expanding access to immunizations for children and the assets, investments and expenditures of the fund.

[PL 2009, c. 595, §2 (NEW).]

C. Shall make recommendations to the board regarding policies, rules and standards necessary for the proper administration of the fund. [PL 2009, c. 595, §2 (NEW).]
[PL 2009, c. 595, §2 (NEW).]

10. Freedom from liability. There is no liability on the part of, and a cause of action may not arise against, a member of the board for any acts or omissions in the performance of the member's duties under this section. 1. Establishment of procedures. The commissioner, in consultation with the Commissioner of Agriculture, Conservation and Forestry and the Commissioner of Inland Fisheries and Wildlife, shall adopt rules, in accordance with the Maine Administrative Procedure Act, establishing procedures for responding to a report of an animal suspected of having rabies. The procedures must include provisions for the transportation, quarantine, euthanasia and testing of an animal suspected of having rabies and, when that animal has bitten a person, provisions for the notification of the animal control officer in the locality where the bite occurred. The procedures may differ based on the perceived public health threat determined in part by consideration of the following factors:

A. Whether the animal is a domesticated animal for which a known effective vaccine exists and, if so, whether the animal's vaccination status can be verified; [PL 2007, c. 133, §1 (AMD).]

B. Whether the animal has bitten a person or exhibited other aggressive behavior; and [PL 2007, c. 133, §1 (AMD).]

C. Whether the animal is a wolf hybrid that has bitten or may have otherwise exposed a person or a domesticated animal to rabies. [PL 2007, c. 133, §1 (NEW).]

[PL 2007, c. 133, §1 (AMD); PL 2011, c. 657, Pt. W, §6 (REV).]

2. Role of animal control officer; game warden. An animal control officer appointed in accordance with Title 7, section 3947 receiving a report of an animal suspected of having rabies shall ensure that the procedures established pursuant to this section and sections 1313-A and 1313-B are carried out. If the animal is an undomesticated animal, other than a wolf hybrid, a game warden shall assist the animal control officer.

[PL 2007, c. 133, §1 (AMD).]

3. Costs associated with transportation, quarantine, testing and euthanasia. The Department of Inland Fisheries and Wildlife shall provide for or pay all necessary costs for transportation and euthanasia of an undomesticated animal suspected of having rabies. The owner of a domesticated animal or a wolf hybrid suspected of having rabies shall pay all costs for transportation, quarantine,

euthanasia and testing of the animal. If a domesticated animal or a wolf hybrid is a stray or the owner is unknown, the municipality in which the animal was apprehended is responsible for transportation, quarantine, euthanasia and testing costs. Cost of testing animals judged by the department to have created a public health risk of rabies must be borne by the department through its General Fund appropriations.

§1313-A. Provisions for immediate destruction of certain animals

If an undomesticated animal suspected of having rabies bites or may have otherwise exposed to rabies a person or a domestic animal, an animal control officer or a game warden shall immediately either remove the undomesticated animal or cause the undomesticated animal to be removed and euthanized for testing. 1. Notice posted. The department shall post in or upon the dwelling, premises, residential child-occupied facility, child care facility, premises of the family child care provider or nursery school, in a conspicuous place or places, notice of the existence of environmental lead hazard. Notice may not be removed until the department states that the property owner has complied with the order issued pursuant to subsection 3 that the lead-based substances be removed, replaced or securely and permanently covered;
[PL 2019, c. 100, §1 (AMD).]

2. Notice to persons. The department shall give notice of the existence of the environmental lead hazard to all occupants;

3. Notice to owner; removal. The department shall give notice of the existence of the environmental lead hazard to the owner and order that the lead-based substances be removed, replaced or securely and permanently covered within 30 days of receipt of the notice. If the lead-based substances can not be removed, replaced or securely and permanently covered within 30 days, the department may grant an extension of reasonable time. All lead-based paint activities must be performed in accordance with rules adopted by the Department of Environmental Protection pursuant to Title 38, chapter 12-B. §1322. Child occupants

A person may not knowingly rent a dwelling that has been posted and ordered cleared of harmful lead-based substances in accordance with section 1321, except when waived by the department in accordance with this section. In circumstances where the presence of lead-based paint or building materials is unsuspected and becomes known when the dwelling is already rented to a family with children, the family of the children may not be evicted for that reason and the owner and occupant of the dwelling must be given written notice by the department advising of the existence of lead-based substances in the dwelling and ordering that within 30 days the lead-based substances be removed, replaced or securely and permanently covered. [PL 2023, c. 270, §1 (AMD).]

Until the owner brings any residential dwelling or premises into compliance with this Act while a tenant is occupying a dwelling unit, the owner shall move the tenant to a substitute dwelling unit upon reasonable notice. The department may, on a case-by-case basis, waive this requirement if the department determines that the implementation of actions to reduce lead exposure or interim controls sufficiently protects the residents of the unit until full abatement is achieved. Pursuant to section 1321, subsection 3-A, the department may order the owner to implement lead exposure reduction actions or interim controls as determined by the department with reasonable notice. The owner shall pay reasonable moving expenses and any use and occupancy charges for a substitute dwelling unit that exceed the rent for the vacated dwelling unit for which the tenant remains responsible. "Substitute dwelling unit" means a dwelling unit of like or similar accommodation and in like or similar location that is lead-safe. If the tenant fails to accept the substitute dwelling unit selected by the owner while the owner is required to bring the vacated dwelling unit into compliance with this Act or the tenant fails to remain current in rent pursuant to the lease or tenancy at will under Title 14, section 6002, including the statutory period of right to cure, the owner is not obligated beyond 10 days after completion of remediation to reimburse the tenant for any expense or inconvenience other than moving expenses and any use and occupancy charges for the substitute dwelling unit selected by the owner that exceed the rent for the vacated dwelling unit. [PL 2023, c. 82, §2 (AMD).]

The department may, on a case-by-case basis, waive the prohibition on renting and permit the owner of an owner-occupied residential dwelling of 3 dwelling units or fewer for which lead-based substances have been ordered to be removed, replaced or securely and permanently covered in accordance with section 1321 to rent a vacant unit or units in that residential dwelling before full abatement of the dwelling is achieved if the department determines that residents may be sufficiently protected from lead-based substances in the dwelling. (WHOLE SECTION TEXT EFFECTIVE UNTIL CONTINGENCY: See T. 22, §1322-F, sub-§4)

1. Fee imposed. Beginning July 1, 2006, a fee is imposed on manufacturers or wholesalers of paint sold in the State to support the Lead Poisoning Prevention Fund under section 1322-E. The fee must be imposed at the manufacturer or wholesaler level, in the amount of 25¢ per gallon of paint estimated to have been sold in the State during the prior year, as determined by rule adopted by the department.

The rules must provide for waivers of payment for manufacturers and wholesalers of paint that is sold in low quantities in the State. The costs for development of these rules and for administration of the Lead Poisoning Prevention Fund must be reimbursed from the fees collected. The rules must specify that the first payment of fees is due by April 1, 2007. CHAPTER 257-A

CONTROL OF BROWNTAIL MOTHS

§1444. Control of browntail moths

1. Declaration of public health nuisance. The Director of the Bureau of Health may declare that an infestation of browntail moths is a public health nuisance. The declaration may be made on the director's own initiative or on petition to the director by municipal officers in a municipality affected by the infestation.

[PL 1997, c. 215, §1 (NEW).]

2. Aerial spraying. When the infestation causing a public health nuisance may be controlled by the aerial spraying of pesticides, the municipal officers in the affected municipality may conduct aerial spraying subject to rules adopted by the Board of Pesticides Control pursuant to Title 7, section 610 and Title 22, section 1471-M, except that:

A. The municipality is responsible for compliance with the notification and consent regulations; [PL 2015, c. 58, §1 (AMD).]

B. Landowners who are sent written notification by mail, sent to the landowner's last known address as contained in the municipal assessing records and who fail to respond to the notice within 30 days are deemed to have consented to aerial spraying; [PL 1997, c. 215, §1 (NEW).]

C. A landowner's written consent to spray remains valid unless the municipal officers are notified in writing at least 90 days before spraying is to occur that:

(1) The landowner withdraws consent; or

(2) Ownership of the property has been transferred and the notice contains the name and mailing address of the new owner; [PL 1997, c. 215, §1 (NEW).]

D. [PL 2015, c. 58, §1 (RP).]

E. Written notice to the landowners must identify the chemicals to be used in the aerial spraying; and [PL 1997, c. 215, §1 (NEW).]

F. Public notice of the date of the aerial spraying, subject to change because of weather conditions, must be given 24 hours prior to the spraying. [PL 1997, c. 215, §1 (NEW).]
[PL 2015, c. 58, §1 (AMD).]

3. Refusal to consent; cost of extermination. After the declaration of the Director of the Bureau of Health and a written declaration by the municipal officers of their intent to conduct aerial spraying, any landowner who refuses to consent to aerial spraying shall remove any browntail moth infestation from that landowner's property at that landowner's expense in a time and manner satisfactory to the local health officer. Regardless of whether the nonconsenting landowner's property has an infestation of moths, the nonconsenting landowner is also liable for the additional expenses actually incurred by neighboring consenting landowners or the municipality when neighboring consenting landowners or the municipality uses a method of removal other than aerial spraying due to lack of consent. In such cases, consenting landowners shall remove any browntail moth infestation from their own property at their own initial expense in a time and manner satisfactory to the local health officer.

All additional expenses incurred by a municipality must be repaid to the municipality within 30 days after written demand mailed to the nonconsenting landowner by the municipal officers. If the written demand is not met, a service charge may be assessed by the municipal officers against the land of the nonconsenting landowner for the amount of those expenses. The service charge must be collected in the same manner as municipal sewer service charges are collected pursuant to Title 30-A, section 3406.

All additional expenses incurred by neighboring consenting landowners may be collected by the municipality from nonconsenting landowners as a service charge described in this subsection, following certification in writing by the consenting landowners to the municipal officers of the additional costs. The municipal officers shall make suitable provisions to reimburse the consenting landowners from the amounts collected.

The department is the lead agency for monitoring for mosquito-borne diseases in the State and determining the severity of the threat to the public health. The Maine Center for Disease Control and Prevention shall create and maintain an arboviral illness surveillance, prevention and response plan for the purposes of alerting the public and other state, local and federal agencies about the existence of the threat so that appropriate actions may be taken. When available surveillance information indicates a strong likelihood of a human disease outbreak arising from mosquito-borne pathogens, the commissioner may declare a mosquito-borne disease public health threat in accordance with the Maine Center for Disease Control and Prevention arboviral illness surveillance, prevention and response plan. The board, in cooperation with the University of Maine Cooperative Extension Service, shall study ways to improve pesticide information data bases and to optimize the useful analysis of reported information.

Before April 1, 2002, the board shall submit a report on pesticide activities during the previous calendar year to the joint standing committee of the Legislature having jurisdiction over pesticide control matters. The report must contain sales information on quantities of pesticides sold listed by the common name of the active ingredient.

- D. The minor informs the health care professional that the minor has discussed the minor's gender dysphoria with a parent or guardian of the minor and that parent or guardian refused to support treatment of the minor's gender dysphoria; and [PL 2023, c. 413, §1 (NEW).]
- E. The minor provides informed written consent to the receipt of gender-affirming hormone therapy in accordance with the requirements of subsection 3; the health care professional makes the written consent that is set forth in a writing containing the information and statements required by subsection 3, paragraph B and that is signed by the minor a part of the minor's health record; and the minor, under all the surrounding circumstances, is mentally and physically competent to give consent. [PL 2023, c. 413, §1 (NEW).]

[PL 2023, c. 413, §1 (NEW).]

3. Informed consent. A minor who meets the requirements of subsection 2, paragraphs A to D may provide informed written consent to gender-affirming hormone therapy and follow-up care only in accordance with the requirements of this subsection.

A. A health care professional shall, in a manner that the health care professional believes is not misleading and will be understood by the minor:

- (1) Explain that the information being given to the minor is not intended to coerce, persuade or induce the minor to consent to gender-affirming hormone therapy;
- (2) Explain that the minor may withdraw the decision to commence or to continue to receive gender-affirming hormone therapy at any time either before the therapy begins or during the course of the therapy;
- (3) Clearly and fully explore with the minor the alternative choices available for managing and treating gender dysphoria;
- (4) Explain the physiological effects, benefits and possible consequences of gender-affirming hormone therapy and follow-up care, including the physiological effects, benefits and possible consequences of discontinuing the therapy;

(6) Provide an adequate opportunity for the minor to ask any questions concerning gender dysphoria, gender-affirming hormone therapy and follow-up care and provide the information the minor seeks or, if the health care professional cannot provide the information, explain where the minor can obtain the information. [PL 2023, c. 413, §1 (NEW).]

B. After providing the information and counseling required by paragraph A, the health care professional shall have the minor sign and date a form stating:

(1) The business address and telephone number of the health care professional who provided the information and counseling required by paragraph A;

(2) The minor has received information on gender-affirming hormone therapy and follow-up care, including the benefits and possible consequences of and alternatives to gender-affirming hormone therapy;

(3) The minor has received an explanation that the minor may withdraw consent to gender-affirming hormone therapy at any time, including after therapy begins;

(4) The alternatives for managing gender dysphoria have been clearly and fully explored with the minor;

(5) The minor has discussed with the health care professional the possibility of involving the minor's parents or guardians in the minor's decision making about gender-affirming hormone therapy and follow-up care. If the minor has chosen not to involve the minor's parents or guardians, the reasons for making that choice must be stated in writing on the form; and

If the health care professional who provided the information and counseling required by paragraph A is not the health care professional who will provide gender-affirming hormone therapy to the minor, at the minor's request the health care professional shall transmit the form to the health care professional who will provide gender-affirming hormone therapy to the minor. [PL 2023, c. 413, §1 (NEW).]

[PL 2023, c. 413, §1 (NEW).]

4. Rebuttable presumption of validity. A written consent of a minor who meets the requirements of subsection 2 that is set forth in a writing containing the information and statements required by subsection 3, paragraph B and that is signed by the minor is presumed to be a valid, informed consent to treatment for gender-affirming hormone therapy and bars an action by a parent or guardian of the minor on the grounds of battery, malpractice or any other claim for providing gender-affirming hormone therapy without consent from a parent or guardian. The presumption of validity established in this subsection may be rebutted only by evidence that the minor's consent was obtained through fraud, deception or misrepresentation of material fact.

[PL 2023, c. 413, §1 (NEW).]

5. Disallowance of recovery. Recovery is not allowed against a health care professional upon the grounds that gender-affirming hormone therapy of a minor who meets the requirements of subsection 2 was rendered without the informed consent of the minor when:

A. The health care professional, in obtaining the minor's consent, complied with the terms of this section and the standards of care among members of the same health care profession with similar training and experience situated in the same or similar communities; or [PL 2023, c. 413, §1 (NEW).]

B. The health care professional received and acted in good faith on the informed written consent to gender-affirming hormone therapy given by the minor to another health care professional that contains the information and statements required by subsection 3, paragraph B. [PL 2023, c. 413, §1 (NEW).]

[PL 2023, c. 413, §1 (NEW).]

6. Nonseverability. In the event that any portion of subsections 1 to 5 is held invalid, it is the intent of the Legislature that this entire section, other than subsection 7, is invalid.

[PL 2023, c. 413, §1 (NEW).]

7. Authority of parent to consent unaffected. This section does not affect the legal authority of a parent or guardian to consent to gender-affirming hormone therapy for a minor in accordance with established standards of care.

§1532. Detection of serious conditions

The department shall require hospitals, birthing centers and other birthing services to test newborn infants, or to cause them to be tested, by means of blood spot screening for the presence of treatable congenital, genetic or metabolic conditions that may be expected to result in subsequent cognitive disabilities, serious illness or death and by means of appropriate technology for the presence of critical congenital heart disease. [PL 2013, c. 397, §1 (NEW).]

1. Define requirement and methods; assistance. In accordance with the interagency agreement, the Department of Education shall offer a single point of contact for the Department of Health and Human Services to use in making referrals. §1555-E. Reduced ignition propensity cigarettes

1. Definitions. As used in this section, unless the context otherwise indicates, the following terms have the following meanings.

A. "Agent" means any person licensed by the State Tax Assessor to purchase and affix stamps on packages of cigarettes. [PL 2007, c. 253, §1 (NEW); PL 2007, c. 253, §3 (AFF).]

C. "Cigarette" means any product that contains nicotine, is intended to be burned or heated under ordinary conditions of use and consists of or contains any roll of tobacco wrapped in paper or in any substance not containing tobacco or in any substance other than tobacco and, because of its appearance, the type of tobacco used or its packaging or labeling, is offered to or purchased by consumers as a cigarette. [PL 2007, c. 253, §1 (NEW); PL 2007, c. 253, §3 (AFF).]

A quality control and quality assurance program ensures that the testing repeatability remains within the required repeatability values stated in subsection 2, paragraph A, subparagraph (6) for all test trials used to certify cigarettes in accordance with this section. [PL 2007, c. 253, §1 (NEW); PL 2007, c. 253, §3 (AFF).]

G. "Repeatability" means the range of values within which the results of repeated cigarette test trials from a single laboratory will fall 95% of the time. [PL 2007, c. 253, §1 (NEW); PL 2007, c. 253, §3 (AFF).]

H. "Sale" means any transfer of possession or exchange or barter, conditional or otherwise, of cigarettes in any manner or by any means or any agreement. [PL 2007, c. 253, §1 (NEW); PL 2007, c. 253, §3 (AFF).]

2. Test methods and performance standards. Cigarette test methods and performance standards are governed by the provisions of this subsection.

A. Unless federal law provides otherwise, cigarettes may not be sold or offered for sale in this State or offered for sale or sold to persons located in this State unless the cigarettes have been tested in accordance with the test methods and meet the performance standards specified in this subsection, a written certification has been filed by the manufacturer with the State Fire Marshal in accordance with subsection 3 and the cigarettes have been marked in accordance with subsection 4.

- (1) Testing of cigarettes must be conducted in accordance with ASTM Standard E2187-04, "Standard Test Method for Measuring the Ignition Strength of Cigarettes."
 - (2) Testing must be conducted on 10 layers of filter paper.
 - (3) No more than 25% of the cigarettes tested in a test trial in accordance with this subsection may exhibit full-length burns. Forty replicate tests constitutes a complete test trial for each cigarette tested.
 - (4) The performance standards required by this subsection may be applied only to a complete test trial.
 - (5) Written certifications must be based upon testing conducted by a laboratory that has been accredited pursuant to standard ISO/IEC 17025 of the International Organization for Standardization or other comparable accreditation standards required by the State Fire Marshal.
 - (6) Laboratories conducting testing in accordance with this subsection shall implement a quality control and quality assurance program that includes a procedure that will determine the repeatability of the testing results. The repeatability value must be no greater than 0.19.
 - (7) This subsection does not require additional testing if cigarettes are tested consistent with this section for any other purpose.
 - (8) Testing performed or sponsored by the State Fire Marshal to determine a cigarette's compliance with the performance standards required by this subsection must be conducted in accordance with this subsection. [PL 2007, c. 253, §1 (NEW); PL 2007, c. 253, §3 (AFF).]
- B. Each cigarette listed in a certification submitted pursuant to subsection 3 that uses lowered permeability bands in the cigarette paper to achieve compliance with the performance standards set forth in this subsection must have at least 2 nominally identical bands on the paper surrounding the tobacco column. At least one complete band must be located at least 15 millimeters from the lighting end of the cigarette. For cigarettes on which the bands are positioned by design, there must be at least 2 bands located at least 15 millimeters from the lighting end and 10 millimeters from the filter end of the tobacco column or 10 millimeters from the labeled end of the tobacco column for nonfiltered cigarettes. [PL 2007, c. 253, §1 (NEW); PL 2007, c. 253, §3 (AFF).]

C. The provisions of this paragraph apply to alternative test methods.

- (1) A manufacturer of a cigarette that the State Fire Marshal determines cannot be tested in accordance with the test methods prescribed in paragraph A shall propose test methods and performance standards for the cigarette to the State Fire Marshal. Upon approval of the proposed test methods and a determination by the State Fire Marshal that the performance standards proposed by the manufacturer are equivalent to the performance standards prescribed in paragraph A, the manufacturer may employ the test methods and performance standards to certify the cigarette pursuant to subsection 3.

(2) If a manufacturer has certified a cigarette pursuant to subsection 3 and thereafter makes any change to the cigarette that is likely to alter its compliance with the reduced ignition propensity standards required by this section, that cigarette may not be sold or offered for sale in this State until the manufacturer retests the cigarette in accordance with the testing standards set forth in this subsection and maintains records of that retesting as required by this subsection. Any altered cigarette that does not meet the performance standards set forth in this subsection may not be sold in this State.

(3) If the State Fire Marshal determines that another state has enacted reduced ignition propensity standards that include test methods and performance standards that are the same as those contained in this subsection and finds that the officials responsible for implementing those requirements have approved the proposed alternative test methods and performance standards for a particular cigarette proposed by a manufacturer as meeting the fire safety standards of that state's law or regulation, then the State Fire Marshal shall authorize that manufacturer to employ the alternative test methods and performance standards to certify that cigarette for sale in this State, unless the State Fire Marshal finds a reasonable basis that the alternative test should not be accepted under this section. All other applicable requirements of this subsection apply to the manufacturer. [PL 2007, c. 253, §1 (NEW); PL 2007, c. 253, §3 (AFF).]

D. Each manufacturer shall maintain copies of the reports of all tests conducted on all cigarettes offered for sale for a period of 3 years and shall make copies of these reports available to the State Fire Marshal and the Attorney General upon written request. Any manufacturer who fails to make copies of these reports available within 60 days of receiving a written request commits a civil violation for which a fine not to exceed \$5,000 must be applied for each day after the 60th day that the manufacturer does not make such copies available. [PL 2007, c. 253, §1 (NEW); PL 2007, c. 253, §3 (AFF).]

E. The State Fire Marshal may adopt a subsequent ASTM standard test method for measuring the ignition strength of cigarettes upon a finding that the subsequent method does not result in a change in the percentage of full-length burns exhibited by any tested cigarette when compared to the percentage of full-length burns the same cigarette would exhibit when tested in accordance with ASTM Standard E2187-04 and the performance standard in paragraph A, subparagraph (3). [PL 2007, c. 253, §1 (NEW); PL 2007, c. 253, §3 (AFF).]

[PL 2007, c. 253, §1 (NEW); PL 2007, c. 253, §3 (AFF).]

3. Certification. This subsection governs the certification of cigarettes under this section.

A. Each manufacturer shall submit to the State Fire Marshal a written certification attesting that:

- (1) Each cigarette listed in the certification has been tested in accordance with subsection 2; and
- (2) Each cigarette listed in the certification meets the performance standards set forth in subsection 2. [PL 2007, c. 253, §1 (NEW); PL 2007, c. 253, §3 (AFF).]

B. Information listed in the certification of each cigarette must include:

 - (10) The date that the testing occurred. [PL 2007, c. 253, §1 (NEW); PL 2007, c. 253, §3 (AFF).]
- C. The manufacturer must make a certification available to the Attorney General for purposes consistent with this section and the State Tax Assessor for the purposes of ensuring compliance with this section. [PL 2007, c. 253, §1 (NEW); PL 2007, c. 253, §3 (AFF).]
- D. Each cigarette certified under this subsection must be recertified every 3 years. [PL 2007, c. 253, §1 (NEW); PL 2007, c. 253, §3 (AFF).]
[PL 2007, c. 253, §1 (NEW); PL 2007, c. 253, §3 (AFF).]

4. Marking of cigarette packaging. The provisions of this subsection govern marking of cigarette packaging.

A. The packaging of cigarettes that are certified by a manufacturer in accordance with subsection 3 must be marked to indicate compliance with the requirements of subsection 2. The marking must be in 8-point or larger type and consist of:

This mark may consist of an alphanumeric or symbolic character or characters permanently stamped, engraved, embossed or printed in conjunction with the universal product code; or

B. A manufacturer shall use only one marking and shall apply this marking uniformly for all packages, including, but not limited to, packs, cartons and cases, and brands marketed by that manufacturer. [PL 2007, c. 253, §1 (NEW); PL 2007, c. 253, §3 (AFF).]

C. Prior to the certification of any cigarette, a manufacturer shall present its proposed marking to the State Fire Marshal for approval. Upon receipt of the request, the State Fire Marshal shall approve or disapprove the marking offered, except that the State Fire Marshal shall approve any marking in use and approved for sale in New York pursuant to the New York Fire Safety Standards for Cigarettes. Proposed markings are deemed approved if the State Fire Marshal fails to act within 10 business days of receiving a request for approval. The State Fire Marshal shall notify the State Tax Assessor as to the marking that has been approved. [PL 2007, c. 253, §1 (NEW); PL 2007, c. 253, §3 (AFF).]

D. A manufacturer may not modify its approved marking unless the modification has been approved by the State Fire Marshal in accordance with this subsection. [PL 2007, c. 253, §1 (NEW); PL 2007, c. 253, §3 (AFF).]

E. SUBCHAPTER 3

TOBACCO MANUFACTURERS ACT

§1580-G. Findings and purpose

Cigarette smoking presents serious public health concerns to the State and to the citizens of the State. The Surgeon General has determined that smoking causes lung cancer, heart disease and other serious diseases, and that there are hundreds of thousands of tobacco-related deaths in the United States each year. These diseases most often do not appear until many years after the person in question begins smoking. [PL 1999, c. 401, Pt. U, §1 (NEW); PL 1999, c. 401, Pt. U, §2 (AFF).]

Cigarette smoking also presents serious financial concerns for the State. Under certain health-care programs, the State may have a legal obligation to provide medical assistance to eligible persons for health conditions associated with cigarette smoking, and those persons may have a legal entitlement to receive such medical assistance. [PL 1999, c. 401, Pt. U, §1 (NEW); PL 1999, c. 401, Pt. U, §2 (AFF).]

Under these programs, the State pays millions of dollars each year to provide medical assistance for these persons for health conditions associated with cigarette smoking. [PL 1999, c. 401, Pt. U, §1 (NEW); PL 1999, c. 401, Pt. U, §2 (AFF).]

It is the policy of the State that financial burdens imposed on the State by cigarette smoking be borne by tobacco product manufacturers rather than by the State to the extent that such manufacturers either determine to enter into a settlement with the State or are found culpable by the courts. [PL 1999, c. 401, Pt. U, §1 (NEW); PL 1999, c. 401, Pt. U, §2 (AFF).]

On November 23, 1998, leading United States tobacco product manufacturers entered into a settlement agreement, entitled the "Master Settlement Agreement," with the State. The Master Settlement Agreement obligates these manufacturers, in return for a release of past, present and certain future claims against them as described therein, to pay substantial sums to the State (tied in part to their volume of sales); to fund a national foundation devoted to the interest of public health; and to make substantial changes in their advertising and marketing practices and corporate culture, with the intention of reducing underage smoking. [PL 1999, c. 401, Pt. U, §1 (NEW); PL 1999, c. 401, Pt. U, §2 (AFF).]

It would be contrary to the policy of the State if tobacco product manufacturers who determine not to enter into such a settlement could use a resulting cost advantage to derive large, short-term profits in the years before liability may arise without ensuring that the State will have an eventual source of recovery from them if they are proven to have acted culpably. It is thus in the interest of the State to require that such manufacturers establish a reserve fund to guarantee a source of compensation and to prevent such manufacturers from deriving large, short-term profits and then becoming judgment-proof before liability may arise. The hearing on the petition shall be held as soon as possible within 5 days of the filing of the petition. The court shall conduct the hearing in private with only the minor, interested parties as

determined by the court and necessary court officers or personnel present. The record of the hearing is not a public record. [PL 1989, c. 573, §2 (NEW).]

D. In the decree, the court shall for good cause:

- (2) Find the abortion to be in the best interest of the minor and give judicial consent to the abortion, setting forth the grounds for the finding; or
- (3) Deny the petition only if the court finds that the minor is not mature enough to make the minor's own decision and that the abortion is not in the minor's best interest. [RR 2021, c. 2, Pt. B, §96 (COR).]

E. If the petition is allowed, the informed consent of the minor, pursuant to a court grant of majority rights or the judicial consent, shall bar an action by the parent or guardian of the minor on the grounds of battery of the minor by those performing the abortion. The immunity granted shall only extend to the performance of the abortion and any necessary accompanying services which are performed in a competent manner. [PL 1989, c. 573, §2 (NEW).]

F. The minor may appeal an order issued in accordance with this section to the Superior Court. The notice of appeal shall be filed within 24 hours from the date of issuance of the order. CHAPTER 265**MASS GATHERINGS****§1601. Permit required**

§1602. Permit issuance

1. Written application. The Commissioner of Health and Human Services shall issue a permit for a mass outdoor gathering upon receipt of a written application therefor unless, after the consideration of the factors listed in subsection 2, it appears to the commissioner within a reasonable certainty that the gathering will present a grave and imminent danger to the public health or to the public safety.

In its review of applications for permits for the holding or promoting of a mass outdoor gathering, the department may require such plans, specifications and reports as it considers necessary for a proper review. In its review of such applications, as well as in carrying out its other duties and functions in connection with such a gathering, the department may request and must receive from all public officers, departments and agencies of the State and its political subdivisions such cooperation and assistance as may be necessary and proper. A permit may not be issued by the department until the commissioner or the commissioner's representative has discussed the application with the municipal officers of the municipality in which the event is intended to be held.

[RR 2021, c. 2, Pt. B, §99 (COR).]

4. Permit denied; appeal. SUBCHAPTER 1

ENVIRONMENTAL HEALTH PROGRAMS

§1691. Findings and declaration of purpose

The Legislature finds that adequate measures must be taken to ensure that any threats to the health of the people of the State posed by natural phenomena or the introduction of potentially toxic substances into the environment are identified, appropriately considered and responded to by those responsible for protecting the public's health and environment. [PL 1981, c. 508, §1 (NEW).]

The purpose of this chapter is to create an Environmental Health Program within the Department of Health and Human Services, Bureau of Health, which would provide the department with the capability it requires to discharge its responsibilities satisfactorily, and to advise other departments and boards charged with similar or related responsibilities regarding the potential health implications of their actions. The Department of Health and Human Services must be given access to all confidential reports and records filed by physicians, hospitals or other private or public sector organizations, with all departments, agencies, commissions or boards of the State for the purpose of conducting investigations or evaluating the completeness or quality of data submitted to the department's disease surveillance programs. The department shall follow the data confidentiality requirements of the departments, agencies, commissions or boards of the State providing this information.

Upon notification by the Department of Health and Human Services, physicians or hospitals shall provide to the department any further information requested for the purpose of conducting investigations or evaluating the completeness or quality of data submitted to the department's disease surveillance programs.

[PL 1989, c. 844, §2 (NEW); PL 2003, c. 689, Pt. B, §6 (REV).]

2. Limited immunity. A physician, hospital, or employee of a physician or hospital is not liable for any civil damages as a result of the department's use of information gathered under this section. 3. Adoption of rules. The department shall adopt rules governing the conditions under which and purposes for which the department may use identifying information under this section. The rules must ensure that:

B. Medical information about an identified patient is not sought from any person without the consent of that patient except when the information sought pertains solely to verification or comparison of health data that the department is otherwise authorized by law to collect and the

department finds that confidentiality can be adequately protected without patient consent; [PL 1989, c. 844, §2 (NEW).]

C. Those persons conducting the investigation do not disclose medical information about an identified patient to any other person except a health care practitioner responsible for treating the patient; [PL 1989, c. 844, §2 (NEW).]

D. Those persons gaining access to medical information about an identified patient use that information to the minimum extent necessary to accomplish the purposes of the investigation; [PL 1989, c. 844, §2 (NEW).]

E. The protocol for any investigation is designed to preserve the confidentiality of all medical information that can be associated with identified patients, to specify the manner in which contact is made with patients, and to maintain public confidence in the protection of confidential information; [PL 1989, c. 844, §2 (NEW).]

F. An advisory body, independent from the department, is established and charged with responsibility for approving the protocol of the investigation, overseeing the conduct of the investigation to assure consistency with the protocol and the department's rules, and assessing both the scientific validity of the investigation and its effects upon patients; [PL 1989, c. 844, §2 (NEW).]

H. Whenever a physician or hospital furnishes patient information requested by the department in accordance with this section, the department reimburses the physician or hospital for the reasonable costs incurred in providing the information. [PL 1989, c. 844, §2 (NEW).]

§1708. Appropriations for aid of public and private hospitals and nursing homes

1. Compensation for hospitals. Such sums of money as may be appropriated by the Legislature in aid of public and private hospitals shall be expended under the direction of the department, and the expense of administration shall be charged to the appropriation of that department for general administration. The department is authorized to compensate hospitals located in the State of New Hampshire within 15 miles from the Maine - New Hampshire state line or hospitals located in the Provinces of Quebec or New Brunswick, Canada, within 5 miles of the international boundary, for cases where the hospital care is for persons resident in the State of Maine and, in the judgment of the commissioner, adequate local hospital facilities are not available. The department may compensate hospitals at such rates as it may establish for hospital care of persons whose resources or the resources of whose responsible relatives are insufficient therefor, except as provided in subsection 2. Bills itemizing the expenses of such hospital care, when approved by the department and audited by the State Controller, shall be paid by the Treasurer of State.

[PL 1975, c. 365, §1 (RPR).]

2. Compensation for nursing homes.

2-A. Base-year revisions.

[PL 1991, c. 528, Pt. E, §19 (RP); PL 1991, c. 528, Pt. E, §20 (AFF); PL 1991, c. 528, Pt. RRR (AFF); PL 1991, c. 591, Pt. E, §19 (RP); PL 1991, c. 591, Pt. E, §20 (AFF).]

3. Compensation for nursing homes. A nursing home, as defined under section 1812-A, or any portion of a hospital or institution operated as a nursing home, when the State is liable for payment for care, must be reimbursed at a rate established by the Department of Health and Human Services pursuant to this subsection. The department may not establish a so-called "flat rate." This subsection applies to all funds, including federal funds, paid by any agency of the State to a nursing home for patient care. The department shall establish rules concerning reimbursement that:

A. Take into account the costs of providing care and services in conformity with applicable state and federal laws, rules, regulations and quality and safety standards; [PL 1991, c. 528, Pt. E, §21 (NEW); PL 1991, c. 528, Pt. E, §22 (AFF); PL 1991, c. 528, Pt. RRR (AFF); PL 1991, c. 591, Pt. E, §21 (NEW); PL 1991, c. 591, Pt. E, §22 (AFF).]

A-1. [PL 2001, c. 666, Pt. A, §1 (RP); PL 2001, c. 666, Pt. E, §1 (AFF).]

B. Are reasonable and adequate to meet the costs incurred by efficiently and economically operated facilities; [PL 1995, c. 696, Pt. A, §32 (AMD).]

C. Are consistent with federal requirements relative to limits on reimbursement under the federal Social Security Act, Title XIX; [PL 2001, c. 666, Pt. A, §1 (AMD); PL 2001, c. 666, Pt. E, §1 (AFF).]

D. Ensure that any calculation of an occupancy percentage or other basis for adjusting the rate of reimbursement for nursing facility services to reduce the amount paid in response to a decrease in the number of residents in the facility or the percentage of the facility's occupied beds excludes all beds that the facility has removed from service for all or part of the relevant fiscal period in accordance with section 333. If the excluded beds are converted to residential care beds or another program for which the department provides reimbursement, nothing in this paragraph precludes the department from including those beds for purposes of any occupancy standard applicable to the residential care or other program pursuant to duly adopted rules of the department; [PL 2013, c. 594, §1 (AMD).]

E. Contain an annual inflation adjustment that:

(1) Recognizes regional variations in labor costs and the rates of increase in labor costs determined pursuant to the principles of reimbursement and establishes at least 4 regions for purposes of annual inflation adjustments; and

(2) Uses the applicable regional inflation factor as established by a national economic research organization selected by the department to adjust costs other than labor costs or fixed costs; and [PL 2013, c. 594, §1 (AMD).]

F. Establish a nursing facility's base year every 2 years and increase the rate of reimbursement beginning July 1, 2014 and every year thereafter until June 30, 2018. For the state fiscal year beginning July 1, 2018, the base year for each facility is its fiscal year that ended in the calendar year 2016. For state fiscal years beginning on or after July 1, 2019, subsequent rebasing must be based on the most recent cost report filings available. The department may provide a mechanism for subsequent adjustments to base year costs to reflect any material difference between as-filed cost reports used in rebasing and subsequent determinations of audited, allowable costs for the same fiscal period. The department's rules must provide that, beginning in the state fiscal year beginning July 1, 2018, the rates set for each rebasing year must include an inflation adjustment for a cost-of-living percentage change in nursing facility reimbursement each year in accordance with the United States Department of Labor, Bureau of Labor Statistics Consumer Price Index nursing homes and adult day care services index.

Any rebasing done pursuant to this paragraph may not result in a nursing facility receiving a reimbursement rate that is lower than the rate in effect on June 30, 2018. [PL 2021, c. 29, Pt. R, §1 (AMD).]

Rules adopted pursuant to this subsection are routine technical rules as defined in Title 5, chapter 375, subchapter 2-A.

A. A statement of the debt accrued; [PL 1991, c. 9, Pt. G, §4 (NEW).]

B. A statement of the time period during which the debt accrued; [PL 1991, c. 9, Pt. G, §4 (NEW).]

C. The basis for the debt; [PL 1991, c. 9, Pt. G, §4 (NEW).]

D. The debtor's right to request a fair hearing within 30 days of receipt of the notice; and [PL 1991, c. 9, Pt. G, §4 (NEW).]

E. A statement that after a debt is established, the department may proceed to collect that debt through administrative offset, lien and foreclosure, or other collection action. [PL 1991, c. 9, Pt. G, §4 (NEW).]

[PL 1991, c. 568, §1 (AMD).]

4. Successor liability. Liability of transferees is governed by this subsection.

A. When a nursing home, boarding home, hospital or other provider of health care services is transferred, the transferee is liable for debts owed to the department by the former provider unless by the time of sale:

(1) All debts owed by the former provider to the department have been paid, except as stated in subparagraph (2);

(2) If the indebtedness is the subject of an administrative appeal, an escrow account has been created and funded in an amount sufficient to cover the debt as claimed by the department; or

(3) An interim cost report has:

(a) Been filed and an escrow account has been created and funded in an amount sufficient to cover any overpayment identified in the report; or

(b) Not been filed and an escrow account has been created and funded in an amount sufficient to cover 5% of Medicaid reimbursement or cost reimbursement for the last fiscal year or \$50,000, whichever is less. [PL 2011, c. 687, §7 (AMD).]

B. Any person affected by this subsection may request that the department identify the amount of any debt owed by a nursing home, boarding home, hospital or other provider of health care services. When the department receives such a request, it shall identify the debt within 30 days. Failure to identify the amount of a debt when a request is made in writing at least 30 days prior to the transfer precludes the department from recovering that debt from the transferee. [PL 2011, c. 687, §7 (AMD).]

C. The department shall provide written notice of the requirements of this section to the transferee in a letter acknowledging receipt of a request for a certificate of need or waiver of the certificate of need for a nursing home or hospital transfer or in response to a request for an application for a license to operate a boarding home or to provide other health care services. [PL 2011, c. 687, §8 (AMD).]

D. If a transferee becomes liable for a debt pursuant to this subsection, the transferee shall succeed to any defenses to the debt that could have been exercised by the former provider. [PL 1991, c. 9, Pt. G, §4 (NEW).]

E. Nothing in this subsection may limit the liability of the former provider to the department for any debts whether or not they are identified at the time of sale. In addition, a transferee has a cause of action against a former provider to the extent that debts of the former provider are paid by the transferee, unless the transferee has waived the right to sue the former provider for those debts. [PL 1991, c. 568, §2 (AMD).]

F. The commissioner may waive all or part of a transferee's liability under this subsection if the commissioner finds that a waiver of liability is in the public interest. [PL 1991, c. 568, §3 (NEW).]

[PL 2011, c. 687, §§7, 8 (AMD).]

5. Department may offset. The department may offset against current reimbursement owed to a provider or any entity related by ownership or control to that provider any debt it is owed by that provider after the debt becomes collectible. The department shall adopt rules that implement this subsection and define the ownership or control relationships that are subject to an offset under this subsection, except that the department may not define any ownership or control relationship as subject to an offset unless the relationship allows the person whose relationship is the subject of the offset to control at least the number of votes of the provider's governing body or management that is needed to govern the operations of the provider. Rules adopted pursuant to this subsection are routine technical rules as defined in Title 5, chapter 375, subchapter 2-A.

[PL 2017, c. 442, §1 (AMD).]

6. Liens. Collection by lien is as follows.

A. After a debt is collectible, the amount stated in the notice of debt or overpayment is a lien in favor of the department against all real or personal property of the provider or any entity related by ownership or control to the provider. [PL 1991, c. 568, §4 (NEW).]

B. The lien attaches to all real and personal property of the responsible party when the department files in the registry of deeds of any county, or with any office appropriate for a notice with respect to personal property, a certificate that states the name of the responsible party, that party's address, the amount of debt accrued, the date of the underlying audit or decision and the name and address of the authorized agent of the department who issues the lien. [PL 1991, c. 568, §4 (NEW).]

C. When a lien has been filed and the person having notice of the lien possesses any property that may be subject to the lien, that property may not be paid over, released, sold, transferred, encumbered or conveyed unless:

- (1) A release or waiver signed by the commissioner has been delivered to the person in possession of the property; or
- (2) A court has ordered the release of the lien. A court may order a release only when alternative security has been provided for the debt owed the department. [PL 1991, c. 568, §4 (NEW).]

D. The commissioner may hold title to real or personal property for the purpose of foreclosure on filed liens. Foreclosure must proceed as follows.

(1) Actions to foreclose liens on real property filed under this subsection may be brought in the county where the lien is filed pursuant to the procedures of Title 14, chapter 713, subchapter VI. For purposes of foreclosure by civil action as described in Title 14, chapter 713, subchapter VI, a lien filed in accordance with this subsection constitutes a mortgage claim of the department on any real property owned by the debtor. Failure to pay the debt owed the department constitutes a breach of condition in the mortgage.

(2) Actions to foreclose liens on personal property filed under this subsection may be brought, pursuant to Title 14, chapter 509, subchapter III, in the county where the lien is filed. [PL 1991, c. 568, §4 (NEW).]

[PL 1991, c. 568, §4 (NEW).]

7. Other collection actions. In addition to the other remedies provided in this section, the department may seek collection of any debt established under subsection 2 pursuant to Title 14, chapter 502, Title 36, chapter 7 and Title 36, section 185-A.

A business entity, including a sole proprietorship, is considered out of business for the purposes of the department's recovering indebtedness if, after reasonable investigation, the department or its legal counsel has certified in writing that the business entity is no longer conducting operations and that there is no realistic expectation of collecting any significant money from the entity based upon one or more of the following conditions:

A. The business entity has ceased offering retail or wholesale goods and services to the public; [PL 2003, c. 673, Pt. YYY, §1 (NEW).]

B. Upon reasonable investigation, nonexempt assets of the business entity of substantial value can not be identified or are otherwise unavailable for attachment and recovery; [PL 2003, c. 673, Pt. YYY, §1 (NEW).]

C. The business entity's physical location or locations of business are closed to the public; [PL 2003, c. 673, Pt. YYY, §1 (NEW).]

D. The business entity's corporate status is no longer in good standing; [PL 2003, c. 673, Pt. YYY, §1 (NEW).]

E. The business entity has admitted that it has insufficient assets to satisfy the debt; [RR 2007, c. 2, §8 (COR).]

F. After reasonable investigation, the department or its counsel can not locate the business entity or identify the debtor's nonexempt assets; and [PL 2003, c. 673, Pt. YYY, §1 (NEW).]

G. The business entity has transferred substantially all of its business assets to a 3rd party and there are no recoverable assets as a result of the transfer. [PL 2003, c. 673, Pt. YYY, §1 (NEW).]

Certification by the department that a business entity is out of business under this subsection does not preclude further collection and recovery procedures by the department, whether to formally adjudicate

the indebtedness or to proceed with collection and recovery if the department becomes aware of facts that merit further recovery efforts.

[PL 2019, c. 659, Pt. D, §5 (AMD).]

8. Rulemaking. The department may adopt or amend any rule as necessary to implement this section.

[PL 1991, c. 568, §4 (NEW).]

9. Cost-of-care overpayments. On or before June 30, 2015, the department shall collect the total amount of debt arising from cost-of-care overpayments that exceeds by \$4,000,000 the amount of that debt that had been budgeted for fiscal year 2014-15 as of April 15, 2014. To the extent necessary to meet this requirement, the department may establish payment terms, modify as otherwise permitted by law existing payment agreements to accelerate payment terms and offset current payments in accordance with subsection 5. If 7 days' notice and opportunity to comment are provided, the department may adopt rules on an emergency basis to modify its implementation of subsection 5 on an emergency basis for purposes of collecting cost-of-care overpayments without making the emergency findings otherwise required by Title 5, section 8054, subsection 2.

[PL 2013, c. 594, §2 (NEW).]

10. No imposition of liability on other persons. The department may not by any means, including without limitation any rule or any contract or agreement with a provider, impose liability for a debt under this section on any person other than the provider notified of the debt pursuant to subsection 2 or a person subject to collection by offset pursuant to rules adopted under subsection 5. This subsection does not prohibit the department from seeking recovery of civil penalties from any person as provided in section 15.

(REALLOCATED FROM TITLE 22, SECTION 1714-D)

(WHOLE SECTION TEXT REPEALED ON CONTINGENCY: See T. 22, §1714-E, sub-§7)

If the department determines that there is a credible allegation of fraud by a provider under the MaineCare program, the following procedures apply. [RR 2011, c. 2, §25 (RAL).]

1. Suspension of payments. The department shall suspend payment in whole or in part to a MaineCare provider when a suspension is necessary to comply with Section 6402(h)(2) of the federal Patient Protection and Affordable Care Act, Public Law 111-148 and 42 Code of Federal Regulations, Part 455.

[PL 2015, c. 329, Pt. A, §5 (AMD).]

2. Administrative appeal; scope. A MaineCare provider may administratively appeal the department's decision to suspend payment under subsection 1.

[RR 2011, c. 2, §25 (RAL).]

3. No stay during administrative appeal. A suspension of payments under subsection 1 may not be stayed during an administrative appeal of the department's decision to suspend payment. The department may provide a fair opportunity for appropriate expedited relief from a suspension of payments consistent with federal law.

[RR 2011, c. 2, §25 (RAL).]

4. Final determination; offset. Upon a final determination that fraud has occurred and that money is owed by the MaineCare provider to the department, and 31 days after exhaustion of all administrative appeals and any judicial review available under Title 5, chapter 375, the department may retain and apply as an offset to amounts determined to be owed to the department any payments to the provider that were suspended by the department pursuant to this section. The amount retained pursuant to this subsection may not exceed the amount determined finally to be owed.

[RR 2011, c. 2, §25 (RAL).]

5. Confidentiality. Except as necessary for purposes of the investigation of fraud or the administration of the MaineCare program, the department's records regarding a determination of a credible allegation of fraud are confidential until the relevant MaineCare provider has been given notice of a suspension of payments under subsection 1.

[RR 2011, c. 2, §25 (RAL).]

6. Rules. The department shall adopt rules to implement this section, including rules to define "credible allegation of fraud" and to provide exception and appeal procedures as required by and in

accordance with the requirements of federal law and regulations. If the department provides a procedure for expedited relief from suspension of payments, as authorized in subsection 3, the rules must include that procedure. Rules adopted pursuant to this subsection are routine technical rules as defined in Title 5, chapter 375, subchapter 2-A.

[RR 2011, c. 2, §25 (RAL).]

7. Repeal. This section is repealed if Section 6402(h)(2) of the federal Patient Protection and Affordable Care Act, Public Law 111-148 and 42 Code of Federal Regulations, Part 455 are invalidated by the United States Supreme Court. The department shall notify the Secretary of State, the Secretary of the Senate, the Clerk of the House of Representatives and the Revisor of Statutes if the section of law and the regulation are invalidated.

§1718-D. Prohibition on balance billing for surprise bills and bills for out-of-network emergency services; disputes of bills for uninsured patients and persons covered under self-insured health benefit plans; disclosure related to referrals

1. Definitions. As used in this section, unless the context otherwise indicates, the following terms have the following meanings.

A. "Enrollee" has the same meaning as in Title 24-A, section 4301-A, subsection 5. [PL 2017, c. 218, §1 (NEW); PL 2017, c. 218, §3 (AFF).]

B. "Health plan" has the same meaning as in Title 24-A, section 4301-A, subsection 7. [PL 2017, c. 218, §1 (NEW); PL 2017, c. 218, §3 (AFF).]

B-1. "Knowingly elected to obtain the services from an out-of-network provider" means that an enrollee chose the services of a specific provider, with full knowledge that the provider is an out-of-network provider with respect to the enrollee's health plan, under circumstances that indicate that the enrollee had and was informed of the opportunity to receive services from a network provider but instead selected the out-of-network provider. The disclosure by a provider of network

status does not render an enrollee's decision to proceed with treatment from that provider a choice made knowingly pursuant to this paragraph. [PL 2019, c. 668, §1 (NEW).]

C. "Provider" has the same meaning as in Title 24-A, section 4301-A, subsection 16. [PL 2017, c. 218, §1 (NEW); PL 2017, c. 218, §3 (AFF).]

D. "Surprise bill" has the same meaning as in Title 24-A, section 4303-C, subsection 1. [PL 2017, c. 218, §1 (NEW); PL 2017, c. 218, §3 (AFF).]

E. "Visit" means any interaction between an enrollee and one or more providers for the purpose of assessing the health status of an enrollee or providing one or more health care services between the time an enrollee enters a facility and the time an enrollee is discharged. [PL 2019, c. 668, §1 (NEW).]

[PL 2019, c. 668, §1 (AMD).]

2. Prohibition on balance billing. An out-of-network provider reimbursed for a surprise bill or a bill for covered emergency services under Title 24-A, section 4303-C or, if there is a dispute, under Title 24-A, section 4303-E or a bill for COVID-19 screening and testing under Title 24-A, section 4320-P may not bill an enrollee for health care services beyond the applicable coinsurance, copayment, deductible or other out-of-pocket cost expense that would be imposed for the health care services if the services were rendered by a network provider under the enrollee's health plan. For an enrollee subject to coinsurance, the out-of-network provider shall calculate the coinsurance amount based on the median network rate for that health care service under the enrollee's health plan. An out-of-network provider is also subject to the following with respect to any overpayment made by an enrollee.

A. If an out-of-network provider provides health care services covered under an enrollee's health plan and the out-of-network provider receives payment from the enrollee for health care services for which the enrollee is not responsible pursuant to this subsection, the out-of-network provider shall reimburse the enrollee within 30 calendar days after the earlier of the date that the provider received notice of the overpayment and the date the provider became aware of the overpayment. [PL 2019, c. 668, §1 (NEW).]

B. An out-of-network provider that fails to reimburse an enrollee for an overpayment as required by paragraph A shall pay interest on the overpayment at the rate of 10% per annum beginning on the earlier of the date the provider received notice of the overpayment and the date the provider became aware of the overpayment. An enrollee is not required to request the accrued interest from the out-of-network provider in order to receive interest with the reimbursement amount. [PL 2019, c. 668, §1 (NEW).]

[PL 2021, c. 28, Pt. A, §1 (AMD).]

3. Uninsured patients; disputes of bills. An uninsured patient who has received a bill for emergency services from a provider for one or more emergency health care services rendered during a single visit totaling \$750 or more may dispute the bill and request resolution of the dispute using the process under Title 24-A, section 4303-E. The independent dispute resolution entity contracted to resolve the dispute over the surprise bill shall select either the out-of-network provider's fee or the uninsured patient's proposed payment amount in accordance with Title 24-A, section 4303-E. An uninsured patient may not be charged by a provider more than the amounts generally billed to a patient who has insurance covering emergency services as determined using the method described in 26 Code of Federal Regulations, Section 1.501(r)-5, paragraph (b)(3) or (b)(4). A provider shall hold the uninsured patient harmless for the duration of the independent dispute resolution process and may not seek payment until the independent dispute resolution process is completed. Notwithstanding Title 24-A, section 4303-E, subsection 1, paragraph F, payment for the independent dispute resolution process is the responsibility of the provider. In the event a claim includes more than one emergency health care service rendered during a single visit, the independent dispute resolution entity may allocate the prorated independent dispute resolution costs at its discretion among providers.

[PL 2019, c. 668, §1 (NEW).]

The independent dispute resolution entity contracted to resolve the dispute over the bill shall select either the out-of-network provider's fee or the covered person's proposed payment amount in accordance with Title 24-A, section 4303-E, subsection 1. This subsection does not apply to a person covered under a self-insured health benefit plan who knowingly elected to obtain the services from an out-of-network provider.

[PL 2019, c. 668, §1 (NEW).]

5. (REALLOCATED FROM T. 22, §1718-D, sub-§3) Referral to an out-of-network provider. A provider receiving a nonemergency referral or self-referral for any in-person health care service or procedure shall disclose to the enrollee whether that provider to whom the enrollee is being referred is a member of the provider network under the enrollee's health plan before the enrollee schedules the appointment for that service or procedure.

(REALLOCATED FROM TITLE 22, SECTION 1721)

1. Voluntary restraint. To control the rate of growth of the costs of hospital services, each hospital licensed under chapter 405 may voluntarily restrain cost increases and consolidated operating

margins in accordance with this section. Each hospital shall annually report to the joint standing committee of the Legislature having jurisdiction over health and human services matters regarding its efforts made pursuant to this section. The targets and methodology apply to each hospital's fiscal year beginning on or after the effective date of this section.

A. Each hospital may voluntarily hold its consolidated operating margin to no more than 3%. For purposes of this paragraph, a hospital's consolidated operating margin is calculated by dividing its consolidated operating income by its total consolidated operating revenue. [RR 2007, c. 2, §9 (RAL).]

B. Each hospital may voluntarily restrain its increase in its expense per casemix-adjusted inpatient and volume-adjusted outpatient discharge to no more than 110% of the forecasted increase in the hospital market basket index for the coming federal fiscal year, as published in the Federal Register, when the federal Centers for Medicare and Medicaid Services publishes the Medicare program's hospital inpatient prospective payment system rates for the coming federal fiscal year. For purposes of this paragraph, the measure of a hospital's expense per casemix-adjusted inpatient and volume-adjusted outpatient discharge is calculated by:

- (1) Calculating the hospital's total hospital-only expenses;
- (2) Subtracting from the hospital's total hospital-only expenses the amount of the hospital's bad debt;
- (3) Subtracting from the amount reached in subparagraph (2) the hospital taxes paid to the State during the hospital's fiscal year; and
- (4) Dividing the amount reached in subparagraph (3) by the product of:
 - (a) The number of inpatient discharges, adjusted by the all payer case mix index for the hospital; and
 - (b) The ratio of total gross patient service revenue to gross inpatient service revenue.

For the purposes of this paragraph, a hospital's total hospital-only expenses include any item that is listed on the hospital's Medicare cost report as a subprovider, such as a psychiatric unit or rehabilitation unit, and does not include nonhospital cost centers shown on the hospital's Medicare cost report, such as home health agencies, nursing facilities, swing beds, skilled nursing facilities and hospital-owned physician practices. For purposes of this paragraph, a hospital's bad debt is as defined and reported in the hospital's Medicare cost report and as submitted to the Maine Health Data Organization pursuant to chapter 1683. B. "Direct primary care provider" means an individual who is a licensed physician or osteopathic physician or other advanced health care practitioner who is authorized to engage in independent medical practice in this State, who is qualified to provide primary care services and who chooses to practice direct primary care by entering into a direct primary care service agreement with patients. 4. Covered services. A direct primary care service agreement covers only the services specified in the agreement. Any goods or services that are not covered by the direct primary care service agreement may be billed separately. [PL 2017, c. 112, §1 (NEW).]

5. Disclosure. A direct primary care service agreement must clearly state within the agreement that direct primary care services are not considered health insurance and do not meet requirements of any federal law mandating individuals to purchase health insurance and that the fees charged in the agreement may not be reimbursed or apply towards a deductible under a health insurance policy with an insurer. [PL 2017, c. 112, §1 (NEW).]

6. Other care not prohibited. §1816. Inspections

1. Inspection requirements. Every building, institution or establishment for which a license has been issued must be periodically inspected by duly appointed representatives of the division of licensing and certification under the rules adopted by the department. An institution licensed pursuant to this chapter may not be required to be licensed or inspected under the laws of this State relating to hotels, restaurants, lodging houses, boardinghouses and places of refreshments. A full license may not be issued until the applicant has furnished the department with a written statement signed by the Commissioner of Public Safety or the proper municipal official designated in Title 25, chapters 313 to 321 to make fire safety inspections that the home and premises comply with Title 25, chapters 313 to 321 relating to fire safety. The department shall establish and pay reasonable fees to the municipal

official or the Commissioner of Public Safety for each such inspection. This written statement must be furnished prior to the issuance of full licensure.

[PL 2021, c. 541, §1 (NEW).]

2. Accredited hospitals. A hospital licensed under this chapter is exempt from department inspection requirements under this chapter if:

A. The hospital is certified by the Centers for Medicare and Medicaid Services for participation in the federal Medicare program and holds full accreditation status by a health care facility accrediting organization recognized by the Centers for Medicare and Medicaid Services; and [PL 2021, c. 541, §1 (NEW).]

B. The hospital provides, to the department, a copy of the survey findings of the health care facility accrediting organization described in paragraph A, including a statement of deficiencies, and the hospital's final plan of correction for any identified deficiencies that is accepted by the health care facility accrediting organization. Survey findings, a statement of deficiencies and the hospital's final plan of correction provided pursuant to this subsection are confidential. [PL 2021, c. 541, §1 (NEW).]

[PL 2021, c. 541, §1 (NEW).]

3. Nonaccredited hospitals. If a hospital is certified to participate in the federal Medicare program and is not accredited by a health care facility accrediting organization recognized by the Centers for Medicare and Medicaid Services, the department shall inspect the hospital every 3 years for compliance with the Centers for Medicare and Medicaid Services' conditions of participation.

[PL 2021, c. 541, §1 (NEW).]

4. Hospitals not exempt. The provisions of subsections 2 and 3 do not exempt a hospital from an inspection by the department in response to a complaint or suspected violation of this chapter or of the Centers for Medicare and Medicaid Services' conditions of participation or an inspection by another state agency or municipality for building code, fire code, life safety code or other purposes unrelated to health care facility licensing or accreditation.

[PL 2021, c. 541, §1 (NEW).]

§1817. Issuance of licenses

The department is authorized to issue licenses to operate hospitals, sanatoriums, convalescent homes, rest homes, nursing homes, ambulatory surgical facilities and other related institutions that, after inspection, are found to comply with this chapter and any rules adopted by the department. An initial license may be issued for up to 12 months. A license may be renewed for up to 24 months. The fee for this temporary or conditional license is \$15 and is payable at the time of issuance of the license regardless of the term. When an institution, upon inspection by the department, is found not to meet all requirements of this chapter or department rules, the department is authorized to issue either: [PL 2007, c. 324, §4 (RPR).]

1. Temporary license. A temporary license for a specified period not to exceed 90 days, during which time corrections specified by the department must be made by the institution for compliance

with this chapter and departmental rules, if in the judgment of the commissioner the best interests of the public will be so served; or
[PL 2007, c. 324, §4 (NEW).]

2. Conditional license. A conditional license setting forth conditions that must be met by the institution to the satisfaction of the department.
[PL 2007, c. 324, §4 (NEW).]

Failure of the institution to meet any of the department's conditions immediately voids the temporary or conditional license by written notice by the department to the licensee or, if the licensee cannot be reached for personal service, by notice left at the licensed premises. A new application for a regular license may be considered by the department if, when and after the conditions set forth by the department at the time of the issuance of this temporary or conditional license have been met and satisfactory evidence of this fact has been furnished to the department. The department may amend, modify or refuse to renew a license in conformity with the Maine Administrative Procedure Act, or file a complaint with the District Court requesting suspension or revocation of any license on any of the following grounds: violation of this chapter or the rules issued pursuant to this chapter; permitting, aiding or abetting the commission of any illegal act in that institution; or conduct of practices detrimental to the welfare of a patient. Whenever, on inspection by the department, conditions are found to exist that violate this chapter or department rules issued pursuant to this chapter that, in the opinion of the commissioner, immediately endanger the health or safety of patients in an institution or create an emergency, the department by its duly authorized agents may, under the emergency provisions of Title 4, section 184, subsection 6, request that the District Court suspend or revoke the license. Rules adopted pursuant to this section are routine technical rules as defined in Title 5, chapter 375, subchapter 2-A. [PL 2007, c. 324, §4 (NEW).]

Unless ordered by decree, the hospital so investing said funds is not required to render a court accounting with regard to such funds, but it, as accountant, or any interested person, may by petition to the Superior Court or the probate court in the county where said hospital is located secure approval of such accounting on such conditions as the court may establish.

§1819-A. Financial disclosure

No standards, rules or regulations of the department pursuant to this chapter shall be adopted or enforced which would have the effect of denying a license to any hospital or other institution required to be licensed, solely by reason of the school or system of practice employed or permitted to be employed by physicians therein, provided such school or system of practice is recognized by the laws of this State.

§1820-A. Right of entry and inspection of nursing homes and boarding homes

The department and any duly designated officer or employee thereof shall have the right to enter upon and into the premises of any nursing home licensed pursuant to this chapter at any reasonable time in order to determine the state of compliance with this chapter and any rules and regulations in force pursuant thereto. Such right of entry and inspection shall extend to any premises which the department has reason to believe is being operated or maintained as a nursing home without a license, but no such entry or inspection of any premises shall be made without the permission of the owner or person in charge thereof, unless a warrant is first obtained from the District Court authorizing the same. 4. End-stage renal disease or ESRD. "End-stage renal disease" or "ESRD" means that stage of renal impairment that appears irreversible and permanent and requires a regular course of dialysis or kidney transplantation to maintain life.
[PL 1997, c. 658, §1 (NEW).]

5. ESRD facility. "ESRD facility" means a renal dialysis center, a renal dialysis facility, a self-dialysis unit or a special-purpose renal dialysis facility.

7. Renal dialysis center. "Renal dialysis center" means a hospital unit that is approved to furnish the full spectrum of diagnostic, therapeutic and rehabilitative services required for the care of ESRD dialysis patients, including inpatient dialysis furnished directly or under arrangement. A hospital need not provide renal transplantation to qualify as a renal dialysis center.

If the department finds less than full compliance with the conditions of licensure, it may issue a conditional license.

The department may issue a conditional license if the applicant fails to comply with applicable laws and rules but the best interest of the public would be served by issuing a conditional license. The conditional license must specify when and what corrections must be made during the term of the conditional license.

When an applicant fails to comply with applicable laws and rules, the department may refuse to issue or renew a license.

[PL 1997, c. 658, §1 (NEW).]

The hearing must conform to the procedures detailed in this subsection. Review of any action or failure to act under this chapter must be pursuant to Title 5, chapter 375, subchapter VII. An action relative to the denial of a license provided under this chapter must be communicated to the applicant in writing and must include the specific reason or reasons for that action and must state that the person affected has a right to a hearing.

[PL 1997, c. 658, §1 (NEW).]

4. Right of entry and inspection. A duly designated employee of the department may enter the premises of any ESRD services provider who has applied for a license or who is licensed pursuant to this chapter or rules adopted pursuant to this chapter. These employees may inspect relevant documents of the ESRD services provider to determine whether the provider is in compliance with this chapter and rules adopted pursuant to this chapter. The right of entry and inspection extends to any premises and documents of a provider the department has reason to believe is providing ESRD services without a license. §2054. Health Facilities Authority; executive director

1. Authority. The Maine Health and Higher Educational Facilities Authority, established by Title 5, chapter 379, is constituted a public body corporate and politic and an instrumentality of the State, and the exercise by the authority of the powers conferred by this chapter is deemed and held to be the performance of an essential public function. The authority consists of 12 members, one of whom must be the Superintendent of Financial Institutions, ex officio; one of whom must be the Commissioner of Health and Human Services, ex officio; one of whom must be the Commissioner of Education, ex officio; one of whom must be the Treasurer of State, ex officio; and 8 of whom must be residents of the State appointed by the Governor. Not more than 4 of the appointed members may be members of the same political party. Three of the appointed members must be trustees, directors, officers or employees of health care facilities and one of these appointed members must be a person having a favorable reputation for skill, knowledge and experience in state and municipal finance, either as a partner, officer or employee of an investment banking firm that originates and purchases state and municipal securities, or as an officer or employee of an insurance company or bank whose duties relate to the purchase of state and municipal securities as an investment and to the management and control of a state and municipal securities portfolio. Of the 3 members first appointed who are trustees, directors, officers or employees of hospitals, one shall serve for 2 years, one for 3 years and one for 4 years. Of the 5 remaining members initially appointed, one shall serve for one year, one for 2 years, one for 3 years, one for 4 years and one for 5 years. For the 2 members whose terms expire in 1980 and 1981, the Governor shall appoint as successors, for terms of 5 years each, persons who are trustees, members of a corporation or board of governors, officers or employees of institutions for higher education. Annually, the Governor shall appoint, for a term of 5 years, a successor to the member whose term expires. Members shall continue in office until their successors have been appointed and qualified. The Governor shall fill any vacancy for the unexpired terms. A member of the authority is eligible for reappointment. Any non-ex officio member of the authority may be removed by the Governor, after hearing, for misfeasance, malfeasance or willful neglect of duty. Each member of the authority before entering upon the member's duties must take and subscribe the oath or affirmation required by the Constitution of Maine, Article IX. A record of each such oath must be filed in the office of the Secretary of State. The Superintendent of Financial Institutions, the Treasurer of State, the Commissioner of Health and Human Services and the Commissioner of Education may designate their deputies to represent them with full authority and power to act and vote in their behalf or, in the case of the Superintendent of Financial Institutions, the Commissioner of Health and Human Services and the Commissioner of Education, any member of their staffs to represent them as members at meetings of the authority with full power to act and, in the case of the Superintendent of Financial Institutions, the Commissioner of Health and Human Services and the Commissioner of Education, to vote in their behalf.

2. Chair, vice-chair; executive director. The authority shall annually elect one of its members as chair and one as vice-chair and shall also appoint an executive director who is not a member of the authority and who serves at the pleasure of the authority and receives such compensation as set by the authority.

3. Duties of executive director. The executive director shall keep a record of the proceedings of the authority and is the custodian of all books, documents and papers filed with the authority and of the minute book or journal of the authority and of its official seal. The executive director may cause copies to be made of all minutes and other records and documents of the authority and may give certificates under the official seal of the authority to the effect that such copies are true copies, and all persons dealing with the authority may rely upon the certificates.

[RR 2021, c. 2, Pt. B, §115 (COR).]

4. Powers of authority. The powers of the authority are vested in its members, and 5 members of the authority constitute a quorum at any meeting of the authority. A vacancy in the membership of the authority does not impair the right of a quorum to exercise all the rights and perform all the duties of the authority. An action taken by the authority under this chapter may be authorized by resolution approved by a majority of the members present at any regular or special meeting, which resolution takes effect immediately, or an action taken by the authority may be authorized by a resolution circularized or sent to each member of the authority, which resolution takes effect at such time as a majority of the members have signed an assent to such resolution. Resolutions of the authority need not be published or posted. The authority may delegate by resolution to one or more of its members or its executive director such powers and duties as it considers proper.

The authority may meet by telephonic, video, electronic or other similar means of communication with less than a quorum assembled physically at the location of a public proceeding identified in the notice required by Title 1, section 406 only if:

A. Each member can hear all other members, speak to all other members and, to the extent reasonably practicable, see all other members by videoconferencing or other similar means of communication during the public proceeding, and members of the public attending the public proceeding at the location identified in the notice required by Title 1, section 406 are able to hear and, to the extent reasonably practicable, see all members participating from other locations by videoconferencing or other similar means of communication; [PL 2015, c. 449, §2 (NEW).]

B. Each member who is not physically present at the location of the public proceeding and who is participating through telephonic, video, electronic or other similar means of communication identifies all persons present at the location from which the member is participating; [PL 2015, c. 449, §2 (NEW).]

C. A member who participates while not physically present at the location of the public proceeding identified in the notice required by Title 1, section 406 does so only when the member's attendance is not reasonably practical. The reason that the member's attendance is not reasonably practical must be stated in the minutes of the meeting; and [PL 2015, c. 449, §2 (NEW).]

D. Each member who is not physically present at the location of the public proceeding and who is participating through telephonic, video, electronic or other similar means of communication has received prior to the public proceeding all documents and materials discussed at the public proceeding, with substantially the same content as those presented at the public proceeding. Documents or other materials made available at the public proceeding may be transmitted to the member not physically present during the public proceeding if the transmission technology is available. Failure to comply with this paragraph does not invalidate an action taken by the authority at the public proceeding. [PL 2015, c. 449, §2 (NEW).]

[PL 2015, c. 449, §2 (AMD).]

5. Bond. Each member of the authority shall execute a surety bond in the penal sum of \$50,000 and the executive director shall execute a surety bond in the penal sum of \$100,000, or, in lieu thereof, the chair of the authority shall execute a blanket position bond covering each member, the executive director and the employees of the authority, each surety bond to be conditioned upon the faithful performance of the duties of the office or offices covered, to be executed by a surety company authorized to transact business in this State as surety and to be approved by the Attorney General and filed in the office of the Secretary of State. The cost of each bond must be paid by the authority. [RR 2021, c. 2, Pt. B, §116 (COR).]

6. Expenses. The members of the authority shall be compensated according to the provisions of Title 5, chapter 379. [PL 1983, c. 812, §125 (RPR).]

7. Conflict of interest. Notwithstanding any other law to the contrary, it does not constitute a conflict of interest for a trustee, director, officer or employee of a health care facility or a participating institution providing an educational program or for a trustee, member of a corporation or board of governors, officer or employee of an institution for higher education to serve as a member of the authority if that trustee, director, member of a corporation or board of governors, officer or employee abstains from deliberation, action and vote by the authority under this chapter in specific respect to the health care facility, institution for higher education or participating institution providing an educational program of which that member is a trustee, director, member of a corporation or board of governors, officer or employee.

§2062. Trust agreement to secure bonds

In the discretion of the authority, any bonds issued under this chapter may be secured by a trust agreement by and between the authority and a corporate trustee or trustees, which may be any trust company or bank having the powers of a trust company within or without the State. Such trust agreement or the resolution providing for the issuance of such bonds may pledge or assign the revenues to be received or proceeds of any contract or contracts pledged and may convey or mortgage the project or any portion thereof. Such trust agreement or resolution providing for the issuance of such bonds may contain such provisions for protecting and enforcing the rights and remedies of the bondholders as may be reasonable and proper, and not in violation of law, including particularly such provisions as have been specifically authorized to be included in any resolution or resolutions of the authority authorizing bonds thereof. Any bank or trust company incorporated under the laws of this State, which may act as depository of the proceeds of bonds or of revenues or other moneys, may furnish such indemnifying bonds or pledge such securities as may be required by the authority. Any such trust agreement may set forth the rights and remedies of the bondholders and of the trustee or trustees, and may restrict the individual right of action by bondholders. In addition, any such trust agreement or resolution may contain such other provisions as the authority may deem reasonable and proper for the security of the bondholders. All expenses incurred in carrying out such trust agreement or resolution may be treated as a part of the cost of the operation of a project. [PL 1971, c. 303, §1 (NEW).]

§2063. Credit of State not pledged

Bonds and notes issued under this chapter do not constitute or create a debt or debts, liability or liabilities on behalf of the State or of a political subdivision of the State other than the authority or a loan of the credit of the State or a pledge of the faith and credit of the State or of any such political subdivision other than the authority, but are payable solely from the funds provided for the bonds and notes. All such bonds and notes must contain on the face of the bonds and notes a statement to the effect that neither the State nor a political subdivision of the State is obligated to pay the same or the interest on the bonds and notes, except from revenues of the project or the portion of the project for which they are issued and that neither the faith and credit nor the taxing power of the State or of a political subdivision of the State is pledged to the payment of the principal of or the interest on such bonds or notes. The issuance of bonds or notes under this chapter may not directly or indirectly or contingently obligate the State or a political subdivision of the State to levy or to pledge any form of taxation whatever for the bonds and notes or to make an appropriation for their payment. Nothing in this section may prevent nor be construed to prevent the authority from pledging its full faith and credit or the full faith and credit of a participating health care facility, participating institution for higher education or participating institution providing an educational program to the payment of bonds or notes or issue of notes or bonds authorized pursuant to this chapter. §2064. Rents and charges

The authority is authorized to fix, revise, charge and collect rates, rents, fees and charges for the use of and for the services furnished or to be furnished by each project and to contract with a person, partnership, association or corporation, or other body, public or private, in respect of rates, rents, fees and charges. Such rates, rents, fees and charges must be fixed and adjusted in respect of the aggregate of rates, rents, fees and charges from such project so as to provide funds sufficient with other revenues or money available for the project, if any, to pay the cost of maintaining, repairing and operating the project and each and every portion of the project, to the extent that the payment of such cost has not otherwise been adequately provided for, to pay the principal of and the interest on outstanding bonds or notes of the authority issued in respect of such project as the same become due and payable, and to create and maintain reserves required or provided for in a resolution authorizing, or trust agreement securing, such bonds or notes of the authority. Such rates, rents, fees and charges are not subject to supervision or regulation by a department, commission, board, body, bureau or agency of this State other than the authority. A sufficient amount of the revenues derived in respect of a project, except such part of such revenues as may be necessary to pay the cost of maintenance, repair and operation and to provide reserves and for renewals, replacements, extensions, enlargements and improvements as may be provided for in the resolution authorizing the issuance of bonds or notes of the authority or in the trust agreement securing the same, must be set aside at such regular intervals as may be provided in such resolution or trust agreement in a sinking or other similar fund that is pledged to, and charged with, the payment of the principal of and the interest on such bonds or notes as the same become due, and the redemption price or the purchase price of bonds retired by call or purchase as therein provided. Such pledge is valid and binding from the time when the pledge is made; the rates, rents, fees and charges and other revenues or other money so pledged and later received by the authority are immediately subject to the lien of such pledge without any physical delivery of the revenues or money or further act, and the lien of any such pledge is valid and binding as against all parties having claims of any kind in tort, contract or otherwise against the authority, irrespective of whether such parties have notice of the lien. Neither the resolution nor a trust agreement nor any other agreement nor any lease by which a pledge is created need be filed or recorded except in the records of the authority. The use and disposition of money to the credit of such sinking or other similar fund are subject to the resolution authorizing the issuance of such bonds or notes or of such trust agreement. Except as may otherwise be provided in such resolution or such trust agreement, such sinking or other similar fund may be a fund for all such bonds or notes issued to finance projects at a particular participating health care facility, participating institution for higher education or participating institution providing an educational program without distinction or priority of one over another, provided the authority in any such resolution or trust agreement may provide that such sinking or other similar fund is the fund for a particular project at a participating health care facility, participating institution for higher education or participating institution providing an educational program and for the bonds issued to finance a particular project and may, additionally, permit and provide for the issuance of bonds having a subordinate lien in respect of the security authorized in this chapter to other bonds of the authority, and, in such case, the authority may create separate sinking or other similar funds in respect of such subordinate lien bonds. SECTION HISTORY

§2075. Maine Health Facilities' Reserve Fund

1. Maine Health Facilities' Reserve Fund. The authority shall establish and maintain a reserve fund called the "Maine Health Facilities' Reserve Fund" in which is deposited all money appropriated by the State for the purpose of that fund, all proceeds of bonds required to be deposited in the fund by terms of any contract between the authority and its bondholders or any resolution of the authority with respect to the proceeds of bonds and any other money or funds of the authority that the authority determines to deposit in the fund and any other money made available to the authority only for the purposes of the fund from any other source or sources.

A. Money in the reserve fund is held and applied solely to the payment of the interest on and principal of bonds secured by the reserve fund and sinking fund payments referred to in this chapter with respect to bonds secured by the reserve fund as the interest, principal and sinking fund payments become due and payable; and for the retirement of bonds, including the payment of any redemption premium required to be paid when any bonds are redeemed or retired before maturity. Money may not be withdrawn from the fund if the withdrawal reduces the amount in the reserve fund to an amount less than the required debt service reserve, except for:

- (1) Payment of interest then due and payable on bonds;
- (2) Payment of the principal of bonds then maturing and payable;
- (3) Sinking fund payments referred to in this chapter with respect to bonds;
- (4) The retirement of bonds in accordance with the terms of any contract between the authority and its bondholders; or
- (5) The payment for which other money of the authority is not then available for payment of interest, principal or sinking fund payments or the retirement of bonds in accordance with the terms of any such contract. [PL 1991, c. 584, §6 (NEW).]

B. As used in this chapter, "required debt service reserve" means, as of any date of computation, the amount or amounts required to be on deposit in the reserve fund as provided by resolution of the authority. For purposes of this chapter, the amount of any letter of credit, insurance contract,

surety bond or similar financial undertaking available to be drawn upon and applied to obligations to which money in the reserve fund may be applied is deemed to be and must be counted as money in the Maine Health Facilities' Reserve Fund, capital reserve funds or any other reserve fund as provided by resolution of the authority. The required debt service reserve is, as of any date of computation, an aggregate amount equal to at least the largest amount of money required by the terms of all contracts between the authority and holders of bonds secured by the reserve fund to be raised in the current or any succeeding calendar year for:

- (1) The payment of interest on and maturing principal of that portion of outstanding bonds secured by the reserve fund; and
- (2) Sinking fund payments required by the terms of any such contracts to sinking funds established for the payment or redemption of those bonds. [PL 1995, c. 179, §4 (AMD).]

C. To ensure the maintenance of the required debt service reserve in the reserve fund, there must be annually appropriated and paid to the authority for deposit in the fund the sum, if any, certified by the executive director of the authority to the Governor, required to restore the reserve fund to an amount equal to the required debt service reserve. On or before December 1st of each year, the executive director shall make and deliver to the Governor a certificate stating the sum and the sum or sums so certified must be appropriated and paid to the authority during the current state fiscal year.

To ensure the maintenance of the required debt service reserve in any capital reserve fund to which, at the direction of the authority pursuant to the resolution or resolutions establishing a capital reserve fund, this provision applies, there is annually appropriated and paid to the authority for deposit in the fund the sum, if any, certified by the executive director of the authority to the Governor, required to restore the reserve fund to an amount equal to the required debt service reserve. On or before December 1st of each year, the director shall make and deliver to the Governor a certificate stating the sum and the sum or sums so certified must be appropriated and paid to the authority during the current state fiscal year. [PL 1991, c. 584, §6 (NEW).]

[PL 1995, c. 179, §4 (AMD).]

2. Capital reserve fund. This subsection applies to capital reserve funds.

A. The authority may establish and maintain one or more special funds called "capital reserve funds" in which must be deposited:

- (1) All money appropriated by the State for the purpose of those funds;
- (2) All proceeds of bonds required to be deposited in those funds by the terms of any contract between the authority and its bondholders or any resolution of the authority with respect to the proceeds of bonds;
- (3) Any other money or funds of the authority that the authority determines to deposit in those funds; and
- (4) Any other money made available to the authority only for the purposes of the fund from any other source or sources. [PL 1991, c. 584, §6 (NEW).]

B. Money in any capital reserve fund is held and applied solely:

- (1) To pay the interest on and principal of bonds secured by the capital reserve fund and sinking fund payments referred to in this chapter with respect to bonds secured by the capital reserve fund as the interest and principal becomes due and payable; and
- (2) To retire bonds secured by the capital reserve fund, including the payment of any redemption premium required to be paid when any such bonds are redeemed or retired before maturity. [PL 1991, c. 584, §6 (NEW).]

C. The minimum amount of any capital reserve fund must be equal to the amounts required under the resolutions pursuant to which the bonds secured by the capital reserve fund are issued. These amounts are referred to in this chapter as the "required minimum reserve." With respect to bonds secured by a capital reserve fund for which the resolution authorizing the issuance of those bonds states that the provisions of subsection 1, paragraph C apply, the required minimum reserve is, as of any date of computation, an aggregate amount equal to at least the largest amount of money required by the terms of all contracts between the authority and its bondholders of the bonds to be raised in the current or any succeeding calendar year for the payment of interest on and maturing principal of that portion of the outstanding bonds or sinking fund payments required by the terms of any such contracts to sinking funds established for the payment or redemption of the bonds, all calculated on the assumption that the bonds will cease to be outstanding after the date of the computation because of the payment of the bonds at their respective maturities and the payments of the required money to sinking funds and the application of the sinking funds in accordance with the terms of all such contracts to the retirement of the bonds. [PL 1991, c. 584, §6 (NEW).]

D. Money in any capital reserve fund may not be withdrawn if the withdrawal reduces the amount in the capital reserve fund to an amount less than the required minimum reserve for all such bonds issued and to be issued that are secured by the capital reserve fund, except for:

§2076. Authority to intercept federal and state aid

1. Treasurer to withhold funds. When the authority notifies the Treasurer of State in writing that an entity eligible to use the authority is in default as to the payment of principal or interest on any securities of that entity sold through or by the authority, or that the authority has reasonable grounds to predict that the entity will not be able to make a full payment when that payment is due, the Treasurer of State shall withhold any funds in the Treasurer of State's custody that are due or payable to the eligible entity until the amount of the principal or interest due or anticipated to be due has been paid to the authority or the trustee for the bondholders, or the authority notifies the Treasurer of State that satisfactory arrangements have been made for the payment of the principal and interest. Funds subject to withholding under this subsection include, but are not limited to, federal and state grants, contracts, allocations or appropriations.

[PL 1991, c. 584, §7 (NEW).]

2. Withheld funds to be made available to authority. If the authority further notifies the Treasurer of State in writing that no other arrangements are satisfactory, the Treasurer of State shall deposit in the General Fund and make available to the authority any funds withheld from the eligible entity under this section. The authority shall apply the funds to the costs incurred by the eligible entity, including payments required to be made to the authority or trustee for any bondholders of debt service on any debt issued by the authority for the eligible entity or required by the terms of any other law or

contract to be paid to the holders or owners of debt issued on behalf of the eligible entity upon failure or default, or reasonable expectation of failure or default, of the eligible institution to pay the principal or interest on its securities when due.

[PL 1991, c. 584, §7 (NEW).]

3. Other agencies to be notified. Concurrent with any notice from the authority to the Treasurer of State under this section, the authority shall notify any other agency, department or authority of State Government that exercises regulatory, supervisory or statutory control over the operations of the eligible entity. Upon notification, the agency, department or authority shall immediately undertake reviews to determine what action, if any, that agency, department or authority should undertake to assist in the payment by the eligible entity of the money due or steps that the agencies of the State other than the Treasurer of State or the authority should take to assure the continued prudent operation of the eligible entity or provision of services to the people served by the eligible entity.

§2077. Lease finance program

1. Establishment; administration. A lease finance program under the jurisdiction and direction of the authority is established to provide for or assist with financing leases for eligible entities to acquire the use of personal or real property. The lease finance program must provide methods of direct or indirect financing, insurance, borrowing, credit enhancement and other financial tools for the lease, lease-purchase, rental or right of use of any real or personal property or other authorized activity of an eligible entity. For the purposes authorized in this section the University of Maine System and its colleges and universities are eligible participating institutions under the definition of eligible participant for the authority.

[PL 1997, c. 385, §5 (NEW).]

2. Eligible entity defined. For purposes of this section "eligible entity" means an eligible entity, as defined in section 2053, subsection 3-B, that is organized pursuant to the United States Internal Revenue Code, Section 501.

[PL 1997, c. 385, §5 (NEW).]

3. Powers. The authority may make loans or borrow money on behalf of any eligible entity for any of the purposes of this section. The authority may purchase, refinance or enter into leases with or on behalf of any eligible entity. The authority may purchase or refinance for or on behalf of any eligible entity any lease that is held or issued by a 3rd party. The authority may issue its bonds or notes for the purchase of leases on behalf of any eligible entity or any group of those entities or for the establishment of a pool of funds to be used for the purchase, financing or other means of acquisition of leases. The authority shall establish prudent standards for the terms and conditions of any lease financing made available to any eligible entity or any group of those entities. Terms and conditions include, but are not limited to, the general obligation of the eligible entity, liens on any real or personal property held by the eligible entity whether financed by the specific lease or not and sinking funds held by or available to the eligible entity.

[PL 1997, c. 385, §5 (NEW).]

4. Application; eligibility. The authority may prescribe and require an application or procedure for an eligible entity to participate in any form of lease financing assistance made available under this section. An application must include any information that the authority decides is necessary for implementing this section, including, but not limited to, supporting documents, certifications, feasibility studies, financial data, utilization studies or other applicable information. An eligible entity may not participate in any lease finance assistance made available under this section unless, in the sole judgment of the authority, the eligible entity has satisfactorily demonstrated that it will pay the

principal, interest, fees and related charges on the bond, debt, or other instrument issued by the authority on its behalf or purchased by the bank from the eligible entity as well as the costs for operation and maintenance of any real or personal property acquired or made available for use by the eligible entity by virtue of the lease assistance. Satisfactory assurance can be demonstrated if an eligible entity has:

A. Established a method of payment by fee, rate, charges, assessment or other mechanism satisfactory to the authority; or [PL 1997, c. 385, §5 (NEW).]

B. Provided collateral sufficient to ensure payment. [PL 1997, c. 385, §5 (NEW).]
[PL 1997, c. 385, §5 (NEW).]

5. State not liable. Bonds, notes, leases or other forms of debt or liability entered into or issued by the authority under this section are not in any way a debt or liability of the State and do not constitute a loan of the credit of the State or create any debt or debts, liability or liabilities on behalf of the State or constitute a pledge of the faith and credit of the State. Each bond, note, lease or other evidence of debt or liability entered into by the authority must contain a statement to the effect that the authority is obligated to pay the principal, interest, redemption premium, if any, and any other amounts payable solely from the sources pledged for that purpose by the authority and that neither the faith and credit nor the taxing power of the State is pledged to the payment of the principal, interest, premium, charge, fee or other amount of the bond, note, lease or other form of indebtedness, as the case may be.
[PL 1997, c. 385, §5 (NEW).]

6. Lease finance agreement. Lease financing and refinancing, lease purchase, loans and other forms of indebtedness or obligations incurred by an eligible entity due the authority under the terms of this section must be evidenced by and be made in accordance with the terms and conditions specified in a lease finance agreement to be executed by the authority and any eligible entity or any group of those entities. The lease finance agreement must specify, among other things, the terms and conditions for the disbursement of lease finance proceeds, the term and interest rate of the lease, the scheduling of lease payments or bond payments, as the case may be, and any other terms and conditions determined necessary or desirable by the authority.
[PL 1997, c. 385, §5 (NEW).]

7. Utilization of municipal lease finance program. The authority, for the benefit of its eligible entities, may utilize the municipal lease finance program created in Title 30-A, section 6006-C for the purposes of this section.

CHAPTER 414

HEALTH CARE PRACTITIONER SELF-REFERRALS

§2081. Short title

This chapter may be known and cited as the "Health Care Practitioner Self-referral Act." [PL 1993, c. 308, §1 (NEW).]

SECTION HISTORY

PL 1993, c. 308, §1 (NEW).

§2082. Legislative finding

The Legislature finds that referral of patients by a health care practitioner to a facility in which the referring health care practitioner has an investment interest may present a potential conflict of interest, which could be harmful to the public health or welfare. [PL 1993, c. 308, §1 (NEW).]

SECTION HISTORY

PL 1993, c. 308, §1 (NEW).

§2083. Applicability

This chapter applies to referrals for health services made on or after January 1, 1994. However, if a health care practitioner acquired an investment interest in a facility before January 1, 1993, this chapter does not apply to referrals by that health care practitioner to that facility before January 1, 1997. [PL 1993, c. 308, §1 (NEW).]

SECTION HISTORY

PL 1993, c. 308, §1 (NEW).

[PL 1993, c. 308, §1 (NEW).]

3. Group practice. "Group practice" means a group of 2 or more health care practitioners legally organized as a partnership, professional corporation, nonprofit corporation or similar association in which:

A. Each health care practitioner who is a member, an employee or an independent contractor of the group provides substantially the full range of services that the health care practitioner routinely provides, including consultation, diagnosis or treatment, through the use of office space, facilities, equipment or personnel of the group; [PL 1993, c. 308, §1 (NEW).]

B. The services of the health care practitioners are provided through the group and payments received for health services are treated as receipts of the group; and [PL 1993, c. 308, §1 (NEW).]

C. The overhead expenses and the income from the practice are distributed by methods previously determined by the group. [PL 1993, c. 308, §1 (NEW).]
[PL 1993, c. 308, §1 (NEW).]

4. Health care practitioner. "Health care practitioner" means an individual regulated under the laws of this State to provide health services. "Health care practitioners" include, without limitation, acupuncturists, chiropractors, dentists, dental hygienists, nurses, occupational therapists, optometrists, pharmacists, physical therapists, physicians including allopathic and osteopathic physicians, physician assistants, podiatrists, psychologists, clinical social workers, speech therapists and audiologists or hearing aid dealers and examiners.
[PL 1993, c. 308, §1 (NEW).]

[PL 1993, c. 308, §1 (NEW).]

6. Immediate family member. "Immediate family member" means a health care practitioner's parent, spouse, child or child's spouse.

[PL 1993, c. 308, §1 (NEW).]

7. Investment interest. "Investment interest" means an equity or debt security issued by a facility, including, without limitation, shares of stock in a corporation, units or other interests in a partnership, bonds, debentures, notes or other equity interests or debt instruments, except that investment interest does not include interest in a hospital licensed under state law.

[PL 1993, c. 308, §1 (NEW).]

8. Investor. "Investor" means an individual who owns, whose immediate family owns or who directly or indirectly owns a controlling interest in another facility that owns an investment interest in a facility that provides health services.

[PL 1993, c. 308, §1 (NEW).]

9. Office practice. "Office practice" includes the facility or facilities at which a health care practitioner, on a regular basis, provides or supervises the provision of professional health services to individuals.

[PL 1993, c. 308, §1 (NEW).]

10. Referral. "Referral" means a referral of a patient for health services, including, without limitation:

B. The establishment by a health care practitioner of a plan of care outside the health care practitioner's office practice or group practice that includes the provision of any health services.

[PL 1993, c. 308, §1 (NEW).]

[PL 1993, c. 308, §1 (NEW).]

SECTION HISTORY

PL 1993, c. 308, §1 (NEW).

§2085. Prohibited referrals and claims for payment

1. Prohibited referrals. A health care practitioner may refer a patient to an outside facility in which that health care practitioner is an investor only when that health care practitioner directly provides health services within the facility and will be personally involved with the provision of care to the referred patient.

[PL 1993, c. 308, §1 (NEW).]

2. Exemption. Referrals by a health care practitioner are exempt from this chapter if the bureau determines that there is demonstrated need in the community for the facility and alternative financing is not available. A health care practitioner does not have to demonstrate a need for alternative financing if the practitioner has sufficient financial resources in the provider's practice without seeking financing from outside sources other than conventional bank loans. Demonstrated need in the community for the facility exists when:

A. There is no facility of reasonable quality that provides an appropriate service, or the bureau determines that the quality of health care services would be improved in the community, such as by providing new specialty or subspecialty services without increasing overall health care costs and utilization above levels likely to occur if such an exemption were not granted; [PL 1999, c. 553, §2 (AMD).]

B. Use of existing facilities is onerous or creates too great a hardship for patients; [PL 1993, c. 308, §1 (NEW).]

C. The facility is formed to own or lease medical equipment that replaces obsolete or otherwise inadequate equipment in or under the control of a hospital located in a federally designated health manpower shortage area; or [PL 1993, c. 308, §1 (NEW).]

D. The facility meets other standards established by rule by the bureau, including a standard allowing the bureau to determine whether the fees charged for the health services are competitive with fees charged for those services outside the community. "Community" must be defined by rule by the bureau. The following requirements must be met to be exempt under this section.

(1) Individuals who are not in a position to refer patients to a facility must be given a bona fide opportunity to invest in that facility on the same terms as those offered a referring health care practitioner.

(2) A health care practitioner who invests may not be required or encouraged to make referrals to the facility or otherwise generate business as a condition of becoming or remaining an investor.

(3) The facility shall market or furnish its services to investors who are referring health care practitioners and to other investors on equal terms.

(4) The facility may not loan funds or guarantee loans for health care practitioners who are in a position to refer patients to that facility.

(5) The income on the health care practitioner's investment must be tied to the health care practitioner's equity in the facility rather than to the volume of referrals made.

(6) An investment contract between the facility and the health care practitioner may not include a covenant or noncompetition clause that prevents a health care practitioner from investing in other facilities.

(7) When making a referral, a health care practitioner shall disclose to the patient being referred to the facility that health care practitioner's investment interest in that facility. If alternative facilities are reasonably available, the health care practitioner shall provide the patient with a list of alternative facilities. The health care practitioner shall inform the patient that the patient has the option to use an alternative facility and the patient will not be treated differently by the health care practitioner if the patient chooses to use another facility. This subparagraph applies to all investors who are health care practitioners, including those who provide direct care or services for their patients in facilities outside their office practice.

(8) If a 3rd-party payor requests information regarding a health care practitioner's investment interest, that information must be disclosed.

(9) The facility shall establish an internal utilization review program.

(10) If a health care practitioner's financial interest in a facility is incompatible with a referred patient's interest, the health care practitioner shall make alternative arrangements for that patient's care. [PL 1993, c. 308, §1 (NEW).]

The bureau shall make its determination on a request for an exemption within 90 days of a completed written request.

[PL 1999, c. 553, §1, 2 (AMD).]

3. Exception. It is not a violation of this chapter for a health care practitioner to refer a patient to a publicly traded facility in which that health care practitioner has an investment interest when:

A. The facility is listed for trading on the New York Stock Exchange or on the American Stock Exchange or is a national market system security traded under an automated interdealer quotation system operated by the National Association of Securities Dealers; [PL 1993, c. 308, §1 (NEW).]

B. The facility, at the end of its most recent fiscal year, had total net assets of at least \$50,000,000 related to the furnishing of health services; [PL 1993, c. 308, §1 (NEW).]

C. Investment interest obtained after the effective date of this chapter is traded on the exchanges listed in paragraph A; [PL 1993, c. 308, §1 (NEW).]

D. The facility markets or furnishes its services to investors who are referring health care practitioners and to other health care practitioners on equal terms; [PL 1993, c. 308, §1 (NEW).]

E. All stock held in that facility, including stock held in the predecessor privately held facility, is of one class without preferential treatment as to status or remuneration; [PL 1993, c. 308, §1 (NEW).]

F. The facility does not loan funds or guarantee loans for health care practitioners who are in a position to make referrals to a facility; [PL 1993, c. 308, §1 (NEW).]

G. The income on the health care practitioner's investment is tied to the health care practitioner's equity in the facility rather than to the volume of referrals made; and [PL 1993, c. 308, §1 (NEW).]

H. The investment interest does not exceed 1/2 of 1% of the facility's total equity. [PL 1993, c. 308, §1 (NEW).]

[PL 1993, c. 308, §1 (NEW).]

4. Compelling practitioner. A health care practitioner may not compel or coerce, or attempt to compel or coerce, any other health care practitioner to violate any provision of this chapter.

[PL 1993, c. 308, §1 (NEW).]

5. Third-party referrals. A health care practitioner may not participate in any arrangement or plan that is designed to evade the prohibitions in this chapter by using a 3rd party to redirect referrals that are prohibited under subsection 1 if the 3rd party was not involved in the referral.

[PL 1993, c. 308, §1 (NEW).]

6. Alternate facilities. If compliance with the community need and alternative financing criteria is not practical, the health care practitioner shall identify to the patient reasonably available alternative facilities. The bureau, by rule, shall designate when compliance is not practical.

[PL 1993, c. 308, §1 (NEW).]

7. Bureau opinion. Health care practitioners may request that the bureau render an advisory opinion as to whether a referral to an existing or proposed facility under specified circumstances violates the provision of this chapter. The bureau's opinion is presumptively correct as to whether the provisions of this chapter are violated.

[PL 1993, c. 308, §1 (NEW).]

8. Health organizations. Notwithstanding any provision of this chapter, a health care practitioner may refer a patient who is a member of a health maintenance organization or a preferred provider organization licensed in this State for health services to a facility outside that health care practitioner's office or group practice in which that health care practitioner is an investor when the referral is made pursuant to a contract with the organization.

[PL 1993, c. 308, §1 (NEW).]

§2086. Penalties

care practitioner knows or should know is prohibited by section 2085 is subject to a civil penalty of no more than \$2,000 for each referral, bill or claim. [PL 1993, c. 308, §1 (NEW).]

CHAPTER 416-A**DENTAL SERVICES****§2127. Oral health care**

1. Access to quality oral health services. The department shall develop access to quality oral health services for low-income residents with emphasis on underserved areas or populations by encouraging the development or expansion of community-operated, nonprofit oral health care programs that serve persons who are uninsured or underinsured for oral health care and that serve persons whose oral health care is covered by Medicaid.

[PL 1999, c. 401, Pt. MM, §1 (NEW); PL 1999, c. 401, Pt. MM, §5 (AFF).]

2. Development of oral health care programs. The department shall use funds appropriated for the purposes of this chapter, any available funds from Medicaid or other resources to provide funding for the start-up or expansion of public or nonprofit oral health care programs; to subsidize the provision of oral health care to persons without insurance coverage for that care in accordance with paragraph B; and to provide oral health case management and community oral health education designed to encourage good oral hygiene and to prevent oral diseases and tooth decay. Any oral health care program receiving funds under this chapter must:

A. Serve persons whose oral health care is covered by Medicaid; [PL 1999, c. 401, Pt. MM, §1 (NEW); PL 1999, c. 401, Pt. MM, §5 (AFF).]

B. Provide oral health care services to persons whose gross income is below 200% of the nonfarm income official federal poverty guidelines for whom insurance coverage is not available for the same payment as provided by Medicaid for the service if the subsidy described in this subsection is available. Persons without insurance to cover the service required and who have an income under 200% of the nonfarm income official federal poverty guidelines must be charged fees for oral health care on a sliding scale. The department shall establish the sliding scale by routine technical rules adopted pursuant to Title 5, chapter 375, subchapter II-A. The difference between the Medicaid rate and the payment made by the patient under the sliding fee arrangement must be paid to the oral health care program by the department. If a Medicaid rate is not established for a particular service provided under this section, the department shall establish a rate for that service.

(1) Persons with gross income less than 100% of the nonfarm official federal poverty guidelines may not be required to pay more than a nominal fee. For the purposes of this section, "nominal fee" has the same meaning as it has under Medicaid.

(2) In determining gross income, the department shall permit the deduction of business-related expenses of those who are self-employed; [PL 1999, c. 401, Pt. MM, §1 (NEW); PL 1999, c. 401, Pt. MM, §5 (AFF).]

C. Be governed by a board, a majority of whose members are individuals who are or will be served by the program and who, as a group, represent the individuals being served in terms of demographic factors such as residing in the community being served, income, race, ethnicity and gender. The board is responsible for:

(1) The establishment of the policy in the conduct of the program;

(2) Holding regularly scheduled meetings, of which minutes must be kept;

(3) Approval of the selection or dismissal of a program director or chief executive officer of the program;

(4) Establishing personnel policies and procedures, including selection and dismissal procedures, salary and benefit scales, employee grievance procedures and equal opportunity practices;

(5) Adopting policies for financial management practices, including a system to ensure accountability for program resources, approval of the annual program budget, program priorities, eligibility for services, including criteria for partial payment schedules, and long-range financial planning;

(6) Evaluating program activities including services utilization patterns, program productivity, patient satisfaction, achievement of program objectives and development of a process for hearing and resolving patient grievances;

(7) Ensuring that the program is operated in compliance with applicable federal, state and local laws, rules and regulations; and

(8) Adopting health care policies including scope and availability of services, location and hours of services and quality of care audit procedures; [PL 1999, c. 401, Pt. MM, §1 (NEW); PL 1999, c. 401, Pt. MM, §5 (AFF).]

D. Use any funds provided for the purposes of this chapter to supplement, and not supplant, other funds that are or may be available to the oral health care program; [PL 1999, c. 401, Pt. MM, §1 (NEW); PL 1999, c. 401, Pt. MM, §5 (AFF).]

E. Implement a patient screening process to determine patient eligibility for Medicaid, the Children's Health Insurance Program under section 3174-T and the sliding fee scale; and [PL 2023, c. 597, §1 (AMD).]

F. Employ at least one full-time equivalent dentist practicing general dentistry and be open for business at least 20 hours a week, providing at least 4 hours of coverage during evenings or weekends. [PL 1999, c. 401, Pt. MM, §1 (NEW); PL 1999, c. 401, Pt. MM, §5 (AFF).]

A program may not receive funds under this chapter to serve more than 3 contiguous dental care analysis areas as defined by the Bureau of Health in the department.

[PL 2023, c. 597, §1 (AMD).]

3. Discrimination prohibited. An oral health care program receiving funds under this chapter may not discriminate among patients within its service area based upon payment source except as specifically authorized in subsection 2, paragraph B.

[PL 1999, c. 401, Pt. MM, §1 (NEW); PL 1999, c. 401, Pt. MM, §5 (AFF).]

4. Vouchers for private dental services. An oral health program that receives funds under this chapter may establish a voucher system for the purpose of reimbursing private dental providers providing services to patients of the program in accordance with the provisions of this subsection.

A. A voucher may be used only when:

- (1) A program chooses to provide specialized oral health services to its patients but can not provide these services directly;
- (2) The patient can not be served by the program with reasonable promptness; or
- (3) The distance to the program location or transportation problems make access to the program difficult for the patient. [PL 1999, c. 401, Pt. MM, §1 (NEW); PL 1999, c. 401, Pt. MM, §5 (AFF).]

B. A voucher payment made to a private provider does not exceed the difference between the patient's obligation, if any, under a sliding scale and the rate that Medicaid would reimburse a private provider for that same service. If no fee is established for the particular service in the Medicaid program, the department shall establish a fee. [PL 1999, c. 401, Pt. MM, §1 (NEW); PL 1999, c. 401, Pt. MM, §5 (AFF).]

C. A voucher payment is made only to a provider enrolled to provide services in the Medicaid program. [PL 1999, c. 401, Pt. MM, §1 (NEW); PL 1999, c. 401, Pt. MM, §5 (AFF).]

An oral health care program may place reasonable restrictions on a voucher system it establishes if those restrictions are consistent with the purposes of this chapter pursuant to subsection 1.

Even though an oral health care program receives funds under this chapter for the purpose of serving part of its service area through a voucher system, this does not prevent the application of another organization seeking funds under this chapter to provide direct program services to the residents of that area.

[PL 1999, c. 401, Pt. MM, §1 (NEW); PL 1999, c. 401, Pt. MM, §5 (AFF).]

5. Encouraging community support. The department shall require any entity seeking funds for the start-up or expansion of oral health programs under this chapter to raise matching funds, including in-kind support, sufficient to demonstrate community support.

[PL 1999, c. 401, Pt. MM, §1 (NEW); PL 1999, c. 401, Pt. MM, §5 (AFF).]

6. Coordination with Medicaid and the Cub Care program. The department shall coordinate assistance under this chapter with Medicaid and the Children's Health Insurance Program under section 3174-T in a manner most likely to obtain and maximize federal matching funds.

[PL 2023, c. 597, §2 (AMD).]

6-A. Monitoring of grants. The program director or chief executive officer under subsection 2, paragraph C, subparagraph (3) shall monitor contracts resulting from grant awards established by the department concerning community-based dental clinics affiliated with or operated by a school of dentistry.

[PL 2009, c. 645, Pt. E, §1 (NEW); PL 2009, c. 645, Pt. G, §1 (AFF).]

7. Rules. The department shall adopt rules, which are routine technical rules, pursuant to Title 5, chapter 375, subchapter II-A, to implement this chapter.

[PL 1999, c. 401, Pt. MM, §1 (NEW); PL 1999, c. 401, Pt. MM, §5 (AFF).]

[PL 2019, c. 271, §4 (NEW).]

12. Right to rescind request. A patient may rescind the patient's request at any time and in any manner without regard to the patient's mental state. [PL 2019, c. 271, §4 (NEW).]

13. Waiting periods. At least 15 days must elapse between the patient's initial oral request and the date the patient signs the written request under subsection 11. 19. Insurance or annuity policies. The sale, procurement or issuance of any life, health or accident insurance or annuity policy or the rate charged for any life, health or accident insurance or annuity policy may not be conditioned upon or affected by the making or rescinding of a request by a qualified patient for medication that the patient may self-administer to end the patient's life in accordance with this Act. A qualified patient whose life is insured under a life insurance policy issued under the provisions of Title 24-A, chapter 29 and the beneficiaries of the policy may not be denied benefits on the basis of self-administration of medication by the qualified patient in accordance with this Act. [PL 2019, c. 271, §4 (NEW).]

20. Authority of Act; references to acts committed under Act; applicable standard of care.

This Act does not authorize a physician or any other person to end a patient's life by lethal injection, mercy killing or active euthanasia. Actions taken in accordance with this Act do not, for any purpose, constitute suicide, assisted suicide, mercy killing or homicide under the law. State reports may not refer to acts committed under this Act as "suicide" or "assisted suicide." Consistent with the provisions of this Act, state reports must refer to acts committed under this Act as obtaining and self-administering life-ending medication. Nothing contained in this Act may be interpreted to lower the applicable standard of care for the attending physician, the consulting physician, a psychiatrist or a psychologist or other health care provider providing services under this Act.

[PL 2019, c. 271, §4 (NEW).]

21. Voluntary participation. Nothing in this Act requires a health care provider to provide medication to a qualified patient to end the qualified patient's life. If a health care provider is unable or unwilling to carry out the qualified patient's request under this Act, the health care provider shall transfer any relevant medical records for the patient to a new health care provider upon request by the patient.

[PL 2019, c. 271, §4 (NEW).]

22. Basis for prohibiting persons or entities from participation; notification; penalties; permissible actions. The following provisions govern the basis for prohibiting persons or entities from participating in activities under this Act, notification, penalties and permissible actions.

A. Subject to compliance with paragraph B and notwithstanding any other law, a health care provider may prohibit its employees, independent contractors or other persons or entities, including other health care providers, from participating in activities under this Act while on premises owned or under the management or direct control of that prohibiting health care provider or while acting within the course and scope of any employment by, or contract with, the prohibiting health care provider. [PL 2019, c. 271, §4 (NEW).]

B. A health care provider that elects to prohibit its employees, independent contractors or other persons or entities, including other health care providers, from participating in activities under this Act, as described in paragraph A, shall first give notice of the policy prohibiting participation under this Act to those employees, independent contractors or other persons or entities, including other health care providers. A health care provider that fails to provide notice to those employees, independent contractors or other persons or entities, including other health care providers, in compliance with this paragraph may not enforce such a policy against those employees, independent contractors or other persons or entities, including other health care providers. [PL 2019, c. 271, §4 (NEW).]

C. Subject to compliance with paragraph B, the prohibiting health care provider may take action, including, but not limited to, the following, as applicable, against an employee, independent contractor or other person or entity, including another health care provider, that violates this policy:

- (1) Participating, or entering into an agreement to participate, in activities under this Act while on premises that are not owned or under the management or direct control of the prohibiting health care provider or while acting outside the course and scope of the participant's duties as an employee of, or an independent contractor for, the prohibiting health care provider; or
 - (2) Participating, or entering into an agreement to participate, in activities under this Act as an attending physician or consulting physician while on premises that are not owned or under the management or direct control of the prohibiting health care provider. [PL 2019, c. 271, §4 (NEW).]
- E. In taking actions pursuant to paragraph C, a health care provider shall comply with all procedures required by law, its own policies or procedures and any contract with the employee, independent contractor or other person or entity, including another health care provider, in violation of the policy, as applicable. [PL 2019, c. 271, §4 (NEW).]
- F. Any action taken by a prohibiting health care provider pursuant to this subsection is not reportable to the appropriate licensing board under Title 32, including, but not limited to, the Board of Licensure in Medicine, the Board of Osteopathic Licensure and the Maine Board of Pharmacy. The fact that a health care provider participates in activities under this Act may not be the sole basis for a complaint or report by another health care provider to the appropriate licensing board under Title 32, including, but not limited to, the Board of Licensure in Medicine, the Board of Osteopathic Licensure and the Maine Board of Pharmacy. [PL 2019, c. 271, §4 (NEW).]

patient about this Act; or providing a patient, upon the patient's request, with a referral to another health care provider for the purposes of participating in the activities authorized by this Act. [PL 2019, c. 271, §4 (NEW).]

[PL 2019, c. 271, §4 (NEW).]

23. Claims by governmental entity for costs incurred. Any governmental entity that incurs costs resulting from a person ending the person's life under this Act in a public place has a claim against the estate of the person to recover the costs and reasonable attorney's fees related to enforcing the claim. [PL 2019, c. 271, §4 (NEW).]

This subsection does not eliminate, limit or reduce any other immunity or defense that may be available under the laws of this State, including that provided under Title 14, section 164.

If it is poultry, a poultry product, meat or a meat product offered for sale, sold or distributed within the State and labeled or advertised as "Maine-raised" or by a similar designation unless the poultry or animal was raised in Maine. A determination that poultry, a poultry product, meat or a meat product is misbranded may be waived by the commissioner upon application if the commissioner finds a waiver warranted due to economic factors, including, but not limited to, the proximity of processing facilities to the in-state poultry producer or meat producer and the availability of poultry processing facilities or meat processing facilities in the State. For purposes of this subsection, "raised in Maine" means:

A. For poultry and poultry products, that the poultry was raised solely in the State from no later than the 7th day after hatching and processed solely in the State; and [PL 2019, c. 455, §1 (NEW); RR 2019, c. 1, Pt. A, §22 (RAL).]

For purposes of this subsection, the following terms have the following meanings.

A. "Acceptable additional feed" means hay, haylage, baleage, silage, crop residue without grain and other sources of roughage as well as routine mineral and vitamin supplementation. [PL 2023, c. 74, §3 (NEW).]

B. "Forage" means annual or perennial grasses, forbs and other browse. "Forage" also includes cereal grain crops in the vegetative stage of growth. [PL 2023, c. 74, §3 (NEW).]

C. "Grass-fed" means, with respect to meat or a meat product, that the ruminant animal from which the meat was derived:

(1) Consumed only forage and acceptable additional feed during its lifetime with the exception of milk consumed prior to its weaning; and

(2) Had continuous access to pasture during each growing season until slaughter. [PL 2023, c. 74, §3 (NEW).]

A determination that meat or a meat product is misbranded may be waived by the commissioner upon application if the commissioner finds a waiver warranted due to inadvertent exposure of the animal to nonforage feedstuffs or because incidental supplementation with nonforage feedstuffs was necessary to ensure the well-being of the animal during adverse environmental or physical conditions.

§2158. Addition of certain substances limited

Any poisonous or deleterious substance added to any food, except where such substance is required in the production thereof or cannot be avoided by good manufacturing practice, must be deemed to be unsafe for purposes of the application of section 2156, subsection 1, paragraph B; but when such substance is so required or cannot be avoided, the Commissioner of Agriculture, Conservation and Forestry shall adopt rules limiting the quantity therein or thereon to such extent as the commissioner finds necessary for the protection of public health, and any quantity exceeding the limits so fixed must be deemed to be unsafe for purposes of the application of section 2156, subsection 1, paragraph B. While such a rule is in effect limiting the quantity of any such substance in the case of any food, such food may not, by reason of bearing or containing any added amount of such substance, be considered to be adulterated within the meaning of section 2156, subsection 1, paragraph A. In determining the quantity of such added substance to be tolerated in or on different articles of food, the commissioner shall take into account the extent to which the use of such substance is required or cannot be avoided in the production of each such article and the other ways in which the consumer may be affected by the same or other poisonous or deleterious substances. Goods that are prepared by a caregiver under section 2152, subsection 4-A, paragraph G or in a food establishment that is a licensed facility under section 2167 and that contain cannabis for medical use by a qualifying patient, pursuant to chapter 558-C, are not considered to be adulterated under this subchapter. §2159. Articles detained, embargoed and condemned

Whenever a duly authorized agent of the Commissioner of Agriculture, Conservation and Forestry finds or has reason to believe that any food is adulterated, or so misbranded as to be dangerous or fraudulent, within the meaning of this subchapter, the duly authorized agent of the commissioner may issue an order detaining or embargoing that food to any person in possession or control thereof, and may affix or require the person to whom the order is directed to affix to the article a tag or other appropriate marking, giving notice that the article is or is suspected of being adulterated or misbranded and has been detained or embargoed, and warning all persons not to remove or dispose of the article by sale or otherwise until permission for removal or disposal is given by the agent or the court. A person may not remove or dispose of the detained or embargoed article by sale or otherwise without permission of the agent or the court. Orders relating to detention and embargo issued pursuant to this chapter may not be considered licensing or an adjudicatory proceeding, as those terms are defined by Title 5, chapter 375. When an article detained or embargoed under the preceding paragraph has been found by an authorized agent of the commissioner to be adulterated or misbranded, the agent shall petition the proper officer of the District Court or Superior Court in whose jurisdiction the article is detained or embargoed for a libel for condemnation of the article. When the adulteration or misbranding can be corrected by proper labeling or processing of the article, the court, after entry of the decree and after such costs, fees and expenses have been paid and a good and sufficient bond, conditioned that the article is labeled or processed, has been executed, may by order direct that the article be delivered to the claimant thereof for labeling or processing under the supervision of an authorized agent of the commissioner. The expense of such supervision must be paid by the claimant. The bond must be returned to the claimant of the article on representation to the court by the commissioner that the article is no longer in violation of this subchapter and that the expenses of such supervision have been paid. [RR 2021, c. 2, Pt. B, §124 (COR).]

Whenever the commissioner or any of the commissioner's authorized agents finds in any room, building, vehicle of transportation or other structure any meat, seafood, poultry, vegetable, fruit or other perishable articles that are unsound or contain any filthy, decomposed or putrid substance or that may be poisonous or deleterious to health or otherwise unsafe, the same being declared to be a nuisance, the commissioner or the commissioner's authorized agent shall forthwith condemn or destroy the same, or in any other manner render the same unsalable as human food. The commissioner shall, within 30 days following receipt of application for a license to operate a food establishment or a food salvage establishment or to act as a salvage broker, issue the appropriate license if the applicant is in compliance with this chapter and any rules adopted by the commissioner. When any applicant, upon inspection by the commissioner, is found not to meet the requirements of this chapter or rules adopted under this chapter, the commissioner may issue either a temporary license for a specified period not to exceed 90 days, during which time corrections specified by the commissioner must be made by the applicant for compliance, or a conditional license setting forth conditions that must be met by the applicant to the satisfaction of the commissioner. The fee for a 2-year license is 2 times the annual fee. The fee for a 3-year license is 3 times the annual fee. The prescribed fee must accompany the application for license. Licenses may be renewed upon application and payment of the fees, subject to the commissioner's rules and regulations. Licenses erroneously issued by the commissioner are considered void and must be returned to the commissioner on demand. [PL 1999, c. 598, §1 (AMD); PL 1999, c. 598, §4 (AFF).]

Penalties may be imposed for each violation of the rules. [PL 1991, c. 837, Pt. A, §49 (NEW).]

B. The department may direct a food establishment or food salvage establishment to correct any violations in a manner and within a time frame that the department determines is appropriate to ensure compliance with state rules or to protect the public health. Failure to correct violations within the time frame constitutes a separate violation for which a fine may be imposed. [PL 1991, c. 837, Pt. A, §49 (NEW).]

C. A person, corporation, firm or copartnership may not operate a food establishment or food salvage establishment without first obtaining a license as required by this chapter. 10. Cannabis testing facility. The following provisions apply to a cannabis testing facility.

A. A cannabis testing facility that meets the requirements of this subsection and any rules adopted under paragraph D may receive and possess samples from qualifying patients, caregivers, dispensaries and manufacturing facilities to provide testing for the cannabinoid profile and potency of the samples and for contaminants in the samples, including but not limited to mold, mildew, heavy metals, plant regulators and illegal pesticides. For the purposes of this paragraph, "plant regulator" has the same meaning as in Title 7, section 604, subsection 26. [PL 2019, c. 331, §13 (RPR); PL 2021, c. 669, §5 (REV).]

B. An assistant of a cannabis testing facility may have access to cultivation areas pursuant to subsection 3, paragraphs A and B and section 2428, subsection 6, paragraph I. The failure of the department to adopt rules under this paragraph does not prevent a cannabis testing facility from engaging in activities in compliance with this chapter. [PL 2021, c. 387, §2 (RPR); PL 2021, c. 669, §5 (REV).]

D-1. Upon the adoption of rules pursuant to paragraph D and this paragraph, a cannabis testing facility must be certified by the certification program established pursuant to section 569 as meeting all operational and technical requirements in accordance with rules adopted by the department after consultation with the Maine Center for Disease Control and Prevention. Rules adopted pursuant to this paragraph are routine technical rules as defined in Title 5, chapter 375, subchapter 2-A, except that, beginning July 1, 2021, rules adopted pursuant to this paragraph are major substantive rules

as defined in Title 5, chapter 375, subchapter 2-A. A cannabis testing facility operating in compliance with this chapter on the date of the adoption of rules pursuant to this paragraph and paragraph D may continue to operate pending completion of certification under this paragraph. The failure of the department to adopt rules under this paragraph does not prevent a cannabis testing facility from engaging in activities in compliance with this chapter. §2423-B. Authorized conduct by a medical provider

A medical provider may provide a written certification in accordance with this section for the medical use of cannabis under this chapter and, after having done so, may otherwise state that in the medical provider's professional opinion a qualifying patient is likely to receive therapeutic or palliative benefit from the medical use of cannabis to treat or alleviate the patient's medical diagnosis. [PL 2017, c. 452, §5 (AMD); PL 2021, c. 669, §5 (REV).]

1. Adult qualifying patient. Prior to providing written certification for the medical use of cannabis under this section, a medical provider shall inform an adult qualifying patient or the patient's legal guardian or representative of the risks and benefits of the medical use of cannabis and that the patient may benefit from the medical use of cannabis.

[PL 2017, c. 452, §5 (AMD); PL 2021, c. 669, §5 (REV).]

2. Minor qualifying patient.

[PL 2017, c. 452, §5 (RP).]

2-A. Minor qualifying patient. A medical provider who provides a written certification to a patient who has not attained 18 years of age shall:

A. Prior to providing written certification, inform the qualifying patient and the parent, legal guardian or person having legal custody of the patient of the risks and benefits of the medical use of cannabis and that the patient may benefit from the medical use of cannabis; and [PL 2021, c. 662, §18 (AMD); PL 2021, c. 669, §5 (REV).]

B. [PL 2021, c. 662, §18 (RP).]

C. [PL 2021, c. 662, §18 (RP).]

D. [PL 2021, c. 662, §18 (RP).]

E. Provide the parent, legal guardian or person having legal custody of the qualifying patient with a reliable method of communicating with the medical provider at all times, including when the medical provider's office is closed, regarding the proper dosage of and mitigation of any side effects caused by cannabis used by the qualifying patient for medical purposes. [PL 2021, c. 662, §18 (NEW); PL 2021, c. 669, §5 (REV).]

The department shall adopt major substantive rules as defined in Title 5, chapter 375, subchapter 2-A as necessary to implement the requirements of this subsection.

[PL 2021, c. 662, §18 (AMD); PL 2021, c. 669, §5 (REV).]

2-B. Adult and minor patients with substance use disorder. Prior to providing written certification for the medical use of cannabis under this section for a medical diagnosis of substance use disorder that, in the medical provider's professional opinion, may be alleviated by the therapeutic or palliative medical use of cannabis, the medical provider shall develop a recovery plan with the patient. For purposes of this subsection, "substance use disorder" means a diagnosis related to alcohol or drug abuse covered by Title 5, chapter 521.

[PL 2017, c. 452, §5 (NEW); PL 2021, c. 669, §5 (REV).]

2-C. Bona fide provider-patient relationship. A written certification may be made only in the course of a bona fide medical provider-patient relationship after the medical provider has completed a full assessment of the patient's medical history. If a patient has not provided a medical provider who is not the patient's primary care provider with the name and contact information of the patient's primary care provider, a medical provider shall conduct an in-person consultation with the patient prior to providing a written certification.

[PL 2017, c. 452, §5 (NEW).]

3. Expiration. A written certification form for the medical use of cannabis under this section is valid for the term provided by the qualifying patient's medical provider, which must be included in the written certification and which may not exceed one year.

[PL 2021, c. 662, §19 (AMD); PL 2021, c. 669, §5 (REV).]

4. Form; content; digital image. A written certification under this section must be issued on tamper-resistant paper provided by the department in the form required by rule adopted by the department and may not require a qualifying patient's medical provider to state the patient's specific medical diagnosis. A medical provider may also provide to a qualifying patient a digital image of the patient's written certification document as long as the document portrayed in the digital image is identical to the document issued by the medical provider and the information contained in the document is legible in the digital image.

[PL 2021, c. 662, §20 (AMD).]

5. Possible sanctions. Nothing in this chapter prevents a professional licensing board from sanctioning a medical provider for failing to properly evaluate or treat a patient's medical diagnosis or otherwise violating the applicable standard of care for evaluating or treating medical diagnoses.

[PL 2017, c. 452, §5 (AMD).]

6. Certification issued based on medical diagnosis. A medical provider may not condition the issuance of a written certification for the medical use of cannabis on any requirements other than that the patient's medical diagnosis may be alleviated by the therapeutic or palliative medical use of cannabis. Nothing in this section may be construed to prevent a medical provider from exercising professional judgment in declining to issue a certification for the medical use of cannabis.

[PL 2017, c. 452, §5 (AMD); PL 2021, c. 669, §5 (REV).]

7. Patient referral disclosure of interest. Prior to providing a referral to a qualifying patient for goods and services associated with a certification for the medical use of cannabis to an entity in which the medical provider has a direct or indirect financial interest, a medical provider shall provide written disclosure to the qualifying patient regarding any direct or indirect financial interest the medical provider has or may have in the resulting referral and shall maintain a copy of this disclosure in the qualifying patient's record.

[PL 2015, c. 475, §15 (NEW); PL 2021, c. 669, §5 (REV).]

8. Continuing medical education. A medical provider who has not previously provided a written certification to a qualifying patient for the medical use of cannabis shall, prior to providing a written certification to a qualifying patient, submit evidence, satisfactory to the department, of successful completion of a one-hour course of continuing medical education relating to medical cannabis within the preceding 24 months.

[PL 2017, c. 452, §5 (NEW); PL 2021, c. 669, §5 (REV).]

§2430-C. Protections for authorized activity

1. Rights of persons or entities acting pursuant to this chapter. A person whose conduct is authorized under this chapter may not be denied any right or privilege or be subjected to arrest, prosecution, penalty or disciplinary action, including but not limited to a civil penalty or disciplinary action by a business or occupational or professional licensing board or bureau, for lawfully engaging in conduct involving the medical use of cannabis authorized under this chapter.

[PL 2017, c. 452, §24 (NEW); PL 2021, c. 669, §5 (REV).]

2. Legal protection for hospitals and long-term care facilities. The immunity provisions in this subsection apply to a hospital licensed under chapter 405 and an officer or director, employee or agent of the hospital and a long-term care facility and an officer or director, employee or agent of the long-term care facility. Any immunity provision in this chapter in conflict with this subsection does not apply to a hospital or long-term care facility. The legal protection for hospitals and long-term care facilities applies in accordance with the following.

A. If the use of a form of harvested cannabis that is not smoked, including but not limited to edible cannabis products and tinctures and salves of cannabis, by an admitted patient who has been certified under section 2423-B occurs in a hospital, that hospital is not subject to prosecution, search, seizure or penalty in any manner, including but not limited to a civil penalty or disciplinary action by an occupational or professional licensing board or entity, and may not be denied any license, registration, right or privilege solely because the admitted patient lawfully engages in conduct involving the medical use of cannabis authorized under this chapter. [PL 2017, c. 452, §24 (NEW); PL 2021, c. 669, §5 (REV).]

B. If the use of a form of harvested cannabis consistent with a long-term facility's policy by an admitted patient who has been certified under section 2423-B occurs in the long-term care facility, that long-term care facility is not subject to prosecution, search, seizure or penalty in any manner, including but not limited to a civil penalty or disciplinary action by an occupational or professional licensing board or entity, and may not be denied any license, registration, right or privilege solely because the admitted patient lawfully engages in conduct involving the medical use of cannabis authorized under this chapter. [PL 2017, c. 452, §24 (NEW); PL 2021, c. 669, §5 (REV).]

C. An officer or director, employee or agent of a hospital or long-term care facility where the use of a form of harvested cannabis that is not smoked or vaporized, including but not limited to edible cannabis products and tinctures and salves of cannabis, by an admitted patient who has been certified under section 2423-B occurs is not subject to arrest, prosecution, search, seizure or penalty in any manner, including but not limited to a civil penalty or disciplinary action by an occupational or professional licensing board or entity, and may not be denied any license, registration, right or privilege solely because the admitted patient lawfully engages in conduct involving the medical use of cannabis authorized under this chapter. [PL 2017, c. 452, §24 (NEW); PL 2021, c. 669, §5 (REV).]

[PL 2017, c. 452, §24 (NEW); PL 2021, c. 669, §5 (REV).]

3. School, employer or landlord may not discriminate. A school, employer or landlord may not refuse to enroll or employ or lease to or otherwise penalize a person solely for that person's status as a qualifying patient or a caregiver unless failing to do so would put the school, employer or landlord in violation of federal law or cause it to lose a federal contract or funding. This subsection does not prohibit a restriction on the administration or cultivation of cannabis on premises when that administration or cultivation would be inconsistent with the general use of the premises. A landlord or business owner may prohibit the smoking of cannabis for medical purposes on the premises of the landlord or business if the landlord or business owner prohibits all smoking on the premises and posts notice to that effect on the premises.

[PL 2017, c. 452, §24 (NEW); PL 2021, c. 669, §5 (REV).]

[PL 2017, c. 452, §24 (NEW).]

5. Receiving an anatomical gift. In reviewing a qualifying patient's suitability for receiving an anatomical gift, a transplant evaluator shall treat the qualifying patient's medical use of cannabis as the equivalent of the authorized use of any other medications used at the direction of a medical provider. A transplant evaluator may determine a qualifying patient to be unsuitable to receive an anatomical gift if the qualifying patient does not limit the qualifying patient's medical use of cannabis to the use of forms of harvested cannabis that are not smoked or vaporized, including but not limited to edible cannabis and tinctures and salves of cannabis. A transplant evaluator may require medical cannabis used by a qualifying patient to be tested for fungal contamination by a cannabis testing facility. For purposes of this subsection, "transplant evaluator" means a person responsible for determining another

person's suitability for receiving an anatomical gift. For the purposes of this subsection, "anatomical gift" has the same meaning as in section 2942, subsection 2.

[PL 2017, c. 452, §24 (NEW); PL 2021, c. 669, §5 (REV).]

6. Prohibition on seizure and retention. Except when necessary for an ongoing criminal investigation, a law enforcement officer may not seize cannabis that is in the possession of a qualifying patient, caregiver, cannabis testing facility, manufacturing facility or registered dispensary as authorized by this chapter. A law enforcement officer in possession of cannabis in violation of this subsection shall return the cannabis within 7 days after receiving a written request for return by the owner of the cannabis. Notwithstanding the provisions of Title 14, chapter 741, if the law enforcement officer fails to return cannabis possessed in violation of this subsection within 7 days of receiving a written request for return of the cannabis under this subsection, the owner of the cannabis may file a claim in the District Court in the district where the owner lives or where the law enforcement officer is employed.

[PL 2023, c. 365, §11 (AMD).]

6-A. Restrictions on law enforcement access. Notwithstanding any provision of law to the contrary, a law enforcement officer may not enter any location in which a qualifying patient, caregiver, registered dispensary, manufacturing facility or cannabis testing facility conducts activities authorized under this chapter or pursuant to a registry identification card or registration certificate issued under this chapter, except where:

A. The patient, caregiver, dispensary, manufacturing facility or cannabis testing facility voluntarily allows the law enforcement officer to enter the location; [PL 2021, c. 662, §33 (NEW); PL 2021, c. 669, §5 (REV).]

B. The law enforcement officer's entry is authorized pursuant to a warrant issued by a duly authorized justice, judge or justice of the peace; or [PL 2021, c. 662, §33 (NEW).]

C. The law enforcement officer's entry is authorized in accordance with a recognized exception to the warrant requirement, including, but not limited to, exigent circumstances. [PL 2021, c. 662, §33 (NEW).]

[PL 2021, c. 662, §33 (NEW); PL 2021, c. 669, §5 (REV).]

7. Requirements for protection. To receive protection under this section for conduct authorized under this chapter, a person must:

A. If the person is a qualifying patient or visiting qualifying patient, present upon request of a law enforcement officer the patient's written certification; or [PL 2023, c. 365, §12 (AMD).]

B. If the person is a caregiver, present upon request of a law enforcement officer the caregiver's registry identification card or registration certificate. [PL 2023, c. 365, §12 (AMD).]

[PL 2023, c. 365, §12 (AMD).]

8. Evidence of lawful conduct. Possession of a registry identification card by a cardholder, the act of applying for a registry identification card, possession of a written certification issued under section 2423-B or possession of a designation document executed under section 2423-A, subsection 1, paragraph F-1 is evidence of lawful conduct and may not be used to support the search of that person or that person's property. The possession of or application for a registry identification card or possession of a written certification does not prevent the issuance of a warrant if probable cause exists on other grounds.

[PL 2023, c. 365, §13 (AMD).]

9. Immunity. The immunity provisions in this subsection apply to caregivers, cannabis testing facilities, manufacturing facilities and dispensaries and the officers or directors or assistants of caregivers, cannabis testing facilities, manufacturing facilities and dispensaries.

A. A caregiver, cannabis testing facility, manufacturing facility or dispensary is not subject to prosecution, search, seizure or penalty in any manner, including but not limited to a civil penalty or disciplinary action by a business or an occupational or professional licensing board or entity, and may not be denied any right or privilege solely for acting in accordance with this section to assist with the medical use of cannabis in accordance with this chapter. [PL 2017, c. 452, §24 (NEW); PL 2021, c. 669, §5 (REV).]

B. An officer or director or assistant of a caregiver, cannabis testing facility, manufacturing facility or dispensary is not subject to arrest, prosecution, search, seizure or penalty in any manner, including but not limited to a civil penalty or disciplinary action by a business or an occupational or professional licensing board or entity, and may not be denied any right or privilege solely for working for or with a caregiver, cannabis testing facility, manufacturing facility or dispensary to provide cannabis plants and cannabis products to qualifying patients, caregivers, dispensaries, manufacturing facilities or cannabis testing facilities or to otherwise assist with the medical use of cannabis in accordance with this chapter. [PL 2017, c. 452, §24 (NEW); PL 2021, c. 669, §5 (REV).]

[PL 2017, c. 452, §24 (NEW); PL 2021, c. 669, §5 (REV).]

10. Defense for possession of excess cannabis. Except as provided in section 2426, a qualifying patient may assert as a defense to any prosecution involving cannabis possession use of cannabis for a medical purpose and may present evidence in court that the patient's medical use or cultivation of an amount of cannabis exceeding the amount allowed under section 2423-A was reasonably necessary to ensure the uninterrupted availability of cannabis for the purpose of treating or alleviating the patient's medical diagnosis or symptoms associated with the patient's medical diagnosis that, in a medical provider's professional opinion, may be alleviated by the therapeutic or palliative medical use of cannabis.

[PL 2023, c. 365, §14 (NEW).]

11. Calculation of cannabis weight. The amount of cannabis possessed under this chapter must be calculated by the weight of dried harvested cannabis. A calculation of the weight of cannabis that is not dried must reduce the weight by at least 75% to account for moisture content. A calculation of the weight of cannabis in a cannabis product may not include ingredients in the product other than cannabis, except that the weight of cannabis concentrate must be included regardless of whether the cannabis concentrate is within a cannabis product or not within a cannabis product.

§2495. Issuance of licenses

The department shall, within 30 days following receipt of a complete application, issue an annual license to operate any eating establishment, lodging place, recreational camp, youth camp, campground, public pool or public spa that is found to comply with this chapter and the rules adopted by the department. [PL 2021, c. 125, §13 (AMD).]

When any applicant is found, based upon an inspection by the department or by municipal inspection made according to section 2499, not in compliance with the requirements of this chapter or departmental rules adopted and approved pursuant to section 2496 or 2499, subsection 1, the department may refuse issuance of the license and shall issue a conditional license, except when conditions are found that present a serious danger to the health and safety of the public. The department

may issue only one conditional license per applicant, which is valid for up to one year. Failure by the conditional licensee to meet the conditions specified by the department permits the department to void the conditional license. [PL 2021, c. 125, §13 (AMD).]

The conditional license is void when the department has delivered in hand or by certified mail a written notice to the conditional licensee or, if the licensee cannot be reached for service in hand or by certified mail, has left notice thereof at the facility. [PL 2021, c. 125, §13 (AMD).]

A conditional licensee may apply for an annual license if the conditional license is voided or expires. A conditional licensee must meet all conditions before applying for an annual license. [PL 2021, c. 125, §13 (NEW).]

The department may redistribute expiration dates for new and renewed licenses to provide for comparable distribution of licenses on a quarterly basis throughout the year and shall prorate the fees for licenses with a term less or more than one year. The prescribed fee must accompany the application for a new license or the renewal of a license. [PL 2021, c. 125, §13 (AMD).]

Licenses must be renewed annually and upon payment of the prescribed fee, including late fees, additional inspection fees and fines if assessed, and subject to compliance with rules of the department and with this chapter. The department shall provide licensees with notice of the need for renewal and necessary forms no less than 30 days prior to the expiration of the license. [PL 2021, c. 125, §13 (AMD).]

The issuance of the license provided for in this chapter does not provide exemption from other state or local laws, ordinances or rules, notwithstanding any other provision of law. [PL 2021, c. 125, §13 (AMD).]

Licenses erroneously issued by the department are void and must be returned to the department on demand in a notice delivered by hand or by certified mail to the licensee. For cause, the department may revoke or suspend any license pursuant to section 2500. [PL 2021, c. 125, §13 (AMD).]

§2498. Fines and penalties

1. Authorization. The department is authorized to impose one or more of the following sanctions when a violation of this chapter, or rules enacted pursuant to this chapter, occurs and the department determines that a sanction is necessary and appropriate to ensure compliance with state licensing rules or to protect the public health.

A. The department may impose penalties for violations of this chapter, or the rules adopted pursuant to this chapter, on any eating establishment, lodging place, recreational camp, youth camp, public pool or public spa or campground. The penalties may not be greater than \$100 for each violation. Each day that the violation remains uncorrected may be counted as a separate offense. Penalties may be imposed for each violation of the rules. [PL 2017, c. 322, §7 (AMD).]

B. The department may direct an eating establishment, lodging place, recreational camp, youth camp, public pool or public spa or campground to correct any violations in a manner and within a time frame that the department determines is appropriate to ensure compliance with state rules or to protect the public health. Failure to correct violations within the time frames constitutes a separate finable violation. [PL 2017, c. 322, §7 (AMD).]

C. The department may impose penalties up to \$5,000 on any person, corporation, firm or copartnership that operates any eating establishment, lodging place, recreational camp, youth camp, public pool or public spa or campground without an active, valid license, as determined by the department. Each day any such person, corporation, firm or copartnership operates without an active, valid license constitutes a separate offense. [PL 2021, c. 125, §14 (AMD).]

D. In the event of any violation of this section or any rule pursuant to this chapter, the Attorney General may seek to enjoin a further violation, in addition to any other remedy. [PL 1991, c. 528, Pt. J, §5 (NEW); PL 1991, c. 528, Pt. RRR (AFF); PL 1991, c. 591, Pt. J, §5 (NEW).]

E. A person, corporation, firm or copartnership that fails to pay a penalty imposed pursuant to this chapter:

(1) May be referred to the Attorney General for appropriate enforcement action; and

(2) In addition to all fines and penalties imposed pursuant to this chapter, is liable for any interest, costs and fees incurred by the department, including attorney's fees. [PL 2013, c. 264, §6 (NEW).]

[PL 2021, c. 125, §14 (AMD).]

2. Schedule of penalties. The department shall establish a schedule of penalties according to the nature and duration of the violation.

[PL 1991, c. 528, Pt. J, §5 (NEW); PL 1991, c. 528, Pt. RRR (AFF); PL 1991, c. 591, Pt. J, §5 (NEW).]

B. Licensees that are fined pursuant to this chapter are required to pay the department the amount of the penalties. If a licensee has not paid any collectible fines by the time of its license renewal, the department may collect such fines by requiring their payment prior to the processing of any license renewal application. An appeal of the department's decision to fine a licensee stays the collection of any fine. Interest must accrue on fines at a rate described in Title 14, section 1602-B prior to the completion of any appeal. After the completion of any appeal process or after any appeal period has passed, interest must accrue pursuant to Title 14, section 1602-C. [PL 2003, c. 460, §11 (AMD).]

§2499. Municipal inspections

Notwithstanding any other provisions of this chapter, in order to ensure statewide uniformity in health standards, health inspector certification and the maintenance of inspection report records, a municipality must have been delegated authority by the department to conduct inspections and demonstrated adherence to requirements under this section prior to performing any municipal inspections under such authority. Any municipal inspection of an establishment under this section conducted by a municipality that has not been delegated authority is void. The department may issue a license to an establishment as defined in section 2491 on the basis of an inspection performed by a health inspector who works for and is compensated by the municipality in which such an establishment is located, but only if the following conditions have been met. [PL 2011, c. 589, §1 (RPR).]

1. Adopted rules; code of standards. The municipality involved has adopted ordinances or a code of standards for the establishments that has been approved by the department and that is consistent with the rules used by the department for the issuance of licenses in effect at the time of inspection. [PL 2011, c. 295, §2 (AMD).]

2. Qualified to make inspections. A municipally employed health inspector may not make inspections under the provisions of this chapter unless certified as qualified by the Commissioner of Health and Human Services. [PL 2011, c. 193, Pt. B, §7 (AMD).]

3. Inspection to ascertain intent. The department may from time to time inspect such municipally inspected establishments to ascertain that the intent of these statutes is being followed. [PL 1975, c. 496, §3 (NEW).]

4. Inspection reports. The municipalities shall furnish electronic copies of its inspection reports in a format and on a schedule determined by the department. [PL 2011, c. 193, Pt. A, §16 (AMD).]

5. Charge. Municipalities may not charge the department for performing such inspections. [PL 1975, c. 496, §3 (NEW).]

6. License fee. When a license is issued to an establishment, as described in section 2492, subsection 1, located in a municipality to which authority to conduct inspection has been delegated by the department as specified in this section, the requirement for payment of a license fee by the establishment to the department as set forth in section 2494 must be waived. However, the licensee is required to pay the department a sum not to exceed \$100 to cover the costs of standardizing inspection practices; administrative licensing and maintaining a centralized database; ongoing training, investigation, compliance and technical assistance; and legal interpretation and advice. [PL 2021, c. 125, §15 (AMD).]

7. Licenses. Licenses issued under this section must be displayed, renewed and in every other way treated the same as licenses issued under this chapter on the basis of inspection by the department. [PL 2003, c. 673, Pt. X, §5 (AMD).]

8. Certification. Certification of municipally employed health inspectors must be in accordance with standards set by the commissioner and be for a period of 3 years. [PL 2011, c. 193, Pt. B, §8 (AMD).]

9. Delegation renewal. Beginning January 1, 2005, and every 3 years thereafter, the department shall review the inspection program of the municipalities to which authority to conduct inspections has been delegated. The process for the delegation of this authority and other such provisions describing the assignment of and removal of this delegation of authority must be established by rule and must include, but not be limited to, staff competency, enforcement and compliance history, inspection practices and reporting practices. Rules adopted pursuant to this subsection are routine technical rules pursuant to Title 5, chapter 375, subchapter 2-A. [PL 2011, c. 193, Pt. A, §18 (AMD).]

§2500. Suspension or revocation; appeals

When the department believes a license should be suspended or revoked, it shall file a complaint with the District Court in conformity with the Maine Administrative Procedure Act. A person aggrieved

by the refusal of the department to issue a license may request a hearing in conformity with the Maine Administrative Procedure Act. [PL 1977, c. 694, §352 (AMD); PL 1999, c. 547, Pt. B, §78 (AMD); PL 1999, c. 547, Pt. B, §80 (AFF).]

Whenever, upon inspection, conditions are found which violate this chapter or regulations adopted thereunder, or which may endanger the life, health or safety of persons living in or attending any licensed establishment under this chapter, the department may request an emergency suspension of license of the District Court pursuant to Title 4, section 184, subsection 6, and the court may grant suspension subject to reinstatement following a hearing before the court if cause is not shown. §2500-A. Menu labeling for chain restaurants

The provisions of this section apply to chain restaurants that are located in the State. [PL 2009, c. 395, §7 (NEW); PL 2009, c. 395, §8 (AFF).]

1. Caloric information. A chain restaurant shall state on a food display tag, menu or menu board the total amount of calories per serving of each food and beverage item listed for sale on the food display tag, menu or menu board. The statement of calories required in this subsection must be:

- A. Clear and conspicuous; [PL 2009, c. 395, §7 (NEW); PL 2009, c. 395, §8 (AFF).]
- B. Adjacent to or in close proximity and clearly associated with the item to which the statement refers; and [PL 2011, c. 691, Pt. D, §9 (AMD).]
- C. Printed in a font and format at least as prominent in size and appearance as the name or the price of the item to which the statement refers. [PL 2011, c. 691, Pt. D, §9 (AMD).]
- D. [PL 2011, c. 691, Pt. D, §9 (RP).]

As the statement of calories pertains to beer, wine and spirits, the statement must also meet the requirements of subsection 6.

[PL 2011, c. 691, Pt. D, §9 (AMD).]

2. Determining caloric content. The caloric content information required by subsection 1 must be determined on a reasonable basis and may be determined only once per standard menu item if the eating establishment follows a standardized recipe, trains to a consistent method of preparation and maintains a reasonably consistent portion size. For the purposes of this subsection a reasonable basis for determining caloric content means use of a recognized method for determining calorie content, including, but not limited to, nutrient databases, laboratory testing and other reliable methods of analysis. Caloric content may be rounded to the nearest 10 calories for caloric content above 50 calories and to the nearest 5 calories for caloric content of 50 calories and below.

[PL 2009, c. 395, §7 (NEW); PL 2009, c. 395, §8 (AFF).]

3. Required statement. A menu or menu board or written nutrition information provided to a customer by a chain restaurant must contain the following statement in a clear and conspicuous manner and in a prominent location: "To maintain a healthy weight, a typical adult should consume approximately 2,000 calories per day; however, individual calorie needs may vary." A menu, menu board or written nutrition information provided to a customer by a chain restaurant may include the following statement or a statement similar to the following: "Nutrition information is based upon standard recipes and product formulations; however, modest variations may occur due to differences in preparation, serving sizes, ingredients or special orders."

[PL 2009, c. 395, §7 (NEW); PL 2009, c. 395, §8 (AFF).]

4. Different varieties. For a food or beverage item that is listed as a single item but includes more than one variety, the caloric information required under subsection 1 for that item must be the median value of calories for all varieties offered for that item if the caloric information for each variety of the item is within 20% of the median for that item. If the caloric information required by subsection 1 for a variety of a food or beverage item is not within 20% of the median for that item, then the caloric information must be stated for each variety of that item. If a food display tag is used to identify a specific variety of a food or beverage item, the caloric information required by subsection 1 must be for that specific variety of the item.

[PL 2009, c. 395, §7 (NEW); PL 2009, c. 395, §8 (AFF).]

5. Exceptions. A chain restaurant is not required to provide information pursuant to subsection 1 for:

A. Food items served at a self-service salad bar or buffet; [PL 2009, c. 395, §7 (NEW); PL 2009, c. 395, §8 (AFF).]

B. An item offered for a limited time that appears on a menu, menu board or food display tag for less than 90 days per year; [PL 2009, c. 395, §7 (NEW); PL 2009, c. 395, §8 (AFF).]

C. A condiment or other item offered to a customer for general use without charge; [PL 2009, c. 395, §7 (NEW); PL 2009, c. 395, §8 (AFF).]

D. An item sold to a customer in a manufacturer's original sealed package that contains nutrition information as required by federal law; or [PL 2009, c. 395, §7 (NEW); PL 2009, c. 395, §8 (AFF).]

E. A custom order for a food or beverage item that does not appear on a menu, menu board or food display tag. [PL 2009, c. 395, §7 (NEW); PL 2009, c. 395, §8 (AFF).]

[PL 2009, c. 395, §7 (NEW); PL 2009, c. 395, §8 (AFF).]

6. Alcoholic beverages. A chain restaurant shall state on a food display tag, menu or menu board the average caloric value for beers, wines and spirits as established by the United States Department of Agriculture, Agriculture Research Service in the National Nutrient Database for Standard Reference. A food display tag, menu or menu board for beer, wine and spirits may include the following statement: "Signature drinks or liqueurs with added ingredients may contain increased caloric content."

[PL 2009, c. 395, §7 (NEW); PL 2009, c. 395, §8 (AFF).]

7. Compliance; enforcement. The department or an agent authorized to inspect an eating establishment under section 2499 shall ensure compliance with the provisions of this section but is not required to verify the accuracy of the caloric information required by this section. Upon request a chain restaurant shall provide to the department documentation of the accuracy of the information required by subsection 1. A violation of this section is a violation of the Maine Unfair Trade Practices Act, enforceable against the owner or franchisee of the eating establishment, except that no private remedies exist under Title 5, section 213. This section may not be construed to create or enhance any claim, right of action or civil liability that did not exist under state law prior to the effective date of this subsection or limit any claim, right of action or civil liability that otherwise exists under state law. No private right of action arises out of this section. The only mechanism for enforcing this section is as provided in this subsection.

[PL 2009, c. 395, §7 (NEW); PL 2009, c. 395, §8 (AFF).]

8. Uniformity of regulation; preemption. To the extent consistent with federal law, the regulation of disclosure of caloric and nutritional information is a matter of statewide concern, and state law governing that disclosure occupies the whole field of regulation regarding disclosure by chain restaurants of nutritional information and requirements regarding the content required to be posted on menus, menu boards and food display tags. A local government may not adopt an ordinance regulating the dissemination of caloric or nutritional information or requiring information to be placed on menus,

menu boards or food display tags by a chain restaurant, and any ordinance or regulation that violates this subsection is void and has no force or effect.

§2502. Transaction fee for electronic renewal of license

The department may collect a transaction fee from a licensee who renews a license electronically under this chapter. The fee may not exceed the cost of providing the electronic license renewal service. The department may adopt rules necessary to implement this section. Rules adopted pursuant to this section are routine technical rules as defined in Title 5, chapter 375, subchapter 2-A. [PL 2009, c. 589, §3 (NEW).]

SECTION HISTORY

PL 2009, c. 589, §3 (NEW).

§2503. Articles detained, embargoed and condemned

Whenever a duly designated officer or employee of the department finds or has reason to believe that an establishment licensed under this chapter prepares or sells any food that is adulterated pursuant to section 2156 or misbranded pursuant to section 2157, an order detaining or embargoing that food may be issued to any person or persons with possession or control thereof and the officer or employee may affix or require the person to whom the order is directed to affix to such article a tag or other appropriate marking giving notice that such article is or is suspected of being adulterated or misbranded and has been detained or embargoed and warning all persons not to remove or dispose of such article by sale or otherwise until permission for removal or disposal is given by such officer or employee or the court. It is unlawful for any person to remove or dispose of such detained or embargoed article by sale or otherwise without such permission. Orders relating to detention and embargo issued pursuant to this chapter may not be considered licensing or an adjudicatory proceeding, as those terms are defined under Title 5, chapter 375. [PL 2021, c. 125, §16 (NEW).]

When any such officer or employee finds an article detained or embargoed under this section to be adulterated or misbranded, the officer or employee may petition the District Court or Superior Court in whose jurisdiction the article is detained or embargoed for a libel for condemnation of such article if the licensee is unwilling to dispose of the article. When such officer or employee has found that an article so detained or embargoed is not adulterated or misbranded, the officer or employee shall remove the tag or other marking. [PL 2021, c. 125, §16 (NEW).]

If the court finds that a detained or embargoed article is adulterated or misbranded, such article must, after entry of the decree, be destroyed at the expense of the claimant thereof, under the supervision of such officer or employee, and all court costs and fees and storage and other proper expenses must be taxed against the claimant of such article or the claimant's agent. When the adulteration or misbranding can be corrected by proper labeling or processing of the article, the court, after entry of the decree and after such costs, fees and expenses have been paid and a good and sufficient bond, conditioned that such article will be so labeled or processed, has been executed, may by order direct that such article be delivered to the claimant thereof for such labeling or processing under the supervision of an officer or employee of the department. The expense of such supervision must be paid by the claimant. Such bond must be returned to the claimant of the article on representation to the court by the commissioner that the article is no longer in violation of this chapter and that the expenses of such supervision have been paid. For purposes of this paragraph, proper labeling may include displaying required information by law, on a menu board, on a sign or in an open manner at the location where the article is for sale and served. [PL 2021, c. 125, §16 (NEW).]

Whenever the commissioner or an officer or employee of the department finds in any room, building, vehicle of transportation or other structure of an establishment licensed under this chapter any meat, seafood, poultry, vegetable, fruit or other perishable articles that are unsound or contain any filthy, decomposed or putrid substance or that may be poisonous or deleterious to health or otherwise unsafe, the same being declared to be a nuisance, the commissioner or the officer or employee shall forthwith destroy the same or in any other manner render the same unsalable as human food. [PL 2021, c. 125, §16 (NEW).]

The department is authorized to enact rules pursuant to this chapter to ensure compliance with this chapter and to protect public health. [PL 2021, c. 125, §16 (NEW).]

CHAPTER 562-A

PREPARATION OF LIVESTOCK AND POULTRY PRODUCTS FOR HUMAN CONSUMPTION

SUBCHAPTER 1**GENERAL PROVISIONS****§2511. Definitions**

As used in this chapter, unless the context otherwise indicates, the following terms have the following meanings. [PL 1999, c. 777, §1 (NEW).]

1. Adulterated. "Adulterated" applied to a livestock or poultry product means that the livestock product or poultry product:

A. Contains a poisonous or harmful substance that may render it injurious to health. The product is not considered adulterated under this definition if the quantity of the substance in or on the product does not ordinarily render it injurious to health; [PL 1999, c. 777, §1 (NEW).]

B. Contains an added poisonous or harmful substance that may, in the judgment of the commissioner, make the product unfit for human food; [PL 1999, c. 777, §1 (NEW).]
