

§2594-A. Assistants; delegating authority

This chapter may not be construed as prohibiting a physician from delegating to the physician's employees or support staff certain activities relating to medical care and treatment carried out by custom and usage when these activities are under the control of the physician; the activities being delegated do not, unless otherwise provided by law, require a license, registration or certification to perform; the physician ensures that the employees or support staff have the appropriate training, education and experience to perform these delegated activities; and the physician ensures that the employees or support staff perform these delegated activities competently and safely. The physician delegating these activities to employees or support staff, to program graduates or to participants in an approved training program is legally liable for the activities of those individuals, and any individual in this relationship is considered the physician's agent. Nothing contained in this section may be construed to apply to registered nurses acting pursuant to chapter 31 and licensed physician assistants acting pursuant to this chapter or chapter 48. [PL 2023, c. 132, §2 (AMD).]

When the delegated activities are part of the practice of optometry as defined in chapter 34-A, then the individual to whom these activities are delegated must possess a valid license to practice optometry in Maine or otherwise may perform only as a technician within the established office of a physician and may act solely on the order of and under the responsibility of a physician skilled in the treatment of eyes as designated by the proper professional board and without assuming evaluation or interpretation of examination findings by prescribing corrective procedures to preserve, restore or improve vision. [PL 1993, c. 600, Pt. A, §184 (AMD).]

SECTION HISTORY
