Amend the bill by striking out the title and substituting the following:

'Resolve, To Create the Commission To Develop a Strategic Priorities Plan for Maine's Young Children'

Amend the bill by striking out everything after the title and before the summary and inserting the following:

'Emergency preamble. Whereas, acts and resolves of the Legislature do not become effective until 90 days after adjournment unless enacted as emergencies; and

Whereas, there have been reports and efforts highlighting the importance of early child care and education in Maine since the mid-1990s; and

Whereas, strong scientific evidence supports the conclusion that 90% of brain development occurs before 5 years of age; and

Whereas, the "Start ME Right," "Invest in ME Now!" and other initiatives have come before the Legislature in various bills and formats; and

Whereas, State Government faces serious fiscal challenges that require difficult choices to establish spending priorities; and

Whereas, a strategic investment plan is needed and must be initiated before the 90-day period expires in order that the plan may be completed and a report submitted in time for submission to the next legislative session; and

It establishes a 13-member commission that includes 8 Legislators and 3 members of the public representing business, organized labor and child care providers and a 4th public representative with experience as an actuary or economist who has analyzed the relationship between early childhood development and economic development. The commission is charged with: working with experts on the Joint Standing Committee on Education and Cultural Affairs to evaluate existing information from task forces, reports and other scientific data on early childhood and brain development; identifying the current and future economic needs of employers and parents and the links to early child care and education; involving parents, providers of all levels of child care, representatives of business, health experts and economists; evaluating and reviewing, in consultation with the Maine Children's Trust, best practices related to parenting education, coaching and home visit programs; examining the multiple levels of relationship between early childhood brain development and the needs of parents and employers; considering the need for the State to receive its best return on the investment of tax dollars; consulting with people involved in the initiatives "Start ME Right" and "Invest in ME Now!"; and considering the recommendations from the Task Force on Early Childhood and from the report entitled "Invest Early in Maine: A Working Plan for Humane Early Childhood Systems." The commission is charged with considering all of this information and developing a 3-year investment strategy that will identify the amount of the investment each year; prioritize programs, both new and existing, to be invested in; identify expected outcomes for children and the economy; develop a timeline for those outcomes; and identify funding sources, including, but not limited to, current resources that need to be shifted, new funds and alternate funding sources that are needed. The commission shall provide a report to the Joint Standing Committee on Health and Human Services, the Joint Standing Committee on Business, Research and Economic Development, the Joint Standing Committee on Taxation, the Joint Standing Committee on Education and Cultural Affairs and the Joint Standing Committee on Appropriations and Financial Affairs, as well as to the Legislative Council.
