### **SUMMARY**

This bill amends the law concerning the various elements of the "miscellaneous costs" component of the general purpose aid for local schools appropriation, or GPA appropriation. The premise of the bill is that the GPA appropriation should be either a general purpose subsidy to local schools or a state expenditure that provides direct educational services to students who would otherwise be served by the State's public elementary or secondary schools. The bill eliminates the Commissioner of Education's authority to use GPA funds to pay the personnel costs for a range of state employees who work for the Department of Education and provide only indirect support to the public education system. The bill eliminates a similar authority to use GPA funds to pay for the personnel costs of 3 teachers employed by the Department of Corrections. The bill also eliminates the authority to use GPA funds to pay for

general education research conducted by the University of Maine, but it retains the authority to use GPA funds to cover a contract with the university to monitor and update the essential programs and services school funding model.
