#### State Mandates

##### Required Activity

This bill expands the number of municipal officials required to complete freedom of access training to include code enforcement officers, town and city managers, administrators and planning board members. It requires deputies of various officials complete the training. School superintendents, assistant superintendents and school board members are also required to complete the training.

##### Unit Affected

Municipality

##### Local Cost

\$33,300 one-time, \$3,600 annually

The required local activities in this bill may represent a state mandate pursuant to the Constitution of Maine. If the bill does require a local unit of government to expand or modify its activities so as to necessitate additional expenditures from local revenue, the state mandate provisions of the Constitution of Maine require either: (1) General Fund appropriations be provided to fund at least 90% of any additional necessitated local costs of the mandate; or (2) a Mandate Preamble be added to the bill and two-thirds of the members of each House vote to exempt the mandate from the funding requirement. If the bill does represent a state mandate and neither one of these actions occurs, the local units of government will not be required to implement the mandated activities.

#### Fiscal Detail and Notes

The bill includes a General Fund appropriation of \$33,300 in fiscal year 2020-21 to the Department of Administrative and Financial Services to reimburse municipalities for 90% of the administrative costs associated with implementing the bill. The cost was calculated using salary and position data provided by the Maine Municipal Association. Projected future costs assume annual employee turnover of 11.8%, resulting in new employees each year who will need training.
