#### Fiscal Detail and Notes

This bill establishes a 2-year pilot program to award grants to local education agencies to provide professional development in computer science instruction. The Department of Education will require Federal Expenditures Fund and Other Special Revenue Funds base allocations of \$500 per year for fiscal years 2020-21, 2021-22 and 2022-23 to a newly created Professional Development Grant Pilot Program Fund in order to expend any funds received from federal and outside sources.

Additional costs to the Department of Education to administer the program and to prepare and submit the required report can be absorbed within existing budgeted resources.
