

132nd MAINE LEGISLATURE

LD 370

LR 972(03)

Resolve, Directing the Department of Education to Collect Data on Secondary School Mathematics Requirements

Fiscal Note for Bill as Engrossed with:

C "A" (S-109)

Committee: Education and Cultural Affairs

Fiscal Note

Current biennium cost increase - General Fund

Fiscal Detail and Notes

The Department of Education estimates the one-time cost of collecting the required data on the number of mathematics classes required for a high school diploma at secondary schools in the State and preparing the required report to be \$5,000. Because this bill requires the department to collect this data and prepare the report within existing resources, no General Fund appropriation is included in the bill. However, the ability of the department to complete the requirements of this legislation without impacting existing programs and services can not be determined at this time.
