§2603. Licensing of marijuana establishments and marijuana transportation providers

1. Applications. An applicant for a marijuana establishment license or marijuana transportation provider license shall file an application in the form required by the bureau for the type of marijuana establishment license sought or the marijuana transportation provider license, along with the application fee as set by rule. An applicant may apply for and be granted more than one type of marijuana establishment license, except that a
person or entity licensed to operate as a marijuana testing facility may not hold any other marijuana establishment license.

2. **License required.** The bureau shall issue or renew a license to operate a marijuana establishment or marijuana transportation provider to an applicant who meets the requirements of Title 22, chapter 558-D, this chapter and rules adopted pursuant to law. The bureau shall obtain, prior to approving an application, criminal history record information on the applicant and any employees or officers of the applicant, including, at a minimum, criminal history record information from the Department of Public Safety, State Bureau of Identification. The applicant shall pay for the criminal history record check required by this subsection pursuant to subsection 3. Prior to approving an application, the bureau shall perform a site inspection, review the financial capacity of the applicant, review the current consumer satisfaction if any consumers are being served while the application is pending and conduct product quality testing. The bureau shall complete the process of approving the application and issuing a decision on the application within 90 days of the date of receipt of the application unless:

A. The bureau finds the applicant is not in compliance with this section or rules adopted by the bureau;

B. The bureau is notified by the municipality that the applicant has listed in the application as containing the premises of the applicant that the applicant is not in compliance with an ordinance, rule or regulation applicable to the marijuana establishment or marijuana transportation provider that is in effect at the time of application; or

C. The number of marijuana establishments allowed in the municipality that the applicant has listed in the application has been limited pursuant to section 2604 or is limited by subsection 8 and the bureau has already licensed the maximum number of marijuana establishments allowed in the municipality for the category of license that is sought.

3. **License fees.** The bureau shall determine the revenue needed to establish and maintain the licensing, investigating, regulating and enforcement operations of the bureau and shall adopt rules to set license fees in proportion to the anticipated type and number of applicants.

4. **Municipal consultation.** In order to cover the costs of a municipality for consultation with the bureau, upon receiving an application for a marijuana establishment license or marijuana transportation provider license, the bureau shall immediately forward a copy of the application and 25% of the license application fee to the municipality that the applicant identifies as containing the primary premises of the marijuana establishment or marijuana transportation provider.

5. **Competing applications.** The following provisions control the consideration of applications through the use of a competitive rating procedure when more than one application is received by the bureau for the same type of marijuana establishment in the same municipality or more than one application is received by the bureau for a marijuana transportation provider in the same region of the State.
A. If a greater number of applications is received from qualified applicants to operate a marijuana establishment in a municipality than is allowed under the limits enacted by the municipality pursuant to section 2604 or pursuant to subsection 8, the bureau shall solicit and consider input from the municipality as to the municipality's preference or preferences for licensure. Within 90 days after the date the first application is received, the bureau shall issue the maximum number of applicable licenses for each type of marijuana establishment license application received.

B. The application process adopted by the bureau by rule must include scoring preferences as provided in this paragraph.

(1) An applicant for a license for a marijuana establishment or a marijuana transportation provider license has preference in the licensure process over other applicants if the applicant does not hold a license under this chapter.

(2) An applicant for a license for a marijuana establishment or a marijuana transportation provider license has preference in the licensure process over other applicants if the applicant:

(a) Is at the time of application registered as a primary caregiver for patients for the medical use of marijuana under Title 22, section 2425 or is exempt from registration under the provisions of Title 22, section 2425, subsection 9-A; or

(b) Is at the time of application a registered dispensary for the medical use of marijuana under Title 22, section 2428.

6. Reason for denial. If the bureau denies an application for a marijuana establishment license or marijuana transportation provider license, the bureau shall notify the applicant in writing of the decision on the application and the specific reason for denial.

7. License term. A license for a marijuana establishment or marijuana transportation provider issued under this chapter is effective for one year from the date of issuance.

8. Limitation on number of retail marijuana stores. Unless a municipality has prohibited retail marijuana stores pursuant to section 2604, if at least one qualifying application is received, the bureau shall license:

9. Tiered system of commercial marijuana cultivation facilities. The bureau shall administer a tiered system of cultivation that affords an opportunity for small, medium and large commercial marijuana cultivation facilities in accordance with the need to ensure an adequate supply of marijuana and marijuana products, to keep supply and demand in balance and to avoid diversion of marijuana and marijuana products because supply far exceeds demand. The bureau shall ensure that at least 60% of all licenses for commercial marijuana cultivation facilities are held by small commercial marijuana cultivation facilities. The bureau may impose limits on the cultivation and processing of marijuana by licensed commercial marijuana cultivation facilities and licensed marijuana product manufacturing facilities on a temporary basis if the bureau determines that the supply of marijuana and marijuana products exceeds demand and that limits are necessary to protect the public health and welfare. An applicant for a commercial marijuana cultivation facility license shall indicate on the application the tier for which the applicant is applying and the amount of actual square footage in the premises that will be designated as plant canopy. A person may hold licenses for more than one tier. In the licensure process for a tier the bureau shall grant preference to a marijuana establishment that does not hold a license for that tier.

For purposes of this section, "disqualifying drug offense" means a conviction for a violation of a state or federal controlled substance law that is a crime punishable by imprisonment for one year or more. "Disqualifying drug offense" does not include an offense for which the sentence, including any term of probation, incarceration or supervised release, was completed 10 or more years prior to application for licensure or an offense that consisted of conduct that is permitted under this chapter.

E. Corporations applying for a license must be incorporated in the State. A corporation is ineligible for a license if any of the principal officers of the corporation is ineligible under paragraph B, C or D.
