An Act To Improve Geographic Information System Data Acquisition and Maintenance

Reference to the Committee on Agriculture, Conservation and Forestry suggested and ordered printed.

Presented by Senator BLACK of Franklin.
Cosponsored by Representative HICKMAN of Winthrop and
Senators: CARSON of Cumberland, DAVIS of Piscataquis, MIRAMANT of Knox,
Representatives: AUSTIN of Gray, KESCHL of Belgrade.
Be it enacted by the People of the State of Maine as follows:

Sec. 1. 5 MRSA §1993, as enacted by PL 2005, c. 12, Pt. SS, §16, is amended to read:

§1993. Powers

The Office of Information Technology through the Office of Geographic Information Systems shall:

1. Geographic information system. Establish In coordination with the Maine Library of Geographic Information established under Title 12, chapter 432, establish, maintain and operate a geographic data base information center, develop and administer standards related to state agencies, subject to the approval of the Chief Information Officer, and provide for the public's access to geographic information system services to the public data. A request to provide the Legislature or an office of the Legislature with existing information for the purposes of making policy decisions must be considered high priority;

2. GIS data repository. Create In coordination with the Maine Library of Geographic Information established under Title 12, chapter 432, create a GIS data repository for the proper management of GIS data and ensure the GIS data are documented, including ownership. Data must be stored and managed in a manner that facilitates the evolution of a distributed agency GIS network; and

3. Data ownership. Maintain GIS base map data and other multipurpose data not specific to any state agency. All other GIS data are owned by the agency originally compiling the mapped data that were digitized for the GIS. Data owners are responsible for updating their GIS data and certifying its accuracy;

4. Accuracy level. Ensure that GIS data added on the GIS data repository are developed and maintained at an accuracy level and in a format that meets the GIS data standards, kept in a format that is compatible with the GIS and, upon request of a potential user, made available to the user;

5. Charges. Levy appropriate charges on those using the services provided by the office, except that charges may not be levied on the Legislature for existing information. The charges must be fixed in a schedule or schedules. The schedule of charges must be supported and explained by accompanying information and approved by the Chief Information Officer and the commissioner; and

6. Consultation with Chief Information Officer. Consult with the Chief Information Officer on all major policy issues, including fee schedules, related to the management of GIS data and development of GIS data standards.

Sec. 2. 5 MRSA §§1994 and 1995, as enacted by PL 2005, c. 12, Pt. SS, §16, are repealed.
Sec. 3. 5 MRSA §1996, as enacted by PL 2005, c. 12, Pt. SS, §16, is amended to read:

§1996. Priority of responsibilities

The activities authorized under this subchapter do not take priority over the primary responsibilities of the Office of Information Technology. If there are not sufficient financial or personnel resources for the Office of Geographic Information Systems to perform certain GIS services and deliver GIS data and products as provided in this subchapter, the The administrative management functions related to the Office of Geographic Information Systems, technical support for other state agency GIS users, office equipment maintenance and GIS data base management must take precedence.

Sec. 4. 5 MRSA c. 163, sub-c. 4, as amended, is repealed.

Sec. 5. 5 MRSA §12004-G, sub-§30-B, as amended by PL 2005, c. 12, Pt. SS, §18, is further amended to read:

30-B. Public Maine Library of Geographic Information Expenses Only §- 12 MRSA §2003 §5304 Information Board

Sec. 6. 12 MRSA c. 432 is enacted to read:

CHAPTER 432

MAINE LIBRARY OF GEOGRAPHIC INFORMATION

§5301. Short title

This chapter may be known and cited as "the Maine Library of Geographic Information Act."

§5302. Definitions

As used in this chapter, unless the context otherwise indicates, the following terms have the following meanings.

1. Association. "Association" means an organization:

   A. Whose membership is identifiable by regular payment of organizational dues or regularly maintained membership lists;
   B. That is registered with the State or is a legal entity chartered in the State; and
   C. That exists for the purpose of advancing the common goals, occupation or profession of its membership.

2. Data custodian. "Data custodian" means a federal data custodian, state data custodian or nonstate data custodian.
3. **Federal data custodian.** "Federal data custodian" means any branch, agency or instrumentality of the Federal Government.

4. **Geographic information board.** "Geographic information board" means the Maine Library of Geographic Information Board as set out in section 5304.

5. **Geographic information system or GIS.** "Geographic information system" or "GIS" means a computer system capable of assembling, storing, manipulating, analyzing and displaying information identified according to location. A GIS includes operating personnel, hardware, software and the data that go into the system.

6. **Geographic information system data or GIS data.** "Geographic information system data" or "GIS data" means geographic information that has been compiled and digitized for use in geographic information systems.

7. **Geolibrarian.** "Geolibrarian" means the librarian of the Maine Library of Geographic Information appointed pursuant to section 5303, subsection 2.

8. **GIS information officer.** "GIS information officer" means the person appointed pursuant to section 5303, subsection 3.

9. **Maine Library of Geographic Information.** "Maine Library of Geographic Information" or "Geolibrary" means the statewide network created within the Department of Agriculture, Conservation and Forestry pursuant to this chapter by which data custodians or their designees organize and catalog public geographic information and provide access to that information to all levels of government and to the public.

10. **Nonstate data custodian.** "Nonstate data custodian" means any agency or instrumentality of a political subdivision of the State.

11. **Public geographic information.** "Public geographic information" means public information that is referenced to a location. Public geographic information includes, but is not limited to, physical, legal, economic or environmental information or characteristics concerning land, water, groundwater, subsurface resources or air in this State relating to:

    A. Topography, soil, soil erosion, geology, minerals, vegetation, land cover, wildlife and associated natural resources;

    B. Land ownership, land use, land use controls and restrictions, jurisdictional boundaries, tax assessments, land value and land survey records and references; and

    C. Geodetic control networks, aerial photographs, maps, planimetric data, remote sensing data, historic and prehistoric sites and economic projections.

12. **Public information.** "Public information" means information that is stored, gathered, generated, maintained or financed by a data custodian. Information of state and nonstate data custodians is public information only if it is either:

    A. A public record under Title 1, section 402, subsection 3; or

    B. Otherwise expressly authorized by law to be released.
The presence of data in the Geolibrary does not, by itself, make that information a public record.

13. **State data custodian.** "State data custodian" means any branch, agency or instrumentality of State Government.

14. **State funds.** "State funds" means bond revenues and General Fund money appropriated by the Legislature for the purposes of this chapter.

§5303. Geolibrary; staff

1. **Geolibrary.** The Maine Library of Geographic Information is established within the Department of Agriculture, Conservation and Forestry pursuant to this chapter.

2. **Geolibrarian.** The commissioner shall appoint as the Geolibrarian a person with knowledge of GIS data models, concepts, techniques and technologies and information and library science who shall:
   - A. Collect, organize, disseminate and preserve geographically referenced data in the Geolibrary;
   - B. Provide assistance in referencing and displaying GIS data;
   - C. Coordinate information systems support with an emphasis on geographic data and map-based interfaces.

3. **GIS information officer.** The commissioner shall appoint as the GIS information officer a person to advise the geographic information board and the commissioner regarding GIS data needs for acquisition, maintenance and distribution of GIS data. The GIS information officer shall:
   - A. Plan, organize and direct the Geolibrary's GIS data program;
   - B. Formulate statewide GIS data acquisition and distribution programs;
   - C. Develop policies and procedures for GIS data acquisition and distribution;
   - D. Design, oversee and manage projects;
   - E. Manage grant funds; and
   - F. Coordinate partnerships with local, state and federal agencies, public and private companies, nonprofit organizations and other GIS stakeholders.

§5304. Maine Library of Geographic Information Board

1. **Purposes and duties.** The Maine Library of Geographic Information Board, as established by Title 5, section 12004-G, subsection 30-B, is created within the Department of Agricultural, Conservation and Forestry and has the following purposes and duties:
   - A. To oversee the Geolibrary to ensure that it operates as a coordinated, cost-effective electronic gateway providing public access to data custodians' public geographic information. Nothing in this paragraph may be construed to affect the
rights of persons to inspect or copy public records under Title 1, chapter 13, subchapter 1 or the duty of data custodians to provide for public inspection and copying of those records;

B. To maintain GIS base map data and other multipurpose data not specific to any state agency. All other GIS data are owned by the agency that originally compiled the mapped data that were digitized for the GIS. Data owners are responsible for updating their GIS data and certifying data accuracy;

C. To ensure that GIS data acquired by the Geolibrary for base mapping purposes and added to the Geolibrary are developed and maintained at an accuracy level and in a format that meets current GIS data standards, maintained in a format that is compatible with the GIS and made available to a user upon request;

D. To establish and maintain standards, rules and policies for nonstate data custodians’ geographic information that is incorporated into the Geolibrary. These standards, rules and policies must be consistent with the standards, rules and policies set by the Chief Information Officer within the Department of Administrative and Financial Services that govern state data custodians’ information technology. The geographic information board shall adopt rules to carry out this chapter. Rules adopted pursuant to this paragraph are routine technical rules as defined in Title 5, chapter 375, subchapter 2-A. Standards and policies may concern, without limitation:

   (1) Methods of access to and delivery of information held by the Geolibrary;

   (2) Geographic information system technical specifications;

   (3) Data content, metadata and security, including guideline criteria for accepting 3rd-party data from data custodians or data volunteered from the private sector;

   (4) Privacy and privacy protection;

   (5) Mechanisms to correct inaccuracies; and

   (6) Data validation tools and processes;

E. To reduce redundancies in the creation, verification and maintenance of public geographic information and to enhance its utility for complex analyses.

   (1) Each state data custodian that acquires, purchases, verifies, maintains or produces geographic information with state funds or grants shall:

       (a) Inform the geographic information board and the Office of Geographic Information Systems, established in Title 5, section 1992, of the existence of this information and its geographic extent; and

       (b) Upon request, provide to the Geolibrary an electronic copy of all information classified as public, in a form compatible with standards set by the Chief Information Officer within the Department of Administrative and Financial Services.
(2) Each nonstate data custodian, or its designee, that acquires, purchases, verifies, maintains or produces geographic information with state funds specifically provided for that purpose shall:

(a) Inform the geographic information board and the Office of Geographic Information Systems, established in Title 5, section 1992, of the existence of this information and its geographic extent; and

(b) Upon request, provide to the Geolibrary and Office of Geographic Information Systems, established in Title 5, section 1992, an electronic copy of all information classified as public, in a form compatible with standards set by the Chief Information Officer within the Department of Administrative and Financial Services;

F. To set priorities and authorize the expenditure of state funds, including awarding grants or subgrants to data custodians when available. The geographic information board may seek federal and other funding partners, accept gifts and grants and expend the funds acquired for purposes consistent with this chapter;

G. To promote innovative uses of geographic information through the provision of verified, coordinated, intergovernmental information via the Geolibrary. The geographic information board shall seek advice from the general public, professional associations, academic groups and institutions and individuals with knowledge of and interest in geographic information regarding needed information and potential innovative uses of geographic information;

H. To enter partnerships to promote the purposes of this chapter;

I. To conduct studies relating to the coordination, development and use of statewide geographic information;

J. To report annually by January 1st to the joint standing committees of the Legislature having jurisdiction over natural resources matters and state and local government matters. The report must provide a review of the past year's activities, including, but not limited to, a description of standards adopted, data added to the Geolibrary, partnerships established, studies conducted and financial activity. The Geolibrary shall also make this report available to the public. This report may also include suggested legislative language intended to address geographic information issues needing legislative action; and

K. To develop appropriate internal services to facilitate access to and use of data by governmental agencies and the public. The Geolibrary may not compete directly with private enterprise. The Geolibrary shall work in partnership with nonstate data custodians to promote the purposes of this chapter.

2. Membership. The geographic information board consists of 14 voting members as follows:

A. The commissioner or the commissioner's designee;

B. Two members who are responsible for overseeing GIS functions of a state department that is a data custodian of geographic information, appointed by the Governor;
C. Eight representatives as follows:

(1) A representative of the University of Maine System, appointed by the Chancellor of the University of Maine System;

(2) Two representatives of a statewide association of municipalities, one representative appointed by the President of the Senate from nominations made by the association's governing body and one representative appointed by the Speaker of the House from nominations made by the association's governing body;

(3) One representative of a statewide association of regional councils, appointed by the Speaker of the House from nominations made by the Department of Agriculture, Conservation and Forestry;

(4) One representative of a statewide association of counties, appointed by the Governor from nominations made by the association's governing body;

(5) One representative of a statewide association representing real estate and development interests, appointed by the President of the Senate;

(6) One representative of a statewide association representing environmental interests, appointed by the Speaker of the House; and

(7) One member representing public utilities, appointed by the Governor;

D. Two members of the private sector representing geographic information vendors, one member appointed by the President of the Senate and one member appointed by the Speaker of the House; and

E. One public member, appointed by the President of the Senate.

The terms for the members appointed pursuant to paragraphs B, C, D and E are 3 years. A member who designates another person to serve on the geographic information board as that member's designee pursuant to paragraph A shall provide written notice to the geographic information board's staff of the name and title of the designee.

3. **Board chair.** The geographic information board shall annually elect a chair from its membership at the first meeting in each year.

4. **Staff.** Staff support to the geographic information board is provided by the Department of Agriculture, Conservation and Forestry.

5. **Quorum: action.** Eight members of the geographic information board constitute a quorum. The affirmative vote of 7 members is necessary for any action taken by the geographic information board. A vacancy in the membership of the geographic information board does not impair the right of a quorum to exercise all the powers and perform the duties of the geographic information board. The geographic information board may use video conferencing and other technologies to conduct its business but is not exempt from Title 1, chapter 13, subchapter 1.

6. **Meetings.** The geographic information board shall meet at the call of the chair but not less than quarterly. Notice must be provided no less than 5 working days prior to the meeting. Notice may be in writing by facsimile or electronic transmission.
7. Memoranda of understanding. Information to be provided by a nonstate data
custodian to the Geolibrary may be governed by memoranda of understanding between
the geographic information board and the nonstate data custodian.

8. Data custodian responsibilities. Federal and nonstate data custodians may
voluntarily contribute data to the Geolibrary. Data developed with state funds must be
submitted to the Geolibrary, except when distribution of the data is prohibited under state
or federal laws. Data custodians or their designees are responsible for:

A. Ensuring that the public geographic information is accurate, complete and current
through the creation of adequate procedures;
B. Updating source databases following verification of suggested corrections that
users submit in accordance with geographic information board standards;
C. Complying with standards adopted by the geographic information board; and
D. Providing reasonable safeguards to protect confidentiality.

§5305. Liability

The geographic information board and any of the parties submitting data to the
Geolibrary for public use may not be held liable for any use of the data.

§5306. Copyrights and fees

Copyright or licensing restrictions may not be fixed by the geographic information
board or data custodians to the information made available through the Geolibrary. The
geographic information board may set fees for electronic copies of Geolibrary data that
are no more than 3 times the actual cost of reproduction. The geographic information
board shall set fee schedules annually and make them readily available to requestors.

§5307. Geographic information system data accounts

1. Accounts established. There are established within the Geolibrary separate
accounts, referred to in this section as "the accounts," to be administered by the
geographic information board.

2. Sources of funding. The following must be paid into the accounts:

A. All money appropriated for inclusion in the accounts;
B. All interest earned from investments of the accounts;
C. Any money allocated from Other Special Revenue Funds accounts for the purpose
   of the accounts;
D. Proceeds from any bonds issued for the purpose of the accounts; and
E. Matching funds received from the Federal Government or other legal entity for
   GIS data acquisition expenditures made from the accounts pursuant to subsection 4.

3. Use of accounts. The purpose of the accounts is to continue projects developed
by the geographic information board. The accounts must be used to provide and maintain
to the extent practicable statewide GIS datasets necessary for the efficient delivery of
state services and to conserve state expenditures through partnerships with other GIS
stakeholders interested in acquiring the same datasets. The accounts may be used at the
discretion of the geographic information board for acquiring GIS data primarily including
but not limited to the following datasets:

A. An orthoimagery program. Imagery collected through this program must be from
all areas of the State and be 4-band images that include the red, green, blue and near
infrared bands; and

B. An elevation dataset. A consistent statewide elevation dataset must be collected
using light detection and ranging technology or an equivalent method.

4. Matching funds. State funds used to purchase GIS data must be matched by
funding from other sources at at least a one-to-one ratio.

5. Annual report. The GIS information officer shall submit a written report by
January 15, 2020 and annually thereafter to the Governor and the Legislature on the
accounts' balances and expenditures.

SUMMARY

This bill moves the Maine Library of Geographic Information, the Geolibrary, from
the Department of Administrative and Financial Services to the Department of
Agriculture, Conservation and Forestry and establishes the Maine Library of Geographic
Information Board in the Department of Agriculture, Conservation and Forestry to
administer the Geolibrary. This bill adds a Geolibrarian and a GIS information officer,
appointed by the Commissioner of Agriculture, Conservation and Forestry, to the staff of
the Maine Library of Geographic Information, to collect, preserve and disseminate data,
manage funds and direct the Geolibrary's activities. The bill repeals language allowing
the administrator of the Office of Geographic Information Systems to enter into
agreements with other agencies and to accept funds from public and private
organizations, repeals language describing licensing agreement and fee requirements for
geographic information system data and repeals language allowing the Maine Library of
Geographic Information Board to hear and resolve disputes related to geographic
information system data.
