COMMITTEE AMENDMENT “ ” to H.P. 997, L.D. 1376

SUMMARY

This amendment, which is the majority report of the committee, strikes and replaces the bill. The amendment directs schools to submit annual reports to the Department of Education regarding incidents of physical restraint and seclusion including the number of uses and number of students, broken down by grade level or age group, gender, race and type of education plan, and the number of injuries to students and to staff and directs the Commissioner of Education to report biennially to the Governor and the Legislature on data regarding the use of physical restraint and seclusion.

The amendment also directs the Department of Education to, by rule, develop and implement a performance review system to define and monitor all schools’ use of physical restraint and seclusion.

The amendment also requires the Department of Education to submit major substantive rules by December 5, 2019, provide guidance to schools regarding these rules and submit a plan by January 15, 2020 to the Joint Standing Committee on Education and Cultural Affairs on professional development opportunities to promote preventive practice models that will reduce dependence on physical restraint and seclusion.

The amendment also adds an appropriations and allocations section.

This amendment also incorporates a fiscal note. The fiscal note identifies the requirement that school administrative units break down the aggregate data by grade level or age group, gender, race and type of plan as a potential unfunded state mandate. Because schools are already required to collect this data pursuant to department rule Chapter 33: Rule Governing Physical Restraint and Seclusion, the committee finds this additional requirement does not require an expansion or modification of activities so as to necessitate additional expenditures.
