SUMMARY

This amendment, which is the majority report of the committee, replaces the bill. It changes the threshold for municipalities that must adopt the Maine Uniform Building and Energy Code from municipalities with more than 2,000 residents to municipalities with more than 4,000 residents. It requires the Technical Building Codes and Standards Board to adopt, amend and maintain an individual uniform statewide building code and a uniform statewide energy code that municipalities up to 4,000 residents may choose to adopt. If a municipality with up to 4,000 residents chooses to adopt a building code or an energy code it must adopt the statewide version adopted by the Technical Building Codes and Standards Board, or it may adopt the entire Maine Uniform Building and Energy Code. A municipality with up to 4,000 residents may choose to have no code.
