An Act to Increase the Handling Fee for Beverage Containers Reimbursed to Dealers and Redemption Centers

Emergency preamble. Whereas, acts and resolves of the Legislature do not become effective until 90 days after adjournment unless enacted as emergencies; and

Whereas, the State's successful beverage container redemption program protects public health and safety by preventing litter from polluting water sources and spreading disease and by reducing air and water contamination caused by the burning of containers in a waste-to-energy facility or the disposal of containers in a landfill; and

Whereas, Maine residents rely on beverage container redemption centers as a convenient option for redeeming container refunds, which many residents use to support their household budgets; and

Whereas, redemption centers are struggling to address increased system costs due to inflation and other factors, which have forced many redemption centers to reduce hours or close, while at the same time, recent increased demands for redemption services are overwhelming redemption centers still in operation; and

Whereas, necessary operational changes to streamline the beverage container redemption program cannot be implemented in sufficient time to address the current cost and demand issues overwhelming redemption centers now and in the near future; and

Whereas, an immediate increase in the handling fee paid by initiators of deposit to redemption centers and an additional future increase in that fee, as provided in this legislation, are necessary to prevent further redemption center closures; and

Whereas, in the judgment of the Legislature, these facts create an emergency within the meaning of the Constitution of Maine and require the following legislation as immediately necessary for the preservation of the public peace, health and safety; now, therefore,

Be it enacted by the People of the State of Maine as follows:
