SUMMARY

This amendment changes the definition of "outdoor education program provider" by removing the requirement that the provider qualify as a tax-exempt organization under 26 United States Code, Section 501(c)(3).

The amendment clarifies that grants must be used for students enrolled in publicly funded schools, which means public elementary schools, public charter schools and in all private schools approved for tuition whose school enrollments include at least 60% publicly funded students, as determined by the previous school year's October and April average enrollment. The amendment also clarifies that a student receiving home-school instruction is eligible to participate in the Outdoor School for All Maine Students Program.

The amendment clarifies that an outdoor education program provider is required to provide programs for a 2-night, 3-day experience in addition to day programs as provided in the bill.

The amendment changes the annual report deadline in the bill from December 1, 2023 to March 1, 2024.

The amendment provides that the Outdoor School for All Maine Students Fund is established within the University of Maine Cooperative Extension Service rather than within the Department of Agriculture, Conservation and Forestry. The amendment also requires the University of Maine Cooperative Extension Service, rather than the Department of Agriculture, Conservation and Forestry, to convene the advisory committee.

The amendment adds an emergency preamble and emergency clause to the bill.
