Children with disabilities at least 3 years of age and under 20 years of age, including children in public or private institutions or other care facilities, must be educated with children without disabilities. Special classes, separate schooling or other removal of children with disabilities from the regular educational environment may occur only when the nature or severity of the disability of a child is such that education in regular classes with the use of supplementary aids and services cannot be achieved satisfactorily. [PL 2005, c. 662, Pt. A, §22 (NEW).]

If Braille is not provided to a child who is blind, the reason for not incorporating Braille in the individualized family service plan or individualized education program must be documented in the individualized family service plan or individualized education program. Accessible instructional materials and provisions for the accessibility of online learning programs for individuals with disabilities must be in alignment with the accessible instructional materials provisions

[PL 2009, c. 508, §3 (AMD).]

6. Participation in cocurricular activities. Eligibility for a child with a disability to participate in cocurricular activities may not be denied solely because the student is enrolled in a reduced course load when the reduced course load is due to the student's disability, as long as the student is satisfactorily completing the requirements of the educational components of an individualized family service plan or individualized education program and is otherwise in compliance with the program.
