§3203. Licensing of competitive electricity providers; consumer protections; enforcement

1. Authority. In order to provide effective competition in the market for the generation and sale of electricity in the State and to provide an orderly transition from the current form of regulation to retail access, the commission shall license competitive electricity providers in accordance with this section. [PL 1997, c. 316, §3 (NEW).]

2. Requirements. A competitive electricity provider may not undertake the sale of electricity at retail in this State without first receiving a license from the commission. Before approving a license application, the commission must receive from the applicant:

   B. Evidence of the ability to enter into binding interconnection arrangements with transmission and distribution utilities; [PL 1997, c. 316, §3 (NEW).]
   C. Disclosure of all pending legal actions and customer complaints filed against the competitive electricity provider at a regulatory body other than the commission in the 12 months prior to the date of license application; [PL 1997, c. 316, §3 (NEW).]

[PL 1999, c. 398, Pt. J, §2 (NEW).]

The commission shall consider the need for requiring and, if it determines there is a need, may require a competitive electricity provider to file a bond with the commission as evidence of financial ability to withstand market disturbances or other events that may increase the cost of providing service or to provide for uninterrupted service to its customers if a competitive electricity provider stops service. [PL 1999, c. 398, Pt. J, §§1, 2 (AMD).]

3. Informational filings; public information. The commission shall establish by rule information disclosure and filing requirements for competitive electricity providers. The rules must require generation providers to file their generally available rates, terms and conditions with the commission. The commission, subject to appropriate protective orders, may require the submission of individual service contracts or any other confidential information from a competitive electricity provider.

The commission by rule shall establish standards for making available, through any means considered appropriate, information that enhances consumers' ability to effectively make choices in a competitive electricity market.

Consistent with all applicable requirements of Title 5, chapter 375, the commission may limit the duration and effectiveness of a license to a specified term, may conduct proceedings for the renewal of licenses and may conduct proceedings for the revocation of a license when a requirement of this section has not been complied with by a competitive electricity provider. The commission shall adopt rules governing the procedures for issuing or revoking a license under this section and related matters. [PL 1997, c. 316, §3 (NEW)].

8. Dispute resolution. The commission shall resolve disputes between competitive electricity providers and retail consumers of electricity concerning standards or requirements established by or pursuant to subsection 4, 4-A or 6.

[PL 1999, c. 657, §20 (AMD).]

9. Additional actions. The commission may impose by rule any additional requirements necessary to carry out the purposes of this chapter, except that this section may not be construed to permit the commission to regulate the rates of any competitive electricity provider.

[PL 1997, c. 316, §3 (NEW).]

10. Cease and desist orders. The commission may issue a cease and desist order:

A. Following an adjudicatory hearing held in conformance with Title 5, chapter 375, subchapter IV, if the commission finds that any competitive electricity provider or transmission and distribution utility has engaged or is engaging in any act or practice in violation of any law or rule administered or enforced by the commission or any lawful order issued by the commission. A cease and desist order is effective when issued unless the order specifies a later effective date or is stayed pursuant to Title 5, section 11004; or [PL 1997, c. 316, §3 (NEW).]

B. In an emergency, without hearing or notice, if the commission receives a written, verified complaint or affidavit showing that a competitive electricity provider or a transmission and distribution utility is selling electricity to retail consumers without being duly licensed or is engaging in conduct that creates an immediate danger to the public safety or is reasonably expected to cause significant, imminent and irreparable public injury. An emergency cease and desist order is effective immediately and continues in force and effect until further order of the commission or until stayed by a court of competent jurisdiction. In a subsequent hearing the commission shall in a final order affirm, modify or set aside the emergency cease and desist order and may employ simultaneously or separately any other enforcement or penalty provisions available to the commission. [PL 1997, c. 316, §3 (NEW).]

[PL 1997, c. 316, §3 (NEW).]

The court may issue such orders, preliminary or final, as it considers proper under the facts established before it.

[PL 1997, c. 316, §3 (NEW).]

13. Notice to Attorney General. If the commission has reason to believe that any competitive electricity provider or transmission and distribution utility has violated any provision of law for which criminal prosecution is provided and would be in order or any antitrust law of this State or the United States, the commission shall notify the Attorney General. The Attorney General shall promptly institute any actions or proceedings the Attorney General considers appropriate.

[PL 1997, c. 316, §3 (NEW).]

13-A. Investigation. The commission may investigate any matter relating to the provision of service by a competitive electricity provider pursuant to this chapter. In conducting an investigation under this subsection, the commission shall use the procedures established under section 1303, subsection 2.

14. **Disconnection restricted.** A transmission and distribution utility may not disconnect service to a consumer due to nonpayment of generation charges or any other dispute with a competitive electricity provider, except that the commission may permit disconnection of electric service to consumers of electricity based on nonpayment of charges for standard-offer service provided under section 3212.

[PL 1997, c. 316, §3 (NEW).]

15. **Standard billing.** The commission shall consider requiring standard billing information on bills for electric power service. If standard billing information is required, the commission shall investigate the possibility of adopting standards consistent with other New England states. The commission may not prohibit transmission and distribution utilities from contracting with generation service providers to include both entities' charges on a single bill. The commission may not preclude the inclusion of other information on bills for electric power service.

[PL 1997, c. 316, §3 (NEW).]

16. **Access to load data.** Upon request from a competitive electricity provider, the commission shall provide load data on a class basis that is in the possession of a transmission and distribution utility, subject to reasonable protective orders to protect confidentiality, if considered necessary by the commission.

[PL 1997, c. 316, §3 (NEW).]

17. **Rules.** Except as otherwise provided in this section, rules adopted pursuant to this section are routine technical rules as defined by Title 5, chapter 375, subchapter II-A.

[PL 1997, c. 316, §3 (NEW).]

18. **Confidentiality of consumer information.** Information concerning customers of a competitive electricity provider is subject to the same confidentiality protections afforded utility customer information under section 704, subsection 5.
