1. **Definition.** For purposes of this section, "excavation contractor" means an individual or firm engaged in a business that causes the disturbance of soil, including grading, filling and removal, or in a business in which the disturbance of soil results from an activity that the individual or firm is retained to perform.

   B. Is present at the site each day earth-moving activity occurs for a duration that is sufficient to ensure that proper erosion and sedimentation control practices are followed. [PL 2007, c. 593, §2 (NEW).]

The requirements of this subsection apply until erosion control measures that will permanently stay in place have been installed at the site or, if the site is to be revegetated, erosion control measures that will stay in place until the area is sufficiently covered with vegetation necessary to prevent soil erosion have been installed.

[PL 2007, c. 593, §2 (NEW).]
