[PL 2007, c. 442, §2 (NEW).]

**2-A. Voluntary, technology-forcing emission standard.** An outdoor wood boiler meeting a particulate matter emission limit of 0.06 pounds per million British Thermal Units heat output is not subject to a setback requirement as long as it meets the stack height requirements for an outdoor wood boiler meeting the emission standard in subsection 2 in accordance with rules adopted by the department.

[PL 2009, c. 209, §4 (NEW).]

**3. Nuisance condition.** A person may not operate an outdoor wood boiler in a manner that creates a nuisance condition as defined in the department's rules.

[PL 2007, c. 442, §2 (NEW).]

**4. Emergency powers.** If the commissioner finds after investigation that an outdoor wood boiler is being operated in a manner that creates a nuisance condition or may create or creates a danger to public health or safety, the commissioner may order the owner or any person operating that outdoor wood boiler to immediately cease or prevent that operation, and the commissioner may take such action as may be necessary to terminate or mitigate the danger or likelihood of danger.

C. The person to whom the order is directed shall comply immediately. Within 15 working days after receipt of the application, the board shall hold a hearing, make findings of fact and vote on a decision that continues, revokes or modifies the order. That decision must be in writing and signed by the board chair using any means for signature authorized in the department's rules and published within 2 working days after the hearing and vote.

The nature of the hearing before the board is an appeal. At the hearing, all witnesses must be sworn and the commissioner shall first establish the basis for the order and for naming the person to whom the order is directed. [PL 2007, c. 680, §1 (NEW).]
