An Act To Provide Incentives for Energy Conservation through Voltage Regulation

Be it enacted by the People of the State of Maine as follows:

Sec. 1. 35-A MRSA §3105 is enacted to read:

§ 3105. Voltage regulation technologies

An electric utility may recover from ratepayers the costs of and earn a 15% rate of return on investments and installations of voltage regulation technologies that reduce energy consumption, improve grid efficiency, raise or lower voltage as needed and are 99% or more efficient across at least 90% of the load curve.

SUMMARY

This bill provides that an electric utility may recover from ratepayers the costs of and earn a 15% rate of return on investments and installations of voltage regulation technologies that reduce energy consumption, improve grid efficiency, raise or lower voltage as needed and are 99% or more efficient across at least 90% of the load curve.
