### Preliminary Fiscal Impact Statement

Municipal revenue loss from excise tax exemption  
Minor revenue decrease - General Fund

#### Fiscal Detail and Notes

Municipal revenues would be decreased by exempting motor vehicle excise tax that is now collected from veterans who are receiving VA benefits based on 100% permanent service-connected disability. No estimate of this loss is made at this time.

To the extent that nonresidents meeting this criteria are registering their vehicles and paying excise tax in Maine, General Fund revenues would be decreased by minor amounts not requiring any change to the budget.
