SUMMARY

This amendment clarifies that the Department of Environmental Protection must
receive a notice when an activity under an aquaculture lease application involves a
discharge into the waters of the State. It clarifies who receives notice of a lease renewal
application. It allows the Commissioner of Marine Resources to grant an exception to the
direct supervision of unlicensed assistants when a license holder also has an ownership
interest in an entity, including as a shareholder of a corporation, that also holds an
aquaculture lease. It allows a license holder to designate one unlicensed individual as a
primary assistant who may conduct the licensed activities without the direct supervision of
the license holder.
