Resolve, To Study the Establishment of the Maine Climate Corps

Sec. 1. Service projects; Maine Climate Corps. Resolved: That the Maine Commission for Community Service, established under the Maine Revised Statutes, Title 5, section 7501, shall study and identify short-term projects and tasks in state agencies that could be made into service projects for residents of the State. The commission shall provide the basis for an establishment of the Maine Climate Corps as proposed in the Maine Climate Council's climate action plan, "Maine Won't Wait: A Four-year Plan for Climate Action." The study under this section must include consideration of how to best structure a Maine Climate Corps program to address shifting and expanding climate challenges that can be addressed by the Maine Climate Corps in the future and to allow for long-term service projects. The commission shall also study existing service programs to identify potential hosts for the Maine Climate Corps, along with identifying possible public and private partnerships. The commission shall submit a report based on its findings to the Joint Standing Committee on Environment and Natural Resources by January 31, 2022.
