Amend the bill by relettering or renumbering any nonconsecutive Part letter or section number to read consecutively.

SUMMARY

This amendment adds to the definition of "residential spa" to include a spa located at a lodging place with 10 or fewer rooms or cottages. It replaces the bill's requirement that pool and spa plans and specifications be signed and stamped by an engineer with a requirement that the plans and specifications be sealed by a licensed professional engineer to better reflect industry standards. It clarifies that successor organizations of the American National Standards Institute and the Association of Pool and Spa Professionals will be identified by department rule. It clarifies that the penalties imposed for violations for practitioners of certain occupations are administrative penalties.
