**§2032. Specimens**

The following persons may collect or process specimens: licensed health care professionals; designees of licensed health care professionals acting within their scope of practice; and qualified medical laboratory personnel who are authorized by the director of the medical laboratory.'

Amend the bill by relettering or renumbering any nonconsecutive Part letter or section number to read consecutively.

**SUMMARY**

This amendment allows specimens to be collected or processed by licensed health care professionals and their designees acting within their scope of practice and qualified medical laboratory personnel who are authorized by the director of the medical laboratory. The bill eliminates the requirement for a licensed medical laboratory to send a copy of the itemized statement of laboratory services to the patient. This amendment keeps the requirement for the patient to receive an itemized statement, but enacts it as a separate section within the Maine Medical Laboratory Act.
