3 **SUMMARY**

4 This bill is reported out by the Joint Standing Committee on Agriculture, Conservation
5 and Forestry pursuant to Resolve 2021, chapter 32. The committee is reporting the bill out
6 for the sole purpose of turning the proposal into a printed bill that can be referred to the
7 committee for an appropriate public hearing and subsequent processing in the normal
8 course. The committee has not taken a position on the substance of this bill, and by
9 reporting this bill out the committee is not suggesting and does not intend to suggest that it
10 agrees or disagrees with any aspect of this bill.

11 The bill changes the definitions of “hemp” and “certified seed source” by increasing
12 the amount of allowable tetrahydrocannabinol concentration from a delta-9-
13 tetrahydrocannabinol concentration of not more than 0.3% on a dry weight basis, or as
14 otherwise defined in federal law, to a total tetrahydrocannabinol concentration of not more
15 than 1% on a dry weight basis. Current law provides that a person may plant, grow, harvest,
16 possess, process, sell and buy hemp if that person holds a license issued by the State, except
17 that a person may plant and grow up to 3 hemp plants on no more than one acre of land
18 area or within an indoor facility and harvest, possess and process that hemp for personal
19 use without a license. This bill provides that a person may also plant, grow, harvest,
20 possess, process, sell and buy hemp if that person holds a license issued by the United
21 States Department of Agriculture.
