The board shall:

A. Beginning for the year 2021 and in consultation with the advisory council established under section 2041, subsection 10, determine annual spending targets for prescription drugs purchased by public payors based upon a 10-year rolling average of the medical care services component of the United States Department of Labor, Bureau of Labor Statistics Consumer Price Index medical care services index plus a reasonable percentage for inflation and minus a spending target determined by the board for pharmacy savings; [PL 2021, c. 293, Pt. A, §5 (RPR).]

[PL 2021, c. 293, Pt. A, §5 (RPR).]

3. Recommendations. Based upon the prescription drug spending data received under subsection 2, the board, in consultation with a representative of each public payor identified under subsection 1, paragraph A, shall determine methods for the public payor to meet the spending targets established under subsection 1. The board shall determine whether the following methods reduce costs to individuals purchasing prescription drugs through a public payor and allow public payors to meet the spending targets established under subsection 1:
