CHAPTER 103

PRODUCTS CONTROLLED

SUBCHAPTER 1

APPLES

§531. Definitions

For the purpose of this subchapter, apples packed in a closed package or container or sold at retail in bulk or in an open package or container shall be deemed to be adulterated if their measure, quality, grade or purity do not conform in each particular to the claims made upon the affixed guaranty, and shall be deemed to be misbranded:

1. Container fails to bear all statements. If the package or container, whether open or closed, fails to bear all statements required by section 534;

2. False or misleading statements. If the package or container, whether open or closed, bears any statement, design or device regarding such article or its contents which shall be false or misleading in any particular or is falsely branded in any particular.

§532. Standard box for apples

The standard box for apples shall have the following inside dimensions when measured without distention of parts: Length, 17 inches; width, 13 inches; height, 11 inches. A box having a capacity of 2,431 cubic inches shall be a lawful bushel. [PL 1977, c. 696, §62 (AMD).]

SECTION HISTORY

§533. Standard grades established

The grades for apples recommended by the United States Department of Agriculture and recognized in the central markets of the country as government grades and such other grades or standards as may be promulgated by the commissioner under sections 441 to 447, are made the official state grades for apples of the State presented for intrastate or interstate shipment. All containers as presented for shipment whether by truck, train or boat shall have written, stamped or attached thereon the provisions required in section 534.

§534. Labels; sales in bulk or open package

Every closed package or container of apples, which is packed, sold, distributed, transported, offered or exposed for sale, distribution or transportation in the State by any person shall have affixed in a conspicuous place on the outside thereof a plainly printed statement clearly and truly stating the name and address of the owner or shipper of the apples at the time of packing, the name of the variety, the class or grade of the apples contained therein and the minimum size or the numerical count of the apples in the packages, together with the minimum volume of the apples in the container. If the apples were grown in Maine, that fact shall be plainly designated.

All apples sold, offered, exposed or advertised for sale at retail in bulk or in open packages or containers shall be plainly and conspicuously marked and identified as to variety and grade.

§535. Prohibitions
No person shall, within this State, pack, sell, distribute, transport, offer or expose for sale, distribution or transportation apples which are adulterated or misbranded within the meaning of section 531.

§536. Advertising

When apples are advertised for sale by radio, television, newspapers or any other medium in which the price is to be quoted, such advertisement must state the correct grade, size and variety.

No signs, flyers, advertisements or false labels shall be used to sell or offer for sale or expose for sale any apples which do not conform to the standards as established in section 533. When signs, flyers or posters are used to advertise the price of apples, the variety, size or numerical count, and grade must be shown on such signs, flyers and posters.

§537. Sale and movement of apples

A person, firm or corporation may not within this State sell, distribute, transport, offer or expose for sale, distribution or transportation any apples that do not conform to the apple grades established in section 533. This section does not apply to any person, firm or corporation supplying apples consigned to a processing plant for use therein. This subchapter may not be construed to prevent a grower or shipper of apples from delivering the same to a packing house for grading or to a processing plant or cold storage plant where apples are stored and prepared for market. Apples that do not meet the established grades or classifications as provided by section 533 may be sold as culls as long as the package or container is conspicuously marked with the word "Culls". The commissioner shall diligently enforce this section and in person or by deputy has free access, ingress and egress at all reasonable hours to any place or any building wherein apples are stored, transported, sold, offered or exposed for sale or for transportation. The commissioner may in person or by deputy upon tendering the market price take samples of apples therefrom. [RR 2021, c. 1, Pt. B, §88 (COR).]

SECTION HISTORY

§538. Guaranty bar to prosecution

A person is not subject to suit under this subchapter, if the person can establish a guaranty, signed by the person from whom the person received any such article, to the effect that the same is not adulterated or misbranded within the meaning of section 531. Such guaranty, to afford protection, must contain the name and address of the party or parties making the sale or such article to such dealer, and in such case such party or parties must be amenable to the suits, forfeitures and other penalties that would attach, in due course, to the dealer under this subchapter. [RR 2021, c. 1, Pt. B, §89 (COR).]

SECTION HISTORY

§539. Sale, exchange or transport of "controlled atmosphere" apples

A person may not sell or exchange or offer or expose for sale or exchange or transport for sale any apples represented as having been exposed to "controlled atmosphere" or "modified atmosphere," alone or with other words, or use any such term or form of words or symbols of similar import on any container or lot of apples advertised, sold, offered for sale or transported for sale within this State unless such apples have been kept in a room or storage building with not more than 5% oxygen for a minimum of 45 days, except that the commissioner, after notice and public hearing, may change the minimum number of days, as conditions in the apple industry may require. [PL 2005, c. 512, §28 (AMD).]

If within a period of 50 consecutive days the oxygen content of a sealed storage room is at 5% or less for a total of 45 days, the room qualifies as a legal controlled atmosphere room. [PL 2005, c. 512, §28 (AMD).]
§540. Registration

Any person owning or operating a controlled atmosphere room or storage building or packers or repackers of apples coming under section 539 shall register with the commissioner on a form prescribed by the commissioner. The registration period shall commence on August 1st and end on July 31st of each year. Owners or operators of such a room or storage building shall register on or before August 1st of each year.

The commissioner shall assign each approved registrant a registration number preceded by the letters "Maine C.A." This number shall be clearly marked on all containers coming under section 539 and shall be in accordance with all provisions of law pertaining to markings for apples.

§540-A. Sealing; notification

The commissioner shall be notified of the date of sealing of a controlled atmosphere room within 5 days of the sealing operation. [PL 1971, c. 13, §2 (NEW).]

§540-B. Department of Agriculture, Conservation and Forestry seal

All controlled atmosphere storage rooms must be sealed by a Department of Agriculture, Conservation and Forestry seal affixed by an authorized representative of the department. All storages to qualify for controlled atmosphere must have been sealed by a department representative on or before November 15th of the storage year. [PL 2005, c. 512, §29 (AMD); PL 2011, c. 657, Pt. W, §5 (REV).]

No seal may be broken nor any such room be entered during the 45-day required period, except as provided in section 539. Whenever such interruptions occur, the department must be notified within 48 hours after the opening of such rooms. Such entered room must thereafter be resealed by an authorized representative of the department. [PL 2005, c. 512, §29 (AMD).]

§541. Air components determinations

Each owner or operator shall make the required air components determinations daily. The percent of oxygen shall be reduced to 5% within 20 days after date of sealing.

§542. Records

A record on a form approved by the commissioner must be kept at a convenient location adjacent to such room or storage building from the day of sealing to the day of opening of such room or storage building, and is subject to review by the commissioner or the commissioner's authorized agents at any time for a period of at least one year. It must include the owner or operator's name and address, room number, date of sealing, date of opening, capacity in bushels, lot identification, number of bushels within each lot, daily air components determination recordings showing date of test, time of test, percentage of carbon dioxide, percentage of carbon dioxide and oxygen, percentage of oxygen, temperature and comments. [RR 2021, c. 1, Pt. B, §90 (COR).]

Each owner or operator shall submit to the department, within 20 days after date of sealing, a report in writing for each room showing room number, date of sealing and number of bushels contained therein.

The term "misbranded": [PL 2005, c. 620, §4 (AMD).]

1. **False, misleading or inconspicuous labeling.** As applied to any pesticide subject to this subchapter means that:

   B. It is an imitation of or is distributed under the name of another pesticide; or [PL 2005, c. 620, §4 (AMD).]

   C. Any word, statement or other information required to appear on the label or labeling is not prominently placed thereon with such conspicuousness, as compared with other words, statements, designs or graphic matter, in the labeling and in such terms as to render it likely to be read and understood by the ordinary individual under customary conditions of purchase and use; or [PL 2005, c. 620, §4 (AMD).]

2. **Lack of certain information.** As applied to any pesticide means that:

   A. The labeling does not contain a statement of the use classification under which the product is registered; [PL 2005, c. 620, §4 (AMD).]

   B. The pesticide is not misbranded if the ingredient statement appears prominently on another part of the container as permitted pursuant to FIFRA, Section 2(q)(2)(A) if the size or form of the container makes it impracticable to place it on the part of the retail package that is presented or displayed under customary conditions of purchase; [PL 2005, c. 620, §4 (NEW).]

   C. There is not affixed to its container, and to the outside container or wrapper of the retail package, if there is one, through which the required information on the immediate container cannot be clearly read, a label bearing:

   - (1) The name, brand or trademark under which the pesticide is sold;
   - (4) The net weight or measure of the content;
(5) The name and address of the manufacturer, registrant or person for whom manufactured; and

(6) The EPA registration number assigned to each establishment in which it was produced and the EPA registration number assigned to the pesticide, if required by regulations under FIFRA; [PL 2005, c. 620, §4 (AMD).]

(1) The skull and crossbones;
(2) The word "POISON" in red prominently displayed on a background of distinctly contrasting color; and
(3) A statement of a practical treatment, including first aid or otherwise, in case of poisoning by the pesticide; or [PL 2005, c. 620, §4 (AMD).]

E. The pesticide container does not bear a registered label or the label does not contain all the information required by this subchapter or the rules adopted under this subchapter. [PL 2005, c. 620, §4 (AMD).]

A pesticide if any of the claims made for it or any of the directions for its use or other labeling differs from the representations made in connection with its registration, or if the composition of a pesticide differs from its composition as represented in connection with its registration; a change in the labeling or formulation of a pesticide may be made within a registration period without requiring reregistration of the product if the registration is amended to reflect that change and if that change will not violate any provision of FIFRA or this subchapter; [PL 2005, c. 620, §5 (AMD).]

C. A pesticide unless it is in the registrant's or the manufacturer's unbroken immediate container and there is affixed to the container, and to the outside container or wrapper of the retail package, if there is one, through which the required information on the immediate container cannot be clearly read, a label bearing the information required in this subchapter and rules adopted under this subchapter; [PL 2005, c. 620, §5 (AMD).]

1. Conditions requiring registration. A pesticide may not be distributed in this State unless it is registered with the board in accordance with the provisions of this subchapter, except that registration is not required if:

   A. A pesticide is shipped from one plant or warehouse to another plant or warehouse operated by the same person and is used solely at that plant or warehouse as a constituent part to make a pesticide that is registered under the provisions of this subchapter; or [PL 2005, c. 620, §6 (NEW).]
   B. A pesticide is distributed under the provisions of an experimental use permit issued by EPA. [PL 2005, c. 620, §6 (NEW).]

2. Contents of statement made by applicant. The applicant for registration shall file a statement with the board, which must include:

[PL 2005, c. 620, §6 (AMD).]

5. Power to require other information. The board may by rules adopted under section 610 require the submission of other necessary information. [PL 2005, c. 620, §6 (AMD).]

5-A. Confidentiality. Notwithstanding Title 1, section 402, data submitted pursuant to subsections 3, 4 and 5 that have been determined confidential by the Administrator of the United States Environmental Protection Agency in accordance with 7 United States Code, Section 136h (2007) are confidential and may not be available for public inspection. [PL 2007, c. 597, §8 (AMD).]
6. **Registration fee; programs funded.** The applicant desiring to register a pesticide must pay an annual registration fee of $160 for each pesticide registered for that applicant. Annual registration periods expire on December 31st or in a manner consistent with Title 5, section 10002, whichever is later.

The board shall monitor fee revenue and expenditures under this subsection to ensure that adequate funds are available to fund board and related department programs and, to the extent funds are available, to provide grants to support stewardship programs. The board shall use funds received under this subsection to provide:

A. An annual grant of no less than $135,000 to the University of Maine Cooperative Extension, on or about April 1st, for development and implementation of integrated pest management programs; [PL 2019, c. 243, §1 (AMD).]

B. Funding for public health-related mosquito monitoring programs or other pesticide stewardship and integrated pest management programs, if designated at the discretion of the board, as funds allow after expenditures under paragraph A. C. An annual grant of not less than $65,000 to the University of Maine Cooperative Extension, on or about April 1st, for the development and revision of training manuals for applicator certification, licensing and recertification and to perform other aspects of pesticide education programs. The University of Maine Cooperative Extension may seek the advice of the board in establishing the pesticide education programs and shall submit an annual report on the use of the funds under this paragraph, no later than January 15th, to the board and the joint standing committee of the Legislature having jurisdiction over pesticide education and certification matters. [PL 2019, c. 243, §1 (NEW).]

The University of Maine may not charge overhead costs against grants under this subsection.

By February 15th annually, the board shall submit a report to the joint standing committee of the Legislature having jurisdiction over agriculture, conservation and forestry matters detailing the grants funded by the fee under this subsection. The annual report must include a recommendation by the board as to whether the amount of the fee is adequate to fund the programs described in this subsection. The joint standing committee may report out a bill to the Legislature based on the board's recommendations. [PL 2019, c. 243, §1 (AMD).]

7. **Renewal of registration.** Registrations must be renewed annually prior to January 1st. The board shall mail forms for reregistration to registrants at least 30 days prior to the due date. [PL 2005, c. 620, §6 (AMD).]

8. **Approval of application for registration.** [PL 2005, c. 620, §6 (RP).]

8-A. **Approval of application for registration.** The processing of an application for registration is governed by this subsection.

A. The board shall consider the required information set forth under subsections 2, 3, 4 and 5 and shall register a pesticide if it determines that:

1. Its composition warrants the proposed claims for it;
2. Its labeling and other material required to be submitted comply with the requirements of this subchapter;
(3) It will perform its intended function without unreasonable adverse effects on the environment;
(4) When used in accordance with widespread and commonly recognized practice, it will not generally cause unreasonable adverse effects on the environment; and
(5) A need for the pesticide exists. [PL 2005, c. 620, §6 (NEW).]

B. If, within 180 days from the date the completed application for registration is submitted, the board fails to act upon an application for registration of a pesticide that has been certified by EPA, the pesticide is deemed registered under this chapter unless the board issues a written statement containing the reasons for the failure to act upon the application. The statement of the board is deemed a refusal to register pursuant to section 609. [PL 2005, c. 620, §6 (NEW).]

C. Paragraphs A and B do not apply if the registrant fails to provide any information required to be submitted under this subchapter or does not provide other information requested by the board in order to determine whether the pesticide should be registered.

Nothing in this paragraph affects the rights of the board to make further inquiry regarding the registration of a pesticide or to refuse reregistration, to suspend or revoke registration or to otherwise restrict or condition the use of pesticides in order to protect public health and the environment. [PL 2005, c. 620, §6 (NEW).]

D. Prior to registering a pesticide for a special local need, the board shall classify the uses of the pesticide for general or restricted use in conformity with FIFRA, Section 3(d). The board may not make any lack of essentiality a criterion for denying registration of any pesticide. When 2 pesticides meet the requirements of this paragraph, the board may not register one in preference to the other. [PL 2005, c. 620, §6 (NEW).]

E. The board may establish such other requirements by rule in accordance with section 610 as are necessary to carry out the provisions of this subsection. [PL 2005, c. 620, §6 (NEW).]

9. Adverse environmental effects. If, at any time after the registration of a pesticide, the registrant has additional factual information regarding unreasonable adverse effects of a pesticide on the environment, the registrant shall submit that information to the board. [PL 2005, c. 620, §6 (AMD).]

SECTION HISTORY

§607-A. Review or reregistration

1. Review required. The board shall review chemical pesticides used in this State in accordance with the requirements of this section. The board shall select 2 pesticides for review each year with priority given to pesticides that have patterns of use in this State that differ from prevalent use patterns nationally or regionally. The board may select additional pesticides for review as the board determines need and as resources allow. [PL 2005, c. 620, §7 (AMD).]

2. Review process. In cooperation with technical personnel of the Department of Environmental Protection; the Department of Inland Fisheries and Wildlife; the Department of Health and Human
Services; the Department of Marine Resources; and the Department of Agriculture, Conservation and Forestry, specifically the Maine Forest Service, the board shall conduct a review consisting of the following or portions of the following as the board determines relevant:

A. An environmental risk assessment to determine the effects of pesticides on the ecosystem. This assessment is to be based on available literature. The board shall request data that it determines necessary to carry out the purpose of this chapter; or [PL 2005, c. 620, §7 (AMD)].

B. A health risk assessment, based on a literature search of laboratory, clinical and epidemiological data available within and without the State. The board shall request data it determines necessary to carry out the purpose of this chapter. [PL 2005, c. 620, §7 (AMD)].

2-A. Water residue surveys. The board shall conduct a water residue survey at least once every 6 years to establish a representative sample of a number of wells or bodies of water, selected at random, in areas of possible contamination or at other locations to be described by the board, for the purpose of testing these waters and preparing a profile of the kinds and amounts of pesticides present. [PL 2005, c. 620, §7 (NEW)].

3. Effect of review on reregistration. If the reviews in this section demonstrate that the impact of the pesticide on the ecosystem warrants additional health or environmental safeguards, the board shall require implementation of those safeguards prior to reregistration. The board may not refuse to renew a pesticides registration based solely on its inability to conduct a review in accordance with this section. [PL 2005, c. 620, §7 (AMD).]

§608. Experimental use permits
(REPEALED)

SECTION HISTORY

§609. Refusal to register; cancellation; suspension; legal recourse

1. Procedure. The following provisions govern the board when refusing to register a pesticide, refusing to renew a pesticide registration, canceling a pesticide registration or suspending a pesticide registration.

A. If it does not appear to the board that a pesticide warrants the proposed claims for it or if the pesticide and its labeling and other material required to be submitted do not comply with the provisions of this subchapter or rules adopted under this subchapter, the board shall notify the applicant of the manner in which the pesticide, labeling or other material required to be submitted fails to comply with the provisions of this subchapter so as to afford the applicant an opportunity to make the necessary corrections. [RR 2005, c. 2, §7 (COR).]

B. When the board determines that a pesticide or its labeling does not comply with the provisions of this subchapter or rules adopted under this subchapter, the board may cancel or refuse to renew the registration of a pesticide or change its classification, after notice and opportunity for hearing has been provided in a manner consistent with the Maine Administrative Procedure Act. [PL 2005, c. 620, §9 (AMD).]
C. When the board determines that there is an imminent hazard, it may, on its own motion, suspend the registration of a pesticide in accordance with Title 5, section 10004. [PL 2005, c. 620, §9 (AMD).]

D. When the board becomes cognizant of any possible hazard or violation involving a registered product, it shall cause notice of the possible hazard or violation to be delivered by registered mail, return receipt requested, to the registrant and may cancel or refuse to renew the registration of the pesticide or change its classification after notice and opportunity for hearing has been provided in a manner consistent with the Maine Administrative Procedure Act. [PL 2005, c. 620, §9 (AMD).]

E. [PL 2005, c. 620, §9 (RP).]

2. Federally registered pesticides. If the board determines that any federally registered pesticide, with respect to the use of such pesticide within this State, does not warrant the claims for it, or might cause unreasonable adverse effects on the environment, the board may refuse to register the pesticide as required in section 607 or, if the pesticide is registered under section 607, may cancel or suspend the registration in accordance with subsection 1. If the board believes the pesticide does not comply with the provisions of FIFRA or the regulations adopted by EPA pursuant to FIFRA, it shall advise EPA of the manner in which the pesticide, labeling or other material required to be submitted fails to comply with the provisions of FIFRA and suggest necessary corrections. [PL 2005, c. 620, §9 (AMD).]

3. Person adversely affected by board action. Any person adversely affected by a final action of the board under this section may obtain judicial review thereof by filing in the District Court, within 60 days after the entry of that final action, a petition praying that the action be set aside in whole or in part. A copy of the petition must be forthwith transmitted by the clerk of the court to the board and upon receipt the board shall file in the court the record of the proceedings on which it based its final action. The court has jurisdiction to affirm or set aside the final action complained of in whole or in part. The findings of the board with respect to questions of fact must be sustained if supported by substantial evidence when considered on the record as a whole. Upon application, the court may remand the matter to the board to take further testimony if there are reasonable grounds for the failure to adduce the evidence in the prior hearing. The board may modify its findings and final action by reason of the additional evidence and shall file the additional record and any modification of the findings or final action with the clerk of the court. [PL 2005, c. 620, §9 (NEW).]

[PL 2005, c. 620, §10 (NEW).]

3. Uniformity of requirements; restricted uses.
[PL 2005, c. 620, §10 (RP).]

[PL 2005, c. 620, §10 (NEW).]

5. Review of regulatory agenda; designation as major substantive rules. Notwithstanding Title 5, section 8060, subsection 2, the due date for the submission of a regulatory agenda by the board under
section 8060 is January 15th. The legislative committee of jurisdiction shall complete its review of the board's regulatory agenda no later than Februa

ty 15th of each year. The committee may report out legislation no later than February 20th to designate any rule on the board's regulatory agenda as a major substantive rule subject to legislative review under Title 5, chapter 375, subchapter 2-A. [PL 2005, c. 620, §10 (NEW).]

SECTION HISTORY

§611. Enforcement

1. Board powers. Notwithstanding any other provision of law, the sampling and examination of pesticides or devices for the purpose of determining whether they comply with the requirements of this subchapter must be done under the direction of the board. The board may, upon presentation of proper identification, enter any distributor's premises, including any vehicle of transport, at all reasonable times in order to have access to labeled pesticides or devices packaged for distribution, may open any case, package or other container and may, upon tendering the market price, take samples for analysis. If it appears from such an examination that a pesticide or device fails to comply with the provisions of this subchapter or rules adopted under this subchapter, and the board contemplates instituting criminal proceedings against any person, the board shall cause appropriate notice to be given to that person in a manner consistent with the Maine Administrative Procedure Act. The board shall provide any person so notified an opportunity for a hearing in a manner consistent with the Maine Administrative Procedure Act's provisions governing adjudicatory proceedings. If in the opinion of the board it appears that the provisions of this subchapter or rules adopted under this subchapter have been violated by that person, the board shall refer a copy of the results of the analysis or the examination of such pesticide or device to the attorney for the district in which the violation occurred.
2. **Minor violations.** Nothing in this subchapter may be construed as requiring the board to report minor violations of this subchapter for prosecution or for the institution of condemnation proceedings when the board believes that the public interest will be served best by a suitable notice of warning in writing. [PL 2005, c. 620, §11 (AMD).]

3. **Repeated violations.** The board shall record all violations of this subchapter and Title 22, chapter 258-A, including the name of the owner of the land on which the pesticides were intended to be applied, the name of the licensed pesticides applicator and the name of the person who contracted the pesticide application services. The board shall identify persons who repeatedly violate provisions relating to pesticide use and recommend to the Attorney General methods to prevent further violations by those persons. [PL 2005, c. 620, §11 (AMD).]

### §612. "Stop sale, use or removal" order

When the board has reasonable cause to believe a pesticide or device is being distributed, stored, transported or used in violation of any of the provisions of this subchapter or of any of the rules adopted pursuant to this subchapter, it may issue and serve a written "stop sale, use or removal" order upon the owner or custodian of that pesticide or device. If the owner or custodian is not available for service of the order, the board may attach the order to the pesticide or device and notify the owner or custodian and the registrant. The pesticide or device may not be sold, used or removed until the provisions of this subchapter have been complied with and the pesticide or device has been released in writing under conditions specified by the board or the violation has been otherwise disposed of as provided in this subchapter by a court of competent jurisdiction. The issuance of such an order is not a licensing or an adjudicatory proceeding as defined by the Maine Administrative Procedure Act. [PL 2005, c. 620, §12 (AMD).]

### SECTION HISTORY

### §613. Judicial action after "stop sale, use or removal" order

The following provisions govern judicial actions concerning a "stop sale, use or removal" order by the board. [PL 2005, c. 620, §13 (NEW).]

1. **Filing action; adjudication.** After service of a "stop sale, use or removal" order is made upon any person, either that person, the registrant or the board may file an action in a court of competent jurisdiction in the district in which the violation is alleged to have occurred for an adjudication of the alleged violation. The court may issue temporary or permanent injunctions, mandatory or restraining, and any intermediate orders it determines necessary or advisable. The court may order condemnation of any pesticide or device that does not meet the requirements of this subchapter or rules adopted under this subchapter. [PL 2005, c. 620, §13 (AMD).]

2. **Disposition of condemned pesticide; costs and fees.** If the court orders that a pesticide or device is condemned, the court shall direct that the pesticide or device be disposed of by destruction or sale. If the pesticide or device is directed to be sold, the proceeds less costs, including legal costs, must be paid to the Treasurer of State as provided in section 621. A pesticide or device may not be sold
contrary to the provisions of this subchapter or rules adopted under this subchapter. When a decree of condemnation is entered against a pesticide or device, the court shall charge court costs, fees, storage and other proper expenses against the person, if any, appearing as claimant of the pesticide. The court may direct that the pesticide or device be delivered to the owner, upon payment of costs and execution and delivery of a good and sufficient bond conditioned on the pesticide or device not being disposed of unlawfully, for relabeling, reprocessing or otherwise bringing the product into compliance.  
[PL 2005, c. 620, §13 (AMD).]

3. **Award of court costs and fees.**

[PL 2005, c. 620, §13 (RP).]

[PL 1989, c. 878, Pt. E, §14 (AMD).]

### §616. Penalties

(REPEALED)

### §616-A. Penalties

1. **Informal hearing.** When the staff of the board proposes that the board take action on a possible violation, the board shall notify the alleged violator before discussing the alleged violation. The alleged violator may choose to address the board and may also choose to be represented by legal counsel. This requirement does not constitute and is not subject to the same procedures as an adjudicatory hearing under the Maine Administrative Procedure Act.  
[PL 2005, c. 620, §16 (AMD).]

2. **Civil violations.** The following violations are civil violations.

   A. A person may not violate this subchapter or a rule adopted pursuant to this subchapter or Title 22, chapter 258-A or a rule adopted pursuant to Title 22, chapter 258-A. Except as provided in paragraph B, the following penalties apply to violations of this paragraph.

      (1) A person who violates this paragraph commits a civil violation for which a fine of not more than $1,500 may be adjudged.

If the municipality agrees to perform vegetation control work but does not perform it by the agreed-upon date, the public utility or the Department of Transportation, after 90 days' written notice to the municipality, at its own option may apply pesticides in its right-of-way or use other methods to control the vegetation. [PL 2005, c. 620, §24 (AMD).]

It is the intent of the Legislature that this section make available to municipalities an alternative to right-of-way maintenance procedures that use pesticides. Maine Administrative Procedure Act, such rules and regulations for commercial feeds and pet foods as
are specifically authorized in this subchapter and such other reasonable rules and regulations as may be
necessary for the efficient enforcement of this subchapter. In the interest of uniformity the
commissioner shall by regulation adopt, unless the commissioner determines that they are inconsistent
with this subchapter or are not appropriate to conditions that exist in this State, the following:

of American Feed Control Officials and published in the official publication of that organization;
and [RR 2021, c. 1, Pt. B, §97 (COR).]

SECTION HISTORY

§720. Inspection, sampling and analysis

1. Inspection. For the purpose of enforcement of this subchapter, and in order to determine whether its provisions have been complied with, including whether or not any operations may be subject to such provisions, officers or employees duly designated by the commissioner, upon presenting appropriate credentials, are authorized to enter, during normal business hours, any factory, warehouse or establishment within the State in which commercial feeds are manufactured, processed, packed or held for distribution, or to enter any vehicle being used to transport or hold such feeds, and to inspect at reasonable times and within reasonable limits and in a reasonable manner, such factory, warehouse, establishment or vehicle and all pertinent equipment, finished and unfinished materials, containers and labeling therein. The inspection may include the verification of only such records, and production and control procedures as may be necessary to determine compliance with the good manufacturing practice regulations established under section 717, subsection 4.

[PL 1971, c. 77, §1 (NEW).]

2. Completion. Each such inspection shall be commenced and completed with reasonable promptness. Upon completion of the inspection, the person in charge of the facility or vehicle shall be so notified.

[PL 1971, c. 77, §1 (NEW).]

3. Receipt of sample. If the officer or employee making such inspection of a factory, warehouse or other establishment has obtained a sample in the course of the inspection, upon completion of the inspection and prior to leaving the premises the officer or employee shall give to the owner, operator or agent in charge a receipt describing the samples obtained.

[RR 2021, c. 1, Pt. B, §98 (COR).]

4. Warrant. If the owner of any factory, warehouse or establishment described in subsection 1, or the owner's agent, refuses to admit the commissioner or the commissioner's agent to inspect in accordance with subsections 1 and 2, the commissioner is authorized to obtain from any state court a warrant directing such owner or owner's agent to submit the premises described in such warrant to inspection.

[RR 2021, c. 1, Pt. B, §99 (COR).]

5. Entry. For the purpose of the enforcement of this subchapter, the commissioner or the commissioner's duly designated agent is authorized to enter upon any public or private premises, including any vehicle of transport during regular business hours to have access to, and to obtain samples, and to examine records relating to distribution of commercial feeds.

[RR 2021, c. 1, Pt. B, §100 (COR).]
6. **Methods.** Sampling and analysis must be conducted in accordance with methods published by the Association of Official Analytical Chemists, or in accordance with other generally recognized methods. [PL 2005, c. 512, §40 (AMD).]

7. **Results.** The results of all analyses of official samples shall be forwarded by the commissioner to the person named on the label and to the purchaser, if known, and the distributor of the feed. When the inspection and analysis of an official sample indicates a commercial feed has been adulterated or misbranded, and upon request within 30 days following receipt of the analysis, the commissioner shall furnish to the registrant a portion of the sample concerned. [RR 1991, c. 1, §16 (COR).]

8. **Official sample.** The commissioner, in determining for administrative purposes whether a commercial feed is deficient in any component, shall be guided by the official sample as defined in section 712, subsection 13 and obtained and analyzed as provided for in subsections 3, 5 and 6. The commissioner shall release the lot of commercial feed so withdrawn when such provisions and regulations have been complied with. The issuance of such an order may not be considered licensing or an adjudicatory proceeding, as defined by the Maine Administrative Procedure Act. If compliance is not obtained within 30 days, the commissioner may begin, or upon request of the distributor or registrant shall begin, proceedings for condemnation. [RR 2021, c. 1, Pt. B, §§98-100 (COR).]

2. **Condemnation and confiscation.** Any lot of commercial feed not in compliance with said provisions and regulations shall be subject to seizure on complaint of the commissioner to a court of competent jurisdiction in the area in which said commercial feed is located. In the event the court finds the said commercial feed to be in violation of this subchapter and orders the condemnation of said commercial feed, it shall be disposed of in any manner consistent with the quality of the commercial feed and the laws of the State; provided that in no instance shall the disposition of said commercial feed be ordered by the court without first giving the claimant an opportunity to apply to the court for release of said commercial feed or for permission to process or relabel said commercial feed to bring it into compliance with this subchapter. [PL 1971, c. 77, §1 (NEW).]

§722. **Penalties**

A person may not use to that person's own advantage or reveal to other than the commissioner or officers of the department or to the courts when relevant in any judicial proceeding information acquired under the authority of this subchapter concerning a method, record, formulation or process that as a trade secret is entitled to protection. A person who violates this subsection commits a civil violation for which a fine of not less than $100 and not more than $500 may be adjudged. This prohibition does not prohibit the commissioner or the commissioner's duly authorized agent from exchanging information of a regulatory nature with duly appointed officials of the United States Government or of other states who are similarly prohibited by law from revealing this information. [PL 2003, c. 452, Pt. B, §10 (NEW); PL 2003, c. 452, Pt. X, §2 (AFF).]

3. Application. This subchapter may not be construed as requiring the commissioner or the commissioner's agent to cause suit to be brought or institute seizure proceedings or issue a withdrawal from distribution order as a result of minor violations of this subchapter or when the commissioner believes that the public interest will best be served by suitable notice of warning in writing. [PL 2003, c. 452, Pt. B, §10 (NEW); PL 2003, c. 452, Pt. X, §2 (AFF).]

4. Process. The authorities to whom a violation is reported shall cause appropriate proceedings to be instituted in a court of competent jurisdiction without delay. Before the commissioner reports a violation for suit to be brought, the distributor must have an opportunity to present the distributor's view to the commissioner. [PL 2003, c. 452, Pt. B, §10 (NEW); PL 2003, c. 452, Pt. X, §2 (AFF).]

5. Injunction. This injunction must be issued without bond. [PL 2003, c. 452, Pt. B, §10 (NEW); PL 2003, c. 452, Pt. X, §2 (AFF).]

6. Review. A person adversely affected by an act, order or ruling made pursuant to this subchapter may bring action within 45 days after that act, order or ruling in the Superior Court in the county of the enforcement official's office for judicial review of the actions. The form of the proceeding must be any that may be provided by statute of the State to review decisions of administrative agencies or, in the absence or inadequacy of such a form, any applicable form of legal action, including actions for declaratory judgments or writs of prohibitory or mandatory injunctions. [PL 2003, c. 452, Pt. B, §10 (NEW); PL 2003, c. 452, Pt. X, §2 (AFF).]

No person shall distribute an adulterated commercial fertilizer. A commercial fertilizer shall be deemed to be adulterated:

1. **Quality, etc. not in conformity.** If its weight, composition, quality, strength or purity do not conform in each particular to the claims made upon the affixed guaranty;

2. **Deleterious materials.** If it contains any material in sufficient amount to be deleterious to growing plants or any deleterious or harmful substances in sufficient amount to render it injurious to beneficial plant life, animals, humans, aquatic life, soil or water; or [PL 2001, c. 670, §4 (AMD).]

3. **Other materials.** If it is found to contain any pulverized leather, hair, ground hoofs, horns, wool waste, peat, garbage tankage or any nitrogenous ingredients derived from any inert material, unless the same has been so treated as to be available as plant food as determined by the methods adopted by AOAC International, without an explicit printed statement of fact, conspicuously affixed to the package of the fertilizer and accompanying and going with every lot or package of the same, in which fertilizer materials named in this subsection aid in making up the required or guaranteed analysis. SECTION HISTORY

§748. Regulations, standards and definitions

The commissioner is charged with the enforcement of this subchapter, and is empowered to promulgate and adopt, in a manner consistent with the Maine Administrative Procedure Act, such reasonable rules and regulations as may be necessary to carry into effect the full intent and meaning of this subchapter. The commissioner is empowered to adopt regulations establishing definitions and standards for commercial fertilizer ingredients and such other regulations as may be necessary for the enforcement of any provisions of this subchapter. [PL 1977, c. 694, §75 (AMD).]

1. "**Withdrawal from sale**" orders. When the commissioner has reasonable cause to believe a commercial fertilizer is being distributed in violation of any of the provisions of this subchapter, or of
any of the prescribed regulations under this subchapter, the commissioner may issue and enforce a
written or printed "withdrawal from sale" order warning the distributor not to dispose of the fertilizer
in any manner until written permission is given by the commissioner or the court. The commissioner
shall release the commercial fertilizer so withdrawn when the provisions and regulations have been
complied with and all costs and expenses incurred in the withdrawal have been paid. The issuance of
such an order may not be considered licensing or an adjudicatory proceeding, as defined by the Maine
Administrative Procedure Act. If compliance is not obtained within 30 days, the commissioner may
begin proceedings for condemnation.

[RR 2021, c. 1, Pt. B, §103 (COR).]

2. Condemnation and confiscation. Any lot of commercial fertilizer, not in compliance with this
subchapter, shall be subject to seizure on complaint of the commissioner to a court of competent
jurisdiction in the area in which said commercial fertilizer is located. In the event the court finds the
said commercial fertilizer to be in violation of this subchapter, and orders the condemnation of said
commercial fertilizer, it shall be disposed of in any manner consistent with the quality of the commercial
fertilizer and the laws of the State. In no instance shall the disposition of said commercial fertilizer be
ordered by the court without first giving the claimant an opportunity to apply to the court for release of
said commercial fertilizer or for permission to process or relabel said commercial fertilizer to bring it
into compliance with this subchapter.

3. Establishment of allowances. The commissioner shall establish by rule allowances for
deviations from the guaranteed analysis for plant nutrients and from the overall index value of a
fertilizer. Rules adopted pursuant to this subsection are routine technical rules as defined in Title 5,
chapter 375, subchapter 2-A.

[PL 2007, c. 147, §6 (NEW).]

pursuant to this subchapter.

2. Penalty. The following penalties apply to violations of this section.

$500 may be adjudged. [PL 2007, c. 147, §7 (AMD).]

B. A person who violates subsection 1 after having previously violated subsection 1 commits a
civil violation for which a fine of not more than $1,000 may be adjudged. [PL 2007, c. 147, §7
(AMD).]

[PL 2007, c. 147, §7 (AMD).]

3. Application. This subchapter may not be construed as requiring the commissioner or the
commissioner's agent to report for suit or for the institution of seizure proceedings as a result of minor
violations of this subchapter when the commissioner believes that the public interest will be best served by a suitable notice of warning in writing.

SECTION HISTORY

§751. Assessments for deficiencies

In addition to any fine adjudged under section 750, an assessment for deficiencies in a fertilizer must be made in accordance with this section. For the purposes of this section, a deficiency occurs when an investigational analysis determines that the allowances established in rules adopted under section 748, subsection 3 have been exceeded. [PL 2007, c. 147, §8 (NEW).]

1. Primary plant nutrients; overall index. An assessment of 2 times the commercial value of the deficiency or deficiencies as determined under subsection 3 must be made if:

   A. The analysis determines that a fertilizer is deficient in one or more of its guaranteed primary plant nutrients; or [PL 2007, c. 147, §8 (NEW).]

   B. The analysis determines that the overall index value is deficient. [PL 2007, c. 147, §8 (NEW).]

When a fertilizer is subject to an assessment under both paragraphs A and B, the larger assessment applies. [PL 2007, c. 147, §8 (NEW).]

2. Other deficiencies. When a fertilizer is labeled to guarantee or a bulk fertilizer is accompanied by a statement guaranteeing that the fertilizer contains recognized plant nutrients other than nitrogen, available phosphate or soluble potash, the commissioner may evaluate the fertilizer and prescribe an assessment for deficiencies in any of the claimed nutrients based on commercial values determined under subsection 3. [PL 2007, c. 147, §8 (NEW).]

3. Determination of commercial value. For the purpose of determining the commercial value to be applied in determining assessment under this section, the commissioner shall determine and publish annually the values per unit of total nitrogen, available phosphate and soluble potash or other nutrients that the registrant is required to or may guarantee in fertilizers in this State. The values so determined and published must be used in determining and assessing penalty payments. [PL 2015, c. 191, §7 (AMD).]

4. Payment to consumer; commissioner. Assessments made under subsections 1 and 2 must be paid by the registrant to the consumer of the lot of fertilizer represented by the sample analyzed. The commissioner shall send notification of the amount of the assessment with the results of the analysis sent in accordance with section 745. Assessments must be made within 30 days of the date of the notification. If the consumer cannot be located, the registrant shall submit the assessment to the commissioner for deposit in the commercial fertilizer account under subsection 5. [PL 2007, c. 147, §8 (NEW).]

5. Commercial fertilizer account. The commissioner shall deposit all assessments submitted to the commissioner in accordance with subsection 4 in a dedicated account established within the department. The account is a nonlapsing interest-bearing account. Funds from the account may only be used to pay costs of sampling and analyzing fertilizer. [PL 2007, c. 147, §8 (NEW).]

§779. **Tonnage reporting**

Every person who distributes a plant or soil amendment shall file with the commissioner on or before September 1st in each year, on forms supplied by him, the number of tons of each plant or soil amendment sold in the State during the 12 months preceding July 1st of the current year. [PL 1979, c. 491, §1 (NEW).]

When more than one distributor is involved in the distribution of a plant or soil amendment product, the last registrant who distributes to a nonregistrant is responsible for reporting the tonnage. [PL 1979, c. 491, §1 (NEW).]

**SECTION HISTORY**

PL 1979, c. 491, §§1,2 (NEW).

§780. **Inspection; sampling; analysis; testing**

The commissioner shall sample, inspect, analyze and test plant and soil amendment distributed within the State as the commissioner considers necessary to determine whether the plant or soil amendments are in compliance with this subchapter. The commissioner may enter upon any public or private premises or carriers during regular business hours in order to have access to plant or soil amendments subject to this subchapter and to the records relating to their distribution. [RR 2021, c. 1, Pt. B, §108 (COR).]

The methods of analysis, testing and sampling shall be those adopted by the commissioner from sources such as the Association of Official Analytical Chemists, or other sources acceptable to the commissioner. [PL 1979, c. 491, §1 (NEW).]

The results of official analyses or tests shall be distributed by the commissioner as provided by rule. [PL 1979, c. 491, §1 (NEW).]

If the analyses or tests show that any plant or soil amendments are misbranded or adulterated, disposition of the amendment shall be in accordance with rules. [PL 1979, c. 491, §1 (NEW).]

The commissioner may adopt rules establishing tolerable deficiencies for guaranteed analyses. The commissioner may also establish a schedule of assessments for exceeding the tolerable deficiencies. The assessments must be against the registrant of a soil or plant amendment. The assessments must
bear a reasonable relationship to the commercial value of the deficiency. [RR 2021, c. 1, Pt. B, §109 (COR).]

Nothing contained in this section shall prevent any person from appealing to a court of competent jurisdiction for a judgment as to the justification of the assessments imposed. [PL 1979, c. 491, §1 (NEW).]

The assessments shall in no manner be construed as limiting the consumer's right to bring a civil action in damage against the registrant paying the assessment. [PL 1979, c. 491, §1 (NEW).]

For the purpose of determining commercial values to be applied under this section, the commissioner shall determine from the registrant's sales invoice the values charged for the plant or soil amending ingredients. If no invoice is available or if the invoice fails to provide sufficient information, the commissioner may use other methods to determine values. The values so determined shall be used in determining and levying assessments. [PL 1979, c. 491, §1 (NEW).]

The assessment shall in no manner be construed as limiting the department's right to bring a civil action for a penalty against the registrant. [PL 1979, c. 491, §1 (NEW).]

The assessments and penalties received shall be deposited with the Treasurer of State and are appropriated for carrying out this subchapter. These funds shall not lapse. [PL 1979, c. 491, §1 (NEW).]

In such a case the commissioner shall issue a written warning. [RR 2021, c. 1, Pt. B, §110 (COR).]

The commissioner may apply for a temporary or permanent injunction restraining any person from violating or continuing to violate this subchapter, notwithstanding the existence of other remedies at law. Notwithstanding the provisions of article 4, the commissioner after consultation with the Maine Potato Board may require, by rules adopted pursuant to the Maine Administrative Procedure Act, the inspection of all consumer packs of potatoes for conformity with the U.S. #1 grade or other grades.
Inspection under any rule adopted pursuant to this section must be performed by a licensed federal-state potato inspector, state potato inspector or seed potato inspector. At the request of and in consultation with the Maine Potato Board, the commissioner shall initiate rulemaking to require inspection of consumer packs of potatoes. [PL 1997, c. 388, §2 (AMD).]

A person who violates rules adopted under this section commits a civil violation for which a forfeiture not to exceed $1,000 for the first offense and $2,000 for any subsequent offense may be adjudged. [PL 1995, c. 298, §2 (NEW).]

SECTION HISTORY

§951-A. Minimum standards for planting

A person may not plant seed potatoes in the State, the product of which is intended for sale, in lots of one or more acres unless that seed is certified in accordance with rules adopted by the commissioner. These rules may include without limitation requirements for filing reports with the commissioner and requirements for filing records to the commissioner or the commissioner's designee, upon request, that demonstrate that the potatoes planted have been properly certified. A person, firm or corporation that plants potatoes in violation of this section is subject to a fine of $1,000 plus not more than $400 per acre for each acre or part of an acre planted. Failure to file complete and accurate reports or failure to provide complete and accurate records in accordance with the rules adopted by the commissioner is an additional violation resulting in a separate fine of not less than $200 nor more than $1,000 for each such failure. Any fine collected under this section is payable to the Treasurer of State and credited without lapsing to the commissioner for the enforcement of this section. The commissioner shall adopt and may amend rules consistent with the Maine Administrative Procedure Act to implement this section. In addition to the enforcement powers and penalties established in this section, the commissioner may issue subpoenas to any individual in order to compel delivery of any reports or records required under this section. These subpoenas are enforceable by any court of competent jurisdiction. [PL 2013, c. 475, §1 (AMD).]

In the event there is not available to be planted in Maine in any year a sufficient volume of Maine potato seed meeting Maine certified seed potato disease standards, in any or all varieties, the commissioner may, upon application of one or more growers, permit seed of a higher disease content to be planted for that growing season. [PL 1979, c. 532, §1 (NEW).]

Each grower shall keep records of seed planted by variety and by fields during the growing season and report planting records as may be requested by the commissioner. Notwithstanding Title 1, chapter 13, records pertaining to minimum standards for planting received or kept by the Department of Agriculture, Conservation and Forestry are confidential and not available for inspection. The confidential status terminates when the records are subpoenaed as evidence in any proceeding to enforce a provision of this section, or in any prosecution for a criminal violation. A grower may authorize in writing the disclosure of records pertaining to minimum standards for planting. [PL 1989, c. 783 (AMD); PL 2011, c. 657, Pt. W, §5 (REV).]

SECTION HISTORY

§951-B. Compliance with official standards

To achieve compliance with official standards, the commissioner may adopt, consistent with this Article and with section 402, a fee schedule for inspection of potatoes. The potato inspection fee
schedule may provide for a lower inspection rate for any person who is packing potatoes in a Maine bag as defined by section 1032, subsection 3. [PL 1981, c. 540, §1 (AMD).]

SECTION HISTORY

§952. Branding

It is unlawful for any person, firm, association, organization or corporation, or agent, representative or assistant to any person, firm, association, organization or corporation to expose for sale, or sell, at wholesale or retail, to ship, deliver or consign or have in possession potatoes prepared for market unless in containers that have been legibly and conspicuously tagged, branded, labeled or stenciled with the name and address of the person or persons responsible for packing and the name of the grade, net weight and the word "potatoes." All potatoes packed in this State must be packed in containers that conspicuously bear the name of the country where the potatoes were grown. The person or persons responsible for grading are as follows: If the violation is discovered in the packing house then the person or persons packing the potatoes are responsible; if the violation is discovered at any other place, then the person or persons whose name appears on the container are responsible. Each lot of potatoes sold at wholesale must be accompanied by a bill of lading or invoice stating grade, name and address of packer, name and address of the consignor, name and address of the consignee, date of loading and name of loading point. The bill of lading or invoice is prima facie evidence in any court of the person or persons packing potatoes. It is conclusive evidence that potatoes are exposed for sale when packed in containers for delivery or transit, or when the same are in the process of being loaded in vehicles of transportation. When a violation of this section occurs, it is deemed to have taken place at the loading point or where such violation first became evident to the commissioner or the commissioner's duly authorized representative. Upon request and submission of proof to the Department of Agriculture, Food and Rural Resources by a packer that the packer has on hand a supply of bags that do not meet the requirement that the bags conspicuously bear the name of a country where the potatoes were grown, and those bags were purchased or contracted for before September 23, 1983, the Commissioner of Agriculture, Food and Rural Resources shall exempt the packer from that requirement until January 1, 1986. The commissioner, at the commissioner's discretion and upon unusual circumstances, may grant packers extended waivers until January 1, 1987. [RR 2021, c. 1, Pt. B, §114 (COR).]

SECTION HISTORY

§953. False or misleading potato branding or labeling

Notwithstanding section 952, it shall be unlawful for any person, firm, association, organization or corporation to expose for sale or sell at full sale or retail, to ship, deliver or consign, or have in possession potatoes prepared for market in containers which bear any statements, design or device regarding such potatoes which shall be false or misleading, in any particular, or potatoes packed in such manner that the face or shown surface is not an average of the contents of the package, or potatoes that fail to meet the grade requirements established and promulgated by the commissioner or potatoes that are accompanied by a bill of lading false or misleading in any particular. When a violation of this section occurs, it is deemed to have taken place at the point where such violation first became evident to the commissioner or his duly authorized representative. [PL 1981, c. 513, §5 (AMD).]
SECTION HISTORY

§954. Sale without grading by grower

No provisions of sections 951 to 957 shall be construed to prevent a grower or shipper of potatoes from selling or delivering the same within the State unpacked, or selling his crop in bulk, or any part thereof, to a packer for grading, packing or storage within the State; nor shall any provision of said sections prevent any person from manufacturing the same into any by-product, or from selling the same unpacked to any person actually engaged in the operation of a commercial by-products factory for the sole and express purpose of being used within the State in the manufacture of a by-product. [PL 1965, c. 219, §5 (AMD).]

SECTION HISTORY
PL 1965, c. 219, §5 (AMD).

§954-A. Seizure of misbranded, mislabeled or misrepresented product

Whenever the commissioner or his duly authorized representative shall find from inspection, as authorized in section 956, that potatoes are being sold, exposed for sale, or shipped for sale in containers, and the containers bear any statements, design or device regarding such potatoes which shall be false or misleading, in any particular, or if potatoes are packed in such manner that the face or shown surface is not an average of the contents of the package, or if such potatoes fail to meet the minimum grade requirements established as a state grade by the commissioner, or if the potatoes are not accompanied by a proper bill of lading or invoice as provided by section 952, then the commissioner, or his duly authorized representative, may seize such potatoes so that they cannot be sold, offered, exposed for sale or transported. Any potatoes seized by the commissioner or his duly authorized representative for failure to meet the minimum grade requirements established by the commissioner shall be returned to the person, firm, or corporation responsible for packing the potatoes at the point of origin. Misbranded potatoes shall not be exposed or offered for sale or transported until such potatoes have been regraded and are accompanied by a federal-state inspection certificate showing that the potatoes meet the minimum grade requirements specified on the container. [PL 1975, c. 687, §1 (AMD).]

Notwithstanding section 957, any violation of this section shall constitute a separate civil violation with a minimum penalty of $1,000 for each occurrence. Each lot of potatoes exposed or offered for sale, transported, shipped or dumped without the requisite federal and state inspection certificate required under this section showing that the potatoes meet the minimum grade requirements specified on the container shall constitute a separate violation. There is no violation if the potatoes are removed from the containers under the supervision of the Department of Agriculture, Conservation and Forestry and are to be used for processing or charitable purposes. [PL 1989, c. 605 (NEW); PL 1989, c. 878, Pt. D, §5 (AMD); PL 2011, c. 657, Pt. W, §5 (REV).]

SECTION HISTORY

§955. Exemptions

Certified seed potatoes as defined by chapter 401 are exempted from sections 951 to 957, except as may otherwise be promulgated by the commissioner.

§956. Enforcement; jurisdiction
The commissioner shall diligently enforce all of the provisions of sections 951 to 957. The commissioner, either in person or by a duly authorized representative, has free access, ingress and egress to any place or field or any building, boat, truck, trailer, railroad car, warehouse, depot, station, packing house, boat dock or any building wherein potatoes are packed, stored, transported, sold, offered or exposed for sale or for transportation or for planting. The commissioner may also, in person, or by duly authorized representative, open any container and may take samples therefrom. The commissioner shall, upon written request, pay the packer the fair market value of any sample retained or destroyed by the commissioner. The commissioner may recover fines imposed for violation of those sections in a civil action brought in the commissioner's own name and, if the commissioner prevails in that action, recover full costs. [PL 2013, c. 475, §2 (AMD).]

Any person who refuses or interferes with access by the commissioner or the commissioner's representative as provided for in this section, following oral request and warning given by the commissioner or the commissioner's representative regarding the contents of this section, is guilty of a separate civil violation under section 957. [PL 1993, c. 699, §1 (AMD).]

All fees received under sections 951 to 957 by the commissioner and all money and forfeitures received by the commissioner under those sections must be paid by the commissioner to the Treasurer of State and must be appropriated for carrying out those sections. The commissioner shall, in a manner consistent with the Maine Administrative Procedure Act, establish such rules as may be needed for the proper enforcement of sections 951 to 957. [RR 2021, c. 1, Pt. B, §115 (COR).]

§957. Violations

Any person, firm or corporation who violates any of the provisions of sections 952 to 957 or to Article 4 or neglects or refuses to comply with any of the provisions required therein or in any way violates any of those provisions shall be subject to warning and to civil penalties payable to the State to be recovered in a civil action as provided in this section. [PL 1981, c. 513, §6 (RPR).]

1. First violation.

[PL 1993, c. 699, §2 (RP).]

C. For the 3rd and subsequent violations committed during a shipping season, a forfeiture of not less than $1,500. [PL 1993, c. 699, §3 (NEW).]

[PL 1993, c. 699, §3 (NEW).]

1-B. Mandatory inspection. After notice and an opportunity for hearing in an adjudicatory proceeding in accordance with the Maine Administrative Procedure Act, the commissioner may order a person the commissioner finds has violated this chapter 3 or more times in a shipping season to undergo mandatory inspection in the manner provided in section 446 for a period of one year from the date of the final administrative determination. If the inspection order is stayed during appeal of the administrative determination, the period of the stay is not counted in calculating the one-year period. A person subject to mandatory inspection under this subsection may not ship potatoes packed in consumer packs unless the packs are accompanied by an unrestricted, original certificate of inspection
covering the entire manifest, or an original or a copy of a certificate of inspection positively identifying the actual bags or containers in the shipment. Shipment of potatoes without the certificate required by this subsection is a separate violation subject to the penalties provided by this section.

[PL 1993, c. 699, §3 (NEW).]

2. Violations subsequent to the first.

[PL 1993, c. 699, §4 (RP).]

2-A. No violation. There shall be no violation of section 952 or 953 where the lot of potatoes involved has been segregated and conspicuously marked with a sign stating that the potatoes are known to be out of grade or that the potatoes are awaiting state inspection under section 1036; provided that no such potatoes may be moved without consent of the department, except for purposes of repacking or regrading; and provided further that the department has been notified of the location and quantity of the potatoes involved. Any potatoes segregated under this subsection must be inspected by the department prior to shipment.

[PL 1985, c. 655, §3 (NEW).]

3. Third and subsequent violations.

SECTION HISTORY

§994. Administration

The commissioner shall administer and enforce sections 991 to 994 and has and may exercise any or all of the administrative powers conferred upon the head of a department of the State. In order to effectuate the declared purposes of said sections, the commissioner is authorized to issue, administer
and enforce the marketing orders regulating the marketing of potatoes within the State. [RR 1999, c. 2, §10 (COR).]

Whenever the commissioner has reason to believe that the issuance of a marketing order will tend to effectuate the declared policy of sections 991 to 994, the commissioner shall, in a manner consistent with the rule-making provisions of the Maine Administrative Procedure Act, either upon the commissioner's own motion or upon application of any producer or handler of potatoes, give due notice of and an opportunity for a public hearing upon a proposed marketing order. [RR 1999, c. 2, §10 (COR).]

Due notice of any hearing called for such purpose must be given to all persons who may be directly affected by any action of the commissioner pursuant to sections 991 to 994 and whose names appear upon lists to be filed with the commissioner. Such hearing must be open to the public. All testimony must be received under oath and a full and complete record of all proceedings at any such hearing must be made and filed by the commissioner at the commissioner's office. [RR 1999, c. 2, §10 (COR).]

In order to effectuate the declared policy of sections 991 to 994, the commissioner has the power, after due notice and opportunity for hearing, to enter into marketing agreements with handlers, producers and others engaged in the handling of potatoes, regulating the preparation, sale and handling of potatoes, which said marketing agreement is binding upon the signatories thereto exclusively. The execution of such marketing agreement may in no manner affect the issuance, administration or enforcement of any marketing order provided for in sections 991 to 994. The commissioner may issue such marketing order without executing a marketing agreement or may execute a marketing agreement without issuing a marketing order covering the same subject matter. The commissioner, in the commissioner's discretion, may hold a concurrent hearing upon a proposed marketing agreement and a proposed marketing order in the manner provided for giving due notice and opportunity for hearing for a marketing order as provided in sections 991 to 994. [RR 1999, c. 2, §10 (COR).]

After such notice and hearing, the commissioner may issue a marketing order if the commissioner finds it will tend to effectuate the declared policy of sections 991 to 994, subject to the following: [RR 1999, c. 2, §10 (COR).]

1. Approved by 2/3 of producers participating in referendum. No marketing order or amendment thereto issued pursuant to sections 991 to 994 may become effective unless and until the commissioner determines that the issuance of such order is approved and favored by at least 2/3 of the producers who participated in a referendum on the question of its approval and who, during the preceding fiscal year, have been engaged in the production of potatoes for market within the production area specified in such marketing order, and who, during such year, have produced at least 2/3 of the volume of potatoes produced for market within such production area specified herein by all producers who participated in the said referendum. [RR 1999, c. 2, §10 (COR).]

2. Assent of handlers. No marketing agreement or amendment thereto, directly affecting handlers, issued pursuant to sections 991 to 994, may become effective unless and until the commissioner finds that such agreement has been assented to in writing by the handlers who handle not less than 50% of the volume of the potatoes handled within the area defined in such agreement and by not less than 50% of the number of handlers engaged in handling potatoes within such area. SECTION HISTORY

§1007. Dumping of waste potatoes
(REPEALED)

SECTION HISTORY

§1007-A. Improperly maintaining cull potato piles; public nuisance

1. Declaration of public nuisance. The Legislature declares that the A2 strain of late blight and other potato diseases constitute a clear and present danger to the potato industry in the State, which is a significant part of the State's economy. Control of the A2 strain of potato blight and other potato diseases requires the proper disposal of cull potato piles. The Legislature finds it necessary to exercise the police power of the State to require proper disposal of cull potatoes and cull potato piles and to provide procedures for the disposal of these potatoes by the department when the responsible party fails to comply with the requirements of this section. In addition to constituting a civil violation as prescribed in this section, cull potato piles that are not managed and disposed of in accordance with these requirements are considered a public nuisance and are subject to action under Title 17, chapter 91. [PL 2007, c. 570, §1 (AMD).]

1-A. Definitions. As used in this section, unless the context otherwise indicates, the following terms have the following meanings.

A. "Cull potatoes" means:

(1) Potatoes that are not marketable or usable for human consumption or as seed potatoes;
(2) Potatoes that are used for animal feed;
(3) The residue potatoes left in the field from commercial or seed potato production the preceding year; and

(4) Potatoes that spoil while in storage. [PL 2007, c. 570, §1 (NEW).]

B. "Responsible party" means the owner or lessee of the property on which cull potatoes are found or another person determined to be responsible for the potatoes in accordance with rules adopted under subsection 3. [PL 2007, c. 570, §1 (NEW).]

2. Disposal requirements; maintenance of cull potato piles. The commissioner shall adopt rules in accordance with subsection 3 to prescribe acceptable methods for disposal of cull potatoes and establish best management practices for maintaining cull potato piles. Except as provided in rules adopted under subsection 3, all cull potatoes must be properly disposed of on or before June 10th of each year. A person who keeps a pile of cull potatoes shall maintain the pile in accordance with best management practices. Upon inspection authorized under subsection 4, the commissioner may determine site-specific best management practices for a pile of cull potatoes and order the responsible party to comply with these practices. [PL 2007, c. 570, §1 (AMD).]

3. Rules. The commissioner shall adopt any rules necessary to implement this section in accordance with the Maine Administrative Procedure Act, except that the commissioner may shorten or suspend the notice and hearing requirements as necessary to respond to an imminent threat of disease. The commissioner shall adopt a set of best management practices for the maintenance of cull potato piles between June 10th and October 1st and may adopt a different set of best management practices applicable to piles maintained between October 1st of one year and June 10th of the following year. The commissioner may use emergency rulemaking to temporarily vary:

A. The dates established in subsection 2 when circumstances require that cull potatoes be disposed of prior to the June 10th date to prevent or minimize the spread of disease; [PL 2007, c. 570, §1 (NEW).]

B. The dates established in subsection 2 when weather or economic circumstances allow an extension of the time period during which cull potato piles may be maintained without significantly increasing the threat of disease; and [PL 2007, c. 570, §1 (NEW).]

C. The best management practices prescribed for maintaining cull potato piles when these practices are found inadequate to protect against an imminent threat. [PL 2007, c. 570, §1 (NEW).]

Except in an emergency, the commissioner shall consult with the Maine Potato Board prior to adopting rules under this section. Rules adopted pursuant to this subsection are routine technical rules as defined in Title 5, chapter 375, subchapter 2-A. [PL 2007, c. 570, §1 (AMD).]

4. Department action. The commissioner may take action to properly dispose of or manage cull potatoes and cull potato piles that violate the requirements of this section or any rules of the commissioner adopted to implement this section. The commissioner or the commissioner's designee is authorized to enter any property to inspect cull potato piles and to take any action required to secure their proper disposal or management. Designated representatives of the commissioner may, without search warrant, enter at reasonable times any real property, other than a building, where potatoes are grown, stored, packed, loaded for shipment or handled, and may enter any building, either with the consent of the owner, lessee, occupant or agent or pursuant to an administrative search warrant. Notwithstanding the Maine Rules of Civil Procedure, Rule 80E, paragraph (b), the commissioner or the commissioner's designee may obtain an administrative search warrant pursuant to this section by describing the premises to be entered and the purpose of the inspection or other authorized action and
by demonstrating that the entry is necessary in order to inspect potato cull piles or otherwise carry out 
the requirements of this section. This demonstration is deemed to be a demonstration of probable cause.  
The costs incurred by the department in removing and properly disposing of or managing cull potatoes 
and cull potato piles must be reimbursed by the responsible party or parties, each of whom is jointly 
and severally liable for those costs to the department. The department, its employees and agents and 
any person acting on behalf of the department are not liable for any action taken pursuant to this section. 
[PL 2007, c. 570, §1 (AMD).]

5. **Potato Cull Removal Fund.** The Potato Cull Removal Fund is established to be used by the 
department to administer and enforce the provisions of this section and to pay any expenses of cull 
potato management, removal or disposal. The commissioner may receive funds from any source to be 
deposited into this fund, which does not lapse. If at any time the balance of the fund falls below 
$15,000, any penalties collected under this section must be deposited into the fund. Otherwise, 
penalties collected must be deposited into the General Fund. 
[PL 2007, c. 570, §1 (AMD).]

6. **Civil penalties.** Any person who violates any of the requirements of this section or any rules 
adopted under this section commits a civil violation for which a fine of not more than $1,000 for each 
violation, together with not more than $1,000 for each succeeding day of a continuing violation, may 
be adjudged.

ARTICLE 3

LICENSING
§1011. Purpose

The Legislature finds that the potato industry has a substantial and unique effect on the economy of the entire State and Aroostook County in particular. Large numbers of the people in the State are directly or indirectly dependent on the industry. Over the years the industry has experienced wide fluctuations in prices and quality of product. Such fluctuations have caused commensurate instability in the economy of a large portion of the State. To a great extent the well-being of the industry is dependent upon those persons engaged in the marketing of the potatoes and rotation crops grown by others and the manner in which their services are performed. The entire manner of marketing potatoes and rotation crops is unique and requires special consideration. [PL 1997, c. 606, §1 (AMD).]

The Legislature intends through this legislation to exercise the police power of the State in order to protect and promote the general welfare of the potato industry and the people of the State and maintain and encourage fair and equitable practices in the handling, sale and storage of potatoes and rotation crops. Such stabilization of the potato industry will have the beneficial effect of improving the economy of the entire State. [PL 1997, c. 606, §1 (AMD).]

SECTION HISTORY

§1013. Rules and regulations

The commissioner shall, in a manner consistent with the Maine Administrative Procedure Act, make uniform rules and regulations for carrying out this Article. [PL 1977, c. 694, §100 (AMD).]
§1014. Licensing; agents

No person shall act as a dealer, processor, broker, agent or retailer unless duly licensed as provided in this Article. Every person, before acting as a dealer, processor, broker, agent or retailer, shall file an application with the commissioner for a license to transact the business of a dealer, processor, broker, agent or retailer and such application shall be accompanied by the license fee provided in this Article. [PL 1975, c. 555, §2 (AMD).]

A person may not buy, solicit or negotiate the sale of any potatoes or rotation crops in this State as a representative of any dealer, processor, broker or retailer, unless such a representative has been so authorized by a duly licensed dealer, processor, broker or retailer in writing, and a copy of such authorization is filed with the commissioner, except where such representative conducts business in the office of the dealer, processor, broker or retailer. The commissioner must be notified in writing by the dealer, processor, broker or retailer immediately upon the termination of such authorization. [PL 1997, c. 606, §8 (AMD).]

§1015. Application and renewal for license

The applicant shall file an application for a license or renewal of a license on forms as prescribed and furnished by the commissioner, which must contain the full name of the person applying for the license and, if the applicant is a corporation, partnership, association, exchange or legal representative, officer, director, partner or member of a corporation, partnership, association or exchange, all such names and positions. If the applicant is a foreign corporation, it shall certify that it is authorized to transact business in the State under former Title 13-A, chapter 12 or Title 13-C, chapter 15, and further state the principal business address of the applicant in the State or elsewhere, the address of all places of business in the State, and the name or names of the person or persons authorized to receive and accept service of lawful process upon the applicant within the State. All questions required to be answered in the application for licenses must be sworn to, and intentionally untruthful answers constitute the crime of perjury. [PL 2005, c. 333, §1 (AMD).]

Upon receipt of an initial application, the commissioner immediately shall cause notice of the application to be provided in a manner consistent with the provisions of the Maine Administrative Procedure Act as to adjudicatory proceedings and shall, in any case, cause a copy of the notice to be served upon the Maine Potato Board. Any interested person has 30 days in which to file comments as to the applicant's qualifications, to request a hearing or to file a verified complaint with the commissioner as provided by this Article. [PL 2005, c. 333, §1 (AMD).]

This applicant shall satisfy the commissioner of that applicant's character, financial responsibility and good faith in seeking to engage in the business. The commissioner shall, after notice and opportunity for a hearing has been provided in a manner consistent with the Maine Administrative Procedure Act as to adjudicatory proceedings, issue a license to an applicant if the commissioner is satisfied as to the applicant's qualifications, such license entitling the applicant to act in the capacity described in the license for a period of one year from the date of issuance. A license may not be granted to any applicant if such person or officer, director, partner, or member thereof, has been convicted in any state or federal court of any felony within 5 years of the date of the application. [PL 2005, c. 333, §1 (AMD).]
In order to insure the licensee's financial responsibility and to protect potato and rotation crop producers, the commissioner shall require the licensee to file a bond as a prerequisite to the issuance of a license. The bond must be in a form and amount satisfactory to the commissioner, but not less than $50,000 nor more than $300,000 in the case of dealers and brokers engaged in buying or selling either potatoes or rotation crops, but not both, not less than $50,000 nor more than $400,000 in the case of dealers and brokers engaged in buying and selling both potatoes and rotation crops, or not less than $100,000 nor more than $500,000 in the case of processors, payable to the commissioner in the commissioner's official capacity and conditioned on the full and prompt payment for all potatoes or rotation crops received or purchased from producers or other licensees during the effective period of the license. In the case of processors, the amount of bond required must be based on the licensee's anticipated monthly volume of purchases, but may be adjusted to reflect other federal escrow accounts or bond requirements met by the licensee that satisfy the purposes of this section. [PL 2005, c. 333, §1 (AMD).]

Each license must plainly state the name and business address or addresses of the licensee and must be posted in a conspicuous place in each office where the business is transacted. The fee for each license is $100 annually. Such license may be renewed for successive periods of one year each upon payment of the renewal fee and the submission of an application demonstrating that the applicant continues to meet the requirements for licensing, including filing proof of financial responsibility. A license or license renewal issued expires on the 30th day of June following the date of issuance. The department is not required to provide notice and opportunity for a hearing as provided in the Maine Administrative Procedure Act when granting a license renewal. If the licensee desires to carry on business in more than one place within the State, the licensee shall procure additional copies of the license, certified by the commissioner, for each place where the business is to be conducted. The fee for each such additional certification is $100. In the event a person required to be licensed under this section fails to renew that person's license or submit the annual proof of financial responsibility, the department shall promptly provide notice to members of the potato producing industry through the Maine Potato Board and an agricultural bargaining council. [PL 2005, c. 333, §1 (AMD).]

All fees collected under this Article must be paid to the Treasurer of State and credited to the Department of Agriculture, Conservation and Forestry for the administration of this Article and other expenses incident to the administration of the department, and must be expended by the commissioner for the purposes for which the department is created. If any of such fees are not expended during the year in which they are collected, the unexpended balance does not lapse, but must be carried as a continuing account and available for the purposes specified until expended. [PL 2005, c. 333, §1 (AMD); PL 2011, c. 657, Pt. W, §5 (REV).]

SECTION HISTORY

§1016. Verified complaints; investigation

The commissioner or his duly authorized agent shall have full authority to investigate upon the verified complaint of any interested person, or on his own motion, the conduct and activities of any person applying for or holding a license as dealer, processor, broker, agent or retailer and for such purpose may examine the books and papers of any such person and may take testimony and affidavits thereon under oath. Any interested person who has filed a verified complaint may be a party of record to all proceedings had with regard thereto. [PL 1975, c. 555, §3 (AMD).]

SECTION HISTORY
§1017. Violations

1. Acts enumerated. The commissioner or the commissioner's duly authorized agent may refuse to grant or renew a license, after notice and opportunity for a hearing is provided in a manner consistent with the Maine Administrative Procedure Act as to adjudicatory proceedings, upon a finding that any of the following acts have existed within 2 years of the date of the filing of an application for license:

A. That fraudulent charges or returns have been made by the applicant or licensee for the handling, sale or storage of potatoes or rotation crops, or for the rendering of any service in connection with the handling, sale or storage of potatoes or rotation crops; [PL 1997, c. 606, §10 (AMD).]

B. That the applicant or licensee has failed or refused to render a true account of sales, or to make a settlement thereon, within the time and in the manner required by this Article, or has failed or refused to pay for potatoes or rotation crops purchased by the applicant or licensee within 30 calendar days after acceptance of the potatoes or rotation crops; [PL 1997, c. 606, §10 (AMD).]

C. That the applicant or licensee has knowingly made any false material statement as to the condition, quality or quantity of potatoes or rotation crops received, handled, sold, purchased or stored by the applicant or licensee; [PL 1997, c. 606, §10 (AMD).]

D. That the applicant or licensee directly or indirectly has purchased for that applicant's or licensee's own account, potatoes or rotation crops received by the applicant or licensee upon consignment without prior authorization from consignor together with price fixed by consignor or without promptly notifying the consignor of such purchase. This does not prevent any dealer, processor, broker, agent or retailer, in order to close the day's business, from taking into account in the record of sales miscellaneous lots or parcels of potatoes or rotation crops remaining unsold, if such dealer, processor, broker, agent or retailer on the business day next following properly enters any such transaction in that applicant's or licensee's accounts; [PL 1997, c. 606, §10 (AMD).]

E. That the applicant or licensee has made any substantial misrepresentation as to the conditions of the market for potatoes or rotation crops; [PL 1997, c. 606, §10 (AMD).]

F. That the applicant or licensee has made fictitious sales or has defrauded or attempted to defraud a producer; [PL 1997, c. 606, §10 (AMD).]

G. That a dealer, processor, broker, agent or retailer to whom any consignment is made has reconsigned such consignment to another dealer, processor, broker, agent or retailer and has received, collected or charged by such means more than one commission for making the sale therefor for the consignor without written consent of such consignor; [PL 1975, c. 555, §5 (AMD).]

H. That the licensee knowingly made any false material statements in the procurement of such license; [PL 1971, c. 366 (NEW).]

I. That the applicant or licensee has not accounted promptly and properly to the producer with regard to any claim settled or collected by the applicant or licensee for such producer; [PL 1997, c. 606, §10 (AMD).]

J. That the applicant or licensee has failed or refused, upon demand, to permit the commissioner or the commissioner's agents to make the investigations, examinations or audits as provided in this Article or that the applicant or licensee has removed or sequestered any books, records or papers necessary to any such investigations, examinations or audits, or has otherwise obstructed the same; [PL 1997, c. 606, §10 (AMD).]

K. That the licensee has failed or refused to keep and maintain the records as required by this Article; [PL 1971, c. 366 (NEW).]
L. That the applicant or licensee has committed any act or conduct with regard to the handling, sale or storage of potatoes or rotation crops whether of the same or different character than specified in this subsection, which constitutes or demonstrates bad faith, incompetency or untrustworthiness, or dishonest, fraudulent or improper dealings; [PL 2005, c. 333, §2 (AMD).]

M. That the applicant or licensee has failed to deliver to the seller the confirmation required by section 1022 within the time specified; or [PL 2005, c. 333, §2 (AMD).]

N. That the applicant or licensee has failed to maintain a bond to ensure financial responsibility to producers or other licensees as required under section 1015. [PL 2005, c. 333, §2 (NEW).]

The District Court may, in a manner consistent with the Maine Administrative Procedure Act, suspend or revoke a license upon finding any of the enumerated violations within 2 years of the date of the filing of a complaint. [PL 2005, c. 333, §2 (AMD).]

1-A. Mandatory nonrenewal. [PL 1983, c. 829, §15 (RP).]

2. Conditional. Any order revoking or suspending a license may, within the discretion of the District Court be made conditional upon the settlement, adjustment or satisfaction of the consequence of the violation or violations as specified, and the operation of such an order may be deferred for such purpose. Any such order may contain provisions for modification or dismissal thereof upon presentation to the District Court of evidence that the matter of complaint has been settled, adjusted or withdrawn at any time before such order becomes final. [PL 1977, c. 694, §105 (AMD); PL 1999, c. 547, Pt. B, §78 (AMD); PL 1999, c. 547, Pt. B, §80 (AFF).]

3. Effective date. The commission of the acts enumerated in this section after September 23, 1971 constitutes a violation of this Article. [PL 1975, c. 555, §§4, 5 (AMD).]

4. Notification of insufficient or no payment. Producers may notify the Department of Agriculture, Conservation and Forestry of insufficient or no payment for potatoes or rotation crops after acceptance by any processor, dealer, broker, agent or retailer in the State in violation of subsection 1, paragraph B.

A. The Commissioner of Agriculture, Conservation and Forestry or the commissioner's agent, upon notification by producers of insufficient or no payment, shall immediately investigate the complaint and shall, in a manner consistent with the provisions of the Maine Administrative Procedure Act as to adjudicatory proceedings, hold a hearing, unless such hearing is waived by the processor, dealer, broker, agent or retailer against whom the charge has been made. The processor, dealer, broker, agent or retailer accused of nonpayment shall provide the commissioner with a copy of the contract, if any, and all other materials and information to enable the commissioner to carry out the provisions of this section. Upon finding after investigation that the processor, dealer, broker, agent or retailer has violated the contract, express or implied, the commissioner may recover the proceeds of the bond required by section 1015 and apply those proceeds against the amounts owed producers. In the event the bond proceeds are inadequate to cover the debts owed producers, the commissioner shall require the processor, dealer, broker, agent or retailer to post an additional bond sufficient to cover the remaining debt owed to the producer or producers.

(1) The commissioner, after determination upon a hearing of insufficient payment or nonpayment of debts owed to a producer, may require the licensee to formulate a schedule of payments to the producer that is satisfactory to the commissioner. The schedule of payments may not exceed a 30-day period.
(2) The licensee, who after a hearing is determined to be in default of payment to a producer, shall submit a payment schedule to the commissioner within one week from the commissioner's request for a payment schedule. In the event that the schedule of payment is not satisfactory to the commissioner, the commissioner shall establish the schedule of payment not to exceed a 30-day period.

(3) The commissioner shall file a complaint with the District Court seeking to suspend the license of any licensee who fails to conform to the payment schedule established in this section until the producer is paid the total claim to which the producer is entitled.

(4) Upon the filing of a complaint by the commissioner in the District Court, the licensee shall post a bond sufficient to cover the total claim owed the producer on the date on which the complaint is filed. The bond required for an appeal procedure may be waived by the District Court in the event that the bond required by the commissioner under section 1015 or this paragraph is valid and sufficient to cover the total claim owed the producer.

(5) Nothing in this section may be construed to prohibit a producer from seeking redress for insufficient payment or nonpayment from licensees in any court or in accordance with any federal procedure established to obtain redress. [PL 2011, c. 657, Pt. W, §6 (REV); PL 2011, c. 691, Pt. D, §2 (AMD).]

Q. If there is a broker involved in the transaction, an itemized accounting that separately sets forth all charges in connection with the sale, including the brokerage fee, if any. [PL 1997, c. 606, §12 (AMD).]

1-A. Processor records. Every processor licensed under this Article, upon having purchased potatoes or rotation crops from the producer, shall cause a record of the transaction to be made, and deliver promptly to the seller a copy of that record setting forth the following with reference to the handling, sale and storage of those potatoes or rotation crops:

A. Date of sale; [PL 1983, c. 465, §3 (NEW).]
B. Name and address of producer; [PL 1983, c. 465, §3 (NEW).]

2. Guarantees. In any sale in which the buyer of such potatoes is a person required to be licensed by this article and has a place of business in this State except a retailer, any guarantees with regard to grade, size, weight or other specifications, made by the producer shall be deemed satisfied when the grade, size, weight or specifications, as certified by a licensed federal-state potato inspector, or seed potato inspector, after the potatoes have been or while they are being loaded for transit, equals or exceeds the grade, size, weight or other specifications of the potatoes stated in the record of transaction.

Any producer making any such guarantees shall at all times prior to shipment have the option to determine whether or not the potatoes shall be inspected in accordance with this subsection. Any attempt by a dealer to coerce or influence a producer to forego an inspection shall be a civil violation subject to section 1028. Any agreement the effect of which is to deny the producer the right to satisfy the producer's guarantee obligations and any agreement conflicting with this subsection are void; provided that a producer waives any rights under this subsection or may sell potatoes under an agreement conflicting with this subsection when the record of transaction required by this article contains the following additional information:

A. Name and address of the person to whom the dealer resold the potatoes and any other person to whom the producer is obligated, directly or indirectly, by making any guarantees with regard to grade, size, weight or other specifications; [PL 1971, c. 600, §7 (NEW).]

B. Point of final destination for the shipment of potatoes; and [PL 1989, c. 319 (AMD).]

C. Price for the potatoes, per unit at final destination. [PL 1989, c. 319 (NEW).]

A buyer or dealer who attempts to enforce or hold a producer liable under a guarantee obligation, when the potatoes have been inspected in accordance with this subsection, without supplying the information in paragraphs A, B and C commits a civil violation and shall be subject to section 1028. [PL 1989, c. 319 (AMD).]

3. Waiver. In any sale by a producer in which the making of a record of such transaction is required by this Article and the name and address of the buyer are not set forth on such record, or if no such record of transaction is made or if a copy of the record of transaction is not delivered by depositing the copy in the United States mail, postage prepaid, addressed to the producer, prior to delivery of the potatoes or rotation crops at the point of final destination, the producer is deemed not to have made any guarantees with regard to grade, size, weight or other specifications, and such omission by the buyer or broker or agent constitutes a waiver of any and all claims against the producer for breach of warranty, expressed or implied. [PL 1997, c. 606, §14 (AMD).]

4. Copies of documentation. Before any change may be made in the agreed upon price, there shall be mutual agreement between the parties. The agreement must be verified in writing and, along with available documentation as to quality defects mailed to the seller within 2 working days of the availability of the documentation. [PL 1983, c. 336, §4 (NEW).]

SECTION HISTORY

Agreement to collect from the buyer and remit to the seller is not a guarantee by the broker that the buyer will pay for the potatoes or rotation crops purchased, unless there is a specific agreement by the broker that the broker will pay if the buyer does not pay. [PL 1997, c. 606, §15 (AMD).]

B. The broker shall, to the best of the broker's ability, make all necessary arrangements to effect the transportation of said shipment to the buyer, but the broker, in the absence of a specific agreement, does not guarantee the carrier payment of carrier charges. [PL 1997, c. 606, §15 (AMD).]

C. The broker shall prepare, file and fully process with the carrier any and all claims for the seller of the potatoes or rotation crops, including taking all necessary action to bring the matter to a conclusion. [PL 1997, c. 606, §15 (AMD).]

3. Agents contracts. A person required to be licensed by this Article may not act as an agent for any grower without first having an agreement with the grower reduced to a written contract clearly defining the duties and responsibilities of both parties, the extent of the agent's authority in distributing the potatoes or rotation crops, and the agent's fee or selling charge, if any. [PL 1997, c. 606, §16 (AMD).]

4. Agent's fees. The agent's fee or selling charge shall be charged the seller only upon receipt from the buyer of payment in full of the gross proceeds from the sale. [PL 1971, c. 600, §9 (NEW).]

§1024. Exemptions

1. Producers. Producers are exempt from this Article when selling potatoes or rotation crops that they have grown, that they are presently growing or that they intend to grow, except when acting as an agent. [PL 1997, c. 606, §17 (AMD).]

2. Processors.
3. Retailers. Retailers are exempt from this Article. [PL 1971, c. 600, §10 (NEW).]

A producer or a licensee bringing an action against the bond must provide the department with notice of intent to file a claim within 30 days of the payment due date. A formal verified complaint and supporting documentation must be filed with the department within 90 days of the payment due date. [PL 2005, c. 333, §4 (AMD).]

No packer, shipper, dealer or broker shall prepare for market, send to market or arrange for the sale of, or have possession or control of any potatoes in a Maine bag which have not been determined at point of origin by a duly authorized inspector to have met the standards required by this article. For the purposes of this subsection, the production of an unrestricted, original certificate of inspection covering the entire manifest, or an original or copy of a certificate of inspection positively identifying the actual bags or containers in question shall be deemed to satisfy the requirements of this subsection. The commissioner may promulgate rules consistent with the Maine Administrative Procedure Act, Title 5, chapter 375, to designate other circumstances which will be deemed to satisfy the requirements of this subsection. [PL 1981, c. 513, §§10, 12 (NEW).]

3. Revocation. It is the duty of the commissioner, who may act through the commissioner's authorized agents:
[RR 2021, c. 1, Pt. B, §122 (COR).]
1. **Inspection.** To sample, inspect, cause to be analyzed or tested, agricultural, vegetable or tree and shrub seeds transported, sold or offered or exposed for sale within this State for sowing purposes, at such time and place and to such extent as the commissioner considers necessary to determine whether said agricultural, vegetable or tree and shrub seeds are in compliance with this subchapter, and to notify promptly of any violation, the person who transported, sold, offered or exposed the seed for sale;

[RR 2021, c. 1, Pt. B, §122 (COR).]

2. **Rules and regulations.** To prescribe and, in a manner consistent with the Maine Administrative Procedure Act, to adopt rules and regulations governing the methods of sampling, inspecting, analysis, test and examination of agricultural, vegetable or tree and shrub seeds, and the tolerances to be followed, which must be in general accord with officially prescribed practice in interstate commerce, and such other rules and regulations as may be necessary to secure the efficient enforcement of this subchapter.

[RR 2021, c. 1, Pt. B, §122 (COR).]

**SECTION HISTORY**

§1047. **Powers**

For the purpose of carrying out this subchapter, the commissioner or the commissioner's duly authorized agents have authority:

[RR 2021, c. 1, Pt. B, §123 (COR).]

1. **Stop-sale orders.** To issue and enforce a written or printed "stop-sale" order to the owner or custodian of any lot of agricultural, vegetable or tree and shrub seeds which the commissioner finds is in violation of any of the provisions of this subchapter, which order shall prohibit further sale of such seed until such officer has evidence that the law has been complied with. The issuance of such an order shall not be considered licensing or an adjudicatory proceeding, as defined by the Maine Administrative Procedure Act. No "stop-sale" order shall be issued or attached to any lot of seed without first giving the owner or custodian of such seed an opportunity to comply with the law. The owner or custodian of seeds which have been denied sale by a "stop-sale" order shall have the right to appeal from such order to a court of competent jurisdiction in the locality in which the seeds are found, praying for a judgment as to the justification of said order and for the discharge of such seed from the order. This subsection shall not be construed as limiting the right of the enforcement officer to proceed as authorized by other provisions of this subchapter.

[PL 1977, c. 694, §114 (AMD).]

2. **Employ qualified persons.** To employ qualified persons under the Civil Service Law and to incur such expenses as may be necessary to carry out this subchapter; and

[PL 1985, c. 785, Pt. B, §44 (AMD).]

3. **Cooperate with Federal Government.** To cooperate with the Federal Government in seed law enforcement.

**SECTION HISTORY**

§1048. **Seizure**

Any lot of agricultural, vegetable or tree and shrub seeds not in compliance with this subchapter shall be subject to seizure on complaint of the commissioner to a court of competent jurisdiction in the locality in which the seed is located. In the event that the court finds the seed to be in violation of this subchapter, and orders the condemnation of said seed, it shall be denatured, processed, destroyed, relabeled or otherwise disposed of as provided in this subchapter. In no instance shall the court order such disposition of seed without first having given the claimant an opportunity to apply to the court for
the release of said seed or permission to process or relabel it to bring it into compliance with this
subchapter. [PL 1969, c. 42, §10 (AMD).]

SUBCHAPTER 11-A
GENETICALLY ENGINEERED PLANTS AND SEEDS

§1051. Definitions

As used in this subchapter, unless the context otherwise indicates, the following terms have the
following meanings. [PL 2001, c. 330, §1 (NEW).]

1. Cross-contamination. "Cross-contamination" means the unintentional transfer and
incorporation of genetic material between a genetically engineered crop, by cross-pollination or other
means, and a nongenetically engineered crop or a wild plant population.
[PL 2001, c. 330, §1 (NEW).]

2. Genetically engineered. "Genetically engineered" means the application of in vitro nucleic
acid techniques, including recombinant deoxyribonucleic acid and direct injection of nucleic acid into
cells or organelles, or the fusion of cells beyond the taxonomic family, that overcome natural
physiological reproductive or recombinant barriers and that are not techniques used in traditional
breeding and selection.
[PL 2007, c. 602, §1 (AMD).]

3. Seed dealer. "Seed dealer" means a person who cleans, processes, sells or offers for sale a
genetically engineered plant part, seed or plant in the State.
[PL 2007, c. 602, §2 (AMD).]

4. Manufacturer. "Manufacturer" means a person that produces or commercializes a genetically
engineered plant part, seed or plant, not including a farm operation as defined in section 152, subsection
6.
[PL 2009, c. 323, §1 (AMD).]

4-A. Pharmaceutical or industrial crop. "Pharmaceutical or industrial crop" means a plant that
has been genetically engineered to produce a medical or industrial product, including a human or
veterinary drug, a biologic, industrial or research chemical, enzymes, vaccines, human antibodies and
human blood proteins.
[PL 2009, c. 388, §1 (NEW).]

5. Technology use agreement. "Technology use agreement" means an agreement between a
manufacturer and a farmer that controls the right to plant a given genetically engineered plant part, seed
or plant on a specific area of land for a certain period of time.
[PL 2007, c. 602, §4 (NEW).]

2009, c. 388, §1 (AMD).

§1052. Responsibilities of manufacturer

A manufacturer of genetically engineered plants, planting stock or seeds that present a risk of cross-
contamination and are sold or distributed in this State is subject to the provisions of this subchapter.
[PL 2001, c. 330, §1 (NEW).]
1. **Instructions.** The manufacturer or seed dealer of the genetically engineered plants, plant parts or seeds shall provide written instructions to all growers on how to plant the plant parts, seeds or plants and how to grow and harvest the crop to minimize potential cross-contamination. These instructions must be at least as inclusive as guidelines issued by the United States Department of Agriculture relative to the establishment of buffer zones between genetically engineered plants and wild or cultivated plants subject to the risk of cross-contamination. The manufacturer or seed dealer shall file a copy of these instructions with the commissioner at least 20 days in advance of any sale of the genetically engineered plants, plant parts or seeds in this State.

[PL 2001, c. 330, §1 (NEW).]

2. **Record keeping.** The manufacturer or seed dealer shall identify and maintain, for at least 2 years after the date of sale, a list of the names and addresses of all growers of its genetically engineered plants, plant parts or seeds in this State. The list is not a public record as defined in Title 1, section 402, subsection 3. A manufacturer or seed dealer shall permit the commissioner to inspect the list when requested to facilitate an investigation into a claim of cross-contamination. A manufacturer or seed dealer is not required to keep records on seeds sold at the retail level in packets weighing less than one pound.

A manufacturer of genetically engineered seeds is not required to keep records under this subsection when the required records are being kept by a seed dealer.

[PL 2001, c. 330, §1 (NEW).]

2-A. **Reporting.** A manufacturer selling genetically engineered plant parts, plants or seeds in the State shall annually report to the commissioner the total potential acreage at a given planting density of genetically modified crops that could be grown based on the amount of each genetically engineered product sold in the State. Individual manufacturer data received under this subsection is confidential and may not be made public. The commissioner shall make public aggregate data that does not reveal the sales activities of an individual manufacturer. The commissioner shall provide aggregate data on sales of genetically engineered trees, tree seedlings, tree seeds, tree scions and other propagative materials to the Department of Agriculture, Conservation and Forestry, Bureau of Forestry.

[PL 2009, c. 323, §2 (NEW); PL 2011, c. 657, Pt. W, §§5, 7 (REV); PL 2013, c. 405, Pt. A, §23 (REV).]

In accordance with Title 5, chapter 375, the commissioner may suspend or revoke a license issued under section 1044 a if the holder of the license fails to comply with this subchapter.

[PL 2001, c. 330, §1 (NEW).]

§1053. De minimus possession and venue

1. **De minimus possession.** If a genetically engineered product in which a manufacturer has rights is possessed by a farmer or found on the property owned or occupied by the farmer and the presence of the product is either de minimus or not intended by the farmer, the farmer is not liable for breach of a seed contract nor for any damages claimed by the manufacturer.

[PL 2007, c. 602, §5 (NEW).]

2. **Venue.** An infringement case brought against a grower who does not have a current technology use agreement with a manufacturer must be brought in a venue where the farmer resides or where the disputed crop was grown.

[PL 2007, c. 602, §5 (NEW).]
§1054. Rulemaking

The commissioner shall adopt rules to establish best management practices to maintain the integrity of crops and minimize potential conflict between farmers. Rules adopted under this section are major substantive rules as defined in Title 5, chapter 375, subchapter 2-A. [PL 2007, c. 602, §6 (NEW).]
